[**Source:** Amended at 39 Ok Reg 5, eff 7-19-21 (emergency); Amended at 39 Ok Reg 6, eff 8-12-21 (emergency); Amended at 39 Ok Reg 1332, eff 9-11-22]

310:515-1-1.1. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"**AFB**" means Acid Fast Bacillus.

"**AIDS**" means Acquired Immunodeficiency Syndrome.

"**ALT**" means alanine aminotransferase.

"**Anti-HAV-IgM+**" means a positive test result for the hepatitis A virus immunoglobulin M antibody.

"**Anti-HBc-IgM+**" means a positive test result for the hepatitis B core immunoglobulin M antibody.

"**CD4**" means cluster of differentiation 4 glycoprotein that serves as a receptor for HIV on T helper cells.

"**CIDT**" means culture independent diagnostic test system/panel used to detect multiple pathogens.

"**Department**" or "**OSDH**" means the Oklahoma State Department of Health.

"**E. coli**" means *Escherichia coli*.

"**EDTA**" means Ethylenediaminetetraacetic acid.

"**EIA**" means enzyme immunoassay.

"**HbeAg+**" means a positive test result for the hepatitis B "e" antigen.

"**HbsAg+**" means a positive test result for the hepatitis B surface antigen.

"**HBV DNA+**" means a positive test result for deoxyribonucleic acid of the hepatitis B virus.

"**HIV**" means Human Immunodeficiency Virus.

"**LGV**" means lymphogranuloma venereum.

"**PHIDDO**" or "**PHIDDO system**" means Public Health Investigation and Disease Detection of Oklahoma system.

"**NAT for HCV RNA+**" means a positive nucleic acid amplification test result for hepatitis C virus ribonucleic acid.

"**Novel Influenza A**" means an influenza A virus not endemic, not routinely circulating, or for which there is little to no pre-existing immunity, e.g., influenza A H3N2 variant, H5N1, H5N2, H7N3, or H7N9.

"Outbreak of disease" means two or more cases residing in different households that have a similar clinical syndrome of a potentially infectious disease, toxin, or agent of known or unknown etiology.

"RIBA" means recombinant immunoblot assay.

"S/co" means the signal-to-cut-off-ratio.

"Spp." is an abbreviation referring to the term "species," and is used to broaden the antecedent term in order to include all organisms that may be found or described within a given genus.

"Unusual disease or syndrome" means a case of an uncommon, possibly infectious disease of known or unknown etiology, even if laboratory testing may be pending or inconclusive, or if testing for common etiologies is negative. Such cases of disease may not normally be endemic to Oklahoma, may represent emerging or re-emerging disease, and/or disease for which a public health intervention may be needed. Examples of such unusual diseases or syndromes include but are not limited to, unexplained adult respiratory distress syndrome, rash illness with atypical presentation, or an illness occurring along with an unusual pattern of illness or death among animals.

310:515-1-2. Diseases to be reported

The diseases listed in this Chapter must be reported, along with patient identifiers, demographics, and contact information, to the Department upon discovery as dictated in sections OAC 310:515-1-3 and OAC 310:515-1-4. Laboratories reporting diseases described in 310:515-1-3, 310:515-1-4(1) and 310:515-1-4(2), or as may be otherwise required to be reported by OSDH, shall be reported electronically using the manner and format prescribed by the State Commissioner of Health.

[Source: Amended at 17 Ok Reg 2942, eff 7-13-00 ; Amended at 19 Ok Reg 1285, eff 5-28-02 ; Amended at 24 Ok Reg 1978, eff 6-25-07 ; Amended at 27 Ok Reg 2522, eff 7-25-10 ; Amended at 34 Ok Reg 1287, eff 10-1-17 ; Amended at 39 Ok Reg 6, eff 8-12-21 (emergency); Amended at 39 Ok Reg 1332, eff 9-11-22]

310:515-1-3. Diseases and conditions to be reported immediately

The following diseases/conditions associated with humans must be reported by any health practitioner or laboratory personnel to the OSDH electronically via secure electronic data transmission and by telephone (405 426-8710) immediately upon suspicion, diagnosis, or testing.

- (1) Anthrax (*Bacillus anthracis*).
- (2) Bioterrorism - suspected disease.
- (3) Botulism (*Clostridium botulinum*).
- (4) Diphtheria (*Corynebacterium diphtheriae*).
- (5) Free-living amebae infections causing primary amebic meningoencephalitis (*Naegleria fowleri*).
- (6) Hepatitis B during pregnancy (HBsAg+).
- (7) Measles (Rubeola).
- (8) Meningococcal invasive disease (*Neisseria meningitidis*).
- (9) Novel coronavirus.

- (10) Novel influenza A.
- (11) Outbreaks of apparent infectious disease.
- (12) Orthopox viruses (i.e., Smallpox, Monkeypox).
- (13) Plague.
- (14) Poliomyelitis.
- (15) Rabies.
- (16) Typhoid fever (*Salmonella* Typhi).
- (17) Viral hemorrhagic fever.

[Source: Amended at 9 Ok Reg 485, eff 1-1-92 (emergency); Amended at 9 Ok Reg 1429, eff 5-1-92 ; Amended at 17 Ok Reg 2942, eff 7-13-00 ; Amended at 19 Ok Reg 1285, eff 5-28-02 ; Amended at 20 Ok Reg 2366, eff 7-11-03 ; Amended at 24 Ok Reg 1978, eff 6-25-07 ; Amended at 26 Ok Reg 2033, eff 6-25-09 ; Amended at 27 Ok Reg 2522, eff 7-25-10 ; Amended at 29 Ok Reg 1601, eff 7-12-12 ; Amended at 31 Ok Reg 1588, eff 9-12-14 ; Amended at 34 Ok Reg 1287, eff 10-1-17 ; Amended at 36 Ok Reg 1685, eff 9-13-19 ; Amended at 39 Ok Reg 6, eff 8-12-21 (emergency); Amended at 39 Ok Reg 1332, eff 9-11-22 ; Amended at 40 Ok Reg 1566, eff 9-11-23]

310:515-1-4. Additional diseases, conditions, and injuries to be reported

The following diseases, conditions and injuries must be reported by physicians, laboratories, and hospitals (by infection control practitioners, medical records personnel, and other designees) to the OSDH as dictated in the following subsections:

- (1) **Infectious diseases.** Reports of infectious diseases and conditions listed in this subsection must be submitted electronically via secure electronic data transmission to the OSDH within one (1) working day (Monday through Friday, state holidays excepted) of diagnosis or positive test.
 - (A) Acid Fast Bacillus (AFB) positive smear. Report only if no additional testing is performed or subsequent testing is indicative of *Mycobacterium tuberculosis* Complex.
 - (B) AIDS.
 - (C) *Anaplasma phagocytophilum* infection.
 - (D) Arboviral infections (West Nile virus, St. Louis encephalitis virus, Eastern equine encephalitis virus, Western equine encephalitis virus, Powassan virus, California serogroup virus, chikungunya virus, Zika virus).
 - (E) Brucellosis (*Brucella* spp.).
 - (F) Campylobacteriosis (*Campylobacter* spp.).
 - (G) Congenital rubella syndrome.
 - (H) Cryptosporidiosis (*Cryptosporidium* spp.).
 - (I) Cyclosporiasis (*Cyclospora cayetanensis*).
 - (J) Dengue Fever.
 - (K) *E. coli* O157, O157:H7, or a Shiga toxin producing *E. coli*. (STEC)
 - (L) Ehrlichiosis (*Ehrlichia* spp.).
 - (M) *Haemophilus influenzae* invasive disease.
 - (N) Hantavirus infection, without pulmonary syndrome.
 - (O) Hantavirus pulmonary syndrome.
 - (P) Hemolytic uremic syndrome, postdiarrheal.
 - (Q) Hepatitis A infection (Anti-HAV-IgM+).

(R) Hepatitis B infection. If any of the following are positive, then all test results on the hepatitis panel must be reported: HBsAg+, anti-HBc-IgM+, HBeAg+, or HBV DNA+. For infants < or = 18 months, all hepatitis B related tests ordered, regardless of test result, must be reported.

(S) Hepatitis C infection in persons having jaundice or ALT > or = 200 with laboratory confirmation. If hepatitis C EIA is confirmed by NAT for HCV RNA, or s/co ratio or index is predictive of a true positive then report results of the entire hepatitis panel. For infants < or = 18 months, all hepatitis C related tests ordered, regardless of test result, must be reported. Positive HCV RNA are reportable by both laboratories and providers. Negative test results for HCV RNA tests are reportable by laboratories only.

(T) HIV.

(i) All tests indicative of HIV infection are reportable by laboratories and providers. If any HIV test is positive, then all HIV test results on the panel must be reported by laboratories. For infants < or = 18 months, all HIV tests ordered, regardless of test result must be reported.

(ii) All HIV nucleotide sequences and negative HIV test results are only reportable by laboratories.

(U) Influenza-associated hospitalization or death.

(V) Legionellosis (*Legionella* spp.)

(W) Leptospirosis (*Leptospira interrogans*).

(X) Listeriosis (*Listeria monocytogenes*).

(Y) Lyme disease (*Borrelia burgdorferi*).

(Z) Malaria (*Plasmodium* spp.).

(AA) Mumps.

(BB) Pertussis (*Bordetella pertussis*).

(CC) Psittacosis (*Chlamydophila psittaci*).

(DD) Q fever (*Coxiella burnetii*).

(EE) Rubella.

(FF) Salmonellosis (*Salmonella* spp.).

(GG) SARS-CoV-2 (COVID-19).

(HH) Shigellosis (*Shigella* spp.).

(II) Spotted Fever Rickettsiosis (*Rickettsia* spp.)
hospitalization or death.

(JJ) Streptococcal disease, invasive, Group A (GAS)
(*Streptococcus pyogenes*).

(KK) *Streptococcus pneumoniae* invasive disease, in
persons less than 5 years of age.

(LL) Syphilis (*Treponema pallidum*). Nontreponemal and
treponemal tests are reportable. If any syphilis test is
positive, then all syphilis test results on the panel must be
reported. For infants < or = 18 months, all syphilis tests
ordered, regardless of test result, must be reported.

(MM) Tetanus (*Clostridium tetani*).

(NN) Trichinellosis (*Trichinella spiralis*).

- (OO) Tuberculosis (*Mycobacterium tuberculosis*).
- (PP) Tularemia (*Francisella tularensis*).
- (QQ) Unusual disease syndrome.
- (RR) Vibriosis (*Vibrionaceae* family: *Vibrio* spp. (including cholera), *Grimontia* spp., *Photobacterium* spp., and other genera in the family).
- (SS) Yellow Fever.

(2) **Infectious diseases.** Reports of infectious diseases and conditions listed in this subsection must be reported to the OSDH via secure electronic data submission within one (1) month of diagnosis or test result.

- (A) CD4 cell count with corresponding CD4 cell count percentage of total (by laboratories only).
- (B) Chlamydia (*Chlamydia trachomatis*).
- (C) Creutzfeldt-Jakob disease.
- (D) Gonorrhea (*Neisseria gonorrhoeae*).
- (E) HIV viral load (by laboratories only).
- (F) LGV. *Lymphogranuloma Venereum* is reportable as Chlamydia and designated as LGV.

(3) **Occupational or environmental diseases.** Laboratories and healthcare providers must report blood lead level results pursuant to the requirements established in Title 310, Chapter 512, childhood Lead Poisoning Prevention Rules.

(4) **Injuries.**

- (A) Burns.
- (B) Drownings and near drownings.
- (C) Traumatic brain injuries.
- (D) Traumatic spinal cord injuries.
- (E) Poisonings, including toxic and adverse effects.

310:515-1-5. Diseases to be reported by physicians and infection control practitioners [REVOKED]

[Source: Revoked at 9 Ok Reg 485, eff 1-1-92 (emergency); Revoked at 9 Ok Reg 1429, eff 5-1-92]

310:515-1-6. Additional diseases may be designated

The Commissioner of Health may designate any disease or condition as reportable for a designated period of time for the purpose of enhanced public health surveillance or special investigation.

[Source: Amended at 34 Ok Reg 1287, eff 10-1-17]

310:515-1-7. Control of Communicable Diseases Manual

The OSDH adopts the most recently published edition of the publication, "Control of Communicable Diseases Manual", published by the American Public Health Association, as a guideline for the prevention and control of communicable diseases.

[Source: Amended at 17 Ok Reg 2942, eff 7-13-00 ; Amended at 24 Ok Reg 1978, eff 6-25-07 ; Amended at 26 Ok Reg 2033, eff 6-25-09 ; Amended at 34 Ok Reg 1287, eff 10-1-17 ; Amended at 36 Ok Reg 1685, eff 9-13-19]

310:515-1-8. Organisms/specimens to be sent to the Public Health Laboratory

(a) Pure bacterial isolates of the following organisms shall be sent to the OSDH Public Health Laboratory for additional characterization, typing or confirmation within two (2) working days (Monday through Friday, state holidays excepted) of final identification or diagnosis.

- (1) *Bacillus anthracis*.
- (2) *Brucella* spp.
- (3) Carbapenem-resistant *Enterobacteriaceae*.
- (4) Carbapenem-resistant *Pseudomonas aeruginosa*.
- (5) Carbapenem-resistant *Acinetobacter* spp.
- (6) *E. coli* 0157, 0157:H7, or a Shiga toxin producing *E. coli*.
- (7) *Francisella tularensis*.
- (8) *Haemophilus influenza* (sterile site).
- (9) *Listeria monocytogenes* (sterile site).
- (10) *Mycobacterium tuberculosis*.
- (11) *Neisseria meningitidis* (sterile site).
- (12) *Salmonella* spp.
- (13) *Vibrionaceae* family (*Vibrio* spp., *Grimontia* spp., *Photobacterium* spp. And other genera in the family).
- (14) *Yersinia* spp.

(b) Following consultation with an OSDH epidemiologist, clinical specimens from suspected cases of Botulism must be sent to the OSDH Public Health Laboratory for testing.

(c) When *Plasmodium* spp. Is suspected by a healthcare provider, a Giemsa-stained (or other suitable stain) thin and thick, peripheral blood smear prepared from the EDTA should be submitted in addition to the EDTA purple top blood tube.

(d) Laboratories unable to perform reflex culture to isolate/recover the following bacterial pathogens detected by C1DT assays shall submit positive C1DT stool samples in Cary Blair or modified Cary Blair transport media to the OSDH Public Health Laboratory within two (2) working days (Monday through Friday, state holidays excepted) of final C1DT result.

- (1) *E. coli* 0157, 0157:H7, or a Shiga toxin-producing *E. coli*.
- (2) *Salmonella* spp.
- (3) *Vibrio* spp.
- (4) *Yersinia* spp.

(e) Hospitals and laboratories must send, at a minimum, 10% of their weekly positive specimens for SARS-CoV-2 (COVID-19) - PCR or culture positive specimens.

[Source: Added at 17 Ok Reg 2942, eff 7-13-00 ; Amended at 19 Ok Reg 1285, eff 5-28-02 ; Amended at 24 Ok Reg 1978, eff 6-25-07 ; Amended at 26 Ok Reg 2033, eff 6-25-09 ; Amended at 29 Ok Reg 1601, eff 7-12-12 ; Amended at 34 Ok Reg 1287, eff 10-1-17 ; Amended at 36 Ok Reg 1685, eff 9-13-19 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:515-1-9. Medical professional assault data collection

In accordance with 63 O.S. Section 1-114.3(B), assaults on medical care providers shall be reported by hospitals, health clinics, and ambulance services to the State Department of Health.

[Source: Added at 38 Ok Reg 2032, eff 9-11-21]

SUBCHAPTER 3. DISCLOSURES AND USES OF DISEASE PREVENTION AND CONTROL INFORMATION

310:515-3-1. General provisions

Information received, created and/or maintained by the Department pursuant to the provisions of the Public Health Code relating to Disease Prevention and Control is confidential and shall be protected from disclosure unless release or disclosure is sought in accordance with this subchapter or is otherwise authorized by law.

[Source: Added at 24 Ok Reg 1978, eff 6-25-07]

310:515-3-2. Disclosures upon written consent

Information received, created and/or maintained by the Department pursuant to the provisions of the Public Health Code relating to Disease Prevention and Control may be disclosed to a requesting person upon the presentation of a valid written consent executed by the person whose information is being kept confidential or the legal guardian or legal custodian of such person, under the following conditions:

(1) If the written consent is delivered to the Department by a person other than the person whose information is being kept confidential or the legal guardian or legal custodian of such person, the written consent must either be verified under oath or contain some form of attestation certifying or confirming the authenticity of the signature of the person whose information is being kept confidential or the legal guardian or legal custodian of such person.

(2) The written consent must advise the person whose information is being kept confidential or the legal guardian or legal custodian of such person the identity of all persons and/or entities who are likely or intended to receive or view the information sought to be released or disclosed. The identity must include the full name, address and title or office of such person or entity identified in the written consent. The written consent must state that the information will not be released or disclosed to any person or entity not so identified.

(3) The written consent must include a notice thereon, in bold typeface, that the information authorized for release may include records that may indicate the presence of a communicable or venereal disease, which may include, but are not limited to, diseases such as hepatitis, syphilis, gonorrhea and the human immunodeficiency virus, also known as Acquired Immune Deficiency Syndrome (AIDS).

(4) The written consent must advise the person whose information is being kept confidential or the legal guardian or legal custodian of such person of the provisions of 63 O.S.Supp.2005, § 1-502.2.

[Source: Added at 24 Ok Reg 1978, eff 6-25-07]

310:515-3-3. Grounds for denial

A person whose information is being kept confidential or the legal guardian or legal custodian of such person may be denied access to information if the information was obtained from someone other than a health care provider under a promise of confidentiality, the access requested would be reasonably likely to reveal the confidential source of the information and the requested information cannot be presented in a manner that preserves the confidentiality of the source. The Department incorporates HIPAA, 42 C.F.R. § 164.524(a)(2)(v)(2006) only as guidance in applying this section.

[Source: Added at 24 Ok Reg 1978, eff 6-25-07]

310:515-3-4. Disclosures permitted without a written consent

Information received, created and/or maintained by the Department pursuant to the provisions of the Public Health Code relating to Disease Prevention and Control may, without first obtaining a written consent in accordance with this subchapter, be disclosed, shared and/or disseminated with health professionals engaged in activities described or identified in the provisions of the Public Health Code relating to Disease Prevention and Control.

CHAPTER 520. COMMUNICABLE DISEASES IN SCHOOLS REGULATIONS

[Authority: 63 O.S.1971, § 1-502]

[Source: Codified 12-31-91]

310:520-1-1. Purpose

The rules in this Chapter implement the Communicable Diseases in Schools Regulations, 63 O.S. 1971, Section 1-502.

310:520-1-2. Quarantinable diseases

The following diseases listed in this Chapter are declared quarantinable for both the cases and contacts:

- (1) Smallpox
 - (2) Yellow Fever
 - (3) Cholera
 - (4) Plague
- Second Annotated Edition, International Health Regulations, 1969, (published in 1974).

310:520-1-3. Duty of school personnel

(a) An important part of a school health program is the prevention and control of communicable diseases. The teacher is in a strategic position to detect beginning symptoms of illness by the careful and continuous observation of children in the classroom. There are three general measures which school personnel can use to prevent the spread of disease:

- (1) Oklahoma law requires parents to provide proper and necessary immunizations for their children, particularly diphtheria, whooping cough, tetanus, polio, rubella and measles during the preschool age. All schools are required to maintain immunization records or exemptions on each student.
- (2) Encourage parents to keep sick children at home.
- (3) Isolate pupils who appear to be ill and make preparations to send them home. Good health is more important than a perfect attendance record.

(b) We cannot emphasize too strongly the fallacy of the idea that children are always in condition to attend school and that perfect attendance records are to be sought at any cost.

310:520-1-4. Diseases for which children should be excluded

(a) Diseases for which children should be excluded are shown on Appendix A of this Chapter. These are suggested periods of exclusion and can be modified on the circumstances surrounding the problem.

(b) When school officials have reasonable doubt as to the contagiousness of any person who has been excluded from school for an infectious disease, they may require a written statement from the county health department director, county superintendent of health, school nurse, or a private physician before the person is permitted to reenter school.

(c) The superintendent, teacher, or other official in charge of any school may exclude any child suffering from or exhibiting the following symptoms:

- (1) fever alone, 100 degrees Fahrenheit;
- (2) sore throat or tonsillitis;
- (3) any eruption of the skin, or rash;
- (4) any nasal discharge accompanied by fever;
- (5) a severe cough, producing phlegm; or
- (6) any inflammation of the eyes or lids.

(d) The decision to close schools in times of epidemics should be made by the school authorities in consultation with public health officials. In times of epidemics, the teachers should be unusually alert for signs of illness and report any symptoms of illness to the proper authorities.

APPENDIX A. COMMUNICABLE DISEASES

Figure 1

DISEASE	INCUBATION PERIOD	MODE OF TRANSMISSION	PERIOD OF COMMUNICABILITY	CONTROL MEASURES	PUBLIC HEALTH RESPONSE
AIDS / HIV (Acquired Immune Deficiency Syndrome)	Variable, may occur months to years after infection with HIV (Human immunodeficiency virus)	Person to person by (1) sexual contact, (2) exposure to blood such as occurs when sharing needles during intravenous drug use, or (3) from mother to infant during pregnancy or at the time of birth.	Person infected with HIV should be considered potentially infectious for life.	Education of those who are infected and those who are at risk of becoming infected about how to prevent transmission of HIV (i.e. safer sexual practices, stop IV drug use or needle sharing etc.)	Education and counseling in conjunction with HIV testing. Encourage notification of sexual partners and others at risk about their possible exposure.
CAMPYLOBACTER INFECTION	1-10 days, average 3-5 days	By ingestion of contaminated food, water or unpasteurized milk from contact with infected animals, or persons by the fecal-oral route	Throughout course of infection, usually several days to several weeks	Exclude from foodhandling and day-care until effective chemotherapy has been initiated and/or diarrhea has ceased. Thorough handwashing after bowel movements or diapering, before eating and preparing food	Patient interview and assessment. Contact investigation. Counseling
CHICKENPOX (Varicella)	14-21 days, average 13-17 days	Person to person by direct contact, droplet or airborne spread of secretions, indirectly through articles contaminated by secretions.	One day before rash until all lesions have crusted	Exclude from school and avoid contact with susceptibles for at least 5 days after the eruption first appears or until vesicles become dry.	Contact investigation to assess exposure to high-risk individuals (i.e., children with leukemia).
CHLAMYDIA INFECTION	Poorly defined, probably 7-14 days but may be longer	Contact with infected person as a result of sexual activity; neonatal infections by contact with birth canal during childbirth.	Unknown; recapses are probably common	Examine, test, and treat all sexual contacts. Sexual contacts within past 30 days treated regardless of test results.	Patient interview. Contact referral. Counseling
DIPHTHERIA*	Average 2-5 days	Contact (Airborne Droplet Spread) with case or carrier, less frequently with articles contaminated by discharges from lesions.	Variable; usually 2 weeks or less; seldom more than 4 weeks. Rarely, chronic carriers for 6 months or more.	Isolate until 2 successive cultures of skin lesions or nose/throat cultures are negative. All contacts should receive active immunization and previously unimmunized contacts should also receive an appropriate antibiotic. Close contacts should be kept under surveillance.	Immediate interview and contact investigation.
GIARDIASIS	5-25 days or longer, median 7-10 days	Person to person spread by fecal-oral route; ingestion of contaminated food or water. Contact with infected animals	Variable; entire period of infection	Exclude from foodhandling and day-care until effective chemotherapy has been initiated and/or diarrhea has ceased. Thorough handwashing after bowel movements or diapering, before eating and preparing food	Patient interview and assessment. Contact investigation. Counseling
GONORRHEA	2-30 days, average 2-7 days; often asymptomatic, especially in females	Contact with infected person as a result of sexual activity; neonatal infections by contact with birth canal during childbirth.	Months if untreated	Examine, culture and treat all sexual contacts. Sexual contacts within past 30 days treated regardless of test results.	Patient interview. Contact referral. Counseling
HAEMOPHILUS* INFLUENZAE MENINGITIS OR INVASIVE DISEASE	Probably short, 2-4 days	Person to person by droplet spread and contact with discharges from nose and throat during infectious period	Variable; as long as organisms are present in nose or throat	Rilampro prophylaxis. Observe contacts under 4 years of age for signs of illness; especially fever	Interview of parents and contact investigation. If day-care facility involved, see <i>Haemophilus influenzae</i> day-care checklist for follow-up.
HEPATITIS A	15-50 days, average 28-30 days	Person to person spread by fecal-oral route; ingestion of contaminated food or water	Approximately 2 weeks before and 1-2 weeks after onset of jaundice	Exclude from high-risk situations (foodhandling, day-care and patient care) for 2 weeks after onset of jaundice. Thorough handwashing after bowel movements or diapering, before eating and preparing food. Household, day-care, and other intimate contacts-immune globulin 100 (0.02 ml/kg body weight, within 14 days of last exposure.	Immediate patient interview and assessment. Contact investigation. Counseling. If case in high-risk situation, contact Communicable Diseases Division.

Figure 2

DISEASE	INCUBATION PERIOD	MODE OF TRANSMISSION	PERIOD OF COMMUNICABILITY	CONTROL MEASURES	PUBLIC HEALTH RESPONSE
HEPATITIS B	45-180, average 60-90 days	Percutaneous or mucous membrane inoculation of blood, saliva or semen from infected person. Sexual transmission.	Blood is infectious during late incubation period, clinical disease and for variable period after recovery (as long as HBsAg positive).	Blood precautions until disappearance of HBsAg and appearance of anti-HBc. For blood or needle exposure to known HBsAg positive persons: hyperimmune globulin (HBIG) (0.06 ml/kg body weight) within 7 days within 24 hours if possible and hepatitis B vaccine given at 0, 1 and 6 months. HBIG 0.10 ml/kg within 14 days for sexual contacts.	Patient interview and assessment. Contact investigation. Counseling.
HEPATITIS Non-A Non-B (most commonly Hepatitis C)	Ranges from 2 weeks to 6 months, average 6-9 weeks.	Blood transfusions, percutaneous or mucous membrane inoculation of blood. Sexual transmission.	Blood is infectious for unknown amount of time. Chronic carrier state exists.	Blood precautions for unknown period after recovery. IG 0.06 ml/kg for blood or needle exposure to diagnosed case is recommended but efficacy is unknown.	Patient interview and assessment. Contact investigation. Counseling.
IMPETIGO (Staphylococcal Disease)	Variable and indefinite, average 4-10 days.	Direct contact with purulent drainage from an infected lesion.	Until all lesions are healed.	Avoid contact with purulent drainage from lesion. Cover lesions when attending school/day care.	None unless outbreak identified.
LYME DISEASE	For erythema migrans (EM), from 3-32 days after tick exposure. However, early stages of the disease may be asymptomatic & patient may present with late manifestations.	Tick-borne; tick usually must feed for several hours before transmission occurs.	No evidence for person to person transmission. Rare cases of congenital transmission have been reported.	While in tick infested areas, wear light colored clothing, covering legs & arms; tuck pants in socks and apply tick repellent; search body every 3-4 hours for attached ticks. Remove ticks promptly.	Education regarding methods of prevention (see control measures).
MEASLES* (Rubeola)	7-18 days, average 10 days. Rash usually appears approx. 10 days after exposure.	Person to person by droplet spread and discharges from nose and throat during infectious period.	4 days before rash appears to 4 days after onset of rash.	Isolation from first symptoms until 5 days after appearance of rash. Vaccinate susceptible contacts within 48 hours of exposure or as soon as possible. Consider IG for some high risk susceptibles (i.e. infants, immunocompromised).	Patient interview and contact investigation. Institute outbreak control measures.
INGOCOCCAL* MENINGITIS	2-10 days, average 3-4 days.	Person to person by droplet spread and discharges from nose and throat during infectious period (which often is asymptomatic).	Until organisms no longer present in discharges from nose and throat.	Isolation from first symptom until on appropriate antibiotic for 24 hours. Rifampin prophylaxis for close contacts.	Patient interview and contact investigation. If day-care/childcare involved, contact Communicable Diseases Division.
MONONUCLEOSIS (Mono)	4-6 weeks.	Person to person by oropharyngeal route, via saliva.	Prolonged pharyngeal excretion may persist for months after infection.	Disinfection of articles soiled with nose and throat discharges. Exclude from school only during acute phase.	None.
MRSA (Methicillin-Resistant Staphylococcus aureus)	Commonly 4-10 days, but disease may not occur until several months after colonization.	Direct person to person contact is thought to be the primary method of transmission, however bed linen or environmental surfaces may play a significant role.	Variable; as long as organisms are present in the body substances (i.e., weeping wounds, nasal discharges).	Body substance isolation (especially handwashing before and after patient contact). Treatment of MRSA infections. Colonization is not grounds for exclusion from a nursing home.	Educating health care providers (i.e., nursing home employees) about MRSA and body substance isolation practices.
MUMPS	12-25 days, average 18 days.	Person to person by direct contact with saliva of an infected person.	From 6 days before to 9 days after symptoms or swelling appear.	Isolation for 9 days from onset. Vaccination may help protect susceptible contacts.	Vaccination is indicated for unimmunized contacts but may not provide protection.
PERTUSSIS* (Whooping cough)	Commonly 7-10 days, rarely exceeding 14 days.	Person to person by direct contact, droplet or airborne spread of secretions.	7 days after exposure until 3 weeks after onset of paroxysmal cough. Antibiotics (usually erythromycin) may shorten infectious period.	A 14 day course of erythromycin for all household and other close contacts. Inadequately immunized household contacts <7 years old should be quarantined for 14 days after last exposure or until cases and contacts have received 5 days of minimum 14 day course of antibiotics.	Immediate interview of parents and contact investigation.
ROCKY MOUNTAIN SPOTTED FEVER	3-14 days	Tick-borne; several hours (4-6) of tick attachment usually required before transmission occurs.	No person to person transmission. The tick remains infective for life.	While in tick infested areas, wear light colored clothing, covering legs & arms; tuck pants in socks and apply tick repellent; search body every 3-4 hours for attached ticks. Remove ticks promptly.	Education regarding methods of prevention (see control measures).
RUBELLA	6-18 days, average range 14-32 days.	Person to person by droplet infection and discharges from nose and throat during infectious period and indirectly through articles contaminated by secretions.	For about 7 days before and 4 days after rash appears. Infants with congenital rubella syndrome may shed virus for months after birth.	Isolation until 4 days after rash appears. Pregnant contacts should be serologically tested for susceptibility and advised according to results.	Contact investigation to identify pregnant female contacts, especially those in the first trimester of pregnancy.

CHAPTER 521. CONTROL AND TREATMENT OF COMMUNICABLE DISEASE

[Authority: 63 O.S., §§ 1-104, 1-106, and 1-502]
[Source: Codified 6-27-02]

SUBCHAPTER 1. GENERAL PROVISIONS

310:521-1-1. Purpose and authority

The purpose of this chapter is to establish the rules for the control and treatment of communicable disease in Oklahoma. The Commissioner of Health has the authority to control, suppress, or prevent the occurrence or spread of any communicable, contagious or infectious disease, provide for the segregation and isolation of persons having or suspected of having any such disease, and may designate places of quarantine or isolation under Title 63 O.S. §1-106. The Board of Health has authority to adopt rules to aid in the prevention and control of communicable diseases under Title 63 O.S. §1-502.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

310:521-1-2. Definitions

The following words and terms, when used in the Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Biologic public health threat" means an infectious, communicable disease, the agent of which may be readily transmitted from an infectious person to a susceptible person without their knowledge or consent, and the infectious nature of which is known to cause increasing incidence of infection and disease upon transmission such that there is a threat to the general public health.

"Clinical case" means a case of an infectious disease as defined by the presence of signs and symptoms compatible with the disease and the absence of laboratory confirmation, which may be considered communicable.

"Commissioner" means the State Commissioner of Health or any other person delegated specific authority by the Commissioner to act under this Chapter.

"Communicable disease" means an infectious disease that is transmissible (as from person to person) by direct contact with an affected individual or by indirect contact with the individual's bodily discharges.

"Compliance order" means an order issued by the Commissioner enforcing treatment, isolation, quarantine, or other behavioral expectations.

"Contagious" means the ability to spread a communicable disease agent, as determined by the Commissioner.

"Department" means the Oklahoma State Department of Health.

"Directly observed therapy" or "DOT" means disease treatment administered by a Public Health Nurse, DOT Provider or other person

authorized by the Commissioner who observes the patient ingest each dose of oral medication and/or witnesses the administration of each dose of parenteral medication.

"Infectious disease" means a disease caused by the entrance into the body of microorganisms (as bacteria, protozoans, fungi, or viruses) that grow and multiply therein.

"Isolation" means the confinement of an individual or group of individuals who have or are suspected of having an infectious disease constituting a biologic public health threat to an appropriate facility or location to prevent the transmission of disease.

"Laboratory criteria for diagnosis" means that appropriate laboratory testing has been conducted which has identified the likely presence of the infectious agent.

"Non-compliant behavior" means behavior on the part of the person with the suspected or confirmed infectious disease which results in failure to comply with the ordered or prescribed diagnostic procedures, treatment, therapy, isolation, quarantine, or control measures.

"Non-contagious" means an infectious or suspected infectious disease that is no longer considered communicable because one or more of the following have occurred: 1) full passage of the maximum period of infectivity for that disease; 2) completion of a minimum treatment regimen; 3) certain clinical criteria are no longer present; or 4) certain laboratory criteria have been met.

"Order for Examination" means an order issued by the Commissioner instructing a person suspected or confirmed to have an infectious disease to undergo testing to determine the presence of a communicable disease.

"Order for Isolation" means an order issued by the Commissioner instructing a person suspected or confirmed to have a communicable disease to cease all public or other prohibited contact.

"Order for Quarantine" means an order issued by the Commissioner that restricts the movement or activities of a person suspected or confirmed to have been exposed to and potentially incubating an infectious disease of public health importance.

"Order for Treatment" means an order issued by the Commissioner instructing a person suspected or confirmed to have a communicable disease to undergo treatment for that disease.

"Quarantine" means restricting the movement or activities of an individual or group of individuals who are known or suspected to have been exposed to an infectious disease constituting a biologic public health threat, generally for the duration of the maximum incubation period of the known or suspected disease.

"Respondent" means the person(s) or legal entity(ies) named in an order, petition or other pleading for an individual proceeding or other administrative hearing, against whom relief is sought.

"Suspect case" means a person with symptoms and/or signs consistent with an infectious disease, and the likelihood of appropriate exposure to have been infected with the infectious agent, as judged in the opinion of an experienced public health professional.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 24 Ok Reg 1981, eff 6-25-07 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

SUBCHAPTER 3. TUBERCULOSIS

310:521-3-1. Specific authority

Tuberculosis control and treatment is specifically delegated to the Oklahoma State Department of Health in 63 O.S. 1-401 through 1-410.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

310:521-3-2. Definitions

The following words and terms, when used in the Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Tuberculosis treatment" means tuberculosis therapy with an American Thoracic Society/Centers for Disease Control and Prevention recommended regimen or other regimen as prescribed or approved by the Commissioner.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 24 Ok Reg 1981, eff 6-25-07 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

310:521-3-3. Standards of tuberculosis treatment

(a) The Commissioner shall establish surveillance to identify all cases of tuberculosis in Oklahoma. All tuberculosis suspects shall be investigated to establish or exclude the diagnosis of tuberculosis disease.

(b) A person with tuberculosis in a contagious state will remain in isolation until non-contagious criteria are met.

(c) The Commissioner shall:

- (1) Review the Tuberculosis treatment regimen for each person with active or suspected tuberculosis,
- (2) Make recommendations for change, as indicated, and
- (3) Establish the anticipated length of therapy.

(d) Directly Observed Therapy (DOT) shall be the standard for treatment of persons determined to have active tuberculosis disease. Exceptions may be granted by the Commissioner when necessary and for cause.

(e) Compliance orders will be issued to tuberculosis patients to establish behavioral expectations in regard to treatment, isolation and monitoring.

(f) Tuberculosis treatment shall continue by DOT until a prescribed course of therapy has been completed.

(g) Non-compliant behavior in regard to treatment, isolation or patient monitoring will be reported to the Commissioner. Action will be taken to eliminate the non-compliant behavior when possible or to pursue enforcement action, as determined by the Commissioner.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

310:521-3-4. Completion of tuberculosis treatment

Completion of tuberculosis treatment occurs when the prescribed number of doses have been taken within the appropriate length of time for the established regimen, as determined by the Commissioner.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

310:521-3-5. Alteration to treatment regimen

Alteration in the prescribed treatment regimen may be necessitated based on drug hypersensitivity, drug resistance, drug toxicity, concurrent therapy with other drugs, or other disease conditions.

[Source: Added at 19 Ok Reg 2075, eff 6-27-02 ; Amended at 25 Ok Reg 1148, eff 5-25-08]

SUBCHAPTER 5. HIV (HUMAN IMMUNODEFICIENCY VIRUS) AND AIDS (ACQUIRED IMMUNODEFICIENCY SYNDROME)

310:521-5-1. Specific authority

HIV/AIDS prevention and control is specifically delegated to the Oklahoma State Department of Health in 63 O.S., Section 1-502.

[Source: Added at 24 Ok Reg 1981, eff 6-25-07]

310:521-5-2. Definitions

The following words and terms, when used in the Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"AIDS" means Acquired Immunodeficiency Syndrome and is the most severe manifestation of infection with the Human Immunodeficiency Virus (HIV). The Centers for Disease Control and Prevention (CDC) lists numerous opportunistic infections and neoplasms (cancers) that, in the presence of HIV infection, constitute an AIDS diagnosis.

"Abstinence" means the absence of any sexual activity, which includes oral sex, anal sex or vaginal sex.

"Barrier protection" means the use of a latex condom during sexual activity.

"HAART" means Highly Active Antiretroviral Therapy, which is the combination of several antiretroviral medications used to slow the rate at which HIV multiplies in the body.

"HIV positive" means a person has tested positive, using a Western Blot confirmatory test, for HIV antibodies, the virus known to cause AIDS.

"HIV/STD Service surveillance section" means the unit of the Department tasked with the duty to process reports and information concerning the incidence and occurrence of sexually transmitted disease discovered or reported in Oklahoma.

"Opportunistic infection" means infections, which are rarely seen in those with normal immune systems, but are deadly to those people who have AIDS and a compromised immune system.

"PCRS" means Partner Counseling Referral Services, which are offered by the OSDH HIV/STD Service to persons infected with HIV and their sexual partners to assist with informing their sexual partners about potential exposure to HIV.

"Retrovirus" means RNA (ribonucleic acid) virus. Retroviruses replicate (duplicate) by making a DNA (deoxyribonucleic acid) copy of their RNA. It is the DNA genes that allow the virus to replicate in the human body.

"Sexual activity" means any activity, which includes oral sex, anal sex, or vaginal sex.

"Transmission activity" means activity that involves the sharing or use of an instrument or device that is invasive or pierces the epidermis.

"Viral load" means the relative amount of human immunodeficiency virus in a person's body.

[Source: Added at 24 Ok Reg 1981, eff 6-25-07]

310:521-5-3. Standards of HIV/AIDS prevention and treatment

(a) The Commissioner shall establish surveillance to identify all cases of HIV or AIDS in Oklahoma. All persons suspected of having AIDS or being HIV positive shall be investigated to establish or exclude the diagnosis of AIDS or being HIV positive.

(b) All health care providers, laboratories and county health departments are required to notify HIV/STD Service surveillance section of all reported cases of HIV and AIDS within 24 hours of diagnosis or notice. Upon receipt of reports to the surveillance section, the information will be entered into the HIV/AIDS database and a Disease Intervention Specialist (DIS) will be assigned to the report for case investigation and performance of PCRS.

(c) PCRS shall, at a minimum, include assisting HIV positive persons with informing their partners about potential exposure to HIV, how the risk of exposure can be decreased or minimized, or if already infected, how transmission to others may be prevented or avoided, and to information that will aid the infected person and his partners to gain access to counseling, testing, medical treatment, prevention and other services. Additionally, PCRS shall include any information that is generally scientifically accepted regarding measures that can be adopted or implemented to prevent the transmission of HIV or AIDS, including:

- (1) Abstinence from sexual activity.
- (2) If abstinence is not practiced, the correct use of an effective barrier protection device such as a latex condom.
- (3) Refraining from sharing intravenous needles or other invasive drug injection devices.
- (4) Refraining from the donation of blood, plasma, body organs or other tissue or semen.

(d) PCRS may include, as necessary and indicated, the following recommendations to a HIV positive person:

- (1) Regular meetings with a Disease Intervention Specialist to monitor compliance with recommended PCRS.
- (2) Seeking or remaining in the care of a physician who can monitor progression of the person's HIV infection, and when indicated by the physician, take such HIV medications, including HAART, that will reduce or stabilize the person's viral load.
- (3) Periodic evaluations for tuberculosis, hepatitis, or any recognized form of sexually transmitted disease.
- (4) Disclosure to all personal health care providers to or from whom the person seeks or receives care (physicians, dentists, nurses or other health care workers), that the person is HIV-positive.
- (5) Disclosure, prior to engaging or contemplating the engagement of any sexual activity or other transmission activity, to all partners or participants, that the person is HIV-positive.

(e) If a person identified as HIV positive or diagnosed with AIDS refuses to voluntarily engage in PCRS is reported to have engaged in sexual activity without observing PCRS recommendations a compliance order will be issued to the person mandating compliance with PCRS recommendations.

[Source: Added at 24 Ok Reg 1981, eff 6-25-07]

SUBCHAPTER 7. ISOLATION OR QUARANTINE

310:521-7-1. Examination

The Commissioner may issue an order for the examination of any individual upon the suspicion or confirmation that said individual has a communicable disease. Such examination may include a clinical examination, a specific diagnostic test or tests, or a specific laboratory test or tests. The purpose of such examination(s) and/or test(s) is to determine the presence of the suspected infectious organism or the presence of indicators of the suspected infectious organism, and to determine the contagious state of the individual to the extent possible.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-2. Treatment

The Commissioner may issue an order for the treatment of any individual suspected or confirmed to have a communicable disease. The Commissioner may also order the treatment of any individual or individuals exposed to certain infectious agents. Such treatment plans will be according to procedures developed within the Department.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-3. Isolation or quarantine

(a) **Isolation.** The Commissioner may issue an order for the isolation of any individual or group of individuals upon determination:

(1) That such individual or individuals who are reasonably known or suspected to have a communicable disease constituting a biologic public health threat and who remain within the transmission period for said disease; and

(2) That isolation is the necessary means to control the spread of the agent and the disease constituting a biologic public health threat.

(b) **Quarantine.** The Commissioner may issue an order for the quarantine of any individual or group of individuals upon determination:

(1) That such individual or individuals who are reasonably known or suspected to have been exposed to a communicable disease constituting a biologic public health threat and who remain within the incubation period for said disease; and

(2) That quarantine is the necessary means to contain the communicable disease constituting a biologic public health threat to which an individual or individuals have been or may have been exposed.

(c) **Affected area.** The Commissioner may issue an order for the quarantine of a facility, complex, or campus including but not limited to an apartment complex, dormitory, health care facility, hotel, correctional facility, or the individuals therein.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-4. Means of isolation or quarantine

The Department shall recommend to the Commissioner the appropriate means of isolation or quarantine, which shall generally be the least restrictive means that effectively protects unexposed and susceptible individuals. The place of isolation selected shall meet such infection control standards that it effectively complies with nationally accepted guidelines for the prevention of transmission of the infectious agent. The place of quarantine selected shall allow the most freedom of movement and communication with family members and other contacts without allowing transmission of the suspected infectious agent to others.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-5. Delivery of orders

A representative of the Department shall deliver orders of examination, treatment, quarantine, or isolation, or shall ensure the delivery of the order by an appropriate party, to the affected individual or individuals in person to the extent practicable.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-6. Administrative hearings and court enforcement

(a) Any person who is subject to an order of the Commissioner for isolation or quarantine and who contests such an order may request an individual proceeding or hearing. In order to uphold a quarantine order the Department must prove by a preponderance of the evidence that the Respondent was, or was suspected of having been, exposed to an infectious disease constituting a biologic public health threat. In order to uphold an isolation order the Department must prove by a preponderance of the evidence that the Respondent has, or is suspected of having, an infectious disease constituting a biologic public health threat. If requested, an individual proceeding pursuant to this subsection shall be convened as quickly as reasonably possible, which may be held telephonically or by other electronic means. A Respondent may request a hearing verbally or in writing. If the request for hearing is verbal, it shall be the duty of the hearing officer to take a statement for the record of the Respondent's reason for contesting the Commissioner's order. If the Commissioner's order is upheld at the conclusion of the hearing, the Respondent may appeal the administrative decision pursuant to Section 318 of Title 75 of the Oklahoma Statutes.

(b) Upon finding that there is probable cause to believe that any individual or individuals who are subject to an order of examination, treatment, isolation, or quarantine has failed to or refuse to comply with such order, the Commissioner may request an emergency order from the district court to enforce the Commissioner's order. If granted, the emergency order shall require the individual or individuals to be taken immediately into custody by law enforcement officials for the purpose of examination or treatment or to be detained for the duration of the order of isolation or quarantine or until the Commissioner determines that the risk of transmission of a biologic public health threat is no longer present.

(c) Subsections a or b of this section may be suspended in the event of a declaration of emergency by the Governor pursuant to Oklahoma law or upon written directive of the Commissioner of Health to employ a constitutionally-sufficient alternative process due to exigent circumstances during such emergency. Such suspension of subsections a and b shall only exist for the duration of the emergency.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-7. Health status monitoring

A representative of the Department shall monitor the health status of those under quarantine or isolation according to means dictated through procedure of the Department. Such means may include use of appropriate data collection forms, use of appropriate medical tests and or procedures, regular telephone calls, visits by local health personnel or other pre-determined providers, self-reports, reports of caregivers or healthcare providers, or by other means. If an individual or individuals under quarantine develop symptoms compatible with a disease constituting a biologic public health threat, then such individual or individuals may be further ordered into isolation.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-8. Essential needs

A representative of the Department shall conduct an assessment to determine the essential needs of those isolated or quarantined as required by procedure of the Department.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

310:521-7-9. Release from isolation or quarantine

The Commissioner will determine when an individual or individuals are determined to no longer be at risk of developing disease and becoming infectious or to no longer pose a risk of transmission of the infectious agent constituting a biologic public health threat to other individuals. The individuals under the order of quarantine or isolation shall be so notified by the Commissioner and shall be released from quarantine or isolation immediately upon notification.

[Source: Added at 25 Ok Reg 1148, eff 5-25-08]

SUBCHAPTER 9. HARM-REDUCTION SERVICES

310:521-9-1. Purpose and specific authority

The purpose of this subchapter is to establish the rules for harm-reduction services. The State Commissioner of Health is authorized pursuant to Title 63 O.S. § 2-1101 to promulgate rules for the implementation of harm-reduction services established under Title 63 O.S. §§ 2-101(48) and 2-1101, the Uniform Controlled Dangerous Substances Act, Article 10. Harm-Reduction Services.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-2. Definitions

The following words and terms, when used in the Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Administrator" means the director or similarly titled person responsible for the entity providing harm-reduction services through a program registered with the Department.

"Applicant" means the entity in whose name the harm-reduction services program shall be registered.

"AIDS" means Acquired Immunodeficiency Syndrome and is the most severe manifestation of infection with the Human Immunodeficiency Virus (HIV). The Centers for Disease Control and Prevention (CDC) lists numerous opportunistic infections and neoplasms (cancers) that, in the presence of HIV infection, constitute an AIDS diagnosis.

"Client" means a person who receives assistance through a harm-reduction services program.

"Harm-Reduction Services" means programs established to: *reduce the spread of infectious diseases related to injection drug use, reduce drug dependency, overdose deaths and associated complications, and increase safe recovery and disposal of used syringes and sharp waste.* Title 63 O.S. § 2-101(48)

"Hepatitis B (HBV)" means a vaccine-preventable liver infection caused by the hepatitis B virus (HBV). Hepatitis B is spread when blood, semen, or other body fluids from a person infected with the virus enters the body of someone who is not infected.

"Hepatitis C (HCV)" means a liver infection caused by the hepatitis C virus (HCV). Hepatitis C is spread through contact with blood from an infected person.

"Human Immunodeficiency Virus (HIV)" means HIV (human immunodeficiency virus) is a virus that attacks the body's immune system. If HIV is not treated, it can lead to AIDS (acquired immunodeficiency syndrome).

"HIV positive" means a person has tested positive for HIV antibodies, the virus known to cause AIDS.

"Policies and Procedures Manual" means a written manual detailing the policies and procedures for the safe and lawful operation of a harm-reduction services program.

"Program" means harm-reduction services provided by an entity registered to provide such services with the Department.

"Program Site" means the location where harm-reduction services are provided.

"Sharps Waste" means used needles, syringes, or lancets.

"Staff" means any employee, independent contractor, or volunteer adequately educated and trained to provide harm-reduction services on behalf of a program.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-3. Eligible providers

Harm-reduction services are limited to persons in the following categories:

- (1) *Government entities*, as provided in Title 63 O.S. § 2-1101;
- (2) *Religious institutions or churches*;
- (3) *Nonprofit organizations*;
- (4) *For-profit companies*;
- (5) *Nongovernmental entities partnering with a governmental agency*; and
- (6) *Tribal governments*. Title 63 O.S. § 2-1101(A)

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-4. Registration requirements.

No entity may engage in harm-reduction services without first registering with the Department in the form and manner prescribed by

the Department.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-5. Scope of services

(a) Registered programs may engage in harm-reduction services as outlined in 63 O.S. § 2-1101(B) and shall offer such services free of charge.

(b) Registered programs shall operate and furnish services in compliance with all applicable federal, state, and local laws and regulations.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-6. Application for registration

(a) All entities providing harm-reduction services must complete an application for registration with the Sexual Health and Harm Reduction Service Program at the Department. All applicants must provide the following information:

(1) The legal name and form of organization registered with the Oklahoma Secretary of State as well as the name under which it will be doing business in the State of Oklahoma.

(2) The name, address, telephone number, and email address for the administrator of the program and a secondary entity contact, together with:

(A) A signed, notarized statement attesting that the applicant accepts full responsibility for ensuring that the program operates in compliance with the provisions of all federal and state laws and regulations;

(B) The address and telephone number for each program site, including both fixed locations with permanent structures and venues at which services may be provided by a mobile unit;

(C) The scheduled hours of operations for each program site; and

(D) A copy of the program's most current version of harm-reduction service policies and procedures, including but not limited to, clear and concise procedures for the safe and secure disposal of sharps waste and any biomedical waste generated by services provided by the program.

(b) Registration applications will be reviewed within sixty (60) days of receipt thereof by the Department. A written correspondence of approval or denial will be sent to the applicant. If an application is denied, a letter of corrective actions may be supplied to the applicant.

(c) Registration shall be valid for one (1) year and shall be renewed by submission of an application for renewal at least thirty (30) days prior to expiration of current registration in the form and manner prescribed by the Department.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

310:521-9-7. Quarterly reporting to the Department

(a) Programs shall submit to the Department electronic reports, in the manner designated by the Department, on the last business day of each calendar quarter, which report the following information for the most recent calendar quarter:

- (1) *The number of clients served including basic demographic information;*
- (2) *Number and type of referrals provided;*
- (3) *Number of syringes, test kits and antagonists distributed;*
- (4) *Number of used syringes collected; and*
- (5) *Number of rapid HIV and viral hepatitis tests performed including the number of reactive test results.* Title 63 O.S. § 2-1101(C).

(b) Failure to report data described in Section 310:521-9-7 constitutes grounds for non-renewal of the service provider's registration.

[Source: Added at 39 Ok Reg 1336, eff 9-11-22]

CHAPTER 525. DIRECT SERVICES TO INDIVIDUALS

[**Authority:** 63 O.S., §§ 1-104 et seq., 1-106, 1-106.1, 1-206.1(a), and 1-208.1]

[**Source:** Codified 5-28-02]

SUBCHAPTER 1. GENERAL PROVISIONS

310:525-1-1. Purpose

This Chapter identifies the authority and provides definitions for direct health services provided to individuals by the Department.

[**Source:** Added at 19 Ok Reg 1288, eff 5-28-02]

310:525-1-2. Authority

Oklahoma State Board of Health; 63 O.S. 1991, §§ 1-104 et seq. §§ 1-106, 1-108, 1-208.1, 1-219, 1-227 et seq. 1-230 and 1-231 et seq.; 63 O.S. 2000 Supp. § 1-106.1.

[**Source:** Added at 19 Ok Reg 1288, eff 5-28-02]

310:525-1-3. Definitions

The following words and terms, when used in the Subchapters, shall have the following meaning, unless the context clearly indicates otherwise:

"Direct health services" means health services provided to an individual to promote and maintain overall health. Services may include assessment, identification of health concerns/ problems, education, treatment, referral, and monitoring of health status.

"Fee schedule" means a listing of services offered and the corresponding fee, if any, assigned to those services.

"Sliding fee scale" means a schedule of discounts for individuals based on federal poverty level, family income, family size, and other program specified economic considerations.

[**Source:** Added at 19 Ok Reg 1288, eff 5-28-02]

SUBCHAPTER 3. CHILD GUIDANCE

310:525-3-1. Purpose

The purpose of this Chapter is to establish rules for eligibility for child guidance services and to establish a procedure for fees to be charged for those services.

[**Source:** Added at 19 Ok Reg 1288, eff 5-28-02]

310:525-3-2. Definitions

"Child Guidance" means promoting optimal development, behavior and interaction of children.

"Family" means natural parents, adoptive parents, foster parents, legal guardians, siblings, aunts, uncles, grandparents or other caregivers living in the home with the identified child.

"Other adults" means childcare providers, teachers, school counselors, caseworkers, and others responsible for influencing the development of children.

[Source: Added at 19 Ok Reg 1288, eff 5-28-02 ; Amended at 23 Ok Reg 1343, eff 5-25-06]

310:525-3-3. Services

Child Guidance services are provided to children, families, and other adults responsible for influencing the development of children. Child Guidance services include, but are not limited to, screening, assessment, and evaluation of behavior, communication, hearing and development; and intervention, prevention and education services for risks or delays in behavior, communication, hearing, and/or development.

[Source: Added at 19 Ok Reg 1288, eff 5-28-02 ; Amended at 23 Ok Reg 1343, eff 5-25-06]

310:525-3-4. Eligibility

Persons authorized to be served by Child Guidance programs are children birth through eighteen (18) years of age, their families, and other adults responsible for influencing their development.

[Source: Added at 19 Ok Reg 1288, eff 5-28-02 ; Amended at 23 Ok Reg 1343, eff 5-25-06 ; Amended at 40 Ok Reg 1568, eff 9-11-23]

310:525-3-5. Fees

(a) Fees will be charged for Child Guidance services based upon the ability of the child's family to pay as set by the sliding fee scale and upon the potential for payments or contribution from the family's third party insurance provider. Families will not be denied Child Guidance services, or be subjected to any variation in quality or delivery of Child Guidance services, because of inability to pay.

(b) The schedule of fees will be consistent with Medicaid rates established by the Oklahoma Health Care Authority pursuant to 63 O.S. §§ 5007(F) and 5009.

(c) The Commissioner of Health must approve any changes to the sliding fee scale prior to implementation.

[Source: Added at 19 Ok Reg 1288, eff 5-28-02 ; Amended at 23 Ok Reg 1343, eff 5-25-06]

SUBCHAPTER 5. DISEASE AND PREVENTION SERVICES

310:525-5-1. Purpose

The rules in this subchapter implement the fee provisions of the Public Health Code which authorize fees for services of the Oklahoma State Department of Health.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09]

310:525-5-2. Fees

Fees may be charged for disease and prevention services as follows. The fees listed reflect actual costs incurred by the Department for product and person-time. The fees are the maximum to be charged by the Department as follows.

- (1) Tuberculin skin test: \$45;
- (2) Blood assay for *Mycobacterium tuberculosis*: \$46; and
- (3) X-ray consultation: \$84.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09]

CHAPTER 526. DENTAL SERVICES

[**Authority:** 63 O.S. §§ 1-104, 1-105, and 1-2710 et seq.]

[**Source:** Codified 6-25-07]

SUBCHAPTER 1. GENERAL PROVISIONS

310:526-1-1. Purpose

This chapter identifies the authority and provides definitions for dental services provided to individuals by the Department.

[**Source:** Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07]

310:526-1-2. Authority

Oklahoma State Commissioner of Health; 63 O.S. Sections 1-104 and 1-2710 et seq.

[**Source:** Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07 ; Amended at 38 Ok Reg 2032, eff 9-11-21]

310:526-1-3. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Advisory Committee" means a committee utilized during an Oklahoma Dental Loan Repayment Program (ODLRP) selection process whose responsibilities and makeup are described in these Rules.

"Commissioner" means the Commissioner of Health of the Oklahoma State Department of Health or his/her designee.

"Contract" means a written agreement between the participating dentist and the Oklahoma State Department of Health upon the dentist's acceptance into the Oklahoma Dental Loan Repayment Program (ODLRP.)

"Dental Health Professional Shortage Area" or "DHPSA" means a location in Oklahoma that has been officially designated, on or about January 1 of each year, as experiencing special dental health problems and dentist practice patterns that limit access to dental care.

"Dental Service" means the Dental Program of the Oklahoma State Department of Health.

"Dental services" means the provision of diagnostic, preventive, restorative, emergency and palliative services provided by licensed general or pediatric dentists. The provision of dental services includes a reasonable amount of time for performing tasks related to the service, such as record-keeping.

"Dentist" means a person who is licensed to practice dentistry by the Oklahoma Board of Dentistry.

"Dentistry" means the practice of dentistry by a dentist as defined in the latest editions of the Oklahoma State Dental Act and the Oklahoma Board of Dentistry Rules and Regulations.

"Department" means the Oklahoma State Department of Health.

"Educational expenses" means all or part of the principal and interest of an educational loan which has been taken out by an individual that meets eligibility criteria for the Program.

"Medicaid dental provider" means a dentist who has fulfilled the Oklahoma Health Care Authority requirements to be reimbursed fees for services provided to the Title XIX Medicaid population.

"Medicaid patient" means a patient enrolled, at the time of dental treatment, in the State Title XIX Medicaid Program as administered by the Oklahoma Health Care Authority.

"New dental school graduate" means a dentist who has graduated from an accredited U.S. dental school during the last five years prior to the effective funding cycle for which applicant is submitting an application for the ODLRA Program.

"ODLRA" means the Oklahoma Dental Loan Repayment Act.

"ODLRP" means the Oklahoma Dental Loan Repayment Program.

"Oklahoma Health Care Authority" or **"OHCA"** means the state agency responsible for the Title XIX Medicaid Program in Oklahoma.

"Participating dentist" or **"participant"** means a dentist selected to participate in the Program and who has an effective ODLRP contract with the Department.

"Patient" means the individuals treated at an approved practice site.

"Program" means the Oklahoma Dental Loan Repayment Program.

"Service obligation" means the terms established by the contract as defined by the Department and may include options to renew for up to a total participation in the Program of five (5) years.

[Source: Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07 ; Amended at 25 Ok Reg 1151, eff 5-25-08 ; Amended at 27 Ok Reg 2524, eff 7-25-10]

SUBCHAPTER 3. OKLAHOMA DENTAL LOAN REPAYMENT PROGRAM

310:526-3-1. Purpose

The rules in this subchapter implement the Oklahoma Dental Loan Repayment Act, 63 O.S. Section 1-2710 et seq. The purpose of this rule is to create a program designed to increase the number of dentists serving and caring for those dependent upon the state for dental care and to make dental care accessible to underserved metropolitan and rural areas by providing educational loan repayment assistance to qualified service providers.

[Source: Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07]

310:526-3-2. Description and operation of the Program

(a) **Department's equal opportunity policies applicable.** The Department's Dental Service administers the Oklahoma Dental Loan Repayment Program in accordance with the Department's policies governing equal opportunity and access to programs, services and

activities.

(b) **General operation of the Program.** The Program provides educational loan repayment assistance for a number not to exceed twenty-five (25) full time (or full time equivalent, or as designated by Advisory Committee or Department) dentists licensed to practice in Oklahoma. The Program provides prorated educational loan repayment assistance based upon the percentage of time worked. Dentists entering the Program agree to teach at the University of Oklahoma College of Dentistry if applicable faculty positions are available, or provide dental care and services to Medicaid recipients in a designated dental health professional shortage area (DHPSA) or exempted facility according to state law.

(c) **Determining individual awards.** The amount of award, not to exceed \$50,000 per year for each participating full time equivalent dentist, is determined by the Department annually based upon the amount of funds appropriated to the Department. If the participating dentist's eligible loans are less than the cumulative repayment assistance total available over 5 years, that participating dentist shall be in the Program no longer than required to pay off the total eligible loans and shall not receive more funding assistance than the total eligible indebtedness.

(d) **Distributing the awards.** Each award is distributed in accordance with state law.

(e) **Default.** If the participating dentist does not fulfill the terms of the service obligation, the Department may collect from the participant the entire amount of loan repayment assistance extended to the participant under the Program, plus interest.

[Source: Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07 ; Amended at 27 Ok Reg 2524, eff 7-25-10 ; Amended at 31 Ok Reg 1590, eff 9-12-14 ; Amended at 32 Ok Reg 1790, eff 9-11-15 ; Amended at 38 Ok Reg 2032, eff 9-11-21]

310:526-3-3. Eligibility to participate in the Program

(a) **Eligibility requirements common to both non-faculty and faculty participants.** Eligibility for repayment assistance for non-faculty and faculty participants requires compliance with the following requirements:

- (1) receipt or award of a dental degree from an accredited United States dental school within the previous five (5) years;
- (2) completion of all requirements to receive or be awarded an active unrestricted license to practice dentistry in the State of Oklahoma at the time the service obligation begins; and,
- (3) a financial need with outstanding eligible dental school loans.

(b) **Additional eligibility requirements for non-faculty participants.** Eligibility for repayment assistance for non-faculty participants requires compliance with the following additional requirements:

- (1) an established general or pediatric dental practice, or the commitment to establish such a practice, located in an Oklahoma DHPSA with the exception that any dentist licensed to practice as a pediatric dentistry specialist as defined by the State Dental Act or any dentist practicing in a Federally Qualified Health Center

(FQHC), FQHC look-alike, county health department, or city-county health department may be exempt from the requirement to practice in a DHPA;

(2) fulfillment of all applicable requirements of the Oklahoma Health Care Authority to qualify as a Medicaid Dental Provider at the time the service obligation begins; and,

(3) agree that during the service obligation/contract period, a minimum 30% of patient visits are by Medicaid recipients.

(c) Additional eligibility requirements for faculty participants.

Eligibility for repayment assistance for faculty participants requires compliance with the additional requirement of abiding by the rules and regulations for a faculty member, and the job duties assigned by the Dean of the University of Oklahoma College of Dentistry.

(d) Limitations upon eligibility common to both non-faculty and faculty participants.

A non-faculty or faculty participant's eligibility may be rescinded or terminated if any of the following conditions occur:

(1) a breach of an obligation for service to a federal, state, or local government entity;

(2) an obligation for service to a federal, state, or local government entity that interferes with the fulfillment of the requirements of the Program that remains unsatisfied; or,

(3) default or material breach of an agreement to repay a higher education loan or borrowing agreement.

(e) Additional considerations.

(1) Preference is given to graduates of the University of Oklahoma College of Dentistry.

(2) Preference is given to eligible practice sites that are not Medicaid/Soonercare specific.

(3) Geographic diversity of the participants is an objective of the Program.

(4) An eligible practice site is a solo, group, or incorporated private practice, and any federal, state, local, or private for-profit or nonprofit dental facility.

(5) To qualify for the 30% minimum Medicaid recipient requirement the participant must use a count of patient visits during the service obligation. The 30% requirement is monitored monthly, but the participant is deemed to be compliant if the yearly average is 30% or greater.

(f) Eligible loans. Loans eligible for repayment assistance are any loans for educational expenses while attending dental school from a college, university, government, commercial source, or an organization, institution, association, society, or corporation that is exempt from taxation under 501(c)(3) or (4) of the Internal Revenue Code of 1986. The ODLRP participant must be able to provide, upon request, documentation that commercial loans were used for payment of educational expenses.

310:526-3-4. Procedures for administering the Program

The Program shall develop dental loan repayment procedures as may be necessary to carry out the administration of the Program. The Program shall delineate the following procedures:

- (1) **Dental Health Professional Shortage Areas (DHPSA).** Dental health professional shortage areas for Oklahoma shall be established by the Commissioner using the following criteria.
 - (A) The percentage of Medicaid enrollees receiving dental services each year.
 - (B) The ratio of the number of Medicaid enrollees per Medicaid dental provider.
 - (C) The ratio of the number of Oklahoma residents in the general population per Oklahoma licensed general practice or pediatric dentist.
- (2) **Applications.** All interested new dental school graduates shall file an application with the Department. This application can be submitted at any time during the year. Applications are available in the Dental Service office of the Oklahoma State Department of Health, in person or online.
- (3) **Approval by the Department.** Applications are reviewed by the Advisory Committee. Following this review, the Advisory Committee forwards their recommendations to the Department. Applications are approved or declined as determined by the Department.
- (4) **Renewal of loan repayment contracts.** The original loan repayment contract may be renewed for up to a total participation in the Program of five (5) years, contingent upon funding from the Legislature and continued approval of the Department based upon the dentist's performance and recommendations of the Advisory Committee if requested.
- (5) **Advisory Committee.** The Department will appoint and convene an Advisory Committee to assist in the dental loan repayment process. The Advisory Committee includes five (5) members with representation from the Oklahoma Dental Association, the University of Oklahoma College of Dentistry, the Oklahoma Health Care Authority, the Oklahoma Board of Dentistry, and the Oklahoma Oral Health Coalition. The Advisory Committee is responsible for reviewing the eligible applicants, as determined by the Department, and making recommendations to the Department. The Department makes the final selection of Program participants.

310:526-3-5. Applicant Contracts

- (a) Each applicant, before being granted loan repayment assistance under the Program, enters into a contract with the Department agreeing

to the terms and conditions.

(b) The participant fulfills all contractual obligations outlined, referenced or described in the contract.

(c) The contract shall be signed by the Commissioner, or the Commissioner's designee, on behalf of the Department, and by the applicant.

(d) The Department may file suit against any participant for any balance due the Department for any contract, or portion thereof, that is unfulfilled or breached by the participant. The Department may cancel or amend any contract made between it and the participant upon cause deemed sufficient by the Department.

[Source: Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07 ; Amended at 38 Ok Reg 2032, eff 9-11-21]

310:526-3-6. Annual Report

The Department presents a report on the Program to the Governor, the Speaker of the House of Representatives, and the President Pro Tempore of the Senate within one month of the beginning of each regular session of the Legislature.

[Source: Added at 24 Ok Reg 203, eff 11-1-06 (emergency); Added at 24 Ok Reg 1983, eff 6-25-07 ; Amended at 38 Ok Reg 2032, eff 9-11-21]

CHAPTER 527. ALTERNATIVES-TO-ABORTION SERVICES

[Authority: 63 O.S. §§ 1-104, 1-105 and 1-740.11-12]

[Source: Codified 6-25-07]

310:527-1-1. Purpose

The purpose of this chapter is to provide definitions and eligibility requirements for the establishment and implementation of the program to facilitate funding to nongovernmental entities that provide alternatives-to-abortion services.

[Source: Added at 24 Ok Reg 206, eff 11-1-06 (emergency); Added at 24 Ok Reg 1986, eff 6-25-07]

310:527-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Alternatives to Abortion Services" *means those services that promote childbirth instead of abortion by providing information, counseling, and support services that assist pregnant women or women who believe they may be pregnant to choose childbirth and to make informed decisions regarding the choice of adoption or parenting with respect to their children. [63 O.S. § 1-740.11]*

"Department" means the Oklahoma State Department of Health.

[Source: Added at 24 Ok Reg 206, eff 11-1-06 (emergency); Added at 24 Ok Reg 1986, eff 6-25-07]

310:527-1-3. Services

(a) Alternatives-to-abortion services must focus on positive outcome-based results that are measurable and relate to promoting childbirth, adoption or parenting of children.

(b) Alternatives-to-abortion services may include, but are not limited to: medical care, nutritional services, housing assistance, adoption services, educational and/or employment assistance, child care assistance, and parenting education and support services. [63 O.S. § 1-740.11]

(c) Services will be made available without requirement for age, sex, race, religion, nationality, marital status or pregnancy history.

(d) Services may be provided from the time a woman is pregnant, or believes she is pregnant, through the first year following the birth of her child.

[Source: Added at 24 Ok Reg 206, eff 11-1-06 (emergency); Added at 24 Ok Reg 1986, eff 6-25-07]

310:527-1-4. Eligibility Requirements

(a) To be eligible to receive alternatives-to-abortion funding, organizations must provide services that promote childbirth by providing information, counseling and support services that assist pregnant women or women who believe they may be pregnant to choose childbirth and to make informed decisions regarding the choice of adoption or parenting with respect to their children.

(b) Any organization or affiliate of an organization that provides or promotes abortion or directly refers for abortion shall not be eligible to receive alternatives-to-abortion funding. Organizations that provide nondirective counseling relating to a pregnancy will not be disqualified from receiving these funds. [63 O.S. § 1-740.12]

(c) The Department may not contract for alternatives-to-abortion services with an adoption agency that is not licensed by the State. [63 O.S. § 1-740.11]

[Source: Added at 24 Ok Reg 206, eff 11-1-06 (emergency); Added at 24 Ok Reg 1986, eff 6-25-07]

310:527-1-5. Alternatives-to-Abortion Services Revolving Fund

Awards to organizations providing alternatives-to-abortion services shall be made from the Alternatives-to-Abortion Services Revolving Fund in accordance with the Central Purchasing Act.

[Source: Added at 24 Ok Reg 206, eff 11-1-06 (emergency); Added at 24 Ok Reg 1986, eff 6-25-07]

CHAPTER 528. CHILDREN FIRST ELIGIBILITY REQUIREMENTS

[Authority: 63 O.S., §§ 1-104 and 1-110.1]

[Source: Codified 6-12-03]

310:528-1-1. Purpose

This Chapter identifies the authority, provides general definitions, and establishes eligibility requirements for the Children First Service of the Oklahoma State Department of Health.

[Source: Added at 20 Ok Reg 1658, eff 6-12-03]

310:528-1-2. Definitions

The following word or term, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Children First Mother" means the woman that meets Children First Service eligibility requirements and enrolls in the service.

[Source: Added at 20 Ok Reg 1658, eff 6-12-03]

310:528-1-3. Services

(a) Services will be provided by a public health nurse in the home of the Children First Mother unless the Children First Mother requests that the services be provided in a different location.

(b) Services include limited maternal and child health assessments; child development assessments; parenting education; health, safety and nutrition education; appropriate referrals to services such as primary health care, family planning, mental health services, job training, literacy services, employment opportunities, housing, and substance abuse treatment.

(c) Services will be made available without requirement for legal residence, age, sex, race, religion, nationality, marital status or pregnancy history.

(d) Acceptance of services must be voluntary, and individuals must not be subjected to any coercion to receive services.

(e) Acceptance of services shall not be a prerequisite to eligibility for, or receipt of, any other services provided by the Oklahoma State Department of Health (OSDH).

(f) All information obtained as to personal facts and circumstances of individuals will be held confidential, and shall not be divulged without the individual's written consent, court order, or by request of staff from a District Attorney's Office, a law enforcement official, or the Department of Human Services when conducting a child abuse investigation.

(g) Services will be prioritized to Children First Mothers whose household income is no greater than 185% of the federal poverty level. No more than 15% of a nurse home visitor's caseload should be above 185% of the federal poverty level.

[Source: Added at 20 Ok Reg 1658, eff 6-12-03 ; Amended at 37 Ok Reg 1410, eff 9-11-20]

310:528-1-4. Eligibility requirements

The Children First Mother must be at or less than 28 weeks gestation when the initial Children First visit occurs, be within the prioritized services as set forth in 310:528-1-3(g), and

- (1) be expecting her first live birth, never parented and plans on parenting this child; or
- (2) be expecting her first live birth, never parented and is contemplating placing the child for adoption; or
- (3) be expecting her first live birth and has parented stepchildren or younger siblings; or
- (4) be expecting her first live birth, been pregnant before, but the pregnancy did not result in a live birth; or
- (5) be expecting a live birth, been pregnant and delivered a child in the past, but the child died within the first six months of life; or
- (6) be expecting a live birth, been pregnant and delivered a child in the past, but the mother placed the child for adoption immediately following delivery of the child.

[Source: Added at 20 Ok Reg 1658, eff 6-12-03 ; Amended at 37 Ok Reg 1410, eff 9-11-20]

310:528-1-5. Fees

No fees will be charged to eligible participants for Children First home visitation services.

[Source: Added at 20 Ok Reg 1658, eff 6-12-03]

CHAPTER 529. MULTIDISCIPLINARY TEAMS FOR CHILD PROTECTION

[**Authority:** 63 O.S., §§ 1-227.1, 1-227.2, and 1-227.7]
[**Source:** Codified 6-12-03]

SUBCHAPTER 1. GENERAL PROVISIONS

310:529-1-1. Purpose

This Chapter identifies the authority and provides general definitions for multidisciplinary teams for child protection.

[**Source:** Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-1-2. Authority

Oklahoma State Board of Health; 63 O.S. 2001 § 1-227.7; 63 O.S. 2001 § 1-227.2.

[**Source:** Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-1-3. Definitions

The following words and terms, when used in the Subchapters, shall have the following meaning, unless the context clearly indicates otherwise:

"Department" means the Oklahoma State Department of Health.

"Interagency agreement(s)" means the written document(s) signed by multidisciplinary team member agencies that specify the cooperative effort of the member agencies to the team and delineates roles.

"Multidisciplinary team" means a group of individuals of differing disciplines working together collaboratively on a common purpose.

"Standards" means the state of the art criteria used to determine functionality of a multidisciplinary team.

[**Source:** Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

SUBCHAPTER 3. CHILD ABUSE PREVENTION SERVICE

310:529-3-1. Purpose

The Department is responsible for the Child Abuse Prevention Service. The Child Abuse Prevention Service is responsible for assisting the Child Abuse Training and Coordination Council in the performance of their duties. One of the duties of the Child Abuse Training and Coordination Council is to annually approve the list of functioning multidisciplinary teams. A functioning multidisciplinary team can apply for funding to the Department of Human Services from the Child Abuse

Multidisciplinary Account. The purpose of this chapter is to establish the minimal standards to determine a functioning multidisciplinary team.

[Source: Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-3-2. Authority

Oklahoma State Board of Health; 63 O.S. 2001 § 1-227.7; 63 O.S. 2001 § 1-227.2.

[Source: Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-3-3. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Annual survey" means a written document submitted on at least a yearly basis to the Office of Child Abuse Prevention summarizing the activities of the team as related to child protection investigations and services with the data elements and format proscribed by the Child Abuse Training and Coordination Council.

"Child abuse multidisciplinary account" means a continuing fund established by the Oklahoma Legislature for the purpose of providing operating funds to functional multidisciplinary teams.

"Child Abuse Training and Coordination Council" means the Office of Child Abuse Prevention B Child Abuse Training and Coordination Council as established in O.S. Title 63 § 1-227.9.

"Communityneeds assessment" means conducting a process that results in a written document that identifies available services, service gaps, untapped resources and community based priorities for improvement or development of services to the victim and family according to the format and schedule of the Child Abuse Training and Coordination Council.

"Confidentiality statement" means the written document signed by multidisciplinary team members assuring that all proceedings conducted during team meetings and child protective investigations will be kept confidential according to clearly defined limits, state law and respective agency policy and procedure.

"Data collection" means multidisciplinary teams shall maintain data on every case reviewed by the multidisciplinary team in the format proscribed by the Child Abuse Training and Coordination Council.

"Expertise" means individual team members obtaining training and experience in a particular aspect of the multidisciplinary team approach, conducting legally sound and age appropriate interviews, effective investigation techniques or knowledge about how to conduct joint investigations.

"Initial team training" means a training conducted during the early formation of the team where individual team members are oriented to the multidisciplinary child abuse team approach.

"Joint investigations" means law enforcement and child welfare staff conduct a collaborative investigation with written protocols to decrease duplicative efforts and to ensure a thorough process.

"Multidisciplinary team members" means team members to include police officers or other law enforcement agents, child protective services workers within the Oklahoma Department of Human Services, mental health professionals, medical personnel, multidisciplinary child abuse team coordinators, child advocacy center director and the district attorney or assistant district attorney.

"Protocol" means specific methods and procedures used to conduct child protection investigations and interviews.

[Source: Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-3-4. Services provided

A multidisciplinary team conducts joint investigations in an effort to effectively respond to child abuse reports.

[Source: Added at 19 Ok Reg 2917, eff 7-26-02 (emergency); Added at 20 Ok Reg 1659, eff 6-12-03]

310:529-3-5. Standards for eligibility

A multidisciplinary team will adhere to the following minimal standards:

- (1) Develop individual and team expertise through training according to the format and schedule established by the Child Abuse Training and Coordination Council;
- (2) Conduct and submit a Community Needs Assessment that will identify available services, service gaps, untapped resources, and priorities for improvement or development of services to improve the delivery of services to the victim and family according to the schedule established by the Child Abuse Training and Coordination Council;
- (3) Conduct joint investigations, wherever feasible, in an effort to effectively respond to child abuse reports;
- (4) Utilize written protocols approved by the Child Abuse Training and Coordination Council for interviewing and investigating to increase joint investigations and decrease duplicative efforts;
- (5) Utilize an approved Child Abuse Training and Coordination Council formalized case review process, interagency agreement, and confidentiality statement; and
- (6) Submit data collected in the format and schedule prescribed by the Child Abuse Training and Coordination Council to complete the Child Abuse Training and Coordination Council Annual Survey.

CHAPTER 530. FAMILY PLANNING CENTERS

[**Authority:** 63 O.S., §§ 1-106, 1-106.1, and 1-206.1(a)]

[**Source:** Codified 6-27-02]

310:530-1-1. Purpose

The purpose of this chapter is to describe the family planning services offered by the Department and to establish the procedures and methods used by the Department to determine the annual allocation of programmatic costs attributable to the operation of the Family Planning Client Fee System and to determine the recommended fee assessment to be collected from persons receiving family planning services provided by the Department.

[**Source:** Added at 19 Ok Reg 2077, eff 6-27-02 ; Amended at 21 Ok Reg 2751, eff 7-12-04]

310:530-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Attributable analysis period" means the most recently completed period for which cost and client encounter data is available.

"Client" means a female or male of reproductive age who requests family planning services.

"Commissioner of Health" and **"Commissioner"** mean the Oklahoma State Commissioner of Health, the chief executive officer of the Department. References in the subchapter to the Commissioner may include a designee of the Commissioner of Health. Designations shall be subject to such powers and limitations as are specified in writing.

"Contraceptive methods" means any Federal Drug Administration (FDA) approved medication or method that prevents pregnancy.

"Delivered product" means a contraceptive device or pharmacological substance administered or given to the client for use or consumption.

"Department" means the Oklahoma State Department of Health.

"Examination service" means a qualified family planning service described in the Family Planning Policies and Procedures Manual and incorporating a medical history and/or physical assessment element(s) as the central component of the service delivered to the client.

"Examination service component" means the set of all examination services provided by the family planning program.

"Family planning" means those services which will allow an individual to freely determine the number and spacing of their children, encompassing the spectrum from infertility to desired sterilization. Abortion is not a method of family planning.

"Family planning centers" means county health departments providing family planning services.

"Federal poverty level (FPL) guidelines" means the levels set forth in the most recent Poverty Guidelines issued pursuant to 42 U.S.C. § 9902(2).

"Laboratory service" means a qualified family planning service described in the Family Planning Policies and Procedures Manual and incorporating the performance of tests in a laboratory setting as the central component of the service delivered to the client.

"Laboratory service component" means the set of all laboratory services provided by the family planning program.

"Medical cost center" or laboratory cost center" means those cost centers used by the Department to allocate costs determined to be necessary for the delivery of family planning services.

"Recommended fee assessment for utilization of services" or "RFA" means the maximum fee assessed to a client who receives a family planning service or product provided pursuant to this Chapter by the Department.

"Relative value" means the value assigned to a service described in the relative value study that most closely matches or approximates the description of the service provided by the family planning program.

"Relative value study" means an accredited study of a given set of medical services that establishes the relationship between the medical services studied indicating the proportionate value of each service to that of the others in the study.

"Schedule of fees" means a listing of services offered and the corresponding fee, if any, assigned to those services.

"Sliding fee scale" means a schedule of discounts for individuals based upon federal poverty level, family income, family size, and other program specified economic considerations.

[Source: Added at 19 Ok Reg 2077, eff 6-27-02 ; Amended at 21 Ok Reg 2751, eff 7-12-04]

310:530-1-3. Services

(a) Services will include health assessment, screening, health maintenance, and preventive services; initial assessment of health problems; treatment of uncomplicated health problems; and education to reduce risk behaviors.

(b) Individuals will have freedom of choice of contraceptive method(s) available from the Family Planning Centers as long as there are no medical contraindications to the method(s) selected.

(c) Services will be made available without requirement for legal residence, age, sex, race, religion, nationality, marital status or pregnancy history.

(d) Acceptance of services must be voluntary, and individuals must not be subjected to any coercion to receive services or to employ, or not to employ, any particular method of family planning.

(e) Acceptance of services shall not be a prerequisite to eligibility for, or receipt of, any other services provided by the Oklahoma State Department of Health (OSDH).

(f) All information obtained as to personal facts and circumstances of individuals will be held confidential, and shall not be divulged without the individual's written consent or court order.

[Source: Added at 19 Ok Reg 2077, eff 6-27-02]

310:530-1-4. Methods and Procedures

(a) **General.** Fees will be charged for services based upon client's ability to pay, and upon the potential for payments or contribution from the client's third party health insurance provider. Clients will not be denied family planning services, or be subjected to any variation in quality or delivery of family planning services, because of inability to pay. The Commissioner of Health must approve the schedule of fees for family planning services annually and prior to implementation. The calculation of the maximum recommended fee assessment will be completed before July 1 implementation each year.

(b) **Determining the base unit cost.**

(1) **Examination services component.** The base unit cost for the examination service component is derived by dividing the total dollar amount attributable to the medical cost center by the sum of the collective weighted values of each examination service. The collective weighted value of each examination service is derived by multiplying the relative value for the examination service by the frequency of encounters for that service during the attributable analysis period.

(2) **Laboratory service component.** The base unit cost for the laboratory service component is derived by dividing the total dollar amount attributable to the laboratory cost center by the sum of the collective weighted values of each laboratory service. The collective weighted value of each laboratory service is derived by multiplying the relative value for the laboratory service by the frequency of encounters for that service during the attributable analysis period.

(c) **Deriving the applicable ancillary unit cost.**

(1) **Allocated unit indirect costs.** Allocated unit indirect costs are those indirect unit costs attributable to the family planning program and are prorated and added as an ancillary cost to each examination service provided by family planning centers. The allocated unit indirect cost is derived by dividing the sum of all indirect costs approved by the Commissioner for allocation to family planning during the attributable analysis period by the relative proportion of the collective weighted value of a given examination service to the total collective weighted value of the examination service component.

(2) **Unit clinical supply costs.** Unit clinical supply costs are prorated and added as an ancillary cost to each examination service provided by family planning centers. The unit clinical supply cost is derived by dividing the sum of all non-laboratory supplies consumed by family planning during the attributable analysis period by the relative proportion of the collective weighted value of a given examination service to the total collective weighted value of the examination service component.

(3) **Unit laboratory supply costs.** Unit laboratory supply costs are prorated and added as an ancillary cost to each laboratory service provided by family planning centers. The unit laboratory supply cost is derived by dividing the sum of all laboratory

supplies consumed by family planning during the attributable analysis period by the relative proportion of the collective weighted value of a given laboratory service to the total collective weighted value of the laboratory service component.

(d) **Deriving the inflationary adjustment modifier.** The inflationary adjustment modifier is derived by first consulting the annual percentage change in the Medical Care expenditure category reported for the South Region in the latest Consumer Price Index Detailed Report published by the United States Department of Labor prior to the time the maximum RFA is due to be calculated by the Department for the upcoming fiscal year. The annual percentage change reported is multiplied by the subtotal of the sum of ancillary unit costs and the product of the base unit cost and the weighted value attributed to the service.

(e) **Deriving the sliding fee scale adjustment.** The sliding fee scale adjustment is used to convert the maximum RFA into the adjusted RFA. The scale is divided into seven (7) increments that correspond to incremental levels of poverty ranging from 100% to 250% of poverty based upon the annual Federal Poverty Guidelines. The base increment of the sliding fee scale shall correspond to 100% of poverty and cause the maximum RFA to be reduced to zero. The next increment of the sliding fee scale shall correspond to approximately 118.75% of poverty and cause the assessment to be reduced to a sum that is 10% of the maximum RFA. The next increment of the sliding fee scale shall correspond to approximately 137.5% of poverty and cause the assessment to be reduced to a sum that is 20% of the maximum RFA. Successive increments of the sliding fee scale shall correspond to successive incremental increases of approximately 37.5 percentage points of poverty and cause incremental 20 percentage point increases of the percentage of the maximum RFA to be assessed to the client.

(f) **Deriving the maximum recommended fee assessment for utilization of services (RFA).**

(1) **Examination services.** The maximum RFA for a given examination service is derived by multiplying the base unit cost determined for the examination service by the weighted value attributed to the service. This product is then added to the sum of the ancillary unit costs derived for the service. The subtotal derived is then added to the inflationary adjustment modifier to derive the maximum RFA. The maximum RFA is then applied to the sliding fee scale adjustment applicable to the client and adjusted as indicated to derive the adjusted RFA for a given examination service.

(2) **Laboratory services.** The maximum RFA for a given laboratory service is derived by multiplying the base unit cost determined for the laboratory service by the weighted value attributed to the service. This product is then added to the sum of the ancillary unit costs derived for the service. The subtotal derived is then added to the inflationary adjustment modifier to derive the maximum RFA. The maximum RFA is then applied to the sliding fee scale adjustment applicable to the client and adjusted as indicated to derive the adjusted RFA for a given laboratory service.

(3) **Delivered products.** The maximum RFA for a delivered product is the average unit cost incurred by the Department for the product during the most recently completed purchasing cycle. This amount is then applied to the sliding fee scale adjustment applicable to the client and adjusted as indicated.

(g) **Waiver.** The family planning center may waive in whole or in part an adjusted RFA for any client who is unable, for good cause, to pay for the family planning service or product provided.

[Source: Added at 19 Ok Reg 2077, eff 6-27-02 ; Amended at 21 Ok Reg 2751, eff 7-12-04 ; Amended at 26 Ok Reg 1497, eff 6-11-09]

CHAPTER 531. VISION SCREENING

[**Authority:** 63 O.S., §§ 1-104, 1-105 and 1-106 et seq.; 70 O.S., § 1210.284]

[**Source:** Codified 5-11-07]

SUBCHAPTER 1. GENERAL PROVISIONS

310:531-1-1. Purpose

This subchapter identifies the authority and provides definitions for vision screening services provided to elementary school age children by approved vision screening providers.

[**Source:** Added at 24 Ok Reg 867, eff 5-11-07 ; Amended at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10]

310:531-1-2. Authority

Commissioner of the Oklahoma State Department of Health; 70 O.S. § 1210.284; 63 O.S. §§1-103, 1-103a.1, 1-104 and 1-106 et seq.

[**Source:** Added at 24 Ok Reg 867, eff 5-11-07 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 37 Ok Reg 1411, eff 9-11-20]

310:531-1-3. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"Board" means the State Board of Health.

"Commissioner" means the State Commissioner of Health of the Oklahoma State Department of Health.

"Comprehensive Eye Exam" means a clinical assessment and tests administered by a licensed optometrist or ophthalmologist to assess a person's level of vision as well as detect any abnormality or diseases.

"Department" means the Oklahoma State Department of Health.

"Infant and Children's Health Advisory Council" means the advisory council to the Board and Department in the area of infant and child health including vision screening.

"LEA Numbers Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with numbers. Chart is recommended for school age children and can be used with children who use English as a second language.

"Ophthalmologist" means a person licensed by the state of Oklahoma to practice medicine who has a specialty in ophthalmology.

"Optometrist" means a person licensed by the state of Oklahoma to practice optometry.

"Referral" means parent/guardian notification that the student's screening results indicate a need for a comprehensive eye exam by an ophthalmologist or optometrist.

"Sloan Letters Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with letters. Chart is recommended for school age children.

"Vision screening provider(s)" means a person(s) who has successfully completed vision screening training using curricula approved by the Department, submitted an application to the Department, and has been approved by the Department as being a vision screening provider.

"Vision screening" means the process or system used to identify children in grades K, 1 and 3 who may be at risk of having or developing visual problems that may adversely affect their ability to acquire knowledge, skill or learning, for the purpose of recommending further evaluation by an optometrist or ophthalmologist.

"Vision screening trainer(s)" is a person(s) who has been approved as a vision screening provider and completed additional training approved by the Department to provide training to potential vision screening providers.

"Vision Screening Registry" is a system for collecting and maintaining in a structured manner the names of individuals that have been approved by the Department as vision screening providers.

SUBCHAPTER 5. VISION SCREENING STANDARDS FOR CHILDREN

310:531-5-1. Purpose

This subchapter identifies those children to be screened and standards for vision screening tools, vision screening providers and vision screening trainers.

[Source: Added at 24 Ok Reg 867, eff 5-11-07 ; Amended at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10]

310:531-5-2. Oklahoma Vision Screening Standards

- (a) Parents or guardians of any child subject to the Oklahoma School Code shall provide certification of vision screening for any child who is:
- (1) in kindergarten, and the vision screening shall be completed within the previous twelve (12) months or during the school year;
 - (2) in the first grade, and the vision screening shall be completed within the previous (12) months, with certification provided to school personnel within thirty (30) days of the beginning of the school year; and
 - (3) in the third grade, and the vision screening shall be completed within the previous twelve (12) months, with certification provided to school personnel within thirty (30) days of the beginning of the school year.
- (b) Vision screening must, at a minimum, utilize one of the following vision screening tests using standard screening procedures for relative visual acuity:
- (1) For school age children, the Sloan Letter Chart,, or LEA Numbers Chart, at a distance of ten (10) feet or any new vision screening tool determined by the Department to be a comparably effective and efficient screening tool; or
 - (2) For children under 72 months of age, a photoscreener or any new vision screening tool determined by the Department to be a comparably effective and efficient screening tool.
- (c) The following distance visual acuity criteria shall be used as a basis for referring a child for further evaluation by an optometrist or ophthalmologist: Refer for a two-line difference in either eye, even in the passing range, or acuity 20/40 or worse in either eye.

[Source: Added at 24 Ok Reg 867, eff 5-11-07 ; Amended at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 37 Ok Reg 1411, eff 9-11-20]

310:531-5-3. Approval of vision screening providers

- (a) In order to become an approved vision screening provider, an individual must make application to the Department and include documentation of successful completion of training conducted by an approved trainer using an approved training curriculum that includes the following:
- (1) common eye problems;
 - (2) the screening process;
 - (3) required screening tools;
 - (4) screening special populations; and,
 - (5) basic anatomy and physiology of the eye.
- (b) The Department will review and approve vision screening providers.
- (c) The vision screening provider approval will be valid from the date of approval by the Department and ends three years from the most recently approved training.
- (d) All approved vision screening providers will be added to the statewide registry on the Internet website maintained by the Department.

(e) Oklahoma licensed optometrists and ophthalmologists are exempt from the application and successful completion of vision screening standards training by an approved trainer, and are exempt from being placed on the approved vision screeners registry managed by the Department.

(f) Unless otherwise provided by law, no person shall engage in vision screening as provided in 70 O.S. § 1210.284 without first being listed on the vision screening registry maintained by the Department.

[Source: Added at 24 Ok Reg 867, eff 5-11-07 ; Amended at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 40 Ok Reg 1569, eff 9-11-23]

310:531-5-4. Disclaimer

Any disclosure or other notice provided by a vision screener or other person subject to this chapter describing a vision screening provided in accordance with this chapter must include a disclaimer that advises the parent or guardian that a vision screening is not equivalent to a comprehensive eye examination.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09]

310:531-5-5. Re-approval of vision screening providers

A vision screening provider may renew his or her status by submitting documentation of completion of training, conducted by an approved trainer, using an approved curricula, prior to the end of his or her third year. Oklahoma licensed optometrists and ophthalmologists are exempt from the application and successful completion of vision screening standards training by an approved trainer, and are exempt from being placed on the approved vision screeners registry managed by the Department.

[Source: Added at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 37 Ok Reg 1411, eff 9-11-20 ; Amended at 40 Ok Reg 1569, eff 9-11-23]

310:531-5-6. Approval of vision screening trainers

(a) In order to become an approved vision screening trainer an individual must be an approved vision screening provider and make application to the Department and include documentation of successful completion of training conducted by an approved trainer using an approved training curriculum that includes the following:

- (1) common eye problems;
- (2) the screening process;
- (3) required screening tools;
- (4) screening special populations;
- (5) basic anatomy and physiology of the eye; and,
- (6) techniques for effective training of vision screening providers.

(b) The applicant must provide to the Department documentation of successful completion of training, which is administered by a trainer approved by the Department using a training curriculum for trainers approved by the Department.

(c) The Department will review and approve vision screening trainers and the approved curricula used for training vision screening providers. The approval of a vision screening trainer ends three years from the most recent approval.

(d) Oklahoma licensed optometrists and ophthalmologists are exempt from the application and successful completion of vision screening standards training by an approved trainer, and are exempt from being placed on the approved vision screeners registry managed by the Department.

[Source: Added at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 37 Ok Reg 1411, eff 9-11-20 ; Amended at 40 Ok Reg 1569, eff 9-11-23]

310:531-5-7. Re-approval of vision screening trainers

A vision screening trainer may renew his or her status by submitting documentation of completion of an approved training, conducted by an approved trainer, using an approved curricula, prior to the end of his or her third year. Oklahoma licensed optometrists and ophthalmologists are exempt from the application and successful completion of vision screening standards training by an approved trainer, and are exempt from being placed on the approved vision screeners registry managed by the Department.

[Source: Added at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Amended at 37 Ok Reg 1411, eff 9-11-20 ; Amended at 40 Ok Reg 1569, eff 9-11-23]

310:531-5-8. Approval of vision screening trainers of trainers [REVOKED]

[Source: Added at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Revoked at 37 Ok Reg 1411, eff 9-11-20]

310:531-5-9. Re-approval of vision screening trainers of trainers [REVOKED]

[Source: Added at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14 ; Revoked at 37 Ok Reg 1411, eff 9-11-20]

SUBCHAPTER 7. REGISTRY ENFORCEMENT FOR VISION SCREENING

310:531-7-1. Purpose

The purpose of this subchapter is to establish procedures for the investigation of complaints against vision screening providers or trainers engaged in vision screening or training and where evidence from an investigation is sufficient, provide for hearings pursuant to the Oklahoma Administrative Procedures Act and OAC 310:2-1-1 *et seq.* Disciplinary sanctions may be imposed upon vision screening providers or trainers engaged in vision screening or training including monetary penalties,

removal from the vision screening registry for five (5) years or less, or summary removal from the registry pending a hearing for removal.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10]

310:531-7-2. Grounds for discipline

(a) An approval of a vision screening provider may be modified, suspended, or terminated for one or more of the following reasons:

- (1) Failure to conduct vision screenings according to the procedures and referral criteria approved by the Department, including but not limited to, deletion of one or more portions of the process outlined in the screening standards and training curriculum, or addition of one or more procedures not contained in the screening standards and training curriculum, in sections 310:531-5-2 and 310:531-5-3, respectively;
- (2) Making referrals for comprehensive eye examinations that indicate a conflict of interest, financial or otherwise;
- (3) Failure to participate in a training curricula approved by the Department upon expiration of his or her three year approval;
- (4) Violations of a student's right of privacy in the student's education records pursuant to the Family Educational Rights and Privacy Act of 1974, 20 United States Code §§1232 *et seq.* and the rules promulgated thereunder; and
- (5) Any act that harms, or threatens harm to, a child.

(b) An approval of a vision screening trainer may be modified, suspended, or terminated for one or more of the following reasons:

- (1) Failure to conduct training workshops for vision screening providers utilizing curricula and/or procedures approved by the Department;
- (2) Failure to participate in a training curricula approved by the Department upon expiration of the three year approval;
- (3) Violations of a student's right of privacy in the student's education records pursuant to the Family Educational Rights and Privacy Act of 1974, 20 United States Code §1232 *et seq.* and the rules promulgated thereunder; and
- (4) Any act that harms, or threatens to harm, a child.

(c) An approval of a vision screening trainer of trainers may be modified, suspended, or terminated for one or more of the following reasons:

- (1) Failure to conduct training workshops for vision screening trainers utilizing curricula and/or procedures approved by the Department;
- (2) Failure to participate in a training curricula approved by the Department upon expiration of the three year approval;
- (3) Violations of a student's right of privacy in the student's education records pursuant to the Family Educational Rights and Privacy Act of 1974, 20 United States Code §§ 1232 *et seq.* and the rules promulgated thereunder; and
- (4) Any act that harms, or threatens harm to, a child.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14]

310:531-7-3. Complaint investigation

(a) **Reporting complaints.** Any person may report to the Department any complaint or allegations of non-compliance with 70 O.S. § 1210.284 or this Chapter by a vision screening provider or trainer by submitting the following:

- (1) the name, address, and telephone number, if known, of the vision screening provider or trainer who is the subject of the complaint;
 - (2) the location(s) where the alleged non-compliance occurred;
 - (3) the date(s) of non-compliance;
 - (4) the reporting party's name, address and telephone number;
- and,
- (5) the specific allegations against the vision screening provider or trainer, including but not limited to references to, or a copy of supporting documentation regarding, or any witnesses to, the alleged non-compliance.

(b) **Process.** Upon receipt of a complaint against a vision screening provider or trainer alleging non-compliance with 70 O.S. § 1210.284 or this Chapter, the Department shall conduct an investigation.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14]

310:531-7-4. Summary removal

(a) If in the course of an investigation the Department determines that a vision screening provider has engaged in conduct of a nature that is, or is likely to be detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent such harm, the Commissioner may order summary removal of the name of the vision screening provider from the registry for vision screening maintained by the Department pending the Department filing a petition to remove the name of the vision screening provider from the registry following an individual proceeding pursuant to the Oklahoma Administrative Procedures Act, 75 O.S. §§ 309 *et seq.* A presumption of imminent harm to the public shall exist if the Department determines that probable cause exists that a vision screening provider has harmed, or threatened harm to, a child while providing vision screening services. The order of summary removal from the registry must include the specific grounds for the summary removal, a citation of the statute or law allegedly violated, and inform the vision screening provider of the process to request a hearing to contest the summary action.

(b) Any vision screening provider whose name has been summarily removed from the registry for vision screening may request a hearing to contest such summary action. The Department shall have the initial burden of persuasion to show that the provider has engaged in conduct that has caused, or is likely to cause, harm to a child. If the Department meets this burden of persuasion, the vision screening provider has the burden to prove that the conduct of the provider in providing vision screening services would not harm a child.

(c) If in the course of an investigation the Department determines that a vision screening trainer has engaged in conduct of a nature that is, or is likely to be detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent such harm, the Commissioner may order summary removal of the name of the vision screening trainer from the list for vision screening trainers maintained by the Department pending the Department filing a petition to remove the name of the vision screening trainer from the list following an individual proceeding pursuant to the Oklahoma Administrative Procedures Act, 75 O.S. §§ 309 *et seq.* A presumption of imminent harm to the public shall exist if the Department determines that probable cause exists that a vision screening trainer has harmed, or threatened harm to, a child while providing vision screening services. The order of summary removal from the list must include the specific grounds for the summary removal, a citation of the statute or law allegedly violated, and inform the vision screening trainer of the process to request a hearing to contest the summary action.

(d) Any vision screening trainer whose name has been summarily removed from the list for vision screening trainers may request a hearing to contest such summary action. The Department shall have the initial burden of persuasion to show that the trainer has engaged in conduct that has caused, or is likely to cause, harm to a child. If the Department meets this burden of persuasion, the vision screening trainer has the burden to prove that the conduct of the trainer in providing vision screening services would not harm a child.

310:531-7-5. Appearance before the Advisory Committee [REVOKED]

[Source: Added at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Revoked at 31 Ok Reg 1591, eff 9-12-14]

310:531-7-6. Right to a hearing

Except as provided for in section 310:531-7-4, the name of a vision screening provider or trainer may not be removed from the vision screening registry or vision screening trainer's list until the Department provides notice to the vision screening provider or trainer and an opportunity for a hearing to contest the Department's allegations. The notice to the vision screening provider or trainer must comply with 75 O.S. § 309. The vision screening provider or trainer must request a hearing within twenty (20) days of receiving the notice from the Department or the sanction may be imposed by default.

[Source: Added at 26 Ok Reg 2036, eff 6-25-09 ; Amended at 27 Ok Reg 2526, eff 7-25-10 ; Amended at 31 Ok Reg 1591, eff 9-12-14]

310:531-7-7. Hearing procedure and decisions

(a) **Delegation.** The Commissioner of Health may delegate the authority to issue a final decision in these matters as specified in 75 O.S. Section 311.1 and OAC 310:002. The Administrative Law Judge shall issue a decision within fifteen (15) working days following the close of the hearing record. The decision shall include Findings of Fact and Conclusions of Law separately stated.

(b) **Procedure.** The hearing shall be conducted in accord with the Oklahoma Administrative Procedures Act and Chapter 2 of this Title.

(c) **Final order.** The final order resulting from a hearing shall comply with the requirements of, and be served upon each party and attorney pursuant to, 75 O.S. § 312. The Department shall transmit a copy of the Final Order to the Vision Screening Registry when the Order is mailed.

(d) **Appeal.** An appeal of the Final Order shall be perfected pursuant to 75 O.S. Section 318 of the Administrative Procedures Act.

CHAPTER 535. IMMUNIZATION REGULATIONS

[**Authority:** 10 O.S., § 412; 63 O.S., §§ 1-104, 1-206.1, and 1-502; 70 O.S., §§ 1210.191 et seq.]

[**Source:** Codified 12-31-91]

SUBCHAPTER 1. CHILDHOOD IMMUNIZATIONS

310:535-1-1. Purpose

The rules in this Chapter implement the Immunization Regulations, 70 O.S 1981, Section 1210.191 et seq.

310:535-1-2. Criteria for immunizations required

(a) Each child shall present certification that he or she has received or is receiving the immunizations as specified below before he or she is admitted to any public, private, or parochial school.

(b) Certification shall include the following:

(1) Diphtheria, Tetanus and Pertussis (DTP/DTaP) vaccine in five doses unless the fourth dose is received on or after the fourth birthday in which case only four doses are required. If the doses are not completed by the seventh birthday, the series must be completed with Adult Td vaccine and/or Tdap vaccine based on the individual's age at the time the first dose was received and age at the time the series is completed and beginning with the fall 2011-12 school year one dose of Tdap vaccine for students entering the seventh grade. Each year following the 2011-12 school year, the Tdap requirement shall be extended one grade level so that in the 2016-17 school year and all subsequent school years, students in grades seven through twelve shall be required to have received one dose of Tdap vaccine.

(2) Poliomyelitis vaccine in four doses unless the last dose is on or after the fourth birthday in which case only three doses are required. If the doses are not started or completed by the eighteenth birthday, no additional doses are required.

(3) Measles, Mumps and Rubella (MMR) vaccine with the first dose on or after the first birthday and the second dose at least twenty-eight days thereafter for children in grades kindergarten through eighth grade in the school year beginning in 1998. In the school year beginning in 1999, this requirement shall apply to the children through the ninth grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2002, children in all grades shall be required to have the second dose of vaccine.

(4) Hepatitis B vaccine in three doses for students of any age or two doses for students eleven through fifteen years of age who complete the alternative dosage schedule providing that the alternative schedule is fully documented. Such documentation must include the name of the vaccine and the dosage received for each dose of that vaccine:

(A) before entering seventh and eighth grades in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering the seventh through ninth grades. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2002, children in grades seven through twelve shall be required to have the three doses of the vaccine.

(B) before entering kindergarten in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2004, all children entering school shall be required to have the three doses of the vaccine.

(5) Hepatitis A vaccine in two doses with the first dose on or after the first birthday and the second dose six to eighteen calendar months later:

(A) before entering kindergarten in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2004, all children entering school shall be required to have the two doses of the vaccine.

(B) before entering grade seven in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering the seventh and eighth grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2003, children in grades seven through twelve shall be required to have the two doses of the vaccine.

(6) Varicella (chickenpox) vaccine in one dose on or after the first birthday: before entering kindergarten in 1998. In lieu of vaccination, a parent's statement of a history of the disease chickenpox will be accepted. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2010, all children entering school shall be required to have the vaccine or a parent's statement of a history of the disease chickenpox.

(c) The minimum intervals between doses and minimum ages for doses shall be as follows:

(1) DTP/DTaP:

(A) First and second dose - 4 weeks

(B) Second and third dose - 4 weeks

(C) Third and fourth dose - 4 months

(D) Fourth and fifth dose - 6 months

(E) For all fifth doses given after January 1, 2003 the minimum age for the fifth dose is 4 years of age

(2) Polio:

- (A) First and second dose - 4 weeks
- (B) Second and third dose - 4 weeks
- (C) Third and fourth dose - 4 weeks

(3) MMR: First and second dose - 4 weeks

(4) Hepatitis B 3-dose series:

- (A) First and second dose - 1 month (4 weeks)
- (B) Second and third dose - 2 months (8 weeks), and the third dose at least 4 months (16 weeks) after first dose, and the third dose not before 24 weeks of age

(5) Hepatitis B 2-dose series: First and second dose - 4 months

(6) Hepatitis A: First and second dose -- 6 months and for all doses given on or after January 1, 2003, 6 months will be defined as 6 calendar months

(7) Four day grace period: Vaccine doses administered 4 days or less before the minimum intervals or ages listed in the preceding sections will be counted as valid.

(d) A child, through his parent or guardian, may apply for an exemption from this requirement by submitting a form to the Department. The school shall maintain a copy of the approved application in the child's records. All exemptions submitted prior to a student entering 7th grade shall expire at the end of the student's 6th grade year. A new exemption is required to be completed and submitted to the Oklahoma State Department of Health by the parent or guardian prior to enrolling the child in 7th grade.

(1) A request for exemption for medical reasons shall contain a certificate signed by a physician stating that the physical condition of the child is such that the immunization would endanger the life or health of the child and that the child should be exempt for immunization.

(2) A request for exemption for religious or other personal reasons shall contain a signed written statement from the parent or guardian stating a summary of the objections. Lost or unobtainable immunization records are not grounds for personal exemption.

(e) A child participating in a pre-kindergarten school program shall have received or be in the process of receiving the appropriate immunization for the listed diseases based on the child's age.

(f) The Department may grant exemptions or substitutions in the immunization schedule based on a medical history of a physical condition such that the immunization would endanger the life or health of the child or a medical history stating the child is likely to be immune as a result of having had a vaccine-preventable disease if the following are met:

(1) A history of having had diphtheria and/or tetanus is not acceptable as proof of immunity since infection with diphtheria or tetanus may not render an individual immune to either of these diseases,

(2) A history of having had polio, pertussis, rubella, mumps, hepatitis B, or hepatitis A must be supported by laboratory evidence to be acceptable as proof of immunity to these diseases,

- (3) A history of having had measles must be accompanied by a statement from a physician, public health authority, or laboratory evidence to be acceptable as proof of immunity to measles,
- (4) A parental history of having had varicella is acceptable evidence of immunity to varicella.

(g) Haemophilus influenzae type B (Hib) vaccine is not a requirement for children attending pre-kindergarten, kindergarten, or school.

(h) In some circumstances, the United States Food and Drug Administration may approve the use of an alternative dosage schedule for an existing vaccine. These alternative schedules may be used to meet the requirements only when the alternative schedule is fully documented. Such documentation must include the name of the vaccine and dosage received for each dose of that vaccine.

310:535-1-3. Criteria for immunizations required for child care

(a) Each child two months of age or older shall present certification that he or she has received or is receiving the immunizations as specified below before he or she is admitted to, and while enrolled in, a child care center or child care home.

(b) Certification shall include the following:

- (1) 5 DTaP/DTP doses at 2, 4, 6, and 12 to 18 months and 4 to 6 years or beginning at 6 weeks of age with minimum intervals of 4 weeks between doses 1 and 2 and doses 2 and 3 and 4 months between doses 3 and 4 and 6 months between doses 4 and 5, with all fifth doses given on or after January 1, 2003 given on or after the fourth birthday; The fifth DTaP/DTP is not required if the fourth DTaP/DTP is administered on or after the fourth birthday;
- (2) 4 Polio doses at 2, 4 and 6 to 18 months and 4 to 6 years or beginning at 6 weeks of age with minimum intervals of 4 weeks between all doses; The fourth Polio is not required if the third dose is given on or after the fourth birthday;
- (3) 1 to 4 Haemophilus influenzae type B (Hib) doses at 2, 4, 6, and 12 to 15 months of age or older depending upon age at first Hib immunization and type of vaccine used or beginning at 6 weeks of age with minimum intervals of 4 weeks between doses 1, 2, and 3, if a third dose is part of the primary series, and the booster dose no earlier than 12 months of age and at least 8 weeks after the previous dose;
- (4) 2 Measles, Mumps, Rubella doses with the first dose on or after the first birthday and the second dose at 4 to 6 years or at anytime after the first dose provided at least 4 weeks have elapsed since the receipt of the first dose;
- (5) 1 Varicella dose on or after the first birthday;

(6) 2 Hepatitis A doses with the first dose on or after the first birthday and the second dose six to eighteen months later and for all doses given on or after January 1, 2003, 6 months will be defined as 6 calendar months;

(7) 3 Hepatitis B doses with minimum intervals as follows: 1 month (4 weeks) between doses 1 and 2, two months (8 weeks) between doses 2 and 3, four months (16 weeks) between doses 1 and 3, and dose 3 no earlier than 24 weeks of age;

(8) 1 to 4 doses of pneumococcal conjugate vaccine (PCV) for children 2 months through 59 months of age at 2, 4, 6, and 12 to 15 months of age or older depending upon age at first PCV immunization with minimum intervals between doses as follows: 4 weeks between doses 1, 2, and 3 and 8 weeks between doses 3 and 4 or any dose given as the final dose at age >12 months.

(9) Vaccine doses administered 4 days or less before the minimum intervals or ages listed in the preceding sections will be counted as valid.

(c) In the event that the parent, guardian, or responsible adult presenting a child for admission to a child care facility certifies in writing that a family emergency exists, the immunization requirements shall be waived for a period not to exceed thirty days. No such waiver shall be knowingly permitted more than once for any child.

(d) Immunization records for children attending school-age programs are not required if those records are maintained by the school and are readily available.

(e) A child, through his parent or guardian, may apply for an exemption from this requirement by submitting a form to the Department. The child care center or child care home shall maintain a copy of the approved application in the child's records.

(1) A request for exemption for medical reasons shall contain a certificate signed by a physician stating that the physical condition of the child is such that the immunization would endanger the life or health of the child and that the child should be exempt for immunization.

(2) A request for exemption for religious or other personal reasons shall contain a signed written statement from the parent or guardian stating a summary of the objections. Lost or unobtainable immunization records are not grounds for personal exemption.

(f) The Department may grant exemptions or substitutions in the immunization schedule based on a medical history of a physical condition such that the immunization would endanger the life or health of the child or a medical history stating the child is likely to be immune as a result of having had a vaccine-preventable disease if the following are met:

(1) A history of having had diphtheria and/or tetanus is not acceptable as proof of immunity since infection with diphtheria or tetanus may not render an individual immune to either of these diseases;

(2) A history of having had polio, pertussis, rubella, mumps, or hepatitis A must be supported by laboratory evidence to be acceptable as proof of immunity to these diseases;

- (3) A history of having had measles must be accompanied by a statement from a physician, public health authority, or laboratory evidence to be acceptable as proof of immunity to measles;
- (4) A parental history of having had varicella is acceptable evidence of immunity to varicella.
- (5) A history of having had Hib before age two years is not acceptable as proof of immunity since infection with Hib prior to age two years may not render an individual immune.

[Source: Revoked at 16 Ok Reg 1400, eff 5-27-99]

SUBCHAPTER 3. ADULT IMMUNIZATIONS

310:535-3-1. Types of vaccines

County health departments may collect fees for the following adult immunizations: Hepatitis A; Hepatitis B; Hepatitis A/Hepatitis B combined; Meningococcal; Typhoid; Varicella; Influenza; Pneumococcal; Tetanus/Diphtheria combined; Measles, Mumps, and Rubella combined; Polio; Yellow fever; and other currently licensed vaccines recommended for adults and vaccines licensed in the future which are recommended for adults.

[Source: Added at 19 Ok Reg 2078, eff 6-27-02 ; Amended at 20 Ok Reg 1863, eff 5-8-03 (emergency); Amended at 21 Ok Reg 2753, eff 7-12-04]

310:535-3-2. Fees and charges

- (a) The county health departments may collect for the cost of the vaccine, and an administration fee of not more than \$5.00 higher than the current reimbursement rate established by the Centers for Medicare and Medicaid Services per dose of vaccine administered. The cost for each immunization referenced in section 310:535-3-1 shall be posted in plain view in the county health departments that offer adult immunizations. Any adult who requests immunizations shall be informed of the specific fee prior to receiving the immunization.
- (b) Documentation confirming the cost of an adult immunization shall be available upon request.

CHAPTER 540. INFANT HEARING SCREENING

[**Authority:** 73 O.S.1981, §§ 1-543 and 1-545]

[**Source:** Codified 12-31-91]

310:540-1-1. Purpose

The rules in this Chapter implement the Infant Hearing Screening Regulations, 63 O.S. 1991, Sections 1-543 through 1-545.

[**Source:** Amended at 18 Ok Reg 99, eff 10-30-00 (emergency); Amended at 18 Ok Reg 1719, eff 5-25-01]

310:540-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Audiologist" means an individual holding a state licensure in the field of Audiology.

"Discharge" means the release of the newborn from care and custody of a perinatal licensed health facility to the parents or into the community.

"Hearing Screening Procedure" means the combination of physiologic hearing screening and risk factor tracking used to determine, from the total population of infants born, the infants at risk for hearing loss.

"Newborn screening filter paper" means a newborn screening blood spot collection kit approved by the Oklahoma State Department of Health.

"Other health care provider" means the health care provider who will be providing health care for the infant after birth including midwives, physician assistants, nurse practitioners, and hospital hearing screening vendors.

"Parent" means a natural parent, stepparent, adoptive parent, legal guardian, or other legal custodian of a child.

"Physician" means an M.D. or D.O. licensed in the State of Oklahoma to practice medicine.

"Physiologic Screening" means the use of a bilateral physiologic screening technique to determine, from the total population of infants born, the infants at risk for hearing loss.

"Risk Factors" mean conditions identified by the Joint Committee on Infant Hearing (JCIH 2000 Position Statement or later) which place a newborn at risk for delayed-onset or progressive hearing loss.

"Subsequent hearing screening" means a hearing screening completed at minimum 72 hours after the initial hearing screening.

"Transfer" means release of the newborn from care and custody of one perinatal licensed health facility to another.

[**Source:** Amended at 18 Ok Reg 99, eff 10-30-00 (emergency); Amended at 18 Ok Reg 1719, eff 5-25-01 ; Amended at 37 Ok Reg 1416, eff 9-11-20 ; Amended at 38 Ok Reg 2038, eff 9-11-21]

310:540-1-3. Guidelines

(a) **Newborns Subject to Screening.** All newborns in Oklahoma shall have a Hearing Screening Procedure completed unless the parent

refuses because of religious or personal objections.

(b) **Screening Based on Birth Location.** Requirements for the Hearing Screening Procedure are as follows:

(1) Hospitals:

(A) For facilities with a two-year average annual birth census of 15 or greater:

(i) All infants will receive a physiologic and risk factor screening before discharge.

(ii) Infants transferred to another facility will be screened by the receiving facility before discharge.

(B) For facilities with a two-year average annual birth census of 14 or less:

(i) All infants will receive a physiologic and risk factor screening before discharge if physiologic screening equipment is available.

(ii) Infants transferred to another facility will be screened by the receiving facility before discharge.

(iii) If physiologic screening equipment is not available, the infant will:

(I) be screened for risk factors; and

(II) receive a physiologic screening referral.

A parent is encouraged to have the infant's screening occur within the first month of life.

(2) Out-of-Hospital Births: All infants who are not born in a hospital will have their hearing screened within the first month of life. The infant's physician or other health care provider is responsible for completing the risk factor screening and for referring the infant to a health care facility with trained personnel and appropriate equipment for a physiologic screen or an audiologist.

(c) **Refusal.** A parent may refuse the newborn hearing screening on the grounds that such examination conflicts with their religious tenets and/or practices; refusal of hearing screening shall be indicated in writing utilizing the Newborn Screening Program Refusal Form provided by the Department. The Newborn Screening Program Refusal Form must be completed in its entirety.

(d) **Physiologic Screening.** A qualified and properly trained individual, as determined by the screening facility, will perform the Hearing Screening Procedure. The physiologic screening will include the use of at least one of the following:

(1) Auditory Brainstem Response Testing (ABR);

(2) Otoacoustic Emissions Testing (OAE); or

(3) Any new or improved techniques considered appropriate by the Commissioner of Health.

(e) **Sharing Results.** The hospital or midwife will ensure that hearing screening results will be made available to the physician or other health care provider.

(f) **Audiologist Referral.** A newborn may be referred to an audiologist for a diagnostic hearing evaluation for these reasons:

(1) They did not pass the hearing screening;

(2) They passed the initial or subsequent hearing screening but, based on risk factors, is at risk for progressive or late onset hearing loss.

(3) They did not pass the recommended six month follow hearing screening.

(g) **Parent Education.** Before discharge, a newborn's parent will receive the following information and materials:

(1) results of the infant's hearing screening, which may include the following.

(A) passed physiologic hearing screening

(B) referred on physiologic hearing screening; or

(C) considered as "at risk" for hearing loss

(2) a copy and in-person review of the Newborn Hearing Screening Parent/Guardian Information Sheet; and

(3) appropriate resource information to allow the newborn to receive the medical, audiologic, and other follow-up services as necessary.

(h) **Reporting of Results and Quality Assurance.** It is a hospital's responsibility to ensure that the newborn screening filter paper is correctly completed and that results are forwarded to the Oklahoma State Department of Health via the newborn screening filter paper, fax, or secure email within one week of performing the hearing screen.

Efforts to ensure compliance includes the following:

(1) adhere to instructions for completion of the hearing screening section located on the newborn screening filter paper kit

(2) ensure hospital personnel involved in screening and/or reporting are properly trained using national and state resources such as in-service trainings, web trainings, or consultation with the Newborn Hearing Screening Program

(3) designate a site coordinator to ensure:

(A) every infant is screened,

(B) each infant's filter paper has been fully completed for each infant; and

(C) the detachable medical record copy is a permanent part of each infant's record.

(i) **Screening Verification.** Physicians, other health care providers, or local county health department staff who examine a child within the first three months of life will verify that the infant's hearing has been screened. Infants not screened will be referred to a health care facility with trained personnel and appropriate equipment for a physiologic screen or an audiologist.

(j) **Reporting Follow-Up Evaluations.** Health care facilities, physicians, audiologists or other health care providers involved in completing follow-up hearing screens or diagnostic evaluations will forward results and recommendations to the Oklahoma State Department of Health via fax or secure email within one week of performing the hearing screen or diagnostic evaluation.

(k) **Reporting Standards.** To facilitate the reporting of newborns and infants who have or are at risk for hearing loss, the reporting requirements will be designed to be as simple as possible and easily completed by nonprofessional and professional individuals involved in the

program.

(l) **Tracking System.** The Oklahoma State Department of Health will utilize a tracking system to track infants identified at risk for hearing loss for a period up to one year in order to assure appropriate follow-up care.

(m) **Data Reporting.** The Oklahoma State Department of Health will compile and report data collected from hearing screening procedures at least annually and will share such information as directed by the Commissioner of Health.

CHAPTER 545. LABORATORY REGULATIONS FOR SYPHILIS BLOOD TESTS

[**Authority:** 63 O.S.1971, § 1-515]

[**Source:** Codified 12-31-91]

310:545-1-1. Purpose

The rules in this Chapter implement the Laboratory Regulations for Syphilis Blood Tests, 63 O.S. 1971, § 1-515.

310:545-1-2. Approved laboratory

An approved laboratory shall be any laboratory that meets the requirements of Section 353 of the Public Health Service Act (42 U.S.C. 263a) as revised by the Clinical Laboratory Improvement Amendments of 1988, Public Law 100-578.

[**Source:** Amended at 10 Ok Reg 4311, eff 8-1-93 through 7-14-94 (emergency); Amended at 12 Ok Reg 3059, eff 7-27-95]

310:545-1-3. Approved serological tests for syphilis

A standard serological test for syphilis shall be any of the following tests and shall be indicated on the Certificate of Premarital Examination.

- (1) RPR-Rapid Plasma Reagin (RPR) 18-mm Circle Card Test
- (2) VDRL-Venereal Disease Research Laboratory Slide Test
- (3) TRUST - Toluidine Red Unheated Serum Test
- (4) RST - Reagin Screen Test
- (5) USR - Unheated Serum Reagin Test

CHAPTER 546. FEE SCHEDULE FOR PUBLIC HEALTH LABORATORY SERVICE

[**Authority:** : 63 O.S., § 1-106.1]

[**Source:** Codified 6-27-94]

310:546-1-1. Purpose

The rules in this Chapter implement the fee provisions of the Public Health Code which authorizes fees for services of the Oklahoma State Department of Health.

[**Source:** Added at 11 Ok Reg 135, eff 8-10-93 (emergency); Added at 11 Ok Reg 1535, eff 4-12-94 (emergency); Added at 11 Ok Reg 3171, eff 6-27-94]

310:546-1-2. Public Health Laboratory Service fee schedule

Fees for services of the Public Health Laboratory are as follows:

- (1) \$18.00 - Enteric Bacteria
- (2) \$17.00 - TB & Fungus Culture
- (3) \$19.00 - Parasite Exam
- (4) Rate Not to Exceed Current Medicaid Rate for Oklahoma - Newborn Screening Approved by the Board of Health
- (5) \$7 - Hepatitis B Surface Antigen
- (6) \$7 - Hepatitis B Core Antibody
- (7) \$18.00 - Gonorrhea Culture
- (8) HIV-1 Screen
 - (A) \$25 - Private Sector
 - (B) \$8.50 - Indian Health
 - (C) \$8.50 - Dept. of Corrections
- (9) \$50 - HIV-1 Western Blot
- (10) There is no charge to county health departments for the services listed in 1 through 12 of this section.

CHAPTER 550. NEWBORN SCREENING AND RESOURCES FOR TRISOMY 13, 18, AND 21

[**Authority:** 63 O.S., §§ 1-103a, 1-104, and 1-533 et seq.]
[**Source:** Codified 12-31-91]

SUBCHAPTER 1. NEWBORN SCREENING GENERAL PROVISIONS

310:550-1-1. Purpose

Under 63 O.S., Sections 1-533 and 1-534 the following rules and regulations are established concerning the screening of all infants born in Oklahoma for the disorders of phenylketonuria, congenital hypothyroidism, galactosemia, sickle cell diseases, cystic fibrosis, congenital adrenal hyperplasia, medium-chain acyl coenzyme A dehydrogenase deficiency (MCAD), biotinidase deficiency, amino acid disorders, fatty acid oxidation disorders, organic acid disorders, severe combined immunodeficiency (SCID), spinal muscular atrophy (SMA), x-linked adrenoleukodystrophy (X-ALD), mucopolysaccharidosis type I (MPS I) and pompe disease upon completion of laboratory validation studies, and establishment of short-term follow-up services, and approval by the Commissioner of Health. This chapter also establishes rules and regulations concerning pulse oximetry screening of all infants born at birthing facilities in Oklahoma for critical congenital heart disease (CCDH) to be performed by the birthing facility pursuant to 63 O.S. Section 1-550.5.

[**Source:** Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 25 Ok Reg 1151, eff 5-25-08 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21]

310:550-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Amino Acid Disorders" refers to a group of inherited metabolic conditions in which the body is unable to metabolize or process amino acids properly due to a defective enzyme function. This causes an amino acid or protein build up in the body. If not treated early in life, these defects can cause developmental disability or death. Each amino acid disorder is associated with a specific enzyme deficiency. Treatment depends on the specific amino acid disorder.

"Biotinidase Deficiency" means an inherited disease caused by the lack of an enzyme that recycles the B vitamin biotin, which if not treated, may cause serious complications, including coma and death.

"Birth Defects Registry" means a registry established by the Commissioner of Health to monitor and track birth defects for all infants born in Oklahoma.

"Birthing Facility" means a facility that provides care during labor and delivery, and to the newborn. This includes a unit of a hospital

that is licensed and accredited to provide birthing services, or a freestanding birthing center.

"Certified Laboratory" refers to the Oklahoma State Public Health Laboratory and/or a laboratory approved by the Oklahoma State Department of Health to conduct newborn screening.

"CCHD Screening" means the screening test for the detection of critical congenital heart disease that is recommended by the United States Department of Health and Human Services.

"CLIA '88" means the Clinical Laboratory Improvement Amendments of 1988, public law 100-578. This amendment applies to the Federal Law that governs laboratories that examine human specimens for the diagnosis, prevention, or treatment of any disease or impairment, or the assessment of the health of human beings.

"Confirmatory Testing" means definitive laboratory testing needed to confirm a diagnosis.

"Congenital Adrenal Hyperplasia" or **"CAH"** means the most common form of CAH, 21-hydroxylase deficiency. This genetic disorder is caused by the lack of an enzyme that the adrenal gland uses to process hormones. Serious loss of body salt and water can result in death. In girls the genitalia may appear as those of a male, and can result in incorrect sex assignment. Hormone treatment is required for life.

"Congenital Hypothyroidism" means a disease caused by a deficiency of thyroid hormone (thyroxine) production, which if not treated, leads to developmental disabilities.

"Critical Congenital Heart Disease" means a congenital heart defect that places an infant at significant risk for disability or death if not diagnosed soon after birth.

"Cystic Fibrosis" means a multisystem genetic disorder in which defective chloride transport across mucous membranes causes dehydration of secretions. The result is a production of a thick, viscous mucous that disrupts the normal function of the lungs, gut, and pancreas. This leads to chronic lung infections, fatal lung disease, and problems with digestion. Early detection and treatment can prevent malnutrition, and enhance surveillance and treatment of lung infections.

"Days of Age" means the age of a newborn in 24-hour periods so that a newborn is one day of age 24 hours following the hour of birth for both blood spot screening and pulse oximetry screening.

"Department" refers to the Oklahoma State Department of Health.

"Discharge" means release of the newborn from care and custody of a perinatal licensed health facility to the parents or into the community.

"Disorder" means any condition detectable by newborn screening that allows opportunities, not available without screening, for early treatment and management to prevent developmental disability and/or reduce infant morbidity and mortality.

"Echocardiogram" means a test that uses ultrasound to provide an image of the heart.

"Fatty Acid Oxidation Disorders" refers to a group of inherited metabolic conditions in which the body is unable to oxidize (breakdown) fatty acids for energy due to a defective enzyme function. If not treated early in life, this defect may cause developmental disability or death.

"Galactosemia" means an inherited disease caused by the body's failure to break down galactose due to a defective enzyme function, which if not treated early in life, may cause developmental disability or death.

"Hemoglobin" means a protein in the red blood cell that carries oxygen.

"Hemoglobinopathy" means an inherited disorder associated with structural abnormality of hemoglobin, anemia, and variable impaired ability of the red blood cells to carry oxygen.

"Infant" means a child 6 months of age and younger.

"Infant's Physician" means the licensed medical or osteopathic physician listed by the submitter or the individual responsible for the medical care of the infant after discharge from the birthing facility.

"Initial Specimen" means the first blood specimen collected subsequent to birth, pursuant to these procedures.

"Long-term Follow-up" means follow-up services that begin with diagnosis and treatment and continues throughout the lifespan. This includes parent education, networking, referral, and care coordination.

"Medical Home" means a Planned Health Care Provider.

"Medium-chain acyl coenzyme A dehydrogenase deficiency" or **"MCAD"** means a genetic disorder of fatty acid metabolism. This disorder can cause metabolic crisis when an infant/child fasts. This crisis can lead to seizures, failure to breathe, cardiac arrest, and death. Treatment is effective by preventing fasting.

"Mucopolysaccharidosis Type I" or **"MPS I"** means a condition in which individuals are missing an enzyme to break down large sugar molecules. This disorder can impact many different organs and tissue leading to developmental delays if not identified and treated early.

"Newborn" means an infant thirty (30) days of age and younger.

"Newborn Screening" means the use of various laboratory and clinical tests to screen infants for certain inherited disorders where a potential net benefit and availability of effective treatments have been demonstrated.

"Newborn Screening Form Kit" or **"Form Kit"** means a filter paper approved by the Department for collection of the newborn screening specimen and associated demographic data.

"Newborn Screening Laboratory" means a laboratory operated by the Department or a laboratory certified by the Department to conduct the tests and carry out the follow-up required by these procedures.

"Newborn Screening Program" or **"The Program"** refers to the Public Health Laboratory and Short-term Follow-up Program at the Department.

"Newborn Screening Program Coordinator" refers to the coordinator of the Short-term Follow-up Program at the Department.

"Organic Acid Disorders" refers to a group of inherited metabolic conditions in which the body is unable to metabolize or process organic acids properly due to a specific enzyme deficiency, which if not treated early in life, may cause developmental disability and death.

"Pediatric Subspecialist" means a physician licensed in Oklahoma, board certified in pediatrics and a pediatric subspecialty.

"Phenylketonuria" or "PKU" means an inherited disease caused by the body's failure to convert the amino acid phenylalanine to tyrosine due to defective enzyme function, which if not treated early in life, causes developmental disability.

"Planned Health Care Provider" or "Medical Home" means the health care provider who will be providing health care for the infant after discharge from the hospital.

"Pompe" or "Pompe Disease" means a condition in which individuals are missing an enzyme to break down complex sugar molecules. This disorder can lead to muscle weakness, poor muscle tone and heart defects if not identified and treated early.

"Premature Newborn" means a newborn weighing less than 2500 grams or any live birth before the thirty-seventh week of gestation.

"Pulse Oximetry Screening" means a test using a device placed on an extremity to measure the percentage of oxygen in the blood.

"Repeat Specimen" means an additional newborn screening specimen to be collected after the initial specimen.

"Satisfactory Specimen" means a blood specimen collected using a single Form Kit that is suitable in both quantity and quality to perform newborn screening for the disorders approved by the Commissioner of Health and listed in 310:550-1-1. Federal CLIA '88 regulations require that the Form Kit includes the patient's name, date of birth, sex, date of collection, test(s) to be performed, and complete name and address of person requesting the test.

"Screened" means a specimen that has been collected and tested on an infant less than 6 months of age.

"Screening" means a test to sort out well persons who may have a disease or defect from those who may not. A screening test is not intended to be diagnostic.

"Severe Combined Immunodeficiency" means a group of potentially fatal inherited disorders related to the immune system, which if not treated, can lead to potentially deadly infections.

"Short-term Follow-up" includes services provided by the Department and the health care provider that begin when the laboratory reports an abnormal, unsatisfactory screen result, or a result is not reported due to specific collection criteria, and ends with a diagnosis of "normal", the infant is lost to follow-up (repeat testing not achieved), the parent(s) or guardian(s) refuse follow-up, or the affected infant receives appropriate treatment and referral to a pediatric subspecialist.

"Sick Newborn" means a newborn with any condition or episode marked by pronounced deviation from the normal healthy state; illness.

"Sickle Cell Disease" means an inherited disease caused by abnormal hemoglobin(s) (hemoglobinopathy), which may cause anemia and variable impaired ability of the red blood cells to carry oxygen, and if not treated early in life, may result in severe illness, developmental disability or death.

"Specimen" means blood collected on the Newborn Screening Form Kit.

"Spinal Muscular Atrophy" or **"SMA"** means conditions in which the loss of specialized nerves cells leads to progressive weakness and atrophy of muscles, and developmental disability. In severe cases, the muscles used for breathing and swallowing may be affected.

"Submitter" means a hospital, other facility, or physician submitting a blood specimen on a Newborn Screening Form Kit.

"The Program" means the Newborn Screening Program in the Department.

"Transfer" means release of the newborn or infant from care and custody from one licensed health facility to another.

"Unsatisfactory Specimen" means a blood specimen submitted on a Form Kit that is not suitable in quantity or quality to perform screening for the disorders approved by the Commissioner of Health and listed in 310:550-1-1 and/or Federal CLIA '88 regulations are not followed and the Form Kit does not include the required patient's name, date of birth, sex, date of collection, test(s) to be performed, and the provider ordering the newborn screen.

"X-Linked Adrenoleukodystrophy" or **"X-ALD"** means a condition affecting the nervous system and adrenal glands in which the ability of the nerves to relay information to the brain and the adrenal glands to make certain hormones (adrenocortical insufficiency) are impacted. Affected individuals may experience learning and developmental disability, difficulty swallowing, muscle weakness, weight loss, skin changes, vomiting, and coma.

SUBCHAPTER 3. TESTING OF NEWBORNS

310:550-3-1. Testing of newborns

- (a) A blood sample from all newborns in Oklahoma shall be tested by a Certified Newborn Screening Laboratory for the disorders approved by the Commissioner of Health and listed in 310:550-1-1.
- (b) All newborns in Oklahoma shall be tested for CCHD by a pulse oximetry screening after twenty-four (24) hours of age or prior to discharge from the birthing facility.
- (c) A parent or guardian may refuse the blood test screening, hearing screening, and/or pulse oximetry screening of their newborn on the grounds that such examination conflicts with their religious tenets and/or practices; refusal of screening shall be indicated in writing utilizing the Newborn Screening Program Refusal Form provided by the Program.
- (d) The Newborn Screening Program Refusal Form must be completed in its entirety. This signed refusal form will be placed in the newborn's medical record with a copy sent to the Newborn Screening Program Coordinator.

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21]

SUBCHAPTER 5. NEWBORN SCREENING BLOOD SPECIMEN COLLECTION

310:550-5-1. Blood specimen collection

(a) **Blood specimen collection for hospital births.** For all live hospital births, the physician, or licensed or certified birth attendant shall order the collection of a newborn screening blood specimen prior to transfusion, as early as possible after 24 hours of age or immediately prior to discharge, whichever comes first. Since prompt identification of newborns at risk for screened disorders is extremely important, the specimen shall be collected as early as possible after 24 hours of age. Specimens shall be collected on a single Newborn Screening Form Kit using capillary or venous blood. Umbilical cord blood is not recommended for use. The hospital is responsible for collecting specimens on all newborns.

- (1) If the initial specimen for any newborn is collected at or prior to 24 hours of age, the hospital and the physician are responsible for notifying the newborn's parent(s) or guardian(s) verbally and in writing, utilizing the parent educational form on the Newborn Screening Form Kit, that a repeat specimen must be submitted as soon as possible after 24 hours of age. The infant's physician is responsible for ensuring that the repeat specimen is collected.
- (2) The hospital is responsible for submitting a satisfactory specimen and for documenting all requested information on the Form Kit including the parent's/guardian's name, address, and phone or alternate phone number, the provider ordering the

newborn screen, and the infant's physician.

(3) The hospital is responsible for documenting specimen collection and results in the infant's hospital record.

(4) Newborns who are transferred from one hospital to another shall have specimen collection documented in the infant's hospital record. It is the responsibility of the infant's physician and the receiving hospital to ensure the specimen is collected and submitted to the Program.

(5) It is the responsibility of the hospital and physician to ensure that all newborns are screened prior to discharge. If a newborn is discharged prior to specimen collection, it is the responsibility of the hospital to notify the Newborn Screening Program Coordinator as soon as possible. The infant's physician is responsible for ensuring the specimen is collected as required.

(b) Screening for premature/sick newborns. For all premature/sick newborns, the physician shall order the collection of a newborn screening blood specimen prior to transfusion, as early as possible after twenty-four (24) hours of age, but no later than three to seven days of age, or immediately prior to discharge, whichever comes first. Since prompt identification of newborns at risk for screened disorders is extremely important, the specimen shall be collected as early as possible after twenty-four (24) hours of age. It is recommended that a repeat newborn screening specimen be collected at fourteen (14) days of age. Specimens shall be collected on the Newborn Screening Form Kit using capillary or venous blood. Umbilical cord blood is not recommended for use. The hospital and the physician are responsible for ensuring that specimens are collected on all premature/sick newborns.

(1) Premature/sick newborns screened at or prior to twenty-four (24) hours of age must be re-screened between seven to fourteen (7-14) days of age.

(2) Premature/sick newborns who could not be screened prior to a transfusion should be screened by the seventh (7th) day of life, with a repeat specimen collected when a blood specimen will again reflect the newborn's own metabolic processes and hemoglobin type (the accepted time period to determine hemoglobin type is ninety to one hundred and twenty (90 to 120) days after transfusion).

(3) The recommended follow-up study for an abnormal thyroid screen in a premature newborn is a serum free T4 (measured by direct dialysis or an equivalent method) and thyroid stimulating hormone (TSH) level at seven to fourteen (7-14) days of age.

(c) Specimen collection for out-of-hospital births.

(1) For all newborns who are not born in a hospital, the infant's physician, or licensed or certified birth attendant is responsible for collection and submission of a satisfactory newborn screening blood specimen as early as possible after twenty-four (24) hours of age. If there is not a physician, or licensed or certified birth attendant involved in a non-hospital birth, the person attending the birth and the parents of the newborn are responsible for collection and submission of a satisfactory newborn screening specimen.

(2) If a physician examines a child in the first three months of life who was not born in a hospital, or was born out of state, the physician will verify that the child has been screened. If the child has not been screened or if results of screening are not available, the physician is responsible for collecting and submitting a satisfactory newborn screening blood specimen.

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 22 Ok Reg 392, eff 12-21-04 (emergency); Amended at 22 Ok Reg 794, eff 5-12-05 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21]

310:550-5-2. Guidelines for newborn screening blood specimen collection and pulse oximetry screening

(a) Newborn screening blood specimen collection.

(1) Specimens obtained with a Newborn Screening Form Kit should be collected in accordance with the standard for Blood Collection on Filter Paper for Newborn Screening Programs, NBS01-A6, Sixth Edition, as adopted and published by the Clinical and Laboratory Standards Institute on July 31, 2013, or most recent version. Failure to follow these methods of blood collection may cause inaccurate results, or unsatisfactory specimen results ,that require repeat collection.

(2) Submitters are responsible for submitting a satisfactory newborn screening blood specimen.

(b) Pulse oximetry screening.

(1) **Pulse oximetry screening.** Pulse oximetry screening will be performed utilizing the hospital protocol. A recommended protocol is provided by the Program.

(2) **Authorized provider.** An authorized health care provider shall perform the pulse oximetry screening.

(3) Newborns receiving routine care.

(A) The duties of the birthing facility or nurse include the following:

- (i) Perform pulse oximetry screening on the newborn between twenty-four (24) hours and forty-eight(48) hours of life; or
- (ii) Schedule the newborn to be screened at the facility between twenty-four (24) hours and forty-eight (48) hours of life, if unable to perform the pulse oximetry screening; or
- (iii) Notify the infant's physician if screening was not performed.

(B) If the newborn is scheduled for discharge from a birthing facility after twelve (12) hours of life but before twenty-four (24) hours of life, the birthing facility shall perform pulse oximetry screening as late as is practical before the newborn is discharged and notify the infant's physician of the early screening.

(C) If the newborn is discharged before twelve (12) hours of life, the birthing facility shall perform the pulse oximetry screening between twenty-four (24) hours and forty-eight (48) hours of life.

(4) **Newborns in special care or intensive care settings.** For newborns who have been in special care or intensive care units, birthing facilities shall perform pulse oximetry screening prior to discharge utilizing the hospital protocol, unless the newborn has an identified congenital heart defect or has had an echocardiogram performed. A recommended protocol is provided by the Program. Continuous pulse oximetry monitoring may not be substituted for CCHD screening.

(5) **Circumstances in which pulse oximetry screening is not indicated.** If pulse oximetry screening is not performed, the reason shall be documented on the Newborn Screening Form Kit. Instances where pulse oximetry screening is not indicated include but are not limited to:

(A) Clinical evaluation of the newborn has included an echocardiogram which ruled-out CCHD; or

(B) The newborn has confirmed CCHD based on prenatal or postnatal testing.

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 12 Ok Reg 41, eff 10-5-94 ; Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21 ; Amended at 40 Ok Reg 1570, eff 9-11-23]

SUBCHAPTER 7. NEWBORN SCREENING HOSPITAL RECORDS

310:550-7-1. Hospital records

(a) Newborn screening blood test results.

(1) The hospital is responsible for implementing a procedure to ensure that a newborn screening blood specimen has been collected on every newborn and transported to the Newborn Screening Laboratory within twenty-four (24) to forty-eight (48) hours of collection. If more than one newborn screen is collected on an infant, each copy of the newborn screen kit should be placed in the infant's medical record. Specimens should be transported in the manner designated by the Department and/or receiving laboratory.

(2) The hospital shall immediately notify the infant's physician, parent(s) or guardian(s), and Newborn Screening Program Coordinator if an infant is discharged without a sample having been collected. These notifications shall be documented in the infant's hospital record.

(3) If test results are not received by the hospital within fifteen (15) days after the date of collection, the hospital shall contact the Newborn Screening Laboratory to verify that a specimen was received. If a specimen was not received, the hospital shall notify

the physician.

(4) Any hospital or any other laboratory that collects, handles or forwards newborn screening blood specimens shall keep a log containing the name and date of birth of the infant, name of the ordering physician, name of infant's provider, medical record number, serial number of the Newborn Screening Form Kit, date of specimen collection, date specimen was sent to the certified laboratory, date that test results were transmitted or received and the test results.

(b) Pulse oximetry screening results.

(1) Record of results.

(A) All pulse oximetry screening results shall be recorded in the infant's medical record and the results reported to a parent(s) or guardian(s) prior to discharge from the hospital.

(B) All pulse oximetry screening results shall be recorded on the Newborn Screening Form Kit, along with the infant's name, date of birth, submitting facility, mother's name, and the infant's physician.

(C) If the newborn is not screened for CCHD prior to the Newborn Screening Form Kit being forwarded to the Newborn Screening Laboratory for testing, CCHD screen results shall be communicated to the Newborn Screening Program Coordinator utilizing the Pulse Oximetry Screening Result Form provided by the Program.

(D) The Pulse Oximetry Screening Result Form must be completed in its entirety.

(2) Abnormal pulse oximetry screen results.

(A) It is the responsibility of the authorized health care provider who conducted the pulse oximetry screening to communicate abnormal results to the attending physician or attending clinician immediately.

(B) The newborn shall be evaluated immediately by an attending physician in order to complete the recommended protocol.

(C) The newborn may not be discharged from care until:

(i) A cause for the abnormal pulse oximetry screen has been determined;

(ii) An echocardiogram has been performed, read, and determined not to indicate CCHD; and/or

(iii) A plan of care and follow-up has been established with the newborn's parent(s) or guardian(s).

(D) The birthing facility shall report pulse oximetry screening results to the Department as specified in this Chapter.

(E) It is the responsibility of the birthing facility to notify the newborn's parent(s) or guardian(s), the physician or clinician following the newborn in the hospital, and the infant's physician of abnormal pulse oximetry results.

(3) Newborns not screened for CCHD.

(A) If a newborn is not screened for CCHD secondary to discharge before 12 hours of life, the birthing facility shall:

- (i) Follow-up with the parent(s) or guardian(s) to schedule screening of the newborn at the birthing facility between twenty-four (24) and forty-eight (48) hours of life; or
- (ii) Follow-up with the parent(s) or guardian(s) to schedule referral of the newborn to an authorized facility for screening between twenty-four (24) and forty-eight (48) hours of life; and
- (iii) Report screening results to the Department utilizing the Pulse Oximetry Screening Result Form provided by the Program, and indicating the reason for not screening which may be "early discharge".

(B) If pulse oximetry screening is not indicated for the newborn, the birthing facility shall report the reason for not screening, which may be "screening not indicated due to," and provide other CCHD findings for the newborn to the Department utilizing the Pulse Oximetry Screening Result Form provided by the Program.

(C) If the newborn is not screened for CCHD because of parent or guardian refusal, the birthing facility shall send the Newborn Screening Program Refusal Form to the Department utilizing the form provided by the Program and indicate the reason for not screening, which may be "parent refusal".

SUBCHAPTER 9. STANDARD FOR CERTIFIED LABORATORIES [REVOKED]

310:550-9-1. Standard for certified laboratories [REVOKED]

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Revoked at 21 Ok Reg 1286, eff 5-27-04]

SUBCHAPTER 11. ADVISORY COMMITTEE FOR NEWBORN SCREENING

310:550-11-1. Advisory committee

The Infant and Children's Health Advisory Council advises the Department on newborn screening issues.

[Source: Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21]

SUBCHAPTER 13. NEWBORN SCREENING PARENT AND HEALTH CARE PROVIDER EDUCATION

310:550-13-1. Parent/Guardian and health care provider education

- (a) The infant's physician or designee is responsible for ensuring that at least one parent or legal guardian of each newborn is notified about newborn screening and is provided information about the disorders and instructed how to obtain screen results from the planned health care provider or Newborn Screening Program.
- (b) The infant's physician or designee is responsible for ensuring that at least one parent or legal guardian of each newborn is notified and provided information about pulse oximetry screening and instructed how to obtain screen results from the birthing facility or the planned health care provider.
- (c) The birthing facility or designated party is responsible for distributing the Newborn Screening Program's written educational materials on newborn screening and pulse oximetry screening provided by the Department to at least one parent or legal guardian of each newborn.
- (d) Birthing facilities shall provide ongoing training programs for their employees involved with newborn screening and pulse oximetry screening procedures. These training programs include methods of collecting a satisfactory newborn screening blood specimen and proper pulse oximetry screening method.
- (e) Birthing facilities are responsible for ensuring that employees who collect, and/or handle newborn screening blood specimens or perform pulse oximetry screening are informed of their responsibilities with respect to screening procedures.

[Source: Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 38 Ok Reg 2040, eff 9-11-21]

SUBCHAPTER 15. FOLLOW-UP FOR CERTIFIED LABORATORIES [REVOKED]

310:550-15-1. Follow-up for certified laboratories [REVOKED]

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 9 Ok Reg 3121, eff 7-1-92 (emergency); Amended at 10 Ok Reg 1637, eff 6-1-93 ; Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 (emergency); Revoked at 21 Ok Reg 1286, eff 5-27-04]

SUBCHAPTER 17. NEWBORN SCREENING FOLLOW-UP FOR PHYSICIANS

310:550-17-1. Follow-up for physicians

(a) If a physician examines an infant in its first three months of life, the physician will verify that the infant has been screened, and document results in the infant's medical record. If the infant has not been screened or if results of screening are not available, the physician shall submit a satisfactory newborn screening blood specimen as soon as possible.

(b) On written notification by the Newborn Screening Program of follow-up requirements for a newborn screen result of abnormal, unsatisfactory, or for specimens collected from a newborn at or less than 24 hours of age; the infant's physician or designee will ensure that required repeat screening, confirmatory testing, or diagnostic studies are performed in the timeframe specified so that therapy, when indicated, can be initiated expeditiously.

(c) The infant's physician may selectively rescreen the infant as clinically indicated.

(d) Because patients may relocate without a forwarding address or contact information, physicians and birthing facilities have the burden to make a reasonable search and effort to locate and notify the parent(s) or guardian(s). If the parent(s) or guardian(s) are not contacted, then the Newborn Screening Program Coordinator will be notified of the inability to notify after efforts to contact the parent(s) or guardian(s) have been exhausted.

(e) For appropriate comprehensive medical care, all confirmed cases of a disorder on the newborn screening blood testing panel, should have a referral to a pediatric subspecialist, and the parent(s) or guardian(s) should be referred for enrollment in newborn screening long-term follow-up services as designated by the Newborn Screening Program. For referral information, contact the Newborn Screening Short-term Follow-up Program at (405) 426-8310 or 1-800-766-2223.

[Source: Amended at 8 Ok Reg 3115, eff 7-12-91 (emergency); Amended at 9 Ok Reg 1475, eff 5-1-92 ; Amended at 9 Ok Reg 3121, eff 7-1-92 (emergency); Amended at 10 Ok Reg 1637, eff 6-1-93 ; Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21 ; Amended at 40 Ok Reg 1570, eff 9-11-23]

SUBCHAPTER 19. NEWBORN SCREENING REPORTING

310:550-19-1. Physician reporting and medical records

(a) If confirmatory or follow-up testing is not performed by the Newborn Screening Laboratory or by a contract laboratory designated by the Newborn Screening Program, the infant's physician is responsible for

reporting the results of confirmatory follow-up testing to the Newborn Screening Program Coordinator within seven (7) days after the completion of the medical evaluation of the infant.

(b) Final diagnosis will be conveyed using the Department's Newborn Screening Report Form, provided by the Program, which includes infant's name, date of birth, newborn screening laboratory number, mother's name, final diagnosis, notation of initiation of treatment and start date, notation of referral to pediatric subspecialist, notation if family was referred to other services, printed name and signature of physician determining diagnosis, telephone number and date form is completed. A copy of the confirmatory test results must accompany the report form.

(c) These newborn screening reports are confidential and may be utilized only for the purpose of ensuring service delivery, Program administration, data analysis, and evaluation.

(d) On request, a birthing facility or health care provider shall make available to the Newborn Screening Program or Oklahoma Birth Defects Registry:

- (1) Medical records;
- (2) Records of laboratory test; and
- (3) Any other medical information considered necessary to:
 - (A) Determine final outcomes of abnormal CCHD screening results; and
 - (B) Evaluate CCHD screening activities in the State; including:
 - (i) Performance of follow-up evaluations and diagnostic tests;
 - (ii) Initiation of treatment when necessary; and
 - (iii) Surveillance of the accuracy and efficacy of the screening.

(e) Information that the Department receives under this chapter is confidential and may only be used or disclosed:

- (1) To provide services to the infant and the infant's family;
- (2) To study the relationships of the various factors determining the frequency and distribution of CCHD;
- (3) For State or federally mandated statistical reports; and
- (4) To ensure that the information received by the Department is accurate and reliable.

SUBCHAPTER 21. NEWBORN SCREENING INFORMATION

310:550-21-1. Information

(a) For information regarding laboratory procedures, results of laboratory tests, or to order Form Kits, contact the Public Health Laboratory Service, Oklahoma State Department of Health, 4615 W Lakeview Dr, Stillwater, OK 74075, (405) 564-7750, FAX (405) 900-7611 or visit the website at <https://oklahoma.gov/health/locations/public-health-laboratory.html>.

(b) For general information or information regarding follow-up for newborn screening or pulse oximetry screening, contact Newborn Screening Short-term Follow-up Program, Oklahoma State Department of Health, 123 Robert S. Kerr Avenue, Oklahoma City, Oklahoma 73102, (405)-426-8310, or 1-800-766-2223, option 2, FAX (405) 900-7556. General information about the Newborn Screening Program is available on the OSDH Newborn Screening website at <https://Oklahoma.gov/health/newbornscreening>.

[Source: Amended at 12 Ok Reg 41, eff 10-5-94 (emergency); Amended at 12 Ok Reg 1685, eff 6-12-95 ; Amended at 15 Ok Reg 121, eff 10-15-97 (emergency); Amended at 15 Ok Reg 1979, eff 5-26-98 ; Amended at 21 Ok Reg 1286, eff 5-27-04 ; Amended at 22 Ok Reg 794, eff 5-12-05 ; Amended at 25 Ok Reg 105, eff 10-2-07 (emergency); Amended at 25 Ok Reg 1153, eff 5-25-08 ; Amended at 31 Ok Reg 1596, eff 9-12-14 ; Amended at 36 Ok Reg 1688, eff 9-13-19 ; Amended at 38 Ok Reg 2040, eff 9-11-21 ; Amended at 40 Ok Reg 1570, eff 9-11-23]

SUBCHAPTER 23. NEWBORN SCREENING STANDARDS, PROCEDURES, AND FOLLOW-UP FOR CERTIFIED LABORATORIES

310:550-23-1. Procedures

(a) The Commissioner of Health shall establish procedures for newborn screening laboratories that include laboratory methodology, proficiency testing, quality assurance, sample collection, reporting, follow-up, handling, use, retention, storage and disposition of form kits.

(b) The Commissioner of Health shall establish procedures for the Department's newborn screening short-term follow-up program that include quality assurance, notification of providers and parent(s) or guardian(s), follow-up guidelines, and parent or guardian and provider education.

(c) Birthing facilities, physicians, and laboratories shall comply with procedures for the Newborn Screening Program established by the Commissioner of Health.

(d) Any laboratory performing newborn screening tests shall be certified by the Department as a Newborn Screening Laboratory. In order to be certified as a Newborn Screening Laboratory, a laboratory shall maintain technical proficiency and ensure that test reagents and equipment are properly standardized.

(e) A laboratory desiring certification as a Newborn Screening Laboratory shall make written application to the Public Health Laboratory of the Department. A certified laboratory shall meet the following minimum standards:

(1) **Eligibility for approval.** A laboratory in Oklahoma that meets the requirements of Section 353 of the Public Health Service Act

(42 U.S.C. 263a) as revised by the Clinical Laboratory Improvement Amendments of 1988 (CLIA '88), Public Law 100-578. The Laboratory must have a CLIA certificate for tests of High Complexity and meet the criteria for those tests as specified in CLIA '88 and amendments. The laboratory must have the capacity to provide testing for the mandated newborn screening panel on a single satisfactory Newborn Screening Form Kit submitted by the birthing facility or provider.

(2) **Minimum tests.** A laboratory shall test, a minimum of 300 blood specimens from different Oklahoma infants for each disorder each week, to maintain technical proficiency and ensure that test reagents and equipment are properly standardized.

(3) **Record keeping.**

(A) The laboratory shall log each specimen received using at least two unique identifiers. All patient information and test results are linked to the identifier and maintained as a permanent record for a period of at least twenty-one (21) years.

(B) The laboratory shall maintain quality control, proficiency test records, and which will be available for inspection by the Department.

(C) If the laboratory should close, records must be maintained for the same time period. Records may be given to the Department for maintenance.

(4) **Standard laboratory screening assay methods.** All assay methods must be approved by the Commissioner of Health.

(5) **Follow-up for certified laboratories.**

(A) Within fifteen (15) days after specimen collection, the Certified Laboratory shall send a written report of the test results with repeat testing requirements, if indicated, to the submitter and physician listed on the Newborn Screening Form Kit.

(B) The Certified Laboratory will reject any unsatisfactory specimens for testing.

(C) The Certified Laboratory must maintain a secure database with the capacity to report abnormal test results to the Department's Newborn Screening Program Coordinator or designee.

(D) The Certified Laboratory must report abnormal test results that are possible disease conditions within eight (8) to twenty-four (24) hours to the Department's Newborn Screening Program Coordinator or designee.

(6) **Activity reports.** Certified Laboratories shall compile quarterly and annual reports of total screening tests, abnormal tests by disorder, unsatisfactory tests, and for specimens collected from newborns at or less than twenty-four (24) hours of age for submission to the Newborn Screening Program.

(7) **Certification of laboratories.**

(A) A Certificate of Approval will be issued upon satisfying the requirements of these standards and demonstrating proficiency in the presence of an authorized

representative from the Department. This Certificate of Approval will specify:

- (i) Name of laboratory
- (ii) Test of certification must be approved for all mandated tests.
- (iii) Date of issue and expiration: certificate issued for one (1) year and renewable annually.

(8) Revocation of certification.

(A) The laboratory shall be in compliance with all applicable Federal and State Laws, and regulations. The compliance with the requirements is the responsibility of the laboratory, without reliance on or direction by the Oklahoma State Department of Health. Following notice by the Department of its intent to revoke the laboratory's certification and completion of an individual proceeding pursuant to Article II of the Oklahoma Administrative Procedures Act (APA), the certification of a laboratory may be revoked, based upon proof by a preponderance of the evidence for any of the following reasons:

- (i) Failure to meet any requirements in these regulations; or
- (ii) Failure to use a standard laboratory assay approved by the Commissioner of Health; or
- (iii) Failure to participate in a recognized proficiency program and/or maintain proficiency; or
- (iv) Failure to keep adequate records of test results and quality control; or
- (v) Failure to give prompt notice of changes in personnel performing the tests or supervising testing.

(B) Upon notice of revocation the laboratory shall cease to perform newborn screening and return their certificate of approval.

(C) Reinstatement of laboratory certification is contingent upon the following:

- (i) A laboratory cannot apply for reinstatement until a minimum of three months has elapsed from date of revocation; and
- (ii) All factors that lead to revocation of certification are corrected; and
- (iii) A laboratory applying for reinstatement must meet the same requirements as for initial application.

(D) Revocation of certified laboratory status by the Department may be appealed pursuant to Article II of the Oklahoma APA.

SUBCHAPTER 24. RESOURCES FOR TRISOMY 13, 18, AND 21

310:550-24-1. Resources for Trisomy 13, 18, and 21 Purpose

The rules in this Subchapter implement Courtney's Law, as codified in 63 O.S. § 1-575.

[Source: Added at 40 Ok Reg 1570, eff 9-11-23]

310:550-24-2. Resources for Trisomy 13, 18, and 21 Definitions

The following words or terms, used in this Chapter, shall have the following meaning unless the context of the sentence requires another meaning:

"Chromosomal disorder" means:

- (A) Trisomy 13, otherwise known as Patau syndrome;
- (B) Trisomy 18, otherwise known as Edwards syndrome; or
- (C) Trisomy 21, otherwise known as Down syndrome.

"Department" means the Oklahoma State Department of Health.

"Genetic counselor" means any person who is licensed pursuant to the provisions of the Genetic Counseling Licensure Act or offers to or engages in genetic counseling. The term does not include those professions exempted by Section 1-566 of the Act.

"Health care facility" means a facility licensed or certified by the State Department of Health, but shall not include a nursing care facility, assisted living facility or home care agency.

"Health care provider" means a person who is licensed, certified or registered by this state to provide health care services or a medical group, independent practice association or professional corporation providing health care services.

[Source: Added at 40 Ok Reg 1570, eff 9-11-23]

310:550-24-3. Resources for Trisomy 13, 18, and 21 Duty to provide information

Any health care facility, health care provider, or genetic counselor, upon receipt of a positive test result from a test for a chromosomal disorder, shall provide the expectant or new parent with information provided by the Department if such information is made available by the Department for the specific disorder.

[Source: Added at 40 Ok Reg 1570, eff 9-11-23]

310:550-24-4. Resources for Trisomy 13, 18, and 21 Availability of information from the Department

To the extent the information is available, the Department shall maintain on its website:

- (1) Up-to-date, evidence-based written information about chromosomal disorders that has been reviewed by medical

experts and national advocacy organizations for people with intellectual and other developmental disorders. The written information will be compiled from credible sources and will include physical, developmental, educational and psychosocial outcomes, life expectancy, clinical course, and intellectual and functional development and treatment options; and
(2) Contact information for programs and support services including one or more hotlines specific to a chromosomal disorder, resource centers or clearinghouses, national and local organizations, and other education and support programs.

[Source: Added at 40 Ok Reg 1570, eff 9-11-23]

CHAPTER 551. ADVANCEMENT IN STEM CELL CURES AND THERAPIES ACT

[Authority: 63 O. S. § 1-270.1]

[Source: Codified 6-25-09]

SUBCHAPTER 1. GENERAL PROVISIONS

310:551-1-1. Purpose

The rules in this chapter implement the Advancement in Stem Cell Cures and Therapies Act, 63 O.S. 270.1, *et seq.*, and are designed to provide a reporting system to capture and collect simple or basic identifying information regarding any work conducted in the State of Oklahoma related to, or associated with, stem cell research, in order to assist the State and those persons and entities engaged in stem cell research to identify, expand, encourage and otherwise enhance opportunities for greater research funding for such entities and persons involved in advancing knowledge about cell-based therapies to treat disease.

[Source: Added at 26 Ok Reg 2040, eff 6-25-09]

310:551-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Adult stem cell" means undifferentiated cells, found throughout the body after embryonic development, that multiply by cell division to replenish dying cells and regenerate damaged tissues. These stem cell types include but are not limited to, Adipose stem cells (ASC), Connective Tissue Progenitors (CTP), Hematopoietic stem cells (HSC), Hemangioblast (AC133) from umbilical cell blood (HB1), Mesenchymal Stem Cells (MSC), Multi-potent adult stem cells (MAPC), Neural stem cells/oligodendrocyte progenitors (NSC), Skeletal myoblast (SKMS), and Umbilical cord blood derived stem cells (UCB).

"Board" means the Oklahoma State Board of Health.

"Classification" means the business form of the information provider.

"Commissioner" means the Commissioner of the Oklahoma State Department of Health or his designated representative.

"Completed report" means a submitted data file that has been reviewed by the Department and found to contain no observed errors.

"Data element" means a unit of specific information collected and recorded by the Department that identifies the persons and entities engaged in stem cell research in Oklahoma and the nature of the stem cell research being conducted.

"Data file" means an electronic file containing data elements.

"Data provider" means either an information provider or an IRB who agrees to provide information on behalf of an information provider.

"Department" means the Oklahoma State Department of Health.

"Donor" means the person or entity with legal custody of a fertilized egg or oocyte.

"Embryonic stem cell" means cells derived from embryos that develop from eggs that have been fertilized in vitro and then lawfully donated for research purposes with informed consent of the donor.

"Human Embryo" *refers to a living organism of the species Homo sapiens at the earliest stage of development, including the single-cell stage, that is not located in the body of a woman. [1-270.2 of Title 63]*

"Human tissue regeneration" means any cell-based therapy that involves the regeneration of human tissue using stem cells.

"Information provider" means a private or public institution or other entity, or a person who is not affiliated with an institution or entity, that has initiated or is conducting research.

"IRB" or "Institutional Review Board" means the body or committee that is established in accordance with federal law and charged with the responsibility to provide oversight functions within a private or public institution where biomedical research involving human subjects is being conducted or performed. An IRB may include a Stem Cell Research Oversight Committee.

"Research" means any work, labor or effort into discovering, discerning or advancing knowledge of the science of cell regeneration.

"Somatic cell nuclear transfer" means a laboratory technique for creating an ovum with a donor nucleus.

"Stem cell" means an adult stem cell or an embryonic stem cell.

[Source: Added at 26 Ok Reg 2040, eff 6-25-09]

SUBCHAPTER 3. REQUIRED INFORMATION FOR REPORTING

310:551-3-1. Required Information to be Collected from Information Providers

(a) The Department is required by law to collect the following types of information from information providers:

(1) Information relating to research performed or conducted on human tissue regeneration using human embryos or adult stem cells.

(2) Information relating to research performed or conducted on human disease using human embryos or adult stem cells.

(b) The data elements to be submitted by information providers include the following:

(1) Identifying name of the research project having unique or individual IRB approval;

(2) Information provider name;

(3) Information provider street address;

(4) Information provider city;

(5) Information provider state;

(6) Information provider address postal zip code;

(7) Information provider EIN or Tax Identification Number;

- (8) Information provider telephone number;
 - (9) Information provider facsimile number;
 - (10) Information provider electronic mail address;
 - (11) Information provider contact person name;
 - (12) Information provider contact person telephone number;
 - (13) Information provider contact person facsimile number;
 - (14) Information provider contact person electronic mail address;
 - (15) Project initiation date;
 - (16) Project suspension date, if applicable;
 - (17) Project restart date, if applicable;
 - (18) Project completion date, if applicable;
 - (19) An affirmative indication if the research involves human embryonic stem cells in vitro;
 - (20) An affirmative indication if the research involves human embryonic stem cells in vivo;
 - (21) An affirmative indication if the research involves the creation or derivation of human embryonic stem cells or cell lines;
 - (22) An affirmative indication if the research involves or requires consent for human participation in a research project using human embryonic stem cells or adult stem cells;
 - (23) An affirmative indication if the research involves or requires consent for donation of tissue to derive adult stem cells;
 - (24) An affirmative indication if the research involves the use of human oocytes for purposes other than assisting a person to achieve a successful childbirth;
 - (25) An affirmative indication if the research involves the use of human embryos for purposes other than assisting a person to achieve a successful childbirth;
 - (26) An affirmative indication if the research involves somatic cell nuclear transfer for purposes other than assisting a person to achieve a successful childbirth; and,
 - (27) The name of the IRB or Stem Cell Research Oversight Committee to which the research institution, entity or research individual makes periodic reports.
- (c) Data file formats that will be accepted include:
- (1) PDF Flat File Format, or,
 - (2) Other formats agreed upon by OSDH and the data provider prior to submission.
- (d) Information submitted containing the appropriate data elements but do not adhere to an acceptable file format shall be deemed to be unreadable and will be not be accepted by the Department.

[Source: Added at 26 Ok Reg 2040, eff 6-25-09]

310:551-3-2. Data files

- (a) When a data file is received from an information provider, the Department will notify the information provider acknowledging receipt of the data.
- (b) Every data file received by the Department will be processed and checked for errors. This process will include error checking for out of

range, or invalid data elements as specified in Section 310:551-3-1. Upon processing the submitted data file, the Department will send the information provider:

- (1) An acknowledgement that the report appears to be without any apparent error, or,
- (2) A list of errors in that information provider's data file along with a request to correct the listed errors within 30 days of receipt of the notice.

[Source: Added at 26 Ok Reg 3019, eff 7-21-09 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2533, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:551-3-2 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:551-3-3. Periodic schedule for submission of information

- (a) Information providers must submit their data files to the Department within thirty (30) days of beginning the research, thirty (30) days of completion of the research, or by October 1, whichever is soonest.
- (b) The Department may grant an extension of the reporting deadline upon written request from the information provider made at least ten (10) days prior to the deadline and supported by substantial cause.

[Source: Added at 26 Ok Reg 3019, eff 7-21-09 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2533, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. SUBCHAPTER 5. CONFIDENTIALITY OF INFORMATION AND RESPONSIBILITIES OF INFORMATION PROVIDERS

310:551-5-1. Confidentiality

- (a) All information collected from any source will remain confidential in accordance with 51 O.S. § 24A.19, and will not be deemed or treated as a public record as otherwise defined in the Open Records Act. Under no circumstances shall information submitted to the Department pursuant to this Chapter be used for any purpose other than the compilation of data to be transmitted to the Governor, Speaker of the Oklahoma House of

Representatives and the President Pro Tempore of the State Senate. The information collected pursuant to this Chapter may not be released voluntarily or in response to any legal process unless the Department is directed to release it by a court of competent jurisdiction, granted after application showing good cause.

(b) The Department will develop internal procedures to ensure that the collection, maintenance and dissemination of the information collected is in compliance with all provisions of state and federal laws and regulations, including this Chapter.

[Source: Added at 26 Ok Reg 3019, eff 7-21-09 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2533, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:551-5-1 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:551-5-2. Release and dissemination of information upon request

After approval by the Department, aggregate compilations prepared for release or dissemination from the data collected shall be public record. However, reports prepared at the request of an individual information provider containing information concerning only its transactions, shall not be public record.

[Source: Added at 26 Ok Reg 3019, eff 7-21-09 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2533, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. 310:551-5-3. Responsibilities of information providers

Information providers shall be responsible to insure that the information required by this Chapter to be reported to the Department is timely collected and reported to the Department and that the data reported is accurate and complete. The obligation to report may be satisfied by the IRB or Stem Cell Research Oversight Committee of the person or entity conducting stem cell research.

[Source: Added at 26 Ok Reg 3019, eff 7-21-09 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2533, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. CHAPTER 555. NOTIFICATION OF COMMUNICABLE DISEASE RISK EXPOSURE

[**Authority:** 63 O.S., §§ 1-104, 1-502, 1-502.1(B), 1-502.2, and 1-502.3]
[**Source:** Codified 12-31-91]

310:555-1-1. Purpose

The rules in this Chapter implement a system of notification for risk exposures which are capable of transmitting an occupational risk disease to health care workers, emergency responders, funeral workers, and Good Samaritans. The employers of those classes of workers (excluding Good Samaritans) are required by federal OSHA standards (29 CFR Part 1910.1030) to have management policies and systems to handle such exposures. Only workers at health care facilities have access to patient charts and laboratory results; further, these facilities have systems to handle such exposures. Therefore, in order to facilitate access to source patient information, the notification system established in this Chapter shall apply to risk exposures to health care workers, emergency responders, funeral workers, Good Samaritans rendering aid occurring outside of employment at a health care facility.

[**Source:** Amended at 10 Ok Reg 631, eff 1-1-93 (emergency); Amended at 10 Ok Reg 1717, eff 6-1-93 ; Amended at 21 Ok Reg 1041, eff 5-13-04 ; Amended at 37 Ok Reg 1418, eff 9-11-20]

310:555-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise:

"Designee providing post-exposure follow-up" means any person authorized by law and designated by the employer to be responsible for counseling the exposed health care worker, emergency responder or funeral worker regarding the potential risks, need for further evaluation, testing and treatment, and communicating source patient test results. Examples would be case managers, occupational health practitioners, infection control practitioners, etc. This person should be current with the latest issues regarding occupational exposures and are responsible to comply with 63 O.S. Supp. 2001, Section 1-502.1 et seq.

"Emergency responder" means fire fighters, certified or designated first responders, emergency medical technicians and peace officers.

"Funeral worker" means any person who prepares a corpse for burial or other disposition.

"Good Samaritan" means where no prior contractual relationship exists, any person who in good faith renders or attempts to render emergency care consisting of artificial respiration, restoration of breathing, or preventing or retarding the loss of blood, or aiding or restoring heart action or circulation of blood to the victim or victims of an accident or emergency, wherever required, shall not be liable for any civil damages as a result of any acts or omissions by such person in rendering the emergency care.

"Health care facility" means any hospital, medical center, clinic, medical examiner, ambulatory surgical center, home care agency, hospice, nursing facility, assisted living facility and residential care facility or other inpatient or outpatient health care supplier to which a source patient is transported after a risk exposure.

"Health care facility designated person" means the person authorized by law and designated by the health care facility to be responsible for following up reported risk exposures.

"Health care worker" means any health care facility employee, physician, nurse or other health care provider whose job activities involve contact with patients or with any blood or body fluids from patients in an inpatient or outpatient health care facility, including the patient's home.

"Licensed health care professional" means a physician, a registered nurse, or a physician assistant (PA).

"Occupational Risk disease" for the purpose of these rules, are those infectious diseases which are transmitted from person-to-person by close or intimate contact with blood or body secretions and which may pose an occupational risk to emergency responders, health care workers, and funeral workers. Such diseases include, but are not limited to, Hepatitis B (HBV), Hepatitis C (HCV), Human Immunodeficiency Virus (HIV), meningococcus, measles, pertussis and tuberculosis.

"Potentially infectious body fluids" means blood or blood products; semen or vaginal secretions; pleural, synovial, cerebrospinal, pericardial, peritoneal and amniotic fluids; any fluid visibly contaminated with blood; and all body fluids in situations where it is difficult or impossible to differentiate between body fluids.

"Risk exposure" means an exposure which has been epidemiologically demonstrated to pose a risk for transmission of an occupational risk disease. Such an exposure would include a parenteral (e.g. needle stick or cut), permucosal (e.g. mouth-to-mouth resuscitation or splash to the eye or mouth) exposure to blood or other body fluids, or contact with blood to skin which is chapped, abraded or afflicted with dermatitis or exposure to respiratory secretions.

"Source patient" means the person to whom the health care worker, emergency responder, or funeral worker has had a risk exposure.

[Source: Amended at 10 Ok Reg 631, eff 1-1-93 (emergency); Amended at 10 Ok Reg 1717, eff 6-1-93 ; Amended at 21 Ok Reg 239, eff 11-6-03 (emergency); Amended at 21 Ok Reg 1041, eff 5-13-04 ; Amended at 37 Ok Reg 1418, eff 9-11-20]

310:555-1-3. Applicability

The notification system established in this Chapter shall apply to employers of health care workers, emergency responders, funeral workers, and Good Samaritans for risk exposures not occurring during employment at a health care facility.

[Source: Amended at 10 Ok Reg 631, eff 1-1-93 (emergency); Amended at 10 Ok Reg 1717, eff 6-1-93 ; Amended at 21 Ok Reg 1041, eff 5-13-04 ; Amended at 37 Ok Reg 1418, eff 9-11-20]

310:555-1-4. Notification system

(a) Any health care worker, emergency responder, funeral worker or Good Samaritan who sustains a risk exposure, not occurring during employment at a health care facility, is responsible for immediately reporting that exposure. To initiate this notification system, the exposed person shall complete Part I of the OSDH Communicable Disease Risk Exposure Report Form (ODH #207) and submit it to their employer or employer's designated person. Good Samaritans submit the form directly to health care facility where the source patient was transferred.

(b) For exposures happening while on duty, the employer shall be responsible for having the circumstances of the exposure reviewed by a licensed health care professional to determine if a risk exposure occurred. The licensed health care professional should use guidelines of the Centers for Disease Control and Prevention to make this determination. The facility where the source patient was transported will determine if a risk exposure occurred for Good Samaritans.

(c) If the licensed health care professional determines that a valid risk exposure has occurred, then the employer /Good Samaritan shall be responsible to submit within 24 hours of exposure, if possible, the Risk Exposure Report to:

- (1) The health care facility's designated person at the institution to which the source patient was transported, or
- (2) The source patient's attending physician, if the source patient was being cared for outside of a health care facility, or
- (3) The health care facility that last had responsibility for a deceased source patient, such as hospital of death, medical examiner or attending physician.

(d) The health care facility or the source patient's attending physician, if the source patient was being cared for outside of a health care facility, shall be responsible for designating an appropriate person authorized by law (and at least one back-up person) to provide confidential follow-up of the Risk Exposure Report. Follow-up should include:

- (1) Review of the source patient's medical record and consultation with the patient's attending physician to determine if the patient is known to have an occupational risk disease or if the source patient has risk factors for HBV, HCV, and/or HIV infection.
- (2) Testing of the source patient for HBV, HCV and/or HIV should be pursued upon request of the exposed worker's employer or Good Samaritan under the following conditions:

- (A) the health care facility has been provided with a completed written report of occupational or Good Samaritan exposure utilizing ODH Form 207, and
- (B) ODH Form 207 has been signed by a licensed health care professional verifying that a risk exposure to the source patient's blood or other potentially infectious body fluid has occurred. In accordance with 63 O.S. 2001, Section 1-502.3(A), testing of a source patient's blood may be performed:

- (i) with their written consent,
- (ii) without consent when ODH Form 207 is presented to the health care facility as noted above, or

(iii) upon court order.

(3) The source patient's blood, whenever available, shall be submitted for testing within 24 hours after ODH Form 207 has been received. When Rapid HIV Testing of the source patient is available and appropriate, efforts shall be made to have these results communicated to the health care facility's designated person immediately. All other test results shall be communicated to the health care facility's designated person within the next 5 days. In some instances, special arrangements (e.g., telephone call) may need to be made in order to have results within 5 days.

(4) Positive test results for HIV, HBV, and HCV from source patients should be made available by the health care facility designee immediately, and not more than 24 hours of receipt of the results to the physician or designee providing post-exposure follow-up to the exposed worker /Good Samaritan named on ODH Form 207. In addition, the health care facility designated person may (without consent) release the results of the source patient's HIV, HBV and HCV tests to:

(A) the source patient (and his/her physician);

(B) the exposed worker / Good Samaritan named on ODH Form 207; and/or

(C) Oklahoma State Department of Health.

(e) The health care facility designated person shall complete Part II of the Risk Exposure Report and mail it to the Oklahoma State Department of Health within six (6) working days.

(f) The physician or designee providing post-exposure follow-up to the exposed worker /Good Samaritan shall be responsible for ensuring the exposed worker/Good Samaritan has been informed whether or not he or she has been exposed to an occupational risk disease and make recommendations for appropriate follow-up.

(g) All reasonable costs associated with follow-up and testing of the source patient or exposed worker(s) as directed by these rules shall be paid by the exposed worker's employer, with the exception of a Good Samaritan who is responsible for all costs themselves, unless such costs to the source patient are borne by other payment sources.

(h) All information on the OSDH Risk Exposure Report shall be strictly confidential in accordance with applicable state laws.

CHAPTER 564. SEX CRIMES VICTIMS AND SUSPECTS

[Authority: 63 O.S.1991, §§ 1-524 and 1-525]

[Source: Codified 7-27-95]

SUBCHAPTER 1. GENERAL PROVISIONS

310:564-1-1. Purpose

The purpose of this chapter is to:

- (1) Provide direction for the HIV/STD examination, testing, and treatment of persons arrested by lawful warrant for the offense of first or second degree rape, forcible sodomy, or the intentional infection or attempt to intentionally infect a person with the human immunodeficiency virus, and
- (2) Provide a manner of notification of the victim of the suspect's HIV/STD test results, in order that the victim may receive appropriate treatment as indicated.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

310:564-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise:

"Adolescent/adult" means persons age 12 years or greater.

"County health department HIV counseling and test site" means a local county health department which has an agreement with the Oklahoma State Department of Health (OSDH) to provide HIV counseling and testing on site, according to protocols developed by the OSDH HIV/STD Service.

"Disclosing facility" means either a licensed physician or a local county health department HIV counseling and test site designated by the victim of a sex crime to receive a suspect's HIV/STD test results for disclosure to the victim.

"HIV" means human immunodeficiency virus, the virus that causes AIDS.

"Out-patient clinic" means any medical facility which provides diagnostic medical and laboratory services to the public on an outpatient basis. This definition excludes local county health departments.

"Prophylactic STD treatment" means treatment offered soon after an exposure which serves to prevent infection with an STD.

"STDs" means sexually transmitted diseases, including but not necessarily limited to HIV, hepatitis B, syphilis, gonorrhea, chlamydia, genital herpes, and genital warts.

"Suspect" means a person arrested by lawful warrant for the offense of first or second degree rape, forcible sodomy, or the intentional infection or attempt to intentionally infect a person with human immunodeficiency virus.

"Victim" means the person upon whom the offense of first or second degree rape, forcible sodomy, or intentional infection or attempt

to intentionally infect with human immunodeficiency virus was committed.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

310:564-1-3. Applicability

This Chapter shall apply to all persons arrested by lawful warrant for the offense of first or second degree rape, forcible sodomy, or the intentional infection or attempt to intentionally infect a person with human immunodeficiency virus, and to the victim of such offenses. The rules of this Chapter also apply to Local District Attorney's, Judges, Sheriffs, Chiefs of Police, and Victim Witness Coordinators as they implement the requirements of the Chapter, and to local physicians and county health departments as they support implementation of the rules.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

SUBCHAPTER 3. SUSPECT EXAMINATION, TESTING, AND TREATMENT

310:564-3-1. Suspect examination and testing for HIV/STDs

(a) **Court order for suspect examination and testing.** A motion for a court order for the examination and testing of suspects for HIV/STDs shall be filed automatically at the time charges are filed. It is not necessary that the victim request such examination and testing. The court order shall contain the following:

(1) A list of the specific examinations and tests ordered by the court. The list shall include, but not necessarily be limited to blood tests for HIV, hepatitis B, and syphilis, cultures or smears for gonorrhea and chlamydia, and visual examination for evidence of genital herpes and genital warts.

(2) A provision that the physician's office, out-patient clinic, or hospital which provided the suspect's examination and testing notify the District Attorney's office, through the Victim Witness Coordinator, when the suspect's test results are ready, and

(3) A provision that copies of the results of court-ordered examinations and testing be forwarded by the physician's office, out-patient clinic, or hospital to either a licensed physician or, in the case of adolescent/adult victims only, to the nearest county health department HIV counseling and test site, according to the choice of the victim, as made known to the Victim Witness Coordinator, for disclosure of suspect results to the victim.

(b) **Sources for obtaining suspect examination and testing.** Court-ordered HIV/STD examination and testing of suspects should be performed by a licensed physician. Local physician's offices, hospitals, and out-patient clinics all have access to the resources needed to perform such examinations and testing.

(c) **Suspect identification on test records.** The suspect should be identified on test forms by the case number assigned by the court. In

order to assure proper handling of results by the disclosing facility, the test form should specify "sex crimes" testing adjacent to the court case number.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

310:564-3-2. Suspect treatment for positive HIV/STD test results

- (a) Suspects who test positive for HIV and/or STDs shall be provided treatment as appropriate.
- (b) Licensed physicians can provide treatment for STDs. County health departments have the ability to treat some, but not all STDs for which adolescent/adult suspects may test positive. County health departments do not provide STD treatment to children under the age of 12 years. Prior to presenting adolescent/adult suspects for STD treatment at county health departments, the county health department administrator or designee shall be contacted.
- (c) Suspects who test positive for HIV must be evaluated by a licensed physician. County health departments do not have the resources to manage the primary care of persons who are HIV positive.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

**SUBCHAPTER 5. VICTIM NOTIFICATION, TESTING,
AND TREATMENT**

310:564-5-1. Victim notification

- (a) Upon notification that results of the suspect's examination and testing are ready, the Victim Witness Coordinator shall instruct the physician, out-patient clinic, or hospital which performed such examination and testing to forward copies of the results according to the choice of the victim [OAR 310:564-3-1(a)(3)].
- (b) The Victim Witness Coordinator shall notify the physician or county health department HIV counseling and test site chosen by the victim that results are being forwarded, and shall provide the physician or county health department counseling and test site counselor with a physical description of the victim and the suspect's court case number.
- (c) The Victim Witness Coordinator shall notify the victim that results are ready and shall instruct the victim to contact the physician or county health department counseling and test site to make an appointment for disclosure of suspect's results. The victim shall be instructed that he/she must have the suspect's court case number and a self-photo identification in hand when presenting for disclosure of suspect's results.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

310:564-5-2. Victim HIV/STD testing and treatment

- (a) Licensed physicians can provide for appropriate testing and treatment for HIV and STDs in any patient.

(b) County health departments are limited in their ability to test for and treat certain STD's, and do not provide STD services to children under the age of 12 years.

(c) HIV testing is available at some, but not all, county health departments. Local county health departments and Victim Witness Coordinators can refer adolescent/adult victims to the nearest county health department HIV counseling and test site. These sites do not provide HIV counseling and testing to children under the age of 12 years.

[Source: Added at 12 Ok Reg 3063, eff 7-27-95]

CHAPTER 565. SEXUALLY TRANSMITTED DISEASE CONTROL REGULATIONS

[Authority: 63 O.S.1971, § 1-526]

[Source: Codified 12-31-91]

310:565-1-1. Purpose

The rules in this Chapter implement the Sexually Transmitted Disease Control Regulations, 63 O.S. 1971, Section 1-526.

310:565-1-2. Criteria and techniques for the diagnosis of gonorrhea

The Oklahoma State Board of Health adopts DHEW Publication No. (CDC) 96-552 entitled "Criteria and Techniques for the Diagnosis of Gonorrhea" as rules and regulations governing the diagnosis of gonorrhea. The State Department of Health shall make such criteria and techniques available to Oklahoma physicians and to clinical laboratories upon request.

310:565-1-3. Criteria and techniques for the diagnosis of early syphilis

The Oklahoma State Board of Health adopts DHEW Publication No. (CDC) 98-376 entitled "Criteria and Techniques for the Diagnosis of Early Syphilis" as rules and regulations governing the diagnosis of early syphilis. The State Department of Health shall make such criteria and techniques available to Oklahoma physicians and to clinical laboratories upon request.

310:565-1-4. Criteria and techniques for the diagnosis of chancroid, donovanosis (granuloma inguinale), and lymphogranuloma venereum

The Oklahoma State Board of Health adopts DHEW Publication No. (CDC) 758-8302 entitled "Chancroid, Donovanosis (Granuloma Inguinale), and Lymphogranuloma Venereum" as rules and regulations governing the diagnosis of these three venereal diseases. The State Department of Health shall make such criteria and techniques available to Oklahoma physicians and to clinical laboratories upon request.

310:565-1-5. Reporting of tests by laboratories

Any superintendent or manager of a laboratory performing tests for gonorrhea, syphilis, chancroid, Donovanosis (granuloma inguinale), lymphogranuloma venereum, or any other sexually transmissible disease which the State Commissioner of Health deems amenable to control, shall report testing activity to the State Venereal Disease Control Program or the local health officer according to the specifications in this section.

(1) Method and Time Requirements.

(a) A report will be completed in writing and submitted in sealed envelope on forms provided by the Commissioner at the end of each testing week at a minimum. Any positive

or reactive tests will be reported as in 2.E-G contained in this section.

(b) Quantative reagin tests for syphilis with a reactive titer of 1:8 or more on persons aged 0-40 years, and microscopic identification of *Treponema pallidum* (darkfield test) will be reported by collect telephone call in addition to entry on the written report.

(2) **Information Requirements.** Report forms (ODH 235) are to be completed with the information contained in this section.

(a) Laboratory identification (name, address, telephone number).

(b) Signature of laboratory manager or designate.

(c) Date of report and period covered.

(d) Indication that no tests were positive when this is the fact.

(e) Type of test, date performed, and complete result.

(f) Name and telephone number of physician or health provider. (In those testing situations where no responsible physician or health provider can be identified, enter the address and telephone number of the person tested.)

(3) **Confidentiality of Reports.** All reports of positive or reactive tests shall be considered confidential by the Oklahoma State Department of Health as described in Title 63, Article 5, Section 532 of the Public Health Code.

(4) **Consultation with Physicians.** The State Commissioner of Health, the local health officer, or authorized agents under their supervision, shall consult with the physician or health provider requesting the test before instituting measures to prevent the spread of disease. All positive or reactive serologic test reports will be considered as suggestive of the presence of disease only and will not be considered as representing a diagnosis or a report of morbidity.

CHAPTER 566. COMPREHENSIVE BREAST AND CERVICAL CANCER DETECTION AND TREATMENT

[**Authority:** 56 O.S., §§1010.1 et seq.; and 63 O.S., §§1-502 and 1-554et seq.;]
[**Source:** Codified 7-11-05]

SUBCHAPTER 1. GENERAL PROVISIONS

310:566-1-1. Purpose

This Chapter implements O.S.L. Chapter 210 "Oklahoma Breast Cancer Prevention and Treatment" and Public Law 101-354, Title XV, Public Service Act, "Breast and Cervical Cancer Mortality Prevention" authorized by Congress in 1990 and amended in 2000. State statutes established a breast and cervical cancer prevention, treatment and research program advised by a group of predetermined individuals. The federal law established a comprehensive population based statewide breast and cervical cancer early detection program with an additional amendment establishing the treatment program. The purpose of both laws is to reduce the mortality of breast and cervical cancer by providing statewide early detection, diagnosis and treatment of breast and cervical cancer.

[**Source:** Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-1-2. Definitions

"Abnormal screen" means a suspicion of breast or cervical cancer. A suspicion of breast cancer includes clinical breast exam findings of: palpable breast mass, breast dimpling, nipple retraction, bloody nipple discharge, palpable lymph nodes around clavicle or axilla, nipple erythema and scaliness, a mammography result of BiRads 4 (Suspicious Abnormality suggesting need for biopsy) or 5 (Highly Suggestive of Malignancy) (ICD 793.8), breast biopsy result of Ductal Cancer in situ, Lobular Cancer in situ (ICD 233.0), or breast or lymph node (or other) biopsy result of breast cancer. Suspicion of cervical cancer is a Pap test result of Atypical Squamous Cells (ASC), Atypical glandular cells (AGC), Low-grade squamous intraepithelial lesions (LSIL), or High-grade squamous intraepithelial lesions (HSIL) (ICD 622.1), leukoplakia of the cervix, (ICD 622.2), or cervical biopsy result of Cervical intraepithelial neoplasia II or III, or Cancer in situ (ICD 233.1).

"ACR" means American College of Radiology. The ACR is the FDA recognized approved accreditation body for minimum quality standards for personnel, equipment, and record keeping in facilities that provide mammography.

"Benign" means a non-cancerous condition that does not spread to other parts of the body.

"Bethesda System" means a specified system of reporting cervical cytology findings.

"Biopsy" means removal of an entire abnormality (excisional biopsy) or a sampling or portion of abnormality (core and incisional

biopsy) for microscopic examination in order to diagnose a problem.

"BiRads" means Breast Image Reporting and Data System.

"Breast and Cervical Cancer Program Treatment Act (BCCPTA)" means a Medicaid plan amendment creating a new categorically needy group consisting of women screened for breast and/or cervical cancer under the BCCEDP and found to be in need of treatment.

"Breast carcinoma in situ" means breast changes in which malignant cells are localized and confined to breast ducts or lobules and may press against adjoining breast tissue but have not penetrated or spread beyond the breast.

"BSE" means breast self-examination. This is inspection and palpation of a woman's breasts by the woman herself.

"Cancer" means a general term for more than 100 diseases characterized by abnormal and uncontrolled growth of cells.

"CBE" means clinical breast examination. A complete examination of the breast and axilla with palpation by a health professional, including examination of the breast in both the upright and supine positions.

"Case management" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that involves establishing, brokering, and sustaining a system of available clinical and essential support services for all women enrolled in the program.

"Certified provider" means a healthcare professional who has signed a memorandum of understanding with the Oklahoma Breast and Cervical Cancer Early Detection Program certifying that the woman received breast or cervix screening, was found to be in need of treatment, and meets eligibility criteria for referral to the Medicaid Breast and Cervical Cancer Treatment Program.

"CLIA" means the Clinical Laboratory Improvement Act which establishes minimum quality standards for personnel and quality assurance methods which monitor patient test management and assess quality control, proficiency testing and personnel handling of laboratory and pathology specimens.

"Colposcopy" means examination of the cervix with a high-powered microscope.

"Creditable coverage" means any insurance that pays for medical bills incurred for the screening, diagnosis, or treatment of breast and cervical cancer. Creditable coverage includes, but is not limited to, group health plans, health insurance coverage consisting of medical care under any hospital or medical service policy, or health maintenance organization, Medicare Part A and B, Medicaid, Armed Forces Insurance, and/or state health risk pool. A woman having credible coverage will not be eligible to apply for Medicaid coverage of breast and cervical cancer screening or treatment.

"Creditable coverage circumstances" means there are some circumstances where a woman has credible coverage but is not actually covered for treatment of breast or cervical cancer. In an instance such as pre-existing condition exclusions, or when the annual or lifetime limit on benefits has been exhausted, a woman is not considered to have credible coverage for this treatment. If the woman has limited

coverage, such as limited drug coverage or limits on number of outpatient visits or high deductibles, the woman is still considered to have creditable coverage and is not eligible to apply for Medicaid coverage of breast and cervical cancer treatment. If the woman has a policy with limited scope of coverage such as only dental, vision, or long term care, or a policy that covers only a specific disease or illness, she is not considered having creditable coverage, unless the policy provides full coverage for breast and cervical cancer treatment. For the purposes of this program eligibility for IHS or Tribal health care is not considered creditable coverage.

"Diagnostic mammography" means radiologic examination used to evaluate a patient with a breast mass(es), other breast signs or symptoms (spontaneous nipple discharge, skin changes, of special cases such as a history of breast cancer with breast conservation or augmented breasts).

"FDA" means the United States Food and Drug Administration. The FDA certifies that a mammography facility meets minimum quality standards for personnel, equipment, and record keeping.

"Follow-up" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that involves a system for seeking information or reviewing an abnormal condition, rescreeing, and/or recall for annual visits.

"Infrastructure" means sufficient staff and adequate supporting systems to plan, implement, and evaluate the program components of the Oklahoma Breast and Cervical Cancer Early Detection Program.

"In need of treatment" means an abnormal screen determined as a result of a screening for breast and/or cervical cancer under the Oklahoma Breast and Cervical Cancer Early Detection Program.

"Medicaid" means a combined federal and state payment source for health care benefits for certain eligible women who are disabled or who have dependent children. Health care benefits must be a part of the state plan for health services.

"Medicare" means a federal payment source for health benefits for certain eligible women.

"Minimum data elements" means a set of standardized data elements developed by the Centers for Disease Prevention and Control, Division of Cancer Prevention and Control, to ensure that consistent and complete information on screening location, demographic characteristics, screening results, diagnostic procedures, tracking and follow-up, and treatment information are collected on women screened and/or diagnosed with federal funding.

"Never screened" means women who have never been screened for breast and/or cervical cancer or who do not utilize preventive health services.

"Oklahoma Breast and Cervical Cancer Early Detection Program (BCCEDP)" means a comprehensive breast and cervical cancer program established and funded under Title XV of the federal Public Health Service Act with delegated responsibility of implementation and evaluation to the Centers for Disease Control and Prevention, Division of Cancer Prevention and Control, and administered by the Oklahoma State Department of Health.

"Oncologist" means a specialist who treats or studies the physical, chemical, and biologic properties and features of neoplasms, including causation, pathogenesis, and treatment.

"Outreach" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that involves recruiting high-risk populations, targeted populations or persons who never or rarely utilize preventive health services.

"Pap smear" means a screening test for the detection of abnormal cells from the cervix. The Pap smear can detect abnormal cells or pre-cancerous cells before cancer develops.

"Pathologist" means a specialist in pathology; a physician who practices, evaluates, or supervises diagnostic tests, using materials removed from living or dead patients, and functions as a laboratory consultant to clinicians, or who conducts experiments or other investigations to determine the causes or nature of disease changes.

"Physician" means any person who has completed a course of medical training, has received a medical degree and is licensed by the Oklahoma State Board of Medical Licensure or the Oklahoma Osteopathic Board of Examiners to practice medicine.

"Pre-cancerous lesions" means poorly differentiated cells that could progress to cancer.

"Program and fiscal management" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that conducts planning, organizing, directing, coordinating, managing, budgeting, and evaluating program activities.

"Radiologist" means a physician skilled in the diagnostic and/or therapeutic use of x-rays and other forms of radiant energy.

"Rarely screened" means women who have not had breast and/or cervical cancer screening within the last five (5) years.

"Referral" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that involves directing women with abnormal screens to appropriate resources for action.

"Screening mammography" means x-ray of the breasts of asymptomatic women in an attempt to detect abnormal lesions of the breast when they are small, non-palpable, and confined to the breast.

"Service delivery" means providing either directly or through contractual arrangements for comprehensive breast and cervical cancer services of screening, diagnosis, and treatment through client tracking of screening intervals, timeliness of diagnosis and timeliness of treatment.

"Surgeon" means a physician who treats disease, injury, and deformity by operation or manipulation.

"Surveillance" means a program component of the Oklahoma Breast and Cervical Cancer Early Detection Program that involves the systematic collection, analysis, and interpretation of health data.

"Ultrasound of the breast" means the use of sonic energy to produce a pictorial representation of the internal structure of the breast. The image is produced by pulse-echo techniques with detection and display of tissue interfaces rather than densities.

310:566-1-3. Agreement with Oklahoma Health Care Authority

The Oklahoma State Department of Health, the Oklahoma Health Care Authority, and the Department of Human Services have coordinated to develop procedures for women who are residents of Oklahoma, are in need of treatment, meet eligibility criteria. (BCCPTA)

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-1-4. Eligibility for Breast and/or Cervical Cancer Treatment (BCCPTA)

A woman who is an Oklahoma resident is able to apply for Medicaid coverage for treatment of breast or cervical cancer including breast carcinoma in situ or precancerous conditions of the cervix if:

- (1) She is currently enrolled in the Oklahoma Breast and Cervical Cancer Early Detection Program (OKBCCEDP). To be considered enrolled in OKBCCEDP she must meet program age guidelines and have at least one of the basic screening services (pap test or CBE) paid by the OKBCCEDP and be in need of treatment due to an abnormal screen which is suspicious for breast or cervical cancer, and/or breast and cervical pre-cancerous conditions; or
- (2) She is referred by an OKBCCEDP certified provider and is documented to be in need of treatment due to an abnormal screen which is suspicious for either breast or cervical cancer, and/or breast or cervical pre-cancerous condition.
- (3) Have a family income that is at or below one hundred eighty-five percent (185%) of the federal poverty income level.
- (4) Have not attained the age of sixty-five (65) years.
- (5) Have no or have inadequate creditable health insurance or health benefit coverage.
- (6) Is an Oklahoma and US Citizen or qualified alien.
- (7) Has an abnormal breast or cervical cancer screening test result, or has been diagnosed with breast or cervical cancer and is still in need of treatment.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-1-5. Coverage for treatment (BCCPTA)

Medicaid shall provide full payment coverage throughout the period of time required for treatment of the individual's breast or cervical cancer. Reimbursement rates for the treatment of breast and cervical cancer will be consistent with established Medicaid rates.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-1-6. Loss of eligibility (BCCPTA)

A woman will no longer meet eligibility criteria for this program when her health care provider deems she is cancer free and will not require continued cancer treatment and/or therapy.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-1-7. Criteria for certified screening provider

Physicians (M.D., D.O.), advanced practice nurses, physician assistants, and Certified Nurse Midwives who have signed a memorandum of understanding with the Oklahoma Breast and Cervical Cancer Early Detection Program can be a certified provider. The provider in signing the memorandum of understanding certifies that the woman received breast or cervix screening, was found to be in need of treatment, and meets eligibility criteria for referral to the Medicaid Breast and Cervical Cancer Treatment Program. Eligibility criteria includes that the woman is between the ages of 19 and 64, is a US Citizen or qualified alien and a resident of Oklahoma, has an income at or below 185% of the current Federal Poverty Level, has provided a social security number, does not have creditable coverage for breast or cervical cancer treatment, and has an abnormal finding following a breast or cervical cancer screening service. Suspicious findings for breast includes clinical breast exam findings of: palpable breast mass, breast dimpling, nipple retraction, bloody nipple discharge, palpable lymph nodes around clavicle or axilla, nipple erythema and scaliness, a mammography result of BiRads 4 (Suspicious Abnormality suggesting need for biopsy) or 5 (Highly Suggestive of Malignancy) (ICD 793.8), breast biopsy result of Ductal Cancer in situ, Lobular Cancer in situ (ICD 233.0), or breast or lymph node (or other) biopsy result of breast cancer. Suspicion of cervical cancer is a Pap test result of Atypical Squamous Cells (ASC), Atypical glandular cells (AGC), Low-grade squamous intraepithelial lesions (LSIL), or High-grade squamous intraepithelial lesions (HSIL) (ICD 622.1), leukoplakia of the cervix, (ICD 622.2), or cervical biopsy result of Cervical intraepithelial neoplasia II or III, or Cancer in situ (ICD 233.1). Certified screening providers need not be BCCEDP contractors, and will not be reimbursed by the BCCEDP nor by Medicaid for the screening services provided to the woman.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

SUBCHAPTER 3. SCREENING SERVICE PROVISION

310:566-3-1. Service provision of the Oklahoma Comprehensive Breast and Cervical Cancer Early Detection Program

The Oklahoma Comprehensive Breast and Cervical Cancer Early Detection Program shall include the following key components:

- (1) Program and Fiscal Management will be conducted by ensuring strategic planning, implementation, coordination, integration, and evaluation of all programmatic activities and administrative systems, as well as the development of key communication channels and oversight mechanisms to aid in these processes. Program Management will ensure that infrastructure adequately supports service delivery.

(2) Service Delivery directly provided or provided through contractual arrangements of specific and appropriate clinical procedures to detect breast and/or cervical abnormalities for women enrolled in the Oklahoma Breast and Cervical Cancer Early Detection Program. In the Oklahoma Breast and Cervical Cancer Early Detection Program appropriate clinical screening procedures include clinical breast examinations (CBE), mammograms, screening pelvic exams and pap tests. Appropriate clinical diagnostic procedures include diagnostic mammography, ultrasound of the breast, surgical consultation, biopsy of the cervical or breast, colposcopy of the cervix, and electrical loop excisional biopsies of the cervix. Women should receive patient education directed toward breast self-examination (BSE) and risk reduction.

(3) Referral, Tracking and Follow-up will be conducted utilizing a data system to monitor an enrolled woman's receipt of screening/re-screening, diagnostic, and treatment procedures. The enrolled woman will be notified of the results of the service delivery whether the results are normal, benign, or abnormal. The data system will provide tracking of appropriate and timely clinical services following an abnormal test result and/or diagnosis of cancer. Enrolled women with abnormal Pap smears or breast screening procedures will be provided comprehensive referral directing the woman to appropriate additional diagnostic or treatment services. The comprehensive referral will be written. Follow-up will be conducted to seek information about whether services were timely, completed, or met.

(4) Case Management will be provided and involve establishing, brokering, and sustaining a system of available clinical (screening, diagnostic, and treatment) and essential support services for all Oklahoma Breast and Cervical Cancer Early Detection Program enrolled women, and assisting clients diagnosed with cancer through the Program to obtain needed diagnostic and treatment services.

(5) Quality Assurance and Improvement will be conducted utilizing established standards, systems, policies and procedures to monitor, assess and identify practical methods for improvement of the program and its components. Quality assurance tools will include utilizing FDA and ACR minimum standards for mammography facilities and CLIA minimum standards for cytopathology and pathology laboratories. Quality assurance contributes to the identification of corrective actions to be taken to remedy problems found as a result of investigating quality of care.

(6) Professional Education will be provided through a variety of channels and activities that enable professionals to perform their jobs competently, identify needs and resources, and contribute to ensuring that health care delivery systems provide positive clinical outcomes.

(7) Population Based Public Education and Outreach will be provided that involves the systematic design and delivery of clear

and consistent messages about breast and cervical cancer and the benefits of early detection, using a variety of methods and strategies to reach priority populations. Outreach activities should focus on women who have never been screened or rarely been screened and work toward the removal of barriers to care, i.e.: the need for childcare, respite care, interpreter services and transportation through collaborative activities with other community organizations.

(8) Coalitions and Partnerships will be developed to bring together groups and individuals who establish a reciprocal agreement for sharing resources and responsibilities to achieve the common goal of reducing breast and cervical cancer mortality.

(9) Surveillance will be conducted utilizing continuous, proactive, timely and systematic collection, analysis, interpretation and dissemination of breast and cervical cancer screening behaviors, incidence, prevalence, survival, and mortality of breast and/or cervical cancer. Epidemiological studies will be conducted utilizing Minimum Data Elements and other data sources to establish trends of disease, diagnosis, treatment, and research needs. Program planning, implementation, and evaluation shall be based on the epidemiological evidence.

(10) Evaluation will be conducted through systematic documentation of the operations and outcomes of a program, compared to a set of explicit or implicit standards or objectives. The Oklahoma Breast and Cervical Cancer Prevention and Treatment Advisory Committee shall review the service delivery contractual agreements as to their outcomes. The Oklahoma Breast and Cervical Cancer Prevention and Treatment Advisory Committee shall make recommendations based on the evaluation in its annual report.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-3-2. Eligibility criteria for the early detection program

(a) Women who are Oklahoma residents and who meet the following criteria are eligible for breast and cervical cancer early detection services:

(1) Women 19-65 years of age whose incomes are less than 185% of poverty and lack creditable health insurance coverage are eligible with the following criteria.

(2) Women 50-65 years of age will be the priority population to receive annual breast and cervical cancer screening.

(3) Women 40-49 years of age who are symptomatic of breast cancer will receive breast cancer diagnostic work-up and cervical cancer screening if appropriate.

(4) Women 35-65 years of age with an intact cervix who have not had a pap test in 5 or more years will be the priority population to receive cervical cancer screening.

(5) Women 35-65 years of age who have had a hysterectomy due to cervical cancer or pre-cancerous conditions of the cervix may

receive Pap smears.

(6) Women 19-35 years of age will be eligible for cervical cancer screening depending on appointment availability.

(b) All enrolled women will receive annual recall for screening.

(c) Women who have creditable medical insurance, including Medicare Part B and Medicaid shall be referred to their primary care provider or facility for services.

[Source: Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

310:566-3-3. Criteria for screening services contractors

Criteria for contractors to provide services include the following:

(1) Contractors shall ensure approved services are performed by board certified radiologists, pathologists, GYN physicians, surgeons, and oncologists.

(2) Contractors agree that procedures and services provided shall not exceed the amount that would be paid under Medicare Part B rates of Title XVIII of the Social Security Act.

(3) Mammography contractors shall ensure current FDA certification and ACR accreditation; be Medicare and Medicaid approved facilities; their participating physicians/providers be Medicare and Medicaid approved providers; and their services must be delivered with personnel and equipment in accordance with the Mammography Quality Standards Act.

(4) Mammography facilities shall utilize the Breast Image Reporting and Data System (BIRADS) and follow the ACR guidelines for mammography report content.

(5) A board certified radiologist must be immediately available to determine selection of views, and readings when a diagnostic mammogram is performed.

(6) Cytology and pathology specimens obtained shall be submitted to a CLIA approved laboratory for processing. The laboratory will provide cytological reading and analysis of cervical and vaginal Pap smears by Certified/Registered Cytotechnologists. And cytology (Pap) smears will be reported using the current Bethesda classification system. The laboratory will provide board certified pathologists or experienced certified cytotechnologists to re-screen all Pap smears with specified abnormal diagnosis. The Laboratory will provide surgical pathology analyses and readings of cervical and breast biopsies.

(7) Contract physicians shall practice according to the current standards of medical care for breast and cervical cancer early detection, diagnosis and treatment.

(8) Service delivery can be provided by a variety of settings.

Service delivery must include:

(A) Providing screening services for a specific geographic area.

(B) Providing a point of contact for scheduling appointments.

(C) Providing age and income eligibility screening.

- (D) Providing comprehensive breast and cervical cancer screening to eligible women.
- (E) Providing referral and follow-up for women with abnormal screening results.
- (F) Providing required reporting system for screening and follow-up activities.
- (G) Providing population based education, out-reach, and recruitment activities.

[**Source:** Added at 22 Ok Reg 400, eff 12-21-04 (emergency); Added at 22 Ok Reg 2409, eff 7-11-05]

CHAPTER 567. STATE CENTRAL CANCER REGISTRY

[Authority: 63 O.S., §§ 1-104, 1-551.1, 1-552, and 550.5]

[Source: Codified 6-12-95]

SUBCHAPTER 1. GENERAL PROVISIONS

310:567-1-1. Purpose

This Chapter implements 63 O.S. 1991 §1-551.1 and 1-552 by establishing the State Central Cancer Registry and rules which govern the maintenance of an up-to-date, population based cancer registry. In addition, this Chapter provides rules which ensure an accurate, timely, complete and continuing source of data concerning cancerous, precancerous and tumorous diseases and protects the identity of patients and physicians.

[Source: Added at 11 Ok Reg 3959, eff 6-21-94 (emergency); Added at 12 Ok Reg 1691, eff 6-12-95 ; Amended at 14 Ok Reg 250, eff 11-5-96 through 7-14-97 (emergency); Amended at 14 Ok Reg 3138, eff 7-25-97]

310:567-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Cancer diseases" means a general term frequently used to indicate any of various types of malignant neoplasms, most of which invade surrounding tissues, may metastasize to several sites, and are likely to recur after attempted removal and to cause death of the patient unless adequately treated; especially, any such carcinoma or sarcoma, but in ordinary usage, especially the former.

"Clinic" means any licensed facility serving persons on an out-patient basis which provides diagnostic and/or treatment of cancerous diseases and precancerous conditions.

"Commissioner" means the Oklahoma Commissioner of Health.

"Department" means the Oklahoma State Department of Health.

"Dentist" means a person trained in the diagnosis, treatment and prevention of diseases of the teeth and related structures of the oral cavity who is licensed by the Board of Governors Registered Dentists State of Oklahoma and qualified to practice dentistry.

"Diagnostic services" means any service which entails the diagnosis of a cancerous disease or precancerous condition, including such services as those provided by Oncologists, Pathologists, Radiologists, and surgeons.

"Facility" means any licensed or certified medical facility or establishment which provides diagnostic and/or treatment services for cancerous diseases and precancerous conditions.

"Histology" means the microscopic description of the type of cells in the specimen examined pathologically. The components of the histology include but are not limited to: Morphology, Behavior, and Grade.

"Hospital" means any medical facility licensed by the state to provide medical care on an in-patient or out-patient basis for the diseases of cancer, for precancerous conditions, or for early detection services related to the detection and treatment of cancerous and precancerous conditions.

"Hospital identifier" means a unique code assigned to each hospital in the state which serves to uniquely identify each hospital in the State Central Cancer Registry, to assure the proper assignment of cancer data to the correct hospital.

"In situ" means local within the original place, or a growth of abnormal cells which is detected in its anatomic site of origin.

"Laboratory" means any accredited or certified laboratory which provides cytopathology services for defining the degree of abnormality of cells related to both cancerous and precancerous conditions.

"Pathologist" means any person who is licensed by the State and has board certification to perform pathology and performs the scientific study of the nature of disease, its causes, processes, development, and consequences. This includes the study of the anatomic or functional manifestations of cancerous disease and precancerous conditions.

"Pathology laboratory identifier" means a unique code assigned to an approved medical laboratory which provides cytopathology services for defining the behavior and degree of abnormality of a patient's laboratory specimen.

"Physician" means any person who has completed a course of medical training, has received a degree and is licensed by the Oklahoma State Board of Medical Licensure or the Oklahoma Osteopathic Board of Examiners to practice medicine.

"Precancerous condition" means exhibiting a likelihood of becoming cancerous.

"Registry" means a computerized system for collecting and compiling cancer data in a standard format, with the functional ability to merge data from various sources and perform correlations between a variety of data elements within the system. The Registry is also designed to produce summary reports and statistical analysis reports of the data contained in the Registry.

"Stage of disease" means terms frequently used to describe stage of disease: localized (if limited to the primary site), regional (if the disease has spread to adjacent organs or tissues and/or regional lymph nodes), and distant (if the cancer has spread to distant organs or nodes.)

"TNM" means the summary stage of a tumor, "T" meaning tumor, "N" meaning nodes and "M" meaning metastasis.

"Treatment services" means any type of treatment delivery for cancerous disease or precancerous conditions, performed in a medical facility on an out-patient or in-patient basis.

"Tumorous" means a circumscribed, non-inflammatory growth arising from existing tissue but growing independently of the normal rate or structural development of such tissue and serving no physiological function.

SUBCHAPTER 3. REPORTING

310:567-3-1. Reporting requirements

All hospitals, clinics, laboratories, pathologists, physicians, or dentists, or facilities providing diagnostic or treatment services in relation to cancer disease or precancerous conditions, shall report in an approved electronic format to the Oklahoma Central Cancer Registry the twenty-two cancer minimum data elements for the purpose of maintaining a statewide, population-based cancer data base. Such information shall include, at a minimum, the following elements:

- (1) Patient's name, address, age, race, sex, social security number, hospital identifier or pathology laboratory identifier, or any other identifier for facilities providing diagnostic or treatment services for cancerous and precancerous conditions.
- (2) Patient's residential, family, environmental, occupational, lifestyle risk factors, exposure to Agent Orange and medical histories.
- (3) Physician's name, diagnosis, stage of disease, histology TNM, method of treatment, and name and address of any facility providing diagnostic or treatment services.
- (4) Cancer identification of tumor site, laterality, type and behavior, grade, and diagnostic confirmation
- (5) First course and subsequent courses of treatment, recurrence, continuous follow-up and death.

[Source: Added at 11 Ok Reg 3959, eff 6-21-94 (emergency); Added at 12 Ok Reg 1691, eff 6-12-95 ; Amended at 14 Ok Reg 250, eff 11-5-96 through 7-14-97 (emergency); Amended at 14 Ok Reg 3138, eff 7-25-97 ; Amended at 36 Ok Reg 1709, eff 9-13-19]

310:567-3-2. Diseases to be reported

All types of cancer will be considered as reportable disease. This will include all in situ, nonmalignant central nervous system tumors and the following precancerous cases:

- (1) Intraepithelial neoplasia III of vulva, vagina, anus and larynx;
- (2) Squamous intraepithelial neoplasia III except of cervix and skin.

[Source: Added at 11 Ok Reg 3959, eff 6-21-94 (emergency); Added at 12 Ok Reg 1691, eff 6-12-95 ; Amended at 24 Ok Reg 1990, eff 6-25-07 ; Amended at 36 Ok Reg 1709, eff 9-13-19]

310:567-3-3. Methods of reporting

- (a) The reporting of cancer may be done through automated hospital tumor registries.
- (b) If the hospital does not have an automated cancer registry, cancer cases are to be reported manually in the form of case abstracts.
- (c) If a biopsy was performed as an out-patient procedure, the pathology laboratory shall report any cases of cancer, or conditions defined in 310:567-3-2.

(d) By January 1, 1997, all Oklahoma reporting sources shall be initiated. The Oklahoma Central Cancer Registry reference date is January 1, 1997.

(e) All hospitals, clinics, laboratories, pathologists, physicians or dentists, or all facilities providing diagnostic or treatment services in relation to cancer diseases or precancerous conditions, shall report:

(1) all cancer within 180 days of diagnosis or treatment

(2) and all cancers occurring in patients under 20 years of age within 30 days of diagnosis or treatment.

(f) All hospitals, clinics, laboratories, pathologists, physicians or dentists, or all facilities providing diagnostic or treatment services in relation to cancer diseases or precancerous conditions, shall have capability to perform quality edits so that all cancer data reported to the Oklahoma Central Cancer Registry meets the 100% accuracy standard.

SUBCHAPTER 5. CONFIDENTIALITY AND USE OF DATA

310:567-5-1. Confidentiality of registry data

In accordance with 63 O.S. Section 1-551.1(D), the Commissioner has a duty to protect the identity of patients and physicians involved in any report for the State Cancer Registry. The Commissioner also has the authority to determine if a legitimate research activity allows for access to confidential patient information by satisfying 63 O.S. Section 1-551.1(D)(1).

[Source: Added at 11 Ok Reg 3959, eff 6-21-94 (emergency); Added at 12 Ok Reg 1691, eff 6-12-95 ; Amended at 38 Ok Reg 2049, eff 9-11-21]

310:567-5-3. Reciprocity agreements with other registries

(a) In accordance with 63 O.S. Section 1-551.1(D)(3), the Commissioner may enter into reciprocity agreements with other governmental cancer registries for the purpose of sharing of cancer data.

(b) Shared cancer data cannot be used for any purpose other than non-confidential summary statistics of cancer, or related purposes, without a separate agreement of confidentiality.

[Source: Added at 11 Ok Reg 3959, eff 6-21-94 (emergency); Added at 12 Ok Reg 1691, eff 6-12-95 ; Amended at 38 Ok Reg 2049, eff 9-11-21]

310:567-5-4. Cancer control, intervention, and special studies

(a) The Department may make such investigations concerning cancer, the treatment of this disease or impairments and the mortality resulting from them. The results of these investigations may be utilized in concert with communities, counties, or statewide groups to assist in planning, implementation, or evaluation efforts to reduce cancer morbidity or

mortality.

(b) The Department may utilize central cancer registry data of non-confidential nature to conduct epidemiological surveys, correlation's between relative survival rates and stage of disease at diagnosis, efficacy of treatment modalities for various types of cancer at various stages of disease, lifestyle factors and other known risks of exposure to chemical agents and physical factors which may initiate or promote the uncontrolled growth of abnormal cells.

CHAPTER 590. DIABETES SUPPLIES, EQUIPMENT, AND EDUCATION COVERED BY INSURANCE

[Authority: 36 O.S., § 6060.2]

[Source: Codified 7-25-97]

SUBCHAPTER 1. GENERAL PROVISIONS

310:590-1-1. Purpose

This Chapter implements O.S.L. 1996, Chapter 125 that establishes that certain equipment, supplies, services, and self-management skills training as treatment for type I, type II, and gestational diabetes shall, subject to the terms of policy, contract, or agreement (ie, "approved HMO physicians, approved medical equipment and supplies providers, etc" subject to the terms of the policy, contract, or agreement" does not mean that an individual or group health insurance policy defined in the enabling statute can escape the requirements of the statute or these rules by resort to the terms of the policy, contract or agreement), be covered by any individual or group health insurance policy as defined by statute.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-1-2. Definitions

When used in this Chapter the following words or terms shall have the following meaning unless the context of the sentence requires another meaning.

"Board" means the Oklahoma State Board of Health.

"Certified health professional" means a certified diabetes educator or a certified health education specialist who has 1.) completed a course of education and training 2.) passed a national examination; and, 3.) achieved certification from a national certifying organization recognized by the United States Department of Health and Human Services. The certified diabetes educator has mastered a core of knowledge and skill in the biological and social sciences, communication, counseling, and education, and has experience in the education of patients with diabetes.

"Commissioner" means the Oklahoma Commissioner of Health.

"Eye physician" means licensed ophthalmologist or optometrist.

"Diabetes" means diabetes mellitus a common chronic, serious systemic disorder of energy metabolism that includes a heterogeneous group of metabolic disorders that can be characterized by an elevated blood glucose level. The terms diabetes and diabetes mellitus are considered synonymous and defined to include persons using insulin, persons not using insulin, individuals with elevated blood glucose levels induced by pregnancy, or persons with other medical conditions or medical therapies which wholly or partially consist of elevated blood glucose levels.

"Diabetes self-management training" means *instruction provided in an inpatient or outpatient setting which enables diabetic patients to understand the diabetic management process and daily management of diabetic therapy as a method of avoiding frequent hospitalizations and complications* (O.S.L. 1996, Chapter 125, Section 1 (A)(3)(b)). The diabetes self-management process includes daily and life-long skills, problem-solving strategies, and lifestyle changes to effectively delay or prevent both acute and chronic complications.

"FDA" means the United States Food and Drug Administration.

"Licensed health care provider who can prescribe" means *any person authorized by the state law to so prescribe and who is currently licensed by the respective state licensing authority.* (59 O.S. 1991, § 353.1)

"Licensed health care provider" means any person who is the holder of a current license or certification issued pursuant to the laws of this state authorizing such person to practice as a:

- (A) licensed medical doctor, osteopathic physician, podiatric physician or physician assistant pursuant to the Oklahoma Medical Practice Act, Oklahoma Osteopathic Practice Act, or the Oklahoma Podiatry Act;
- (B) registered nurse licensed pursuant to the Oklahoma Nursing Practice Act;
- (C) registered dietitian licensed pursuant to the provisions of the Licensed Dietitian Act;
- (D) registered pharmacist licensed pursuant to the Oklahoma Pharmacy Act;

"Medical equipment" means non-disposable/durable equipment used to treat diabetes.

"Medical nutrition therapy" means the assessment of patient nutritional status followed by therapy including diet modification, planning and counseling services which are furnished by a registered licensed dietitian.

"Medical supplies" means disposable supplies used to treat diabetes.

"Prescription" means and includes *any order for drug or medical supplies written or signed or transmitted by word of mouth, telephone or other means of communication by a legally competent practitioner with prescribing authority, licensed by law to prescribe such drugs and medical supplies intended to be filled, compounded, or dispensed by a registered pharmacist.* (59 O.S. 1991, § 353.1)

"Prescription drug" means a *drug which, under federal law, is required prior to being dispensed or delivered, to be labeled with the following statement, "Caution: Federal law prohibits dispensing without prescription," or a drug which is required by any applicable federal or state law or regulation to be dispensed on prescription only or is restricted to use by practitioners only.* (59 O.S. 1991, § 353.1)

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-1-3. Qualifications

A licensed health care provider qualified for conducting diabetes self-management training shall have recent didactic and clinical continuing education on diabetes management and shall be able to demonstrate expertise in diabetes education principles and behavioral strategies. Certified Diabetes Educator status meets all of these standards.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-1-4. Enforcement

Any complaints against a health maintenance organization shall be submitted to the Oklahoma State Department of Health. Any complaints against other insurance plans shall be submitted to the Oklahoma Insurance Commissioner.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

SUBCHAPTER 3. SERVICE PROVISIONS

310:590-3-1. Equipment, supplies, and appliances to treat diabetes

When deemed medically necessary and upon prescription or diagnosis by a physician or health care provider with prescribing authority working under the supervision of a physician, all individual or group health insurance defined by statute and or governed by the Oklahoma Insurance Commissioner or other appropriate statutory state agency as defined by statute must reimburse/cover the following equipment, appliances, insulin, prescriptions, drugs, and supplies:

- (1) Blood glucose monitors, which includes all commercially available blood glucose monitors designed for patient use and for persons who have been diagnosed with diabetes.
- (2) Blood glucose monitors to the legally blind which includes all commercially available blood glucose monitors designed for patient use with adaptive devices and for persons who are legally blind and have been diagnosed with diabetes.
- (3) Test strips for glucose monitors, which includes test strips whose performance shall achieve the standards of the American College of Pathology, glucose control solutions, lancet devices and lancets for monitoring glycemic control.
- (4) Visual reading and urine testing strips, which includes visual reading strips for glucose, urine testing strips for ketones, or urine test strips for both glucose and ketone. Urine test strips for glucose only are not acceptable as the sole method of monitoring.
- (5) Insulin, which includes all commercially available insulin preparations including insulin analog preparations available in either vial or cartridge.

- (6) Injection aids, which includes devices used to assist with insulin injection.
- (7) Syringes, which includes insulin syringes, pens-like insulin injection devices, pen needles for pen-like insulin injection devices and other disposable parts required for insulin injection aids.
- (8) Insulin pumps as prescribed by the physician and appurtenances thereto, which includes insulin infusion pumps and supplies such as skin preparations, adhesive supplies, infusion sets, cartridges, batteries and other disposable supplies needed to maintain insulin pump therapy. Includes durable and disposable devices used to assist in the injection of insulin.
- (9) Oral agents for controlling the blood sugar level which are prescription drugs.
- (10) Podiatric appliances for prevention of complications associated with diabetes, which includes therapeutic molded or depth-inlay shoes, replacement inserts, preventive devices, and shoe modifications for prevention and treatment.
- (11) Glucagon Emergency Kits or injectable glucagon.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-3-2. Related provider services

When deemed medically necessary and upon prescription or diagnosis by a physician or health care provider with prescribing authority working under the supervision of a physician, all individual or group health insurance defined by statute and or governed by the Oklahoma Insurance Commissioner or other appropriate statutory state agency as defined by statute shall reimburse/cover the following related provider services:

- (1) insulin and prescription drugs including oral-glucose lowering agents, antihypertensive and lipid lowering agents and other medications for delaying or preventing both acute and chronic complications;
- (2) medical nutrition therapy recommendations and instructions by a registered, licensed dietitian;
- (3) self-glucose monitoring instruction by a licensed, registered health care professional;
- (4) foot examination annually;
- (5) annual screening dilated eye examinations by an eye physician for persons with diabetes;
- (6) glycohemoglobin determination done as frequently as necessary to assess and achieve near normal glycemia;
- (7) recommendations for appropriate life-style changes including smoking cessation, exercise, and stress management;
- (8) lipid profile upon diagnosis for adults and annually thereafter. If lipid profile is abnormal and the person with diabetes is on a lipid lowering therapy, a lipid profile shall be done as frequently as necessary to assess and achieve the desired lipid level. Children shall have a lipid profile once glucose control has been

established; and
(9) screening microalbumin annually.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-3-3. Podiatric health care provider services

When determined as medically necessary for the prevention of lower extremity complications and upon referral by a physician, all individual or group health insurance defined by statute shall reimburse/cover as defined by statute the following, but not limited to, podiatric health care provider services:

- (1) fitting of therapeutic molded or depth-inlay shoes, replacement inserts, preventive devices, and shoe modifications;
- (2) callus and nail trimming;
- (3) complex evaluation of sensory loss; and
- (4) treatment of ulcer with total contact casting.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-3-4. Diabetes self-management training

(a) When deemed medically necessary and prescribed by a physician or health care provider with prescribing authority working under the supervision of a physician diabetes self-management training shall be covered by individual and group health insurance policies as defined by statute.

(b) The diabetes self-management training process shall comply with the standards as defined in this chapter and documentation shall be issued upon successful completion of the training by the licensed health care provider/diabetes educator.

(c) Individual and group insurance policies as defined by statute shall provide coverage for medical nutrition therapy relating to diet, caloric intake, and diabetes management, but shall exclude programs whose only purpose is weight reduction.

(d) The diabetes self-management training process may be conducted, but not limited to settings such as in-patient, out-patient, office, community, or home and as individual or group sessions.

(e) Diabetes self-management training visits shall include, but not limited to:

- (1) the diagnosis of diabetes;
- (2) a significant change in the patient's diabetes symptoms or condition; or
- (3) re-education or refresher training.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

310:590-3-5. Standards for diabetes self-management training

When deemed medically necessary and prescribed by a physician or health care provider with prescribing authority working under the

supervision of a physician diabetes self-management training shall be covered by individual and group health insurance policies as defined by statute. The diabetes education process for self-management training shall include the following standards.

(1) **Needs assessment.** The licensed health care provider/diabetes educator shall conduct an individualized educational needs assessment with the participation of the patient, family or support systems to be used in the development of the educational plan and interventions. The educational needs assessment shall include, but is not limited to the following:

- (A) Health history;
- (B) Medical history;
- (C) Previous use of medication;
- (D) Diet history;
- (E) Current mental health status;
- (F) Use of health care delivery system;
- (G) Life-style practices such as occupation, education, financial status, social, cultural, religious practices, preventive behaviors;
- (H) Physical and psychological factors including age, mobility, visual acuity, hearing acuity, manual dexterity, alertness, attention span, and ability to concentrate;
- (I) Barriers to learning such as education, literacy level, perceived learning needs, motivation to learn, and attitude;
- (J) Family and social support; and
- (K) Previous diabetes education, including actual knowledge and skills.

(2) **Education plan.** The licensed health care provider/diabetes educator shall develop a written education plan from information obtained in the needs assessment and that includes the following:

- (A) Desired patient outcomes;
- (B) Measurable, behaviorally stated learner objectives; and
- (C) Instructional methods.

(3) **Education intervention.** The licensed health care provider/diabetes educator shall create an educational setting conducive to learning with adequate resources such as space, teaching and audio-visual aids to facilitate the educational process and use a planned content outline. The content outline shall be provided based on the needs assessment:

- (A) Diabetes pathophysiology;
- (B) Stress and psychological adjustment;
- (C) Family involvement in disease management;
- (D) Medical nutrition therapy;
- (E) Exercise and physical activity;
- (F) Medications;
- (G) Blood glucose monitoring and use of results;
- (H) Diabetes management which is the relationship between nutrition, exercise, medication, and blood glucose levels;

- (I) Prevention, detection and treatment of acute complications;
- (J) Prevention, detection and treatment of chronic complications;
- (K) Foot, skin, and dental care;
- (L) Behavior change strategies, goal setting, risk factor reduction, and problem solving;
- (M) Benefits, risks, and management options for improving glucose control;
- (N) Uses of health care systems and community resources; and
- (O) Preconception care, pregnancy and gestational diabetes.

(4) **Evaluation of learner outcomes.** The licensed health care provider/diabetes educator shall review and evaluate the degree to which the person with diabetes is able to demonstrate diabetes self-management skills as identified by behavioral objectives.

(5) **Plan for follow-up for continuing learning needs.** The licensed health care provider/diabetes educator shall review the educational plan and recommend any additional educational interventions to meet continuing learning needs.

(6) **Documentation.** The licensed health care provider/diabetes educator shall completely and accurately document the educational experiences provided.

[Source: Added at 14 Ok Reg 943, eff 1-8-97 through 7-14-97 (emergency); Added at 14 Ok Reg 3140, eff 7-25-97]

CHAPTER 599. ZOONOTIC DISEASE CONTROL

[Authority: 63 O.S., § 1-508]

[Source: Codified 6-11-98]

SUBCHAPTER 1. GENERAL PROVISIONS

310:599-1-1. Purpose

Pursuant to the authority contained in 63 O.S. 1991, Section 1-508 et seq., the purpose of these sections is to protect the public health by establishing uniform rules for the prevention and control of zoonotic diseases in the state of Oklahoma.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98]

310:599-1-2. Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise:

"**10 day**" means a minimum of 240 hours.

"**30 day**" means a minimum of 720 hours.

"**Animal**" means any warm-blooded mammal.

"**Booster Vaccination**" means for the purposes of rabies control, a booster vaccine is a United States Department of Agriculture (USDA)-licensed rabies vaccine for a designated species that follows a primary dose of a USDA-licensed rabies vaccine given by or under the supervision of a licensed veterinarian.

"**Cat**" means any *Felis catus*.

"**Currently vaccinated**" means properly immunized by or under the supervision of a licensed veterinarian with an antirabies vaccine licensed and approved by the USDA for use in that animal species, or meeting conditions specified in OAC 310:599-3-8. Vaccine must have been given at appropriate time interval(s) for the age of the animal and type of vaccine administered. Within 28 days after initial vaccination, a peak rabies antibody titer is expected, and the animal is considered immunized. Regardless of the age of the animal at initial vaccination, a booster vaccination should be administered one year later, then at appropriate time intervals based on the type of vaccine administered.

"**Department**" means the Oklahoma State Department of Health.

"**Department designee**" means an employee of the Oklahoma State Department of Health, or a county health department, who is acting within their scope of rabies control authority designated through the Commissioner of Health.

"**Dog**" means any *Canis familiaris*, excluding hybrids.

"**Domestic animal**" means a companion animal including dogs, cats, and ferrets; an equine animal; or a livestock animal.

"**Euthanize**" means the humane killing of an animal generally performed by a veterinarian, or personnel at an animal control facility under the indirect supervision of a veterinarian.

"Exposure to rabies" means a bite or introduction of saliva or neural tissue into open cuts in skin, or onto mucous membranes by an animal confirmed or suspected of being infected with rabies.

"Ferret" means any *Mustela putorius furo*.

"First party ownership" means a situation where the owner of a biting animal is directly related to the bite victim, that is parent-child, sibling-sibling, grandparent-child; or when the legal residence of the animal owner and the bite victim are the same.

"Home quarantine" means confinement and observation of an animal allowed at the animal owner's property for a specified time period, where one of the following acceptable methods of confinement for a dog are used: (a) complete indoor housing, (b) caging or kenneling in an enclosure with a securely latched door, or (c) yard confinement with perimeter fencing that the dog is unable to climb over or dig under. Acceptable methods of confinement for a cat or ferret are: (a) complete indoor housing, or (b) caging in an enclosure that prevents escape. The animal's needs for ambient temperature control, water, nutrition, elimination, and space to comfortably stand up and lie down must be adequately provided by the selected confinement method. Should the animal exhibit neurologic signs, die, or disappear during the specified period, an Oklahoma licensed veterinarian and the Department shall be immediately notified.

"Hybrid" means an offspring of wild animals crossbred to domestic dogs or cats; considered to be wild animals in the enforcement of OAC 310:599.

"Quarantine" means physical confinement of an animal during a specified time period when the animal is monitored for the development of disease. During this time period, the animal is prevented from having contact with other animals, and human contact is limited to as few caretakers as possible.

"Rabies" means an acute disease of humans and warm-blooded mammals caused by the rabies virus (genus *Lyssavirus*) that affects the central nervous system and is almost always fatal.

"Recognized animal control facility" means any facility operating for the purpose of stray animal control and/or animal welfare that is under contract or letter of agreement which identifies a licensed veterinarian responsible for animal quarantines.

"Recognized zoological park" means any member of the American Association of Zoological Parks.

"Severe injury" means any physical injury that results in broken bones or lacerations requiring multiple sutures or cosmetic surgery. [4 O.S. Supp. 1991, § 44 (3)]

"Wild animal" means an animal considered as wildlife; any animal not normally adapted to live in intimate association with humans nor raised for consumption by humans.

"Zoonotic disease" means a disease that is transmissible from animals to humans under natural conditions.

310:599-1-3. Disposal of remains of a disease suspect animal

When a veterinarian provides the service of head removal and preparation of any animal specimen for testing of a zoonotic disease regulated under this chapter, it shall be the responsibility of the veterinarian to properly dispose of the body remains of the disease suspect animal in a manner that will prevent any potential future exposure by any person or other animal to that animal's tissues. The veterinarian is entitled to charge and collect the usual and customary fees for the disposal service.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98]

310:599-1-4. Responsibility for costs incurred

Payment of fees incurred for daily boarding, euthanasia, preparation and transport of specimens for laboratory testing, or any other costs incurred to comply with Chapter 310:599 shall be the responsibility of the person or entity owning, keeping, or harboring the animal. If the animal is a stray or wild animal without a custodian, the bite victim or their legal guardian, shall be responsible for payment.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98]

310:599-1-5. Verifiable rabies vaccination

The following are methods of confirmation for verifiable rabies vaccination. A verifiable rabies vaccination means that the custodian has one of the following to confirm that the animal(s) in question has been administered a rabies vaccination as specified in OAC 310:599-3-8.

(1) Provide a NASPHV Form 51 or equivalent issued for each animal rabies vaccine by the veterinarian responsible for administration of the vaccine and which contains the following information:

- (A) Animal custodian's name, address and telephone number;
- (B) Animal identification: species, sex (including neutered status, if applicable), approximate age, size (pounds), predominate breed and colors;
- (C) Vaccine used-product name, manufacturer, and serial number;
- (D) Date vaccinated;
- (E) Revaccination due date;
- (F) Rabies tag number (if a tag is issued);
- (G) Veterinarian's signature, signature stamp or computerized signature, including address, contact number, and license number.
- (H) The custodian shall retain each rabies vaccination certificate until the animal receives a subsequent booster and shall produce the certificate upon request by any public health official, animal control, law enforcement, or peace officer when the request is part of the requester's official duty.

(2) Animal custodian provides direct contact information for the licensed veterinarian administering the rabies vaccination including, but not limited to, veterinarian's telephone contact information. The licensed veterinarian must be able to provide the NASPHV Form 51 or equivalent for each animal in question.

[Source: Added at 41 Ok Reg, Number 22, effective 8-11-24]

SUBCHAPTER 3. RABIES CONTROL

310:599-3-1. Management of dogs, cats, or ferrets that bite a person

(a) Any person or entity owning, harboring, or keeping a dog, cat or ferret which in the preceding ten (10) days has bitten any person, shall upon receipt of written notice by the local animal control authority or Department designee, place such animal in quarantine under the supervision of a licensed veterinarian for a period of ten (10) days from the date the person was bitten. The impoundment and observation of the dog, cat, or ferret shall be conducted at the veterinarian's facility, or a recognized animal control facility. Unvaccinated animals shall be vaccinated against rabies on the final day of the ten (10) day observation period prior to discharge from the veterinarian's supervision.

(b) Exceptions to this rule include the following circumstances:

(1) Dogs, cats, or ferrets involved in a first party ownership may be allowed to be placed in a home quarantine for a ten (10) day period immediately following the bite.

(2) Dogs, cats, and ferrets meeting the criteria of currently vaccinated against rabies, and not inflicting a severe injury, shall be placed in a home quarantine until the end of a ten (10) day period from the bite. In some instances, a certification of animal health obtained after examination by a licensed veterinarian on the tenth day may be required by the Department or local animal control authority.

(3) Animals in service to the blind or hearing-impaired, and search and rescue dogs or other animals used for police enforcement duties shall be exempt from the quarantine when a bite exposure occurs and verifiable rabies vaccination is presented. A certification of animal health obtained after examination by a licensed veterinarian at the end of ten (10) days may be required by the Department.

(4) Stray or unwanted dogs, cats, or ferrets that have bitten any person may either be quarantined for ten (10) days at a veterinary facility or a recognized animal control facility; or immediately euthanized and the brain, including brainstem, submitted to the Oklahoma State Department of Health designated rabies testing facility for rabies testing. If the animal is quarantined and not euthanized, upon successful completion of the ten (10) day period a stray animal may be placed for adoption at the discretion of the animal control authority.

- (5) Dogs, cats, and ferrets that bite a veterinarian or staff member under their supervision during a routine examination or elective procedure may be considered eligible for home quarantine if the bite victim and owner agree the animal will be examined by a licensed veterinarian at the end of the ten (10) day period from the bite to confirm the animal's health status.
- (6) In rare instances, other good and valid health reasons of the owner or animal may be considered for justification to home quarantine (e.g., a bitch with a litter of very young puppies, an animal with a contagious disease, etc.). Approval for home quarantine will be determined by the Department or its designee.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 17 Ok Reg 2945, eff 7-13-00 ; Amended at 34 Ok Reg 1290, eff 10-1-17 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:599-3-2. Supervising veterinarian's responsibility

It shall be the duty of the veterinarian in whose supervision the dog, cat, or ferret is placed to keep the animal isolated and secured in a separate cage or kennel and under observation for any symptoms of rabies. The veterinarian shall report immediately to the Department designee any changes occurring in the condition of the dog, cat, or ferret. In the event the animal being observed dies, or develops rabies-like symptoms within the specified period of confinement, the head of the animal shall be removed immediately to preserve the brain, including brainstem, for rabies testing and packed in a shipping container in accordance with instructions published on the rabies laboratory form and submitted to the Oklahoma State Department of Health designated rabies testing facility.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 34 Ok Reg 1290, eff 10-1-17 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:599-3-3. Severe bite wounds inflicted

In special circumstances involving a bite to any person, the Commissioner of Health, or a specifically designated representative, may require the immediate euthanasia of a specified animal for the performance of rabies diagnostics. "Special circumstances" refers to multiple and severe bite wounds, or deep punctures or lacerations to the face, head, or neck. Such requirement for euthanasia will be made following investigation of the bite report by the Department designee.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98]

310:599-3-4. Management of other animals that bite a human

(a) The final decision for animal destruction, quarantine, or other disposition of any animal other than a dog, cat, or ferret that bites a person, or otherwise potentially exposes a person to rabies shall be determined through the Department. The decision will consider, but not be limited to:

- (1) The epidemiology and risk of rabies in the species of animal in question;
 - (2) Possible prior exposure to a rabies vector;
 - (3) Behavior of the animal at the time of the bite;
 - (4) Prior rabies vaccinations; and
 - (5) Other circumstances that may exist.
- (b) In some situations, the Department will consider the initiative and willingness of the individual so exposed to submit to postexposure anti-rabies immunization after being adequately informed of all potential risks.
- (c) Any biting animal determined to be at significant risk for the transmission of rabies shall upon written order by the Commissioner of Health, or a specifically designated representative, be humanely killed and the brain, including brainstem, submitted to the Oklahoma State Department of Health designated rabies testing facility. .
- (d) If the animal is a not known to be a rabies reservoir in Oklahoma, the Department may order the quarantine of an animal, determined to be at very low risk for the transmission of rabies, for a thirty (30) day observation period as an alternate method to euthanasia and testing.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:599-3-5. Vaccinated domestic animals exposed to a rabid animal

Any domestic animal which is currently vaccinated against rabies and is exposed to a rabid animal shall be re-vaccinated within three (3) days of notification and isolated, by leashing or confinement under the owner's supervision, for a period of at least forty-five (45) days from exposure date.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 34 Ok Reg 1290, eff 10-1-17]

310:599-3-6. Unvaccinated domestic animals exposed to a rabid animal

- (a) Any dog, cat, or ferret that has never been vaccinated against rabies and is exposed to a rabid animal shall be:
- (1) Euthanized immediately either by a veterinarian of the owner's choice, or the local animal control officer; or
 - (2) Placed in strict quarantine and observed for a period of four (4) months for dogs and cats or six (6) months for ferrets under the supervision of a licensed veterinarian, either at a veterinary facility or a recognized animal control facility. The exposed animal shall be immediately vaccinated against rabies upon entry into quarantine and then given booster vaccinations at the third and eighth week of the quarantine period. For animals less than 16 weeks of age at the time of entry into rabies exposure quarantine, additional vaccinations may be necessary to ensure that the animal receives at least two vaccinations at or after the age prescribed by the USDA for the vaccine administered.

(b) Any dog or cat that is overdue for a booster vaccination, and has verifiable rabies vaccination documentation of receiving a USDA-licensed rabies vaccine at least once previously by or under the supervision of a licensed veterinarian, shall be re-vaccinated and isolated, by leashing or confinement under the owner's supervision, for a period of at least 45 days from exposure date. Ferrets that are overdue for rabies booster vaccination shall be evaluated on a case-by-case basis by the Department, taking into consideration factors such as the severity of exposure, time elapsed since last vaccination, number of previous vaccinations, and current health status to determine the need for euthanasia or immediate booster vaccination and isolation for a period of at least 45 days from exposure date.

(c) Any dog or cat that is overdue for a booster vaccination and without appropriate verifiable rabies vaccination documentation of having received a USDA-licensed rabies vaccine at least once by or under the supervision of a licensed veterinarian shall be:

(1) Treated as unvaccinated by the Department and either euthanized as described in (a) of this section; or

(2) Immediately given a booster vaccination and placed in strict quarantine for a period of four (4) months under the supervision of a licensed veterinarian and follow the vaccine scheduled described in (a) this section; or

(3) Alternatively, prior to rabies booster vaccination, the attending veterinarian may request guidance from the state public health authority in the possible use of prospective serologic monitoring. Such monitoring would entail collecting paired blood samples to document prior vaccination by providing evidence of an anamnestic response to booster vaccination. If an adequate anamnestic response is documented the animal can be considered to be overdue for booster vaccination and observed for forty-five (45) days from the time from exposure. If there is inadequate evidence of an anamnestic response the animal is considered unvaccinated and should be placed in strict quarantine and follow 310:599-3-6 for unvaccinated domestic animals.

(A) Dogs or cats eligible for serologic confirmation must remain in quarantine at the attending veterinarian's facility until results of the prospective serologic monitoring protocol have been verified and approved by the state public health authority.

(B) Dogs or cats eligible for serologic confirmation should receive a booster vaccination in accordance with the prospective serologic monitoring protocol.

(d) Any livestock or equine animal which is not currently vaccinated and is exposed to a rabid animal will be managed according to the most current Compendium of Animal Rabies Control published by the National Association of State Public Health Veterinarians, Inc. and any State Department of Agriculture guidelines that may apply.

310:599-3-7. Unvaccinated domestic animals exposed to a potentially rabid animal [EXPIRED]

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 through 7-14-98 (emergency)¹]

Editor's Note: ¹*This emergency action expired without being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the Section is no longer effective. Therefore, on 7-15-98 (after the 7-14-98 expiration of the emergency action), Section 310:599-3-7 was no longer effective. For the official text of the emergency rule that was in effect from 7-18-97 through 7-14-98, see 14 Ok Reg 3581.*

310:599-3-8. Record of recognized rabies vaccination

- (a) Record of vaccination by a veterinarian must be provided to determine the animal to be currently vaccinated against rabies. Veterinarians shall be required to keep a record of a rabies vaccination for a minimum period of five (5) years. This record must include: name, address, and telephone number of the owner of the animal; date of vaccination; animal identification; brand name of vaccine used, vaccine expiration date, and producer of vaccine.
- (b) Three year immunity conferred by the second or subsequent boosters with a three year rabies vaccine will be recognized in the enforcement of OAC 310:599.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:599-3-9. Administration of rabies vaccine

- (a) It is prohibited for anyone to administer rabies vaccine to any animal unless said vaccine is licensed for use in the particular animal species in question. Exceptions to this include:
- (1) The vaccination of wolf-dog hybrids with a rabies vaccine approved for dogs; or
 - (2) Use at recognized nonprofit zoological parks, or research institutions; or
 - (3) Special approval by the Commissioner of Health permitting the vaccination in a particular species where the preponderance of scientific literature suggests vaccine efficacy, and vaccine usage is determined to protect public health and safety.
- (b) Animals vaccinated per these exceptions will still be considered as a wild animal species if involved in a bite to a person, and will be handled according to OAC 310:599-3-4.
- (c) Rabies vaccines presently licensed are listed in the most current Compendium of Animal Rabies Control published annually by the National Association of State Public Health Veterinarians.

[Source: Added at 14 Ok Reg 3581, eff 7-18-97 (emergency); Added at 15 Ok Reg 2367, eff 6-11-98 ; Amended at 34 Ok Reg 1290, eff 10-1-17]

310:599-3-9.1. Required immunization of dogs, cats, and ferrets

(a) The owner or custodian of a domestic dog, cat, or ferret shall cause the animal to be vaccinated against rabies by the time the animal is four (4) months of age and at regular intervals thereafter according to the label directions of an approved rabies vaccine for use in that species, or as prescribed by ordinances or rules adopted by a municipality within whose jurisdiction the animal owner resides.

(b) A veterinarian who administers or supervises the rabies vaccination of a dog, cat, or ferret shall issue to the animal's owner/custodian a vaccination certificate that meets the minimum standards set forth in OAC 310:599-1-5. Animal identification including, but not limited to species, gender, age, and predominant breed and coloring must be indicated on the vaccination certificate.

310:599-3-12. Consumer notification required for over-the-counter rabies vaccine sales

Each supplier or retailer of over-the-counter (OTC) animal rabies vaccine for administration by any person other than a licensed veterinarian shall post notification to the consumer that only the records of a licensed veterinarian will be acceptable documentation of a rabies vaccination in the application of requirements in OAC Chapter 310:599. The standard written notice shall be obtained from the Department and posted directly over, or near the retail location of the OTC rabies vaccine in a manner that the text of the notice is easily visualized by consumers.

CHAPTER 600. ABORTION FACILITY REGULATIONS

Editor's Note: *From 7-10-98 through 12-15-98, the Oklahoma State Department of Health was enjoined from enforcing the rules in this Chapter. On 12-16-98, "Reproductive Services vs. Keating, et al.," Docket no. 98-CV-447-H (US. Dist. Ct., N. Dist. OK) was dismissed with prejudice against all defendants.*

[**Authority:** 63 O.S., § 737]
[**Source:** Codified 7-13-98]

SUBCHAPTER 1. GENERAL PROVISIONS

310:600-1-1. Purpose

The Chapter provides standards for abortions facilities under authority of the following laws: 63 O.S. Supp. 1997, Sections 1-705 and 1-737; and 75 O.S. Supp. 1997, Sections 250.1 through 323, (Administrative Procedures Act).

[**Source:** Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Abortion" means the purposeful termination of a human pregnancy, by any person with an intention other than to produce a live birth or to remove a dead unborn child {63 O.S. 1991 § 1-730}.

"Abortion facility" means a specialized hospital that provides abortions on an out-patient basis during the first trimester of pregnancy. The term abortion facility does not include licensed general medical surgical hospitals that provide abortions in addition to other procedures provided in the facility.

"Bed" means each procedure table, gurney, or recovery bed that may be occupied by patients undergoing or recovering from abortions.

"Department" means the Oklahoma State Department of Health.

"First trimester" means a period of a pregnancy measured from the first day of the last normal menses through the end of the fourteenth week or the first twelve (12) weeks of pregnancy as determined by physician examination.

"Governing body" means that person, persons, or legal entity legally responsible for the conduct of the abortion facility that carries out the functions of ownership and governance.

"Licensed practical nurse" means a person currently licensed to practice practical nursing in Oklahoma.

"Registered nurse" means a person currently licensed to practice registered nursing in Oklahoma.

[**Source:** Added at 15 Ok Reg 3172, eff 7-13-98]

SUBCHAPTER 3. LICENSES

310:600-3-1. Application for license

- (a) No person or entity shall operate an abortion facility without first obtaining a license from the Department.
- (b) The legal entity responsible for operation of the abortion facility shall be the applicant for the license.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-2. Fee for license

- (a) The fee for initial license shall be ten dollars (\$10.00) for each bed in the facility. No such fee shall be refunded unless the abortion facility is refused a license. The term of the initial license shall be twelve (12) months.
- (b) The fee for a renewal license shall be ten dollars (\$10.00) for each bed in the facility. The term of a renewal license shall be twelve (12) months.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-3. Deadlines for filing

The license application shall be filed in accordance with the following deadlines:

- (1) The application for an initial license of an abortion facility in operation upon the effective date of this Chapter shall be filed within ninety (90) days of the effective date.
- (2) The application for an initial license of a new abortion facility shall be filed at least sixty (60) days before the facility begins operations.
- (3) The application for a renewal license shall be filed at least thirty (30) days before the expiration date of the current license.
- (4) No application shall be considered filed unless it is accompanied by the appropriate fee.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-4. Where to file

The application and the license fee shall be delivered or sent to the Department. The effective date shall be the date the application and fee are received.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-5. Forms

The applicant for a license shall file application forms as follows:

- (1) For an initial license the applicant shall file these forms:
Application for License to Operate an Abortion Facility and an

Operational Program Narrative.

(2) For renewal of an abortion facility license, the applicant shall file the Application for License to Operate an Abortion Facility and an Operational Program Narrative Update.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-6. Description of forms

The forms used to apply for an abortion facility license are the following:

- (1) The Application For License to Operate an Abortion Facility requests: The name and address of the facility; name, address, and type of the operating entity; number of beds; the administrator's name; and an affidavit attesting the signature of the applicant.
- (2) The Operational Program Narrative requests: A descriptive outlined narrative of facility operations.
- (3) The Operational Program Narrative Update requests: An update of the facility operation program narrative previously filed.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-3-7. Transfer or change of ownership

- (a) The license is not transferable or assignable.
- (b) If an abortion facility undergoes a change in the legal operating entity, the new entity that will operate the facility shall file an application for initial license sixty (60) days in advance of the change.
- (c) A sale of stock in an operating corporation or a sale of membership shares in a limited liability company operating entity shall not be considered a change in ownership if these sales do not result in a change in facility operations.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

SUBCHAPTER 5. APPROVAL OR DENIAL OF APPLICATION

310:600-5-1. Eligibility for license

An abortion facility filing an accepted application that has been determined to comply with this Chapter is eligible for a license.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-5-2. Application review

- (a) Within thirty (30) days after the application is filed, the Department shall notify the applicant if the abortion facility application is incomplete, accepted or denied.

- (b) If the application is incomplete, the applicant shall have thirty (30) days to file the requested clarifying or additional information. If the applicant fails to complete the application within thirty (30) days after notification of an incomplete application, the application shall be summarily dismissed by the Department.
- (c) If the application is denied, the applicant shall have thirty (30) days to respond to the Department's decision to deny the application. If the applicant adequately responds to the basis for the Department's denial within thirty (30) days, the Department will reconsider and may approve the application.
- (d) If the Department denies an application, the applicant may request a hearing pursuant to the Administrative Procedures Act and OAC 310:002.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

SUBCHAPTER 7. ENFORCEMENT

310:600-7-1. Inspections

Each abortion facility is subject to inspection by the Department. These inspections may be routine or conducted as a result of a complaint. Department staff shall have access to any facility or patient record. However, the Department shall not disclose the name of any patient treated in the facility or create a public record that identifies patients. During inspections, Department staff shall respect the privacy of patients and ensure patient confidentiality is maintained.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-7-2. Complaints

The Department shall investigate complaints that allege violations of this Chapter or statutory license provisions. The Department shall accept signed, written complaints from a patient, another treating physician, or an immediate family member.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-7-3. Adverse actions

The State Commissioner of Health may suspend or revoke any abortion facility license based on any of the following:

- (1) violation of any provisions of 63 O.S. 1991, § 1-701 et seq. or this Chapter;
- (2) permitting, aiding or abetting the commission of any illegal act in the licensed abortion facility; or
- (3) conduct or practices deemed by the Commissioner to be detrimental to the welfare of patients of the abortion facility.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-7-4. Hearings

Hearings shall be conducted in compliance with the Administrative Procedures Act and OAC 310:002.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-7-5. Appeals

A final order of the Commissioner of Health may be appealed as provided in the Administrative Procedures Act.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

SUBCHAPTER 9. OPERATIONAL PROGRAM NARRATIVE

310:600-9-1. Governance and administration

(a) Each abortion facility shall have an operational program narrative that has been approved by the governing body and accepted by the Department. The facility shall provide services as outlined by the narrative. If facility operations specified in the narrative are modified, the governing body and this Department shall approve the modifications before facility practices are modified.

(b) The narrative shall describe the following:

- (1) how the governing body is established by the legal operating entity;
- (2) the organizational structure of the body;
- (3) how member(s) are appointed and replaced;
- (4) the frequency of meetings; and
- (5) procedures for the governing body to approve, reapprove, delineate, restrict and deny privileges for physicians and other practitioners providing services in the facility.

(c) The narrative shall describe the process of appointing an administrator who shall be the governing body's on-site designee responsible for the conduct of all affairs of the abortion facility and who is answerable to the governing body for the day-to-day facility operation.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-9-2. Patient rights

The abortion facility shall protect and promote each patient's rights as specified in this section. Policies describing mechanisms by which patient rights are protected shall be formulated, approved by the governing body and followed by all staff. Policies shall include but not be limited to the following:

- (1) The right to receive confidential treatment in a safe environment from considerate professionals;
- (2) The right to be informed of the customary charges and acceptable method of payment for the procedure in advance;

- (3) The right to be fully advised in understandable terms of the nature of the procedure and possible complications in advance;
- (4) The right to receive professional counseling either in the facility or by referral before and after the abortion. Available counseling shall include information on alternatives to abortion and the availability of agencies or services to assist the patient; and
- (5) The right to be informed whether or not the attending physician has malpractice insurance coverage.
- (6) The right to file a grievance regarding care received and notification of who the patient shall contact at the facility to lodge a complaint.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-9-3. Staffing and personnel

- (a) The narrative shall specify facility staffing and stipulate staff approved to assist with procedures and to recover patients. Staffing for services provided shall be based on the volume of procedures performed and acuity level of the patients. Staffing shall ensure desired outcomes of care are achieved and negative outcomes are avoided. Registered nurses and licensed practical nurses providing services shall be identified in the narrative.
- (b) Training, continuing education, health examinations, job descriptions and performance appraisal requirements for staff providing patient care shall be stipulated.
- (c) The organization of physicians and practitioners with delineated privileges shall be described. The narrative shall explain methods used to recommend appointments and review clinical practice.
- (d) Security provisions and practices that ensure patient and staff safety shall be described. The narrative shall stipulate facility protocols and practices for any anticipated external or internal emergency. An evacuation plan and protocol shall be provided or described.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-9-4. Clinical services

- (a) The narrative shall describe all abortion procedures performed, equipment and supplies used for each procedure, and staff required to assist the physician. The narrative shall demonstrate the quantities of supplies, instruments, and equipment available in the facility are sufficient to provide emergency care and support the number of abortions performed on a daily basis.
- (b) Drugs and biologicals maintained and administered in the facility shall be specified in the narrative. The narrative shall describe how the facility complies with federal and state laws regarding drug storage, administration and accountability.
- (c) If the physician performing the abortion is not certified by the American Board of Obstetrics and Gynecology or the American Osteopathic Board of Obstetrics and Gynecology or an active board

eligible candidate for certification in one (1) of the above, the narrative shall stipulate the facility protocols in place to assure consultation from a physician with these qualifications when required.

(d) Anesthesia services provided in the facility shall be fully described. The narrative shall stipulate the qualifications of the staff administering the anesthesia, if these individuals are supervised, and the level of service they are approved to deliver. The narrative shall demonstrate required services are provided by competent individuals in compliance with federal and state law as follows:

(1) An orderly preoperative anesthetic risk evaluation is to be done by the responsible physician and recorded on the chart in all elective cases, and in urgent emergency cases, the anesthetic evaluations will be recorded as soon as feasible.

(2) Every patient receiving general anesthesia, spinal anesthesia, or managed intravenous anesthesia (i.e. local standby, monitored anesthesia or conscious sedation), shall have arterial blood pressure and heart rate measured and recorded at least every five (5) minutes where not clinically impractical, in which case the responsible physician may waive this requirement stating the clinical circumstances and reasons in writing in the patient's chart.

(3) Every patient shall have the electrocardiogram continuously displayed from the induction and during maintenance of general anesthesia. In patients receiving managed intravenous anesthesia, electrocardiographic monitoring should be used in patients with significant cardiovascular disease as well as during procedures where dysrhythmias are anticipated.

(4) During all anesthetics, patient oxygenation will be continuously monitored with a pulse oximeter, and, whenever an endotracheal tube is inserted, correct positioning in the trachea and function will be monitored by end-tidal CO₂ analysis (capnography) throughout the time of placement.

(A) Additional monitoring for ventilation will include palpation or observation of the reservoir breathing bag, and auscultation of breath sounds.

(B) Additional monitoring for circulation will include at least one of the following: Palpation of the pulse, auscultation of heart sounds, monitoring of a tracing of intra-arterial pressure, pulse plethysmography, or ultrasound peripheral pulse monitoring.

(5) When ventilation is controlled by an automatic mechanical ventilator, there shall be in continuous use a device that is capable of detecting disconnection of any component of the breathing system. The device must give an audible signal when its alarm threshold is exceeded.

(6) During every administration of general anesthesia using an anesthesia machine, the concentration of oxygen in the patient's breathing system will be measured by a functioning oxygen analyzer with low concentration audible limit alarm in use.

(7) During every administration of general anesthesia, there shall be readily available a means to measure the patient's

temperature.

(8) Availability of qualified trained personnel dedicated solely to patient monitoring.

(9) These desiderata apply for any administration of anesthesia, including general, spinal, and managed intravenous anesthetics (i.e. local standby, monitored anesthesia or conscious sedation), administered in designated anesthetizing locations and any location where conscious sedation is performed. "Conscious sedation" means a minimally depressed level of consciousness that retains the patient's ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command, produced by a pharmacologic or non-pharmacologic method, or a combination thereof.

(10) In emergency circumstances in any situation, immediate life support measures can be started with attention returning to these monitoring criteria as soon as possible and practical.

(e) The maintenance of adequate sterile supplies and linens shall be described. If the facility sterilizes instruments and supplies, the narrative shall indicate how sterilization is achieved, maintained, and documented. The procedure for linen procurement, storage, and processing shall be defined.

(f) The narrative shall describe how informative, timely, confidential, and complete medical records are documented, filed, and maintained for each patient as required by state law. The composition of a complete record shall be described.

(g) The availability of clinical laboratory services required by physicians performing abortions shall be indicated. The narrative shall stipulate clinical laboratory services, including tissue examinations, are provided by laboratories possessing a current certificate appropriate for the extent of testing required issued by the Department of Health and Human Services.

(h) The narrative shall ensure that patients are informed of birth control methods that may be used after the procedure, advised of diseases that are sexually transmitted, and provided instructions regarding possible complications and activities to be avoided. The instructions shall include information on how to contact the attending physician or abortion facility should a complication arise. The instructions shall also specify when the patient shall return for follow-up care.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-9-5. Quality assessment and performance improvement

(a) The narrative shall indicate the abortion facility has developed a quality assessment and performance improvement program that is effective, data-driven, and implements actions that result in improvements in patient care. The program shall assess patient care, staff performance, complaints and grievances, diagnostic and therapeutic services, medication and anesthesia administration, emergencies, safety issues, clinical records, complications, infection control, errors in

diagnosis, and problems complying with this Chapter or other federal, state or local laws. The program shall measure, analyze, and track quality indicators or other measures of performance and recommend actions that improve care to the governing body.

(b) Facility infection control shall be an integral part of the quality assessment and performance improvement program described in the narrative. Infection control procedures shall indicate a sanitary environment is maintained, transmission of infections and communicable diseases is avoided, and post procedure infections are tracked.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-9-6. Examinations, tests and procedures

In addition to the provisions specified individually in each facility's operational program narrative, each abortion facility shall comply with the following:

- (1) Each patient shall have a medical history and physical including pelvic examination recorded by the physician performing the abortion prior to the procedure. The physician shall determine and document the duration of gestation, identify preexisting medical or other complications, and observe any factors which may influence the choice of the procedure, anesthesia, or care provided.
- (2) Not more than seventy-two (72) hours prior to the procedure, each patient shall receive clinical laboratory testing which shall include a hemoglobin and/or hematocrit, Rh type, and pregnancy test.
- (3) All tissue removed during the abortion shall be examined by a physician and stored in ten (10) percent formalin for thirty (30) days or until after the follow-up examination. If the attending physician orders a pathological examination, the tissue shall be examined by a physician who is certified in anatomical pathology by the American Board of Pathology or American Osteopathic Board of Pathology or by a physician who is an active candidate for certification by these boards.
- (4) After the follow-up examination or thirty (30) days, tissue not maintained for additional microscopic examination removed during the abortion shall be disposed of in an incinerator designed and approved for the disposal of pathological specimens. The abortion facility may accept a written statement from the pathologist attesting the tissue has been properly incinerated.
- (5) Anti-Rh immune globulin therapy shall be given to Rh negative patients that are candidates for the therapy upon completion of the abortion procedure. If the patient refuses this therapy, the physician shall document the refusal in the medical record and if possible obtain the signature of the patient on an appropriate release.
- (6) All patients recovering from an abortion shall be released from the facility by order of a physician. A physician or licensed nurse shall remain in the facility until all patients are recovered and

released.

(7) Each facility shall maintain supplies and equipment for initial emergency medical care of problems that may arise in the facility (e.g. bleeding, shock, disseminated intravascular coagulations, seizures, and respiratory and cardiac arrest). The equipment and supplies shall be immediately available to the procedure and recovery room.

(8) Emergency drugs, oxygen, and intravenous fluids shall be available in the procedure and recovery room. A manual breathing bag, suction machine, and endotracheal equipment shall be located for immediate access.

(9) Each facility shall establish a written protocol for the transfer of patients requiring emergency treatment that can not be provided on-site. The protocol shall include procedures to contact the local ambulance service and expedite the transfer to the receiving hospital. Appropriate clinical patient information shall be provided to the receiving facility. If the attending physician does not have admitting privileges at a local general hospital, the physician shall attest arrangements have been made with a physician having hospital privileges to receive emergency cases.

SUBCHAPTER 11. PHYSICAL PLANT

310:600-11-1. Facility design and construction

(a) The operational program narrative shall include scaled drawings of facility construction. The drawings shall locate and identify the following:

- (1) An entrance, located at grade level, able to accommodate wheelchairs.
- (2) A reception and waiting area, and information counter or desk.
- (3) Conveniently accessible public toilet.
- (4) Conveniently accessible public telephone.
- (5) Interview space(s) for private interviews related to social service, credit, and counseling.
- (6) Secure general or individual office(s) for business transactions, records, administrative, and professional staff.
- (7) Clerical space or rooms separated from public areas for confidentiality.
- (8) Storage space for staff personal effects with locking drawers, cabinets or desks near individual work-stations that are staff controlled.
- (9) General storage facilities for supplies and equipment needed for continuing operation.
- (10) General purpose examination room(s) equipped to perform pelvic and medical examinations. Rooms shall have a minimum floor area of eighty (80) square feet, excluding vestibules, toilets, and closets. Room arrangement shall permit at least two (2) feet

and eight (8) inches clearance at each side and at the foot of the examination table. A handwashing fixture and counter or shelf for writing shall be provided.

(11) Nurses station(s) with work counter, communication system, space for supplies, and provisions for charting.

(12) Drug distribution station which may be part of the nurse station but shall include a work counter, sink, refrigerator, and locked storage for biologicals and drugs.

(13) A separate clean storage room or closet for storing clean and sterile supplies. This area shall be in addition to cabinets and shelves.

(14) A soiled holding area for separate collection, storage, and disposal of soiled materials.

(15) A sterilizing room or area if instruments and supplies are sterilized on-site. If sterilizing is accomplished off-site or if disposable sterile supplies are used, the facility shall provide a system for processing and storage.

(16) Wheelchair storage space out of the direct line of traffic.

(17) Procedure room(s) with a minimum area of one hundred forty-four (144) square feet, exclusive of vestibule, toilets, or closets. The minimum room dimension shall be twelve (12) feet. A handwashing fixture and counter or shelf for writing shall be provided. The sink may be within the procedure room or immediately outside. An emergency communication system connected to the nurse station shall be provided.

(18) A designated supervised recovery patient lounge. This lounge shall contain a control station, space for family members, and provisions for privacy. It shall have convenient patient access to toilets large enough to accommodate a patient and an assistant. Handwashing and nourishment facilities shall be included.

(19) Clothing change areas for staff which shall contain lockers, toilets, lavatories for handwashing.

(20) A housekeeping room containing a floor receptor or service sink and storage space for housekeeping supplies and equipment.

(b) The Department shall review the scaled drawings for compliance and return the drawings to the facility upon licensure.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-11-2. Construction drawings

(a) The construction drawings submitted with the operational program narrative shall indicate the following:

(1) Separation and access to the abortion facility is maintained as described by National Fire Protection Association code 101,1997 edition, if the facility is part of another building. Building entrances used to reach the abortion facility shall be at grade level, clearly marked, and located so that patients need not go through other activity areas. Lobbies of multi-occupancy buildings maybe shared. Design shall preclude unrelated traffic within the abortion facility.

- (2) Facility design ensures patient audible and visual privacy and dignity during interviews, examinations, procedures and recovery.
 - (3) Provisions for convenient access to and use of emergency equipment.
 - (4) Ceilings and walls in the procedure room are readily washable.
 - (5) Toilet rooms in recovery areas for patient use are equipped with doors and hardware that permit access from the outside in emergencies. When such rooms have only one opening or are small, the doors shall open outward or be otherwise designed to open without pressing against a patient who may have collapsed within the room.
 - (6) The building has an elevator with a minimum car inside floor dimension of not less than five (5) feet, if the abortion facility is located above or below the ground floor level of a multi-story building.
 - (7) Airflow and exhaust are controlled to ensure movement of air from clean to less clean areas to maintain asepsis control.
- (b) An abortion facility built after the effective date of this Chapter shall comply with National Fire Protection Association code 101, 1997 edition, Chapter 26, "New Business Occupancies," which is incorporated by reference. (c) An abortion facility existing at the time of the effective date of this Chapter shall comply with National Fire Protection Association code 101, 1997 edition, Chapter 27 "Existing Business Occupancies," which is incorporated by reference. (d) The Department shall return construction drawings to the facility upon licensure.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

SUBCHAPTER 13. FEDERAL, STATE AND LOCAL LAWS

310:600-13-1. Licensure or registration of personnel

Staff of the facility shall be licensed or registered in accordance with applicable federal, state and local laws.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-13-2. Conformity with other laws

The facility shall conform with all applicable federal, state, and local laws including but not limited to the following:

- (1) fire safety or building codes;
- (2) communicable and reportable diseases;
- (3) occupational health and safety matters for employees and staff; and
- (4) hazardous and infectious waste disposal.

[Source: Added at 15 Ok Reg 3172, eff 7-13-98]

310:600-13-3. Reporting of procedures

Each attending physician performing an abortion shall complete a form documenting all medical facts pertinent to the procedure and other personal facts volunteered by the patient or the physician, pursuant to 63 O.S. Supp. 1997, Section 1-738. The facility shall forward all such reports to the Department monthly. The report shall be confidential and shall not contain the name of the patient.

CHAPTER 605. ADULT DAY CARE CENTERS

[Authority: 63 O.S., §§ 1-104 et seq. and 1-870 et seq.]

[Source: Codified 6-11-92]

SUBCHAPTER 1. GENERAL PROVISIONS

310:605-1-1. Purpose

The standards in this Chapter are promulgated, as provided for by the Adult Day Care Act (Title 63 O.S. Section 1-870 et seq.) to establish criteria for issuance or renewal of an adult day care center license. These standards also provide the criteria which will be used in enforcing the provisions of the Act as deemed necessary, and to carry out its purpose which is to:

- (1) Provide a protective social environment which may include health remedial, restorative, and social services designed to maintain maximum independence and to prevent premature or inappropriate institutionalization of functionally impaired elderly or disabled adults.
- (2) Provide periods of relief for family caregivers, sometimes called respite care, to enable them to continue caring for an impaired person at home.
- (3) Enable family caregivers to continue gainful employment.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 18 Ok Reg 2492, eff 6-25-01]

310:605-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Adult Day Care Aide" means an individual who has met the state qualifications for certification and who assists the professional staff members in the implementation of the programs and services of the center, and has completed an orientation program provided by the center.

"Adult Day Care Center" or **"center"** *means a facility which provides basic day care services to unrelated impaired adults for more than four (4) hours in a twenty-four-hour period. A center shall be a distinct entity, either freestanding or a separate program of a larger organization. A center shall have a separately verifiable staff, space, budget and participant record system. The terms "adult day care center" or "center" shall not include retirement centers and senior citizen centers [63:1-872].*

"Adult Day Care Provider" means the person, corporation (for profit or not for profit), partnership, association, or organization legally responsible for the overall operation of the adult day care center, who has a current license.

"Associated day care program" is an adult day care center which is physically attached with another organization established primarily to offer other services (such as medical care or long term care) but has

distinctly designated space and staff for an adult day care program which is in addition to the existing space and staffing requirements for the residents, patients, or clients.

"Basic Day Care Services" means supervised health, social supportive, and recreational services in a structured daytime program which serves functionally impaired adults who cannot take care of themselves who continues to live in their own homes, usually with the aid of family caregivers.

"Caregiver" means a person who is responsible for the care of the participant in the home.

"Case Manager" means an individual who is responsible for providing and/or coordinating individual and group counseling to participants and family or caregiver, and who assists the participant in obtaining needed resources within the community.

"Department" means the State Department of Health.

"Dietary or Food Service Supervisor" means an individual qualified by training or experience who is responsible for food service in the center.

"Direct Care Staff" means those staff (paid and volunteer) assigned to take care of the direct needs of participant.

"Free-Standing Adult Day Care Center" means a center which does not share staffing or licensed space or any physical components of space, equipment, furnishings, dietary, security, maintenance or utilities used in the provision of services with any other organization, or service.

"Functionally impaired adult" means an individual aged eighteen years or older who requires care and/or supervision.

"Medication Aide" means an individual who has received certification to administer medications from a program approved by the Department.

"Nurse" means a licensed practical nurse or registered nurse currently licensed in the State of Oklahoma.

"Participant" means a person who attends an adult day care center.

"Participant's Guardian" means a court appointed guardian.

"Participant's Representative" means an individual designated in writing by the participant to act as responsible party to act in his/her stead.

"Qualified Dietitian" means an individual who is registered as a dietitian by the American Dietetic Association, or has a baccalaureate degree with major studies in food and nutrition, dietetics, or food service management, has one year of supervisory experience in the dietetic service of a health care institution, and participates annually in continuing dietetic education.

SUBCHAPTER 3. RIGHTS

310:605-3-1. Participant rights

Each participant of the adult day care program shall be assured of the following rights:

- (1) To be treated as an adult, with respect and dignity regardless of race, color, or creed.
- (2) To participate in a program of services and activities which promote positive attitudes regarding ones usefulness and capabilities.
- (3) To participate in a program of services designed to encourage learning, growth, and awareness of constructive ways to develop ones interests and talents.
- (4) To maintain ones independence to the extent that conditions and circumstances permit, and to be involved in a program of services designed to promote personal independence.
- (5) To be encouraged to attain self-determination within the adult day care setting, including the opportunity to participate in developing ones care plan for services; to decide whether or not to participate in any given activity; and to be involved in the extent possible in program planning and operation.
- (6) To be cared for in an atmosphere of sincere interest and concern in which needed support and services are provided.
- (7) To have privacy and confidentiality.
- (8) To be free of mental and physical abuse.
- (9) To be free of restraint unless under physician's order as indicated in individual care plan.
- (10) To have access to telephone to make or receive calls, unless necessary restrictions are indicated in the individual care plan.
- (11) To be free of interference, coercion, discrimination or reprisal.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92]

SUBCHAPTER 5. LICENSURE REQUIREMENTS

310:605-5-1. License required

(a) It shall be unlawful to operate an adult day care center without possessing a current, valid license issued pursuant to the Adult Day Care Act. It shall be unlawful for any holder of a license issued pursuant to the Adult Day Care Act to advertise or hold out to the public that it holds a license for a center other than that for which it actually holds a license.

(b) *Centers to be licensed shall include all adult day care centers. Sheltered workshops and senior recreational centers which do not receive participant fees for services are not required to be licensed. It shall be unlawful to operate a center without first obtaining a license for such operation as required by the Adult Day Care Act, regardless of other licenses held by the operator. Organizations operating more than one center shall obtain a license for each site. [63:1-873.B]*

(c) *The license for operation of a center shall be issued by the State Department of Health. The license shall:*

- (1) Not be transferable or assignable;*
- (2) Be posted in a conspicuous place on the licensed premises;*
- (3) Be issued only for the premises named in the application; and*
- (4) Expire thirty-six (36) months from the date of issuance, provided an initial license shall expire one hundred eighty (180) days after the date of issuance. Licenses may be issued for a period of more than twelve (12) months, but not more than thirty-six (36) months, for the licensing period immediately following November 1, 2021, in order to permit an equitable distribution of license expiration dates to all months of the year.[63:1-873.C(4)]*

(d) *The issuance or renewal of a license after notice of a violation has been sent shall not constitute a waiver by the State Department of Health of its power to subsequently revoke the license or take other enforcement action for any violations of the Adult Day Care Act committed prior to issuance or renewal of the license. [63:1-873.F]*

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 18 Ok Reg 2492, eff 6-25-01 ; Amended at 39 Ok Reg 1337, eff 9-11-22]

310:605-5-2. Application for license or renewal

(a) An applicant for a license to operate an adult day care center must file an application on a form provided by the State Department of Health and pay an initial license fee of seventy-five dollars (\$75.00).

(b) Application for license renewal must be filed at least forty-five (45) days before the expiration date of the current license on a form approved by the Department and a license fee of seventy-five dollars (\$75.00) per year of licensure must be paid.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 18 Ok Reg 2492, eff 6-25-01 ; Amended at 39 Ok Reg 1337, eff 9-11-22]

310:605-5-3. Inspections

(a) The Department shall at least annually, and whenever it deems necessary, inspect each adult day care center to determine compliance with the Adult Day Care Act and rules and regulations promulgated thereto.

(b) Any licensee or applicant for a license shall be deemed to have given consent to any duly authorized employee or agent of the Department to inspect and enter the center in accordance with the Adult Day Care Act or rules promulgated thereto. Refusal to permit such entry or inspection may constitute grounds for the denial, nonrenewal, suspension or revocation of a license.

(c) A notice of violation shall be sent to any adult day care center when violations are cited as a result of an inspection. The center shall have ten (10) days after receipt of the notice of violation in which to prepare and submit a plan of correction. The plan of correction shall include a fixed time period not in excess of thirty (30) calendar days, within which the violations are to be corrected.

310:605-5-4. Sanctions

(a) The Department may deny, suspend, deny renewal, or revoke the license of an applicant or a licensed adult day care center which fails to comply with the licensing requirements and rules and regulations specified by the provisions of the Adult Day Care Act.

(1) The Department shall give a center thirty (30) days written notice that its license is to be suspended or revoked, and shall take action at the end of that time if the center is still out of compliance. However, if the health and safety of participants are threatened, the suspension or revocation shall be effective immediately, and the center closed.

(2) Holders of suspended or revoked licenses shall be entitled to a hearing before Department licensure officials if requested within ten (10) days of their notification. The hearing shall be held at least ten (10) days before final action is taken and conducted pursuant to the Administrative Procedures Act.

(3) Suspended licenses may be reinstated if deficiencies are corrected within a time frame established by the Department.

(b) Any person who has been determined to have violated any provision of the Adult Day Care Act or any rules, regulations, or order issued pursuant thereto may be liable for an administrative penalty of not more than five hundred dollars (\$500.00) for each day that said violation continues. The amount of the penalty shall be assessed by the Department, after notice and hearing. In determining the amount of the penalty, the Department shall include but not be limited to consideration of:

(1) the nature, circumstances, and gravity of the violation and, with respect to the persons found to have committed the violation, the degree of culpability.

(2) the effect on ability of the person to continue to do business.

(3) any show of good faith in attempting to achieve compliance with the provisions of the Adult Day Care Act.

(c) Any license holder may elect to surrender his/her license in lieu of said fine but shall be forever barred from obtaining a reissuance of said license.

(d) Any person who violates any of the provisions of the Adult Day Care Act, upon conviction shall be guilty of a misdemeanor. Each day upon which such violation occurs shall constitute a separate violation.

(e) The Attorney General or the district attorney of the appropriate district court of Oklahoma may bring an action in a court of competent jurisdiction for the prosecution of a violation by any person of a provision of the Adult Day Care Act or any rule, regulation, or order issued pursuant thereto.

(f) Enforcement of any action for equitable relief or redress or restrain a violation by any person of a provision of the Adult Day Care Act or for an injunction or recovery of any administrative or civil penalty assessed pursuant to the Adult Day Care Act may be brought by:

- (1) the district attorney of the appropriate district court of the State of Oklahoma.
 - (2) the Attorney General on behalf of the State of Oklahoma in the appropriate district court of the State of Oklahoma.
 - (3) the Department on behalf of the State of Oklahoma in the appropriate district court of the State of Oklahoma or as otherwise authorized by law.
- (g) The court has jurisdiction to determine said action, and to grant the necessary or appropriate relief, including but not limited to mandatory or prohibitive injunction relief, interim equitable relief, and punitive damages.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92]

SUBCHAPTER 7. ORGANIZATION AND ADMINISTRATION

310:605-7-1. Governing body and functions

- (a) The adult day care center shall have a governing body that has full authority and responsibility for operation of the center.
- (b) Centers owned and operated by a sole proprietor may be governed by a single person who assumes all the responsibilities of the governing body.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92]

310:605-7-2. Responsibilities

The governing body of an adult day care shall:

- (1) Ensure continual compliance and conformity with all relevant local, state, and federal laws and regulations.
- (2) Designate a center director who manages the center.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ;
Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-7-3. Lines of responsibility

- (a) There shall be a clear division of responsibility between the governing body and the adult day care director.
- (b) The director shall be given full authority and responsibility to plan, staff, direct, and implement the program for day to day operation of the center.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92]

310:605-7-4. Development of written policies and procedures

Written policies and procedures shall be developed by the center which include the following:

- (1) **Enrollment criteria.**
 - (A) Each center shall have enrollment policies.

(B) The written enrollment policies shall contain specific admission criteria to define the participants who can be served by the center.

(C) The center's enrollment policies shall prohibit enrollment of persons whose needs exceed the capability of the center's program, and persons excluded by the Adult Day Care Center Act.

(2) **Hours and days of operation.** The center shall establish policies and procedures covering the hours and days of operation.

(3) **Rates and payments.** The center shall establish policies and procedures governing rates and payments which include the following:

(A) Charges for basic services.

(B) Services that may be obtained on a fee basis, but are not included in the basic services.

(C) Public disclosure of the above.

(4) **Types of services provided.** The center shall have written policies and procedures which contain the range of services provided by the center, including specialized services, i.e., speech therapy, physical therapy, counseling, transportation, etc., and other services that may be arranged through the center with other resources within the community.

(5) **Medication storage and administration.** The center shall have written policies and procedures governing the storage, maintenance, and administration of medications as stated in section 310:605-13-2(2).

(6) **Admission and discharge.**

(A) **Admission.** The center's policies and procedures for admission and discharge of participants shall include, but not be limited to the following:

(i) An application for enrollment to be completed prior to or upon admission to the center.

(ii) The requirement for a current medical report and medical assessment by the participant's physician to be obtained within 5 working days of admission.

(B) **Discharges.** The written policies and procedures regarding discharge from the center shall include but not be limited to the following:

(i) Provision for emergency discharge of participant to other health care facilities or to caregiver when the health or safety of the participant or other participants is endangered.

(ii) Notice requirements and causes for involuntary termination of services to a participant.

(iii) Discharge planning in accordance with all requirements at 310:605-9-2.

(7) **Personnel policies and practices.** The center shall have written policies and procedures pertaining to personnel practices.

(8) **Personnel records system.** A personnel record shall be established for each employee and each volunteer counted in the

staffing ratio.

(9) **General record system.** Each center shall establish a general record system.

(A) Records of any incident or accident involving a participant shall be kept and maintained.

(B) Participant records for social services and medical information shall be maintained.

(C) All records may be kept and maintained electronically in a computer system and in a central storage location, accessible on site. A backup of the computer system shall be maintained.

(D) The employee and participant records shall be retained for not less than five years after the participant's discharge or employee's termination.

(10) **Emergency services.**

(A) Each center shall have written policies for handling emergencies involving participants or staff.

(B) The policies and procedures shall provide instruction on obtaining outside emergency services.

(C) The policies and procedures shall be designed to insure that the family member, caregiver, or responsible party designated in the participant's record is notified when an emergency occurs.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-7-5. Residential and visiting pets

Each center that permits residential or visiting pets shall have written policies and procedures regarding those pets. The center shall not allow any pet to reside in the center unless all of the following requirements are met:

(1) The pet is a dog, cat, fish, or bird. A center may establish a program which includes animals other than dogs, cats, fish, or birds if the center submits its policies, procedures, and program guidelines to the Department and receives written approval from the Department prior to implementation of the program.

(2) The center has no more than two (2) dogs or cats as residential pets unless the center has received prior approval from the Department as a stated special program pursuant to 310:605-7-5-(a) (1).

(3) The center's policy ensures non-disruption of the center.

(4) For each pet, the center has or provides the following:

(A) Proof of current rabies immunization and leptospirosis immunizations for dogs and cats administered by a veterinarian licensed to practice in Oklahoma;

(B) A statement from a veterinarian licensed to practice in Oklahoma certifying the pet is free from disease communicable to humans;

(C) Proof of evaluation by a veterinarian licensed in Oklahoma for presence of internal parasites on a semi-

annual basis and for the presence of external parasites as needed; and,

(D) A statement from a veterinarian licensed in Oklahoma certifying that each bird has been proven free of psittacosis.

(5) The pet's skin appears normal, and its coat is free of ectoparasites, matted hair, feces, and other debris.

(6) The center adopts a policy for control of pets to ensure that neither the pet nor the participants are in danger. If necessary, a pet shall be on a leash or harness, muzzled, caged, or in a container. A pet cage or container must not obstruct an exit or encroach on the required corridor width.

(7) Residential pets shall be the responsibility of the director's designated attendant.

(8) The center provides for the cleaning and disinfection of any area(s) contaminated by urination or excrement, and the center provides for the cleansing of aviaries, aquariums and fish bowls. The aquariums and fish bowls shall be monitored to prevent bacterial growth in the water.

(9) Residential dogs and cats shall not be allowed in the participants' areas after the hours of operation. Pets shall not be allowed in the kitchen, dining room or in areas used for food storage or preparation, dining, medication preparation or administration, or clean supply storage.

(10) The center shall arrange for care of the pet during periods outside of the center's normal operational hours, such as evenings, weekends, and holidays.

(A) The center may allow pets to visit the center. A visiting pet shall be under the control of the person who brought the pet into the center. The visiting pet's attendant shall adhere to the center's policies for residential pets.

(B) Section 310:605-7-5 does not supersede any local or state requirements regulating animals or pets.

[Source: Added at 14 Ok Reg 3144, eff 7-25-97 ; Amended at 16 Ok Reg 2513, eff 6-25-99 ; Amended at 18 Ok Reg 2492, eff 6-25-01 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

SUBCHAPTER 9. ADMISSIONS AND DISCHARGES

310:605-9-1. Admission

(a) A signed application for participation and current medical information shall be obtained. The medical information shall be obtained from or verified by the participant's physician and shall include the following:

- (1) Physician's name and telephone number.
- (2) Date of last visit.
- (3) Current illnesses or health problems.
- (4) Current medication.
- (5) Dietary restrictions, if any.

(b) A current medical report and a medical assessment by the participant's physician of the participant's medical condition shall be obtained within five (5) days of the participant's entry into the adult day care program.

(c) Each participant shall have an individualized written plan of care developed within ten (10) days following participant's entry into the adult day care program. The plan of care shall be reviewed at least every six (6) months and updated as warranted by changes in the participant's condition.

(d) If a participant is not under a physician's care nor is taking any medications, the center may substitute a nursing assessment by a registered nurse for the medical assessment required in subsection (b) of this Section. In this case, the center may also verify the medical information with family or friends of the participant. If the nursing assessment reveals medical problems, the participant shall not be admitted to the center without the medical assessment.

310:605-9-2. Discharge

(a) A participant, his or her family member, guardian, and/or representative shall be given a minimum of two weeks notice of the center's intent to terminate services to the participant unless continued attendance would infringe on the safety or well being of other participants or staff.

(b) There shall be a detailed report of circumstances leading to each unplanned discharge.

(c) Prior to a planned discharge of a participant, the staff shall develop an aftercare plan of supports and resources provided to the participant.

(d) A discharge summary to accompany a participant going to another center of health care shall include the needs of the participant, his/her medication history, social needs, and other data that will assist in his/her care at the new location.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

SUBCHAPTER 11. STAFFING REQUIREMENTS

310:605-11-1. Staffing requirements

Each adult day care center shall have a staff adequate in number, and appropriately qualified and trained to provide the essential services of the center.

(1) Each adult day care center shall have the following positions:

(A) A director who shall have the authority and responsibility for managing and implementing the day care program.

(B) An activity director.

- (C) A social services coordinator or case manager.
- (D) A dietary supervisor. Centers that are a part of larger organization which provides food service to the center, or centers that contract with an outside service for food service may employ a part time dietary supervisor.
- (2) Each center shall employ additional staff, such as nurses, therapists, consultants, drivers, etc., as needed.
- (3) Staff who serve in more than one staff position shall meet the minimum qualifications for each position served.
- (4) Centers that administer medication shall have a registered nurse (R.N.), licensed practical nurse (LP.N.), certified medication aide (CMA), or a medication administration technician (MAT) who has successfully completed a course of training in administration of medications approved by the Department. Monthly consultation by an R.N. or LP.N. shall be required for centers where medications are administered by a certified medication aide (CMA), or a medication administration technician.
- (5) Staff who have direct contact with participants shall be free of communicable disease.
- (6) Each center shall be in compliance with the criminal arrest check, training, examination, application, registration and certification requirements in 63 O.S. Section 1-1950.1, 1-1950.3, 1-1950.4, and 1-1951.
- (7) Each paid day care center staff person (professional or non-professional) shall arrange for an employment examination within 72 hours of employment which shall include but not be limited to a test for tuberculosis. All tests and examinations shall be in conformance with the 2019 Guidelines for preventing the transmission of *mycobacterium tuberculosis* in healthcare settings as published by the Centers for Disease Control and Prevention.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03 ; Amended at 37 Ok Reg 1420, eff 9-11-20]

310:605-11-2. Staff ratios

- (a) There shall be provided a sufficient number of direct care staff on duty at all times to meet the needs of each participant. There shall be a minimum of one full time equivalent direct care staff person for every eight (8) participants who are present and one (1) additional direct care staff person for a major portion of eight (8) additional participants present.
- (b) There shall be at least two (2) responsible persons at the center when participants are present; one shall be a staff member.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 11 Ok Reg 901, eff 12-17-93 (emergency); Amended at 11 Ok Reg 2635, eff 6-25-94 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-11-3. Staff qualifications

(a) **Director.** The Director shall have at a minimum a Bachelor's degree and one year supervisory experience in a social or health services setting, or a minimum of a high school diploma plus five consecutive years supervisory work experience (full-time or equivalent) in a long term care or geriatric setting.

(b) **Social Services Coordinator or Case Manager.** The social services coordinator or case manager shall have a minimum of a bachelor's degree, or a minimum of a high school diploma plus five consecutive years of work experience in a long term care or geriatric setting.

(c) **Nurse.** A nurse shall be a registered or a licensed vocation/practical nurse who is currently licensed by the State of Oklahoma and has experience working with the aging and chronically impaired adult.

(d) **Activities Director.** The activities director shall be qualified by training or experience in recreation or related area.

(e) **Dietary Supervisor.** A food service supervisor shall be qualified by training or experience.

(f) **Adult day Care Aide.** An Adult Day Care Aide who provides direct personal care services shall be Certified at least to the Adult Day Care level of nursing aide training.

(1) Each certified adult day care aide employed by the Center shall be in compliance with the criminal arrest check, training, examination, application, registration and certification requirements in 63 O.S. Section 1-1950.1, 1-1950.3, 1-1950.4, and 1-1951.

(2) The Center shall contact the Department's nurse aide registry prior to employing a nurse aide to determine whether the person is listed on the registry, and if there is a confirmed finding of abuse, neglect, or misappropriation of property.

(3) The Center shall ensure that the certification for each nurse aide is current.

(g) **Therapist.** Physical therapists, occupational therapists, recreational therapists, and speech therapists who provide services to the Center and/or its participants shall have valid state credentials. Staff may work independently under directions of the licensed therapist.

(h) **Consultant.** The individual consultant shall be available to provide services to the participant as prescribed by the physician in order to supplement professional staff. Consulting services may be done on an individual basis or by contract or written agreement with a community group source or individual.

(i) **Volunteers.** Volunteer staff who are counted in the staffing ratio shall be qualified by training and/or experience to perform duties and responsibilities required by the written job description.

(j) **Direct care.** Direct care paid staff shall be at least eighteen (18) years of age and qualified for the position held.

(k) **Driver.** Each driver shall have a valid and current state driver's license appropriate for the position, a safe driving record, and training in first aid and CPR.

310:605-11-4. Orientation and training

- (a) All staff, prior to performing job responsibilities, including non-direct care, direct care, and volunteers, shall be given a general orientation to the program, its policies, fire, safety, and emergency procedures.
- (b) In-service training for each staff person shall be provided quarterly.
- (c) Each staff member shall be competent, ethical, shall hold personal information regarding participants in confidence, and treat all participants with respect and dignity.
- (d) Documentation of attendance and content for all orientation and training shall be maintained by the center.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-11-5. Personnel records

Individual personnel records for both paid and volunteer staff counted in the staffing ratio shall include:

- (1) A valid form of photo identification;
- (2) Position title;
- (3) Job description;
- (4) Copies of license(s) or certification(s) of professional qualification(s) applicable to the position;
- (5) Education background;
- (6) Employment history and references;
- (7) Results of criminal background check, if applicable.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 18 Ok Reg 2492, eff 6-25-01 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

SUBCHAPTER 13. SERVICES

310:605-13-1. Required services

Each adult day care center shall provide supervision of participants, assistance with activities of daily living, planned activities, social services, nutritious meals, and emergency and first aid services.

- (1) **Supervision of participants.** Supervision and monitoring of participants shall include, but not be limited to, the following:
 - (A) Knowledge of participant's whereabouts while attending the program.
 - (B) Assistance as needed in interaction with other participants and staff.
 - (C) Observing functional status to determine if a change in the participant's plan of care is needed.
- (2) **Activities of daily living.** Provisions shall be made for assistance and training in walking, feeding, toileting, personal care, and other activities of daily living according to each participant's plan of care. Assistance shall be provided by those qualified by licensure or certification.
- (3) **Planned activities.**

- (A) The adult day care center shall provide planned activities during at least one-half (1/2) of daily operations, with a minimum of four (4) hours of planned activities.
- (B) Activities shall be planned to meet the needs, interests and abilities of participants.
- (C) Participants shall be encouraged but may refuse to participate in any given activity.
- (D) All activities shall be adequately supervised by program staff.
- (E) A monthly schedule of activities shall be planned and shall be displayed prior to the first day of the month.
- (F) Daily activities shall be posted in a visible location.

(4) Social services.

- (A) The center may, upon request by a participant or his or her legal guardian, recommend to participants and their family available counseling services, if needed and desired, either within the center or by arrangement with resources in the community.
- (B) Social services shall be directed toward the following:
 - (i) Maintaining the maximum social functions of the participant.
 - (ii) Assisting with personal, family, and adjustment problems.
 - (iii) Safeguarding and fostering the human and civil rights, human dignity and personal worth of each participant.

(5) Nutrition and food service.

- (A) The adult day care center shall provide or make arrangements for a minimum of one meal daily which is of suitable quality and quantity for participants who are in the center for four (4) or more hours. The meal shall meet at least one-third (1/3) of an adult's current recommended dietary allowance (RDA) of the Food and Nutrition Board, National Academy of Sciences-National Research Council.
- (B) Food shall be stored, prepared, and served in accordance with the Rules and Regulations for Food Service Establishments adopted by the State Board of Health.
- (C) Food that is not prepared on site shall be prepared in a facility which meets the local and state health regulations.
- (D) Poisons and other dangerous materials shall be stored in a non-food preparation and/or storage area.
- (E) Potable water shall be available to all participants as needed.
- (F) Menus shall be planned and written for a minimum of a two-week cycle, if meals are prepared on site.
- (G) The menu shall be dated for the week of service and posted in a prominent area for the availability to the participant, family, or participant's designated representative.

- (H) A therapeutic diet shall be provided for a participant when prescribed in writing by a physician.
- (I) A qualified dietitian/nutritionist shall be provided for consultation with staff on basic and special nutritional needs and proper food handling techniques.
- (J) Appropriate food containers and utensils shall be available as needed for use by handicapped participants.
- (K) Dining areas shall be sufficiently equipped with tables and chairs to meet the needs of each participant including participants using wheelchairs.
- (L) Garbage shall be stored, bagged, and disposed of in accordance to local and state health regulations.

(6) Emergencies and first aid.

- (A) Written detailed plans for handling emergencies shall be established and shall be displayed in a conspicuous place within the facility.
- (B) The plan shall relate to non-medical and medical emergencies and the responsibilities of each staff position shall be specified.
- (C) All staff shall be knowledgeable about the plan.
- (D) Each participant shall provide an emergency information sheet, medical history, and a signed liability release form for use in an emergency.
- (E) The name and telephone number of participant's family member, caregiver, or responsible party shall be on file and retrievable by the staff.
- (F) Emergency phone numbers shall be conspicuously posted to include ambulance, hospital, fire, and police when 911 is not available.
- (G) There shall be at least one staff person on duty at all times who is trained in CPR.
- (H) There shall be conducted regular drills for all staff in handling different kinds of emergencies and documented as to date, kind of emergency, and individual receiving training. Emergency drills shall be conducted at least once every three months.
- (I) Any sickness, or accidents involving a participant, resulting in physical injury or suspected physical injury to the participant shall be reported to the director who shall arrange for appropriate action.
- (J) Any participant who shows symptoms of illness or infectious disease shall be given the necessary attention and/or removed from the group.
- (K) The provider shall have available a room for participants who require removal from the group due to temporary illness.

310:605-13-2. Additional Services

Adult day care centers shall provide the following as indicated by the center's program goals and the individual needs of the participants served:

(1) Health Monitoring.

(A) The health, functional, and psychosocial status of each participant shall be observed for significant changes and documented in the participant's record at least monthly by the designated professional staff. Each family and/or physician shall be notified of such changes.

(B) The staff shall arrange for contacts with health professionals as needed by each participant.

(C) There shall be proper administration of medications as prescribed by the physician.

(D) Written policies and procedures shall be developed and implemented for participants self-medication administration and staff medication administration.

(2) Medications.

(A) Participants shall be encouraged to retain and administer their own medications while attending the adult day care program.

(B) When a participant has been determined to be unable to be responsible for his medication, the following procedures shall be followed:

(i) The medication shall be retained in a safe, secure, locked area for storing medications or drugs until prescribed time.

(ii) Medications maintained by the center shall be retained in containers in which they were dispensed from the pharmacy. The containers shall be labeled with the participant's full name, the name and strength of the medication, and the dosage and administration instructions.

(iii) Medications may not be administered without an order from a physician.

(iv) Physician's phone orders may be taken only by a licensed nurse.

(v) The phone orders shall be signed and dated by the physician within three (3) working days after giving the phone order. Orders by facsimile are acceptable as original signatures.

(vi) Phone orders shall be written into the participant's record and date noted by the licensed nurse who received them.

(vii) Orders regarding medications and treatments shall be in effect as indicated by the physician for a specified number of days.

(viii) Changes in health status, including reaction to medication and/or treatments, shall be communicated immediately to the participant's

physician by the licensed nurse. If the facility is unable to contact the participant's personal physician, emergency medical procedure shall be followed.

(ix) All medications shall be packaged and labeled in accordance with professional pharmacy standards, state and federal drug laws and regulations, and the United States Pharmacopeia (USP). Labeling shall include cautionary instructions, as well as expiration date, when applicable, and name of medication specified by the physician.

(x) Over the counter drugs for individual participants shall be labeled with at least the participant's name.

(xi) Schedule II drugs shall be kept in a locked box.

(xii) Medications requiring refrigeration shall be kept refrigerated in a locked refrigerator or in a locked box within the refrigerator or in a refrigerator within a locked room.

(xiii) The temperature range of the medication refrigerator shall be 36o F. (2o C) to 48o F. (8o C).

(xiv) No food shall be stored with refrigerated medication except for food used for medication and administration.

(xv) The administration and storage medication system shall be reviewed by a licensed nurse not less than every three (3) months.

(xvi) A written medication administration record shall be maintained for medications administered.

(xvii) Documentation of medications administered shall be done within one hour after administration of medication.

(xviii) Records of all Schedule II drugs shall be maintained.

(3) Specialized services.

(A) A planned program of activities shall be available to all participants in accordance to participant's plan of care.

(B) The following services which are designed to improve or maintain participant's independent functional ability may be arranged and secured through qualified community resources: physical therapy, occupational therapy, recreational therapy, and speech therapy.

(4) Transportation. The following requirements must be met if transportation is provided by the adult day care center to ensure the health and safety of the participants:

(A) The number of participants allowed in a car, station wagon, van, bus, or whatever the type of transportation used shall not exceed the number for which the vehicle is designed. Each person transported must have a seat.

- (B) There shall be provisions made to accommodate participants who use assistive devices for ambulation.
- (C) Participants shall be offered an opportunity to have a rest stop when being transported for more than one hour.
- (D) The center shall be sufficiently staffed to ensure the safety of participants being transported by facility vehicles.
- (E) The provider shall conform to all state laws regarding regulations, drivers, vehicles, and insurance.
- (F) The center shall maintain the vehicle in good repair.

310:605-13-3. Participant records

All adult day care centers shall maintain an individual folder for each participant. Each record shall include but not be limited to the following:

- (1) Admission information including medical and social history and identification.
- (2) Physician's orders for medications, treatments, diet, rehabilitation, and special medical procedures.
- (3) Current health evaluations.
- (4) A chart of medications administered and any reactions, if applicable.
- (5) A written plan of care.
- (6) Copies of initial and periodic examinations, evaluations, and progress notes.
- (7) An authorization statement for emergency medical assistance including the name of a designated physician.
- (8) Name, address, and phone number of at least two (2) family members, guardians, and/or other persons designated to be contacted in an emergency.
- (9) Discharge plan and summary, when appropriate.

[Source: Added at 11 Ok Reg 901, eff 12-17-93 (emergency); Added at 11 Ok Reg 2635, eff 6-25-94 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

SUBCHAPTER 15. PHYSICAL FACILITY

310:605-15-1. General criteria

The facility and grounds shall be safe, clean, and designed with consideration for the special needs and interests for the aging, disabled, and handicapped adult participants.

- (1) The center shall comply, when applicable, with all local and state laws and codes and ordinances as pertain with this occupancy.
- (2) A telephone shall be available to participants to make and receive calls.

- (3) A cooling, heating, and ventilation system shall provide comfort and shall accommodate all participants.
- (4) Room temperature shall be maintained between sixty-eight degrees Fahrenheit (68° F.) and eighty-five degrees Fahrenheit (85° F.).
- (5) Lighting shall be adequate in all areas.
- (6) A method shall be provided to control excessive noises.
- (7) Equipment and supplies shall be adequate to meet the needs of participants.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-15-2. Buildings and grounds

- (a) The building must meet the approval of local building and fire inspectors or the state fire marshal's office.
- (b) On and after the effective date of this subsection, each center that undergoes design changes or construction and each newly licensed center shall be designed and constructed in conformity with requirements for accessibility to physically disabled persons as specified in Chapter 11 of the International Building Code, 2003 Edition, published by the International Code Council.
- (c) The building shall be designed or adapted to meet heating, air conditioning, and water supply approved by the Department according to rules and design standards of the Board of Health.
- (d) There shall be at least two (2) exits from the center which can be used as disaster escape routes.
- (e) The heating system shall comply with local and state codes. Heating pipes, radiators or hot water pipes in rooms and areas used by participants shall be covered or protected.
- (f) Portable space heaters shall not be used.
- (g) Plumbing and plumbing fixtures shall conform to local and state codes. There shall be no cross-connection between the potable water supply and any pollution source through which the potable water might become contaminated.
- (h) An adequate supply of water under sufficient pressure shall be provided to properly serve the participants.
- (i) At least one toilet and hand washing facility shall be provided for each 12 participants.
- (j) The lavatory shall have hot and cold running water. Hot water shall not exceed one hundred fifteen degrees Fahrenheit (115 F.).
- (k) A trash receptacle, soap, toilet paper, and individual paper towels shall be provided at all times and shall be within reach of the participants.
- (l) The toilet room shall be within easy access to the activity areas and shall provide privacy for the participant.
- (m) Each toilet room shall be equipped for approved ventilation.
- (n) There shall be a separate room or partitioned area for temporarily isolating participants in case of illness.
- (o) Grounds shall be maintained in a clean, orderly, and safe manner.

- (p) Outside lighting shall be provided at the center's entrances and grounds.
- (q) There shall be parking available for delivery and pickup of participants.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03 ; Amended at 21 Ok Reg 2754, eff 7-12-04]

310:605-15-3. Space requirements

- (a) A minimum of forty (40) square feet of space shall be provided for each participant, excluding hallways, storage areas, offices, rest rooms, and kitchens.
- (b) Office space shall be provided.
- (c) Space shall be provided for special therapies and designated areas to permit privacy.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-15-4. Location

- (a) The site or location of an adult day care center shall be chosen for the accommodation to the program and the participants served.
- (b) Adult day care centers located in conjunction with another program that is also licensed by the Department shall meet the specific requirements of the adult day care center. The facility or program with which it is located shall meet its own license requirements.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92]

310:605-15-5. Furnishings and equipment

- (a) The center shall be furnished adequately to meet the needs of the participants.
- (b) There shall be at least one bed located in a quiet space separate from other program activities.
- (c) Equipment and supplies shall be adequately provided to meet the needs of all participants.
- (d) All furnishings and equipment shall be in safe condition and properly maintained.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-15-6. Sanitation and housekeeping

- (a) Housekeeping and maintenance services shall be sufficiently provided to maintain the center in a clean, orderly, sanitary, and safe manner. The center shall be free of offensive odors.
- (b) Handwashing facilities in bathrooms and kitchens shall at all times be supplied with soap and disposable towels.
- (c) An insect, rodent, and pest control program shall be maintained and conducted regularly in a manner which continually protects the health and well-being of the participant. There shall be documented evidence of

routine efforts of an existing pest control program. Opened windows shall be screened.

(d) Soiled clothing shall immediately be placed in airtight containers. Clean clothing and linen shall at no time be stored in the same room with soiled clothing and linen.

(e) There shall be procedures used by the kitchen and laundry which prevent cross-contamination between clean and soiled utensils and clean and soiled linens.

(f) Waste, trash, and garbage shall be disposed of from the center's premises regularly in accordance to local and state regulations. Refuse containers, inside and outside, shall have tightly fitted lids and left in closed position.

(g) The center's waste water and sewage shall be discharged into a municipal sewerage system approved by local and state regulations. Where such a system is not available, a facility providing sewage treatment must conform to applicable local and state regulations.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-15-7. Fire safety

(a) Fire safety shall be observed at all times. The center shall have an agreement with the local fire service to respond to the facility in the event of an emergency or have access to a 911 emergency service.

(b) Electrical, heating, and cooling systems shall be kept in good repair and safely maintained.

(c) Use of extension cords or temporary wiring shall be prohibited.

(d) All fires shall be reported to the licensing agency within 72 hours. Fires causing injury or death shall be reported immediately. A written report to the Department shall follow a telephone report.

(e) Draperies or other window dressings, upholstery, and other fabrics and decorations shall be fire-resistant.

(f) At least one telephone within the center shall be available to staff in case of an emergency. Emergency telephone numbers shall be posted on the designated emergency telephone to include fire, police, ambulance, and hospital if 911 emergency is not available.

(g) All facilities shall at a minimum have smoke detectors placed appropriately throughout the facility and maintained in good operation.

[Source: Added at 8 Ok Reg 2983, eff 5-28-91 (emergency); Added at 9 Ok Reg 1989, eff 6-11-92 ; Amended at 20 Ok Reg 1182, eff 5-27-03]

310:605-15-8. General safety

(a) General safety requirements should meet ADA standards and the state minimum standards adopted by the state fire marshal's office.

(b) The center's exterior site conditions shall be designed, constructed, and maintained with consideration for participants' safety.

(c) Stairways and hallways shall be well lighted at all times. All stairways shall have non-slip surface.

(d) All rugs and floor coverings shall be secured to floor. Throw rugs shall not be used.

- (e) Elevators for participants' use shall be maintained in safe condition.
- (f) The hot water system connected to fixtures used by participants shall deliver warm water at a temperature not to exceed 115° F.
- (g) Drugs, cleaning agents, pesticides, and poisonous products shall be stored out of reach of the participants and used in a manner which assures the safety of the participants.
- (h) There shall be no activities adversely affecting the safety of the participant on the premises.

CHAPTER 615. AMBULATORY SURGICAL CENTERS

[Authority: 63 O.S., §§ 1-104 and 2662]

[Source: Codified 12-31-91]

SUBCHAPTER 1. GENERAL PROVISIONS

310:615-1-1. Purpose

The purpose of this Chapter is to insure the quality of medical care in ambulatory surgical centers is the same as that required in hospitals licensed by the State of Oklahoma.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Ambulatory surgical center" means an establishment with an organized medical staff of physicians, with permanent facilities that are equipped and operated primarily for the purpose of performing surgical procedures, with continuous physician services available on call, and registered professional nurse services on site, whenever a patient is in the facility, which provides services or other accommodations for patients to recover for a period not to exceed twenty-three (23) hours after surgery.

"Chief executive officer" means that individual appointed by the governing body as its on-site designee who is, in fact, responsible for the conduct of all affairs of the ambulatory surgical center and who is answerable to the governing body for the day-to-day facility operation.

"Governing body" means that person, persons, or legal entity that is legally responsible for the conduct of the facility as an institution and carries out the functions, ownership, and governance.

"Grandfathered" means the status of all ambulatory surgical centers licensed at the date of publication of this Chapter.

"Hospital" means any institution, place, building, or agency, public or private, whether organized for profit or not, devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment or care of patients admitted for overnight stay or longer in order to obtain medical care, surgical care, obstetrical care, or nursing care for illness, disease, injury, infirmity, or deformity. [63 O.S. 1991, §1-701(a)]

"Organized medical staff of physicians" means a group of three or more physicians organized under bylaws approved by the governing body and responsible to the governing body for the quality of all surgical care provided patients in the facility and for the ethical and professional practices of its members.

"Physician" means a person duly licensed by the Oklahoma State Board of Medical Licensure and Supervision or the Oklahoma State Board of Osteopathy to practice medicine/osteopathy and surgery.

"Registered nurse" means a person duly licensed by the Oklahoma Board of Nursing as a registered professional nurse.

"Substantial" means 50 percent or more of the area, wing or building which must comply with these standards and the New Health Care Occupancy, NFPA 101.

"Surgical procedures" means any invasive procedure to the body, either by incision or entry into a natural body cavity, to preserve or to remove with minimal risk, diseased or injured organs, tissues, etc., but primarily restricted to the management of problems and injuries that would not require hospitalization.

"Transfer agreement" means a formally adopted mutual agreement between the ambulatory surgical center and a general hospital located no more than a twenty-minute travel distance from the ambulatory surgical center which provides for the expeditious admission of patients for whom overnight care becomes necessary.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92 ; Amended at 10 Ok Reg 1999, eff 6-1-93]

310:615-1-2.1. Applicability

All centers which are licensed on the effective date of this Chapter shall be considered grandfathered in regards to all construction requirements but shall comply with all other requirements. For any substantial renovations, the center must meet all of the requirements of this chapter.

[Source: Added at 9 Ok Reg 2021, eff 6-11-92]

310:615-1-2.2. Licensure

(a) Application for licensure.

(1) No person or entity shall operate an ambulatory surgical center without first obtaining a license from the Department. The license is not transferable or assignable.

(2) Any person, corporation, partnership, association or other legal entity desiring to obtain a license to establish, or to obtain a renewal license to operate, an ambulatory surgical center in this State shall make application to the State Department of Health in such form and accompanied by such information and fee as the State Commissioner of Health shall prescribe.

(3) An application is not considered to be filed unless it is accompanied by the application fee.

(b) Licensure fees.

(1) An application for an initial license to establish or operate a new ambulatory surgical center shall be accompanied by a nonrefundable application fee of two thousand dollars (\$2,000.00).

(2) A renewal application for an existing ambulatory surgical center shall be accompanied by a nonrefundable licensing fee of five hundred dollars (\$500.00).

(c) Application filing. An initial license application or renewal application shall be filed as follows:

(1) The application for an initial license for a new ambulatory surgical center shall be filed prior to or at the time final drawings for construction are submitted to the Department for review which shall be at least thirty (30) days before a ambulatory surgical center begins operation.

(2) The application for an initial license for a change of ownership or operation, shall be filed at least thirty (30) days before the transfer. The sale of stock of a corporate licensee is not considered a change of ownership or operation. The sale or merger of a corporation that owns an operating corporation that is the licensed entity shall not be considered a change of ownership unless a majority of the governing body is replaced.

(3) The application for renewal of a license of an existing ambulatory surgical center shall be filed at least thirty (30) days before the expiration date of the current license.

(d) **Where to file.** The application and the license fee shall be delivered or sent to the Oklahoma State Department of Health. The date of filing of the application shall be recorded as the date the application and fee are received.

(e) **Duration and posting.** A license shall be valid for a period of twelve (12) months from the date of issue and shall expire on the last day of the month of issue twelve (12) months hence.

[Source: Added at 27 Ok Reg 2534, eff 7-25-10]

310:615-1-3. General considerations and incorporations by reference

(a) The following national standards are incorporated by reference:

(1) Facility Guidelines Institute (FGI): Guidelines for Design and Construction of Outpatient Facilities, 2018 Edition; and

(2) National Fire Protection Association (NFPA)101: Life Safety Code (LSC), 2012 Edition, and 2012 LSC Tentative Interim Amendments (TIA) 12-1, 12-2, 12-3, and 12-4; and NFPA99 Health Care Facilities Code (HCFC), 2012 Edition, excluding chapters 7, 8, 12 and 13, and 2012 HCFC TIA 12-2, 12-3, 12-4, 12-5 and 12-6 adopted in 81 Federal Register 26871 by the Centers for Medicare & Medicaid Services on July 5, 2016.

(b) Oklahoma statutes prevail if there is conflict between the FGI Guidelines and Oklahoma statutes. For Medicare-certified ambulatory surgical centers, the Life Safety Code adopted by the Centers for Medicare & Medicaid Services prevails if there is a conflict between the Life Safety Code and this Chapter.

(c) An ambulatory surgical center may submit a request for exception or temporary waiver if the FGI Guidelines create an unreasonable hardship, or if the design and construction for the ambulatory surgical center property offers improved or compensating features with equivalent outcomes to the FGI Guidelines.

(d) The Department may permit exceptions and temporary waivers of the FGI Guidelines if the Department determines that such exceptions or temporary waivers comply with the requirements of 63 O.S. Section 2657

et seq., this Chapter, and the following:

- (1) Any ambulatory surgical center requesting an exception or temporary waiver shall apply in writing on a form provided by the Department and pay the exception or temporary waiver of FGI Guidelines fee set in OAC 310:615-1-3.1. The form shall include:
 - (A) The FGI Guidelines section(s) for which the exception or temporary waiver is requested;
 - (B) Reason(s) for requesting an exception or temporary waiver;
 - (C) The specific relief requested; and
 - (D) Any documentation which supports the application for exception.
 - (2) In consideration of a request for exception or temporary waiver, the Department shall consider the following:
 - (A) Compliance with 63 O.S. Section 2657 et seq.;
 - (B) The level of care provided;
 - (C) The impact of an exception on care provided;
 - (D) Alternative policies or procedures proposed; and
 - (E) Compliance history with provisions of the FGI Guidelines, Life Safety Code and this Chapter.
 - (3) The Department shall permit or disallow the exception or waiver in writing within forty-five (45) calendar days after receipt of the request.
 - (4) If the Department finds that a request is incomplete, the Department shall advise the ambulatory surgical center in writing and offer an opportunity to submit additional or clarifying information. The applicant shall have thirty (30) calendar days after receipt of notification to submit additional or clarifying information in writing to the Department of Health, or the request shall be considered withdrawn.
 - (5) An ambulatory surgical center which disagrees with the Department's decision regarding the exception or temporary waiver may file a written petition requesting relief through an individual proceeding pursuant to OAC 310:2 (relating to Procedures of the State Department of Health).
 - (6) The Department may revoke an exception or temporary waiver through an administrative proceeding in accordance with OAC 310:2 and the Oklahoma Administrative Procedures Act upon finding the ambulatory surgical center is operating in violation of the exception or temporary waiver, or the exception or temporary waiver jeopardizes patient care and safety or constitutes a distinct hazard to life.
 - (7) The Department shall publish decisions on requests for exceptions and waivers and make them available to facilities and the public.
- (e) Documentation of the ambulatory surgical center governing body's approval of the functional program shall be sufficient to meet the requirements in this Chapter relating to Department approval of the functional program.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92 ; Amended at 34 Ok Reg 1293, eff 10-1-17 ; Amended at 36 Ok Reg 1710, eff 9-13-19]

310:615-1-3.1. Submission of plans and specifications and related requests for services

(a) **Submission of Plans.** Before construction is begun, plans and specifications, covering the construction of new buildings or major alterations to existing buildings, shall be submitted to the Oklahoma State Department of Health as provided in OAC 310:615-1-3.2 or 310:615-1-5.

(1) Plans and specifications are required for the following alterations:

- (A) Changes that affect path of egress;
- (B) Change of use or occupancy;
- (C) Repurposing of spaces;
- (D) Structural modifications;
- (E) Heating, ventilation and air conditioning (HVAC) modifications;
- (F) Electrical modifications that affect the essential electrical system;
- (G) Changes that require modification or relocation of fire alarm initiation or notification devices;
- (H) Changes that require modification or relocation of any portion of the automatic fire sprinkler system;
- (I) Replacement of fixed medical equipment if the alteration requires any work noted in (A) through (H) of this paragraph;
- (J) Replacement of, or modifications to, any required magnetic or radiation shielding;
- (K) Changes to or addition of any egress control devices or systems.

(2) Plans and specifications are not required for the following alterations:

- (A) Painting, papering tiling, carpeting, cabinets, counter tops and similar finish work provided that the new finishes shall meet the requirements of this Chapter;
- (B) Ordinary repairs and maintenance;
- (C) Modifications to nurse call or other signaling/communication/information technology systems provided the modifications meet the requirements of this Chapter; or
- (D) Replacement of fixed or moveable medical equipment that does not affect electrical, HVAC, or shielding requirements noted above.

(b) **Fees.** Each construction project submitted for approval under OAC 310:615-1-3.2 shall be accompanied by the appropriate review fee based on the cost of design and construction of the project. Review fees are as follows:

- (1) Project cost less than \$10,000.00: \$250.00 Fee
- (2) Project cost \$10,000.00 to \$50,000.00: \$500.00 Fee

- (3) Project cost \$50,000.00 to \$250,000.00: \$1000.00 Fee
- (4) Project cost \$250,000.00 to \$1,000,000.00: \$1500.00 Fee
- (5) Project cost greater than \$1,000,000.00: \$2000.00 Fee

(c) **Fees when greater than two (2) submittals required.** The review fee shall cover the cost of review for up to two (2) stage one and two (2) stage two submittals and one final inspection. If a stage one or stage two submittal is not approved after two (2) submissions, another review fee based on the cost of the project shall be required with the third submittal. Fast-track projects shall be allowed two reviews for each package submitted. If a fast-track stage package is not approved after the second submittal, another review fee based on the cost of the project shall be required with the third submittal of the package.

(d) **Review process.** Design and construction plans and specifications shall be reviewed in accordance with the following process.

- (1) Unless otherwise provided in this Subchapter, the Department shall have ten (10) calendar days in which to determine if the filed application is administratively complete

- (A) Upon determining that the application is not administratively complete, the Department shall immediately notify the applicant in writing and shall indicate with reasonable specificity the inadequacies and measures necessary to complete the application. Such notification shall not require nor preclude further review of the application and further requests for specific information. If the Department fails to notify the applicant as specified in this Paragraph, the period for technical review shall begin at the close of the administrative completeness review period. Upon submission of correction of inadequacies, the Department shall have an additional ten (10) calendar days to review the application for completeness.

- (B) Upon determination that the application is administratively complete, the Department shall immediately notify the applicant in writing. The period for technical review begins.

- (2) The Department shall have forty-five (45) calendar days from the date a completed application is filed to review each application for technical compliance with the relevant regulations and reach a final determination.

- (A) The time period for technical review is tolled (the clock stops) when the Department has asked for supplemental information and advised the applicant that the time period is tolled pending receipt.

- (B) To make up for time lost in reviewing inadequate materials, a request for supplemental information may specify that up to 30 additional calendar days may be added to the deadline for technical review, unless the request for supplemental information is a second or later request that identifies new deficiencies not previously identified

(C) An application shall be deemed withdrawn if the applicant fails to supplement an application within 90 calendar days after the Department's request, unless the time is extended by agreement for good cause.

(D) Extensions may be made as provided by law.

(e) **Fees for other services.** Fees for other services related to construction projects are as follows:

(1) Request for exception to, or temporary waiver of, FGI Guidelines fee: Five Hundred Dollars (\$500.00);

(2) Application for self-certification fee: One Thousand Dollars (\$1,000.00);

(3) Courtesy inspection, prior to final inspection for approval of occupancy, fee: Five Hundred Dollars (\$500.00);

(4) Professional consultation or technical assistance fee: Five Hundred Dollars (\$500.00) for each eight staff hours or major fraction thereof. For technical assistance requiring travel, the fee may be increased to include the Department's costs for travel.

[Source: Added at 27 Ok Reg 2534, eff 7-25-10 ; Amended at 34 Ok Reg 1293, eff 10-1-17]

310:615-1-3.2. Preparation of plans and specifications

(a) **Stage one.** Preliminary plans and outline specifications shall be submitted and include sufficient information for approval by the Department of the following: scope of project; project location; required fire-safety and exiting criteria; building-construction type, compartmentation showing fire and smoke barriers, bed count and services; the assignment of all spaces, areas, and rooms for each floor level, including the basement. An ambulatory surgical center has the option, at its own risk, to bypass the stage one submittal and proceed directly to submittal of stage two documents.

(b) **Stage two.** A proposed construction document shall be submitted that includes final drawings and specifications adequate for approval by the Department. All final plans and specifications shall be appropriately sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval, and shall be submitted timely.

(c) **Special submittals.**

(1) **Fast-track projects.** The fast track process applies only to stage two submittals. A stage one submittal and functional program must be approved before entering the fast track process.

(A) Equipment and built-in furnishings are to be identified in the stage one submittal.

(B) The ambulatory surgical center has the option to submit two packages: civil, landscaping and structural in stage one, and the balance of the components in stage two.

(C) Fast-track projects shall have prior approval and be submitted in no more than four (4) separate packages.

(i) Site work, foundation, structural, underslab mechanical, electrical, plumbing work, and related

specifications.

(ii) Complete architectural plans and specifications.

(iii) All mechanical, electrical, and plumbing plans and specifications.

(iv) Equipment and furnishings.

(2) **Radiation protection.** Any project that includes radiology or special imaging equipment used in medical diagnosis, treatment, and therapy of patients, shall include plans, specifications, and shielding criteria, prepared by a qualified medical physicist.

These plans shall be submitted and approved by the Oklahoma State Department of Health prior to installation of the equipment.

(d) **Floor plan scale.** Floor plans are to be submitted at a scale of one-eighth (1/8) inch equals one (1) foot, with additional clarifying documents as required.

(e) **Application form.** The submittal shall be made using a Department application form which requests information required by this Chapter and specifies the number of copies and format for document submittal.

[Source: Added at 27 Ok Reg 2534, eff 7-25-10 ; Amended at 34 Ok Reg 1293, eff 10-1-17]

310:615-1-4. Construction design

(a) New construction.

(1) Prior to construction commencement of a new ambulatory surgical center, or of additions, alterations, remodeling of existing facilities or of the remodeling of any facility for the purpose of establishing an ambulatory surgical center, proposed construction documents prepared by an architect licensed by the Board of Governors, State of Oklahoma, containing complete plans and specifications, shall be submitted to the Department for review and approval.

(2) All engineering requirements established for proposed projects shall be prepared by professional engineers registered to practice in the State of Oklahoma.

(3) Proposed construction documents shall be of such detail as to allow complete functional and construction evaluation, including site use.

(b) **Modernization projects.** Where modernization or replacement work is done within an existing facility, only the scope of the modernization project shall comply with applicable sections of this Chapter.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92 ; Amended at 36 Ok Reg 1710, eff 9-13-19]

310:615-1-5. Self-certification of plans

(a) The Department shall make available professional consultation and technical assistance services covering the requirements of this section to an ambulatory surgical center considering self-certification of plans. The consultation and technical assistance is subject to the fee for professional consultation and technical assistance services set in OAC 310: 310:615-1-3.1. The consultation is optional and not a prerequisite for filing a

request through the self-certification review process.

(b) The ambulatory surgical center and the project architect or engineer may elect to request approval of design and construction plans through a self-certification review process. The ambulatory surgical center and the project architect or engineer shall submit a self-certification request on a form provided by the Department, along with a self-certification application fee set in OAC 310: 310:615-1-3.1. The form shall be signed by the ambulatory surgical center and the project architect or engineer attesting that the plans and specifications are based upon and comply with the requirements of this Chapter. The form shall require information necessary to demonstrate compliance with OAC 310:615-1-5(c).

(c) To be eligible for self-certification, projects must comply with the following requirements:

(1) The project involves any portion of the ambulatory surgical center where patients are intended to be examined or treated and the total of design and construction cost is five million dollars (\$5,000,000.00) or less; or

(2) The project involves only portions of the ambulatory surgical center where patients are not intended to be examined or treated; and

(3) The project architect or engineer attesting the application has held a license to practice architecture or engineering for at least five (5) years prior to the submittal of the application, is licensed to practice in Oklahoma; and

(4) The ambulatory surgical center owner/operator acknowledges that the Department retains the authority to:

(A) Perform audits of the self-certification review program and select projects at random for review;

(B) Review final construction documents;

(C) Conduct on-site inspections of the project;

(D) Withdraw approval based on the failure of the ambulatory surgical center or project architect or engineer to comply with the requirements of this Chapter; and

(5) The ambulatory surgical center agrees to make changes required by the Department to bring the construction project into compliance with this Chapter.

(d) Within twenty-one (21) calendar days after receipt of a complete application, the Department shall approve or deny the application for self-certification and send notification to the ambulatory surgical center. If the application is denied, the ambulatory surgical center shall have thirty (30) calendar days to submit additional or supplemental information demonstrating that the application complies with the requirements for self-certification of plans and specifications. The Department shall have fourteen (14) calendar days after receipt of supplemental information to reconsider the initial denial and issue a final approval or denial of the self-certification request.

(e) After denial of the application for self-certification and prior to the start of construction, the ambulatory surgical center shall pay the applicable fee for plan review specified in OAC 310: 310:615-1-3.1. Upon receipt of the plan review fee, the Department shall review the

ambulatory surgical center's plans in accordance with the process in 310:615-1-3.1.

[Source: Added at 34 Ok Reg 1293, eff 10-1-17]

SUBCHAPTER 3. ADMINISTRATION AND ORGANIZATION

310:615-3-1. Governing body

Every ambulatory surgical center shall have a governing body which shall adopt bylaws for the governance of the center, meet at periodic intervals, at least semi-annually, provide for the systematic review of center operations, appoint or reappoint the medical staff and delineate the privileges of its individual members, appoint a chief executive officer who shall have appropriate education, training, and experience to qualify him for the management of the center.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-2. Medical staff

- (a) The medical staff shall be an organized group of two or more physicians which shall initiate and adopt, with the approval of the governing body, bylaws, rules, regulations, and policies governing their professional activities in the ambulatory surgical center. Physician membership shall be limited to those physicians holding current hospital staff appointments.
- (b) In addition to the minimum number of physician members of the medical staff, legally licensed dentists or podiatrists may be members of the medical staff.
- (c) All members of the medical staff shall submit a written application for staff membership which shall include a summary of all education, professional training and previous appointments to institutional medical staffs.
- (d) Provisions shall be made for the review and evaluation of surgical practices on a continuing basis by the establishment and operation of a Tissue Committee and/or a Professional Standards Committee which shall review pathological reports on all specimens and review the professional performance. Such Committee to be comprised of two or more members of the medical staff. When warranted by the evidence, the medical staff shall recommend to the governing body the dismissal from the medical staff or the reduction of professional privileges of any member not conforming to the adopted professional standards of the ambulatory surgical center.
- (e) Physician assistants may be certified by the governing body to assist in surgery, but in no instance shall the privileges of a physician's assistant exceed those permitted by his State certification, nor shall a physician's assistant be authorized to function independently from his responsible physician.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-3. Records

- (a) A medical record shall be maintained for every patient cared for in the ambulatory surgical center. The medical records shall be filed for easy access by the medical staff or representatives of the licensing agency.
- (b) The medical record shall contain, as a minimum, the following:
 - (1) Patient identification.
 - (2) Patient history, physical examination, chief complaint, copies of any laboratory, X-ray, or consultation reports.
 - (3) Description of surgical procedures performed, observations, anesthesia records and disposition of the patient.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-4. Nursing services

- (a) The center shall provide nursing services under the direction of a professional registered nurse with post-graduate training or experience in surgical nursing.

- (b) The facility shall have at least one registered nurse who has professional training and competence in surgical nursing on duty in the ambulatory surgical center when patients are present.
- (c) The facility shall have sufficient licensed nurses and other nursing personnel, under the direction of a registered nurse, to assure observation and nursing care of all patients in the center.
- (d) The facility shall instruct all nursing personnel as to the location, operation, and use of emergency and resuscitative equipment.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-5. Anesthesia services

- (a) The facility shall provide anesthesia services under the direction of an anesthesiologist or a physician with training and experience in the administration of anesthetics.
- (b) An anesthesiologist or physician shall be on the premises during the post-anesthetic recovery period until all patients are alert and/or discharged.
- (c) At the time of admission to the ambulatory surgical center, a history and physical examination shall be completed and recorded.
- (d) All anesthesia shall be administered by an anesthesiologist, physician anesthetist, or certified registered nurse anesthetist (CRNA), except for those local agents which may be administered by the attending physician or surgeon.
- (e) Pulse oximeters should be used during procedures and recovery.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-6. Emergency equipment

The facility shall provide sufficient emergency equipment to handle emergencies resulting from the services rendered in the facility. Such equipment shall include, but not be limited to, a portable oscilloscope, portable defibrillator, portable suction equipment, inhalation-resuscitation equipment, and equipment to open and maintain an airway.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-7. Supportive services

- (a) The facility shall provide sufficient support services to assure the adequate and appropriate availability of supplies, instruments, and equipment.
- (b) Sterilizers and autoclaves shall be provided of appropriate type and capacity to sterilize instruments, utensils, dressings, water, and operating-room materials. There shall be approved control and safety features, and instrument accuracy must be checked on a regular, periodic basis by an approved method.
- (c) Sterile supplies must be maintained separately from unsterile supplies and must be stored in dust-proof and moisture-free, properly labeled packs.

(d) All sterile packs shall have marked on their outer surface the date of sterilization and the expiration date of such period of sterile condition.

[Source: Revoked and reenacted at 9 Ok Reg 2021, eff 6-11-92]

310:615-3-8. Medications

(a) Medications shall be administered only on the order of any person authorized by state law to so prescribe [Nurse Practice Act 59 O.S. 1981 §567.3a].

(b) The center shall provide proper storage, safeguarding, preparation, and dispensing of medications in a pharmacy or medication room which is under the supervision of a registered pharmacist who is either an employee of the center or serves as a consultant pharmacist, who shall be required to visit the ambulatory surgical center no more than one time per month.

CHAPTER 616. BIRTHING CENTERS REGULATIONS

[Authority: 63 O.S.Supp.1991, § 1-701]

[Source: Codified 6-11-92]

SUBCHAPTER 1. GENERAL PROVISIONS

310:616-1-1. Purpose

This Chapter establishes the minimum criteria for the issuance and renewal of a birthing center license and the procedures for enforcement thereto.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-1-2. Definitions

The words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Administrator" means a person acting in authority and who is responsible for all events and day-to-day operations of the birthing center.

"Applicant" means a person, firm, corporation, organization or association applying for a license to operate a birthing center.

"Birthing center" means a freestanding facility, place or institution, which is maintained or established primarily for the purpose of providing services of a certified midwife or licensed physician to assist or attend a woman in delivery and birth, and where a woman is scheduled in advance to give birth following a normal, uncomplicated, low-risk pregnancy.

"Birth room" means a home-like room where births are planned to occur with the availability of emergency equipment.

"Board" means the State Board of Health.

"Department" means the Oklahoma State Department of Health.

"License" means a document issued by the Department and renewable annually, provided the institution complies with all requirements of these regulations and the assessed fee.

"Licensed birth attendant" means a doctor of medicine or osteopathy or a certified nurse-midwife (CNM) licensed in the state of Oklahoma.

"Low risk" means a normal, uncomplicated prenatal course as determined by adequate prenatal care and prospects for a normal, uncomplicated birth as defined by generally accepted criteria of maternal and fetal health.

"Medical director" means a doctor of medicine or osteopathy who is licensed pursuant to the laws of this state with no restrictive sanctions and is commissioned by the birthing center to consult and advise on the medical component of the patient care program of the birthing center.

"Midwife" means a person educated in the discipline of nursing and midwifery, certified by the American College of Nurse-Midwives (ACNM) and licensed by the state to engage in the practice of midwifery

and as a registered nurse.

"Midwifery" means the application of scientific principles in the art of "with women" care during uncomplicated pregnancy, birth and puerperium including care of the newborn, support of the family unit and gynecologic health care.

"Referral hospital" means a hospital identified by the birthing center to receive mothers and/or infants who are not low risk.

"Transfer agreement" means a formally adopted mutual agreement between the birthing center, a suitable emergency transport system, and a hospital which provides obstetrical services and is located within a thirty minute travel distance.

"The Hospital Licensure Act" also known as **"the Act"** means Title 63 of the Oklahoma Statutes, sections 1-701 through 1-709 inclusive, as amended.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

SUBCHAPTER 3. ADMINISTRATION

310:616-3-1. Licensure

(a) **Applicant.** Any individual, public or private organization desiring to establish a birthing center may apply and obtain a license from the Department. A license is not mandatory to operate a birthing center.

(b) **Application.** The application for a birthing center license shall be filed on a form prescribed by the Department.

(c) **Expiration/renewal.** The birthing center license shall expire one year from the date of issue, unless suspended or revoked. An application for renewal shall be submitted according to the act.

(d) **Conditions for licensure.**

(1) The license is valid only for the location indicated on the license.

(2) The license is not transferable or assignable.

(3) The Department shall be notified within thirty days of change of administrator.

(4) The Department shall be notified within thirty days of change in business name and/or address.

(5) The Department shall be notified in writing when the center closes and the administrator shall return the license to the Department.

(6) A licensed birth attendant shall be available twenty-four hours a day.

(7) A transfer agreement shall be in place between the birthing center and a hospital which has obstetrical services where the medical director has obstetrical admitting privileges. The hospital shall be located not more than 30 minutes from the birthing center.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-3-2. Organization

(a) **Policies and procedures.** Each birthing center which falls within the purview of these regulations shall develop and maintain operational policy and procedures which describe the functions, staffing, services available to the patient and other basic information relating to the fulfillment of the facility's objectives.

(b) **Governing body.** A birthing center shall have a governing body that assumes full legal responsibility for determining, implementing and monitoring policies governing the total operations of the center. The governing body must also ensure that all services provided are consistent with accepted standards of practice, including contract services.

(c) **Personnel requirements.** Policies shall be developed concerning the following and placed in personnel records:

- (1) Job descriptions for all personnel.
- (2) A requirement for orientation of all employees.
- (3) Inservice education.
- (4) Evidence that all birth attendants are currently certified by the American Heart Association or the American Red Cross in infant and adult cardiopulmonary resuscitation.
- (5) Verification that all staff meet state licensure requirements.
- (6) Certification of the midwife by the American College of Nurse-Midwives (ACNM), and a certificate of recognition from the Oklahoma Board of Nursing permitting the use of the title of Certified Nurse-Midwife (CNM).

(d) **Food service**

(1) Birthing centers with three or fewer birth rooms which provide meals to patients shall use one of the following methods:

(A) Food catered from a licensed food service using vendor's utensils.

(B) Prepackaged complete meals or snacks.

(C) For meals prepared on the premises:

(i) Kitchen shall be equipped for sanitary preparation of food and snacks.

(ii) There shall be a sink to wash, sanitize and air dry dishes or there shall be a mechanical dishwasher.

(iii) Mechanical refrigeration shall be provided.

(2) Birthing centers with four or more birth rooms which provide meals to patients shall comply with the requirements for food services in Chapter 665 of this Title.

(3) Commercially prepared food products may be brought to the birth center by the family for patient use.

(4) Prepackaged disposable formula units shall be used for other than breast feeding for infants.

(e) **Medical director.** The medical director shall be a doctor of medicine or osteopathy licensed to practice in the state of Oklahoma, free of restrictive sanctions and shall assume overall responsibility for the medical component of the patient care program of the center.

310:616-3-3. Reports and records

(a) **Reports.** Reports shall be made by the birthing center to the appropriate agency, including but not limited to the following:

- (1) Communicable diseases.
- (2) Births and deaths.
- (3) Periodic reports to the Department on forms supplied for this purpose.
- (4) Newborn hearing screening report.
- (5) Newborn metabolic screening.
- (6) Birth defects.

(b) **Retention and preservation of records.**

(1) **State retention requirements.** Medical records will be retained a minimum of five years beyond the date the patient was last seen or a minimum of three years beyond the date of the patient's death.

(2) **Preservation of records.** Birthing centers generating medical records may microfilm the medical records and destroy the original record in order to conserve space.

(c) **Record of care.**

(1) The birthing center shall establish and maintain a medical record for each mother and infant receiving care and services. The record shall be complete, timely and accurately documented, and readily accessible.

(2) The medical record shall contain sufficient information to justify the diagnosis and treatment and warrant the services provided. Entries are made and signed by the person providing the services. The record shall include all care and services whether furnished directly or under arrangement made by the center. Each record shall contain at least, but not limited to, the following:

- (A) Identification data.
- (B) Initial and subsequent assessments.
- (C) Record of prenatal care.
- (D) Medical history and physical exam.
- (E) Risk assessment.
- (F) Allergies and medication reactions.
- (G) A disclosure statement signed by the patient explaining the principles of midwifery, benefits, limitations, and risks available to them at the birthing center and describing the arrangements the center has with physicians and the referral hospitals.
- (H) Plan of care.
- (I) Laboratory reports.
- (J) X-Ray reports.
- (K) Intrapartum care.
- (L) Postpartum care.
- (M) Newborn care.
- (N) Patient's compliance to advice and/or treatment.
- (O) Discharge Summary.

[Source: Added at 9 Ok Reg 1715, eff 4-13-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-3-4. Confidentiality

(a) Medical records shall be kept confidential. Only authorized personnel shall have access to the record. Written consent of the patient, the court appointed guardian, or a court order must be presented as authority for release of medical information.

(b) Patient access to medical records. Any person who is or has been a patient of a physician, hospital, or other medical facility, except psychiatric, shall be entitled to access information contained in his/her medical records upon request. Request for minors may be made by parents or legal guardian. A copy of the medical record pertaining to his/her case shall be furnished upon tender of the expense of such copy or copies. The cost of each copy shall not exceed the statutory fee.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

SUBCHAPTER 5. MINIMUM STANDARDS

310:616-5-1. Admission

(a) Admission to the birthing center shall be limited to low risk, uncomplicated pregnancies, with an anticipated spontaneous vaginal delivery, which, determined by history of prenatal care and risk criteria, predicts a normal, uncomplicated birth. Regional or general anesthesia shall not be utilized in the birthing center.

(b) Each birthing center shall have sufficient space to accommodate participating family members and support personnel of the patient's choice and shall provide care for childbearing women during pregnancy, birth and puerperium with public service standards accessible to acute care obstetrical and newborn services.

(c) A woman who develops any condition that causes her to deviate from having a low-risk birth shall be referred and transferred to the appropriate referral hospital when the abnormal condition is recognized.

(d) Infants who are born with or develop problems following birth shall also be referred to the appropriate hospital or physician.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-5-2. Quality assurance

The birthing center shall have a quality assurance program to monitor and assure that all requirements are met, including but not limited to:

(1) Sanitation.

(A) A safe and sanitary environment shall be properly constructed, equipped and maintained according to established policies and procedures to protect the health and safety of the patient.

(B) An infection control program shall be developed which includes the utilization of universal precautions.

(C) Properly functioning equipment shall be available to sterilize instruments, equipment and supplies prior to use in the center using current standards and principles of sterilization in processing sterile supplies.

(D) All waste, including biomedical waste, shall be disposed of by a state approved method. Placentas shall not be placed in the trash or dumpster for disposal. Infectious or pathological waste shall be double-bagged in plastic bags not less than 1.5 mil thick each and conspicuously marked. Biomedical waste shall not be commingled with routine solid waste.

(2) Emergency equipment.

(A) Properly functioning emergency equipment shall include oxygen, respiratory support equipment including airways, manual breathing bag and mask and laryngoscope and endotracheal tubes for adults and infants.

(B) Emergency medications as specified by the medical director shall be maintained.

(3) Evaluation of care.

(A) Acceptable quality of care shall be provided to patients both directly and under arrangements.

(B) The governing board shall annually review and revise, as needed, the birthing center's quality assurance program. Goals shall be established and problems identified with documented solutions.

(C) Policies and procedures shall be reviewed, revised as needed, and approved by the governing board, annually.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-5-3. Life Safety Code

(a) This section establishes life safety requirements for free standing birthing centers that are permitted to operate twenty-four hours per day.

(b) Each floor occupied by patients shall have not less than two remote exits, one of which shall discharge directly to the outside.

(c) Travel distance to an exit shall be limited to 150 feet.

(d) Doors in means of egress shall be not less than thirty-four inches wide.

(e) Corridors and ways of exit shall be provided with emergency lighting. Emergency lights shall operate, without manual intervention, on failure of normal electric service with power supplied by battery packs or emergency generator.

(f) Construction standards shall be in accordance with applicable building codes for group use and occupancy. In locations where no building code exists, construction shall conform to the state adopted building code. New and existing buildings to be occupied by a birthing center may be of NFPA construction Type V-000, unprotected wood frame

or any code complying residential construction type providing that fire and safety features are in practice. Buildings three stories in height shall be of at least one hour fire resistive construction. Plans of construction of a new building, addition to or major alterations of existing buildings, shall be submitted to the Department and the State Fire Marshall. All structures shall be equipped with an approved sprinkler system.

(g) Interior finishes in exit ways shall be class "A" (flame spread 0 - 25).

(h) A manual fire alarm interconnected with a corridor smoke detection system shall be installed with direct connection with the local fire department of a manned central station.

(i) Electrical wiring in new construction shall be in compliance with national electrical code N.F.P.A. #70. Major electrical appliances shall be grounded in accordance with manufacturers recommendations.

(j) The use of extension cords or temporary wiring is prohibited.

(k) A floor plan of the building shall be posted in a conspicuous place showing the evacuation route of the exit ways.

(l) Fire drills shall be conducted quarterly and will be documented.

(m) The birthing center shall have at least one fire extinguisher for each floor and one extinguisher for the kitchen area. The kitchen extinguisher shall be at least a five pound dry chemical or carbon dioxide type. All others shall be either a five pound ABC or two and one-half gallon pressurized water type.

(n) Emergency telephone numbers shall be posted at the telephone.

(o) Air conditioning, heating and ventilation equipment shall be installed and maintained in accordance with N.F.P.A. 90A.

(p) Corridors shall not be used as return air plenums.

(q) Air handling units in excess of 2500 cubic feet per minute (cfm) used for heat, exhaust and air conditioning systems, shall be controlled by all phases for the fire alarm system to cease air movement.

(r) The use of non-vented fuel burning space heaters and portable electric heaters are prohibited.

(s) All hot water heaters shall be equipped with temperature and pressure relief valves designed for relieving capacity.

(t) Combustion, exhaust and ventilation air shall be taken from and discharged directly to outside air.

(u) If parts of a birthing center, already in operation prior to the date a standard is issued, fail to meet a particular standard, compliance with the standard will be waived if patient care and safety are not deemed to be in jeopardy.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-5-4. Construction

(a) **Location.** The facility shall be serviced by all weather roads and available to private and emergency vehicles at all times.

(b) **Parking.** Parking shall be made available for patients, staff and visitors. (See Uniform Federal Accessibility Standards [UFAS] and American National Standards Institute Standard A117.1 [ANSI], American Standard Specification for Making Buildings and Facilities Accessible to and Useable by the Physically Handicapped).

(c) **Building plans and specifications.** Before the start of construction, plans and specifications covering the construction of new buildings or major alterations to existing buildings, shall be submitted to the Department for review and approval.

(d) **Staged submission.** Prepared plans and specifications shall be submitted in two stages.

(1) Stage one shall contain sufficient information to establish the scope of the project, project location, required fire safety and exiting criteria, building construction type, bed count and services, and assignment of all spaces for all floors.

(2) Stage two shall be the final drawings and specifications. This submittal shall be complete and adequate for proposed contract purposes. All final plans and specifications shall be sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval by the Department and shall be submitted as is timely.

(e) **Construction start.** Construction, other than minor alterations, shall not commence until the stage two plan-review has been approved.

(f) **Special submittal.** Fast-Tract projects must have prior approval and shall be submitted in a maximum of four separate packages:

(1) Foundation, structural, underslab, mechanical, electrical and plumbing work, and related specifications.

(2) Complete architectural plans and specifications.

(3) All mechanical, electrical, and plumbing plans and specifications.

(4) Equipment and furnishings.

(5) Automatic sprinkler systems. A minimum of two sets of sprinkler system show drawings, specifications and calculations (if applicable) prepared by the installer, shall be submitted to the office of the State Fire Marshall for review and approval prior to the installation of the proposed system in the project.

(g) **Construction.** The completed construction shall be in compliance with the approved drawings and specifications., including all addenda or modifications to the project.

(h) **Final inspection.** A final inspection, prior to occupancy, will be scheduled for the purpose of verifying compliance with the licensing standards, plans and specifications.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

SUBCHAPTER 7. ENFORCEMENT

310:616-7-1. Inspections

(a) Any duly authorized representative of the Department shall have the right to conduct inspections as necessary in order to determine compliance with the provisions of the Act and this Chapter in force pursuant thereto.

(b) Inspections shall be conducted by authorized representatives of the Department at least annually, but more frequently if there is a reasonable basis for such action.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-7-2. Complaints and investigations

(a) A complaint may be registered with the Department by any person who believes the birthing center is operating contrary to the Act or is posing a serious threat to the health and welfare of a patient in its care. The complaint may be registered verbally or in writing.

(b) An investigation will be conducted by the Department to determine the validity of the complaint and instigate necessary action applicable to the situation. The complainant will be notified, in writing, of the findings, if a name and address is furnished.

(c) If the Department determines there are reasonable grounds to believe the birthing center is operating in violation of the regulations, the Department shall follow the notice and hearing procedure established by the Act and as contained in the Procedure of the State Department of Health, Chapter 2 of this Title.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-7-3. Penalties

After notice and hearing pursuant to the Act, the Department may use any and all the remedies provided by the Act and by the general statutory authority of the Commissioner of Health.

[Source: Added at 9 Ok Reg 1715, eff 4-23-92 (emergency); Added at 9 Ok Reg 1979, eff 6-11-92]

310:616-7-4. Appeals

Final orders of the Department may be appealed to the District Court by any party directly affected or aggrieved by the order.

CHAPTER 638. DRUG AND ALCOHOL TESTING

[Authority: 40 O.S., §§ 557 and 558]

[Source: Codified 7-27-95]

SUBCHAPTER 1. GENERAL PROVISIONS

310:638-1-1. Purpose

The rules in this chapter implement the Standards for Workplace Drug and Alcohol Testing Act (40 O.S. Sections 551 et seq., hereinafter, the Act).

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Alcohol concentration" means the amount of alcohol present in urine or blood expressed in terms of percent of the weight of alcohol per volume of urine or blood (w/v), or the amount of alcohol present in breath expressed in terms of grams of alcohol per two hundred ten (210) liters of breath, or the amount of alcohol present in saliva expressed in grams of alcohol per one hundred (100) milliliters of saliva.

"Alcohol testing facility" means any building, place, or facility in which operations, procedures, or examinations of materials derived from the human body are performed for the purpose of alcohol testing and if, as a result of such testing, mandatory or discretionary consequences may be rendered to the individual.

"Approved drug screening procedure" means a procedure approved by the Commissioner of Health to initially screen urine, hair or saliva for the presence or absence of a drug or drugs.

"Blind performance test specimen" means a specimen submitted to a testing facility which is blank i.e., certified to contain no drug, or spiked with one or more drugs for which the testing facility is testing;

"Department" means the Oklahoma State Department of Health.

"Drug screen testing facility" means any building, place, or facility in which operations or procedures for the biological, serological, immunological, chemical, immunohematological, or other examinations of materials derived from the human body are performed for the purpose of drug testing and if, as a result of such testing, mandatory or discretionary consequences may be rendered to the individual.

"Proficiency testing program" means performance of testing on specimens containing those drugs and metabolites which each testing facility shall be prepared to assay in concentration ranges that allow detection of the analyte by commonly used immunoassay screening techniques. The proficiency testing program for drug testing facilities shall be approved for use by the Commissioner of Health.

"Saliva" means mucosal transudate or a combination of oral fluids consisting of a mixture of gingival crevicular fluid and common saliva.

"Screening device test" means non-evidential breath testing apparatus such as tubes filled with materials that turn a certain color when alcohol-laden breath is blown into them or a small, hand-held electronic apparatus that registers the presence or absence of alcohol concentration in breath, or an apparatus which registers a particular alcohol concentration when a swab with saliva from the employee's mouth is inserted into it.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-3. Qualifications of testing facilities

(a) Drug screen testing facilities.

(1) Drug screen testing facilities not certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists shall meet the provisions of this Chapter for the matrices for which they test for drugs of abuse in order to be eligible for licensure as a testing facility.

(2) Drug screen testing facilities certified for forensic urine drug testing by the United States Department of Health and Human Services, accredited for forensic urine drug testing by the College of American Pathologists, or licensed by a State acceptable to the Department shall be deemed to meet the requirements of OAC 310:638 Subchapter 5 and shall be eligible for licensure as a testing facility.

(b) Drug confirmation testing facilities. All facilities performing drug confirmation testing using urine or saliva as the testing matrix shall be certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists in order to be eligible for licensure as a testing facility. Facilities performing confirmation testing using hair as the testing matrix, shall have passed an inspection performed by the Department or be licensed by another State acceptable to the Department.

(c) Notification requirements. All testing facilities licensed by the Department based on certification by the United States Department of Health and Human Services, accreditation by the College of American Pathologists, or licensed by another State accepted by the Department shall notify the Department in writing within ten (10) days of the loss of such certification, accreditation, or licensure.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-4. Body specimens appropriate for testing

(a) **Drugs.**

- (1) **Initial tests.** Urine, saliva or hair shall be used for the initial test for all drugs.
- (2) **Confirmation tests.** Urine, saliva or hair shall be used for the confirmation test for all drugs.

(b) **Alcohol.**

- (1) **Initial tests.** Breath or saliva shall be used for the initial test for alcohol. Blood may be used for initial testing as described in OAC 310:638-7-4(b)(4).
- (2) **Confirmation tests.** Breath or blood shall be used for the confirmation test for alcohol.
- (3) **Rehabilitation/post-rehabilitation tests.** For alcohol testing which meets the criteria at 310:638-7-8(a), urine may be used as the specimen for initial and/or confirmation testing.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-5. Drugs approved for testing in urine or saliva

(a) A licensed testing facility may test for any drug or class of drugs or their metabolites included in Schedule I, II, or III of the Controlled Substances Act (21 U.S.C. § 801, et seq.) provided testing for such substances has been approved by the Commissioner of Health.

(b) The following drugs or their metabolites have been approved for testing by the Commissioner of Health:

- (1) marijuana;
- (2) opiates:
 - (A) codeine;
 - (B) heroin;
 - (C) morphine;
- (3) semi-synthetic and synthetic narcotics:
 - (A) hydrocodone;
 - (B) hydromorphone;
 - (C) meperidine;
 - (D) methadone;
 - (E) oxycodone;
 - (F) propoxyphene;
- (4) cocaine;
- (5) phencyclidine;
- (6) amphetamines:
 - (A) amphetamines;
 - (B) methamphetamines;
 - (C) methylenedioxymphetamine;
 - (D) methylenedioxymethamphetamine;
 - (E) phentermine;
- (7) barbiturates:
 - (A) amobarbital;
 - (B) butalbital;
 - (C) pentobarbital;

- (D) secobarbital
- (8) benzodiazepines:
 - (A) diazepam;
 - (B) chlordiazepoxide;
 - (C) alprazolam;
 - (D) clorazepate; and
- (9) methaqualone.
- (c) If the United States Department of Health and Human Services has established an approved protocol and positive threshold for a substance not listed in (b) of this Section, testing for such a substance shall be deemed to be approved by the Commissioner of Health.
- (d) Drugs other than those listed shall be tested by scientifically established methods at scientifically established detection levels.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-5.1. Drugs approved for testing in hair

- (a) A licensed testing facility may test for any drug or class of drugs or their metabolites included in Schedule I, II or III of the Controlled Substances Act (21 U.S.C. § 801 et seq.) provided testing for such substances has been approved by the Commissioner of Health.
- (b) The following types of drugs or their metabolites have been approved for testing by the Commissioner of Health:
 - (1) marijuana;
 - (2) opiates:
 - (A) codeine;
 - (B) heroin;
 - (C) morphine;
 - (3) cocaine;
 - (4) phencyclidine;
 - (5) amphetamines:
 - (A) amphetamines;
 - (B) methamphetamine.

- (c) If the United States Department of Health and Human Services has established an approved protocol and positive threshold for a substance not listed in (b) of this Section, testing for such a substance shall be deemed to be approved by the Commissioner of Health.
- (d) Drugs other than those listed shall be tested by scientifically established methods at scientifically established detection levels.

[Source: Added at 17 Ok Reg 381, eff 11-1-99 (emergency); Added at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02]

310:638-1-6. Cutoff levels for initial drug screening tests in urine

- (a) The following initial cutoff levels shall be used when screening specimens to determine whether they are negative for these drugs or their metabolites:
 - (1) marijuana metabolites: 50 ng/ml

- (2) cocaine metabolites: 300 ng/ml
- (3) opiates and metabolites: 2000 ng/ml; opiates and metabolites include the following:
 - (A) codeine;
 - (B) heroin;
 - (C) morphine;
- (4) semi-synthetic and synthetic narcotics: 300 ng/ml
 - (A) hydrocodone;
 - (B) hydromorphone;
 - (C) meperidine (immunoassay unavailable, initial test level of 1000 ng/ml shall be used for meperidine)
 - (D) methadone;
 - (E) oxycodone;
 - (F) propoxyphene;
- (5) phencyclidine: 25 ng/ml
- (6) amphetamines: 1,000 ng/ml; amphetamines include the following:
 - (A) amphetamines;
 - (B) methamphetamines;
 - (C) methylenedioxymethamphetamine (immunoassay unavailable);
 - (D) methylenedioxymethamphetamine (immunoassay unavailable);
 - (E) phentermine;
- (7) barbiturates: 300 ng/ml; barbiturates include the following:
 - (A) amobarbital;
 - (B) butalbital;
 - (C) pentobarbital;
 - (D) secobarbital;
- (8) benzodiazepines: 300 ng/ml; benzodiazepines include the following:
 - (A) diazepam;
 - (B) chlordiazepoxide;
 - (C) alprazolam;
 - (D) clorazepate; and
- (9) methaqualone: 300 ng/ml.

(b) These test levels are subject to change by the Department as advances in technology or other considerations warrant identification of these substances at other concentrations.

(c) Drugs other than those listed shall be tested by scientifically established methods at scientifically established detection levels.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 16 Ok Reg 2514, eff 6-25-99 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02]

310:638-1-6.1. Hair cutoff levels for initial drug screening tests

(a) The following initial cutoff levels shall be used when screening hair specimens to determine whether they are negative for these drugs or their metabolites:

- (1) marijuana: 10pg/10 mg of hair
- (2) cocaine: 5 ng/10 mg of hair
- (3) opiates and metabolites: 5 ng/10 mg of hair; opiates and metabolites include the following:
 - (A) codeine;
 - (B) heroin;
 - (C) morphine;
- (4) phencyclidine: 3 ng/10 mg of hair
- (5) amphetamines: 5 ng/10 mg of hair; amphetamines include the following:
 - (A) amphetamines;
 - (B) methamphetamines.

(b) These test levels are subject to change by the Department as advances in technology or other considerations warrant identification of these substances at other concentrations.

(c) Drugs other than those listed shall be tested by scientifically established methods at scientifically established detection levels.

[Source: Added at 17 Ok Reg 381, eff 11-1-99 (emergency); Added at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02]

310:638-1-6.2. Saliva cutoff levels for initial drug screening tests

The manufacturer of the saliva test system shall establish initial cutoff levels to be used when screening saliva specimens to determine whether they are negative for drugs or their metabolites. Such cutoffs shall be consistently applied for all saliva testing using that test system.

[Source: Added at 24 Ok Reg 1183, eff 4-2-07 (emergency); Added at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-7. Cutoff levels for drug confirmation testing in urine

(a) All specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/MS), or an equivalent accepted method of equal or greater accuracy as approved by the Commissioner of Health, at the following cutoff levels for these drugs or their metabolites. All confirmations shall be by quantitative analysis. Concentrations which exceed the linear region of the standard curve shall be documented in the testing facility record as "greater than the highest standard curve value."

- (1) marijuana metabolites: 15 ng/ml (Delta-9-tetrahydrocannabinol-9-carboxylic acid)
- (2) cocaine metabolites: 150 ng/ml (Benzoylecgonine)
- (3) opiates and metabolites: 2000 ng/ml; opiates and metabolites include the following:
 - (A) codeine;
 - (B) morphine;
 - (C) heroin (10 ng/ml for tests for 6-Acetylmorphine when the morphine concentration exceeds 2000 ng/mL);
- (4) semi-synthetic and synthetic narcotics: 300 ng/ml
 - (A) hydrocodone;
 - (B) hydromorphone;

- (C) meperidine; (confirmatory test level of 500 ng/ml shall be used for meperidine)
 - (D) methadone;
 - (E) oxycodone;
 - (F) propoxyphene;
 - (5) phencyclidine: 25 ng/ml
 - (6) amphetamines: 500 ng/ml; amphetamines include the following:
 - (A) amphetamines;
 - (B) methamphetamines; (Specimen must also contain amphetamine at a concentration of greater than 200 ng/mL)
 - (C) methylenedioxymphetamine;
 - (D) methylenedioxymethamphetamine;
 - (E) phentermine.
 - (7) barbiturates: 300 ng/ml; barbiturates include the following:
 - (A) amobarbital;
 - (B) butalbital;
 - (C) pentobarbital;
 - (D) secobarbital;
 - (8) benzodiazepines: 300 ng/ml; benzodiazepines include the following:
 - (A) diazepam;
 - (B) chlorthalidone;
 - (C) alprazolam;
 - (D) clonazepam; and
 - (9) methaqualone: 300 ng/ml.
- (b) These test levels are subject to change by the Department as advances in technology or other considerations warrant identification of these 'substances at other concentration.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 16 Ok Reg 2514, eff 6-25-99 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02]

310:638-1-7.1. Hair cutoff levels for drug confirmation testing and procedures

(a) All specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/MS), liquid chromatography/mass spectrometry/mass spectrometry (LC/MS/MS), mass spectrometry/mass spectrometry (MS/MS), or an equivalent accepted method of equal or greater accuracy as approved by the Commissioner of Health, at the following cutoff levels for these drugs or their metabolites. All confirmations shall be by quantitative analysis. Concentrations which exceed the linear region of the standard curve shall be documented in the testing facility record as "greater than the highest standard curve value."

- (1) marijuana metabolites: 1 pg/10 mg of hair (Delta-9-tetrahydrocannabinol-9-carboxylic acid);

- (2) cocaine: must be at or above 5 ng/10 mg of hair and/or metabolites as follows:
 - (A) benzoylecgonine at 1 ng/10 mg of hair;
 - (B) cocaethylene at 1 ng/10 mg of hair;
- (3) opiate and metabolites: 5 ng/10 mg of hair; opiate and metabolites include the following:
 - (A) codeine;
 - (B) 6-monoacetylmorphine (heroin metabolite);
 - (C) morphine;
- (4) phencyclidine: 3 ng/10 mg of hair;
- (5) amphetamines: 5 ng/10 mg of hair; amphetamines include the following:
 - (A) amphetamines.
 - (B) methamphetamines.

(b) These test levels are subject to change by the Department as advances in technology or other considerations warrant identification of these substances at other concentrations.

(c) All hair specimens undergoing confirmation shall be decontaminated using an approved wash procedure which has been published in the peer reviewed literature which at least, has an initial fifteen (15) minute organic solvent wash followed by multiple (at least three) thirty (30) minute aqueous washes and one final one hour aqueous wash.

(d) After hair is washed, the drug entrapped in the hair shall be released either by digestion (chemical or enzymatic) or by multiple solvent extractions. The resulting digest or pooled solvent extracts shall then be confirmed by approved methods.

(e) All confirmation analysis methods must eliminate the melanin fraction of the hair before analysis. If a non-digestion method is used, the laboratory must present published data in the peer reviewed literature from a large population study which indicates that their method of extraction does not possess a statistically significant hair color bias.

(f) Additional hair samples may be collected to reconfirm the initial report. The recollected sample shall be retested as specified, however, the confirmation analysis shall be performed even if the screening test is negative. A second positive report shall be made if the drug concentration in the digest by confirmation methods exceeds the limit of quantitation of the testing laboratory's method. A second test shall be offered to anyone disputing a positive hair test result.

(g) To assist the Review Officer in the interpretation of results, officers may order sectioning of a hair sample (e.g. segmenting hair into 0.5 inches sections, which is about one months growth, each analyzed separately). The sectioning may occur on the original and any subsequent sample submitted for testing.

[Source: Added at 17 Ok Reg 381, eff 11-1-99 (emergency); Added at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 18 Ok Reg 3592, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1050, eff 5-13-02]

310:638-1-7.2. Cutoff levels for drug confirmation testing in saliva

(a) All specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/MS), or an equivalent accepted method of equal or greater accuracy as approved by

the Commissioner of Health. The manufacturer of the saliva test system shall establish confirmation cutoff levels to be used when confirming saliva specimens that screen positive. Such cutoffs shall be consistently applied for all saliva testing using that test system. All confirmations shall be by quantitative analysis. Concentrations which exceed the linear region of the standard curve shall be documented in the testing facility record as "greater than the highest standard curve value."

(b) All confirmation testing on saliva shall be performed on the same specimen that was identified as positive on the initial screen.

[Source: Added at 24 Ok Reg 1183, eff 4-2-07 (emergency); Added at 25 Ok Reg 2436, eff 7-11-08]

310:638-1-8. Urine specimen collection procedures

(a) **Designation of collection site.** Each urine drug testing program shall have one or more designated collection sites which have all necessary personnel, materials, equipment, facilities, and supervision to provide for the collection, security, temporary storage, and shipping or transportation of urine specimens to a licensed drug testing facility.

(b) **Security.** Procedures shall provide for the designated collection site to be secure. If a collection site facility is dedicated solely to urine collection, it shall be secure at all times. If a facility cannot be dedicated solely to drug testing, the portion of the facility used for testing shall be secured during drug testing.

(c) **Chain of custody.** Chain of custody standardized forms shall be properly executed by authorized collection site personnel upon receipt of specimens. Handling and transportation of urine specimens from one authorized individual or place to another shall always be accomplished through chain of custody procedures. Every effort shall be made to minimize the number of persons handling specimens.

(d) **Access to authorized personnel only.** No unauthorized personnel shall be permitted in any part of the designated collection site when urine specimens are collected or stored.

(e) **Privacy.** Procedures for collecting urine specimens shall allow individual privacy. No employer or representative, agent or designee of the employer shall directly observe an applicant or employee in the process of producing a urine sample, provided collection occurs in a manner reasonably calculated to prevent substitutions or interference with the collection or testing of reliable samples.

(f) **Integrity and identity of specimen.** Precautions shall be taken to ensure that a urine specimen is not adulterated or diluted during the collection procedure and that information on the urine specimen bottle and on the chain of custody form can identify the individual from whom the specimen was collected. The following minimum precautions shall be taken to ensure that unadulterated specimens are obtained and correctly identified:

- (1) To deter the dilution of specimens at the collection site, toilet bluing agents shall be placed in toilet tanks wherever possible, so the reservoir of water in the toilet bowl always remains blue. There shall be no other source of water i.e., no shower or sink, in the enclosure where urination occurs.

(2) When an individual arrives at the collection site, the collection site person shall request the individual to present photo identification. If the individual does not have proper photo identification, the collection site person shall contact the supervisor of the individual, the coordinator of the drug testing program, or any other employer official who can positively identify the individual. If the individual's identity cannot be established, the collection site person shall not proceed with the collection.

(3) If the individual fails to arrive at the assigned time, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(4) The collection site person shall ask the individual to remove any unnecessary outer garments such as a coat or jacket that might conceal items or substances that could be used to tamper with or adulterate the individual's urine specimen. The collection site person shall ensure that all personal belongings such as a purse or briefcase remain with the outer garments. The individual may retain his or her wallet.

(5) The individual shall be instructed to wash and dry his or her hands prior to urination.

(6) After washing hands, the individual shall remain in the presence of the collection site person and shall not have access to any water fountain, faucet, soap dispenser, cleaning agent or any other materials which may be used to adulterate the specimen.

(7) The individual may provide the specimen in the privacy of a stall or otherwise partitioned area that allows for individual privacy.

(8) The collection site person shall note any unusual behavior or appearance on the chain of custody form.

(9) In the exceptional event that a drug testing program designated collection site is not accessible and there is an immediate requirement for specimen collection (e.g., an accident investigation), a public rest room may be used according to the following procedures: A collection site person of the same gender as the individual shall accompany the individual into the public rest room which shall be made secure during the collection procedure. If possible, a toilet bluing agent shall be placed in the bowl and any accessible toilet tank. The collection site person shall remain in the rest room, but outside the stall, until the specimen is collected. If no bluing agent is available to deter specimen dilution, the collection site person shall instruct the individual not to flush the toilet until the specimen is delivered to the collection site person. After the collection site person has possession of the specimen, the individual shall be instructed to flush the toilet and to participate with the collection site person in completing the chain of custody procedures.

(10) Upon receiving the specimen from the individual, the collection site person shall determine that it contains at least forty-five (45) ml of urine under the split sample method of collection or thirty (30) ml of urine under the single sample

method of collection.

(A) If drug testing is to be conducted in a testing facility which performs both the initial screening test and the confirmatory test at the same location, urine may be collected under either the single sample method of collection, or the split sample method of collection.

(B) If drug testing is to be conducted in a testing facility which performs only the initial screening test, the split sample method of collection shall be used.

(i) **Split sample collection method.**

(I) The donor shall urinate into a container or a specimen bottle capable of holding at least sixty (60) ml.

(II) If a collection container is used, the collection site person, in the presence of the donor, pours the urine into two specimen bottles. Thirty (30) ml shall be poured into one bottle, to be used as the primary specimen. At least fifteen (15) ml shall be poured into the other bottle, to be used as the split specimen.

(III) If a single specimen bottle is used as a collection container, the collection site person shall pour thirty (30) ml of urine from the specimen bottle into a second specimen bottle to be used as the primary specimen and retain the remainder, i.e., at least fifteen (15) ml, in the collection bottle to be used as the split specimen.

(IV) Both bottles shall be shipped in a single shipping container to the testing facility.

(ii) **Single sample collection method.**

(I) The collection site person may choose to direct the donor to urinate either directly into a specimen bottle or into a separate collection container.

(II) If a separate collection container is used, the collection site person shall pour at least thirty (30) ml of the urine from the collection container into the specimen bottle in the presence of the donor.

(C) In either collection methodology, upon receiving the specimen from the donor, the collection site person shall determine if it has at least thirty (30) ml of urine for the primary or single specimen bottle, and where the split specimen collection method is used, an additional fifteen (15) ml of urine for the split specimen bottle. If the individual is unable to provide such a quantity of urine, the collection site person shall instruct the individual to drink not more than twenty-four (24) ounces of fluids and, after a period of up to two (2) hours, again attempt to provide a

complete sample using a fresh collection container. The original insufficient specimen shall be discarded. If the donor is still unable to provide an adequate specimen, the insufficient specimen shall be discarded, testing discontinued, and an official of the drug testing program so notified.

(11) After the specimen has been provided and submitted to the collection site person, the individual shall be allowed to wash his or her hands.

(12) Immediately after the specimen is collected, the collection site person shall measure the temperature of the specimen. The temperature measuring device used shall accurately reflect the temperature of the specimen and not contaminate the specimen. The time from urination to temperature measurement is critical and in no case shall exceed four (4) minutes.

(13) If the temperature of a specimen is outside the range of 32 - 37°C/90 - 100°F, that is a reason to believe that the individual did alter or substitute the specimen, and another specimen shall be collected under direct observation of a same gender collection site person and both specimens shall be forwarded to the testing facility for testing. An individual may volunteer to have an oral temperature taken to provide evidence to counter the reason to believe the individual did alter or substitute the specimen caused by the specimen's temperature falling outside the prescribed range.

(14) Immediately after the specimen is collected, the collection site person shall also inspect the specimen to determine its color and look for any signs of contaminants such as unusual odor or sudsing. Any unusual findings shall be noted on the chain of custody form.

(15) All specimens suspected of being adulterated shall be forwarded to the testing facility for testing.

(16) Whenever there is reason to believe that a particular individual did alter or substitute the specimen provided, a second specimen shall be obtained as soon as possible under the direct observation of a same gender collection site person.

(17) Both the individual being tested and the collection site person shall keep the specimen in view at all times prior to its being sealed and labeled. If the specimen is transferred to a second bottle, the collection site person shall request the individual to observe the transfer of the specimen and the placement of the tamper-proof seal over the bottle cap and down the sides of the bottle.

(18) The collection site person and the individual shall be present at the same time during procedures outlined in paragraphs (f)

(19) - (f)(22) of this section.

(19) The collection site person shall place securely on the bottle an identification label which contains the date, the individual's specimen number, and any other identifying information provided or required by the drug testing program.

(20) The individual shall initial the identification label on the specimen bottle for the purpose of certifying that it is the specimen collected from the individual.

(21) The collection site person shall indicate on the chain of custody form all information identifying the specimen. The collection site person shall sign the chain of custody form next to the identifying information.

(22) The individual shall be asked to read and sign a statement certifying that the specimen identified as having been collected from the individual is in fact that specimen the individual provided.

(23) A higher level supervisor shall review and concur in advance with any decision by a collection site person to obtain a specimen under the direct observation of a same gender collection site person based on a reason to believe that the individual did alter or substitute the specimen provided.

(24) The collection site person shall complete the chain of custody form.

(g) **Collection control.** To the maximum extent possible, collection site personnel shall keep the individual's specimen bottle within sight both before and after the individual has urinated. After the specimen is collected, it shall be properly sealed and labeled. An approved chain of custody form shall be used for maintaining control and accountability of each specimen from the point of collection to final disposition of the specimen. The date and purpose shall be documented on an approved chain of custody form each time a specimen is handled or transferred and every individual in the chain shall be identified. Every effort shall be made to minimize the number of persons handling specimens.

(h) **Transportation to the testing facility.** Collection site personnel shall arrange to transport the collected specimens to the drug testing facility. The specimens shall be placed in containers designed to minimize the possibility of damage during transport, for example, specimen boxes or padded mailers; and those containers shall be securely sealed to eliminate the possibility of undetected tampering. On the tape sealing the container, the collection site supervisor shall sign and enter the date specimens were sealed in the container for transfer. The collection site personnel shall ensure that the chain of custody documentation is sealed separately from the specimen and placed inside the container sealed for transfer to the drug testing facility.

310:638-1-8.1. Hair specimen collection procedures

(a) **Designation of collection site.** Each hair drug testing program shall have one (1) or more designated collection sites which have all necessary personnel, material, equipment, facilities, and supervision to provide for the collection, security, temporary storage, and shipping or transportation of hair specimens to a licensed drug testing facility.

(b) **Security.** While security is important with any collection, in the case of hair, only the temporary storage area in the designated collection site needs to be secure.

(c) **Chain of custody.** Chain of custody standardized forms shall be properly executed by authorized collection site personnel upon receipt of specimens. Handling and transportation of hair specimens from one authorized individual or place to another shall always be accomplished through chain of custody procedures. Every effort shall be made to minimize the number of persons handling specimens.

(d) **Access to authorized personnel only.** The hair collection site shall be off limits to unauthorized personnel during the actual collection of specimens.

(e) **Privacy.** Procedures for collecting hair shall be performed on one individual at a time to prevent substitutions or interference with the collection of reliable samples.

(f) **Integrity and identity of specimen.** Precautions shall be taken to ensure that the root end of a hair specimen is indicated for the testing facility who performs the testing. The maximum length of hair that shall be tested is 3.9 cm distal from the skin. This length may be changed if a review officer requests the testing of proximal segments to assist their evaluation of testing data. The collection of pubic hair is not permitted. The information on the hair specimen container and on the chain of custody form shall identify the individual from whom the specimen was collected. The following minimum precautions shall be taken when collecting a hair specimen to ensure specimens are obtained and correctly identified.

(1) When an individual arrives at the collection site, the collection site person shall request the individual to present photo identification. If the individual does not have proper photo identification, the collection site person shall contact the supervisor of the individual, the coordinator of the drug testing program, or any other employer official who can positively identify the individual. If the individual's identity cannot be established, the collection site person shall not proceed with the collection.

(2) If the individual fails to arrive at the assigned time, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(3) The collection site person shall note any unusual behavior or appearance on the chain of custody form.

(4) Hair shall be cut as close to the scalp as possible. Upon taking the specimen from the individual, the collection site person shall determine that it contains approximately 1/2 inch of hair when fanned out on a ruler (e.g. about 40 mg of hair).

(5) Both the individual being tested and the collection site person shall keep the specimen in view at all times prior to the specimen container being sealed with a tamper resistant seal and labeled with the individual's specimen number and other required information.

(6) The collection site person shall label the container which contains the hair with the date, the individual's specimen number,

and any other identifying information provided or required by the drug testing program.

(7) The individual shall initial the container for the purpose of certifying that it is the specimen collected from the individual.

(8) The collection site person shall indicate on the chain of custody form all information identifying the specimen. The collection site person shall sign the chain of custody form next to the identifying information or the chain of custody on the specimen container.

(9) The individual shall be asked to read and sign a statement certifying that the specimen identified as having been collected from the individual is in fact the specimen the individual provided.

(10) The collection site person shall complete the chain of custody form.

(g) **Collection control.** To the maximum extent possible, collection site personnel shall keep the individual's specimen container within sight both before and after collection. After the specimen is collected, it shall be properly sealed and labeled. An approved chain of custody form shall be used for maintaining control and accountability of each specimen from the point of collection to final disposition of the specimen. The date and purpose shall be documented on an approved chain of custody form each time a specimen is handled or transferred and every individual in the chain shall be identified. Every effort shall be made to minimize the number of persons handling specimens.

(h) **Transportation to the testing facility.** Collection site personnel shall arrange to transport the collected specimens to the drug testing facility. The specimens shall be placed in containers which shall be securely sealed to eliminate the possibility of undetected tampering. The collection site personnel shall ensure that the chain of custody documentation is sealed separately from the specimen and placed inside the container sealed for transfer to the drug testing facility.

310:638-1-8.2. Saliva specimen collection procedures

(a) **Designation of collection site.** Each saliva drug testing program shall have one (1) or more designated collection sites which have all necessary personnel, material, equipment, facilities, and supervision to provide for the collection, security, temporary storage, and shipping or transportation of saliva specimens to a licensed drug testing facility.

(b) **Security.** While security is important with any collection, in the case of saliva, only the temporary storage area in the designated collection site needs to be secure.

(c) **Chain of custody.** Chain of custody standardized forms shall be properly executed by authorized collection site personnel upon receipt of specimens. Handling and transportation of saliva specimens from one authorized individual or place to another shall always be accomplished through chain of custody procedures. Every effort shall be made to minimize the number of persons handling specimens.

(d) **Access to authorized personnel only.** The saliva collection site shall be off limits to unauthorized personnel during the actual collection of specimens.

(e) **Privacy.** Procedures for collecting saliva shall be performed on one individual at a time to prevent substitutions or interference with the collection of reliable samples.

(f) **Integrity and identity of specimen.** Saliva shall be collected in a device approved by the Federal Food and Drug Administration and according to the instructions provided by the manufacturer of the saliva collection device. The information on the saliva specimen container and on the chain of custody form shall identify the individual from whom the specimen was collected. The following minimum precautions shall be taken when collecting a saliva specimen to ensure specimens are obtained and correctly identified.

(1) When an individual arrives at the collection site, the collection site person shall request the individual to present photo identification. If the individual does not have proper photo identification, the collection site person shall contact the supervisor of the individual, the coordinator of the drug testing program, or any other employer official who can positively identify the individual. If the individual's identity cannot be established, the collection site person shall not proceed with the collection.

(2) If the individual fails to arrive at the assigned time, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(3) The collection site person shall note any unusual behavior or appearance on the chain of custody form.

(4) Both the individual being tested and the collection site person shall keep the specimen in view at all times prior to the specimen container being sealed with a tamper resistant seal and labeled with the individual's specimen number and other required information.

(6) The collection site person shall label the container which contains the saliva with the date, the individual's specimen number, and any other identifying information provided or required by the drug testing program.

(7) The individual shall initial the container for the purpose of certifying that it is the specimen collected from the individual.

(8) The collection site person shall indicate on the chain of custody form all information identifying the specimen. The collection site person shall sign the chain of custody form next to the identifying information or the chain of custody on the specimen container.

(9) The individual shall be asked to read and sign a statement certifying that the specimen identified as having been collected from the individual is in fact the specimen the individual provided.

(10) The collection site person shall complete the chain of custody form.

(g) **Collection control.** To the maximum extent possible, collection site personnel shall keep the individual's specimen container within sight

both before and after collection. After the specimen is collected, it shall be properly sealed and labeled. An approved chain of custody form shall be used for maintaining control and accountability of each specimen from the point of collection to final disposition of the specimen. The date and purpose shall be documented on an approved chain of custody form each time a specimen is handled or transferred and every individual in the chain shall be identified. Every effort shall be made to minimize the number of persons handling specimens.

(h) **Transportation to the testing facility.** Collection site personnel shall arrange to transport the collected specimens to the drug testing facility. The specimens shall be placed in containers which shall be securely sealed to eliminate the possibility of undetected tampering. The collection site personnel shall ensure that the chain of custody documentation is sealed separately from the specimen and placed inside the container sealed for transfer to the drug testing facility.

310:638-1-9. Training and qualifications of review officers

(a) The Review Officer is a person responsible for receiving testing facility results generated by an employer's drug and alcohol testing program and who has knowledge of substance abuse disorders and has appropriate training to interpret and evaluate an individual's positive test result together with the individual's medical history and any other relevant biomedical information.

(b) The Review Officer shall possess the following minimum qualifications:

(1) Be licensed to practice medicine and surgery or osteopathic medicine or hold an earned doctoral degree from an accredited institution in clinical chemistry, forensic toxicology, or a similar biomedical science; and

(2) Have completed at least twelve (12) hours of training appropriate for Review Officers provided by the Medical Review Officer Certification Council, American Association of Medical Review Officers, or another organization approved by the Commissioner of Health.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-1-10. Training and qualifications of collection site personnel

(a) Collection procedures and training shall clearly emphasize that the collection site person is responsible for maintaining the integrity of the specimen collection and transfer process, carefully ensuring the modesty and privacy of the donor.

(b) A collection site person shall have successfully completed documented training to carry out this function or shall be a licensed medical professional or technician who acknowledges in writing he or she has been provided instructions for collection as described at OAC 310:638-1-8 , 310:638-1-8.1, or 310:638-1-8.2.

(1) A non-medical collection site person shall receive appropriate training in collection procedures as described at OAC 310:638-1-8, 310:638-1-8.1, or 310:638-1-8.2 and shall demonstrate proficiency in the application of these collection procedures prior to serving as a collection site person. A medical professional, technologist, or technician licensed or otherwise approved to practice in the jurisdiction in which the collection takes place is not required to receive such training if that person acknowledges in writing the receipt of instructions for collection as described at OAC 310:638-1-8, 310:638-1-8.1, or 310:638-1-8.2.

(2) Collection site persons shall be provided with detailed, clear instructions on the collection of specimens in compliance with OAC 310:638-1-8, 310:638-1-8.1, or 310:638-1-8.2. Employer representatives and donors subject to testing shall also be provided standard written instructions setting forth their responsibilities.

SUBCHAPTER 3. ADMINISTRATION

310:638-3-1. Testing facilities eligible for licensure

(a) **Intrastate licensure.** Testing facilities located within the State of Oklahoma shall be licensed by the Department in accordance with this Chapter in order to provide laboratory services to an employer to test for the presence or absence of drugs or alcohol.

(b) **Interstate licensure.** Testing facilities located outside the State of Oklahoma which are certified for forensic urine drug testing by the United States Department of Health and Human Services, accredited for forensic urine drug testing by the College of American Pathologists or licensed by a State acceptable to the Department are eligible for licensure in accordance with this Chapter to provide laboratory services to an employer to test for the presence or absence of drugs or alcohol.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00]

310:638-3-2. Licensure fee

The fee for licensure of each testing facility shall be one hundred fifty dollars (\$150.00) annually. Licenses shall be renewed annually provided the provisions of this Chapter are met.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-3-3. Procedures for licensure

- (a) Application for licensure shall be made on a form prescribed by the Commissioner of Health by the director of the applicant testing facility.
- (1) A separate application shall be completed for each testing facility location, except that a testing facility which is not at a fixed location, that is, a testing facility that moves from testing site to testing site, shall complete a single application using the address of its designated primary site.
- (2) Each van or other mobile unit providing laboratory services to an employer to test for the presence or absence of drugs or alcohol shall complete a separate application using the address of the designated primary site or home base.
- (b) The license fee shall be paid at the time of application for each application completed and filed. The license fee is non-refundable.
- (c) Prior to licensure, in addition to the completed application and licensure fee, each drug screen testing facility shall provide:
- (1) Proof of enrollment and satisfactory performance in an approved proficiency testing program in accordance with OAC 310:638-5-10;
- (2) The names and qualifications of all technical staff in accordance with OAC 310:638-5-2;
- (3) The name and address of the testing facility(s) utilized for confirmation testing.
- (d) Prior to licensure, in addition to the completed application and licensure fee, each testing facility seeking licensure based on certification by the United States Department of Health and Human Services, accreditation by the College of American Pathologists or licensed by a State acceptable to the Department, shall submit proof of current certification, accreditation, or licensure and shall be deemed to meet licensure requirements.
- (e) Upon satisfying the requirements for licensure, the testing facility shall be issued the appropriate class of license for initial screening for drugs and/or alcohol or confirmatory testing for drugs and/or alcohol or both.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00]

310:638-3-4. Interim licensure procedures [REVOKED]

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-3-5. Transfer of ownership of a testing facility

- (a) The license for a testing facility is not transferable or assignable.
- (b) If an entity is considering acquisition of a licensed testing facility, an application for licensure with the one hundred fifty dollar (\$150.00) fee shall be filed with the Department prior to the effective date of the change.

(c) No license shall be transferred from one location to another unless the Department is notified. If a testing facility is considering relocation, the testing facility shall notify the Department thirty (30) days prior to the intended relocation. The Department shall provide written notification to the testing facility amending the annual license to reflect the new location.

(d) Upon the effective date of a change of ownership or upon cessation of operation of a testing facility, the current license shall be returned to the Department. The testing facility shall advise the Department in writing at the time of cessation of operation where testing facility records shall be archived and how such records shall be accessed.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-3-6. Enforcement

(a) **Revocation, suspension, or nonrenewal of license.** The license of a testing facility may be revoked, suspended, or nonrenewed upon the filing of an individual proceeding in accordance with Chapter 2 of this Title.

(b) **Factors to consider.** The following factors shall be considered in determining whether revocation, suspension, or nonrenewal is necessary:

- (1) Unsatisfactory performance in analyzing and reporting the results of drug or alcohol tests;
- (2) Unsuccessful performance in proficiency testing or testing facility inspections;
- (3) Failure to conduct confirmatory testing of a positive drug or alcohol test obtained on the initial screening test;
- (4) Conviction of any criminal offense committed as an incident to operation of the testing facility;
- (5) Loss of certified, licensed or accredited status by the certifying, licensing or accrediting body, or failure to notify the Department of loss of certification, licensure or accreditation as required by this Chapter;
- (6) Failure to detect the presence or absence of a drug or drugs in blind performance test specimens if an employer chooses to submit such specimens;
- (7) Failure to comply with any provision of the Act or this Chapter;
- (8) Any other cause which materially affects the ability of the testing facility to ensure full reliability and accuracy of drug or alcohol tests and the accurate reporting of results.

(c) **Period and terms.** The period and terms of revocation, suspension, or nonrenewal shall be determined by the Commissioner of Health and shall depend on the facts and circumstances of the revocation, suspension, or nonrenewal and the need to ensure accurate and reliable drug and alcohol testing of the employees.

(d) **Following revocation, suspension, or nonrenewal of license.** Upon revocation, suspension, or nonrenewal of the intrastate license a testing facility located in Oklahoma shall cease all drug and alcohol testing. Upon revocation, suspension, or nonrenewal of the interstate

license a testing facility located outside the State of Oklahoma shall cease all drug and alcohol testing for Oklahoma employers. Revocation, suspension, or nonrenewal of the license may be appealed in accordance with the Oklahoma Administrative Procedures Act (75 O.S. Sections 309 et seq.)

(e) **Reinstatement of testing facility license.** Following the termination or expiration of any suspension, revocation, or nonrenewal, a testing facility may apply for reinstatement. Upon submission of evidence satisfactory to the Commissioner of Health that the testing facility is in compliance with this Chapter and any conditions imposed as part of the suspension, revocation, or nonrenewal, the Commissioner of Health may reinstate the testing facility. If the license issued to a testing facility has been suspended, revoked, or nonrenewed because of unsuccessful performance in proficiency testing, the reinstatement shall only occur after the testing facility has demonstrated satisfactory performance on three consecutive proficiency testing events.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00]

310:638-3-7. Inspections

(a) Completed applications received by the Department for initial licensure, licensure renewal, or for licensure reinstatement shall constitute consent for an on-site inspection during normal operating hours by representatives of the Department.

(b) Testing facilities as well as collection sites associated with a testing facility are subject to inspection during normal operating hours any time an on-site inspection is deemed necessary by the Commissioner of Health to protect the health and welfare of the public.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

SUBCHAPTER 5. DRUG SCREEN TESTING FACILITIES

310:638-5-1. Eligibility

Drug screen testing facilities shall comply with applicable Federal, State, and local laws.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-5-2. Personnel

The drug screen testing facility shall contract with, or employ, the following personnel to perform, supervise, and report drug screen tests:

- (1) **Director.** The drug screen testing facility shall have a qualified individual to assume professional, organizational, educational, and administrative responsibility for the drug screen

testing facility. The director shall possess the following minimum qualifications:

- (A) A bachelor's degree from an accredited institution in the chemical, biological, or physical sciences or medical laboratory science; and two (2) or more years of full-time drug testing experience; or
- (B) A bachelor's degree from an accredited institution; and four (4) or more years of full-time drug testing experience; or
- (C) An associate's degree from an accredited institution in the chemical, biological, or physical sciences or a medical laboratory science; and three (3) or more years of full-time drug testing experience.

(2) **Director responsibilities.** The director shall be engaged in, and be responsible for, the management of the drug screen testing facility even where another individual has overall responsibility for an entire multispecialty testing facility.

(A) The director shall be responsible for ensuring that there are sufficient personnel with adequate training and experience to supervise and conduct the work of the drug screen testing facility. The director shall ensure the continued competency of drug screen testing facility personnel by documenting their inservice training, reviewing their work performance, and verifying their skills.

(B) The director shall be responsible for the drug screen testing facility having a procedure manual which is complete, up-to-date, available for personnel performing tests, and followed by those personnel. The procedure manual shall be reviewed, signed, and dated by the director whenever procedures are first placed into use, or changed, or when a new individual assumes responsibility for direction of the drug screen testing facility. Copies of all procedures and dates on which they are in effect shall be maintained.

(C) The director shall be responsible:

- (i) for maintaining a quality assurance program to ensure the proper performance and reporting of all test results;
- (ii) for maintaining acceptable analytical performance for all controls and standards;
- (iii) for maintaining quality control testing; and
- (iv) for assuring and documenting the validity, reliability, accuracy, precision, and performance characteristics of each test and test system.

(D) The director shall be responsible for assuring all necessary action is taken to maintain satisfactory operation and performance of the drug screen testing facility in response to quality control systems not being within performance specifications, errors in result reporting or in analysis of performance testing results.

The director shall ensure that sample results are not reported until all corrective actions have been taken and he or she can ensure that the test results provided are accurate and reliable.

(3) **General supervisor.** A qualified general supervisor shall be on the premises during all hours in which tests are performed. The general supervisor shall be responsible for day-to-day operations and supervision of analysts. The general supervisor shall possess the following minimum qualifications:

(A) A high school diploma or equivalent and documented training by the manufacturer, or other qualified person, in the operation and maintenance of the test system utilized, to include the instrumentation, test reagents, calibration and quality control materials, and any other equipment or supplies required in the performance of the drug screen testing procedure; and

(B) Have training and experience in the theory and practice of the procedures used in the drug screen testing facility, resulting in a thorough understanding of:

- (i) quality control practices and procedures;
- (ii) the review, interpretation, and reporting of test results;
- (iii) maintenance of chain of custody; and
- (iv) proper remedial actions to be taken in response to test systems being out of control limits or detecting aberrant test or quality control results.

(4) **Test validation.** The drug screen testing facility shall have a qualified individual(s) who reviews all pertinent data and quality control results in order to attest to the validity of the drug screen testing facility's test reports. A drug screen testing facility may designate more than one person to perform this function. This individual(s) shall be any employee who is qualified as director or general supervisor.

(5) **Other personnel.** Other technical or nontechnical staff shall have the necessary training and skills for the tasks assigned, and shall perform only those procedures that require a degree of skill commensurate with their training, education, and technical ability.

(6) **Training.** The drug screen testing facility shall make available continuing education programs to meet the needs of facility personnel.

(7) **Personnel records.** Personnel records shall include at least the following:

- (A) verification of education;
- (B) initial skills orientation program;
- (C) resume of training and experience;
- (D) documentation of continuing education;
- (E) certification or license, if any;
- (F) references;
- (G) job descriptions;

- (H) records of performance evaluation and advancement;
- (I) incident reports; and
- (J) results of tests which establish employee competency.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08 ; Amended at 37 Ok Reg 1421, eff 9-11-20]

310:638-5-3. Security and chain of custody

- (a) Drug screen testing facilities shall be secure at all times. They shall have in place sufficient security measures to control access to the premises and to ensure that no unauthorized personnel handle specimens or gain access to testing facility processes or to areas where records are stored. Access to these secured areas shall be limited to specifically authorized individuals whose authorization is documented. With the exception of personnel authorized to conduct inspections on behalf of federal or state agencies, all authorized visitors and maintenance and service personnel shall be escorted at all times. Documentation of individuals accessing these areas, dates, time of entry, and purpose of entry shall be maintained.
- (b) Drug screen testing facilities shall use internal chain of custody procedures to maintain control and accountability of specimens from receipt through completion of screening, reporting of results, during storage, and continuing until final disposition of specimens. The date and purpose shall be documented on an appropriate chain of custody form each time a specimen is handled or transferred, and every individual in the chain shall be identified. Authorized drug screen testing facility personnel shall be responsible for each specimen or aliquot in their possession and shall sign and complete chain of custody forms for those specimens or aliquots as they are received.
- (c) When specimens are received, drug screen testing facility personnel shall inspect each package for evidence of possible tampering and compare information on specimen bottles and containers within each package to the information on the accompanying chain of custody forms. Any direct evidence of tampering or discrepancies in the information on specimen bottles and containers and the agency's chain of custody forms shall be immediately reported to the employer and shall be noted on the drug screen testing facility's chain of custody form which shall accompany the specimens while they are in the drug screen testing facility's possession.
- (d) Specimen bottles shall normally be retained within the drug screen testing facility's accession area until all analyses have been completed. Aliquots and the drug screen testing facility's chain of custody forms shall be used by drug screen testing facility personnel for conducting initial screening tests.
- (e) Urine specimens shall be tested for adulteration.
- (f) Testing facilities shall perform integrity checks on saliva specimens as required by facility policy.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07]

310:638-5-4. Methods of analysis and specimen storage

(a) Methods of analysis.

(1) Licensed drug screen testing facilities shall have the capability of performing initial screening for the following classes of drugs or their metabolites: marijuana and cocaine, using an immunoassay which meets the requirements of the United States Food and Drug Administration for commercial distribution or another approved screening procedure or if prepared in-house by the testing facility, documented evidence shall exist indicating that the antibody meets acceptable performance criteria.

(2) Initial screening shall be completed within forty-eight (48) hours following receipt of the specimen by the testing facility. If the initial screening cannot be completed within forty-eight (48) hours, the specimen shall not be accepted or shall be sent to another testing facility for screening.

(3) If the drug screen testing facility is not certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists all specimens that do not test negative shall be forwarded to an appropriate testing facility for confirmation.

(4) All confirmatory urine or saliva drug testing shall be performed by a testing facility that is certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists.

(5) No positive urine or saliva drug screen shall be reported to the Review Officer until the positive initial screen has been confirmed as required. If the employer operates a drug screen testing facility, the employer shall not base any employment decision on a positive urine drug screen until the positive initial test has been confirmed and reviewed.

(6) No positive hair drug screen shall be reported to the Review Officer until the positive initial screen has been decontaminated and confirmed by the same laboratory.

(b) Specimen storage.

(1) Urine specimens that do not receive an initial test within twenty-four (24) hours of arrival at the drug screen testing facility shall be placed in secure refrigeration units where the temperatures do not exceed 6°C. Urine testing facilities shall have emergency power equipment or other appropriate storage shall be available in case of a prolonged power failure.

(2) The drug screen testing facility shall log in the split specimen, with the split specimen bottle seal remaining intact. The drug screen testing facility shall store this sample securely as in 310:638-5-4(b)(1).

(3) If the result of the primary specimen is negative, the drug screen testing facility may discard the split specimen. If the result of the test of the primary specimen is positive, the drug screen

testing facility shall forward the split specimen, using appropriate chain of custody procedures, to a qualified testing facility for confirmation testing. The drug screen testing facility shall ensure the confirmatory testing facility retains the split specimen in properly secured frozen storage (-20°C or less) for a minimum of one (1) year.

(4) Because some analytes deteriorate or are lost during freezing and/or storage, quantitation for a retest is not subject to a specific cutoff requirement but must provide data sufficient to confirm the presence of the drug or metabolite.

(5) Saliva specimens shall be stored and transported as required by the manufacturer of the collection device.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-5-5. Internal review and certification of test results

(a) The drug screen testing facility shall report positive test results to the employer's Review Officer within an average of five (5) working days after receipt of the specimen by the drug screen testing facility. Before any test result is reported (the results of initial tests, confirmatory tests, or quality control data), it shall be reviewed and the test certified as an accurate report by the responsible individual. The report shall identify the drugs/metabolites tested for, whether positive or negative, and the cutoff for each, the specimen number assigned by the employer, and the drug screen testing facility specimen identification number.

(b) *A testing facility shall report single-use test results that meet the standard to be sent to the laboratory for confirmation testing to an employer's review officer, or a designee of the employer's review officer, as soon as the results for the single-use test become available or the next working day. The final conclusion of the testing, which shall include the results of the single-use tests, confirmatory tests, or quality control data, shall be reviewed and the test certified as an accurate report by the responsible individual.* [Title 40 O.S. § 559.1]

(c) The drug screen testing facility shall report as negative all specimens which are negative on the initial test or negative on the confirmatory test. Only specimens confirmed positive shall be reported as positive for a specific drug.

(d) The Review Officer may request from the drug screen testing facility and the drug screen testing facility shall provide quantitation of test results. The Review Officer shall not disclose quantitation of test results to the employer but shall report only whether the test was positive or negative.

(e) The drug screen testing facility may transmit results to the Review Officer by electronic means, i.e., teleprinters, facsimile, or computer, in a manner designed to ensure confidentiality of the information. Results shall not be provided verbally by telephone. The drug screen testing facility shall ensure the security of the data transmission and limit access to any data transmission, storage, and retrieval system.

(f) The drug screen testing facility shall send to the Review Officer the positive drug test results, which shall be signed by the individual responsible for the day-to-day management of the drug screen testing facility or the individual responsible for attesting to the validity of the test reports.

(g) All results reported to the employer shall be by the same source.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:638-5-6. Records and procedure manual

(a) **Records.** The drug screen testing facility shall maintain and make available for at least two (2) years documentation of all aspects of the testing process.

(1) The required documentation shall include:

- (A) personnel files on all individuals authorized to have access to specimens;
- (B) chain of custody documents;
- (C) quality assurance/quality control records;
- (D) procedure manuals;
- (E) all test data, including calibration curves and any calculations used in determining test results;
- (F) reports;
- (G) performance records on proficiency testing;
- (H) performance on certification inspections; and
- (I) hard copies of computer-generated data or another read-only computerized data storage system that produces exact duplicates of the reported result.

(2) The drug screen testing facility shall maintain documents for any specimen under legal challenge for an indefinite period.

(b) **Procedure manual.** Each drug screen testing facility shall have a procedure manual which includes the principles of each test, preparation of reagents, standards and controls, calibration procedures, derivation of results, linearity of methods, sensitivity of the methods, cutoff values, mechanisms for reporting results, controls, criteria for unacceptable specimens and results, remedial actions to be taken when the test systems are outside of acceptable limits, reagents and expiration dates, and references. Copies of all procedures and dates on which they are in effect shall be maintained as part of the manual.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00]

310:638-5-7. Instruments and equipment

(a) Volumetric pipettes and measuring devices shall be certified for accuracy or be checked by gravimetric, colorimetric, or other verification procedure. Automatic pipettes and diluters shall be checked for accuracy and reproducibility before being placed in service and periodically thereafter.

(b) There shall be written procedures for instrument set-up and normal operation, a schedule for checking critical operating characteristics for all instruments, tolerance limits for acceptable function checks and instructions for major trouble shooting and repair. Records shall be available on preventive maintenance.

(c) There shall be written procedures for the actions to be taken when systems are out of acceptable limits or errors are detected. There shall be documentation that these procedures are followed and that all necessary corrective actions are taken. There shall also be in place systems to verify all stages of testing and reporting and documentation that these procedures are followed.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-5-8. Standards and controls

(a) Drug screen testing facility standards shall be prepared with pure drug standards which are properly labeled as to content and concentration. The standards shall be labeled with the following dates:

- (1) when received;
- (2) when prepared or opened;
- (3) when placed in service; and
- (4) expiration date.

(b) Purchase, storage, and use of all drug standards shall conform to all Federal, State, and local laws.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-5-9. Quality assurance and quality control

(a) **Quality assurance.** Drug screen testing facilities shall have a quality assurance program which encompasses all aspects of the testing process including but not limited to specimen acquisition, chain of custody, security and reporting of results, initial and confirmatory testing, and validation of analytical procedures. Quality assurance procedures shall be designed, implemented, and reviewed to monitor the conduct of each step of the process of testing for drugs.

(b) **Quality control.**

- (1) Each analytical run of specimens to be screened shall include:
 - (A) Urine, hair, or saliva specimens certified to contain no drug;
 - (B) Urine, hair, or saliva positive controls with the drug or metabolite at or near the threshold (cutoff).
- (2) Implementation of procedures to ensure that carryover does not contaminate the testing of an individual's specimen shall be documented.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

310:638-5-10. Proficiency testing

(a) Enrollment and performance.

- (1) Each drug screening and/or confirmation testing facility shall enroll and demonstrate satisfactory performance in a Department approved proficiency testing program established by an independent group which contains those drugs and metabolites for which urine, hair, or saliva is routinely screened.
- (2) The drug testing facility shall satisfactorily perform in one proficiency testing event prior to initial licensure and demonstrate continued satisfactory performance to maintain licensure.
- (3) The drug testing facility shall authorize the proficiency testing service to send results to the Oklahoma State Department of Health for review. The drug testing facility shall maintain records which shall document the handling, processing and examination of all proficiency testing samples for a minimum of two (2) years from the date of testing.
- (4) The drug testing facility shall ensure that proficiency testing samples are analyzed at least three (3) times each year using the same techniques as those employed for screening unknown specimens.
- (5) The proficiency testing samples shall be included with the routine sample run and tested with the same frequency as unknown samples by the individuals responsible for testing unknown specimens.
- (6) The drug testing facility shall not engage in discussions or communications concerning proficiency testing results with other drug testing facilities nor shall they send proficiency testing samples or portions of the samples to another drug testing facility for analysis.

(b) Satisfactory performance.

- (1) The drug testing facility shall maintain an overall testing event score of at least eighty (80) percent for proficiency testing performance to be considered satisfactory.
- (2) Failure to participate in a proficiency testing event shall result in a score of zero (0) percent for the testing event.

(c) Unsuccessful performance. Failure to achieve satisfactory performance in two (2) consecutive testing events, or two (2) out of three (3) consecutive testing events, shall be determined to be unsuccessful performance.

[Source: Added at 11 Ok Reg 4339, eff 7-14-94 (emergency); Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 17 Ok Reg 381, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2045, eff 6-12-00 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2436, eff 7-11-08]

SUBCHAPTER 7. ALCOHOL TESTING FACILITIES

310:638-7-1. Qualifications of alcohol testing facilities

(a) Testing facilities conducting alcohol screening tests shall meet the requirements of this subchapter to be eligible for licensure as an alcohol testing facility.

(b) Testing facilities conducting blood alcohol or urine alcohol confirmation testing shall be certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists and meet the provisions of this subchapter to be eligible for licensure as an alcohol testing facility.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-2. Notification requirements

All alcohol testing facilities licensed by the Department based on certification by the United States Department of Health and Human Services or accreditation by the College of American Pathologists shall notify the Department in writing within ten (10) days of the loss of such certification or accreditation.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-3. Testing locations for alcohol screening device and evidential breath testing (EBT) devices

(a) Each testing facility shall conduct alcohol testing in a location that affords visual and aural privacy to the individual being tested, sufficient to prevent unauthorized persons from seeing or hearing test results. All necessary equipment, personnel, and materials for alcohol testing shall be provided at the location where testing is conducted.

(b) A testing facility may use a mobile collection facility, e.g., a van equipped for alcohol testing, that meets the requirements of OAC 310:638-7-3(a).

(c) In unusual circumstances, e.g., when it is essential to conduct a test outdoors at the scene of an accident, a test may be conducted at a location that does not fully meet the requirements of OAC 310:638-7-3(a). In such a case the testing facility or testing personnel shall provide visual and aural privacy to the employee to the greatest extent practicable.

(d) The testing personnel shall supervise alcohol device testing of only one (1) employee at a time. The testing personnel shall not leave the alcohol testing location while the testing procedure for a given employee is in progress.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-4. Initial alcohol screening tests

(a) **Cutoff level for initial alcohol screening tests.** An alcohol concentration of 0.02 or greater shall be considered a positive initial test for alcohol and shall be confirmed as required. A positive result obtained utilizing an alcohol screening device which meets the requirements at OAC 310:638-7-4(b) shall be considered a positive initial test for alcohol and shall be confirmed as required.

(b) Alcohol screening device and initial blood tests.

(1) All alcohol screening devices with the exception of evidential breath testing devices (EBT) shall comply with the requirements specified in the National Highway Traffic Safety Administration's Model Specifications for Screening Devices to Measure Alcohol in Bodily Fluids (59 FR 7372).

(2) Evidential breath testing devices shall comply with the National Highway Traffic Safety Administration's Model Specifications for Evidential Breath Testing Devices (58 FR 48705) and be included on the Conforming Products List (59 FR 18839).

(3) All alcohol screening device and initial blood testing shall follow the manufacturer's instructions for test system operation and test performance.

(4) Enzyme blood tests for alcohol initial testing shall be used only under limited circumstances when an alcohol screening device, EBT, or appropriately trained breath alcohol technician (BAT) is not readily available to conduct alcohol testing by another method. Blood alcohol testing is not intended to be an equal alternative method to saliva or breath testing which an employer may choose as a matter of preference.

(c) Procedures for alcohol screening device tests.

(1) When the employee enters the alcohol testing location, the testing personnel shall require the individual to provide positive identification, e.g., through use of a photo I.D. card or identification by an employer representative.

(2) Alcohol testing facilities shall use internal chain of custody procedures to maintain control and accountability of specimens from receipt through completion of screening, reporting of results, during storage (if applicable), and continuing until final disposition of specimens. Each chain of custody/test report form shall include a unique sequential test identification number.

(3) There shall be a log book that is used to identify every test conducted unless an EBT is used. The log book shall include the unique sequential test identification number and the date of the test. The log book or the chain of custody form shall include the test identification number, date and time of the test, name of the testing personnel, location of the test, and test result. If the test is conducted using a disposable alcohol screening device, the log book or chain of custody form shall also contain the manufacturer's lot number and expiration date for each device used. Log books, chain of custody forms, and test results shall be maintained in a confidential manner secured from unauthorized review.

(4) The testing personnel shall explain the testing procedure to the employee, and the test shall then be conducted according to the manufacturer's instructions and the results recorded on the chain of custody/test report form.

(5) The testing personnel and employee shall sign a statement certifying the performance and results of the alcohol screening test.

(6) In any case in which the result of the screening test is an alcohol concentration of less than 0.02, no further testing is authorized. The testing personnel shall transmit the result of less than 0.02 to the employer in a confidential manner, and the employer shall receive and store the information so as to ensure that confidentiality is maintained.

(7) If the result of the screening test is an alcohol concentration of 0.02 or greater, a confirmation test shall be performed as described at OAC 310:638-7-6 or OAC 310:638-7-7.

(d) Procedures for enzyme initial alcohol blood tests.

(1) Blood used for initial alcohol tests shall be collected as specified at OAC 310:638-7-7(a), however, at least three (3), five (5) milliliter samples of blood shall be collected. One (1) sample shall be used for the test performance and two (2) samples shall remain unopened and securely stored under refrigeration at two (2) to eight (8) degrees centigrade for possible confirmation testing. Collection control and transportation of specimens to the testing facility shall comply with OAC 310:638-7-7(b) & (c).

(2) The enzyme initial alcohol test shall be performed as specified by the test manufacturer's instructions and the results shall be recorded on the chain of custody/test report form. If the result of this analysis is an alcohol concentration of less than 0.02, the alcohol testing facility shall transmit the test result to the employer as negative. If the alcohol concentration is 0.02 or greater, a blood alcohol confirmation test shall be performed as described at OAC 310:638-7-7.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-5. Cutoff level and alcohol confirmation tests

All positive initial alcohol screening tests shall be confirmed using breath analyzed by an EBT or blood analyzed by gas chromatography (GC). A test performed on blood and analyzed by gas chromatography shall be considered a confirmed alcohol test. An alcohol concentration of 0.02 or greater shall be considered a positive confirmation test for alcohol.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-6. Breath alcohol confirmation tests

(a) The breath alcohol technician.

(1) The breath alcohol technician (BAT) shall be trained to proficiency in the operation of the EBT(s) the BAT is using and in the alcohol testing procedures of this chapter.

(2) Proficiency shall be demonstrated by successful completion of a course of instruction which, at a minimum, provides the following:

(A) Training in the principles of EBT methodology, operation and calibration checks;

(B) The fundamentals of breath analysis for alcohol content; and

(C) Procedures required in this chapter for obtaining a breath sample, and interpreting and recording EBT results.

(3) Only courses of instruction for operation of EBTs that are equivalent to the United States Department of Transportation model course, as determined by the National Highway Traffic Safety Administration (NHTSA), shall be used to train BATs to proficiency.

(4) The course of instruction shall provide documentation that the BAT has demonstrated competence in the operation of the specific EBT(s) the BAT shall use.

(5) Any BAT who shall perform an external calibration check of an EBT shall be trained to proficiency in conducting the check on the particular model of EBT, to include practical experience and demonstrated competence in preparing the breath alcohol simulator or alcohol standard, and in maintenance and calibration of the EBT.

(6) The BAT shall receive additional training, as needed, to ensure proficiency, concerning new or additional devices or changes in technology that the BAT will use.

(7) The alcohol testing facility or its agent shall establish documentation of the training and proficiency test of each BAT it uses to test employees and maintain the documentation as required at OAC 310:638-7-11(a)(3).

(8) A BAT, who is a qualified supervisor of an employee, may conduct the alcohol confirmation test for that employee only if another BAT is unavailable to perform the test in a timely manner.

(9) Law enforcement officers who have been certified by state or local governments to conduct breath alcohol testing are deemed to be qualified as BATs. The officer shall have been certified by a state or local government to use the EBT that is to be used for the test.

(b) **Devices for breath alcohol confirmation tests.** For confirmation tests, alcohol testing facilities shall use EBTs that meet the following requirements:

(1) EBTs shall have the capability of providing, independently or by direct link to a separate printer, a printed result of each breath test;

(2) EBTs shall be capable of assigning a unique and sequential number to each completed test, with the number capable of being read by the BAT and the employee before each test and being printed out along with the test result.

(3) EBTs shall be capable of printing out the manufacturer's name for the device, the device's serial number, and the time of the test.

(4) EBTs shall be able to distinguish alcohol from acetone at the 0.02 alcohol concentration level.

(5) EBTs shall be capable of testing an air blank prior to each collection of breath; and

(6) EBTs shall be capable of performing an external calibration check.

(c) Quality assurance plans for EBTs.

(1) In order to be used in confirmation alcohol testing an EBT shall have a quality assurance plan (QAP) developed by the manufacturer.

(2) The QAP shall designate the method or methods to be used to perform external calibration checks of the device, using only calibration devices on the NHTSA "Conforming Products List of Calibrating Units for Breath Alcohol Tests."

(3) The QAP shall specify the minimum intervals for performing external calibration checks of the device. Intervals shall be specified for different frequencies of use, environmental conditions, e.g., temperature, altitude, humidity, and contexts of operation, e.g., stationary or mobile use.

(4) The QAP shall specify the tolerances on an external calibration check within which the EBT is regarded to be in proper calibration.

(5) The QAP shall specify inspection, maintenance, and calibration requirements and intervals for the device.

(6) The alcohol testing facility shall comply with the quality assurance plan for each EBT it uses for alcohol screening or confirmation testing.

(7) The alcohol testing facility shall ensure that external calibration checks of each EBT are performed as provided in the QAP.

(8) The alcohol testing facility shall take an EBT out of service if any external calibration check results in a reading outside the tolerances for the EBT specified in the QAP. The EBT shall not be used for alcohol testing until it has been serviced and had an external calibration check resulting in a reading within the tolerances for the EBT.

(9) The alcohol testing facility shall ensure that inspection, maintenance, and calibration of each EBT are performed by the manufacturer or a manufacturer's representative as required. The alcohol testing facility shall also ensure that each BAT or other individual who performs an external calibration check of an EBT has demonstrated proficiency in conducting such a check of the model of EBT in question.

(10) The alcohol testing facility shall maintain records of the external calibration checks of EBTs as required at OAC 310:6387-11(c).

(11) When the alcohol testing facility is not using the EBT at an alcohol testing site, the employer shall store the EBT in a secure space.

(d) Chain of custody. Alcohol testing facilities shall use internal chain of custody procedures to maintain control and accountability of specimens from receipt through completion of testing, reporting of results, during storage (if applicable), and continuing until final disposition of specimens. Each chain of custody/test report form shall include a unique test identification number.

(e) Procedures for confirmation tests.

(1) If the BAT conducting the confirmation test is not the person who conducted the screening test, the BAT shall follow the procedures at OAC 310:638-7-4(c)(1).

(2) The BAT shall instruct the employee not to eat, drink, put any object or substance in the mouth, and, to the extent possible, not belch during a waiting period before the confirmation test. This time period begins with the completion of the screening test, and shall not be less than fifteen (15) minutes. The confirmation test shall be conducted within twenty (20) minutes of the completion of the screening test. The BAT shall explain to the employee the reason for this requirement, i.e., to prevent any accumulation of mouth alcohol leading to an artificially high reading, and that it is for the employee's benefit. The BAT shall also explain that the test shall be conducted at the end of the waiting period, even if the employee has disregarded the instruction. If the BAT becomes aware that the employee has not complied with this instruction, the BAT shall so note in the "Remarks" section of the chain of custody/test report form.

(3) Before the confirmation test is administered for each employee, the BAT shall ensure that the EBT registers 0.00 on an air blank. If the reading is greater than 0.00, the BAT shall conduct one more air blank. If the reading is greater than 0.00, testing shall not proceed using that instrument. However, testing may proceed on another instrument.

(4) Before the confirmation test is administered for each employee, the BAT shall ensure that he or she and the employee read the sequential number displayed on the EBT and confirm that the number matches the number on the chain of custody/test report form.

(5) Any EBT taken out of service because of failure to perform an air blank accurately shall not be used for testing until a check of external calibration is conducted and the EBT is found to be within tolerance limits.

(6) An individually sealed mouthpiece shall be opened in view of the employee and BAT and attached to the EBT in accordance with the manufacturer's instructions.

(7) The BAT shall instruct the employee to blow forcefully into the mouthpiece for at least six (6) seconds or until the EBT indicates that an adequate amount of breath has been obtained.

(8) In the event that the screening and confirmation test results are not identical, the confirmation test result shall be deemed to be the final result.

(9) If the EBT provides a printed result, but does not print the results directly onto the chain of custody/test report form, the BAT shall show the employee the result displayed on the EBT. The BAT shall then affix the test result printout to the chain of custody/test report form in the designated space, using a method that shall provide clear evidence of removal, e.g., tamper-evident tape. The printout shall include the test result and the sequential number.

(10) If the EBT prints the test results directly onto the chain of custody/test report form, the BAT shall show the employee the result displayed on the EBT. The printout shall include the test result and the sequential number.

(11) The testing personnel and employee shall sign a statement included on the chain of custody/test report form certifying the performance and results of the alcohol confirmation test.

(12) If a test result printed by the EBT does not match the displayed result, the BAT shall note the disparity in the "Remarks" section. Both the employee and the BAT shall initial or sign the notation. The test shall be invalid and the employer and employee shall be so advised.

(13) The BAT shall transmit all results to the employer in a confidential manner.

(14) An employer shall designate at least one (1) employer representatives for the purpose of receiving and handling alcohol testing results in a confidential manner. All communications by BATs to the employer concerning the alcohol testing results of employees shall be to a designated employer representative. The employer shall store the information so as to ensure confidentiality is maintained.

(15) Such transmission shall be in writing, in person, or by electronic means, but the BAT shall ensure immediate transmission to the employer of results that require the employer to prevent the employee from performing a safety-sensitive function.

(f) Refusal to test and uncompleted tests.

(1) Refusal by an employee to sign the certification statement, to provide breath, to provide an adequate amount of breath, or otherwise not cooperate with the testing process in a way that prevents the completion of the test, shall be noted by the BAT in the "Remarks" section of the chain of custody/test report form. The testing process shall be terminated and the BAT shall immediately notify the employer.

(2) If a confirmation test cannot be completed, or if an event occurs that invalidates the test, the BAT shall, if practicable, begin a new confirmation test, as applicable, using a new chain of custody/test report form with a new sequential test number.

(g) Inability to provide an adequate amount of breath.

(1) The following procedures shall be completed in any case in which an employee is unable, or alleges an inability, to provide an amount of breath sufficient to permit a valid breath test because of a medical condition.

(2) The BAT shall again instruct the employee to attempt to provide an adequate amount of breath. If the employee refuses to make the attempt, the BAT shall immediately inform the employer.

(3) If the employee attempts and fails to provide an adequate amount of breath, the BAT shall so note in the "Remarks" section of the chain of custody/test report form and immediately inform the employer.

(4) If the employee attempts and fails to provide an adequate amount of breath, the employer shall proceed as follows:

(A) The employer shall direct the employee to obtain, as soon as practical after the attempted provision of breath, an evaluation from a licensed physician who is acceptable to the employer concerning the employee's medical ability to provide an adequate amount of breath.

(B) If the physician determines that a medical condition has, or with a high degree of probability, could have, precluded the employee from providing an adequate amount of breath, the employee's failure to provide an adequate amount of breath shall not be deemed a refusal to take a test. The physician shall provide to the employer a written statement of the basis for this conclusion.

(C) If the physician is unable to make the determination set forth at OAC 310:638-7-6(g)(2)(i), the employee's failure to provide an adequate amount of breath shall be regarded as a refusal to take a test. The physician shall provide a written statement of the basis for this conclusion to the employer.

(h) **Invalid tests.** A breath alcohol test shall be invalid under the following circumstances:

(1) The next external calibration check of an EBT produces a result that differs by more than the tolerance stated in the QAP from the known value of the test standard. In this event, every test result of 0.02 or above obtained on the device since the last valid external calibration check shall be invalid;

(2) The BAT does not observe the minimum fifteen (15) minute waiting period prior to the confirmation test, as provided at OAC 310:638-7-6(e)(2);

(3) The BAT does not perform an air blank of the EBT before a confirmation test, or an air blank does not result in a reading of 0.00 prior to or after the administration of the test, as provided at OAC 310:638-7-6(e)(3);

(4) The BAT does not sign the chain of custody/test report form as required;

(5) The BAT fails to note on the "Remarks" section of the chain of custody/test report form that the employee failed or refused to sign the form following the recording or printing on, or attachment to, the form of the test result;

(6) An EBT fails to print a confirmation test result; or

(7) The sequential test number of alcohol concentration displayed on the EBT is not the same as the sequential test number of alcohol concentration on the printed result.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-7. Blood alcohol confirmation tests

(a) **Collection procedures for blood alcohol tests.** Personnel who collect blood for alcohol tests shall be licensed, certified, or otherwise

authorized to withdraw blood in accordance with Federal, State, and local laws.

(1) Blood shall be withdrawn in accordance with accepted medical practices using at least the following items:

- (A) A suitable clean, sterile, dry tube with inert closure, containing the appropriate anticoagulant(s) and preservative(s) for alcohol analysis by gas chromatography;
- (B) A chain of custody form;
- (C) A label for the tube;
- (D) A sterile, non-alcoholic swab; and
- (E) An appropriate, disposable blood extraction device.

(2) Blood shall be withdrawn by venipuncture, after appropriate preparation of the puncture site, and with necessary precautions to maintain asepsis and avoid contamination of specimens.

Puncture site preparation and skin cleansing- shall be performed without the use of alcohol or other volatile organic disinfectants.

(3) At least two (2), five (5) milliliter samples of blood shall be collected directly in or immediately deposited into suitable tubes as described at OAC 310:638-7-7(a). The collection personnel shall immediately label the tube as required by chain of custody procedures and transport to the testing facility as specified at OAC 310:638-7-7(c).

(4) Collection personnel shall use blood alcohol collection materials in accordance with the supplier's instructions, and as required to meet the specimen requirements of the testing facility. Collection personnel shall not use collection materials after their expiration date. Collection personnel shall not re-use a blood extraction device.

(b) **Collection control.** Chain of custody standardized forms shall be properly executed by authorized collection site personnel upon collection of specimens. Handling and transportation of blood specimens from one (1) authorized individual or place to another shall always be accomplished through chain of custody procedures. Every effort shall be made to minimize the number of persons handling specimens.

(c) **Transportation to the testing facility.** Collection site personnel shall arrange to transport the collected specimens to the alcohol testing facility. The specimens shall be placed in containers designed to minimize the possibility of damage during transport, e.g., specimen boxes or padded mailers; and those containers shall be securely sealed to eliminate the possibility of undetected tampering. On the tape sealing the tube, the collection site supervisor shall sign and enter the date specimens were sealed in the container for transfer. The collection site personnel shall ensure that the chain of custody documentation is placed in each container sealed for transfer to the alcohol testing facility.

(d) **Methods of analysis and result reporting.** The alcohol testing facility shall analyze an unopened sample for its alcohol concentration using gas chromatography. If the result of this analysis is an alcohol concentration of less than 0.02, the alcohol testing facility shall transmit the test result to the employer as negative. If the alcohol concentration is 0.02 or greater, the alcohol testing facility shall transmit the quantitative

result to the Review Officer. One (1) sample shall remain unopened and refrigerated at two (2) to eight (8) degrees centigrade for at least one (1) year for further confirmation or the challenge of results by the employee. The alcohol testing facility shall transmit the results of alcohol confirmation tests to the employer in a confidential manner, and the employer shall receive and store the information so as to ensure that confidentiality is maintained.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 16 Ok Reg 2514, eff 6-25-99]

310:638-7-8. Rehabilitation/post-rehabilitation urine alcohol testing

(a) **Criteria for urine alcohol testing.** Urine shall be considered an appropriate specimen for alcohol testing only when monitoring an employee's compliance with program requirements during the course of a substance abuse rehabilitation program and for a defined time period after completion of such a substance abuse rehabilitation program. The period of time an employee shall be subject to urine alcohol testing after completion of a substance abuse rehabilitation program shall be specified by the employer's written policy or as part of a written agreement between employer and employee. Urine shall not be considered an appropriate specimen for alcohol testing under any other conditions.

(b) **Cutoff levels for urine alcohol testing.** A urine alcohol concentration of 0.02 or greater shall be considered a positive initial test for alcohol. A urine alcohol concentration of 0.02 or greater shall be considered a positive confirmation test for alcohol.

(c) **Urine specimen collection procedures.** Urine for rehabilitation/post-rehabilitation alcohol testing shall be collected as required for urine drug testing as described at OAC 310:638-1-8 by collection site personnel who meet the qualifications and training requirements at OAC 310:638-1-10.

(d) **Urine alcohol tests.**

(1) All initial urine alcohol screening tests shall be performed using gas chromatography or an enzyme assay which meets the requirements of the United States Food and Drug Administration for commercial distribution or another approved screening procedure. A test performed on urine and analyzed by gas chromatography shall be considered a confirmed urine alcohol test.

(2) All specimens identified as positive on the initial test shall be confirmed using gas chromatography, or an equivalent accepted method of equal or greater accuracy approved by the Commissioner of Health. All confirmations shall be by quantitative analysis. Concentrations which exceed the linear region of the standard curve shall be documented in the testing facility record as "greater than the highest standard curve value."

(3) If the urine alcohol testing facility is not certified for forensic urine drug testing by the United States Department of Health and Human Services or accredited for forensic urine drug testing by the College of American Pathologists the urine alcohol testing

facility shall meet the requirements at OAC 310:638-5-1 through OAC 310:638-5-9 for drug screen testing facilities with the exception of OAC 310:638-5-4(a)(1) for initial urine alcohol testing.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-9. Internal review and certification of results

(a) The testing facility shall report positive test results to the employer's Review Officer within an average of five (5) working days after receipt of the specimen by the testing facility. Before any test result is reported, including the results of initial tests, confirmatory tests, or quality control data, it shall be reviewed and the test certified as an accurate report by the responsible individual. The report shall quantify the concentration of alcohol (ethanol), whether positive or negative, the cutoff, the specimen number assigned by the employer, and the testing facility specimen identification number.

(b) *A testing facility shall report single-use test results that meet the standard to be sent to the laboratory for confirmation testing to an employer's review officer, or a designee of the employer's review officer, as soon as the results for the single-use test become available or the next working day. The final conclusion of the testing, which shall include the results of the single-use tests, confirmatory tests, or quality control data, shall be reviewed and the test certified as an accurate report by the responsible individual.* [Title 40 O.S. § 559.1]

(c) The testing facility shall report as negative all specimens which are negative on the initial test or negative on the confirmatory test. Only specimens confirmed positive shall be reported as positive.

(d) The Review Officer shall not disclose quantitation of test results to the employer but shall report only whether the test was positive or negative.

(e) The testing facility may transmit results to the Review Officer by electronic means, i.e., teleprinters, facsimile, or computer, in a manner designed to ensure confidentiality of the information. Results shall not be provided verbally by telephone. The testing facility shall ensure the security of the data transmission and limit access to any data transmission, storage, and retrieval system.

(f) The testing facility shall send to the Review Officer positive alcohol test results, which shall be signed by the individual responsible for the day-to-day management of the testing facility or the individual responsible for attesting to the validity of the test reports.

(g) All results reported to the employer shall be by the same source.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

310:638-7-10. Proficiency testing

(a) Enrollment and performance.

(1) The testing facility performing blood and/or urine alcohol testing shall enroll in and demonstrate satisfactory performance in an approved proficiency testing program for the blood and/or

urine alcohol testing method(s) it performs.

(2) The testing facility performing blood and/or urine alcohol testing shall satisfactorily perform at least one (1) proficiency testing event prior to initial licensure and demonstrate continued satisfactory performance to maintain licensure.

(3) The testing facility performing blood and/or urine alcohol testing shall authorize the proficiency testing service to send results to the Oklahoma State Department of Health for review. The testing facility shall maintain records which shall document the handling, processing and examination of all proficiency testing samples for at least two (2) years from the date of testing.

(4) The testing facility performing blood and/or urine alcohol testing shall ensure that proficiency testing samples are analyzed at least three (3) times each year using the same techniques as those employed for screening unknown specimens.

(5) The proficiency testing samples shall be included with the routine sample run and tested with the same frequency as unknown samples by the individuals responsible for testing unknown specimens.

(6) The testing facility performing blood and/or urine alcohol testing shall not engage in discussions or communications concerning proficiency testing results with other testing facilities nor shall they send proficiency testing samples or portions of the samples to another testing facility for analysis.

(b) Satisfactory performance.

(1) The testing facility performing blood and/or urine alcohol testing shall maintain an overall testing event score of at least eighty (80) percent for proficiency testing performance to be considered satisfactory.

(2) Failure to participate in a proficiency testing event shall result in a score of zero (0) percent for the testing event.

(c) Unsuccessful performance. Failure to achieve satisfactory performance in two (2) consecutive testing events, or two (2) of three (3) consecutive testing events, shall be determined to be unsuccessful performance.

[Source: Added at 12 Ok Reg 517, eff 12-12-94 (emergency); Added at 12 Ok Reg 3069, eff 7-27-95]

310:638-7-11. Maintenance of records

(a) EBTs and BATs. Each alcohol testing facility or its agent shall maintain the following records for at least two (2) years:

(1) Records of the inspection and maintenance of each EBT used in employee testing;

(2) Documentation of the alcohol testing facility's compliance with the QAP for each EBT it uses for alcohol testing;

(3) Records of the training and proficiency testing of each BAT used in employee testing;

(4) Records of tests performed. Records shall include copies of chain of custody forms and test results. These records shall be maintained in a confidential manner secured from unauthorized

review.

(b) **Other screening and confirmatory testing.** Each alcohol testing facility or its agent shall maintain the following records for at least two (2) years:

- (1) Records of the inspection and maintenance of each device/instrument used in employee testing;
- (2) Records of proficiency testing results;
- (3) Records of tests performed, including log books, copies of chain of custody forms, and test reports. These records shall be maintained in a confidential manner secured from unauthorized review.

(c) **Calibration records.** Each alcohol testing facility or its agent shall maintain for at least five (5) years records pertaining to the calibration of each device/instrument used in alcohol testing, including records of the results of external EBT calibration checks.

[Source: Codified 5-1-92]

SUBCHAPTER 1. GENERAL EMS PROGRAMS

PART 1. GENERAL PROVISIONS

310:641-1-1. Purpose

The purpose of this Chapter is to implement the "Oklahoma Emergency Response Systems Development Act" as established at Title 63 O.S. Section 1-2501 et seq., as amended (the Act), and:

- (1) to describe and give a cross-reference to the several other subchapters of emergency medical service rules, and
- (2) to provide definitions and implement emergency medical service law.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-1-2. Emergency medical service rules [REVOKED]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Revoked at 33 Ok Reg 1529, eff 9-11-16]

310:641-1-3. Impersonation, assault, battery, penalties

(a) *Every person who willfully delays, obstructs or in any way interferes with an emergency medical technician or other emergency medical care provider in the performance of or attempt to perform emergency medical care and treatment or in going to or returning from the scene of a medical emergency, upon conviction, is guilty of a misdemeanor punishable by imprisonment in the county jail not exceeding six (6) months, or by a fine not to exceed Five Hundred Dollars (\$500.00), or by both such fine and imprisonment [Section 650.3 of Title 21, Oklahoma Statutes].*

(b) *Every person who, without justifiable or excusable cause and with intent to do bodily harm, commits any assault, battery or assault and battery upon the person of an emergency medical care provider who is performing medical care duties, upon conviction, is guilty of a felony punishable by imprisonment in the custody of the Department of Corrections for a term not exceeding two (2) years, or by a fine not exceeding One Thousand Dollars (\$1,000.00), or by both such fine and imprisonment [Section 650.4 of Title 21, Oklahoma Statutes].*

(c) *It is unlawful for any person to knowingly discharge, or cause to be discharged, any electrical stun gun, tear gas weapon, mace, tear gas, pepper mace or any similar deleterious agent against another person knowing the other person to be a peace officer, corrections officer, probation or parole officer, firefighter, or an emergency medical technician or paramedic who is acting in the course of official duty. Any*

person violating the provisions of this section, upon conviction, shall be guilty of a felony punishable by imprisonment in the custody of the Department of Corrections for a term of not exceeding ten (10) years, or by imprisonment in the county jail for a term of not exceeding one (1) year [Section 1272.3 of Title 21, Oklahoma Statutes].

(d) Except as provided in subsection B of this section, every person who falsely personates any public officer, civil or military, any firefighter, any law enforcement officer, any emergency medical technician or other emergency medical care provider, or any private individual having special authority by law to perform any act affecting the rights or interests of another, or who assumes, without authority, any uniform or badge by which such officers or persons are usually distinguished, and in such assumed character does any act whereby another person is injured, defrauded, harassed, vexed or annoyed, upon conviction, is guilty of a misdemeanor punishable by imprisonment in the county jail not exceeding six (6) months, or by a fine not exceeding Two Thousand Dollars (\$2,000.00), or by both such fine and imprisonment [Section 1533 of Title 21, Oklahoma Statutes].

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-1-4. Purpose, authority and indoor tobacco smoke

(a) The purpose of this section is to establish a prevention program for several non-communicable diseases, which will improve the health of Oklahomans by eliminating exposure to secondhand tobacco smoke and its deadly effects. This section abates the public health nuisance of secondhand smoke under the authority of the Commissioner of Health as specified under Section 1-106(b)(1) of Title 63 of the Oklahoma Statutes. This section also further specifies how compliance with the Smoking in Public Places Act will be accomplished. [63 O.S. §§ 1-1521 *et seq.*]

(b) The Commissioner of Health has conducted a study and is recommending these measures to the Board of Health under his authority as stated in section 1-106 of the Public Health Code. [63 O.S. § 1-106] The Board has the authority to establish prevention programs for non-communicable disease and to promulgate rules for the control of causative or toxic substances, which can cause disease under section 1-502b of the Public Health Code. [63 O.S. § 1-502b] The Board is adopting this rule under its authority in sections 1-104 and 1-1526 of Title 63 of the Oklahoma Statutes. [63 O.S. §§ 1-104 & 1-1526]

(c) Smoking or possessing a lighted tobacco product is prohibited in an ambulance or stretcher aid van.

[Source: Added at 19 Ok Reg 2087, eff 7-1-02]

310:641-1-7. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**ACLS**" means Advanced Cardiac Life Support.

"**Act**" means the "Oklahoma Emergency Response Systems Development Act".

"Advanced Emergency Medical Technician" means an AEMT as licensed pursuant to the Act or this chapter.

"Advanced Life Support (ALS) Emergency Medical Services Training Program" means an organization approved by the Department to conduct the following ALS training: Emergency Medical Responder, Emergency Medical Responder Refresher, Emergency Medical Technician, Emergency Medical Technician Refresher, Advanced Emergency Medical Technician, Advanced Emergency Medical Technician Refresher, Intermediate Refresher, Paramedic, Paramedic Refresher, Continuing Education at the Intermediate and Paramedic Levels, and such other courses of instruction that may be designated by the Department.

"Agency" means a Ground Ambulance Service, Specialty Care Ambulance Service, Stretcher Van Service, Air Ambulance Service, or Emergency Medical Response Agency.

"AHA" means the American Heart Association.

"Ambulance" means *any ground, air or water vehicle which is or should be approved by the Commissioner of Health, designed and equipped to transport a patient or patients and to provide appropriate on-scene and en route patient stabilization and care as required. Vehicles used as ambulances shall meet such standards as may be required by the State Board of health for approval, and shall display evidence of such approval at all times.* [Title 63 O.S. Section 1-2503].

"Base Station" means a location from which an ambulance responds. The Base Station may include the principle business office, living quarters for personnel training, and communication center.

"Basic Life Support (BLS) Emergency Medical Services Training Program" means an organization approved by the Department to conduct the following BLS training: Emergency Medical Responder, Emergency Medical Responder Refresher, Emergency Medical Technician Basic, Emergency Medical Technician Basic Refresher, Continuing Education at the Emergency Medical Technician Basic level, and such other courses of instruction that may be designated by the Department.

"BLS" means Basic Life Support, and includes cardiopulmonary resuscitation (CPR) and utilization of Semi-Automated Advisory Defibrillator (SAAD).

"Board" means the State Board of Health.

"Call Log" or **"request for service log"** means a summary of all requests for service that an agency receives, regardless of disposition.

"Call Received" means that a call has been received by an agency when enough information has been received to begin responding to a request for service.

"Certificate" means any certification or certificate issued by the Department, pursuant to the Act or this Chapter.

"Clinical Coordinator" means the individual designated in writing by a training program as responsible for coordination and supervision of clinical experiences.

"Clinical Experience" means all supervised learning experiences required and included as part of a training course in which the student provides or observes direct patient care. This includes vehicular

experiences with a licensed ambulance service.

"Council" means the Oklahoma Trauma and Emergency Response Advisory Council.

"Critical Care Paramedic" means an Oklahoma licensed Paramedic that has received additional training to provide specialized care to patients during interfacility transfers and has provided his or her registration information to the Department.

"Department" means the State Department of Health.

"Distance Learning" is instruction of didactic portions of curriculum which requires participation of the instructor and students but does not require the students to be physically present in the same location as the instructor.

"Distributive Education" means educational activity, in which the learner, the instructor, and the educational materials are not all present in the same place at the same time, e.g., continuing education activities that are offered on the Internet, via CD ROM or video, or through journal articles or audio tapes.

"Documents, Records, or Copies" means an electronic or paper copy maintained at the agency, on units, or provided to receiving facilities.

"DOT" means the United States Department of Transportation.

"Division" means the Emergency Medical Services Division.

"Emergency" means the patient being treated or transported is in an immediate risk of dying or losing a limb.

"Emergency Medical Dispatcher (EMD)" means a person trained using a Department-approved curriculum for the management of calls for emergency medical care.

"Emergency Medical Personnel" means all certified and licensed personnel which provide emergency medical care for an ambulance service.

"Emergency Medical Responder" means a person who has successfully completed a state-approved course using the national standard Emergency Medical Responder curriculum and passed a competency- based examination from a state approved testing agency such as the National Registry of EMTs.

"Emergency Medical Response Agency" or "EMRA" means a person, company, or governmental entity that will utilize certified or licensed emergency medical personnel to provide emergency care but does not transport or transfer patients to a facility. The Department will provide two types of certification.

(A) Pre-hospital EMRAs will operate as part of an Emergency Medical System, responding to requests for service within a response area, supporting and being supported by a licensed ambulance service.

(B) Event Stand-by EMRAs will operate or contract for on-site medical care at locations that are open to the public or that will respond to the public. These types of EMRAs are certified to standby at a location or site and provide medical care to the public.

"EMS" means Emergency Medical Services.

"Emergency Medical System" means a network of hospitals, different ambulance services, and other healthcare providers that exist in the state.

"Emergency Medical Technician (EMT)" means an individual licensed by the Department as an Emergency Medical Technician, formerly known as an EMT-B or Basic.

"Emergency transfer" means the movement of an acutely ill or injured patient from the scene to a health care facility (pre-hospital), or the movement of an acutely ill or injured patient from one health care facility to another health care facility (interfacility).

"Emergency Vehicle Operators Course" means a course that is meant to improve existing driving skills and familiarize an emergency vehicle operator or driver with the unique characteristics of driving emergency vehicles.

"En route Time" means the elapsed time from the time the emergency call is received by the EMS agency until the ambulance and complete crew is en route to the scene of the emergency.

"FDA Class One Device" means a device that is not life-supporting or life-sustaining and does not present a reasonable source of injury through normal usage. In the regulatory context, this applies to the stretcher/gurney and its locking system within the unit or vehicle.

"First Aid" means help given to the sick or injured person until full medical treatment arrives or is available. It is the initial response to an injury or illness, which can be given by a non-professional as soon as a medical problem arises.

"Ground ambulance service" means an ambulance service licensed at the basic, intermediate, advanced or paramedic life support level as provided in Subchapter 3. It does not mean a specialty care service licensed pursuant to Subchapter 11 or a stretcher van service licensed pursuant to Subchapter 17.

"Initial Certification or Initial Licensure" means the first certification or license that an applicant receives after an initial course, or the license or certification an applicant receives after the previous license or certification expired.

"Intermediate" means an Emergency Medical Technician-Intermediate as licensed pursuant to the Act or this chapter.

"Instructor" means a Department approved instructor that is certified to provide instruction at one of three levels:

(A) Level 1 Instructors teach Emergency Medical Responder courses, refresher and continuing education classes.

(B) Level 2 Instructors can teach all courses allowed for Level 1 Instructors, plus initial certification and licensure courses.

(C) Level 3 instructors can teach all courses allowed for Level 1 and Level 2 instructors, plus initial instructor courses, refresher courses, and instructor continuing education.

"Lapse in Medical Direction" means the Medical Director for an agency has not been accessible to the agency for a period of time as detailed with the agency's policies and agreement.

"Lead Instructor" means the lead instructor based on accreditation requirements.

"License" means any license issued by the Department, pursuant to the Act or this Chapter.

"Licensed Service Area" means the contiguous geographical area identified in an initial ambulance service application or in an amendment to an existing license. The geographic area is identified by the application and supported with documents provided by the local governmental jurisdictions. For ground ambulance services, this is the geographic area the ambulance service has a duty to act within.

"Medical Control Physician" or **"Medical Director"** means the licensed physician (M.D. or D.O.) that authorizes certified or licensed emergency medical personnel to perform procedures and interventions detailed in the agency's approved protocols.

"NHTSA" means National Highway Traffic Safety Administration.

"National Registry" means the National Registry of Emergency Medical Technicians (NREMT), Columbus, Ohio.

"Non-emergency" means the patient being treated or transported is not in an immediate risk of dying or a limb.

"Non-emergency transfer" means the movement of any patient in an ambulance other than an emergency transfer.

"OKEMSIS" means Oklahoma Emergency Medical Services Information System.

"PALS" means Pediatric Advanced Life Support.

"Patient" means the person who requests assistance or the person for whom assistance is being requested from an agency.

"Paramedic" means an individual licensed by the Department as a Paramedic, formerly known as an EMT-P.

"PIC" means Pilot in Command.

"Post" means a location where an ambulance may be positioned for an unspecified period of time while awaiting dispatch.

"Preceptor" means an individual with education, experience, and expertise in healthcare and approved by a training program to supervise and provide instruction to EMS students during clinical experiences.

"Program Administrator" means the individual designated in writing by a training program as responsible for all aspects of EMS training.

"Program Coordinator" means the individual designated in writing by a training program as responsible for all aspects of a specified course(s) or EMS program. This individual shall have at least two (2) years experience of full-time equivalent employment as a healthcare practitioner.

"Protocols" means the medical treatment and transport guidelines or standing orders that an agency uses when responding to requests for service. An agency's protocols will be approved by the Department.

"Response time" means the time from which a call is received by the EMS agency until the time the ambulance and complete crew arrives at the scene, unless the call is scheduled in advance.

"State Interoperability Governing Body" or **"SIGB"** means the formal group of public safety officials from across the State working with

the Oklahoma Office of Homeland Security to improve communication interoperability.

"Semi-Automated Advisory Defibrillator" or **"SAAD"** means a defibrillator that is part of the Basic Life Support curriculum and is also known as Automated External Defibrillator (AED) and Semi-Automated External Defibrillator (SAED).

"Specialty Care Transports" or **"SCT"** means interfacility transfers of critically ill or injured patients by an agency with the provision of medically necessary supplies and equipment, above the level of care of the Paramedic. SCT is necessary when a patient's condition requires ongoing care that must be provided by one or more healthcare providers in an appropriate specialty area. Examples include emergency or critical care nursing, emergency medicine, respiratory care, cardiovascular care, or a Paramedic with additional training in IV infusions including vasopressors, vasoactive compounds, antiarrhythmics, fibrinolytics, tocolytics, and/or any other parenteral pharmaceutical unique to the patient's special health care needs or special monitors or procedures such as mechanical ventilation, multiple monitors, cardiac balloon pump, external cardiac support (ventricular assist devices, etc.), or any other specialized device or procedure outside the Paramedic scope of practice certified by the referring physician as unique to the patient's health care needs.

"Statewide Ambulance coverage area" means a map of all ambulance response areas, maintained by the Department.

"State Designated Resource Status Reporting and Communication Tool" means the electronic system utilized to communicate in near real time status of the emergency medical system.

"Stretcher van" means any ground vehicle *which is or should be approved by the State Commissioner of Health, which is designed and equipped to transport individuals on a stretcher or gurney type apparatus* [Title 63 O.S. Section 1-2503 (25)].

"Stretcher van passenger" *means any person who is or will be transported in a reclining position on a stretcher or gurney, who is medically stable, nonemergent and does not require any medical monitoring equipment or assistance during transport* [Title 63 O.S. Section 1-2503 (26)].

"Substation" means a permanent structure where an ambulance(s) is/are stationed and available for calls on a twenty-four (24) hour basis.

"Tax Hold" means an individual with an Oklahoma certification or license who is not in compliance with Title 68 O.S. Section 238.1 and the Oklahoma Administrative Code 710:95-9 as it pertains to professional licensing compliance.

"Title 47" means the Oklahoma Motor Vehicle statutes.

"Training" means that education which is received through training programs as authorized by emergency medical services rule for training programs (Subchapter 7 of this Chapter).

"Training Manager" means an instructor or manager that provides or oversees the training that occurs at an agency, such as continuing education or refresher courses.

"Transfer" means the movement of a patient in an ambulance.

"Trauma transfer and referral center" means an organization certified by the Department and staffed and equipped for the purpose of directing trauma patient transfers within a region that consists of a county with a population of three hundred thousand (300,000) or more and its contiguous communities, and facilitating the transfer of trauma patients into and out of the region for definitive trauma care at medical facilities that have the capacity and capability to appropriately care for the emergent medical needs of the patient.

SUBCHAPTER 2. EMERGENCY MEDICAL SERVICE AGENCY APPLICATIONS

PART 1. SPECIAL PROVISIONS

310:641-2-1. Purpose

The rules of this Subchapter are promulgated to:

- (1) incorporate the authorization and the minimum requirements for completing an application for all certified and licensed emergency medical service agencies, and

(2) Provide standards for the enforcement of the "Oklahoma Emergency Response Systems Development Act" and this Chapter.

[Source: Added at 39 Ok Reg 1338, eff 9-11-22]

310:641-2-2. Compliance required

All applications submitted pursuant to the Act shall comply with all appropriate Federal, State, and local laws, providing such local law does not conflict with Federal or State law.

[Source: Added at 39 Ok Reg 1338, eff 9-11-22]

310:641-2-3. Certification or License required

(a) No person, company, governmental entity or trust authority shall operate, advertise, or hold themselves out as providing any type of emergency medical service agency without first obtaining a certification or license to operate from the Department. The Department shall have sole discretion to approve or deny an application based on the ability of the applicant to meet the requirements of the Act or this chapter of rules.

(b) Persons, companies and governmental entities that respond to requests for service off private or governmental property or premises are required to be certified or licensed by the Department. Entities that limit the interventions and activities of their staff members to first aid, CPR, and the use of an AED are not required to be a certified Emergency Medical Response Agency.

(1) Governmental entities not certified or licensed by the Department may be part of mutual aid and disaster plans.

(2) Governmental entities may transport patients of governmental entities off governmental property to appropriate facilities.

(3) Contractors for governmental entities that provide transport services shall be licensed by the Department.

(c) Persons, companies, and governmental entities which operate on their own premises, are exempt from certification and licensing requirement.

(d) An application for a certification or license shall be submitted on forms prescribed and provided by the Department. Ground ambulance, air ambulance, an emergency medical response agency, stretcher van and specialty care services shall each be considered a separate license.

(1) Specialty care licenses are statutorily limited to patient care and interventions above the Paramedic scope of practice.

(2) Specialty Care applicants will declare in the application the type or types of specialty care and patients that will be transported by the agency. The types of specialty care and patients may include, but not be limited to:

(A) adult, pediatric, infant, neonatal, or a combination of age types,

(B) cardiac care, respiratory, neurological, septicemia, or other single or multi-system complications or illnesses requiring specialized treatment during the transport of the patient.

- (3) Ground ambulance services are required to meet the duty to act requirements as described in 63 O.S. § 1-2504.1.
- (e) The application shall be signed under oath by the party or parties seeking to secure the license.
- (f) The party or parties who sign the application shall be considered the owner or agent (licensee), and responsible for compliance to the Act and this chapter.
- (g) All applications shall contain, but not be limited to the following:
- (1) a statement of ownership which shall include the name, address, telephone number, occupation and/or other business activities of all owners or agents who shall be responsible for the service;
 - (A) If the owner is a partnership or corporation, a copy of incorporation documents and the name of all partner(s) or stockholder(s) with an ownership interest of five (5%) percent or more (principal), and the name and addresses of any other ambulance service in which any partner or stockholder holds an interest shall also be included.
 - (B) If the owner is an entity of government, governmental trust, trust authority, or non-profit corporation, the name of each board member, or the chief administrative officer and/or chief operation officer shall be included.
 - (C) A business plan which includes a financial disclosure statement showing evidence of the ability to sustain the operation for at least one (1) year.
 - (D) For purposes of unannounced inspections, the days and times the business office is open.
 - (2) Agencies that use emergency vehicles as defined in Title 47 O.S. Section 103 shall show proof of vehicle liability insurance, at least in the amount of one million dollars (\$1,000,000.00) or to the amount provided for in "The Governmental Tort Claims Act", Title 51 O.S. Section 151 et seq. This insurance requirement shall remain in effect at all times while the service is licensed. Air ambulances are to maintain aircraft liability insurance as required within Federal regulation.
 - (3) Proof of professional liability insurance, at least in the amount of one million dollars (\$1,000,000) or to the amount provided for in "The Governmental Tort Claims Act," Title 51 O.S. Section 151 et seq. This insurance requirement shall remain in effect at all times while the service is licensed;
 - (4) Proof of participation in a workers' compensation insurance program for employees who are subject to pertinent labor laws. This insurance requirement shall remain in effect at all times while the service is licensed;
- (h) Ground Ambulance Services, Air Ambulances, Emergency Medical Response Agencies, and Specialty Care agencies shall have medical control as prescribed by the Act and these rules and submit with the application:
- (1) a letter of agreement from the physician to provide medical direction and establish the protocols and the scope of practice provided at the service;

- (2) the physicians primary practice address or home address if the physician does not have a practice and email address;
- (3) For agencies providing care within the Intermediate, Advanced EMT, and Paramedic scope of practice, submit an Oklahoma Bureau of Narcotics and Dangerous Drugs (OBNDD) registrant certification or number;
- (4) a current Oklahoma medical license; and
- (5) a curriculum vitae,
- (i) a copy of any contract(s) for vehicles, medical equipment, and/or personnel, if such exist;
- (j) Ground Ambulance Services, Air Ambulances, Emergency Medical Response Agencies, and Specialty Care agencies shall submit a copy of patient care protocols and quality assurance plan or policy as required by the medical director and as prescribed by the Act and this chapter;
 - (1) The Department may require quality assurance documentation for review and shall protect the confidentiality of that information.
 - (2) The quality assurance documentation shall be maintained by the agency for three (3) years.
 - (3) The quality assurance policy shall include, but not be limited to:
 - (A) refusals,
 - (B) air ambulance utilization,
 - (C) airway management,
 - (D) cardiac arrest interventions,
 - (E) time sensitive medical and trauma cases,
 - (F) other selected patient care reports not specifically included , and
 - (G) how to provide internal and external feedback of findings determined through reviews. Documentation of the feedback will be maintained as part of the quality assurance documentation
 - (H) treatment protocols that expand beyond the published state protocols;
- (k) Ground ambulance service and Pre-hospital emergency medical response agency applications are required to submit documentation that supports agency licensure from the governmental authority (ies) having jurisdiction over the proposed emergency response area. If the emergency response area encompasses multiple jurisdictions, a written endorsement shall be presented from each. The ground ambulance and prehospital emergency medical response agency application shall contain from each endorsement the following;
 - (1) a map and written description of the endorsed or approved response area,
 - (2) name(s) and title(s) of the person(s) providing approval,
 - (3) any expiration date,
 - (4) name of the service receiving the endorsement.
 - (5) Ground ambulance service supporting documentation will be consistent with the County EMS plan as required in 19 O.S. Section 1-1203.
- (l) Pre-hospital emergency medical response agency applications shall include a letter of support or agreement from a licensed ambulance

service within the proposed emergency medical response service area that includes:

- (1) support of the application,
- (2) support of the medical control physician choice, and
- (3) plans or policies for supporting or participating in quality assurance activities.
- (4) If an applicant is unable to provide a letter of support from a licensed ambulance service within their proposed response area, the applicant can request an exemption. The Department has the discretion to approve or deny the exemption request.

(m) Event standby emergency response agency applications will include the following restrictions and requirements:

- (1) if the applicant is providing care to the public on public property, then letters of governmental support and documents verifying coordination with local ambulance services are required for that agency to have the authority to provide care at that setting.
- (2) if the agency is providing care to the public in a business or establishment open to the public on private property, then letters of governmental support are not required.
- (3) At all times, the standby event emergency medical response agency shall coordinate with other licensed and certified EMS agencies responsible for the event location when the event is within a licensed ambulance service area or approved area for prehospital emergency medical response agencies.

(n) All emergency medical response agencies are prohibited from transporting patients

(o) Stretcher Van service applications will include the following restrictions and requirements:

- (1) Stretcher Vans are prohibited from carrying medications other than oxygen and those other medications which are passenger supplied and administered. The passenger must have a current physician prescription and/or order for the administration of oxygen. A copy of the order shall be maintained in agency files.
- (2) Stretcher van applications will include a quality assurance process or policy that includes:

- (A) The Department may require quality assurance documentation for review and shall protect the confidentiality of that information.
- (B) The quality assurance documentation shall be maintained by the agency for three (3) years.
- (C) Any passenger condition where the passenger entered the 911 system,
- (D) If oxygen is continued, the physician order must be maintained with the trip report or passenger report;
- (E) a review other selected passenger reports not specifically included, and
- (F) process to provide internal and external feedback of findings determined through reviews. Documentation of the feedback will be maintained as part of the quality assurance documentation.

(p) Stretcher Van Services are to submit the following with their application:

(1) A map or narrative description which identifies the proposed service area;

(2) evidence that the proposed service area is an emergency medical service region, ambulance district, or county with a population in excess of five hundred thousand (500,000) people;

(q) Ground ambulance services will include a description of the proposed level of service in the proposed licensed service area, including:

(1) a map defining the whole licensed service area including location(s) of base station, substations, and posts;

(2) a description of the level of care to be provided;

(r) Ground Services, Air Ambulances, and prehospital emergency medical response agencies shall submit a communication policy addressing:

(1) receiving and dispatching emergency and non-emergency calls;

(2) ensuring compliance with State and local EMS communication plans.

(s) Specialty Care Services and Stretcher Van services shall submit communication policy addressing the screening process that ensures a request for service will meet the agency's capability, capacity, and licensure requirements. Documentation of the screening will be retained as part of the patient care report or call log.

(t) a response plan that includes:

(1) providing and receiving mutual aid with all surrounding, contiguous, or overlapping, licensed service areas,

(2) providing for and receiving disaster assistance in accordance with local and regional plans and command structures such as an incident command structure using national incident management support models.

(u) confidentiality policy ensuring confidentiality of all documents and communications regarding protected patient health information.

(v) For an initial or new ground ambulance service, air ambulance service, specialty care, and stretcher van service license application, shall be accompanied by a non-refundable fee of six hundred (\$600.00) dollars plus twenty (\$20.00) dollars for each vehicle, in excess of two (2) vehicles utilized for patient transport. An additional fee of one hundred fifty (\$150.00) dollars shall be included for each ambulance substation in addition to the base station. An Emergency Medical Response Agency Application shall be accompanied by a non-refundable fee of fifty (\$50.00) dollars.

(w) All applicants except air ambulance services are required to show documentation of compliance with any "Sole Source" Ordinance or Resolution. If an area of Oklahoma is being served by a licensed ambulance service, or services, and the area has adopted "sole source" resolutions or ordinances or an Emergency Services District as established pursuant to Article 10, Section 9 (c) of the Oklahoma Constitution, the Department shall require the approval of the community (ies) and/or the emergency medical services authority of that service area, before an additional ambulance service shall be licensed for that same service area.

(x) For all license applications, a business plan which includes a financial disclosure statement showing evidence of the ability to sustain the operation for at least one (1) year is required to be submitted with the application.

SUBCHAPTER 3. GROUND AMBULANCE SERVICE

PART 1. GENERAL PROVISIONS

310:641-3-1. Purpose

The rules of this Subchapter are promulgated to:

- (1) incorporate the authorization, licensure, and the minimum requirements for operating a ground ambulance service that responds to both pre-hospital and interfacility requests for service with certified and licensed personnel at the Emergency Medical Technician, Intermediate, Advanced Emergency Medical Technician, and Paramedic levels, and
- (2) Provide standards for the enforcement of the "Oklahoma Emergency Response Systems Development Act" and this Chapter.

Editor's Note: ¹*This emergency action expired without being superseded by a permanent action. Upon expiration of an emergency amendatory action, the last prior permanent text is reinstated. Therefore, on 7-15-05 (after the 7-14-05 expiration of the emergency action), the text of 310:641-3-2 reverted back to the permanent text that became effective 7-12-04, as was last published in the 2004 OAC Supplement, and remained as such until amended again by permanent action on 6-25-06.*

310:641-3-3. Compliance required

All ambulance services licensed pursuant to the Act shall comply with all appropriate Federal, State, and local laws, providing such local law does not conflict with Federal or State law.

[Source: Added at 17 Ok Reg 392, eff 11-1-99 (emergency); Added at 17 Ok Reg 2948, eff 7-13-00]

PART 3. GROUND AMBULANCE SERVICES

310:641-3-10. License required [REVOKED]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 23 Ok Reg 2386, eff 6-25-06 ; Amended at 24 Ok Reg 1183, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2443, eff 7-11-08 ; Amended at 33 Ok Reg 1529, eff 9-11-16 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-3-11. Issuance of a ground ambulance license

(a) The Department shall have sole discretion to approve or deny an application for a ground ambulance service license based on the ability of the applicant to meet the requirements of this subchapter.

(b) A license may be issued for Basic Life Support, Intermediate Life Support, Advanced Life Support, or Paramedic Life Support.

(1) Basic life support means that the ambulance service vehicles are equipped with the minimum basic equipment, and staffed with at least one EMT on each request for emergency medical services.

(2) Intermediate life support means that the ambulance service vehicles are equipped with the minimum intermediate equipment, and staffed with at least one Intermediate on each request for emergency medical services, except as permitted in this subchapter.

(3) Advanced life support means that the ambulance service vehicles are equipped with the minimum advanced EMT equipment and staffed with at least one Advanced EMT on each request for service, except as permitted in this subchapter.

(4) Paramedic life support means that the ambulance service vehicles are equipped with the minimum paramedic equipment, and staffed with at least one EMT-P on each request for emergency medical services, except as permitted in this subchapter.

(c) The license shall be issued only for the name, service area (area of coverage), level, and type of service given in the application.

(d) The license is not transferable or assignable.

(e) The initial license period shall expire the second June 30, following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.

(f) A temporary license, not to exceed one hundred twenty (120) days and for one (1) time only, may be issued at the sole discretion of the Department. to an applicant that substantially meets all requirements of the application. Factors that may also be considered include:

- (1) an area of Oklahoma that may otherwise be without ambulance service;
 - (2) the safety, need, and well-being of the public and general populace to be served by the ambulance service;
 - (3) availability of personnel in the area and equipment of the ambulance service;
 - (4) financial ability of the applicant to meet the minimum standards of emergency medical services law;
 - (5) the number of estimated runs to be made by the ambulance service;
 - (6) the desire of the community(ies) to be served.
- (g) The original, or a copy of the original, license shall be posted in a conspicuous place in the principal business office. If an office, or other public place is not available, then the license shall be available to anyone requesting to see the license, during regular business hours. A copy of the license shall be provided to the governmental agency(ies) providing a letter of support.
- (h) A licensed ambulance service may request a voluntary downgrade of its ambulance service license to certification as Emergency Medical Response Agency. The Department shall verify that the agency can maintain the requirements for Emergency Medical Response Agency Certification. No fee shall be required for such a downgrade.
- (i) The Department shall have the authority to upgrade or downgrade an Intermediate, Advanced or Paramedic life support ambulance provider's license upon evidence that the license no longer meets existing license requirements for that level of care.
- (1) Under no circumstance shall a downgrade be for less than basic life support.
 - (2) The service must continue to use approved protocols at the lower license level.
 - (3) The service must continue to provide care under appropriate medical direction.
 - (4) A fee of fifty (\$50.00) dollars shall be required for reinstatement.

310:641-3-12. Renewal of a ground ambulance license

The Department shall provide to all licensed ground ambulance services a "Survey/Renewal Form" each December. This form shall be considered and utilized as a renewal application, if due. The "Survey/Renewal Form" along with proof of current workers' compensation and liability insurance shall be returned to the Department by January 31 each year.

- (1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be mailed by the Department to each licensee in need of renewal.

(2) A non-refundable fee for the renewal of an ambulance service license shall be one hundred dollars (\$100.00), fifty dollars (\$50.00) for each substation, plus twenty dollars (\$20.00) for each vehicle in excess of two (2).

(3) An ambulance service license shall be renewed if:

(A) The ambulance service has applied for such renewal;

(B) The ambulance service has no outstanding deficiencies or is in need of correction as may be identified during inspection of the service, and;

(C) The proper fee has been received by the Department.

(4) An ambulance service license, if not renewed by midnight June 30 of the expiration year, shall be considered non-renewed.

(A) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.

(B) Thereafter a new application shall be required for the continuation of any such license, and the applicant shall be subject to initial application procedures. An extension may be granted by the Department for the purpose of renewal, subject to a determination by the Department of the following:

(i) The safety, need, and well-being of the public and general populace to be served by the ambulance service;

(ii) The availability of personnel, equipment, and the financial ability of the applicant to meet the minimum standards of emergency medical services law;

(iii) The desire of the community(ies) to be served.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-13. Denial of an initial or renewal license

(a) An application may be denied for any of the following reasons:

(1) A felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to supervise the service; to include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service;

(2) insufficient number of personnel to properly staff one vehicle on a twenty four (24) hour basis at the highest level of the service license.

(b) An applicant shall be notified in writing within sixty (60) days, from the date the Department receives a complete application, of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a license or renewal shall be given, if applicable. A license application may be re-submitted, but each re-submission shall be considered an initial

application.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 10 Ok Reg 3459, eff 7-1-93 (emergency); Amended at 11 Ok Reg 2641, eff 6-25-94 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 23 Ok Reg 2386, eff 6-25-06 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-13.1. Denial of an application for renewal of license

(a) A license application for renewal may be denied for any of the following:

- (1) the failure to meet standards set forth by statute or rule,
- (2) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to manage the service to include, but not limited to fraud, grand larceny, child abuse, sexual offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service,
- (3) insufficient number of personnel to properly staff one vehicle on a twenty-four (24) hour basis at the licensure level,
- (4) outstanding notice of violation that has not been addressed with an acceptable plan of correction,
- (5) insufficient financial resources,
- (6) falsification of Department required information,
- (7) ownership, management, or administration by principals of an entity whose ambulance service license has been revoked,
- (8) re-licensure may not be in the best interest of the public as determined by the Department,
- (9) revocation or denial of a governmental letter of support as required in 310:641-3-10.

(b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete renewal application of the granting or denial of a renewed license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a renewed license shall be given, if applicable. A license application may be resubmitted, but each re-submission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-14. Severance of action, amendment, and re-instatement

(a) The issuance or renewal of a license after notice of a violation(s) has/have been given, shall not constitute a waiver by the Department of its power to rely on the violation(s) for subsequent license revocation or other enforcement action which may arise out of the notice of the violation(s).

(b) Any change in the name of the service, level, service area, addition of substation, or type of service shall necessitate an application to amend the license and shall be accompanied by a fee of one hundred dollars

(\$100.00).

(c) Addition of a substation that expands the service area shall comply with 310:641-3-11.

(d) Changing or moving the location of a substation requires written notification to the Department.

(e) If an existing license is placed on probation or suspension, a fee of one hundred (\$100.00) dollars, in addition to any other provision of the action, shall be submitted prior to re-instatement of the license to full privilege

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 24 Ok Reg 1991, eff 6-25-07 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-15. Ground ambulance service - personnel staffing

(a) Each licensed ground ambulance service shall be staffed and available to respond to any request for service within the primary service area twenty-four (24) hours per day.

(b) Each ground ambulance service shall have on staff an adequate number of emergency medical personnel and a sufficient number of ambulances available in order to be en route to 90% of all emergency calls within five (5) minutes of the time the call is received in dispatch at the highest level of care for which the service is licensed.

(1) The request for emergency medical services shall be considered "received in dispatch" as soon as the licensed agency receives sufficient information to allow an appropriate response, i.e., location of the emergency and nature of the call.

(2) Staff licensed below the level of the ambulance service may be utilized provided one or more of the following conditions have been met:

(A) The request for service has been screened by a Department approved emergency medical dispatch system, or

(B) The patient is to be transported from a higher to a lower level of care, or

(C) The transport is approved in writing by the transferring physician at a specified lower level of care and scheduled in advance.

(D) An agency that screens emergency calls through an emergency medical prioritization program shall establish en route times for the priority levels established by the agency. The en route times established by the agency shall be included in the agency's policy and/or procedure manual.

(c) Under no circumstance during the transport of an ambulance patient shall the attendant be less than a licensed emergency medical technician.

(d) In addition to the requirement of licensed emergency medical technicians, each ground ambulance service shall have drivers who, at a minimum, are certified as an Emergency Medical Responder. All drivers of a ground ambulance service shall successfully complete an emergency

vehicle operator course approved by the Department within 120 days of employment. Emergency vehicle operators shall successfully complete a refresher course approved by the Department every two (2) years.

(e) In a unique and unexpected circumstance, including a disaster, the minimum driver requirement may be altered to facilitate a transport of an ambulance patient. The attendant, who is in charge of the vehicle while a patient is on board, may request a law enforcement officer or a firefighter, familiar with the operation of an authorized emergency vehicle, to drive the vehicle. If this option is utilized, a written report of the circumstances, reason, and any other pertinent information regarding the call shall be forwarded to the Division within ten (10) working days. Abuse and/or re-occurring incidents of this nature shall require a reassessment of the service's staff and staffing patterns. The service may be required to obtain additional personnel or other action by the Department may result.

(f) Only emergency personnel authorized by this Act, except for a physician, shall be utilized by an ambulance service for pre-hospital, or on-scene, patient care and transport. In some cases, involving inter-hospital transfer of an ambulance patient(s), a physician, physician assistant (PA), nurse practitioner, respiratory care practitioner, registered nurse, or licensed practical nurse may be required to assist the emergency medical technician because the medical care required exceeds the level of the ambulance service personnel. If this option is utilized, written orders by a physician and/or documentation of orders given via radio or telephone contact with a physician, shall become a part of the ambulance patient run report.

(g) Each agency will maintain training records demonstrating competency in medical skills and interventions, patient handling, and emergency vehicle operations for all personnel utilized by the agency.

(h) An agency that is unable to fulfill the twenty-four (24) hours staffing requirement may contract with another ground ambulance service to provide personnel to meet the staffing requirement. Contracts will contain but not be limited to the following information:

- (1) how and from what location personnel will respond;
- (2) procedure for notifying the contractor that personnel are needed;
- (3) communication policy to ensure coverage is in place for the licensed service area;
- (4) contingency plan for system overload;
- (5) copies of contracts will be provided to the Department as part of application requirements in 310:641-3-10;
- (6) scope of practice and protocol requirements for the contractual response; and
- (7) emergency plan in the event a contracted service is unable to respond within the contracted requirements, and how the request for service will be answered.

(i) An agency may enter into a contract or other memorandum of agreement with a non-transport agency or entity that is not a certified emergency medical response agency. The purpose of this contract or agreement is to improve emergency medical system responses. The agreement is to allow for interested individuals, who are certified and/or

licensed by the Department, at the non-transport agency to respond with ground ambulance services using non-transport agency equipment. The result will be for these individuals to serve as an extension of the ambulance service through the contract or agreement.

(1) The Contract or Memorandum of Agreement will address the following topics:

(A) Name of the non-certified Emergency Medical Response Agency;

(B) The specific vehicles and equipment to be used by the personnel for ambulance service responses;

(C) the parties that supply or maintain the supplies and equipment;

(D) communication arrangements.

(2) The personnel will be authorized to perform procedures under the ambulance services medical director. The ambulance service medical director will establish the scope of practice for the non-transport agency personnel.

(3) The ambulance service will be responsible for all quality assurance activities.

PART 5. GROUND TRANSPORT VEHICLES

310:641-3-20. Ground ambulance vehicles

(a) An ambulance manufactured prior to January 1, 2021 shall meet or exceed the standards established in the U.S. General Services Administration Federal Specification for the Star-of-Life Ambulance (GSA KKK-A-1822) in effect on November 1, 1994.

(b) A new or remounted production ground ambulance that is ordered or purchased after January 1, 2021 shall comply fully with the ambulance design criteria in either:

(1) The Commission on Accreditation of Ambulance Services Ground Vehicle Standard for Ambulances (GVS), effective July 1, 2019. A decal or letter of verification from the manufacturer certifying that the vehicle meets the GVS standard, if ordered after January 1, 2021, shall be made available upon inspection; or

(2) The National Fire Protection Association (NFPA) 1917 Standard for Automotive Ambulances - 2019 Edition. A decal or letter of verification from the manufacturer certifying that the vehicle meets the NFPA standard, if ordered after January 1, 2021, shall be made available upon inspection;

(c) Additionally, each ground ambulance service vehicle purchased or ordered after January 1, 2021 will meet the following requirements:

- (1) the business name, or acceptable legal abbreviation of the name of the service shall be placed on each side and the rear of the vehicle, and shall be at least three (3") inch high letters,
 - (2) A minimum of one Star of Life emblem that is a minimum of three (3) inches in diameter shall be placed on the front, sides, and rear of the vehicle.
 - (3) The word "Ambulance", "Emergency Medical Services", "EMS", or licensure level shall be on the sides and rear of the vehicle in at least three (3) inch high letters. If nomenclature is placed on a vehicle relating to a license level as defined in 63 O.S. § 1-2503, the nomenclature must reflect the agency license level of the agency operating the vehicle.
 - (4) Ambulance vehicles shall be exempt from the sections of GVS and NFPA specifications which specify color, emblems, and markings except for (c) of this sub-chapter.
- (d) If while waiting delivery of a new, remounted, or refurbished vehicle, a manufacturer or dealer provides a service with a vehicle on a temporary loan or lease, such temporarily loaned or leased vehicle shall comply with specification KKK-A-1822 in effect at the time of manufacture and shall be inspected and permitted by the Department prior to utilization as an ambulance.
- (e) A vehicle may not be permitted by the Department as an ambulance prior to the submission and approval of all required documentation, fees, and a Department inspection.
- (f) The purchaser of any vehicle that is not compliant with this section shall be responsible for corrective action.
- (g) A decal, notice, or other documentation showing the ambulance meets the manufacturing standard at the time of manufacture will be affixed to the vehicle.
- (h) Ambulances purchased after January 1, 2021 by Federal healthcare systems such as Department of Defense or Indian Health Services shall meet one of the following standards:
- (1) The Commission on Accreditation of Ambulance Services Ground Vehicle Standard for Ambulances (GVS), effective July 1, 2019. A decal or letter of verification from the manufacturer certifying that the vehicle meets the GVS standard, if ordered after January 1, 2021, shall be made available upon inspection ;
 - (2) The National Fire Protection Association (NFPA) 1917 Standard for Automotive Ambulances - 2019 Editions. A decal or letter of verification from the manufacturer certifying that the vehicle meets the NFPA standard, if ordered after January 1, 2021, shall be made available upon inspection; or
 - (3) U.S. General Services Administration Federal Specification for the Star-of-Life Ambulance (GSA KKK-A-1822) Version F with change orders 1 through 10.

**310:641-3-21. Ground transport vehicles currently in use
[REVOKED]**

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Revoked at 17 Ok Reg 392, eff 11-1-99 (emergency); Revoked at 17 Ok Reg 2948, eff 7-13-00]

310:641-3-22. General provisions for ground transport vehicles

(a) Authorized emergency vehicles of licensed ambulance services shall comply at all times with the applicable requirements of Title 47, the Oklahoma Motor Vehicle Code to include audio and visual warning indicators.

(b) Authorized emergency vehicles of licensed ambulance services shall be in good mechanical and serviceable condition at all times, so as not to be hazardous to the patient(s) or crewmembers. If, in the determination of the Department, a vehicle does not meet this requirement, it may be removed from service until repairs are made.

(c) Authorized emergency vehicles of licensed ambulance services shall be tested for interior carbon monoxide, in a manner acceptable to the Department. Carbon monoxide levels of more than ten parts per million (10ppm) shall be considered in excess, and shall render the vehicle "out of compliance.". Vehicles shall be removed from service if carbon monoxide levels exceed fifty parts per million (50ppm) until repairs are made to reduce the amounts of carbon monoxide below ten parts per million (10ppm).

(d) Authorized emergency vehicles of licensed ambulance services utilized for the provision of patient care shall be equipped with communication equipment (such as two-way radio using VHF frequency 155.3400) which shall provide voice contact with the emergency departments of licensed hospitals. Acceptable frequencies shall be approved and consistent with the, Statewide Interoperability Governing Board communication plan, as adopted under the rules of the Federal Communications Commission (FCC). No paging shall be allowed on these designated medical frequencies. Encoder numbers for Oklahoma hospitals, and approval of frequencies may be obtained by contacting the Division.

(e) Authorized emergency vehicles of licensed ambulance services shall have a permit and/or inspection decal affixed by the Department. These decals shall be placed in the lower left corner of a rear window unless it shall be impossible or impractical to utilize this area.

(f) The following permit classifications of vehicle permits shall be recognized as authorized emergency vehicles of ambulance services:

(1) "Temporary Permit" may be affixed by the agency and will be valid for ten (10) business days. The temporary permit will be sent to the agency by the Department in the event the vehicle cannot be inspected by Department personnel within three (3) days of the Department receiving notification that a vehicle is ready for inspection.

(A) To receive a temporary permit, the agency will send to the Department:

- (i) a Department inspection form completed by an agency representative,
- (ii) pictures of the interior and exterior of the vehicle,
- (iii) copies or pictures of the vehicle tag,
- (iv) copies or pictures of the insurance verification

(B) Upon approval of the documentation, a temporary permit will be sent to the agency.

(C) Prior to the expiration of the temporary permit, the agency will make arrangements with the Department to ensure a complete inspection is conducted by the Department for the purpose of affixing a class "A" permit to the vehicle.

(2) Class "A" permit shall be affixed to an ambulance in compliance with all applicable standards. Emergency and non-emergency ambulance patients may be transported in class "A" ambulances.

(3) Class "B" permit shall be affixed to an ambulance in compliance with manufacturing, communication, safety, and Title 47 of Oklahoma Statutes requirements. Class "B" vehicles shall have the required medical equipment on board when placed in-service to respond to emergency calls or transport any ambulance patients.

(4) Class "E" permit shall be affixed to other vehicles owned or operated by a licensed ambulance service and utilized in provision of emergency medical services. Ambulance patients shall not be transported on the public streets or highways in a class "E" vehicle. A list of patient care equipment that is carried on class "E" units will be part of the agency's standard operating procedure or guideline manuals.

(5) The licensee shall notify the Department in writing on forms provided by the Department prior to placing a substitute (not a new vehicle purchase or part of a lease or loan from a dealer) vehicle into operation. A substitute vehicle may operate up to 5 days in temporary service provided it is available for inspection.

(g) When a vehicle is sold or removed from service, the agency will notify the Department on a Department form detailing the agency and unit identifiers, remove the permit, and return the form and permit to the Department within thirty (30) days.

(h) A vehicle with any of the following deficiencies or malfunctions may not be used for any patient transports:

- (1) inadequate sanitation, including the presence of contamination by blood and or bodily fluids;
- (2) inoperable heater or air conditioner as detailed within the vehicle manufacturing standards and specifications;
- (3) inoperable AED or defibrillator;
- (4) tires that do not meet Title 47 O.S. Section 12-405;
- (5) inoperable emergency lighting and or siren;
- (6) inoperable oxygen system or less than 200 psi in onboard oxygen system;
- (7) both portable and vehicle suction apparatus are inoperable;

- (8) carbon monoxide levels greater than fifty (50) parts per million;
 - (9) lapse of vehicle liability insurance;
 - (10) lapse of worker compensation insurance;
 - (11) inability to affix a class "A" or "B" permit on an existing permitted vehicle;
 - (12) vehicle that does not comply with statutory safety equipment found in Title 47.
- (i) If such violation is not or cannot be corrected immediately, any affected vehicle shall be removed from service and the ambulance permit shall be removed until such time as the vehicle is compliant and has been re-inspected and permitted by the Department.
 - (j) Any patient care equipment and supplies that is/are carried on an ambulance that is/are not on the approved equipment list will need Department approval through the protocol approval process.
 - (k) All lighting, both interior and exterior, shall be fully operational, including lens caps.
 - (l) All designated seating positions in the patient compartment shall be equipped with functioning safety restraint systems appropriate for each type of seating configuration.
 - (m) All oxygen tanks, (portable and onboard) shall be secured within brackets compliant with the ambulance's manufacture standard.
 - (n) Each vehicle shall not have any structural or functional defects that may adversely affect the patient, personnel, or the safe operation of the vehicle to include windshield wipers, steering systems, brakes, seatbelts, and interior or exterior compartment doors and latches.
 - (o) Each permitted vehicle shall have an accessible copy (electronic or paper) of the agency's approved protocols.

310:641-3-23. Equipment for ground ambulance vehicles

- (a) The tampering, modification, or removal of the manufacturer's expiration date is prohibited.
- (b) Licensed ambulance services shall ensure that all recalled, outdated, misbranded, adulterated, deteriorated fluids, supplies, and medications are removed from ambulances immediately.
- (c) The medical control physician will authorize all equipment and medications placed on the units for patient care.
 - (1) The authorized equipment and medications will be detailed on a unit checklist and will match the equipment and supplies with defined minimums needed to treat patients in the manner detailed in the agency approved protocols. The checklist will also meet the requirements described in the ambulance file section of this subchapter.
 - (2) The medications authorized by the medical director will be detailed on the unit checklist will include the number, weight, and volume of the medication containers.

- (3) An electronic or paper copy of patient care protocols will be on each in-service ambulance.
- (d) Each ground ambulance service vehicle shall carry:
 - (1) airway and breathing equipment and supplies, to include:
 - (A) a pulse oximetry device with pediatric and adult capability.
 - (B) a functioning portable suction apparatus with wide-bore tubing (1/4"), and rigid and soft suction catheters for adults, children, and infants, as detailed by agency protocols in addition to the vehicle mounted suction unit.
 - (C) One (1) bulb syringe, with saline drops, sterile, in addition to any bulb syringes in obstetric kits.
 - (D) a minimum of two (2) each, single use adult, pediatric, and infant bag-valve mask resuscitators with an adult, child, and infant clear masks.
 - (E) oropharyngeal airways set or a minimum of two (2) of each size for adult, child, and infant individually wrapped for sanitation purposes. Nasopharyngeal airways are optional.
 - (F) a portable ventilator as directed by the agency medical director and approved protocols.
 - (G) wall mounted oxygen set with variable flow regulators and adequate tubing.
 - (H) portable oxygen cylinder and regulator with a spare oxygen cylinder appropriately secured.
 - (I) a minimum of two (2) each adult, child, and infant sized oxygen masks.
 - (J) a minimum of two (2) adult nasal cannulas.
 - (K) a nebulizer; adult and pediatric, sizes per local protocols.
 - (2) Bandaging materials to include:
 - (A) two (2) burn sheets; clean, wrapped, and marked in a plastic bag.
 - (B) fifty (50) sterile 4"x4" dressings.
 - (C) six (6) sterile 6"x8" or 8"x10" dressings.
 - (D) ten (10) roller bandages, 2" or larger, such as kerlix, kling, or equivalent.
 - (E) four (4) rolls of tape (minimum of one (1) inch width).
 - (F) four (4) sterile occlusive dressings, 3" x 8" or larger.
 - (G) four (4) triangular bandages.
 - (H) one (1) pair of bandage scissors must be on the ambulance or on the on-duty personnel.
 - (3) Fracture immobilization devices, to include:
 - (A) one (1) adult and one (1) pediatric traction splint or equivalent device capable of adult and pediatric application.
 - (B) two (2) upper and two (2) lower extremity splints in adult and pediatric sizes.
 - (C) short spine board or vest type immobilizer, including straps and accessories as described within agency protocols.

(D) two (2) adult and one (1) pediatric size long spine board including straps and head immobilization devices(s), as described within the agency protocols.

(E) two (2) rigid or adjustable extrication collars in large, medium, small adult sizes, and pediatric sizes for children ages 2 years or older, and one (1) infant collar, as described within the agency protocols. Collars shall not be foam or fiber filled.

(4) Miscellaneous medical equipment, to include:

(A) one (1) infant, one (1) child, two (2) adult, and one (1) extra-large blood pressure cuffs.

(B) stethoscope, one (1) adult and one (1) pediatric size.

(C) obstetrical kit, with towels, 4"x4" dressing, umbilical tape, bulb syringe, cord cutting device, clamps, sterile gloves, aluminum foil, and blanket.

(D) universal communicable disease precaution equipment including gloves, mask, goggles, gown, and other universal precautions.

(E) blood-glucose measurement equipment per medical direction.

(F) CPAP per medical direction.

(G) Semi-automatic advisory defibrillator (SAAD) with adult and pediatric capability.

(5) Other mandatory equipment, to include:

(A) Two (2) appropriately labeled or designated waste receptacles for:

(i) waste that is contaminated by bodily fluids or potentially hazardous or infectious waste, and,

(ii) waste that does not present a biological hazard, such as plastic and paper products that are not contaminated.

(B) one (1) flexible, portable, soft stretcher for confined space and extrication as approved by medical direction.

(C) two way radio communication equipment as detailed in this Chapter and through the Statewide Interoperability Governing Body utilizing VHF frequency 155.3400.

(D) one (1) sturdy, lightweight, all-level cot for the primary patient and mounting cot fastener and/or anchorage assembly that is compliant with the vehicle manufacturing standards in place at the time of purchase.

(E) at least three (3) strap type restraining devices (chest, hip, and knee), and compliant shoulder harness shall be provided per stretcher, cot, and litter (not less than two (2") inches wide, nylon, easily removable for cleaning, two (2) piece assembly with quick release buckles).

(F) electronic or paper patient care reports.

(G) two (2) fire extinguishers one (1) in the cab of the unit, and one (1) in the patient compartment of the vehicle.

Each mounted in a manner that allows for quick release and is compliant with the ambulance manufactures standards. Each extinguisher is to be dry powder, ABC,

and a minimum of five (5#) pounds.

(H) two (2) operable flashlights.

(I) all ambulance equipment and supplies shall be maintained in accordance with the sanitation requirements in this subchapter. Additionally, sterility shall be maintained on all sterile packaged items.

(J) digital or strip type thermometer and single use probes.

(K) six (6) instant cold packs.

(L) one (1) length/weight based drug dose chart or tape.

(M) a minimum of two (2) DOT approved reflective vests.

(N) one (1) pair of binoculars.

(O) a current copy of the emergency response guide, electronic or paper format.

(P) As approved by local medical direction, a child restraint system or equipment for transporting pediatric patients.

(e) Intermediate equipment, in addition to the basic equipment, intermediate licensed service ambulance vehicles shall carry:

(1) intravenous administration equipment in a sufficient quantity to treat multiple patients requiring this level of care, including intravenous catheters 14 to 24 gauge, six (6) each.

(2) interosseous needles, two (2) each for adult and pediatric patients, and associated administration equipment if approved by local medical control.

(3) appropriate quantities of sterile fluid as approved by local medical control.

(4) adequate advanced airway equipment per medical control;

(A) endotracheal tubes, two (2) sets of cuffed 2.5 to 8.0, as permitted and approved by local medical control. Uncuffed endotracheal tubes are optional, based on medical director approval.

(B) supraglottic airway devices to be used as a primary or secondary airway intervention, as approved by medical control.

(C) Laryngoscope handle with extra batteries and bulbs with blade sizes and styles as approved by local medical control.

(5) blood sampling equipment if approved by medical control.

(6) one (1) Occupational Safety and Health Administration (OSHA) approved sharps container.

(7) magill forceps one (1) pediatric and one (1) adult size, individually wrapped.

(8) continuous waveform capnography required for use in endotracheal intubation and specific supraglottic airway devices.

(f) Advanced Emergency Medical Technician equipment, in addition to the required equipment for the EMT and the Intermediate, will carry:

(1) medication that is permitted within the AEMT scope of practice and as approved by the medical control physician;

(2) equipment and supplies that are permitted within the AEMT scope of practice and approved by the medical control physician.

- (g) Paramedic equipment, in addition to the required EMT, Intermediate, and AEMT equipment, the Paramedic level ambulance will carry:
- (1) cardiac monitor/defibrillator with printout, and appropriate pads, paddles, leads and/or electrodes (adult and pediatric). Telemetry capability is optional.
 - (2) medication with quantities to be carried on each ambulance as detailed in the formulary of agency approved protocols.
 - (3) nasogastric tubes; two (2) each 8 french to 16 french, in accordance with medical control authorization.
- (h) All ambulance vehicles, regardless of licensure level or level of care provided, shall carry:
- (1) three (3) reflectors (triangular) or battery powered warning lights;
 - (2) two (2) OSHA approved hard hats, with goggles or face shield;
 - (3) two (2) pair of heavy work gloves; and
 - (4) one (1) spring-loaded window punch or other tool that may be used to access a patient through a window.
- (i) All ambulance services shall have sufficient and appropriate rescue equipment to gain access to patients either on board the ambulance or provided through an extrication agreement with a rescue department or team.
- (j) All assessment and medical equipment utilized for patient care will be maintained in accordance with the manufacturer's guidelines. Documentation will be maintained at the agency showing that periodic tests, maintenance, and calibration are being conducted in accordance with the manufactures requirements. These types of equipment include, but are not limited to, gurneys or stretchers, suction devices, pulse oximetry, glucometers, capnography monitors, end-tidal co2 monitors, CPAP/BiPAP devices, ventilators, and blood pressure monitors.

310:641-3-24. Medical control requirement

- (a) Each Oklahoma licensed ambulance service that initiates and responds to calls within the state shall have a physician medical director who is fully licensed, non-restricted Doctor of Medicine (M.D.) or a Doctor of Osteopathy (D.O.) by the State of Oklahoma.
- (b) Each licensed ambulance service will have a plan or policy that will address a sudden lapse of medical direction, such as a back-up or reserve medical director, which is used to ensure coverage when a medical director is not available.
- (1) The Department shall be notified the next business day of any lapse or change of medical direction by the respective agency. If the agency has made arrangements for a back-up medical director or an immediate replacement, then a lapse has not occurred.

(2) In the event of a lapse in medical direction; in that, there is not a medical director providing the authority for medical interventions for an agency's certified and licensed personnel, the agency will, pursuant to 63 O.S. Section 1-2506 relating to the medical authority to perform medical procedures:

- (A) cease all operations involving patient care,
- (B) implement mutual aid plans to ensure requests for service receive responses until the agency is able to implement their plan or policy for substitution or back-up medical direction.

(c) An agency that only provides care within the Basic Life Support scope of practice, the medical director shall:

- (1) hold a valid, non-restricted medical license,
- (2) not be restricted from obtaining or maintaining OBNDD and DEA registrations for controlled dangerous substances,
- (3) demonstrate appropriate training and experience in adult and pediatric emergency care. Demonstrated training and experience may include appropriate board training, basic life support, or pre-hospital trauma life support courses.

(d) An agency that provides Intermediate, Advanced, or Paramedic level interventions by individual protocols or licensure level, the medical director shall:

- (1) hold a valid, non-restricted medical license,
- (2) maintain current OBNDD and DEA registrations for controlled dangerous substances,
- (3) demonstrate appropriate training and competence in adult and pediatric emergency medical services, to include pediatric and adult trauma. Demonstrated training and experience may include completed residency training as well as relevant work experience with current clinical competency.

(e) The physician medical director of a ground ambulance based in another state shall not be required to be licensed to practice in the State of Oklahoma, but shall be fully licensed in good standing in the home state of that ground ambulance service. Otherwise, the medical director will meet EMS Medical Director requirements listed in this subchapter.

(f) The physician medical director for an ambulance service operated by the federal government shall be fully licensed in good standing in Oklahoma or another state. If not licensed in Oklahoma, the physician shall be actively employed by the federal agency responsible for the operation of the ambulance service or emergency medical response agency.

(g) The physician director shall:

- (1) be accessible, knowledgeable, and actively involved in quality assurance and the educational activities of the agency's personnel and supervise a quality assurance (QA) program. The appointment of a designee to assist in QA and educational activities does not absolve the medical director of their responsibility for providing oversight;
- (2) provide a written statement to the Department, which includes:

- (A) an agreement to provide medical direction and establish treatment protocols and the agency specific scope of practice for all certified and licensed agency personnel;
 - (B) the physician's primary practice address or home address if the physician does not have a practice, as well as contact information such as a phone number and email address(es);
 - (C) the current OBNDD registrant number or state equivalent, as appropriate;
 - (D) current Oklahoma medical license;
 - (E) on-line and/or off line specific licensure level medical protocols with medication formulary for patient care techniques. Protocols shall include medication to be used, treatment modalities for patient care procedures, and appropriate security procedures for controlled dangerous substances;
- (3) Attend or demonstrate participation in:
- (A) medical director training provided by the Department subject to the availability of funding. Verification of attendance or participation will be maintained at the agency;
 - (B) one hour of continuing education each year specific to providing medical oversight to EMS providers and agencies each year, provided by the Department subject to the availability of funding.

310:641-3-25. Sanitation requirements

- (a) The following shall apply regarding sanitation standards for all ambulance services facilities, vehicles, and personnel:
- (1) the interior of the vehicle and the equipment within the vehicle shall be sanitary, secured and maintained in good working order, at all times;
 - (2) the exterior of the vehicle shall be clean and maintained in good working order to ensure the vehicle can operate safely and in accordance with applicable sections of Title 47 of the Oklahoma Statutes;
 - (3) linen shall be changed after each patient is transported and bagged and stored in an outside or separate compartment;
 - (4) clean linen, blankets, washcloths, and hand-towels shall be stored in a closed interior cabinet free of dirt and debris;
 - (5) freshly laundered linen or disposable linen shall be used on the cots and pillows and changed between patients;
 - (6) pillows and mattresses shall be kept clean and in good repair, and any repairs made to pillows, mattresses, and padded seats shall be permanent;
 - (7) soiled linen shall be placed in a container that deters accidental exposure. Any linen which is suspected of being

contaminated with bodily fluids or other potentially hazardous infectious waste shall be placed in an appropriately marked closed container for disposal;

(8) contaminated disposable supplies shall be placed in appropriately marked or designated containers, in a manner that deters accidental exposure;

(9) exterior and interior surfaces of vehicles shall be cleaned routinely;

(10) blankets and hand towels used in any vehicle shall be clean;

(11) implements inserted into the patient's nose or mouth shall be single-service wrapped and properly stored and handled. When multi-use items are utilized, the local health care facilities should be consulted for instructions in sanitation and handling of such items.

(b) When a vehicle has been utilized to transport a patient(s) known to the operator to have a communicable disease the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water and appropriate disinfectant. The vehicle should be placed "out of service" until a thorough cleansing is conducted.

(c) All storage spaces used for storage of linens, equipment, medical supplies, and other supplies at the base station shall be kept clean.

(d) personnel shall be clean, especially hands and fingernails, and well groomed. Clothing worn by personnel shall be clean. The licensee shall provide in each vehicle a means of hand washing for the attendants.

(e) All oxygen humidifiers shall be single use;

(f) All medications, supplies, and sterile equipment with expiration dates shall be current.

(1) Expired medications, supplies, and sterile equipment shall be discarded appropriately.

(2) Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited.

(g) The station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, free of safety and health hazards.

(h) Ambulance vehicles and ambulance service facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas, consistent with the provisions of 310:641-1-4.

310:641-3-26. Storage of intravenous solutions

(a) Medication and vascular fluid shall be stored in a manner that complies with manufacturer and FDA standards.

(b) Each agency shall maintain medications in a manner that deters theft and diversion of all medications.

310:641-3-51. Authority to carry controlled substances on a vehicle

(a) An ambulance service, with personnel licensed to utilize such, is hereby authorized to carry a limited supply of controlled substances, secured and stored in a manner that is compliant with State and Federal statutes and regulations. The utilization, procurement, and accountability of such drugs shall be supervised by medical control for the service. An inventory shall be kept and signed according to the requirement of the Oklahoma Bureau of Narcotics and Dangerous Drugs (OBNDD), and the United States Department of Justice Drug Enforcement Administration (DEA). Each responsible medical director shall maintain a copy of their OBNDD certificate to the Department, for this purpose.

(b) Any loss or deficiency which occurs in the utilization, procurement, and accountability of controlled substances, shall be reported to the OBNDD and DEA through their established procedures and requirements, and to the Department, within ten (10) working days.

[Source: Amended and renumbered from 310:641-3-80 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-53. Inspections

(a) The Department shall conduct unannounced inspections of every licensed ambulance service. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this subchapter.

- (b) All inspection reports will be sent to the agency director, license owner, and medical director.
- (c) A representative of the agency will be with the Department employee during the inspection.

[Source: Amended and renumbered from 310:641-3-90 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-55. Notice of violation

- (a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the agency an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.
- (b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the agency shall submit to the Department a written demonstration of compliance and/or plan of correction.
- (c) A plan of correction shall include at least the following:
 - (1) When the correction was or will be completed;
 - (2) How the correction was or will be made;
 - (3) What measures will prevent a recurrence; and
 - (4) Who will be accountable to ensure future compliance.
- (d) The Department shall ensure that the agency is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.
- (e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Amended and renumbered from 310:641-3-91 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-57. Emergency medical services regions

- (a) Region(s), established pursuant to Section 1-2503 (21) and (22) of the Act shall not be recognized, without Department approval for this purpose. Pursuant to Title 74, O.S., Section 1006, of the "Interlocal Cooperation Act" (relating to Approval of Agreements), the Department shall exercise authority granted to approve or disapprove all matters within its jurisdiction, in addition to and in substitution for the requirement of submission to and approval by the Attorney General.
- (b) The Department shall recognize regions, which comply with the law and this Chapter.
- (c) Any regional emergency medical services system shall provide the name of the regional medical director, copies of regional standards, rules, and transport.

[Source: Amended and renumbered from 310:641-3-110 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-59. Operational protocols

(a) Authorized emergency vehicles of licensed ambulance services shall adhere to the requirements of Title 47 O.S. Section 1-101 et seq. (the "Motor Vehicle Code") for all vehicle operations.

(b) There is a required duty to act within the licensed service area upon acceptance of an ambulance service license. All licensed ambulance services shall respond appropriately; consistent with the level of licensure when called for emergency service, regardless of the patient's ability to pay. Non-emergency interfacility transfers are exempt from the statutory duty to act.

(c) If the ambulance service can not physically respond within the limits of "The Ambulance Services District" Act, then the ambulance service called has a duty to immediately call for mutual aid from a neighboring licensed ambulance service.

(d) If an ambulance service receives a call for an emergency which is in the licensed service area of another licensed ambulance service, the ambulance service called has a responsibility to immediately contact the licensed ambulance service with that licensed service area.

(1) If the emergency is in an area that is not within a licensed service area, the service that received the call will contact the closest ambulance to the call.

(2) Any licensed service that receives a call in an area that is outside of a licensed service area shall report the event to Emergency Systems within the Department.

(3) The Department will report the event to the county commissioners of the county where the call occurred.

(e) Mutual aid plans between licensed ambulance services and surrounding licensed or certified emergency medical services providers shall be developed and placed in the service files for inspection. Plans will be periodically reviewed to ensure accuracy and completeness. Licensed ambulance services shall provide mutual aid, if the capability exists without jeopardizing the primary service area.

(f) An ambulance service requesting an air ambulance shall;

(1) call the closest air ambulance to the location of the scene, or

(2) call the air ambulance service the patient or the patient family chooses to utilize.

PART 13. SANITATION

310:641-3-60. Sanitation requirements [AMENDED AND RENUMBERED TO 310:641-3-25]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended and renumbered to 310:641-3-25 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-61. Transfer protocols

(a) Department approved medical and trauma triage, transport, and transfer protocols shall adhere to the principle of delivering time-sensitive medical and trauma patients to appropriate facilities as outlined by the regional advisory boards and the Department approved protocols.

(b) Specific triage, transport, and transfer protocols or destination protocols shall be developed by medical control for the region, area, and/or local service and submitted to the Department for approval.

(c) Each agency shall designate the receiving facility(ies) that are within their reasonable service range.

(1) An agency may still transport to facilities outside of the reasonable service range on a case by case basis.

(2) Repeated transports to facilities that are outside of the agency's reasonable range will require modifications to the designated receiving facility list maintained at the Department with the agency's approved protocols.

(d) Triage, transport and transfer protocols approved by the Department shall include the following requirements:

(1) medical and trauma non- emergency transports shall be transported to the facility of the patient's choice, if within reasonable service range,

(2) emergency, non-injury related, non-life threatening transports shall be transported to the facility of the patient's choice, if within reasonable service range,

(3) emergency, injury related transports shall adhere to the Oklahoma Triage, Transport, and Transfer Guidelines as authorized in 63 O.S. 1-2530.3 and shall ensure that patients are delivered to the most appropriate classified hospital, either within their region or contiguous regions,

(4) Severely injured patients as described in the Oklahoma Triage, Transport, and Transfer Guidelines as authorized in 63 O.S. 1-2530.3 shall be transported to a hospital classified at Level I or II for trauma and emergency operative services unless a Level III facility that is identified within a regional plan is capable of providing definitive care. If time and distance factors are detrimental to patient outcomes, patients shall be transported to the closest appropriate hospital in accordance with the State approved regional trauma plan.

(5) Stable patients at risk for severe injury or with minor-to-moderate injury as described in the Oklahoma Triage, Transport, and Transfer Guidelines shall be transported to the closest appropriate facility. These patients may be transported to the hospital of the patient's or patients' legal representative's choice consistent with regional guidelines.

(6) Emergency, life threatening, non-injury transports shall be to the nearest facility that can provide evaluation and stabilization appropriate to the patient's condition.

(7) Transports or transfers from a pre-hospital setting that occur as a result of a physician order shall be transported to the facility ordered by the physician except when:

- (A) the patient or the patient's guardian chooses a different facility;
 - (B) the patient condition changes, and going to a different facility is in the best interest of the patient;
 - (C) the receiving facility's ability to receive that patient has changed;
 - (D) the facility is not within a reasonable range of the agency; or
 - (E) the Trauma Referral Center requests a change in destination or presents reasonable options for a destination.
- (e) In counties with populations of 300,000 or more and their contiguous communities, injury related transports shall be directed and coordinated by the trauma transfer and referral center for the region.
- (1) All ambulance services providing pre-hospital emergency services in these regions shall contact the trauma transfer and referral center at intervals determined by the Department to register the transport of an injured patient to a hospital.
 - (2) All ambulance services transporting injured patients on a pre-hospital basis from areas outside the region to hospitals in the region shall contact the trauma transfer and referral center before entering the region. The trauma transfer and referral center shall direct the ambulance to the appropriate hospital based on the regional plan, the severity of the injury, and the capacity status of the hospitals in the region.
 - (3) All ambulance services transferring injured patients from hospitals outside the region to hospitals in the region shall contact the trauma transfer and referral center before entering the region to advise the center of the patient transfer. The center shall maintain a record of the transfer for regional continuous quality improvement activities.
- (f) The patient has a right to refuse transport.
- (g) Each ambulance service shall ensure that the care of each patient is transferred appropriately to the receiving facility's licensed staff. The transfer of care will include verbal and written reports summarizing the assessment and treatment of the patient by the ambulance service.
- (h) All licensed ambulance services are required to participate in the regional and statewide systems of care established through statute and administered by the Department to ensure patients are transported to the appropriate facility in a timely manner to receive appropriate care.

[Source: Amended and renumbered from 310:641-3-130 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-63. Ambulance service files

- (a) All required records for licensure will be maintained for a minimum of three years.
- (b) Each licensed ambulance service shall maintain electronic or paper records about the operation, maintenance, and such other required documents, at the business office. These files shall be available for review by the Department, during normal work hours. Files which shall be

maintained include the following:

(1) Patient care records:

(A) At the time a patient is transported to a receiving facility, the following information will be, at a minimum, provided to the facility staff members at the time the patient(s) are accepted:

- (i) personal information such as name, date of birth, and address;
- (ii) patient assessment with medical history;
- (iii) medical interventions and patient responses to interventions;
- (iv) any known allergies;
- (v) other information from the medical history that would impact the patient outcomes if not immediately provided.

(B) A signature of the receiving facility health care staff member will be obtained to show the above information and the patient was received.

(2) A complete copy of the patient care report shall be sent to the receiving facility within twenty-four (24) hours of the hospital receiving the patient.

(3) Completed patient care reports shall contain demographic, administrative, legal, medical, community health and public information required by the Department through the OKEMSIS Data Dictionary;

(4) all run reports and patient care information shall be considered confidential.

(5) all licensed agencies shall maintain records on the maintenance, and regular inspections of each vehicle.

(A) Each vehicle must be inspected and a detailed equipment checklist completed after each call, or on a daily basis, whichever is less frequent; and

(B) documentation that shows routine vehicle maintenance for each vehicle as required by vehicle manufacture recommendations,

(6) all licensed agencies shall maintain a credential or licensure file for licensed and certified emergency medical personnel employed by or associated with the service that includes:

(A) Oklahoma license and certification;

(B) Basic Life Support certification or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association standards, and approved by the medical director ;

(C) Advanced Cardiac Life Support certification or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association Standards as applicable for advanced licensure level(s) and approved by the medical director;

(D) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent;

(E) verification of an Emergency Vehicle Operations Course or other agency approved defensive driving course;

(F) contain a list or other credentialing document that defines or describes the medical director authorized procedures, equipment and medications for each certified or licensed member employed or associated with the agency; and

(G) a copy of the medical director credentials will be maintained at the agency.

(7) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel records to ensure confidentiality of records that do not pertain to the documents relating to patient care.

(8) Copies of staffing patterns, schedules, or staffing reports which indicate the ambulance service is maintaining twenty four (24) hour coverage, at the highest level of license;

(9) Copies of in-service training and continuing education records;

(10) Copies of the ambulance service:

(A) operational policies, guidelines, or employee handbook;

(B) medical protocols;

(C) a list of the patient care equipment that is carried on any "Class E" unit(s) will be part of the standard operating procedure or guideline manual and;

(D) OSHA and/or Department of Labor exposure plan, policies, or guidelines.

(c) A log of each request for service received and/or initiated, to include the:

(1) Disposition of the request and the reason for declining the request, if applicable;

(2) the patient care report number;

(3) date of request;

(4) patient care report times as required by the OKEMSIS data dictionary;

(5) location of the incident;

(6) nature of the call;

(7) Such other documents which may be determined necessary by the Department.

(d) Documentation that verifies an ongoing, physician involved quality assurance program.

(e) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.

(f) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each licensed ambulance service. Reports of the EMS data standard shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the Department, in writing.

- (g) Review and the disclosure of information contained in the ambulance service files shall be confidential, except for information which pertains to the requirements for license, certification, or investigation issued by the Department.
- (h) Department representatives shall have prompt access to files, records and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment or property may result in summary suspension of licensure by the Commissioner of Health.
- (i) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.

[Source: Amended and renumbered from 310:641-3-160 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-3-65. Sole source ordinances

- (a) An ambulance service which operates as a sole source provider established by EMS regions, ambulance service districts or municipalities shall file with the Department a copy of the ordinance or regulation and a copy of the contract to operate as a sole source provider. This requirement shall be retroactive and includes all established sole source ambulance services.
- (b) An ambulance service which operates as a sole source provider for a "region" as established pursuant to the Oklahoma Interlocal Cooperation Act (Title 74, Section 1001 et seq.) shall file, with the Department, a copy of the interlocal agreement and any ordinance or other regulations or contract or agreement established by the region for ambulance service provision.
- (c) Violation of contracts established herein may be cause for enforcement action by the Department.

[Source: Amended and renumbered from 310:641-3-170 at 33 Ok Reg 1529, eff 9-11-16]

310:641-3-67. Suspension, revocation, probation, or non-renewal of a license

- (a) The Department may suspend or revoke a license, and/or fine or place on probation a license or licensee for the following:
- (1) violations of any of the provision of the Oklahoma Statutes, the Act or this chapter;
 - (2) permitting, aiding or abetting in any illegal act in connection with the ambulance service;
 - (3) failure to provide emergency service to any person, unless a vehicle and/or personnel is not available, and failure to summon mutual aid;
 - (4) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;
 - (5) failure to operate the service on a twenty four (24) hour basis,
 - (6) placing a vehicle into service before it is properly inspected, approved and permitted by the Department;
 - (7) failure to comply with a written order issued by the Department within the time frame specified by the Department;

(8) engaging in any act which is designed or intended to hinder, impede or obstruct the investigation of any matter governed by the Act, by any lawful authority;

(9) an ambulance service who fails to renew their Oklahoma license within the time frame and other requirements as specified in these rules, shall be considered an expired or lapsed licensee, and therefore no longer licensed as an ambulance service in the State of Oklahoma.;

(10) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;

(11) offering, giving, or promising anything of value or benefit, as defined in Oklahoma Statutes or Department policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupations;

(12) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed; or

(13) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this Chapter.

(b) No person, company, governmental entity or trust authority may operate an ambulance service or emergency medical response agency except in accordance with Title 63, Section 1-2501, et seq., and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant, in connection with a license application or an investigation conducted by the Department pursuant to this rule shall not:

(1) knowingly make a false statement of material fact;

(2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or

(3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause exists if an agency fails to

provide emergency service to any person, unless a vehicle and/or personnel is not available, and failure to summon mutual aid, or there is conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;

(e) In addition to any other penalties, a civil fine of not more than one hundred dollars (\$100.00) per violation per day may be assessed, for violations of the Act or OAC 310:641.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Revoked at 17 Ok Reg 2948, eff 7-13-00]

PART 3. EMERGENCY MEDICAL PERSONNEL LICENSES

310:641-5-10. License requirement

- (a) No person may be employed, volunteer, present themselves, or perform as a certified or licensed emergency medical personnel at any level in Oklahoma without a valid certification or license from the Department.
- (b) While on duty, emergency medical personnel shall wear an agency identifiable uniform or agency specific picture identification.
- (c) While on duty, emergency medical personnel shall have an electronic or paper copy of their certification or license on their person or unit.
- (d) Emergency medical personnel shall present their certification or license when asked by a representative of the Department.
- (e) An individual may only possess one Oklahoma certification or license at any one time. When a level change occurs, the previous certification or license is no longer valid at the time the new license is issued by the Department.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-11. License and certification qualifications

- (a) Emergency medical personnel while on duty will have a copy of their certification or license.
- (b) Persons applying for initial certification or license shall meet the requirements for qualification, application, and procedure as follows:
 - (1) Emergency Medical Responder certification:
 - (A) Applicant shall be at least eighteen (18) years of age.
 - (B) Applicant shall submit the following:
 - (i) An appropriate State application form specifying the level of certification, true, correct, and complete information as to eligibility and character,
 - (ii) A signed "Affidavit of Lawful Presence" form,
 - (C) Completion of a Department approved Emergency Medical Responder course,
 - (D) successful completion of a National Registry practical skills examination administered by the approved training program or agency,
 - (E) successful completion of a written examination from either:
 - (i) National Registry of Emergency Medical Technicians (NREMT), or
 - (ii) Oklahoma Department of Career and Technology Education.
 - (F) First responders or Emergency Medical Responders trained in a Department approved course prior to January

1, 2000 will be required to obtain a current Emergency Medical Responder certification by September 30, 2017 by providing to the Department the following:

- (i) verification of refresher/transition course completion every two years since March 31, 2012,
- (ii) signed "Affidavit of Lawful Presence",
- (iii) verification of a practical exam of EMR skill administered during a refresher or transition course after March 31, 2012.

(G) A fee of ten (\$10.00) dollars for the line of duty death benefit as detailed in the Act.

(H) The Department shall maintain a registry of all qualified Emergency Medical Responders.

(2) Emergency Medical Technician, or EMT:

(A) Applicant shall be at least eighteen (18) years of age,

(B) Applicant shall submit the following:

- (i) an appropriate State application form specifying the level of licensure, true, correct, and complete information as to eligibility and character, and
- (ii) a signed "Affidavit of Lawful Presence",
- (iii) successful completion of an NREMT EMT psycho-motor exam,
- (iv) successful completion of an NREMT EMT cognitive exam,
- (v) submission to the Department a copy of the applicants NREMT EMT certification,
- (vi) a license fee of Seventy-five (\$75.00) dollars for licensure and an additional ten (\$10.00) dollars for the line of duty death benefit as detailed in the Act. Fees are non- refundable except if the application is rejected.

(3) Advanced EMT and Paramedic:

(A) Applicant shall be at least eighteen (18) years of age,

(B) the applicant shall submit the following:

- (i) an appropriate State application form specifying true, correct, and complete information as to eligibility and character,
- (ii) a signed "Affidavit of Lawful Presence",
- (iii) submission of the applicant's NREMT certification after completion of the NREMT cognitive and psychomotor examinations.

(I) The Department shall conduct or oversee the NREMT psycho-motor examination for the Advanced EMT and Paramedic using Department approved evaluators.

(II) AEMT candidates are required to complete and pass the endotracheal intubation exam prior to licensure.

(iv) The fee for the psycho-motor examination(s) determined by the Department, testing site, or the testing vendor for the Department.

(v) The initial license fee for Advanced EMT applicants and Paramedic applicants is seventy-five (\$75.00) dollars. The fees shall be submitted with the application. Fees shall be in an acceptable form and made payable to the Oklahoma State Department of Health. An additional ten (\$10.00) fee is required for the line of duty death benefit detailed in the Act. Fees are non-refundable except if the application is rejected.

(c) Initial licensure and certification will be from the date of issue through the second June 30 after the initial date. Subsequent licensure and certification periods will be for two years, expiring on June 30.

(d) The Department shall ensure oversight of the AEMT and Paramedic practical skills examinations conducted within the State.

(e) Any certification or license application submitted to the Department under this subchapter may be denied on the basis of a felony conviction, adjudication, or plea of guilty or nolo contendere for any of the following offenses:

(1) assault, battery, or assault and battery with a dangerous weapon; aggravated assault and battery;

(2) murder or attempted murder; manslaughter, except involuntary manslaughter;

(3) rape, incest, or sodomy; indecent exposure and indecent exhibition; pandering;

(4) child abuse; abuse, neglect, or financial exploitation of any person entrusted to his care or possession;

(5) burglary in the first or second degree; robbery in the first or second degree; robbery or attempted robbery with a dangerous weapon, or imitation firearm;

(6) arson, substance abuse, or any such other conviction, adjudication, or plea of guilty or nolo contendere, or circumstances which in the opinion of the Department would render the applicant unfit to provide emergency medical care to the public;

(7) Each decision shall be determined on a case-by-case basis.

(f) A license application may be denied on the basis of any falsification. Application for initial licensure pursuant to the Act shall constitute authorization for an investigation by the Department.

(g) Candidates for initial Oklahoma licensure shall successfully complete the NREMT certification examinations. Practical and written examinations shall adhere to current policies of NREMT and the Department. Candidates shall demonstrate competency in all required skills. The Department reserves the right to review and require additional practical examination of any candidate.

(h) An applicant may request a review of adverse decisions, made within this section, by applying in writing within thirty (30) calendar days after the notice of rejection. Review, by the Department, shall be held in accordance with the Administrative Procedures Act.

310:641-5-11.1. Military reciprocity certification and license qualifications

(a) Emergency medical personnel while on duty will have a copy of their certification or license.

(b) Persons applying for a Military Reciprocity Certification or License shall submit an application to the Department using Department approved forms.

(c) Persons applying for shall meet the requirements for qualification, application, and procedure as follows:

(1) Emergency Medical Responder certification:

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Emergency Medical Responder.

(iii) A signed "Affidavit of Lawful Presence" form.

(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Emergency Medical Responder.

(2) Emergency Medical Technician, or EMT:

(A) Applicant shall be at least eighteen (18) years of age,

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Emergency Medical Technician.

(iii) A signed "Affidavit of Lawful Presence",

(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Emergency Medical Technician.

(3) Intermediate

(A) Applicant shall be at least eighteen (18) years of age,

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

- (ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Intermediate.
- (iii) A signed "Affidavit of Lawful Presence",
- (iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Intermediate.

(4) Advanced EMT:

- (A) Applicant shall be at least eighteen (18) years of age,
- (B) Applicant shall submit the following documentation:
 - (i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.
 - (ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Advanced EMT.
 - (iii) A signed "Affidavit of Lawful Presence",
 - (iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Advanced EMT.

(5) Paramedic

- (A) Applicant shall be at least eighteen (18) years of age,
- (B) Applicant shall submit the following documentation:
 - (i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.
 - (ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Advanced EMT.
 - (iii) a signed "Affidavit of Lawful Presence",
 - (iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as Paramedic.

(d) Initial licensure and certification shall be from the date of issue through the second June 30 after the initial date.

(e) Any certification or license application submitted to the Department under this subchapter may be denied on the basis of a felony conviction, adjudication, or plea of guilty or nolo contendere for any of the following offenses:

- (1) assault, battery, or assault and battery with a dangerous weapon; aggravated assault and battery;
- (2) murder or attempted murder; manslaughter, except involuntary manslaughter;
- (3) rape, incest, or sodomy; indecent exposure and indecent exhibition; pandering;
- (4) child abuse; abuse, neglect, or financial exploitation of any person entrusted to his care or possession;

(5) burglary in the first or second degree; robbery in the first or second degree; robbery or attempted robbery with a dangerous weapon, or imitation firearm;

(6) arson, substance abuse, or any such other conviction, adjudication, or plea of guilty or nolo contendere, or circumstances which in the opinion of the Department would render the applicant unfit to provide emergency medical care to the public;

(7) Each decision shall be determined on a case-by-case basis.

(f) A license application may be denied on the basis of any falsification. Application for initial licensure pursuant to the Act shall constitute authorization for an investigation by the Department.

(g) Applicants will be notified in writing of the status of their application. The notification will be completed by either issuing the certification or license or by providing a denial to the application with an explanation of the denial and what steps are required to make the application acceptable.

(h) An applicant may request a review of adverse decisions, made within this section, by applying in writing within thirty (30) calendar days after the notice of rejection. Review, by the Department, shall be held in accordance with the Administrative Procedures Act.

(i) The Department shall maintain a registry of all qualified Emergency Medical Responders.

[Source: Added at 37 Ok Reg 1423, eff 9-11-20]

310:641-5-12. Personnel license levels [REVOKED]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Revoked at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-13. Issuance of certification or license

(a) Upon successful completion of the examinations, an Oklahoma certification or license at the respective level of emergency medical personnel shall be issued. Concurrent registration with the National Registry is included during the initial license period. NREMT certification shall be maintained by emergency medical personnel licensed after April 1, 2010. Oklahoma emergency medical personnel licenses will be extended to meet the new expiration date for a two year transition period. An exception is permitted for Oklahoma licensed Intermediates that did not test to become AEMTs. When their national certification is not renewed, they may still retain their Intermediate license subject to Oklahoma requirements for renewal.

(b) The initial expiration date of a license shall coincide with the National Registry expiration date, plus three (3) months. Subsequent license periods, if a licensee meets renewal requirements, shall be for a two (2) year period beginning July 1 and continuing through June 30 of the respective expiration year.

(c) A five (\$5.00) dollar fee shall be charged for a duplicate license, or license re-issued due to a name or address change.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 26 Ok Reg 1498, eff 6-11-09 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-13.1. Issuance of a military reciprocity license and certification

(a) Upon successful completion of the application and submission of supporting documentation, a Military Reciprocity Certification or License shall be issued at the most appropriate Oklahoma Certification or License level that can be verified.

(b) Initial licensure and certification shall be from the date of issue through the second June 30 after the initial date.

(c) If the applicant has a current certification from the National Registry of Emergency Medical Technicians, a Military Reciprocity Certification or License may be provided to the applicant at that certification same level.

[Source: Added at 37 Ok Reg 1423, eff 9-11-20]

310:641-5-14. Renewal of certification and license requirements

- (a) An application for renewal of emergency medical personnel certifications or licenses shall be submitted to the Department. A notice of expiration for renewal shall be sent to each certificate or license holder no less than sixty (60) days prior to the expiration date each year. Directions for renewal will be made available by the Department.
- (b) Certificate and license holders are solely responsible for meeting all requirements for renewal.
- (c) Applications for renewal shall be completed using Department approved procedures and forms.
- (d) Incorrect or incomplete documentation shall be cause for rejection.
- (e) Specific renewal requirements are detailed in in this subchapter.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 20 Ok Reg 2368, eff 7-11-03 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 25 Ok Reg 2443, eff 7-11-08 ; Amended at 26 Ok Reg 1498, eff 6-11-09 ; Amended at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-14.1. Renewal requirements for non-NREMT certified licensees [AMENDED AND RENUMBERED TO 310:641-5-19]

[Source: Added at 26 Ok Reg 1498, eff 6-11-09 ; Amended and renumbered to 310:641-5-19 at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-15. Expired certification and license

(a) Any certification or license holder who fails to renew their Oklahoma emergency medical responder certification, or emergency medical personnel license, within the required time frame shall be considered to have an expired certification or license, and therefore no longer certified or licensed in the State of Oklahoma.

(b) Certifications and licenses that are expired may be renewed within the grace period without penalty. Within this thirty day period, the certificate or license holder may operate within their scope of practice.

(c) Requests for an extension due to hardships and unforeseen circumstances must be submitted to the Department in writing. Expiration date extensions may be provided without penalty and may be provided by the Department for a period not to exceed ninety (90) days after the expiration date.

(d) Licenses may not be renewed after ninety (90) days.

(e) An applicant may request a review of adverse decisions made within this section by applying in writing within thirty (30) calendar days after the notice of rejection. Review by the Department shall be held in accordance with the Administrative Procedures Act otherwise the decision shall be considered final to both parties.

(f) Pursuant to 59 O.S. Section 4100.6 (relating to automatic extensions of professional licenses and certifications), certified and licensed personnel whose certificates or licenses expired while serving on orders for military are automatically extended without penalty while the licensee is on active military duty. Any person on active military duty has one year from the date of discharge to renew the license.

310:641-5-18. Renewal requirements of the Emergency Medical Responder [REVOKED]

[Source: Amended and renumbered from 310:641-5-61 at 33 Ok Reg 1529, eff 9-11-16 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-5-19. Renewal requirements for certified and licensed emergency medical personnel

(a) For certified and licensed emergency medical personnel compliant with OAC 310:641-5-15 and without a current NREMT certification, the following will be submitted to the Department:

- (1) a completed EMR, EMT, Intermediate, Advanced EMT, or Paramedic renewal application;
- (2) line of duty death benefit fee as defined in 63 O.S. § 1-2505.1, 2, and 3;
- (3) renewal fee of:
 - (A) twenty (\$20.00) dollars plus the renewal death benefit fee as detailed in the Act is required for an EMT renewal;
 - (B) twenty-five (\$25.00) dollars plus the renewal death benefit fee as detailed in the Act is required for an Intermediate or Advanced EMT renewal;
 - (C) thirty (\$30.00) dollars plus the renewal death benefit fee as detailed in the Act is required for a Paramedic renewal; and
- (4) documentation showing the completion of specific continuing education courses or classes that meet or exceed the National Registry National Continued Competency Program guidelines.
 - (A) EMR applications shall submit 16 hours of continuing;
 - (B) EMT applicants shall submit 40 hours of continuing education;
 - (C) Intermediates and Advanced EMT applicants shall submit 50 hours of continuing education;
 - (D) Paramedic applicants shall submit 60 hours of continuing education.

(b) All renewing certified and licensed emergency medical personnel shall submit a current CPR certification or verification of competency that meets or exceeds American Heart Association standards.

(c) The renewing Intermediate, Advanced EMT, and Paramedic shall also submit documentation of skills review and maintenance verification completed and signed by medical control.

(d) The renewing Paramedic shall also submit a current ACLS certification or verification of ACLS Competency that meets or exceeds American Heart Association standards.

(e) Certified and Licensed emergency medical personnel with a current NREMT certification may renew by submitting:

- (1) a completed EMR, EMT, Advanced EMT, or Paramedic renewal application,
- (2) submitting the required line of duty death benefit fee as defined in 63 O.S. §§ 1-2505.1, 2, and 3, and
- (3) a renewal fee of:
 - (A) twenty (\$20.00) dollars for the Emergency Medical Technician,
 - (B) twenty-five (\$25.00) dollars, for the Intermediate and Advanced EMS renewal fee,
 - (C) Paramedic renewal fee is thirty (\$30.00) dollars, and
- (4) a current copy of the applicants NREMT certification.

(f) No more than twelve (12) hours in any one topic is permitted.

Continuing education topics include, but are not limited to:

- (1) Airway, respirations, and ventilation;
- (2) Cardiovascular;
- (3) Trauma;
- (4) Medical; and
- (5) Operations

(g) Individuals renewing with an inactive NREMT certification will be able to receive an Inactive Oklahoma Certification or License.

- (1) The certification or license will be designated as inactive.
- (2) The individuals with an inactive certification or license are not authorized to provide patient care until the license is converted to a standard certification or license.
- (3) The conversion to a standard certification or license requires the applicant to provide the Department documentation that verifies the applicant possesses an active NREMT certification.

(h) Individuals renewing their Oklahoma Intermediate or Paramedic Oklahoma License without any NREMT certification and without the Oklahoma ALS skills review and verification may receive an inactive license.

- (1) The certification or license will be designated as inactive.
- (2) The individuals with an inactive certification or license are not authorized to provide patient care until the license is converted to a standard license.
- (3) The conversion process to a standard license requires the applicant to provide to the Department documentation that an agency medical director has verified the applicants ALS skills.

(i) Certified and licensed emergency medical personnel participating in training and education courses shall be allowed to perform skills determined to be appropriate for the training level of the student with supervision, as described in 63 O.S. 1-2504 (C) and (D).

[Source: Amended and renumbered from 310:641-5-14.1 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-5-20. Scope of practice authorized by certification or licensure

(a) The Department shall establish a scope of practice for each certificate and license level.

(b) The medical control physician may limit an individual certificate or license holder's scope of practice.

(c) Certified and licensed emergency medical personnel may perform authorized skills and procedures when authorized by medical control. When emergency medical personnel are without medical control, the scope of practice for any level of emergency medical personnel is limited to first aid, CPR, and the use of the AED.

(d) Certified Emergency Medical Responders may perform to the following level or within this scope of practice:

- (1) patient assessment, including the determination of vital signs, and triage,
- (2) oxygen administration and airway management,

- (3) basic wound management, including hemorrhage controls to include the use of tourniquets; treatment of shock,
- (4) cardiopulmonary resuscitation (CPR) and the use of only adjunctive airway devices and the use of a semi-automated external defibrillator (SAED),
- (5) splinting of suspected fractures;
- (6) rescue and extrication procedures,
- (7) assistance of patient prescribed medications including sublingual nitroglycerin, epinephrine auto injector and hand held aerosol inhalers,
- (8) administration of agency supplied oral glucose, activated charcoal, aspirin, agency supplied epinephrine auto injector, albuterol or approved substitute per medical direction, and nasally administered or atomized naloxone,
- (9) such other emergency medical care skills and measures included in the instructional guidelines adopted by the Department, and,
- (10) upon the approval of the Department additional skills may be authorized upon the written request of a local medical director,

(e) A licensed Emergency Medical Technician may perform to the following level or within this scope of practice:

- (1) all skills listed for the Emergency Medical Responder,
- (2) patient assessment, determination of vital signs, diagnostic signs, and triage,
- (3) bandaging, splinting, control of hemorrhage, and shock management,
- (4) Administration of medications per medical direction and approved by the Department,
- (5) maintenance of established intravenous fluids without medications,
- (6) CPR, use of adjunctive airway devices to include supraglottic airway devices, and the use of the AED,
- (7) Upon the approval of the Department, additional skills may be authorized upon the written request of a local medical director.

(f) A licensed Intermediate may perform to the following level or within this scope of practice,

- (1) all skills listed within the Emergency Medical Responder and Emergency Medical Technician scope of practice,
- (2) establishment of vascular or intraosseous access for the administration of fluids without medications. Approved fluids include; lactated ringers, normal saline, 1/2 normal saline, dextrose 5%, and dextrose 10%,
- (3) administration of medications per medical direction and approved by the Department,
- (4) venipuncture to obtain blood samples per local medical control,
- (5) the use and placement of definitive airway adjuncts for adults, children, and infants,
- (6) all other emergency medical care skills and measures included in the instructional guidelines adopted by the Department which are not specifically listed above, and

- (7) Upon the approval of the Department, additional skills may be authorized upon the written request of a medical director.
- (g) A licensed Advanced Emergency Medical Technician may perform to the following level and within this scope of practice:
- (1) all skills listed for the Emergency Medical Responder, Emergency Medical Technician and Intermediate,
 - (2) other skills and procedures included in the instructional guidelines adopted by the Department, and
 - (3) upon approval of the Department, additional skills may be authorized upon the written request of the medical director.
- (h) A licensed Paramedic may perform to the following level or within this scope of practice:
- (1) all skills listed for the other certified or licensed emergency medical personnel
 - (2) recognitions, interpretation, treatment of cardiac arrhythmias using a cardiac monitor/defibrillator/external pacemaker,
 - (3) advanced management of pediatric emergencies, including resuscitation, airway placement, and medication,
 - (4) advanced management of obstetric and gynecologic emergency including medication administration,
 - (5) advanced interventions of psychiatric patients including medication administration,
 - (6) all other emergency medical skills and measures included in the instructional guidelines adopted by the Department, and
 - (7) upon approval of the Department, additional skills may be authorized upon the written request of a medical director.
- (i) Pursuant to 63 O.S. § 1-502.1, emergency medical personnel shall assist Good Samaritans who may have been exposed to a communicable disease. This includes, but is not limited to:
- (1) Providing OSDH information relating to communicable disease exposure, and
 - (2) Assistance with completing OSDH approved forms.
- (j) Emergency medical personnel may also consult with a Good Samaritan for potential exposures based on OSDH Guidance.
- (k) The Department will provide support to emergency medical personnel through educational material to ensure evidence based material is available.

[Source: Amended and renumbered from 310:641-5-30 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-5-20.1. Scope of practice authorized by military reciprocity certification or licensure

- (a) As part of the Military Reciprocity Certification or License Application process, the applicant is required to submit documentation that details the Scope of Practice for their level that is authorized by the source state.
- (b) The Department will review and compare the source state scope of practice with the Scope of Practice detailed in O.A.C. 310:641-5-20.
- (c) Based on the submitted documentation, the Department will issue a certification or license to the applicant that most closely matches an

OSDH Emergency Personnel certification or license as described in this subchapter.

PART 5. PROCEDURES AUTHORIZED

310:641-5-30. Standard of care [AMENDED AND RENUMBERED TO 310:641-5-20]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 19 Ok Reg 2087, eff 6-27-02 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 23 Ok Reg 2386, eff 6-25-06 ; Amended at 26 Ok Reg 1498, eff 6-11-09 ; Amended and renumbered to 310:641-5-20 at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-31. Requirement and utilization

(a) Emergency medical personnel, licensed, certified, or otherwise authorized by the act, shall comply with 63 O.S. Section 1-2506, relating to the medical authority to perform medical procedures.

(b) Emergency medical personnel may be utilized by hospitals, health care facilities, ambulance services, and emergency medical response agencies. Health care facilities may include, but not limited to, nursing homes, doctor offices or clinics, organized industrial or private health facility services, athletic training facilities, or any other organized group who may legally render patient care.

(1) While employed or associated with a hospital and/or a health care facility, emergency medical personnel shall be limited to authorized procedures of a specific written "job description" approved by a physician.

(2) While employed or associated with a licensed ambulance service or certified emergency medical response agency, emergency medical personnel may perform medical director authorized procedures not to exceed the level of license or certification without Department approval.

(c) Certified and licensed emergency medical personnel associated or employed at agencies or services shall have an authorized procedure list.

(1) The list is to define the medications, procedures, and protocols a certified and licensed person has been authorized to perform at a specific agency or service by the medical director.

(2) With medical control approval, the authorized procedure list will enable a certified or licensed agency at a lower level to utilize higher level personnel within their scope of practice,

(3) The medical control physician has the authority to limit the authorized procedures without Department approval. The authorized procedure list is to be used to document the limitations on the individual's scope of practice at the agency or service.

(4) The authorized procedure list, which establishes the individual protocols of each certified or licensed employee or associate at an

agency or service, shall be maintained at the agency or service.
(d) When certified or licensed emergency medical personnel are asked to perform or intercede in events while not on duty with their agency or facility, and without medical control, their authorized scope of practice is limited to basic first aid, CPR, and the use of an AED.

[Source: Amended and renumbered from 310:641-5-50 at 33 Ok Reg 1529, eff 9-11-16]

310:641-5-33. Certification and licensure enforcement actions

(a) The Department may revoke, suspend, place on probation, fine, or deny any license or certificate, or renewal of any license or certificate for the following:

- (1) Violations of any provision of Oklahoma statutes, the Act, or this Chapter;
- (2) permitting, aiding, abetting, or conspiring with a person to violate or circumvent a law relating to licensure or certification;
- (3) fraud, misrepresentation, deception, or concealment of a material fact in applying for or assisting in securing a license or license renewal or in taking an examination required for licensure;
- (4) signing or issuing, in the licensee's professional capacity, a document or statement that the licensee knows or reasonably ought to know contains a false or misleading statement;
- (5) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
- (6) offering, giving, or promising anything of value or benefit, as prohibited in Oklahoma law or rule, to a Federal, state, or local government employee or official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupation;
- (7) conviction, adjudication, or plea of guilty or nolo contendere, for an offense involving moral turpitude, whether a misdemeanor or felony, and whether or not an appeal is pending;
- (8) permitting, aiding, or abetting any illegal act;
- (9) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;
- (10) conduct likely to deceive, defraud, or harm the public including, but not limited to, practicing while subject to a physical or mental condition which renders the licensee unable to safely engage in activities required of a licensee under this subchapter;
- (11) acting in such a manner as to present a danger to public health or safety, or to any patient including, but not limited to incompetence, negligence, malpractice, or engaging in conduct in the course of one's practice while suffering from a contagious or infectious disease involving serious risk to public health without taking adequate precautions;
- (12) engaging in any act which is designed or intended to hinder, impede, or obstruct an investigation of any matter governed by

the Act or by lawful authority;

(13) making a false or misleading statement regarding the licensee's skill in connection with the activities required of a licensee under this subchapter;

(14) use of a false, fraudulent, or deceptive statement, whether written or verbal, in connection with the activities required of a licensee under this subchapter;

(15) knowingly make a false statement of material fact;

(16) failure to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation;

(17) failure to respond to a demand for information made by the Department or any designated representative thereof;

(18) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(19) having been subject to disciplinary action of another state or jurisdiction against a license or other authorization, based upon acts or conduct by the licensee similar to acts or conduct that would constitute grounds for disciplinary action. A report from the National Practitioners Database (NPDB) or a certified copy of the record of the action taken by the other state or jurisdiction is evidence of unprofessional conduct;

(20) having voluntarily relinquished or surrendered a professional or occupational license, certificate, or registration in this state or in another state;

(21) having withdrawn an application for licensure, certification, or registration while under investigation or prior to a determination of the completed application in this state or in another state or jurisdiction;

(22) failure to practice within the scope of practice of the certificate or license as established by the Department or by the medical director;

(23) failure to practice within adopted protocols and procedures established and approved by the Department and the medical director;

(24) failure to practice within the protocols set forth by the medical director and approved by the Department;

(25) habitual intemperance or excessive use of an addictive drug, alcohol, or other substance to the extent that the use impairs the user physically or mentally; this provision does not apply to a licensee who is in compliance with an approved therapeutic regimen under a physicians' care;

(26) filing a complaint with or providing information to the Department which the licensee knows, or ought to know, is false or misleading. This provision does not apply to any filing of a

complaint or providing information to the board when done in good faith;

(27) failing to report to the Department any adverse judgement or award arising from a medical liability claim or other unprofessional conduct;

(28) committing any act of sexual abuse, misconduct, or exploitation by the licensee whether or not related to the practice;

(29) failing to exercise technical competence in carrying out medically authorized skills, medication administration, or procedures related to their scope of practice;

(30) unauthorized possession of patient care reports, falsifying, or altering patient care reports, intentionally documenting patient records incorrectly, failing to document patient care records, or prepare patient care reports,

(31) revealing confidential information obtained as the result of a professional relationship without the prior consent of the recipient of services except as authorized or required by law;

(32) diversion of a medication for any purpose or a violation of state or Federal laws governing the administration of medications;

(33) failing as a clinical preceptor or lead instructor, to supervise, manage or train students practicing under the licensee's supervision, according to:

- (A) scope of practice,
- (B) generally accepted standards of patient care,
- (C) board approved instructional guidelines,
- (D) protocols, policies, and procedures,

(34) willfully harassing, abusing, or intimidating a patient or student, either physically or verbally;

(35) practicing as an emergency medical professional at any level without a current, active Oklahoma certification or license;

(36) failing to comply with administrative orders, to include probation, suspension, or revocation orders;

(37) failure to comply with a term, condition, or limitation of a certificate or license by final order of the Department;

(38) any other act, whether specifically enumerated or not, that in fact constitutes unprofessional conduct;

(39) failing to report to the Department the unprofessional conduct or noncompliance of regulations of other certified or licensed emergency medical providers;

(40) conduct that does not meet the generally accepted standards of practice, which may be, but not required to be, supported by malpractice judgements, or tort judgements; and

(41) Failing to report the institution of or final action on a malpractice action, including a final decision on appeal, against the licensee or of an action against the licensee by a:

- (A) peer review committee;
- (B) professional association; or
- (C) local, state, Federal, territorial, provincial, or tribal government.

(b) Any license or certificate issued by the Department may voluntarily be surrendered at any time during the license period for any reason by the license/certificate holder. The voluntary surrender of a license or certificate does not preclude the Department's authority to complete any pending action against said license/certificate holder. A surrendered license/certificate shall be treated as if revoked by the Department.

(c) The Department may require a one (1) year period from the date of revocation before the license / certificate holder may apply for a license or certificate from the Department.

(d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the patient or potential users of the service exists.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

SUBCHAPTER 7. TRAINING PROGRAMS

PART 1. GENERAL PROVISIONS

310:641-7-1. Purpose

The purpose of this subchapter is to establish minimum requirements for emergency medical services that includes:

- (1) initial and ongoing education and training programs;
- (2) instructor and educator qualifications;
- (3) evaluation, quality assurance and quality improvement.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 18 Ok Reg 101, eff 10-30-00 (emergency); Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-2. Definitions [REVOKED]

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Revoked at 18 Ok Reg 101, eff 10-30-00 (emergency); Revoked at 18 Ok Reg 2501, eff 6-25-01]

PART 3. TRAINING PROGRAMS

310:641-7-10. Training and education programs

- (a) All programs shall be in compliance with the requirements of this Subchapter.
- (b) Each program shall submit to the Department an application for approval to conduct emergency medical services training. The application shall be on forms provided by the Department. Programs must be currently certified to teach EMS related in Oklahoma before beginning courses.
- (c) Training program applicants may apply to become certified for the following levels:

- (1) Emergency Medical Responder,
 - (2) Emergency Medical Technician,
 - (3) Advanced Emergency Medical Technician, and
 - (4) Paramedic.
- (d) A separate certificate will be issued for each training level.
- (e) Approved training programs shall use a quality assurance process that is approved by the Department.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 101, eff 10-30-00 (emergency); Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 20 Ok Reg 2368, eff 7-11-03 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 26 Ok Reg 1498, eff 6-11-09 ; Amended at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-11. Training program applications

- (a) The application process shall be completed by the applicant through the established process. The information submitted to the Department shall include but is not be limited to, the following:
- (1) name of the training program, address, telephone number, email and fax number;
 - (2) levels of training that the program anticipates being able to provide;
 - (3) the name of the Program Director and a curriculum vitae;
 - (4) the name of the Course Coordinator and curriculum vitae or resume that includes address, telephone number, fax number and an electronic mail address;
 - (5) the name of the Medical Director, a curriculum vitae or resume which includes address, telephone number, fax number, and an electronic-mail address, a current copy of their Oklahoma State medical license, and a current copy of their Oklahoma Bureau of Narcotics and Dangerous Drugs registration;
 - (6) a copy of the student grievance and appeal policy;
 - (7) list of all instructors and individual resume for each with copies of required documentation of instructor qualifications;
 - (8) of all current agreements for clinical experience locations required to conduct courses;
 - (9) of inventories of equipment and supplies;
 - (10) course plans (syllabi) and curriculum objectives for the course; and
 - (11) site applications for additional sites of instruction with required attachments.
- (b) Department personnel may make site visits, inspections or observations, to determine the training program's ability to conduct emergency medical services training in accordance with the Act and rules.
- (c) Certified training programs will have a plan or policy in place to address a sudden lapse of medical direction to ensure coverage when a medical director is not available.
- (1) The Department shall be notified the next business day of any lapse or change of medical direction by the respective program. If the agency has made arrangements for a back-up medical

director or an immediate replacement, then a lapse has not occurred.

(2) In the event of a lapse in medical direction, in that a medical director is not available, the training program will cease instruction of students until the program is able to implement their policy for a substitute or find a replacement for their medical director.

(d) minimum attendance policy, and

(e) for EMR and EMT programs, the name of the National Registry Coordinator.

310:641-7-12. Training program renewal

(a) Training programs shall submit an application for renewal, at least sixty (60) days prior to the expiration of their certificate on forms provided by the Department.

(b) In addition to the renewal application, the following documentation will be submitted to the Department with the renewal application:

- (1) changes in information pertaining to the program director, course coordinator, and medical director;
- (2) copies of current clinical agreements;
- (3) current equipment and supply inventory;
- (4) changes to emergency medical services instructors affiliated with the training program;
- (5) current training site locations;
- (6) previous three years of benchmark data to include:
 - (A) NREMT cumulative pass rates in three attempts, and
 - (B) student retention based on the program policies; and
- (7) any other pertinent information requested by the Department.

310:641-7-13. Training program responsibilities

(a) Each training program sponsoring emergency medical services training shall be responsible for:

- (1) course completion based on Oklahoma instructional guidelines, and
- (2) respond to and resolve student complaints and grievances.

(b) Each training program shall issue a course completion certificate and/or course transcript to each student successfully completing an approved course. The completion documentation will include:

- (1) program representative name,
- (2) course authorization number,

- (3) type of course, and
- (4) completion dates.
- (c) The minimum course attendance will be based on the training programs policy.
- (d) The student ratio for lab activities will be one (1) instructor to ten (10) students.
- (e) Records for each course offered shall be maintained by the training program for at least three (3) years. Records shall include at a minimum:
 - (1) attendance records,
 - (2) clinical experience summaries,
 - (3) student evaluations and grades,
 - (4) a record of lab assistants and their documentation of qualifications, and
 - (5) all lab documentation for the course and National Registry practical examinations.
 - (6) National Registry practical examination skill sheets are required for Emergency Medical Responder and Emergency Medical Technician courses only.
- (f) Each training program shall ensure that all Department required equipment is in good, safe, and operational condition.
 - (1) The equipment and supplies for courses must be dedicated for training purposes,
 - (2) Equipment and supplies used on live participants must meet manufacturer guidelines and recommendations;
 - (3) Equipment shall be available for inspection by Department representatives at any time during a regularly scheduled class, and
 - (4) Sufficient equipment quantities shall be made available for each course conducted.
- (g) Each training program shall ensure that a qualified preceptor supervises each student during scheduled clinical experiences.
- (h) Each training program shall administer a final written and practical examination for each course and provide National Registry's practical examinations for both Emergency Medical Responder and Emergency Medical Technician courses after course completion.
- (i) Following successful completion of all components of the course each EMR and EMT training program must provide a National Registry psychomotor examination.
- (j) The program shall require instructors to follow the Department approved course syllabus, use lesson plans, and provide instruction for all course objectives.
- (k) For all courses which require a practical examination, the training program shall follow the National Registry Practical Examination Standards established within the educational guidelines as published by the Department.

310:641-7-14. Training and education program initial and ongoing approval

- (a) Any application for approval submitted by an applicant pursuant to the Act shall constitute authorization for any inspection or investigation by the Department.
- (b) A training program in compliance with all requirements shall be issued a training program certificate by the Department expiring the second June 30 after the certification date. Subsequent certifications will be valid for two (2) years.
- (c) The Department may conduct quality management visits to any training program. Visits may include, but not be limited to class visits, instructor evaluations, student surveys, review or required records, and visits to clinical sites.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 101, eff 10-30-00 (emergency); Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 20 Ok Reg 2368, eff 7-11-03 ; Amended at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-14.1. Denial of a training program renewal

A training program renewal application may be denied for programs that fail to maintain a minimum pass rate on the cognitive exam that is within:

- (1) 20% of National Registry three (3) year average, or
- (2) a minimum of 50% course retention as defined by the training program.

[Source: Added at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-15. Course approval

- (a) Each training program shall submit a written course application to the Department on forms provided by the Department. The Department may approve course requests that do not fully meet course application requirements if non-approval would be detrimental to the public.
- (b) The course application shall be submitted at least thirty (30) days prior to the course start date with exceptions at the Department discretion and shall include, but not be limited to:
 - (1) Course information including type of course, location, start and end date, class session days and times, course coordinator, instructors, and final practical examination date, and time and location as required;
 - (2) Course outline including date and time, topic, curriculum division and section number, instructor and location if different than those listed on the application for each class session, and
 - (3) A list of locations and site coordinator for each location, if multiple locations via distance learning technology are used;
- (c) Each training program conducting emergency medical services training and education shall use the Department approved course guidelines.

(d) Each training program shall ensure that course participants have access to a CPR, PALS, PEPP, and/or ACLS instructors that meet or exceed AHA standards.

(e) For each course conducted by a training program, rosters reflecting the students participating in a given course shall be submitted to the Department under the following guidelines:

(1) An initial student roster within twenty-one (21) days of the course start date. Amendments to the initial student roster may be made after the twenty-one (21) day requirement only with Department approval. In no case will a student be accepted on a final student roster that does not appear on an initial student roster for that course.

(2) A final student roster within twenty-one (21) calendar days of the course end date. This roster shall identify students who have successfully completed all course requirements, withdrawn from the course, failed the course, or whose class work was incomplete;

(3) Amendments to the final student roster for incomplete course objectives may be made after the twenty-one (21) day requirement only with Department approval. An amended final student roster will be accepted after ninety (90) calendar days of the course ending date with Department approval. A request for Department approval shall include a description of the circumstances requiring additional time.

(f) The Department may invalidate all or any portion of a course conducted where a violation of the Act or rules has been substantiated.

[Source: Added at 18 Ok Reg 101, eff 10-30-00 (emergency); Added at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 20 Ok Reg 2368, eff 7-11-03 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 22 Ok Reg 2418, eff 7-11-05 ; Amended at 23 Ok Reg 2386, eff 6-25-06 ; Amended at 24 Ok Reg 1991, eff 6-25-07 ; Amended at 26 Ok Reg 1498, eff 6-11-09 ; Amended at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-16. Curriculum

The Department shall provide curricula and instructional guidelines based on the National Highway Traffic Safety Administration National Emergency Medical Services Education Standards of 2020 for Emergency Medical Responder, Emergency Medical Technician, Intermediate, Advanced Emergency Medical Technicians, and Paramedics initial, refresher, and transitional courses.

[Source: Amended and renumbered from 310:641-7-53 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-17. Notice of violation

(a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the training program or instructor an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance

reasonably effectual.

(b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the training program or instructor shall submit to the Department a written demonstration of compliance and/or plan of correction.

(c) A plan of correction shall include at least the following:

- (1) When the correction was or will be completed;
- (2) How the correction was or will be made;
- (3) What measures will prevent a recurrence; and
- (4) Who will be accountable to ensure future compliance.

(d) The Department shall ensure that the training program or instructor is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.

(e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

PART 5. INSTRUCTOR QUALIFICATIONS

310:641-7-20. Instructor requirements

(a) A registry of approved emergency medical services instructors shall be maintained by the Department. Each instructor candidate shall submit to the Department an application for initial instructor certification. The application shall be on forms provided by the Department and accompanied by current documentation of qualification. This application shall constitute authorization for any inspection or investigation by the Department. The initial period for instructor certification will be concurrent with current Oklahoma Emergency Medical Personnel certification or licensure. The initial renewal requirement will be prorated based on the remaining time to the expiration date.

(1) Qualifications for a Level 1 and Level II instructor certification include:

(A) A resume or letter documenting two (2) years of direct field experience in emergency medical services within the previous five (5) years which meets or exceeds the level of training being taught;

(B)

Successful completion of a Department approved EMS Instructor Training Course or Fire Service Instructor I and/or II, with the EMS Instructor Training Bridge (ITC) Course or equivalent within the previous two (2) years. Applicants with credentials greater than two year old will need to provide documentation of classroom or instructor experience totaling eight (8) hours annually from the date

their initial credential(s) was issued, or complete a sixteen (16 hour instructor refresher to update their credential(s);
(C) Current state certification or licensure; and
(D) within three (3) years of the effective date of this regulation, the instructor identified as the lead instructor on a course authorization form of an initial paramedic course at an accredited program must possess a minimum of an associate's degree.

(2) To teach, a qualified instructor must have a letter from the director and medical director of a certified first response agency or ambulance service or the coordinator of an approved training institution, documenting affiliation. Level 1 instructors can teach at training institutions, but will be required to renew as Level 2 instructors.

(b) Emergency Medical Service Lab Instructor.

(1) An individual file for each qualified Lab Instructor shall be maintained by each training program, licensed ambulance service, or certified emergency medical response agency including documentation of qualification.

(2) Qualifications for lab assistants include:

(A)

Two (2) years of current experience in medical services which meets or exceeds the level of training being assisted or evaluated; and

(B) Any certification required for the skill being assisted or evaluated.

(c) Emergency Medical Service Level 3 Instructor certification.

(1) Instructor Training Courses (ITC) and Instructor Refresher Courses (IRC) shall be taught by a state certified Level 3 Instructor.

(2) An application for a Level 3 Instructor shall be submitted on forms provided by the Department and accompanied by current documentation of qualification.

(3) Qualifications for a Level 3 Instructor include:

(A) Affiliation with an approved training program

(B) Current Oklahoma licensure as an EMT or higher.

(C) Five (5) years experience as an EMS field provider.

(D) Current approval as an Oklahoma EMS Instructor

(E) Completion of the NHTSA/DOT EMS Instructor Training Course;

(F) Complete a minimum of 500 hours of didactic training as the lead or primary instructor in initial EMT, AEMT, or Paramedic courses; and

(G) Attendance at all mandatory meetings with the Department and other Instructor Educators.

(4) Level 3 instructor must maintain EMS instructor certification(s). A registry of approved emergency medical services instructor educators shall be maintained by the Department.

[Source: Added at 8 Ok Reg 3143, eff 7-18-91 (emergency); Added at 9 Ok Reg 1495, eff 5-1-92 ; Amended at 17 Ok Reg 392, eff 11-1-99 (emergency); Amended at 17 Ok Reg 2948, eff 7-13-00 ; Amended at 18 Ok Reg 101, eff 10-30-00 (emergency); Amended at 18 Ok Reg 2501, eff 6-25-01 ; Amended at 19 Ok Reg 2087, eff 6-27-02 ; Amended at 20 Ok Reg 2368, eff 7-11-03 ; Amended at 21 Ok Reg 2755, eff 7-12-04 ; Amended at 23 Ok Reg 2386, eff 6-25-06 ; Amended at 24 Ok Reg 1991, eff 6-25-07 ; Amended at 25 Ok Reg 2443, eff 7-11-08 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-21. Instructor and instructor educator renewal

(a) Instructors and instructor educators shall submit an application for renewal every two (2) years.

(b) Each renewal will include verification of instructor continuing education or refresher course.

(1) Level 1 instructors are required to submit eight (8) hours of continuing education or refresher course hours.

(2) Level 2 and 3 instructors are required to submit sixteen (16) hours of continuing education or refresher course hours.

(c) Instructor continuing education may consist of, but not be limited to:

(1) technology and software utilized in instruction and tracking student activities,

(2) psycho-motor exam evaluator,

(3) objective and evaluation writing,

(4) curriculum review and utilization,

(5) classroom management,

(6) instructional theory and application,

(7) teaching initial, refresher, and continuing education classes and courses for emergency medical professionals,

(8) courses, classes, and workshops approved by the Department,

(d) Instructors are limited to a maximum of four (4) hours of actual didactic, psycho-motor, or affective domain classes in any one area or topic.

(e) Level 3 instructors providing the continuing education hours as a refresher course shall submit a course authorization request for approval.

(f) The Department may deny, refuse to renew, revoke, suspend, or place on probation any instructor or instructor educator for reasons which include, but are not limited to:

(1) Failure to attend Department required workshops or mandatory Department meetings for EMS instructor educators;

(2) Failure to follow Department rules;

(3) Failure to maintain professional license or certification qualifications;

(4) Falsification of any training document;

(5) Failure to maintain professional conduct at all times when providing EMS instruction;

(6) Failure to obtain sixteen (16) hours of instructor continuing education during the two (2) year certification period for EMS instructors or to complete a Department approved EMS Instructor Refresher.

(g) This application shall constitute authorization for any inspection or investigation by the Department.

(h) An instructor's certification expiration date is concurrent with their Oklahoma Emergency Medical Personnel Certification or License expiration date. For the initial renewal of an instructor certification, any continuing education renewal requirements will be pro-rata based on the next expiration date.

310:641-7-21.1. Instructor and instructor educator re-entry requirements

(a) If expired more than two (2) years, the applicant must complete a new Department approved Instructor Training Course (ITC) and reapply as an initial candidate for EMS Instructor.

(b) If less than two (2) years, the applicant must complete a Instructor Training Course Refresher.

[Source: Added at 23 Ok Reg 2386, eff 6-25-06]

310:641-7-22. Early defibrillation instructor requirements [REVOKED]

[Source: Added at 11 Ok Reg 3843, eff 7-11-94 ; Revoked at 17 Ok Reg 392, eff 11-1-99 (emergency); Revoked at 17 Ok Reg 2948, eff 7-13-00]

310:641-7-23. Early defibrillation master trainers [REVOKED]

[Source: Added at 11 Ok Reg 3843, eff 7-11-94 ; Revoked at 17 Ok Reg 392, eff 11-1-99 (emergency); Revoked at 17 Ok Reg 2948, eff 7-13-00]

310:641-7-24. Training manager authorization

(a) Licensed ambulance services and certified emergency medical response agencies shall be authorized to conduct training based upon the need for training and continuing education activities. This agency supplied training is limited to refresher courses, emergency medical responder courses, continuing education, and other training courses as designated by the Department.

(b) Ambulance services and emergency medical response agencies must use Level 1, 2, or 3 instructors to either provide and/or oversee the training. A guest presenter may be used provided an approved instructor is present and responsible for the training session.

(c) An attendance policy or statement shall be sent with course authorization requests for approval by the Department.

(1) Attendance shall be maintained at the agency for three years.

(2) Attendance records will be provided when requested to the Department or to agencies to verify activities.

(d) The Department may attend any training or educational activity to ensure compliance.

(e) The Department may invalidate all or any portion of training conducted if a violation of the Act or rules has been substantiated.

[Source: Amended and renumbered from 310:641-7-30 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-7-25. Training program, instructor, and course records and files

(a) All required records will be maintained for a minimum of three years.

(b) Each training program shall maintain electronic or paper records at the business office. The files shall be available for review by the Department during normal business hours.

(c) The records to be maintained, based on level and type of instruction include:

- (1) Clinical agreements,
- (2) student handbook,
- (3) course authorization requests and approvals,
- (4) initial, amended, and final rosters,
- (5) attendance records,
- (6) psycho-motor exam guides,
- (7) instructor credential file containing the licenses, certifications, training courses, and continuing education required to maintain instructor certification,
- (8) course syllabi or course schedules
- (9) instructional guidelines and course objectives, and
- (10) agreements for support at off-campus sites.
- (11) A student portfolio or file will be maintained to reflect the work completed by the student to include classroom evaluations from the cognitive, psycho-motor, and affective learning domains.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-7-29. Suspension, revocation, probation, or non-renewal of an approved training program or instructor

(a) The Department may suspend, revoke, fine, or place on probation an instructor, training program, or agency for the following:

- (1) violations of any provision of Oklahoma Statutes, the Act, or regulations promulgated by the Board;
- (2) permitting, aiding, or abetting in any illegal act in connection with a program or agency,
- (3) conduct of any practice that is detrimental to the welfare of a patient or user of the services;
- (4) failure to comply with a written order issued by the Department within the time frame specified by the Department;
- (5) engaging in any act which is designed or intended to hinder, impede, or obstruct an investigation by the Department,
- (6) a program that fails to renew their certification within the time frame as specified in this Chapter shall be considered as expired and therefore no longer certified as a training program in Oklahoma.

(7) failing as a clinical preceptor or instructor to supervise, manage, or train students under their instruction, regarding and according to:

- (A) scope of practice;
- (B) generally accepted standards of patient care;
- (C) U.S. DOT instructional guidelines;
- (D) protocols, policies, and procedures.

(8) willfully harassing, abusing, or intimidating a patient or student,

(9) misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation,

(10) offering, giving, or promising anything of value (as defined in Oklahoma statutes or Department policy) to a Federal, state, or local government employee or official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupation;

(11) interfering with an investigation or disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against, or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed,

(12) failure to report the unprofessional conduct or non-compliance of regulation of individually licensed and certified personnel as defined in this Chapter of regulation.

(b) No person, company, governmental entity or trust authority may operate a training program except in accordance with 63 O.S. Section 1-2501 et, seq., and the regulations as promulgated by the Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this state, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant, in connection with a license application or an investigation conducted by the Department pursuant to this Chapter shall not:

- (1) knowingly make a false statement of material fact;
- (2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or
- (3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation the Department determines that the license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively held. A presumption of imminent harm to the public shall

exist if the Department determines probable cause for any conduct that is detrimental to the welfare of the patient or potential users of the service exists;

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or OAC 310:641.

SUBCHAPTER 9. TRAUMA TRANSFER AND REFERRAL CENTERS

PART 1. GENERAL PROVISIONS

310:641-9-1. Purpose

The rules of this subchapter are promulgated to establish standards for certification of trauma transfer and referral centers.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

PART 2. CERTIFICATION

310:641-9-2. Certification required

No person, partnership, company, governmental authority, or other legal entity including those established by Oklahoma Constitutional authority or trust authority shall operate, advertise or hold themselves out as providing emergency medical trauma transfer and referral center services without first obtaining a certificate from the Department.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

310:641-9-3. Application

- (a) The applicant shall complete an application form approved by the Department to apply for a certificate.
- (b) The application shall contain, but not be limited to, the following:
 - (1) A description of proposed trauma, transfer and referral center operations, detailing how transfers will be processed within the region and how transfers into and out of the region will be facilitated;
 - (2) A staffing plan and roster including an estimate of call volume and distribution;
 - (3) A plan for supplemental training for trauma, transfer and referral center staff;
 - (4) An endorsement from the physician who is providing medical control for the center;
 - (5) A plan that identifies methods of communication with each emergency medical service and hospital that provides trauma care or transport within the region and/or transfers patients into or out of the region;
 - (6) The methods of data collection, confidential storage, retrieval, and reporting of requested information related to trauma transports and transfers to the Medical Audit Committee, Department and Commissioner of Health;
 - (7) A copy of the medical protocols used to triage and identify the level of trauma care needed for each patient; and
 - (8) A continuous quality improvement plan.
- (c) The Department shall approve, identify the application as incomplete or deny the application within thirty (30) days after submittal by the applicant.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

310:641-9-4. Issuance of certification

- (a) A certificate shall be issued to each center found to be compliant with Department requirements and shall be valid for a period of two years following the date of issuance.
- (b) The certificate shall be issued to the legal operating entity for the service area given in the application.
- (c) A sole provider determination for any region may be made by the Department after consideration of the following factors:
 - (1) The needs of the region and state for trauma transfer and referral direction and facilitation;

- (2) The ability of the provider to provide adequate direction and facilitation; and,
- (3) The current availability of a trauma, transfer and referral center in the region.
- (d) A certificate shall be valid for the legal operating entity making application and is not assignable or transferable.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

310:641-9-5. Certificate renewal

- (a) At least sixty (60) days prior to the expiration of their certificate, a certified trauma transfer and referral center shall reapply for a renewal certificate using forms approved by the Department.
- (b) The certified center shall identify any changes in operations from the original application.
- (c) The Department shall reevaluate, renew or deny the renewal certification based on the center's compliance with Department requirements for certification.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

310:641-9-6. Transfer and referral center standards

- (a) **Staff.** Each center shall have adequate numbers of staff to immediately respond to all calls for trauma transfers and referrals. The center shall also have a plan to activate additional staff for peak loads, regional emergencies or disasters.
- (b) **Medical direction.** Each center shall have a qualified physician medical director who holds a current, unrestricted, Medical Doctor (M.D.) or Doctor of Osteopathy (D.O.) license for Oklahoma. The physician medical director shall provide medical oversight for center operations, approve triage and transfer protocols, and participate in quality improvement activities. The medical director shall be routinely available for consultation with center staff.
- (c) **Administration.** The governing body for each center shall appoint an administrator who shall be responsible for center operations.
- (d) **Staff training.** Training for staff shall include at least the following Department approved courses:
 - (1) Emergency Medical Dispatch Training;
 - (2) Trauma, triage, and transfer training covering current Oklahoma guidelines; and,
 - (3) A training course on use of Department supported software designed to identify hospital capability and capacity for all Oklahoma hospitals.
- (e) **Equipment.** Each center shall maintain adequate equipment to facilitate center operations and communicate with all emergency medical service providers and hospitals. Each center shall have working communications equipment including a toll-free phone service; radios with available frequencies to communicate with fire, emergency medical providers, and hospitals; and, computer equipment with high-speed Internet access for immediate electronic communications.

(f) **Records.** Records of all trauma transfers shall be maintained in an electronic format approved by the Department. The center shall also maintain voice recordings of all phone and radio transmissions for a period of at least two (2) years. Records of patient transfer shall be confidential and shall only be used for quality improvement activities or for reports to the Medical Audit Committee and the Commissioner of Health.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

310:641-9-7. Revocation

The Department may revoke or suspend any trauma transfer and referral center certificate at any time for failure to comply with requirements.

[Source: Added at 21 Ok Reg 3113, eff 7-14-04 (emergency); Added at 22 Ok Reg 2418, eff 7-11-05]

SUBCHAPTER 11. SPECIALTY CARE AMBULANCE SERVICE

310:641-11-1. Purpose

(a) Subchapter 11 of this Chapter incorporates the authorization, licensure, and the minimum requirements for operating a specialty care ambulance service that exceeds the training and equipment for a paramedic service and that responds solely to interfacility requests for service with appropriately trained, certified, and licensed personnel, and (b) provide standards for the enforcement of the provisions of the Act and this Chapter.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-2. License required [REVOKED]

[Source: Amended and renumbered from 310:641-3-41 at 33 Ok Reg 1529, eff 9-11-16 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-3. Issuance of a specialty care ambulance license

(a) The Department shall have sole discretion to approve or deny an application for a specialty care ambulance service license based on the ability of the applicant to meet the requirements of this Chapter.
(b) A specialty care transport (SCT) is the interfacility transportation of a critically injured or ill patient by a ground or air ambulance vehicle, including the provision of medically necessary supplies and services, at a level of service beyond the scope of the Paramedic. SCT is necessary when a patient's condition requires ongoing care that must be furnished by one or more health professionals in an appropriate specialty area, for example emergency or critical care nursing, emergency medicine, respiratory care, cardiovascular care or a Paramedic with additional training.

(c) Any specialty care ambulance service licensed prior to the effective date of this Chapter shall remain in effect for the period of license issuance, except that all such specialty care ambulance services shall be subject to the Act and rules which otherwise pertain, including the requirement for renewal. At renewal, the agency must be fully compliant with all applicable regulations within this Chapter of regulation.

(d) The license is not transferable or assignable.

(e) The initial license period shall expire the second June 30th, following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.

(f) The specialty care license is limited to hospital to hospital transports of patients requiring care beyond the scope of practice of Paramedics, as identified in the application to include:

(1) medication formulary;

(2) patient care equipment;

(3) treatment protocol(s); and

(4) applicants will provide documentation that the medication, equipment, and treatment protocols are specific to the type or types of patients identified in the application.

(g) The original, or a copy of the original, license shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available, then the license shall be available to anyone requesting to see the license during regular business hours.

[Source: Amended and renumbered from 310:641-3-42 at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-4. Renewal of a specialty care ambulance license

(a) The Department shall provide to all licensed specialty care ambulance services a "Survey/Renewal Form" each December. This form shall be considered and utilized as a renewal application, if due. The "Survey/Renewal Form" along with proof of current workers' compensation and liability insurance shall be returned to the Department by January 31st each year.

(1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be mailed by the Department to each licensee in need of renewal.

(2) A non-refundable fee for the renewal of an ambulance service license shall be one hundred dollars (\$100.00), fifty dollars (\$50.00) for each substation, plus twenty dollars (\$20.00) for each vehicle in excess of two (2).

(3) An ambulance service license shall be renewed if:

(A) The ambulance service has applied for such renewal;

(B) The ambulance service has no outstanding deficiencies or is in need of correction as may be identified during inspection of the service, and;

(C) The proper fee has been received by the Department.

(b) An ambulance service license, if not renewed by midnight June 30 of the expiration year, shall be considered non-renewed.

(1) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.

(2) Thereafter a new application shall be required for the continuation of any such license, and the applicant shall be subject to initial application procedures. An extension may be granted by the Department for the purpose of renewal, subject to a determination by the Department of the following:

- (A) the safety, need, and well-being of the public and general populace to be served by the ambulance service; and
- (B) the availability of personnel, equipment, and the financial ability of the applicant to meet the minimum standards of emergency medical services law.

[Source: Amended and renumbered from 310:641-3-45 at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-5. Denial for an initial license

(a) A specialty care ambulance license application may be denied for any of the following reasons:

- (1) A felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to supervise the service; to include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service;
- (2) Falsification of Department required information;
- (3) Ownership, management, or administration by principals of an entity whose license has been revoked; and
- (4) Licensure or re-licensure may not be in the best interest of the public as determined by the Department.

(b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete application of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a license or renewal shall be given, if applicable. A license application may be re-submitted, but each resubmission shall be considered an initial application.

[Source: Amended and renumbered from 310:641-3-46 at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-6. Denial of an application for renewal of license

(a) A license application for renewal may be denied for any of the following:

- (1) the failure to meet standards set forth by statute or rule,
- (2) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to manage the service to include, but not limited to fraud, grand larceny, child abuse, sexual offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service,

- (3) outstanding notice of violation that has not been addressed with an acceptable plan of correction,
 - (4) insufficient financial resources,
 - (5) falsification of Department required information,
 - (6) ownership, management, or administration by principles of an entity whose ambulance service license has been revoked,
 - (7) re-licensure may not be in the best interest of the public as determined by the Department,
- (b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete renewal application of the granting or denial of a renewed license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a renewed license shall be given, if applicable. A license application may be resubmitted, but each re-submission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-7. Severance of action, amendment, and re-instatement

- (a) The issuance or renewal of a license after notice of a violation(s) has been given shall not constitute a waiver by the Department of its power to rely on the violation(s) for subsequent license revocation or other enforcement action which may arise out of the notice of violation(s).
- (b) Any change in the name of the service, level, service area, addition of substation, or type of specialty care provided service shall necessitate an application to amend the license and shall be accompanied by a fee of one hundred dollars (\$100.00).
- (c) Changing or moving the location of a substation requires written notification to the Department.
- (d) If an existing license is placed on probation or suspension, a fee of one hundred (\$100.00) dollars, in addition to any other provision of the action, shall be submitted prior to re-instatement of the license to full privilege.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-8. Personnel

- (a) Each licensed specialty care ambulance service shall be staffed in accordance with the agency's policy and standards.
- (1) The additional training required by the Act for licensed emergency medical personnel to conduct specialty care transports will be beyond the scope of practice of an Oklahoma licensed Paramedic.
 - (2) All Oklahoma licensed Paramedics that have completed training beyond the scope of practice of a Paramedic for the purposes of specialty care transport shall be registered with the Department.
- (b) Any changes in staffing patterns after initial licensing shall require prior written approval by the Department.

(c) In addition to the staffing requirement for patient care providers, each specialty care ambulance service shall have drivers licensed at the Emergency Medical Technician licensure level and have completed an emergency vehicle operator course within 120 days of employment. The drivers will complete an emergency vehicle operator course refresher every two years. The agency will maintain records showing competency in vehicle operations.

(d) Each specialty care ambulance service will maintain training records demonstrating competency in medical skills, patient handling, and medical equipment.

[Source: Amended and renumbered from 310:641-3-43 at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-9. Specialty care ground vehicles

Specialty care ground vehicles shall conform to 310:641-3-20, except for specifications of medical and extrication equipment required for ground ambulance vehicles. If a specialty care service has the need to utilize a vehicle for ground ambulance other than the 310:641-3-20 compliant vehicle, a written waiver may be granted upon request with the application. A determination for this exception shall be made by the Department.

[Source: Amended and renumbered from 310:641-3-44 at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-10. General provisions for ground specialty care transport vehicles

(a) Authorized emergency vehicles of licensed ambulance services shall comply at all times with the applicable requirements of Title 47, the Oklahoma Motor Vehicle Code to include audio and visual warning indicators.

(b) Authorized specialty care emergency vehicles shall be in good mechanical and serviceable condition at all times, so as not to be hazardous to the patient(s) or crewmembers. If, in the determination of the Department, a vehicle does not meet this requirement, it may be removed from service until repairs are made.

(c) Authorized specialty care emergency vehicles of licensed ambulance services shall be tested for interior carbon monoxide, in a manner acceptable to the Department. Carbon monoxide levels of more than ten parts per million (10ppm) shall be considered in excess and shall render the vehicle "out of compliance". Vehicles shall be removed from service if carbon monoxide levels exceed fifty parts per million (50ppm) and until repairs are made to reduce the amounts of carbon monoxide below ten (10ppm) parts per million.

(d) Authorized specialty care emergency vehicles of licensed specialty care ambulance services utilized for the provision of patient care shall be equipped with communication equipment (e.g. two-way radio utilizing VHF frequency 155.3400) which shall provide voice contact with the emergency department of the area and other hospitals outside of the area. Acceptable frequencies shall be approved and consistent with the Statewide Interoperability Governing Body communication plan, as

adopted under the rules of the Federal Communications Commission (FCC). No paging shall be allowed on these designated medical frequencies. Encoder numbers for Oklahoma hospitals and approval of frequencies may be obtained by contacting the Division.

(e) Authorized specialty care emergency vehicles of licensed specialty care ambulance services shall have a permit and/or inspection decal affixed or provided by the Department. These decals shall be placed in the lower left corner of a rear window unless it shall be impossible or impractical to utilize this area.

(f) The following permit classifications of vehicle permits shall be recognized as authorized emergency vehicles of ambulance services:

(1) "Temporary Permit" may be affixed by the agency and will be valid for ten (10) business days. The temporary permit will be sent to the agency by the Department in the event the vehicle cannot be inspected by Department personnel within three (3) days of the Department receiving notification that a vehicle is ready for inspection.

(A) To receive a temporary permit, the agency will send to the Department:

- (i) a completed Department inspection form;
- (ii) pictures of the interior and exterior of the vehicle;
- (iii) copies or pictures of the vehicle tag;
- (iv) copies or pictures of the insurance verification.

(B) Upon approval of the documentation, a temporary permit will be sent to the agency.

(C) Prior to the expiration of the temporary permit, the agency will make arrangements with the Department to ensure a complete inspection is conducted by the Department for the purpose of affixing a class "A" permit to the vehicle.

(2) Class "A" permit shall be affixed to an ambulance in compliance with all applicable standards. Emergency and non-emergency ambulance patients may be transported in class "A" ambulances.

(3) Class "B" permit shall be affixed to an ambulance in compliance with manufacturing, communication, safety, and Title 47 of Oklahoma Statutes requirements. Class "B" vehicles shall have the required medical equipment on board when placed in-service to respond to emergency calls or transport any ambulance patients.

(g) When a vehicle is sold or removed from service, the agency will notify the Department on an approved form, remove the permit, and return the form and permit to the Department within ten (10) days.

(h) A vehicle with any of the following deficiencies or malfunctions may not be used for any patient transports:

- (1) inadequate sanitation, including the presence of contamination by blood and or bodily fluids;
- (2) inoperable heater or air conditioner as detailed within the vehicle manufacturing standards and specifications;
- (3) inoperable AED or defibrillator;

- (4) tires that do not meet Oklahoma Statutes Title 47, Chapter 12 requirements;
 - (5) inoperable emergency lighting or siren;
 - (6) inoperable oxygen system or less than 200 psi in onboard oxygen system;
 - (7) both portable and vehicle suction apparatus are inoperable;
 - (8) carbon monoxide levels greater than fifty (50) parts per million;
 - (9) lapse of vehicle liability insurance;
 - (10) lapse of worker compensation insurance;
 - (11) inability to affix a class "A" or "B" permit on an existing permitted vehicle;
 - (12) vehicle that does not comply with statutory safety equipment found in Title 47.
- (i) If such violation is not or cannot be corrected immediately, any affected vehicle shall be removed from service and the ambulance permit shall be removed until such time the vehicle is compliant and has been re-inspected and permitted by the Department.
 - (j) Any patient care equipment and supplies carried on an ambulance that is not on the approved equipment list will need Department approval through the protocol approval process.
 - (k) All lighting, both interior and exterior, shall be fully operational, including lens caps.
 - (l) All designated seating positions in the patient compartment shall be equipped with functioning safety restraint systems appropriate for each type of seating configuration.
 - (m) All oxygen tanks, (portable and onboard) shall be secured within brackets compliant with the specification of the manufacture standards.
 - (n) Each vehicle shall not have any structural or functional defects that may adversely affect the patient, personnel, or the safe operation of the vehicle to include: windshield wipers, steering systems, brakes, seatbelts, and interior or exterior compartment doors and latches.
 - (o) Each permitted vehicle shall have an accessible copy (electronic or paper) of the agencies approved protocols.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-11. Specialty care air ambulance aircraft

- (a) An air ambulance aircraft may be fixed wing, single or multi-engine; or rotary wing, single or multi-engine.
- (b) Operations of the aircraft shall be under the appropriate provisions of the Federal Aviation Regulations (FARs).
- (c) The interior of the patient compartment of their aircraft shall have the capability of being climate controlled to avoid adverse effects on patients and medical personnel on board by a means other than flight operations and flying to an altitude.
- (d) The aircraft design and configuration shall not compromise patient stability in loading, unloading, or in-flight operation to include:
 - (1) the aircraft shall have an entry that allows loading and unloading without excessive maneuvering (no more than 45

degrees about the lateral axis and 30 degrees about the longitudinal axis) of the patient and does not compromise functioning of monitoring systems, intravenous lines, and manual or mechanical ventilation;

(2) a minimum of one stretcher shall be provided that can be carried to the patient;

(3) aircraft stretchers and the means of securing it in-flight must be consistent with applicable Supplemental Type Certificates (STCs).

(4) the type and model of stretcher indicates the maximum gross weight allowed (inclusive of patient and equipment) as labeled on the stretcher;

(5) the stretcher shall be large enough to carry an American adult male .

(6) the stretcher shall be sturdy and rigid enough that it can support cardiopulmonary resuscitation. If a backboard or equivalent device is required to achieve this, such device will be readily available;

(7) the head of the stretcher is capable of being elevated at least 30 degrees for patient care and comfort;

(8) if the ambulance stretcher is floor supported by its own wheels, there is a mechanism to secure it in position under all conditions. These restraints permit quick attachment and detachment for patient transfer.

(e) Patients transported by air will be restrained with a minimum of three straps, including shoulder straps, which must comply with FAA regulations. The following additional requirements shall apply to achieve patient stability:

(1) patients less than 60 pounds (27kg) shall be provided with an appropriately sized restraining device (for patient's height and weight) which is further secured by a locking device. All patients less than 40 pounds must be secured in a five-point safety strap device that allows good access to the patient from all sides and permits the patient's head to be raised at least 30 degrees. Velcro straps are not encouraged for use on pediatric devices;

(2) if a car seat is used, it shall have an FAA approved sticker;

(3) there shall be some type of restraining device within the isolette to protect the infant in the event of air turbulence.

(f) A supplemental lighting system shall be installed in the aircraft/ambulance in which standard lighting is insufficient for patient care, and a self-contained lighting system powered by a battery pack or portable light with a battery source must be available.

(g) An electric power outlet shall be provided with an inverter or appropriate power source of sufficient output to meet the requirements of the complete specialized equipment packages without compromising the operation of any other system or equipment. A back-up power source to enable use of equipment may be provided by an extra battery of appropriate voltage and capacity.

(h) There shall be access and necessary space to ensure any onboard patient's airway is maintained and to provide adequate ventilatory support from the secured, seat-belted position of medical transport

personnel.

(i) Medical transport personnel shall be able to determine if medical oxygen is on in the patient care area.

(1) Each gas outlet shall be clearly marked for identification.

(2) Oxygen flow shall be capable of being started and stopped at or near the oxygen source from inside the aircraft.

(3) The following indicators shall be accessible to medical transport personnel while en route:

(A) quantity of oxygen remaining; and

(B) measurement of liter flow.

(j) A variety of medical oxygen delivery devices consistent with the service's medical protocols shall be available.

(k) An appropriately secured portable medical oxygen tank with a delivery device shall be carried on the aircraft. Portable medical oxygen tank may not be secured between patient's legs while the aircraft is in motion.

(l) There shall be a back-up source of medical oxygen sufficient to allow completion of the transport in the event the main system fails. For air transports, this back-up source can be the required portable tank as long as the portable tank is accessible in the patient care area during flight.

(m) Storage of oxygen shall comply with applicable standards.

(n) Oxygen flow meters and outlets shall be located to prevent injury to medical transport personnel to the extent possible.

(o) In the event the licensee will be utilizing a substitute aircraft not previously permitted by the Department for a period of more than five (5) days, the licensee shall notify the Department to have the aircraft inspected and permitted by the Department.

(1) Licensees with a substitute aircraft utilized for periods of five (5) days or less, the licensee shall complete an agency specific equipment log documenting the transfer of all required equipment onto the substitute aircraft at the time of transfer.

(2) The agency will maintain documentation of the transfer in accordance with OAC 310:641-13-21 Air ambulance service records and files.

(p) Any vehicle initially placed in service after a purchase, lease, contract and/or refurbish shall be inspected, approved, and permitted by the Department as detailed within this section of OAC 310:641 Subchapter 11.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-12. Equipment for specialty care transport vehicles (air and ground)

(a) The tampering, modification, or removal of the manufacturer's expiration date is prohibited.

(b) Licensed specialty care ambulance services shall ensure that all recalled, outdated, misbranded, adulterated, or deteriorated fluids, supplies, and medications are removed from ambulances immediately.

(c) The medical control physician will authorize all equipment and medications placed on the units for patient care.

(1) The authorized equipment and medications will be detailed on a unit checklist and will match the equipment and supplies with detailed defined minimums needed to treat patients in the manner in the agency approved protocols. The checklist will also meet the requirements described in the ambulance file section of this subchapter.

(2) The medications authorized by the medical director will be detailed on the unit checklist to include the number, weight, and volume of the medication containers.

(d) At a minimum, the following equipment and supplies will be present on each specialty care unit when transported specialty care patients:

(1) age and size appropriate oropharyngeal and nasopharyngeal airways, single wrapped for sanitation purposes;

(2) functioning portable suction device with age and size appropriate tubing and tips;

(3) age and size appropriate bag-valve-mask resuscitators;

(4) portable (secured in each vehicle) and wall mounted oxygen sets, with age and size appropriate tubing cannulas and masks;

(5) spare portable oxygen cylinder, secured to manufacturing specifications;

(6) Bandaging materials to include:

(A) two (2) burn sheets clean wrapped and marked in plastic bag that need not be sterile.

(B) fifty (50) sterile 4"x4" dressings.

(C) six (6) sterile 6"x8" or 8"x10" dressings.

(D) ten (10) roller bandages, 2" or larger.

(E) four (4) rolls of tape (minimum of one (1") inch width).

(F) four (4) sterile occlusive dressings, 3" x 8" or larger.

(G) four (4) triangular bandages.

(H) one (1) pair of bandage scissors.

(7) Fracture immobilization devices to include:

(A) one (1) adult and one (1) pediatric traction splint or equivalent device capable of adult and pediatric application.

(B) two (2) upper and two (2) lower extremity splints in adult and pediatric sizes.

(C) short spine board or vest type immobilizer, including straps and accessories as described within the agency protocols.

(D) two (2) adult and one (1) pediatric size long spine board including straps and head immobilization devices.

(E) two (2) rigid or adjustable extrication collars in large, medium, small adult sizes, and pediatric sizes for children ages 2 years or older and one (1) infant collar. Collars shall not be foam or fiber filled.

(8) Miscellaneous medical equipment to include:

(A) one (1) infant, one (1) child, two (2) adult, and one (1) extra-large blood pressure cuffs;

(B) stethoscope, one (1) adult and one (1) pediatric sizes.

(C) obstetrical kit with towels, 4"x4" dressing, umbilical tape, bulb syringe, cord cutting device, clamps, sterile

gloves, aluminum foil, and blanket.

(D) universal communicable disease precaution equipment including gloves, mask, goggles, gown, and other universal precautions.

(E) blood-glucose measurement equipment per medical direction and Department approval.

(F) CPAP per medical direction and Department approval.

(9) Other mandatory equipment to include:

(A) Two (2) appropriately labeled or designated waste receptacles for:

- (i) waste that is contaminated by bodily fluids or potentially hazardous infectious waste, and
- (ii) waste that does not present a biological hazard, such as plastic or paper products that are not contaminated.

(B) two way radio communication equipment utilizing VHF frequency 155.3400 as detailed in this Chapter and through the Statewide Interoperability Governing Body.

(C) one (1) sturdy, lightweight, all-level cot for the primary patient that is compliant with the vehicle manufacturing standards in place at the time of purchase.

(D) at least three (3) strap type restraining devices (chest, hip, and knee), and compliant shoulder harness shall be provided per stretcher, cot, and litter (not less than two (2") inches wide, nylon, easily removable for cleaning, two (2) piece assembly with quick release buckles).

(E) electronic or paper patient care run reports.

(F) two (2) fire extinguishers; one (1) in the cab of the unit, and one in the patient compartment of the vehicle each mounted in a manner that allows for quick release and is compliant with the ambulance manufactures building standards. Each extinguisher is to be dry powder, ABC, and a minimum of five (5) pounds.

(G) two (2) operable flashlights;

(H) all ambulance equipment and supplies shall be maintained in accordance with sanitation requirements in this Chapter. Additionally, sterility shall be maintained on all sterile packaged items.

(I) digital or strip type thermometer and single use probes.

(J) six (6) instant cold packs.

(K) one (1) length/weight based drug dose chart or tape.

(L) a minimum of two (2) DOT approved reflective vests.

(M) As approved by local medical direction, a child restraint system or equipment for pediatric patients, as provided under the limits of the agency license.

(e) All assessment and medical equipment utilized for patient care will be maintained in accordance with the manufactures guidelines.

Documentation will be maintained at the agency showing that periodic tests, maintenance, and calibration are being conducted in accordance with the manufactures requirements. These types of equipment include, but are not limited to, gurneys or stretchers, suction devices, pulse

oximetry, glucometers, capnography monitors, end-tidal co2 monitors, CPAP/BiPAP devices, ventilators, and blood pressure monitors.

[Source: Amended and renumbered from 310:641-3-47 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-13. Specialty care medical control requirement

(a) Each specialty care ambulance service licensed in Oklahoma that initiates and responds to interfacility calls within the state shall have a physician medical director who is a fully licensed, non-restricted Doctor of Medicine (M.D.) or a Doctor of Osteopathy (D.O.) by the State of Oklahoma.

(b) Licensed ambulance services will have a plan or policy that describes how the agency will address a sudden lapse of medical direction, such as a back-up medical director, that is used to ensure coverage when the medical director is not available.

(1) The Department shall be notified the next business day of any lapse or change of medical direction by the respective agency. If the agency has made arrangements for a back-up medical director or an immediate replacement, then a lapse has not occurred.

(2) In the event of a lapse in medical direction; in that, there is no a medical director providing the authority for medical interventions for an agency's certified and licensed personnel, the agency will, pursuant to O.S. Section 63-1-2506:

(A) cease all operations involving patient care, and

(B) implement mutual aid plans to ensure requests for service receive responses until the agency is able to implement their plan or policy for substitution or back-up medical direction.

(c) The medical director shall:

(1) be accessible, knowledgeable, and actively involved in quality assurance and the educational activities of the agency's personnel and supervise a quality assurance (QA) program by either direct involvement or appropriate designation and surveillance of the responsible designee(s). The appointment of a designee does not absolve the medical director of their responsibility of providing oversight.

(2) Provide a written statement to the Department, which includes:

(A) an agreement to provide medical direction and establish treatment protocols and the agency specific scope of practice for all certified and licensed agency personnel;

(B) the physician's primary practice address or home address if the physician does not have a practice, and email address(es);

(C) an OBNDT registrant number or appropriate state equivalent as appropriate;

(D) current Oklahoma medical license;

- (E) appropriate training and experience in the types of patients the service will be transporting. Training may include board training and appropriate certifications or supplemental training;
- (F) the agency's on-line and/or off line specific licensure level medical protocols with medication formulary for patient care techniques. Protocols shall include medication to be used, treatment modalities for patient care procedures, and appropriate security procedures for controlled dangerous substances;
- (G) attendance or demonstrated participation in:
 - (i) medical director training provided by the Department subject to the availability of funding. Verification of attendance or participation will be maintained at the agency; and
 - (ii) one hour of continuing education specific to providing medical oversight to EMS providers and agencies each year, provided by the Department subject to the availability of funding.
- (H) A physician may be the medical director for more than one (1) service.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-14. Specialty care agency sanitation requirements

The following shall apply regarding sanitation standards for all specialty care ambulance services facilities, vehicles, and personnel:

- (1) the interior of the vehicle and the equipment within the vehicle shall be sanitary, secured and maintained in good working order at all times;
- (2) the exterior of the vehicle shall be clean and maintained in good working order to ensure the vehicle can operate safely and in accordance with applicable sections of Title 47 of the Oklahoma Statutes;
- (3) linen shall be changed after each patient is transported; and bagged and stored in an outside or separate compartment;
- (4) clean linen, blankets, washcloths, and hand-towels shall be stored in a closed interior cabinet free of dirt and debris;
- (5) freshly laundered linen or disposable linen shall be used on the cots and pillows and changed between patients;
- (6) pillows and mattresses shall be kept clean and in good repair and any repairs made to pillows, mattresses, and padded seats shall be permanent;
- (7) soiled linen shall be placed in a closed container that deters accidental exposure. Any linen which is suspected of being contaminated with bodily fluids or other potentially hazardous infectious waste shall be placed in appropriately marked or designated closed container for disposal;
- (8) contaminated disposable supplies shall be placed in appropriately marked or designated containers in a manner that

deters accidental exposure.

(9) exterior and interior surfaces of vehicles shall be cleaned routinely;

(10) blankets and hand towels used in any vehicle shall be clean;

(11) implements inserted into the patient's nose or mouth shall be single-service wrapped and properly stored and handled. When multi-use items are utilized, the local health care facilities should be consulted for instructions in sanitation and handling of such items;

(12) when a vehicle has been utilized to transport a patient(s) known to the operator to have a communicable disease the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water and appropriate disinfectant. The vehicle should be placed "out of service" until a thorough cleansing is conducted;

(13) all storage spaces used for storage of linens, equipment, medical supplies, and other supplies at the base station shall be kept clean;

(14) personnel shall be clean, especially hands and fingernails, and well groomed. Clothing worn by personnel shall be clean. The licensee shall provide in each vehicle a means of hand washing for the attendants;

(15) the oxygen humidifier(s) shall be single use;

(16) All medications, supplies, and sterile equipment with expiration dates shall be current;

(17) Expired medications, supplies, and sterile equipment shall be discarded appropriately. Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited;

(18) The station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, and free of safety and health hazards;

(19) Specialty care ambulance vehicles and service facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas consistent with the provisions of 310:641-1-4.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-15. Storage of intravenous solutions

(a) Medication and vascular fluid shall be stored in a manner that complies with manufacturer and FDA standards.

(b) Each agency shall maintain medications in a manner that deters theft and diversion of all medications.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-16. Specialty care service authority to carry controlled substances on a vehicle

(a) An ambulance service, with personnel licensed to utilize such, is hereby authorized to carry a limited supply of controlled substances, secured and stored in a manner that is compliant with State and Federal statutes and regulations. The utilization, procurement, and accountability of such drugs shall be supervised by medical control for the service. An inventory shall be kept and signed according to the requirements of the Oklahoma Bureau of Narcotics and Dangerous Drugs (OBNDD), and the United States Department of Justice Drug Enforcement Administration (DEA). Each responsible medical director shall maintain a copy of their OBNDD certificate to the Department for this purpose.

(b) Any loss or deficiency which occurs in the utilization, procurement, and accountability of controlled substances shall be reported the OBNDD and DEA through their procedures and requirements and to the Department, within ten (10) working days.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-17. Inspections

(a) The Department shall conduct unannounced inspections of every licensed specialty care ambulance service. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this sub chapter.

(b) All inspection reports will be sent to the agency director, license owner, and medical director.

(c) A representative of the agency will be with the Department employee during the inspection.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-18. Specialty care notice of violation

(a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the agency an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.

(b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the agency shall submit to the Department a written demonstration of compliance and/or plan of correction.

(c) A plan of correction shall include at least the following:

- (1) When the correction was or will be completed;
- (2) How the correction was or will be made;
- (3) What measures will prevent a recurrence; and
- (4) Who will be accountable to ensure future compliance.

(d) The Department shall ensure that the agency is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the

Administrative Procedures Act, Title 75 O.S. Section 250 et seq.
(e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-19. Emergency medical services regions

(a) Regions established pursuant to Section 1-2503 (21) and (22) of Title 63 shall not be recognized without Department approval for this purpose. Pursuant to Title 74, O.S., Section 1006, of the "Interlocal Cooperation Act" (relating to Approval of Agreements), the Department shall exercise authority granted to approve or disapprove all matters within its jurisdiction, in addition to and in substitution for the requirement of submission to and approval by the Attorney General.

(b) The Department shall recognize regions which comply with the law and this Chapter.

(c) Any regional emergency medical services system shall provide the name of the regional medical director, copies of regional standards, rules, and transport protocols established for the regional emergency medical services system to the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-20. Operational protocols

(a) Authorized emergency vehicles of licensed ambulance services shall adhere to the requirements of Title 47 O.S. Section 1-101 et seq. ("Motor Vehicle Code") for all vehicle operations.

(b) When a facility requests a specialty care transport, the specialty care agency will provide an accurate estimated time of arrival and ensure the patient needs will be able to be met for the service being requested.

(c) Mutual aid plan(s), regarding interfacility transports only, with licensed services shall be developed and placed in the agency files for inspection. Plans will be periodically reviewed to ensure accuracy and completeness. Licensed specialty care agencies shall provide mutual aid, if the agency has the capability and if the requested activity is within the licensure requirements.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-21. Transfer protocols

(a) As the specialty care license is limited to interfacility transfers only for specific patients, the agency shall designate as part of their protocols, the destinations to which the agency will transport to, and which facilities are within a reasonable distance.

(b) All specialty care agencies transferring patients from hospitals outside regions seven and eight to hospitals in those regions shall contact the Department approved referral center in accordance with the regional and state plans. The center shall maintain a record of the

transfers for regional continuous quality improvement activities.

(c) Each patient or legal guardian of a patient has the right to refuse treatment or transportation from a specialty care agency.

(d) Each specialty care agency shall ensure that the care of each patient is transferred appropriately to the receiving facility's licensed staff. The transfer of care will include verbal and written reports summarizing the assessment and treatment of the patient by the ambulance service.

(e) All specialty care agencies are required to participate in the regional and statewide systems established through statute and administered by the Department to ensure patients are transported to the appropriate facility in a timely manner to receive appropriate care.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-22. Specialty care ambulance service records and files

(a) All required records for licensure will be maintained for a minimum of three (3) years.

(b) Each licensed specialty care ambulance service shall maintain electronic or paper records about the operation, maintenance, and such other required documents at the business office. These files shall be available for review by the Department during normal work hours. Files which shall be maintained include the following:

(1) Patient care records:

(A) at the time a patient is transported to a receiving facility, the following information will be, at a minimum provided to the facility staff members at the time the patient is accepted:

(i) personal information such as name, date of birth, and address;

(ii) patient assessment with medical history;

(iii) medical interventions and patient responses to interventions;

(iv) any known allergies; and

(v) other information from the medical history that would impact the patient outcomes if not immediately provided.

(B) A signature of the receiving facility health care staff member will be obtained to show the above information and the patient were received.

(2) A complete copy of the patient care report shall be sent to the receiving facility within twenty-four (24) hours of the hospital receiving the patient.

(3) Completed patient care reports shall contain demographic, administrative, legal, medical, community health, and patient care information required by the Department through the OKEMSIS Data Dictionary.

(4) All run reports and patient care information shall be considered confidential.

(c) All licensed agencies shall maintain electronic or paper records on the maintenance, and regular inspections of each vehicle.

- (1) Each vehicle must be inspected and a detailed equipment checklist completed after each call, or on a daily basis, whichever is less frequent, and
 - (2) documentation that shows routine vehicle maintenance for each vehicle as required by vehicle manufacture recommendations,
- (d) All licensed agencies shall maintain a licensure or credential file for licensed and certified emergency medical personnel employed by or associated with the service to include:
 - (1) Oklahoma license and certification,
 - (2) Basic Life Support certification, or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association standards, and approved by the medical director;
 - (3) Advanced Cardiac Life Support certification or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association Standards, as approved by the medical director if applicable for the license level,
 - (4) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent,
 - (5) verification of an Emergency Vehicle Operations Course or other agency approved defensive driving course,
 - (6) contain a list or other credentialing document that defines or describes the medical director authorized procedures, equipment, and medications for each certified or licensed member employed or associated with the agency, and
 - (7) a copy of the medical director credentials will be maintained at the agency.
- (e) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel records to ensure confidentiality of records that do not pertain to the documents relating to patient care.
- (f) Copies of staffing patterns, schedules, or staffing reports which indicate the ambulance service is maintaining twenty four (24) hour coverage at the highest level of license;
- (g) Copies of in-service training and continuing education records.
- (h) Copies of the ambulance service:
 - (1) operational policies, guidelines, or employee handbook;
 - (2) a list of the patient care equipment that is carried on any "Class E" unit(s) will be part of the standard operating procedure or guideline manual,
 - (3) medical protocols; and
 - (4) OSHA and/or Department of Labor exposure plan, policies, or guidelines.
- (i) A log of each request for service received and/or initiated, to include the:
 - (1) disposition of the request and the reason for declining the request if applicable,
 - (2) patient care report number,
 - (3) date of request,

- (4) patient care report times as required in the OKEMSIS Data Dictionary,
- (5) location of the incident, and
- (6) nature of the call.
- (j) Documentation that verifies an ongoing, physician involved quality assurance program.
- (k) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.
- (l) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each licensed ambulance service. Reports of the EMS data standard shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the Department, in writing.
- (m) Review and the disclosure of information contained in the ambulance service files shall be confidential, except for information which pertains to the requirements for license, certification, or investigation issued by the Department.
- (n) Department representatives shall have prompt access to files, records, and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment, or property may result in summary suspension of licensure by the Commissioner of Health.
- (o) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.
- (p) A representative of the agency will be present during the record review.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-11-23. Sole source ordinances

- (a) A specialty care ambulance service which operates as a sole source provider established by EMS regions, ambulance service districts or municipalities shall file with the Department a copy of the ordinance or regulation and a copy of the contract to operate as a sole source provider. This requirement shall be retroactive and includes all established sole source ambulance services.
- (b) A specialty care ambulance service which operates as a sole source provider for a "region" as established pursuant to the Oklahoma Interlocal Cooperation Act (Title 74, Section 1001, et seq.), shall file with the Department a copy of the interlocal agreement and any ordinance or other regulations or contract or agreement established by the region for ambulance service provision.
- (c) Violation of contracts established herein may be cause for enforcement action by the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-11-24. Suspension, revocation, probation, or non-renewal of a licensee

(a) The Department may suspend or revoke a license and/or fine or place on probation a license or licensee for the following:

- (1) violations of any of the provision of the Oklahoma Statutes, the Act or this chapter;
- (2) permitting, aiding or abetting in any illegal act in connection with the ambulance service;
- (3) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;
- (4) placing a vehicle into service before it is properly inspected, approved, and permitted by the Department;
- (5) failure to comply with a written order issued by the Department within the time frame specified by the Department;
- (6) engaging in any act which is designed or intended to hinder, impede, or obstruct the investigation of any matter governed by the Act or by any lawful authority;
- (7) an ambulance service who fails to renew their Oklahoma license within the time frame and other requirements as specified in these rules shall be considered an expired or lapsed licensee and therefore no longer licensed as an ambulance service in the State of Oklahoma;
- (8) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
- (9) offering, giving, promising anything of value or benefit, as defined in Oklahoma Statutes or Department Policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupations;
- (10) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;
- (11) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this this Chapter.

(b) No person, company, governmental entity or trust authority may operate an ambulance service or emergency medical response agency except in accordance with the Act and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant, in connection with a license application or an investigation conducted by the Department

pursuant to this rule shall not:

- (1) knowingly make a false statement of material fact;
 - (2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or
 - (3) fail to respond to a demand for information made by the Department or any designated representative thereof.
- (d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively.
- (e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or OAC 310:641.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

SUBCHAPTER 13. AIR AMBULANCE SERVICE

310:641-13-1. Purpose

The purpose of this Subchapter is to:

- (1) incorporate the authorization, licensure, and minimum requirements for operating a fixed wing or rotor wing Air Ambulance Service, and
- (2) provide standards for the enforcement of the provisions of the Act and this Chapter.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-2. License required [REVOKED]

[Source: Amended and renumbered from 310:641-3-30 at 33 Ok Reg 1529, eff 9-11-16 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-13-3. Issuance of an air ambulance license

- (a) The Department shall have sole discretion to approve or deny an application for an air ambulance service license based on the ability of the applicant to meet the requirements of this Chapter.
- (b) Any air ambulance service licensed prior to the effective date of these amendments to this Chapter shall remain in effect for the period of license issuance, except that all such air ambulance services shall be subject to the Act and rules which otherwise pertain including the requirement for renewal. At renewal, the agency must be fully compliant with all applicable regulations within this Chapter of regulation.
- (c) The license is not transferable or assignable.

(d) A air ambulance license may be issued for Paramedic life support or for Specialty Care.

(1) Paramedic life support means that the air ambulance vehicles are equipped with the minimum Paramedic equipment and staffed with at least one Paramedic on each request for service and may respond to both pre-hospital requests and interfacility transfers.

(2) Specialty care means the air ambulance service vehicles are equipped with the appropriate equipment and staff for each request for interfacility transfers within their licensure limits.

(3) Air ambulances providing Paramedic and Specialty care services are required to have both types of licenses.

(4) Air ambulances providing specialty care shall meet or exceed specialty care regulations as well as air ambulance regulations.

(e) The initial license period shall expire the second June 30 following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.

(f) The original, or a copy of the original, license shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available, then the license shall be available to anyone requesting to see the license during regular business hours.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-4. Renewal of an air ambulance license

(a) The Department shall provide to all air ambulance services a "Survey/Renewal Form" in December each year. This form shall be considered and utilized as a renewal application if due. The "Survey/Renewal Form" along with proof of current workers' compensation and liability insurance shall be returned to the Department by January 31st each year.

(1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be mailed by the Department to each licensee in need of renewal.

(2) A non-refundable fee for the renewal of an specialty care air ambulance service license shall be one hundred dollars (\$100.00), fifty dollars (\$50.00) for each substation, plus twenty dollars (\$20.00) for each vehicle in excess of two (2).

(3) An air ambulance service license shall be renewed if:

(A) the air ambulance service has applied for such renewal;

(B) the air ambulance service has no outstanding deficiencies or is not in need of correction as may be identified during inspection of the service, and;

(C) The proper fee has been received by the Department.

(b) An ambulance service license, if not renewed by midnight June 30 of the expiration year shall be considered non-renewed.

(1) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.

(2) Thereafter a new application shall be required for the continuation of any such license, and the applicant shall be

subject to initial application procedures. An extension may be granted by the Department for the purpose of renewal subject to a determination by the Department of the following:

- (A) The safety, need, and well-being of the public and general populace to be served by the ambulance service; and
- (B) The availability of personnel, equipment, and the financial ability of the applicant to meet the minimum standards of emergency medical services law.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-5. Denial for an initial license

(a) An air ambulance license application may be denied for any of the following reasons:

- (1) A felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to supervise the service; to include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction which might otherwise have a bearing on the operation of the service;
- (2) Falsification of Department required information;
- (3) Ownership, management, or administration by principals of an entity whose license has been revoked; and
- (4) Licensure may not be in the best interest of the public as determined by the Department.

(b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete application of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a license or renewal shall be given if applicable. A license application may be re-submitted, but each resubmission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-6. Denial of an air ambulance application for renewal

(a) Any air ambulance license application for renewal may be denied for any of the following:

- (1) the failure to meet standards set forth by statute or rule,
- (2) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to manage the service to include, but not limited to fraud, grand larceny, child abuse, sexual offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service,
- (3) outstanding notice of violation that has not been addressed with an acceptable plan of correction,
- (4) insufficient financial resources,

- (5) falsification of Department required information,
 - (6) ownership, management, or administration by principals of an entity whose ambulance service license has been revoked,
 - (7) re-licensure may not be in the best interest of the public as determined by the Department,
- (b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete renewal application of the granting or denial of a renewed license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a renewed license shall be given, if applicable. A license application may be resubmitted, but each re-submission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-7. Severance of action, amendment, and re-instatement

- (a) The issuance or renewal of a license after notice of a violation(s) has been given shall not constitute a waiver by the Department of its power to rely on the violation(s) for subsequent license revocation or other enforcement action which may arise out of the notice of violation(s).
- (b) Any change in the name of the service, level, service area, or addition or removal of substation shall necessitate an application to amend the license and shall be accompanied by a fee of one hundred dollars (\$100.00).
- (c) Changing or moving the location of a substation requires written notification to the Department.
- (d) If an existing license is placed on probation or suspension, a fee of one hundred (\$100.00) dollars, in addition to any other provision of the action, shall be submitted prior to re-instatement of the license to full privilege.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-8. Air ambulance medical staffing

- (a) Each air ambulance flight originating in Oklahoma shall have, as a minimum, one of the following aeromedical crew member attending the patient:
- (1) a physician licensed to practice in the State of Oklahoma. This crew member should at a minimum be competent in the principles supported in Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), Pediatric Education for the Prehospital Professional (PEPP), Advanced Trauma Life Support (ATLS), altitude physiology, and on-board treatment modalities.
 - (2) a registered nurse licensed to practice in the State of Oklahoma. This crew member should at a minimum be competent in clinical principles of care related to critical care modalities, such as obstetrics, neonatology, pediatrics, burns, cardiology, neurosurgery, toxicology and infectious disease specialties, the principles of ATLS, altitude physiology, training appropriate to

mission profile, and aviation communications.

(3) a Paramedic licensed to practice in the State of Oklahoma.

This crew member should at a minimum be competent in altitude physiology, ACLS, PALS, PEPP and Pre-hospital Trauma Life Support (PHTLS) or equivalent as approved by the Department.

(b) Aeromedical crew members are required to participate in continuing education training for, but not limited to, the following: altitude physiology, emergency medical services and aviation communications, use of patient care equipment, protocol and procedure review and legal aspects of air transportation.

(1) Didactic continuing education shall include an annual review of:

- (A) hazardous materials recognition and response.
- (B) human factors - crew resource management
- (C) infection control
- (D) State EMS rules regarding ground and air transport.
- (E) Stress recognition and management.

(2) Appropriate continuing education shall be developed and documented on an annual basis and must include:

- (A) critical care (adult, pediatric, neonatal).
- (B) emergency / trauma care.
- (C) invasive procedure labs.
- (D) emergency obstetrics
- (E) prehospital scene transports.

(c) Scene or pre-hospital transports of air ambulance service shall have as a minimum, one aeromedical crew member licensed as a Paramedic.

[Source: Amended and renumbered from 310:641-3-34 at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-9. Air ambulance vehicle

(a) An air ambulance vehicle (aircraft) may be fixed wing, single or multi-engine, or rotary wing, single or multi-engine.

(b) Operations of the aircraft shall be under the appropriate provisions of the Federal Aviation Regulations (FAR) within 14 CFR, Part 1 et seq.

(c) The interior of the patient compartment of their aircraft shall have the capability of being climate controlled to avoid adverse effects on patients and medical personnel on board by a means other than flight operations and flying to an altitude.

(d) The aircraft design and configuration shall not compromise patient stability in loading, unloading or in-flight operations.

(1) The aircraft shall have an entry that allows loading and unloading without excessive maneuvering (no more than 45 degrees about the lateral axis and 30 degrees about the longitudinal axis) of the patient, and does not compromise functioning of monitoring systems, intravenous lines, and manual or mechanical ventilation.

(2) A minimum of one stretcher shall be provided that can be carried to the patient.

(3) Aircraft stretchers and the means of securing it in-flight must be consistent with FAR's.

(4) The type and model of stretcher indicates the maximum gross weight allowed (inclusive of patient and equipment) as labeled on the stretcher.

(5) The stretcher shall be large enough to carry an American adult male.

(6) The stretcher shall be sturdy and rigid enough that it can support cardiopulmonary resuscitation. If a backboard or equivalent device is required to achieve this, such device will be readily available.

(7) The head of the stretcher is capable of being elevated at least 30 degrees for patient care and comfort.

(8) If the ambulance stretcher is floor supported by its own wheels, there is a mechanism to secure it in position under all conditions. These restraints permit quick attachment and detachment for patient transfer.

(e) Patients transported by air will be restrained with a minimum of three straps, including shoulder straps that must comply with FAA regulations. The following additional requirements shall apply to achieve patient stability.

(1) Patients less than 60 pounds (27kg) shall be provided with an appropriately sized restraining device (for patient's height and weight) which is further secured by a locking device. All patients less than 40 pounds must be secured in a five-point safety strap device that allows good access to the patient from all sides and permits the patient's head to be raised at least 30 degrees. Velcro straps are not encouraged for use on pediatric devices.

(2) If a car seat is used, it shall have an FAA approved sticker.

(3) There shall be some type of restraining device within the isolette to protect the infant in the event of air turbulence.

(f) A Supplemental lighting system shall be installed in the aircraft in which standard lighting is insufficient for patient care and a self-contained lighting system powered by a battery pack or portable light with a battery source must be available.

(g) Medical transport personnel shall be able to determine if medical oxygen is on the patient care area.

(1) Each gas outlet shall be clearly marked for identification.

(2) Oxygen flow shall be capable of being started and stopped at or near the oxygen source from inside the aircraft.

(3) The following indicators shall be accessible to medical transport personnel while en route:

(A) Quantity of oxygen remaining.

(B) Measurement of liter flow.

(h) A variety of medical oxygen delivery devices consistent with the service's medical protocols shall be available.

(i) An appropriately secured portable medical oxygen tank with a delivery device shall be carried on the aircraft. Portable medical oxygen tank may not be secured between patient's legs while the aircraft is in motion.

(j) There shall be a back-up source of medical oxygen sufficient to allow completion of the transport in the event the main system fails. For air transports, this back-up source can be the required portable tank as long as the portable tank is accessible in the patient care area during flight.

- (k) Storage of oxygen shall comply with applicable OSHA standards within 29 CFR, Part 19 D.
- (l) Oxygen flow meters and outlets shall be located to prevent injury to medical transport personnel to the extent possible.
- (m) In the event the licensee will be utilizing a substitute aircraft not previously permitted by the Department for a period of more than five (5) days, the licensee shall notify the Department to have the aircraft inspected and permitted by the Department.
- (1) Licensees with a substitute aircraft utilized for periods of five (5) days or less, the licensee shall complete an agency specific equipment log documenting the transfer of all required equipment onto the substitute aircraft at the time of transfer.
 - (2) The agency will maintain documentation of the transfer in accordance with 310:641-13-21 Air ambulance service records and files.
- (n) Any vehicle initially placed in service after a purchase, lease, contract and/or refurbish shall be inspected, approved, and permitted by the Department as detailed within this section of 310:641 Subchapter 13.

[Source: Amended and renumbered from 310:641-3-32 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-13-10. Air ambulance equipment

- (a) Medical control shall determine the patient's needs and level of care required when deciding what equipment shall be aboard each flight and the type of aircraft required for transport. Equipment kits, cases and/or packs which are carried on any given flight shall be available for the following categories: trauma, cardiac, burn, toxicologic, pediatric, neonatal, and obstetrics.
- (b) controlled substances shall be in a locked system and kept in a manner consistent with Federal and States requirements and applicable sections of this Chapter.
- (c) storage of medications shall allow for protection from extreme temperature changes if environment deems it necessary.
- (d) The following medical equipment shall be required to be on board every aircraft certified by the Department for air medical services:
- (1) readily available IV supplies and fluids, readily available;
 - (2) hangers or hooks to secure IV solutions in place and equipment to provide high flow fluids if needed. Glass IV containers shall not be used unless required by specific medications and properly secured;
 - (3) a minimum of three (3) IV infusion pumps immediately available for critical care transports;
 - (4) accessible medications, consistent with the service's medical protocols;
 - (5) a cardiac monitor, defibrillator and external pacemaker shall be secured and positioned so that displays are visible. Two (2) extra batteries or a power source shall be available for cardiac monitor / defibrillator or external pacemaker (adult and pediatric);

- (6) laryngoscope and tracheal intubation supplies, to include laryngoscope blades, bag-valve-mask, and oxygen supplies, including PEEP valves; appropriate for ages and potential needs of patient transported;
- (7) a mechanical ventilator appropriate for critical care transports;
- (8) two (2) suction units, one of which is portable and both of which are capable of delivering adequate suction to clear the airway with wide bore (1/4") tubing and rigid and soft suction catheters for adults, children, and infants;
- (9) pulse oximetry with adult and pediatric capability;
- (10) continuous waveform capnography monitoring capabilities and equipment;
- (11) automatic blood pressure device;
- (12) devices for decompressing a pneumothorax and performing an emergency cricothyroidotomy;
- (13) doppler stethoscope;
- (14) continuous/bi level positive airway pressure device as allowed by protocol; and
- (15) arterial line blood pressure monitoring as allowed by protocol.

(e) All medical equipment (including specialized equipment) and supplies shall be secured according to FAR's.

(f) All assessment and medical equipment utilized for patient care will be maintained in accordance with the manufacturer's guidelines.

Documentation will be maintained by the agency, and made available to the Department upon request, showing the periodic tests, maintenance, and calibration are being conducted in accordance with manufacturer's requirements. Equipment shall include, but not be limited to, stretcher or gurney, suction devices, pulse oximetry, glucometers, end-tidal CO₂, and capnography monitors, CPAP/BiPAP devices, ventilators, and blood pressure monitors.

[Source: Amended and renumbered from 310:641-3-33 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-13-11. Air medical director

(a) An air medical director shall be a physician, fully licensed to practice in the State of Oklahoma, with a background in flight medicine, pre-hospital and/or emergency medicine. The physician shall know the aircraft limitations for in-flight patient care.

(b) An air ambulance service based in another state may have as its air medical director a physician who is not licensed to practice in the State of Oklahoma but is fully licensed in good standing in the home state of the air ambulance service. The air medical director shall meet all other qualifications listed in this subchapter.

(c) Licensed air ambulance services will have a plan or policy describing how the agency will address a sudden lapse of medical direction, such as a back-up medical director, that is used to ensure coverage when a physician is not available.

(d) The Department shall be notified the next business day of any lapse or change of medical direction by air ambulance service. If the agency has made arrangements for a back-up medical director or an immediate replacement, then no lapse has occurred.

(e) In the event of a lapse in medical direction, in that, there is not a medical director providing the authority for the agency's licensed personnel, the agency will, pursuant to 63 O.S. Section 1-2506, relating to the medical authority to perform medical procedures

- (1) cease all operations involving patient care,
- (2) implement mutual aid plans to ensure requests for service receive responses until the agency is able to implement their plan or policy for a substitute or back-up medical director.

(f) The air ambulance service medical director shall:

- (1) Attend or demonstrate participation in:
 - (A) medical director training provided by the Department subject to the availability of funding. Verification of attendance or participation will be maintained at the agency;
 - (B) one hour of continuing education specific to providing medical oversight to EMS providers and agencies each year, provided by the Department subject to the availability of funding.

(2) demonstrate appropriate training and experience in adult and pediatric emergency medical services, which may include pediatric, adult, and trauma life support courses or equivalency. Training and experience may also include appropriate board training.

(3) be accessible, knowledgeable, and actively involved in quality assurance and the educational activities of the agency's personnel and supervise a quality assurance (QA) program by either direct involvement or appropriate designation and surveillance of the responsible designee(s). The appointment of a designee does not absolve the medical director of their responsibility for providing oversight.

(4) Each air ambulance quality assurance policy shall include, but not be limited to:

- (A) patient care interventions to ensure appropriate patient care,
- (B) policy to review air ambulance utilization,
- (C) policy to review airway management,
- (D) policy to review cardiac arrest management,
- (E) other reports not specifically identified,
- (F) a process to prove internal and external feedback of quality assurance findings.

(5) Provide a written statement to the Department, which includes:

- (A) an agreement to provide medical direction and establish treatment protocols and the agency specific scope of practice for all certified and licensed agency personnel;

- (B) the physician's primary practice address or home address if the physician does not have a practice, and email address(es);
- (C) an OBNDD registrant number or appropriate state equivalent, as appropriate;
- (D) current Oklahoma medical license;
- (E) demonstrate appropriate training and experience in the types of patients the service will be transporting. Demonstrated training may include board training and appropriate certifications or supplemental training.
- (F) Develop on-line and off-line specific medical protocols with medication formulary for patientcare techniques. Protocols shall include medication to be used, treatment modalities for patient care procedures, and appropriate security procedures for controlled dangerous substances;
- (g) A physician may be the medical director for more than one (1) service.

[Source: Amended and renumbered from 310:641-3-35 at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-12. Operational protocols

- (a) Air ambulance medical services shall be maintained to provide medical treatment, stability, and transportation to ambulance patients within the capability and capacity of the medical crew and aircraft.
- (b) Patient related policies and procedures will be maintained at the agency. Documentation reflecting crew training on policies and procedures shall be maintained.
- (c) A written policy shall be utilized for rapid patient loading and unloading if practiced.
- (d) A written protocol shall be developed and in place to address the combative patient.
 - (1) Physical and/or chemical restraints shall be available and used for combative patients who potentially endanger himself, the personnel or the aircraft.
 - (2) The written protocol shall address refusal to transport patients, family members or others who may be considered a threat to the safety of the transport personnel.
- (e) A list of contaminated materials, which could pose a threat to the medical transport team or render transport inappropriate, shall be readily available.
- (f) The LZ or aircraft operational area shall be a safe distance to avoid any downwind danger when approaching or departing.
- (g) Each air ambulance service shall have a policy regarding patient screening and under what conditions a request for service would be declined or not accepted.
- (h) Air ambulance services are not required to meet the duty to act statutory requirements or have 24/7 resource availability.
- (i) Air ambulances shall operate within a statewide emergency medical response system coordinating pre-hospital and interfacility responses with the appropriate local emergency resources through:

- (1) the use of the state designated resource status reporting and communication tool to show near real- time availability by using global positioning satellite systems to show where aircraft are located at the time of the request, and
 - (2) coordination with ground personnel to ensure the timeliest response to the patient via radio or telephone contact.
- (j) Air medical utilization protocols shall be developed and submitted to the Department for review and approval.

[Source: Amended and renumbered from 310:641-3-36 at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-13. Communications

(a) All air ambulance aircraft shall have radio capability to communicate air to ground, air to air, and ground to air. The aircraft communication system will include two-way communications:

- (1) with physician(s) who are responsible for directing patient care in transit, and
- (2) with ground personnel who coordinate the transfer of the patient by surface transportation.

(b) The aircraft shall:

- (1) have the capability to communicate between the medical attendant and pilot, and
- (2) be in compliance with the Oklahoma State Interoperability Governing Body, and provide documentation that the aircraft can communicate with hospitals utilizing VHF frequency 155.3400.

(c) All communications equipment used for transmitting patient care information shall be maintained in full operating condition and in good repair. Ambulance communications equipment shall be capable of transmitting and receiving clear and understandable voice communications to and from the base station at a reasonable distance. Radios on aircraft shall be capable of transmitting and receiving the following traffic:

- (1) Medical direction.
- (2) Communication Center.
- (3) EMS and law enforcement agencies.

(d) The medical team shall be able to communicate with each other during flight.

(e) A communication specialist shall be assigned to receive and coordinate all requests for the medical transport service. Training of the designated person shall be commensurate with the scope of responsibility and include:

- (1) EMT certification, or the equivalent in knowledge or experience which minimally includes:
- (2) medical terminology,
- (3) knowledge of EMS - roles and responsibilities of the various levels of training,
- (4) state and local regulations regarding EMS,
- (5) familiarization with equipment used in the field setting,
- (6) knowledge of Oklahoma State EMS Rules,
- (7) types of radio frequency bands used in EMS systems,

- (8) a knowledge of the hazardous materials response and recognition procedure using appropriate reference materials, and
 - (9) stress recognition and management.
- (f) Aircraft shall communicate, when possible, with ground units securing unprepared landing sites prior to landing.
- (g) A record of contact shall include, but not be limited to:
 - (1) time of call;
 - (2) name and phone number of requesting agency;
 - (3) age, diagnosis or mechanism of injury;
 - (4) referring and receiving physician and facilities (for interfacility requests); as per policy of the medical transport service.
 - (5) verification of acceptance of patient and verification of bed availability by referring physician and facility.
 - (6) destination airport, refueling stops (if necessary) location of transportation exchange and hours of operation;
 - (7) ground transportation coordination at sending and receiving areas;
 - (8) time of dispatch (time crew notified flight is a go approved, post pilot OK's flight approval);
 - (9) time depart base (time of lift-off or other site);
 - (10) number and names of persons on board;
 - (11) amount of fuel on board;
 - (12) estimated time of arrival (ETA);
 - (13) pertinent landing zone information;
 - (14) time arrive location;
 - (15) time helicopter arrives at landing zone or helipad;
 - (16) time depart location;
 - (17) time helicopter lifts off from landing zone or helipad;
 - (18) time arrive destination;
 - (19) time depart destination;
 - (20) time arrive base; and
 - (21) time aborted.
- (h) The communication center shall contain the following:
 - (1) At least one dedicated phone line for the medical transport service;
 - (2) A system for recording all incoming and outgoing telephone and radio transmissions regarding patient care with time recording and playback capabilities. Recordings are to be kept for three (3) years.
 - (3) capability to immediately notify the medical transport team and on-line medical direction (through radio, pager, telephone, etc.);
 - (4) a status board with information about pre-scheduled flights/patient transports, the medical transport team on duty, weather, and maintenance status;
 - (5) aircraft service area maps and navigation charts shall be readily available.
- (i) Each air ambulance service shall have in place a protocol to insure no delay in aircraft response.

- (1) The air ambulance service shall provide to the caller a point of origin and an accurate ETA.
- (2) In such cases where a delay is anticipated, the air ambulance service called has a responsibility to notify the caller and assist in referral to another licensed ambulance service.
- (j) The air ambulance service shall be integrated with and communicate with other public safety agencies, including ground emergency service providers. This shall include participation in regional quality improvement reviews, regional disaster planning, and mass casualty incident drills to include an integrated response to terrorist events.
- (k) Air ambulances will provide to ground agencies and receiving facilities post event reviews, feedback, or information for the purposes of improving performance or safety.

[Source: Amended and renumbered from 310:641-3-37 at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-14. Air ambulance sanitation requirements

The following shall apply regarding sanitation standards for all air ambulance services facilities, vehicles, and personnel:

- (1) the interior of the vehicle and the equipment within the vehicle shall be sanitary and maintained in good working order at all times;
- (2) linen shall be changed after each patient is transported and bagged and stored in an outside or separate compartment;
- (3) clean linen, blankets, washcloths, and hand-towels shall be stored in a closed interior cabinet free of dirt and debris,
- (4) freshly laundered linen or disposable linen shall be used on the cots and pillows and changed between patients;
- (5) pillows and mattresses shall be kept clean and in good repair and any repairs made to pillows, mattresses, and padded seats shall be permanent;
- (6) soiled linen shall be placed in a container that deters accidental exposure. Any linen which is suspected of being contaminated with bodily fluids or other potentially hazardous infectious waste shall be placed in an appropriately marked closed container disposal;
- (7) contaminated disposable supplies shall be placed in an appropriately marked or designated container in a manner that deters accidental exposure;
- (8) interior surfaces of vehicles shall be cleaned routinely;
- (9) blankets and hand towels used in any vehicle shall be clean;
- (10) implements inserted into the patient's nose or mouth shall be single-service wrapped and properly stored and handled. When multi-use items are utilized, the local health care facilities should be consulted for instructions in sanitation and handling of such items;
- (11) when a vehicle has been utilized to transport a patient(s) known to the operator to have a communicable disease the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water and appropriate disinfectant. The vehicle

should be placed "out of service" until a thorough cleansing is conducted, and;

(12) all storage spaces used for storage of linens, equipment, medical supplies, and other supplies at the base station shall be kept clean;

(13) personnel shall be clean, especially hands and fingernails, and well groomed. Clothing worn by personnel shall be clean. The licensee shall provide in each vehicle a means of hand washing for the attendants;

(14) the oxygen humidifier(s) shall be single use;

(15) all medications, supplies, and sterile equipment with expiration dates shall be current;

(16) expired medications, supplies, and sterile equipment shall be discarded appropriately. Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited;

(17) the station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, and free of safety and health hazards;

(18) air ambulance vehicles and service facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas, consistent with the provisions of 310:641-1-4.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-15. Storage of intravenous solutions

- (a) Medication and vascular fluid shall be stored in a manner that complies with manufacturer and FDA standards.
- (b) Each agency shall maintain medications in a manner that deters theft and diversion of all medications.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-16. Air ambulance service authority to carry controlled substances on a vehicle

(a) An air ambulance service, with personnel licensed to utilize such, is hereby authorized to carry a limited supply of controlled substances secured and stored in a manner that is compliant with State and Federal statutes and regulations. The utilization, procurement, and accountability of such drugs shall be supervised by medical control for the service. An inventory shall be kept and signed according to the requirement of the Oklahoma Bureau of Narcotics and Dangerous Drugs (OBNDD) and the United States Department of Justice Drug Enforcement Administration (DEA). Each responsible medical director shall maintain a copy of their OBNDD certificate to the Department for this purpose.

(b) Any loss or deficiency which occurs in the utilization, procurement, and accountability of controlled substances shall be reported the OBNDD and DEA through their procedures and requirements and to the Department within ten (10) working days.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-17. Air ambulance inspections

(a) The Department shall conduct unannounced inspections of every licensed air ambulance service. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this sub chapter.

(b) All inspection reports will be sent to the agency director, license owner, and medical director.

(c) A representative of the agency will be with the Department employee during the inspection.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-18. Air ambulance notice of violation

(a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the air ambulance an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.

(b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the air ambulance shall submit to the Department a written demonstration of compliance and/or plan of correction.

(c) A plan of correction shall include at least the following:

- (1) When the correction was or will be completed;
- (2) How the correction was or will be made;
- (3) What measures will prevent a recurrence; and
- (4) Who will be accountable to ensure future compliance.

- (d) The Department shall ensure that the air ambulance is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.
- (e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-19. Emergency medical services regions [REVOKED]

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-13-20. Air Ambulance triage, transport and transfer protocols

- (a) Medical and trauma Department approved triage, transport, and transfer protocols or destination protocols shall adhere to the principle of delivering time sensitive medical and trauma patients to appropriate facilities as outlined by the regional advisory boards and Department approved protocols.
- (b) Specific triage, transport, and transfer protocols or destination protocols shall be developed by medical control for the region, area, or local service and submitted to the Department for approval.
- (c) Each patient or legal guardian of a patient has the right to refuse treatment or transportation from an air ambulance agency.
- (d) Each air ambulance agency shall ensure that the care of each patient is transferred appropriately to the receiving facility's licensed staff. The transfer of care will include verbal and written reports summarizing the assessment and treatment of the patient by the ambulance service.
- (e) All air ambulance agencies are required to participate in the regional and statewide systems, established through statute and administered by the Department, to ensure the patients are transported to the appropriate facility in a timely manner to receive appropriate care.
- (f) Each agency shall designate the receiving facilities that are within their reasonable service range.
- (1) An air agency may still transport to facilities outside of the reasonable service range on a case by case basis.
- (2) Repeated transports to facilities that are outside of the agency's reasonable range will require modifications to the designated receiving facility list maintained at the Department with the agency's approved protocols.
- (g) Triage, transport and transfer protocols approved by the Department shall include the following requirements:
- (1) medical and traumatic non-emergency transports shall be transported to the facility of the patient's choice if within reasonable service range;
- (2) emergency, non-injury related, non-life threatening transports shall be transported to the facility of the patient's choice if within

reasonable service range;

(3) emergency, injury-related transports shall adhere to the Oklahoma Triage, Transport, and Transfer Guidelines approved by the Oklahoma Trauma and Emergency Response Advisory Council and shall ensure that patients are delivered to the most appropriate classified hospital either within their region or contiguous regions;

(4) severely injured patients as described in the Oklahoma Triage, Transport, and Transfer Guidelines shall be transported to a hospital classified at Level I or II for trauma and emergency operative services unless time and distance factors are detrimental to patient care. These patients shall be transported to the next highest level trauma and emergency operative service classified hospital, unless a Department approved regional plan has been developed; in which case the regional plan shall be followed;

(5) stable patients at risk for severe injury or with minor-to-moderate injury as described in the Oklahoma Triage, Transport, and Transfer Guidelines shall be transported to the closest appropriate facility. These patients may be transported to the hospital of the patient's or patients legal representative's choice consistent with regional guidelines;

(6) emergency, life threatening, non-injury transports shall be to the nearest facility that can provide evaluation and stabilization appropriate to the patient's condition;

(7) transports or transfers from a pre-hospital setting that occur as a result of a physician order shall be transported to the facility ordered by the physician except when:

(A) the patient or the patient's guardian chooses a different facility,

(B) the patient condition changes, and going to a different facility is in the best interest of the patient,

(C) the receiving facility's ability to receive that patient has changed,

(D) the facility is not within a reasonable range of the agency,

(E) the Trauma Referral Center requests a change in destination or presents reasonable options for a destination.

(h) In counties with populations of 300,000 or more and their contiguous communities, injury related transports shall be directed and coordinated by the trauma transfer and referral center for the region.

(1) All air ambulance services providing pre-hospital emergency services in these regions shall contact the trauma transfer and referral center at intervals determined by the Department to register the transport of an injured patient to a hospital.

(2) All air ambulance services transporting injured patients on a pre-hospital basis from areas outside these regions to hospitals inside these regions shall contact the trauma transfer and referral center in a timely manner to advise the center of the patient transfer. The center shall maintain a record of the transfer for

regional continuous quality improvement activities.

(3) All air ambulance services transferring injured patients from hospitals outside these regions to hospitals inside these regions shall contact the trauma transfer and referral center in a timely manner to advise the center of the patient transfer. The center shall maintain a record of the transfer for regional continuous quality improvement activities.

(i) Each air ambulance service shall ensure that the care of each patient is transferred appropriately to the receiving facility's licensed staff. The transfer of care will include verbal and written reports summarizing the assessment and treatment of the patient by the ambulance service.

(j) All air ambulance services are required to participate in the regional and statewide systems, established through statute administered by the Department, to ensure patients are transported to the appropriate facility in a timely manner to receive appropriate care.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-13-21. Air ambulance service records and files

(a) All required records for licensure will be maintained for a minimum of three years.

(b) Each licensed air ambulance service shall maintain electronic or paper records about the operation, maintenance, and such other required documents at the business office. These files shall be available for review by the Department during normal work hours. Files which shall be maintained include the following:

(1) At the time a patient is transported to a receiving facility, the following patient care records will be, at a minimum, provided to the facility staff members at the time the patient(s) are accepted:

(A) personal information such as name, date of birth, and address,

(B) patient assessment with medical history,

(C) medical interventions and patient responses to interventions,

(D) any known allergies,

(E) other information from the medical history that would impact the patient outcomes if not immediately provided.

(2) A signature of the receiving facility health care staff member will be obtained to show the above information and the patient were received.

(3) A complete copy of the patient care report shall be sent to the receiving facility within twenty-four (24) hours of the hospital receiving the patient.

(4) Completed patient care reports shall contain demographic, administrative, legal, medical, community health, and patient care information required by the Department through the OKEMSIS Data Dictionary.

(5) All run reports and patient care information shall be considered confidential.

(c) All licensed air ambulance agencies shall maintain electronic or paper records on the maintenance and regular inspections of each vehicle. Each vehicle must be inspected and a checklist completed after each call or on a daily basis, whichever is less frequent.

(d) All licensed air ambulance agencies shall maintain a licensure or credential file for licensed and certified emergency medical personnel employed by or associated with the service to include:

- (1) Oklahoma license and certification,
- (2) Basic Life Support certification, or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association standards and approved by the medical director,
- (3) Advanced Cardiac Life Support certification, or documentation of BLS cognitive objectives and psychomotor skills that meets or exceeds American Heart Association Standards and approved by the medical director, as applicable for advanced licensure levels,
- (4) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent,
- (5) contain a list or other credentialing document that defines or describes the medical director authorized procedures, equipment, and medications for each certified or licensed member employed or associated with the agency,
- (6) a copy of the medical director credentials will be maintained at the agency.

(e) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel records to ensure confidentiality of records that do not pertain to the documents relating to patient care.

(f) All licensed air ambulance agencies shall maintain:

- (1) copies of staffing patterns, schedules, or staffing reports which indicate the ambulance service is maintaining twenty four (24) hour coverage, at the highest level of license;
- (2) copies of in-service training and continuing education records;
- (3) copies of the air ambulance services:
 - (A) operational policies, guidelines, or employee handbook. The standard operating procedure or guideline manual will include list of the patient care equipment that is carried on any "Class E" unit(s);
 - (B) medical protocols; and
 - (C) OSHA and/or Department of Labor exposure plan, policies, or guidelines.
- (4) A log of each request for service received and/or initiated, to include the following:
 - (A) disposition of the request and the reason for declining the request, if applicable,
 - (B) the patient care report number,
 - (C) date of request,
 - (D) patient care report times as defined in the OKEMSIS Data Dictionary,
 - (E) location of the incident,

- (F) nature of the call;
- (5) Documentation that verifies an ongoing, physician-involved quality assurance program.
- (6) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.
- (g) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each licensed ambulance service. Reports of the EMS data standard shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the Department in writing.
- (h) Review and the disclosure of information contained in the ambulance service files shall be confidential except for information which pertains to the requirements for license, certification, or investigation issued by the Department.
- (i) Department representatives shall have prompt access to files, records, and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment, or property may result in summary suspension of licensure by the Commissioner of Health.
- (j) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.
- (k) A representative of the agency will be present during the record review.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-13-22. Air Ambulance Suspension, revocation, probation, or non-renewal of a licensee

- (a) The Department may suspend or revoke a license and/or fine or place on probation a license or licensee for the following:
 - (1) violations of any of the provision of the Oklahoma Statutes, the Act or this chapter;
 - (2) permitting, aiding, or abetting in any illegal act in connection with the ambulance service;
 - (3) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;
 - (4) placing a vehicle into service before it is properly inspected, approved, and permitted by the Department;
 - (5) failure to comply with a written order issued by the Department within the time frame specified by the Department;
 - (6) engaging in any act which is designed or intended to hinder, impede, or obstruct the investigation of any matter governed by the Act or by any lawful authority;
 - (7) an ambulance service who fails to renew their Oklahoma license within the time frame and other requirements as specified in these rules shall be considered an expired or lapsed licensee and therefore no longer licensed as an ambulance service in the

State of Oklahoma;

(8) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;

(9) offering, giving, or promising anything of value or benefit, as defined in Oklahoma Statutes or Department policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupations;

(10) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against, or inducement to, a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against, or inducement to, a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(11) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this Chapter.

(b) No person, company, governmental entity or trust authority may operate an ambulance service or emergency medical response agency except in accordance with the Act and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant in connection with a license application or an investigation conducted by the Department pursuant to this rule shall not:

(1) knowingly make a false statement of material fact;

(2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or

(3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the patient or potential users of the service.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

SUBCHAPTER 15. EMERGENCY MEDICAL RESPONSE AGENCY

310:641-15-1. Purpose

The purpose of this Subchapter is to:

- (1) incorporate the authorization, licensure, and minimum requirements for operating an emergency medical response agency, and
- (2) provide standards for the enforcement of the provisions of the Act and this Chapter.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-4. Issuance of a prehospital emergency medical response agency certification

- (a) The Department shall issue a pre-hospital emergency medical response agency certification to applicants that meet certification requirements.
- (b) The certificate shall be issued for the name and service area only.
- (c) The certificate is not transferable or assignable.
- (d) The initial license period shall expire the second June 30 following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.
- (e) The original, or a copy of the original certification, shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available, then the certificate shall be available to anyone requesting to see certification during regular business hours.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-5. Issuance of an event standby emergency medical response agency certification

- (a) The Department shall issue an event standby emergency medical response agency certification to applicants that meet certification requirements:
- (b) The certificate shall be issued for the name only.

- (c) The certificate is not transferable or assignable.
- (d) The initial certification period shall expire the second June 30 following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.
- (e) The original or a copy of the original certification shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available then the certificate or a copy shall be available to anyone requesting to see the certification during regular business hours.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-15-6. Renewal of an emergency medical response agency certificate

(a) Each agency shall complete a renewal form in a manner prescribed by the Department. The Department shall send to all certified emergency medical response agency a "survey/renewal" form in December of each year.

(1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be provided by the Department to each certificate holder due to renew.

(2) A non-refundable fee for the renewal of any emergency medical response agency certification shall be twenty (\$20.00) dollars.

(b) An emergency medical response agency certification shall be renewed if:

- (1) the agency has applied for a renewal;
- (2) the agency has no outstanding deficiencies in need of correction as may be identified during inspection of the agency;
- (3) the fee has been received by the Department;
- (4) the safety, need, and well-being of the public and general populace is best served to by the renewal of the agency;
- (5) the availability of personnel, equipment, and the financial ability of the agency to meet the minimum standards of the Act and this Chapter;
- (6) A certificate that is not renewed by midnight June 30 of the expiration year shall be considered non- renewed.
- (7) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.
- (8) Within the grace period the agency may continue to operate without penalty.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-7. Denial for an initial emergency medical response agency application

(a) An application may be denied for any of the following reasons:

- (1) A felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to supervise the service; to

include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service;

(2) Falsification of Department required information;

(3) Ownership, management, or administration by principals of an entity whose license has been revoked; and

(4) certification may not be in the best interest of the public as determined by the Department.

(b) An applicant shall be notified in writing within sixty (60) days, from the date the Department receives a complete application, of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a license or renewal shall be given if applicable. A license application may be re-submitted, but each resubmission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-8. Denial of a certificate being renewed

(a) A license application for renewal may be denied for any of the following:

(1) the failure to meet standards set forth by statute or rule,

(2) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to manage the service to include, but not limited to fraud, grand larceny, child abuse, sexual offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of a service;

(3) outstanding notice of violation that has not been addressed with an acceptable plan of correction;

(4) insufficient financial resources;

(5) falsification of Department required information;

(6) ownership, management, or administration by principals of an entity whose certification has been revoked;

(7) re-certification may not be in the best interest of the public as determined by the Department;

(8) revocation or denial of a governmental letter of support as required for initial certification;

(b) An applicant shall be notified in writing within sixty (60) days, from the date the Department receives a complete renewal application, of the granting or denial of a renewed license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a renewed license shall be given if applicable. A license application may be resubmitted, but each re-submission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-9. Severance of action, amendment, and re-instatement

- (a) The issuance or renewal of a certificate after notice of a violation(s) has been given shall not constitute a waiver by the Department of its power to rely on the violation(s) for subsequent license revocation or other enforcement action which may arise out of the notice of violation(s).
- (b) Any change in the name of the service, level, service area, addition of substation, or services provided service shall necessitate an application to amend the certification.
- (c) The addition of a substation that expands the service area shall comply with initial certification requirements such as letters of support and maps of the proposed service area.
- (d) Changing or moving the location of a substation requires written notification to the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-10. Emergency medical response agency personnel

- (a) Emergency medical response agencies shall have at least one person of the responding personnel providing patient care certified or licensed by the Department.
- (b) All drivers that operate emergency vehicles for an agency shall complete an emergency vehicle operator's course prior to emergency vehicle operations. Emergency vehicle operators shall complete an emergency vehicle operator's renewal course every two (2) years.
- (c) Only emergency personnel authorized by this Act, except for a physician, shall be utilized by any emergency medical response agency.
- (d) Agencies will maintain training records demonstrating competency in medical skills, patient handling, and emergency vehicle operations for all personnel employed or associated with the agency and utilized for patient care.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-15-11. Prehospital emergency medical response agency equipment

- (a) The tampering, modification, or removal of the manufacturer's expiration date is prohibited.
- (b) Certified agencies shall ensure that all, recalled, outdated, misbranded, adulterated, or deteriorated fluids, supplies, and medications are removed from the response vehicles immediately.
- (c) The unit checklist will establish the equipment, supplies, and medications for each unit. A list of the equipment, supplies, and medication will be included in the application. For medications this is to include the number, weight, and volume of the containers.
- (d) At a minimum, the following equipment and supplies will be present on for each emergency medical response:
 - (1) one (1) each adult, pediatric, and infant size bag-valve-mask resuscitators;

- (2) one (1) complete set of oropharyngeal airways, single wrapped for sanitation purposes;
 - (3) portable oxygen system with two (2) each oxygen masks in adult, pediatric, and infant sizes;
 - (4) two (2) adult nasal cannulas;
 - (5) portable suction device with age and size appropriate tubing and tips;
 - (6) one (1) bulb syringe with saline drops, sterile, in addition to any bulb syringes in an obstetric kit;
 - (7) instant cold packs;
 - (8) sterile dressing and bandages, to include:
 - (A) sterile burn sheets,
 - (B) sterile 4"x4" dressings,
 - (C) sterile 6"x8" or 8"x10" dressings,
 - (D) roller bandages, 2" or larger,
 - (E) rolls of tape (minimum of one (1) inch width),
 - (F) sterile occlusive dressings, 3" x 8" or larger,
 - (G) triangular bandages, and
 - (H) scissors;
 - (9) blood pressure cuff kit in adult, pediatric, and infant sizes;
 - (10) obstetrics kit;
 - (11) blankets;
 - (12) universal precaution kit for each person attending a patient;
 - (13) blood-glucose measurement equipment per medical direction and Department approval;
 - (14) AED with adult and pediatric capability;
 - (15) adult and pediatric upper and lower extremity splints;
 - (16) spinal immobilization equipment per medical control authorization;
 - (17) adult traction splint per medical control authorization and;
 - (18) patient care reports.
- (e) The agency will have the equipment to support the procedures and interventions detailed within the protocols as authorized by the medical director.
- (f) An electronic or paper copy of patient care protocols will be available to responding agency members.
- (g) All assessment and medical equipment utilized for patient care will be maintained in accordance with the manufacturer's guidelines. Documentation will be maintained at the agency showing the periodic tests, maintenance, and calibration are being conducted in accordance with manufacturer's requirements. Equipment shall include, but not be limited to suction devices, pulse oximetry, glucometers, end-tidal Co2 and capnography monitors, CPAP/BiPAP devices, ventilators, and blood pressure monitors.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-15-12. Event standby emergency medical response agency equipment

- (a) The event standby agency will be equipped with the minimum equipment described for pre-hospital emergency medical response agencies.
- (b) In the event the medical control physician does not approve procedures or interventions requiring this equipment, the minimum equipment list may be modified for the applicant.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-13. Emergency medical response agency medical control requirement

- (a) Each certified emergency medical response agency certified in Oklahoma shall have a physician medical director who is a fully licensed, non-restricted Doctor of Medicine (M.D.) or a Doctor of Osteopathy (D.O.) by the State of Oklahoma.
- (b) Certified emergency medical response agencies will have a plan or policy that describes how the agency will address a sudden lapse of medical direction, such as a back-up medical director, that is used to ensure coverage when the medical director is not available.
 - (1) The Department shall be notified the next business day of any lapse or change of medical direction by the respective agency. If the agency has made arrangements for a back-up medical director or an immediate replacement, then a lapse has not occurred.
 - (2) In the event of a lapse in medical direction, in that, there is no a medical director providing the authority for medical interventions for an agency's certified and licensed personnel, the agency will, pursuant to 63 O.S. Section 1-2506 relating to the medical authority to perform medical procedures:
 - (A) may respond to a request for service to provide first aid, CPR, and the use of an AED, and
 - (B) implement mutual aid plans to ensure requests for service receive responses until the agency is able to implement their plan or policy for substitution or back-up medical direction.
- (c) The medical director shall:
 - (1) be accessible, knowledgeable, and actively involved in quality assurance and the educational activities of the agency's personnel, and supervise a quality assurance (QA) program by either direct involvement or appropriate designation and surveillance of the responsible designee(s). The appointment of a designee does not absolve the medical director of their responsibility of providing oversight.
 - (2) Provide a written statement to the Department which includes:
 - (A) an agreement to provide medical direction and establish treatment protocols and the agency specific scope of practice for all certified and licensed agency personnel;

(B) the physician's primary practice address or home address if the physician does not have a practice and email address(es);

(C) An agency that only provides care within the Basic Life Support scope of practice, the medical director shall:

- (i) hold a valid, non-restricted medical license,
- (ii) not be restricted from obtaining or maintaining OBNDD and DEA registrations for controlled dangerous substances,
- (iii) demonstrate appropriate training and experience in adult and pediatric emergency care. Demonstrated training and experience may include appropriate board training, basic life support, or pre-hospital trauma life support courses.

(D) An agency that provides Intermediate, Advanced, or Paramedic level interventions by State approved protocols, the medical director shall:

- (i) hold a valid, non-restricted medical license,
- (ii) maintain current OBNDD and DEA registrations for controlled dangerous substances,
- (iii) demonstrate appropriate training and competence in adult and pediatric emergency medical services, to include pediatric and adult trauma. Demonstrated training and experience may include completed residency training as well as relevant work experience with current clinical competency.

(E) demonstrate appropriate training and experience in the types of patients the service will be treating.

Demonstrated training may include board training and appropriate certifications or supplemental training;

(F) development of on-line or off-line protocols with medication formulary for patient care techniques.

Protocols shall include medication to be used, treatment modalities for patient care procedures, and appropriate security procedures for controlled dangerous substances;

(3) Attend or demonstrate participation in medical director training provided by the Department subject to the availability of funding. Verification of attendance or participation will be maintained at the agency.

(4) Attend or demonstrate participation in one hour of continuing education specific to providing medical oversight to EMS providers and agencies each year, provided by the Department subject to the availability of funding.

310:641-15-14. Emergency medical response agency operational protocols

- (a) Emergency medical response agencies are not licensed or permitted to transport patients.
- (b) Emergency medical response agencies do not have a duty to act, as defined within the Act.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-15. Emergency medical response agency sanitation requirements

(a) The following shall apply regarding sanitation standards for each emergency medical response agency's equipment, facilities, vehicles, and personnel:

- (1) the interior of the vehicle and the equipment within the vehicle shall be sanitary and maintained in good working order when in service;
 - (2) the exterior of the vehicle shall be clean and maintained in good working order to ensure the vehicle can operate safely and in accordance with applicable sections of Title 47 of the Oklahoma Statutes;
 - (3) clean linen, blankets, washcloths, and hand-towels shall be stored in a manner that is free of dirt and debris,
 - (4) medical supplies and equipment shall be stored in a safe and secure manner.
- (b) soiled linen shall be placed in a closed container which may include plastic bags with ties. Any linen which is suspected of being contaminated with blood borne pathogens or other infectious disease shall be placed in a properly marked closed container for cleaning or disposal;
- (c) contaminated disposable supplies shall be placed in properly marked appropriately marked or designated containers in a manner that deters accidental exposure.
- (d) Implements inserted into the patient's nose or mouth shall be single-service wrapped and properly stored and handled. When multi-use items are utilized, the local health care facilities should be consulted for instructions in sanitation and handling of such items.
- (e) Personnel shall be clean, especially hands and fingernails, and well groomed. Clothing worn by personnel shall be clean. The licensee shall provide in each vehicle a means of hand decontamination for the attendants.
- (f) Oxygen humidifier(s) shall be single use;
- (g) All medications, supplies and sterile equipment with expiration dates shall be current.
- (h) Expired medications, supplies, and sterile equipment shall be discarded appropriately.
- (i) Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited.
- (j) The station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, and free of safety and health hazards;
- (k) All storage spaces used for storage of linens, equipment, medical supplies, and other supplies at the base station shall be kept clean;

(l) Agency vehicles and facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas consistent with the provisions of 310:641-1-4.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-15-16. Emergency medical response agency storage of intravenous solutions

- (a) Medication and vascular fluid shall be stored in a manner that complies with manufacturer and FDA standards.
- (b) Each agency shall maintain medications in a manner that deters theft and diversion of all medications.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-17. Emergency medical response agency authority to carry controlled substances on a vehicle

- (a) An emergency medical response agency, with personnel licensed to utilize such, is hereby authorized to carry a limited supply of controlled substances, secured and stored in a manner that is compliant with State and Federal statutes and regulations. The utilization, procurement, and accountability of such drugs shall be supervised by medical control for the service. An inventory shall be kept and signed according to the requirement of the Oklahoma Bureau of Narcotics and Dangerous Drugs (OBNDD) and the United States Department of Justice Drug Enforcement Administration (DEA). Each responsible medical director shall maintain a copy of their OBNDD certificate to the Department for this purpose.
- (b) Any loss or deficiency which occurs in the utilization, procurement, or accountability of controlled substances shall be reported the OBNDD and DEA through their procedures and requirements, and to the Department, within ten (10) working days.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-18. Emergency medical response agency inspections

- (a) The Department shall conduct unannounced inspections of every certified emergency medical response agency. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this sub chapter.
- (b) All inspection reports will be sent to the agency director, certificate owner, and medical director.
- (c) A representative of the agency will be with the Department employee during the inspection.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-19. Emergency medical response agency notice of violation

- (a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the agency an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.
- (b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the agency shall submit to the Department a written demonstration of compliance and/or plan of correction.
- (c) A plan of correction shall include at least the following:
- (1) When the correction was or will be completed;
 - (2) How the correction was or will be made;
 - (3) What measures will prevent a recurrence; and
 - (4) Who will be accountable to ensure future compliance.
- (d) The Department shall ensure that the agency is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.
- (e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-20. Emergency medical services regions

- (a) Regions established pursuant to Section 1-2503 (21) and (22) of the Act, shall not be recognized without Department approval for this purpose. Pursuant to Title 74, O.S., Section 1006, of the "Interlocal Cooperation Act" (relating to Approval of Agreements), the Department shall exercise authority granted to approve or disapprove all matters within its jurisdiction, in addition to and in substitution for the requirement of submission to and approval by the Attorney General.
- (b) The Department shall recognize regions which comply with the law and this Chapter.
- (c) Any regional emergency medical services system shall provide the name of the regional medical director, copies of regional standards, rules, and transport protocols established for the regional emergency medical services system to the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-21. Triage, transport, and transfer protocols

- (a) Certified emergency medical response agencies, as part of their protocols, will include:
- (1) specific prioritization definitions for medical and trauma patients as defined in regional plans for statewide systems,

- (2) A process for making appropriate transportation choices to include ground and air ambulance requests,
- (3) a quality assurance plan or policy.
- (b) Emergency medical response agencies will utilize the regional medical and trauma plans for patient prioritization and implementation of transport decisions.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-15-22. Emergency medical response agency records and files

- (a) All required records for certification will be maintained for a minimum of three (3) years.
- (b) Each certified emergency medical response agency shall maintain electronic or paper records about the operation, maintenance, and such other required documents at the business office. These files shall be available for review by the Department during normal work hours. Files which shall be maintained include the following:
 - (1) Patient care records: At the time a patient care is transferred to an ambulance service, the following information will be, at a minimum, provided to the ambulance staff members at the time the patient(s) are accepted:
 - (A) personal information such as name, date of birth, and address, if known;
 - (B) patient assessment with history;
 - (C) medical interventions and patient responses to interventions,
 - (D) any known allergies; and
 - (E) other information from the medical history that would impact the patient outcome if not immediately provided.
 - (2) Certified emergency medical response agency patient care reports shall contain demographic, legal, medical, community health, and patient care information as detailed in the OKEMSIS data dictionary.
 - (3) All run reports and patient care information shall be considered confidential.
- (c) All certified emergency medical response agencies shall:
 - (1) maintain electronic or paper records on the maintenance and regular inspections of each vehicle.
 - (A) Each vehicle must be inspected and a detailed equipment checklist completed after each call or on a daily basis, whichever is less frequent.
 - (B) documentation that shows routine vehicle maintenance for each vehicle as required by vehicle manufacture recommendations,
 - (C) Event standby agencies will complete a checklist of equipment prior to scheduled events or duties.
 - (2) maintain a licensure or credential file for licensed and certified emergency medical personnel employed by or associated with the service to include:

- (3) Oklahoma license and certification,
 - (4) Basic Life Support certification, or documentation of BLS cognitive objectives and psycho-motor skills that meets or exceeds American Heart Association standards, and approved by the medical director;
 - (5) Advanced Cardiac Life Support certification, or documentation of BLS cognitive objectives and psycho motor skills that meets or exceeds American Heart Association Standards if applicable for licensure, and approved by the medical director;
 - (6) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent,
 - (7) verification of an emergency vehicle operations course or other agency approved defensive driving course,
 - (8) contain a list or other credentialing document that defines or describes the medical director authorized procedures, equipment, and medications for each certified or licensed member employed or associated with the agency,
 - (9) a copy of the medical director credentials will be maintained at the agency.
- (d) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel records to ensure confidentiality of records that do not pertain to the documents relating to patient care.
- (e) Copies of in-service training and continuing education records.
- (f) Copies of the emergency medical response agency's:
- (1) operational policies, guidelines, or employee handbook;
 - (2) medical protocols;
 - (3) OSHA and/or Department of Labor exposure plan, policies, or guidelines.
- (g) A log of each request for service received and/or initiated to include the:
- (1) disposition of the request and the reason for declining the request, if applicable,
 - (2) the patient care report number,
 - (3) date of request,
 - (4) patient care report times,
 - (5) location of the incident,
 - (6) transporting ambulance agency name, and
 - (7) nature of the call;
- (h) Documentation that verifies an ongoing, physician involved quality assurance program.
- (i) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.
- (j) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each emergency medical response agency. Reports shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the

Department in writing.

(k) Review and the disclosure of information contained in the certified agency files shall be confidential except for information which pertains to the requirements for license, certification, or investigation issued by the Department.

(l) Department representatives shall have prompt access to files, records, and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment, or property may result in summary suspension of licensure by the Commissioner of Health.

(m) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.

(n) A representative of the agency will be present during the record review.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 39 Ok Reg 1338, eff 9-11-22]

310:641-15-23. Suspension, revocation, probation, or non-renewal of a certification

(a) The Department may suspend or revoke a certification and/or fine or place on probation a certification or certificate holder for the following:

- (1) violations of any of the provision of the Oklahoma Statutes, the Act or this chapter;
- (2) permitting, aiding or abetting in any illegal act in connection with the ambulance service;
- (3) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;
- (4) failure to comply with a written order issued by the Department within the time frame specified by the Department;
- (5) engaging in any act which is designed or intended to hinder, impede, or obstruct the investigation of any matter governed by the Act or by any lawful authority;
- (6) an emergency medical response agency that fails to renew their Oklahoma certification within the time frame and other requirements as specified in these rules shall be considered an expired or lapsed licensee and therefore no longer certified as an service in the State of Oklahoma;
- (7) a misleading, deceptive, or false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
- (8) offering, giving, promising anything of value or benefit, as defined in Oklahoma Statutes or Department Policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupations;
- (9) interference with an investigation disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary

proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(10) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this Chapter.

(b) No person, company, governmental entity or trust authority may operate an emergency medical response agency except in accordance with the Act and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant, in connection with a license application or an investigation conducted by the Department pursuant to this rule shall not:

(1) knowingly make a false statement of material fact;

(2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or

(3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the patient or potential users of the service.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

SUBCHAPTER 17. STRETCHER VAN SERVICE

310:641-17-1. Purpose

(a) This Subchapter incorporates the authorization, licensure, and minimum requirements for operating a Stretcher Van Service that transports passengers that are medically stable, but need to be transported in a reclining position, and

(b) provide standards for the enforcement of the provisions of the Act and this Chapter.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-2. Stretcher van service license required [REVOKED]

[Source: Amended and renumbered from 310:641-3-48 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20 ; Revoked at 39 Ok Reg 1338, eff 9-11-22]

310:641-17-3. Issuance of a stretcher van service license

- (a) The Department shall have sole discretion to approve or deny an application for a stretcher van service license based on the ability of the applicant to meet the requirements of this Chapter.
- (b) A license may be issued for a stretcher van service.
- (c) The license shall be issued only for the name, service area, and service provided. The license is not transferable or assignable.
- (d) The initial license period shall expire the second June 30th; following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.
- (e) The original, or a copy of the original, license shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available, then the license shall be available to anyone requesting to see the license; during regular business hours.
- (f) The stretcher van service is limited to the transportation of stable passengers that can only be transported in a reclining position. As such, the medical interventions the staff members can provide are that of first aid, BLS CPR, and AED interventions. Agency supplied medications are prohibited for this license type.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-4. Renewal of a stretcher van license

- (a) The Department shall provide to all licensed stretcher van services a "Survey/Renewal Form" in December each year. This form shall be considered and utilized as a renewal application if due. The "Survey/Renewal Form" along with proof of the required types of insurance shall be returned to the Department by January 31st each year.
 - (1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be mailed by the Department to each licensee in need of renewal.
 - (2) A non-refundable fee for the renewal of a stretcher van service license shall be one hundred dollars (\$100.00), fifty dollars (\$50.00) for each substation, plus twenty dollars (\$20.00) for each vehicle in excess of two (2).
 - (3) A stretcher van service license shall be renewed if:
 - (A) the service has applied for such renewal;
 - (B) the service has no outstanding deficiencies or is in need of correction as may be identified during inspection of the service, and;
 - (C) the proper fee has been received by the Department.
- (b) A stretcher van service license; if not renewed by midnight June 30 of the expiration year, shall be considered non-renewed.
 - (1) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.

(2) Thereafter a new application shall be required for the continuation of any such license, and the applicant shall be subject to initial application procedures. An extension may be granted by the Department for the purpose of renewal, subject to a determination by the Department of the following:

- (A) the safety, need, and well-being of the public and general populace to be served by the stretcher van service;
- (B) the availability of personnel, equipment, and the financial ability of the applicant to meet the minimum standards of emergency medical services law;
- (C) the number of estimated runs to be made by the stretcher van service;
- (D) the desire of the community(ies) to be served.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-5. Denial for an initial stretcher van license

(a) A stretcher van license application may be denied for any of the following reasons:

- (1) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation or the person designated to supervise the service; to include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service;
- (2) falsification of Department required information;
- (3) ownership, management, or administration by principals of an entity whose license has been revoked; and
- (4) licensure or re-licensure may not be in the best interest of the public as determined by the Department.

(b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete application of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted and indications of the corrective action necessary to obtain a license or renewal shall be given, if applicable. A license application may be re-submitted, but each resubmission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-6. Denial of a license being renewed

(a) A license application for renewal may be denied for any of the following:

- (1) the failure to meet standards set forth by statute or rule;
- (2) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation, or the person designated to manage the service to include, but not limited to fraud, grand larceny, child abuse,

sexual offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of a service;

(3) outstanding notice of violation that has not been addressed with an acceptable plan of correction;

(4) insufficient financial resources;

(5) falsification of Department required information;

(6) ownership, management, or administration by principles of an entity whose certification has been revoked;

(7) re-certification may not be in the best interest of the public as determined by the Department;

(8) revocation or denial of a governmental letter of support as required for initial certification;

(b) An applicant shall be notified in writing within sixty (60) days, from the date the Department receives a complete renewal application, of the granting or denial of a renewed license. In the event of a denial, the specific reason(s) shall be noted, and an indication of the corrective action necessary to obtain a renewed license shall be given if applicable. A license application may be resubmitted, but each re-submission shall be considered an initial application.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-17-7. Severance of action, amendment, and re-instatement

(a) The issuance or renewal of a license after notice of a violation(s) has been given shall not constitute a waiver by the Department of its power to rely on the violation(s) for subsequent license revocation or other enforcement action which may arise out of the notice of violation(s).

(b) Any change in the name of the service, level, service area, or the addition of substation, shall necessitate an application to amend the license and shall be accompanied by a fee of one hundred dollars (\$100.00).

(c) Changing or moving the location of a substation requires written notification to the Department.

(d) If an existing license is placed on probation or suspension, a fee of one hundred (\$100.00) dollars, in addition to any other provision of the action, shall be submitted prior to re-instatement of the license to full privilege.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-17-8. Stretcher van staffing

(a) Each stretcher van service shall be staffed by a minimum of two (2) persons.

(b) The passenger shall be accompanied by a minimum of:

(1) an attendant that has a current Oklahoma Emergency Medical Responder certification and maintains current BLS certification and

- (2) the driver shall hold a valid Oklahoma driver's license, possess a current BLS certification, and have completed an agency defensive driving course that includes driving a vehicle similar to a stretcher van.
- (c) Under no circumstance during the transport of a stretcher van passenger shall the attendant be less than an Oklahoma certified Emergency Medical Responder.
- (d) Each stretcher van service shall provide to each attendant and driver an orientation designed to familiarize these individuals with the local and regional emergency medical system and other Oklahoma public safety resources.
- (e) Agencies will maintain training records demonstrating competency in emergency procedures, passenger handling, and vehicle operations for all personnel utilized by the agency prior to passenger contact or vehicle operations.

[Source: Amended and renumbered from 310:641-3-48.4 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-9. Stretcher van vehicles

- (a) A stretcher van vehicle may not be permitted by the Department prior to the submission and approval of all required documentation, fees, and a Department inspection.
- (b) Authorized stretcher van vehicles of licensed services shall be in good mechanical and serviceable condition at all times, so as to not be hazardous to the passenger(s) or crewmembers. If, in the determination of the Department, a vehicle does not meet this requirement, it may be removed from service until repairs are made.
- (c) Authorized stretcher van vehicles of licensed services shall be tested for interior carbon monoxide, in a manner acceptable to the Department. Carbon monoxide levels of more than ten parts per million (10ppm) shall be considered in excess and shall render the vehicle "out of compliance". Vehicles shall be removed from service if carbon monoxide levels exceed fifty parts per million (50ppm) and until repairs are made to reduce the amounts of carbon monoxide below ten parts per million (10ppm).
- (d) A class "S" permit shall be affixed to a vehicle in compliance and utilized as a stretcher van vehicle.
- (e) Stretcher van vehicles shall place a permit or inspection decal affixed by the Department. These decals shall be placed in the driver side rear window unless it is impossible or impractical to place in this area.
- (f) Stretcher van vehicles are not ambulances, and may not be authorized as emergency vehicles within Title 47, relating to definitions of emergency vehicles.
- (g) Violations that may justify immediate removal of a vehicle permit include:
 - (1) inadequate sanitation, including the presence of contamination by blood and or bodily fluids,
 - (2) inoperable heater or air conditioner as detailed within the vehicle manufacturing standards and specifications,
 - (3) inoperable AED,

- (4) tires that do not meet Oklahoma Statutes Title 47, Chapter 12 requirements,
 - (5) carbon monoxide levels greater than fifty (50) parts per million,
 - (6) lapse of vehicle liability insurance,
 - (7) lapse of worker compensation insurance,
 - (8) inability to affix a class S" permit to the vehicle,
 - (9) vehicle that does not comply with statutory safety equipment found in Title 47.
 - (10) If such violation is not or cannot be corrected immediately, any affected vehicle shall be removed from service and the ambulance permit shall be removed until such time the vehicle is compliant and has been re-inspected and permitted by the Department.
- (h) The stretcher van vehicle must utilize a stretcher or gurney and locking system that meets or manufactures standards
- (i) Stretcher van vehicles purchased after the effective date of these amendments shall comply with the following:
- (1) a mounted seat with seatbelts for the passenger attendant in the passenger compartment or area of the vehicle,
 - (2) mounted cabinets for the purpose of storing supplies and equipment,
 - (3) mounted and rear loading lights,
 - (4) the capability to contact 911 should an emergency arise while transporting a passenger, and
 - (5) display exterior markings identifying the vehicle as a stretcher van and the business name in six (6) inch letters in a contrasting color on the rear and sides of the vehicle,
 - (6) brackets or other retaining system for securing oxygen cylinders on the gurney and within the stretcher van, and
 - (7) modifications made to stretcher van vehicles after initial testing may require the vehicle to undergo new AMD 004, 012, and/or 013 standard testing.
- (j) A stretcher van shall meet Ambulance Manufacturers Division (AMD) Standards 004, 012, and 013, and shall pass corresponding safety tests. Stretcher vans must not have functioning emergency lights or sirens.
- (k) Documentation of vehicle safety testing or manufacturer certification must be maintained in agency files.

[Source: Amended and renumbered from 310:641-3-48.2 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-10. Equipment for stretcher van vehicles

Each stretcher van vehicle shall carry, at a minimum the following:

- (1) body substance isolation kits with gowns, gloves, eye protection, and masks;
- (2) latex or equivalent gloves separate from body substance isolation kits;
- (3) extra blankets, sheets, pillow cases;
- (4) two (2) five (5) pound fire extinguishers, secured, with one (1) accessible to the driver and one (1) accessible to the passenger

attendant;

(5) one (1) elevating gurney with locking equipment that complies with AMD 004;

(6) an AED with adult and pediatric capabilities if the agency transports pediatric passengers;

(7) if the agency transports children, then the agency is required to provide a child restraint system;

(8) portable and spare oxygen cylinders shall be appropriately secured;

(9) one (1) stretcher mount portable oxygen securing device; and

(10) Stretcher van agencies may carry and provide oxygen and utilize equipment necessary for the provision of oxygen as prescribed by the physician, excluding agency supplied ventilator equipment.

[Source: Amended and renumbered from 310:641-3-48.3 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-11. Stretcher van medical control

(a) As defined in 63 O.S. § 1-2503, Stretcher van agencies may carry and provide oxygen and utilize any equipment necessary for the provision of oxygen.

(b) As defined in 63 O.S. § 1-2503, Stretcher van passengers transported in or by Stretcher vans are to be medically stable, non-emergent, and do not require medical monitoring equipment or assistance during transport except oxygen.

(c) As defined in 63 O.S. § 1-2503, all passengers transported by stretcher vans must be screened by a certified medical dispatching protocol approved by the Department.

(d) Passengers that will continue oxygen during their Stretcher van transport will need to have a prescription or physician order for oxygen. This physician order or prescription completes the requirement for an agency specific medical director or medical control. This physician order completes the requirement for certified and licensed agencies and personnel to have medical control as defined in 63 O.S. § 1-2503.

[Source: Amended and renumbered from 310:641-3-48.5 at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-12. Sanitation requirements

(a) The following shall apply regarding sanitation standards for all stretcher van services facilities, vehicles, and personnel:

(1) the interior of the vehicle and the equipment within the vehicle shall be sanitary and maintained in good working order at all times;

(2) the exterior of the vehicle shall be clean and maintained in good working order to ensure the vehicle can operate safely and in accordance with applicable sections of Title 47 of the Oklahoma Statutes;

(3) linen shall be changed after each passenger is transported, and the used linen will be bagged and stored in an outside or

separate compartment;

(4) clean linen, blankets, washcloths, and hand-towels shall be stored in a closed interior cabinet free of dirt and debris;

(5) freshly laundered linen or disposable linen shall be used on the cots and pillows and changed between passenger;

(6) pillows and mattresses shall be kept clean and in good repair and any repairs made to pillows, mattresses, and padded seats shall be permanent;

(7) soiled linen shall be placed in a container that deters accidental exposure. Any linen which is suspected of being contaminated with bodily fluids or other potentially hazardous infectious waste shall be placed in an appropriately marked closed container for disposal;

(8) contaminated disposable supplies shall be placed in appropriately marked or designated containers in a manner that deters accidental exposure.

(9) exterior and interior surfaces of vehicles shall be cleaned routinely;

(10) blankets and hand towels used in any vehicle shall be clean;

(11) when a vehicle has been utilized to transport a passenger(s) known to the operator to have a communicable disease, the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water and appropriate disinfectant. The vehicle should be placed "out of service" until a thorough cleansing is conducted;

(12) all storage spaces used for storage of linens, equipment, medical supplies and other supplies at the base station shall be kept clean;

(13) personnel shall:

(A) be clean, especially hands and fingernails, and well groomed;

(B) clothing worn by personnel shall be clean;

(C) while on duty, employees shall wear an identifiable uniform or agency specific photo identification;

(D) The licensee shall provide in each vehicle a means of hand washing for the attendants;

(14) expired supplies and equipment shall be discarded appropriately. Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited; and

(15) the station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, and free of safety and health hazards.

(b) Stretcher van vehicles and service facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas consistent with the provisions of 310:641-1-4 (c).

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-13. Inspections

- (a) The Department shall conduct unannounced inspections of every licensed stretcher van service. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this subchapter.
- (b) All inspection reports will be sent to the agency director and license owner.
- (c) A representative of the agency will be with the Department employee during the inspection.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-14. Stretcher van notice of violation

- (a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the agency an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.
- (b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the agency shall submit to the Department a written demonstration of compliance and/or plan of correction.
- (c) A plan of correction shall include at least the following:
 - (1) When the correction was or will be completed;
 - (2) How the correction was or will be made;
 - (3) What measures will prevent a recurrence; and
 - (4) Who will be accountable to ensure future compliance.
- (d) The Department shall ensure that the agency is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.
- (e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-15. Emergency medical services regions

- (a) Regions established pursuant to 63 O.S. Section 1-2503 (21) and (22) shall not be recognized without Department approval for this purpose. Pursuant to Title 74 O.S. Section 1006, of the "Interlocal Cooperation Act" (relating to Approval of Agreements), the Department shall exercise authority granted to approve or disapprove all matters within its jurisdiction, in addition to and in substitution for the requirement of submission to and approval by the Attorney General.
- (b) The Department shall recognize regions which comply with the law and this Chapter.

(c) Any regional emergency medical services system shall provide the name of the regional medical director, copies of regional standards, rules, and transport protocols established for the regional emergency medical services system to the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16]

310:641-17-16. Operational protocols

(a) Stretcher van vehicles are to be used for stretcher van passengers only.

(1) Emergency transfers are prohibited.

(2) Stretcher vans are prohibited from conducting passenger transfers or providing transportation from the pre-hospital setting.

(b) Stretcher van services are limited to providing non-emergency transportation to medically stable, nonemergent individuals who need to be transported in a reclining position on a stretcher but who do not require any type of monitoring or administration of medical care.

(c) Passenger supplied medications for self-administration are permitted.

(d) Passenger attendants are limited to first aid, BLS CPR, and AED interventions, and the continuation of oxygen.

(e) Stretcher vans shall define the days and hours of operation in which transportation is provided.

(f) When a facility requests a stretcher van, the agency will provide an accurate estimated time of arrival and ensure the passenger needs will be able to be met for the service being requested within the scope of the licensure capabilities and capacity.

(g) Stretcher van transports may be made to and from any State or Federal Veteran Centers.

(h) When a stretcher vans passenger develops an emergency condition, the service shall:

(1) contact 911 or the local emergency number;

(2) proceed to the closest hospital or to a rendezvous point;

(3) provide appropriate first aid, BLS CPR, and AED interventions;
and

(4) submit an incident report to the Department within 48 hours of the incident;

(i) Mutual aid plan(s), regarding interfacility transports only, with licensed services shall be developed and placed in the agency files for inspection. Plans will be periodically reviewed to ensure accuracy and completeness. Licensed stretcher vans agencies shall provide mutual aid if the agency has the capability and if the requested activity is within the licensure requirements.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-17. Transfer protocols

(a) Passengers transported by stretcher van services may originate from a location other than a medical setting provided the passenger's condition is appropriately screened to ensure the passenger condition is

within the service's licensure capabilities.

(b) Transports that occur between medical facilities will be screened to ensure that any care and treatment at the sending facility has been discontinued prior to discharge or transport.

(c) Direct admits from a pre-hospital setting or admissions through the emergency room at a receiving facility are prohibited.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1423, eff 9-11-20]

310:641-17-18. Stretcher van service records and files

(a) All required records for licensure will be maintained for a minimum of three years.

(b) Each licensed stretcher van service shall maintain electronic or paper records about the operation, maintenance, and such other required documents at the business office. These files shall be available for review by the Department during normal work hours. Files which shall be maintained include the following:

(1) a record of each passenger transport to include, but not be limited to:

(A) personal information such as name, date of birth and address;

(B) contact information;

(C) originating location;

(D) destination;

(E) reason for the transport; and

(F) if oxygen was continued.

(2) Records shall be submitted to the Department as required.

(c) All passenger transport reports and information shall be considered as confidential.

(d) All stretcher van agencies shall maintain electronic or paper records on the maintenance and regular inspections of each vehicle.

(1) Each vehicle must be inspected and a detailed equipment checklist completed after each call or on a daily basis, whichever is less frequent.

(2) Documentation that shows routine vehicle maintenance for each vehicle as required by vehicle manufacture recommendations.

(e) All stretcher van agencies shall maintain a licensure or credential file for licensed and certified emergency medical personnel employed by or associated with the service to include:

(1) Oklahoma license and certification,

(2) Basic Life Support certification that meets or exceeds American Heart Association standards,

(3) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent,

(4) verification of an Emergency Vehicle Operations Course or other agency approved defensive driving course,

(f) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel

records to ensure confidentiality of records that do not pertain to the documents relating to the passenger.

(g) Copies of staffing patterns, schedules, or staffing reports.

(h) Copies of in-service training and continuing education records.

(i) Copies of the stretcher van service's:

(1) operational policies, guidelines, or employee handbook;

(2) OSHA and/or Department of Labor exposure plan, policies, or guidelines.

(j) A log of each request for service call received and/or initiated, to include the:

(1) disposition of the request and the reason for declining the request, if applicable;

(2) passenger care report number;

(3) date of request;

(4) location of the incident;

(5) nature of the call;

(6) time requested;

(7) time arrived;

(8) time departed;

(9) time at destination;

(10) time transport complete;

(11) unit number;

(12) staff member on transport; and

(13) medical screening documentation.

(k) Documentation that verifies an ongoing quality assurance program.

(l) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.

(m) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each licensed service as defined in the Act. Reports of the data standard shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the Department, in writing.

(n) Review and the disclosure of information contained in the stretcher van service files shall be confidential, except for information which pertains to the requirements for license, certification, or investigation issued by the Department.

(o) Department representatives shall have prompt access to files, records, and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment, or property may result in summary suspension of licensure by the Commissioner of Health.

(p) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.

(q) A representative of the agency will be present during the record review.

310:641-17-19. Sole source ordinances

(a) A stretcher van service which operates as a sole source provider established by EMS regions, ambulance service districts, or municipalities shall file with the Department a copy of the ordinance or regulation and a copy of the contract to operate as a sole source provider. This requirement shall be retroactive and includes all established sole source ordinances and resolutions.

(b) A stretcher van service which operates as a sole source provider for a "region" as established pursuant to the Oklahoma Interlocal Cooperation Act (Title 74, Section 1001, et seq.), shall file with the Department, a copy of the interlocal agreement and any ordinance or other regulations or contract or agreement established by the region for ambulance service provision.

(c) Violation of contracts established herein may be cause for enforcement action by the Department.

[Source: Added at 33 Ok Reg 1529, eff 9-11-16 ; Amended at 37 Ok Reg 1438, eff 9-11-20]

310:641-17-20. Suspension, revocation, probation, or non-renewal of a licensee

(a) The Department may suspend or revoke a license and/or fine or place on probation a license or licensee for the following:

- (1) violations of any of the provision of the Oklahoma Statutes, the Act, or this chapter;
- (2) permitting, aiding, or abetting in any illegal act in connection with the ambulance service;
- (3) conduct of any practice that is detrimental to the welfare of the passenger or potential users of the service;
- (4) responding to requests for service or completing transports that are not permitted by the type of license issued by the Department;
- (5) placing a vehicle into service before it is properly inspected, approved, and permitted by the Department;
- (6) failure to comply with a written order issued by the Department within the time frame specified by the Department;
- (7) engaging in any act which is designed or intended to hinder, impede, or obstruct the investigation of any matter governed by the Act or by any lawful authority;
- (8) a stretcher van service who fails to renew their Oklahoma license within the time frame and other requirements as specified in these rules shall be considered an expired or lapsed licensee and therefore no longer licensed as an ambulance service in the State of Oklahoma;
- (9) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
- (10) offering, giving, promising anything of value or benefit, as defined in Oklahoma Statutes or Department Policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local

law, rule, or ordinance governing the licensee's profession or occupations;

(11) interference with an investigation disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(12) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this Chapter.

(b) No person, company, governmental entity or trust authority may operate an ambulance service or emergency medical response agency except in accordance with the Act and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

(c) A license/certificate/permit holder or applicant in connection with a license application or an investigation conducted by the Department pursuant to this rule shall not:

(1) knowingly make a false statement of material fact;

(2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or

(3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation, the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the passenger or potential users of the service.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

CHAPTER 642. EMERGENCY RESPONSE SYSTEMS STABILIZATION AND IMPROVEMENT REVOLVING FUND

[Authority: 63 O.S., § 1-2512.1]

[Source: Codified 7-25-10]

SUBCHAPTER 1. GENERAL PROVISIONS

310:642-1-1. Purpose

The rules in this chapter are promulgated to:

- (1) Define the process for appropriate distribution of the Oklahoma Emergency Response Systems Stabilization and Improvement Revolving Fund (OERSSIRF) pursuant to 63 O.S. 2008, § 1-2512.1.
- (2) Provide standards for monitoring and enforcement of the provisions of the statute and these rules.

[Source: Added at 27 Ok Reg 697, eff 2-2-10 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2536, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-1-1 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:642-1-2. Program Description

The Oklahoma Emergency Response Systems Stabilization and Improvement Revolving Fund program is authorized by 63 O.S. 2008, § 1-2512.1. This law authorizes the Department to distribute funds for specified purposes. This Chapter interprets and implements the law authorizing the expenditure and distribution of funds by the Department. The Department's rules applicable to OERSSIRF expenditures shall be construed so as to consider only the OERSSIRF expenditures program administered by the Department.

[Source: Added at 27 Ok Reg 697, eff 2-2-10 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2536, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-1-2 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:642-1-3. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Applicant" means a qualified entity that submits a proposal for OERSSIRF funds.

"Department" means the Oklahoma State Department of Health.

"Emergency Medical Services System" means the network of emergency medical dispatchers (EMDs), certified emergency medical responders (EMRs), licensed emergency medical technicians (EMTs), certified emergency medical response agencies (EMRAs), licensed ambulance services, EMS medical directors, recognized training institutions, and communications centers that work together to deliver prompt, effective pre-hospital emergency medical care to the citizens of Oklahoma.

"Qualified entity" means any person or organization licensed, certified or approved by the Department as part of the EMS system, such as EMS personnel, certified emergency medical response agencies, licensed ambulance services, approved training institutions, approved emergency medical dispatch agencies, approved medical directors or any combination thereof, or their associations or sponsoring organizations, such as EMS districts, cities or counties that operate certified emergency response agencies or licensed ambulance services, or education systems operating EMS training institutions.

[Source: Added at 27 Ok Reg 697, eff 2-2-10 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2536, eff 7-25-10]

Editor's Note: ¹ *This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-1-3 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

SUBCHAPTER 3. PROPOSALS

310:642-3-1. Proposal review and disposition

(a) **General procedures.** The general procedure to be followed in the funding proposal, review and consideration process for financial assistance under the OERSSIRF program shall be as follows:

(1) **Pre-proposal conference.**

(A) All potential applicants are encouraged to participate in a pre-proposal conference. The Department shall summarize available funding, areas of need identified by any state assessment, and the status of previous OERSSIRF-funded projects.

(B) At the pre-proposal conference, preliminary matters may be generally discussed to familiarize all concerned

parties with the proposal period, requirements and procedures.

(2) **Proposal.** An applicant shall initiate proposal review and consideration by submission to the Department of applicant's proposal for financial assistance. A proposal shall be submitted by the qualified entity using forms described in 310:642-7-1 (relating to content of application), within the application period specified in OAC 310:642-3-2 (relating to deadlines for filing.)

(3) **Scoring and selection.** Eligible proposals shall be scored by the following process.

(A) A public meeting shall be scheduled for the purpose of scoring the eligible OERSSIRF proposals and awarding the funds that have been identified by the Department as the balance available for distribution on the last day of the preceding calendar year.

(i) A five (5) person review panel shall be appointed by the Commissioner.

(ii) Each appointed member will sign an attestation stating the appointee has no financial or other direct personal interest in any of the project proposals before the Department.

(B) The panel shall be seated and the reviews will begin under the direction of Department staff.

(i) Department staff will distribute proposals and scoring tools, collect the completed scoring tools for each proposal from the panelists, and tally the scores for each proposal at the end of the process.

(ii) The tallied scores shall be posted as soon as the totals are computed.

(C) The project with the highest score of total points shall be selected for funding, and the projected cost of the project deducted from the balance of the fund.

(D) The project with the next highest score of total points shall be selected for funding, and the cost deducted from the balance of the fund and continuing in like manner until insufficient funds remain to fund the next highest-scoring project.

(E) Any remaining funding shall be retained by the fund and distributed the next year.

(b) Criteria applicability.

(1) The criteria set forth in subsections (c) and (d) of this Section shall constitute guidelines and standards for proposal review and consideration by the Department.

(2) The criteria and standards set forth in subsections (c) and (d) of this Section shall be applied to each proposal without exception.

(c) General approval standards and criteria. The Department shall be under a continuing obligation to ensure the following standards and criteria are satisfied before any proposal is approved for funding and may determine compliance with these standards and criteria during preliminary review, scoring and selection or during a post selection

review:

(1) **Compliance with applicable law.** The proposed project must be found to be in compliance with 63 O.S. § 1-2512.1, and applicant must possess all necessary and incidental legal rights and privileges necessary to project commencement and operation.

(2) **Eligibility.** The applicant must be a qualified entity and the proposed project must be for a qualified purpose as defined in 63 O.S. § 1-2512.1.

(3) **Local need, support and priority.** The applicant shall demonstrate that the project is needed in the area to be served and is sufficient, as proposed, to serve such needs. Applicant shall demonstrate local support, interest and commitment in and to the proposed project.

(4) **Availability of other assistance.** Applicant shall demonstrate appropriate due diligence to ensure no alternative sources of revenue could be obtained and utilized for project financing.

(5) **Economic feasibility.** The applicant shall demonstrate the overall economic viability and feasibility of the project.

(6) **Project feasibility.** The applicant shall demonstrate that the project is feasible and cost effective.

(7) **Statewide needs and public interest.** The applicant shall demonstrate the relationship between the proposed project and the overall EMS development needs within the State of Oklahoma and show that proposed project will serve the public interest and welfare.

(d) **Criteria for denying a proposal.** The Department may deny a proposal for OERSSIRF funding for any of the following reasons:

(1) The applicant is not an eligible entity.

(2) The project does not serve the goals of 63 O.S. § 1-2512.1.

(3) Insufficient availability of funding.

(4) The proposal is received after the deadline.

(e) **Department action.**

(1) After reviewing and considering the submitted proposal, the Department may take one of the following actions:

(A) The Department may approve and fund the proposal as submitted.

(B) The Department may reject and deny the proposal based upon any applicable criteria described in subsection (d) of this Section.

(2) Upon approval of a proposal, the Department may authorize the execution of all necessary funding documents and instruments, and may accordingly authorize and provide for disbursements and such further or additional action as may be necessary to complete and implement the approved transaction.

Editor's Note: ¹ *This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-3-1 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:642-3-2. Applicable law, deadline for proposals, eligible project costs, maximum award

(a) The Department shall administer proposals for OERSSIRF funds in accordance with any provisions of law applicable to such proposals and OERSSIRF funds.

(b) To be considered for and receive funding from funds available for OERSSIRF in any given fiscal year, an application must be completed in accordance with this Chapter and filed by the applicant and received by the Department on or before the thirtieth (30) calendar day after the issuance of the Request for Proposals (RFP). Any application not properly completed and filed shall not be considered for or funded from funds that may become available during that fiscal year.

(c) The Department shall issue a Request for Proposals (RFP) for the OERSSIRF each year. The submission period, including time for questions, shall not be less than thirty (30) calendar days. The Department shall identify qualified staff to ensure questions received through the RFP process are answered and posted appropriately.

(d) An OERSSIRF proposal submitted for consideration in a prior fiscal year that was not approved for funding in that prior fiscal year may be submitted again in any year.

(e) For purposes of evaluating, approving and funding proposals for OERSSIRF funds, categories of project costs which are eligible for assistance shall include those project costs described in 63 O.S. § 1-2512.1:

- (1) Funding assessment activities,
- (2) Stabilization and/or reorganization of at-risk emergency medical services,
- (3) Development of regional emergency medical services,
- (4) Training for emergency medical directors,
- (5) Access to training front line emergency medical services personnel,
- (6) Capital and equipment needs.

(f) No qualified entity shall receive more than \$500,000 in OERSSIF funding assistance in any twelve (12) month period, or for any single project.

[Source: Added at 27 Ok Reg 697, eff 2-2-10 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2536, eff 7-25-10]

Editor's Note: ¹ *This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting*

a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-3-2 was no longer effective, and remained as such until added again by permanent action on 7-25-10.

SUBCHAPTER 5. SCORING

310:642-5-1. OERSSIRF funding priority point system

Proposals shall be ranked based on the total number of points awarded by the Department consistent with this Chapter.

- (1) The following formula shall be used to rank funding proposals: $T = S + M + D + H + E + AR + PM$, where:

- (A) S = Statutory purposes
- (B) M = Multiple jurisdictions
- (C) D = Population density
- (D) H = Distance to the nearest level I or II trauma center
- (E) E = Number of project-area EMTs
- (F) AR = Amount of funding requested
- (G) PM = Project matching

- (2) Points may be awarded as described below:

- (A) **Statutory purposes (S):** Points shall be awarded for each of the relevant statutory purposes of the proposal as follows:

- (i) Funding assessment activities: 50 points
- (ii) Stabilization and/or reorganization of at-risk emergency medical services: 100 points
- (iii) Development of regional EMS: 50 points
- (iv) Training for emergency medical directors: 50 points
- (v) Access to training front line emergency medical services personnel: 100 points
- (vi) Capital and equipment needs: 50 points

- (B) **Multiple jurisdictions (M):** Points shall be awarded for projects addressing the EMS needs of multiple jurisdictions, as follows:

- (i) Two cities or towns: 25 points
- (ii) Three cities or towns: 50 points
- (iii) County wide: 100 points
- (iv) Multi-county: 150 points
- (v) State wide: 200 points

- (C) **Population density (D):** Points shall be awarded for projects encompassing areas of lowest per-mile population density as recorded by the United States Census Bureau, as follows:

- (i) 5,000.0 to 8,968.1: 0 points
- (ii) 1,000.0 to 4,999.9: 10 points
- (iii) 200.0 to 999.9: 20 points

- (iv) 79.6 to 199.9: 30 points
- (v) 30.0 to 79.5: 40 points
- (vi) 10.0 to 29.9: 50 points
- (vii) Less than 10.0: 100 points

(D) **Distance to trauma center (H):** Points shall be awarded for project areas where the average distance between the furthest and closest points within the project area to a trauma center classified by the State of Oklahoma or the American College of Surgeons as level I or II, as follows:

- (i) 0-25 miles: 0 points
- (ii) 25-49 miles: 10 points
- (iii) 50-74 miles: 20 points
- (iv) 75-99 miles: 30 points
- (v) 100-124 miles: 40 points
- (vi) 125-149 miles: 50 points
- (vii) 150 miles and over: 100 points

(E) **EMTs (E):** Points shall be awarded for proposals encompassing project areas with fewer resident licensed EMTs at any level of licensure as recorded by the Department as follows:

- (i) 100 or more resident EMTs: 0 points
- (ii) 50-99 resident EMTs: 20 points
- (iii) 25-49 resident EMTs: 40 points
- (iv) 0-24 resident EMTs: 60 points

(F) **Amount of funding requested (AR):** Points under this category for amount of funding requested are determined as follows:

- (i) \$400,001 to \$500,000: -50 points
- (ii) \$300,001 to \$400,000: -40 points
- (iii) \$200,001 to \$300,000: -30 points
- (iv) \$100,001 to \$200,000: -20 points
- (v) \$80,000 to \$100,000: 10 points
- (vi) \$60,000 to \$79,999: 20 points
- (vii) \$40,000 to \$59,999: 30 points
- (viii) \$20,000 to \$39,999: 50 points
- (ix) Any AR greater than \$500,000 shall be denied

(G) **Project matching (PM).** If the proposal proposes the use of matching funds, points shall be awarded consistent with the following formula:

- (i) 90% of the requested funds: 90 points
- (ii) 80% of the requested funds: 80 points
- (iii) 70% of the requested funds: 70 points
- (iv) 60% of the requested funds: 60 points
- (v) 50% of the requested funds: 50 points
- (vi) 40% of the requested funds: 40 points
- (vii) 30% of the requested funds: 30 points
- (viii) 20% of the requested funds: 20 points
- (ix) 10% of the requested funds: 10 points

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-5-1 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

SUBCHAPTER 7. DISBURSEMENT

310:642-7-1. Content of proposal

(a) The proposal shall be submitted using the forms provided by the Department. The proposal form shall include the following sections:

- (1) Proposal Information, including the name of the contact person, mailing address, e-mail address, phone number and type of qualifying applicant entity.
- (2) Instructions, including an outline of the legal requirements and the priority point system.
- (3) A section requiring a narrative description of the proposed project.
- (4) A section enumerating the requirements of the OERSSIRF statute, requiring a description of the proposed project's compliance with each section.
- (5) A section requiring a narrative description of the proposed project's compliance with each of the priority point criteria.
- (6) A checklist allowing evaluation of compliance with solicitation requirements.

(b) Each proposal shall include a section setting forth the criteria that will be used to evaluate the success of the project. The criteria shall include:

- (1) Specific, objective metrics for evaluation of the project. For example: a percentage decline in response time or improvement in the number of available EMTs within a region, measured against the same metric at the start of the project.
- (2) A clear methodology and a description of data sources for computing the performance measures proposed in the project plan, for example, comparing responder response times or the total number of EMTs in a region against the same metric at the end of the project.
- (3) Benchmark measures for each of the following assessment levels:
 - (A) Significantly improved.
 - (B) Improved.
 - (C) Not Improved.
 - (D) Worsened.

[Source: Added at 27 Ok Reg 697, eff 2-2-10 through 7-14-10 (emergency)¹; Added at 27 Ok Reg 2536, eff 7-25-10]

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-7-1 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

310:642-7-2. Disbursement of funds

(a) **Action following Department approval and prior to disbursement of funding.**

(1) **Notification of approval.** Upon approval of an OERSSIRF proposal, the Department shall furnish to the applicant a written notice of approval. The notice shall advise the applicant that the funds approved shall be made available to the applicant by the Department for such purposes and upon conditions as provided in paragraph (2) of this subsection (relating to additional conditions prior to disbursement of funds).

(2) **Additional conditions prior to disbursement of funds.**

(A) Applicant shall establish a special and separate federally insured fund or account within applicant's accounting system in and through which the proceeds shall be administered and accounted for by the applicant.

(B) Unless otherwise provided and approved by the Department, applicant shall submit to the Department all plans, specifications and benchmark completion reports for the project for Department approval, all of which shall be complete and in sufficient detail as would be required for submission of the project to a contractor for bidding or contracting the project. If not previously provided, applicant shall provide Department with a written and verified statement setting forth:

(i) The amount of funds necessary for release and disbursement at closing needed for commencement of the project, and

(ii) The reasonable availability of all other revenue or funding sources needed to finance and complete the project.

(C) Applicant and Department, and all other necessary parties, shall have executed all necessary and incidental instruments and documents, including but not limited to a vendor agreement.

(3) **Department action on request for withdrawal of funding.**

If, prior to disbursement of the monies to the applicant, the project bids exceed the estimates or it otherwise develops that the OERSSIRF proposal amount approved by the Department, when combined with any other sources of funding, will be insufficient to complete the approved project, then the applicant may file a written request to decline funding and withdraw its proposal for the current fiscal year.

(b) **Disbursement of funding to applicant; action following disbursement.**

(1) **Disbursement contingent on completion of conditions; reduction from approved amount.** At the time of and upon compliance by the applicant with the applicable requirements in subsection (a) of this Section, the Department shall disburse the approved amount of OERSSIRF funds to the applicant for the approved project.

(2) **Disbursement in whole or part; timing.** Funds may be disbursed to the applicant in installments or in lump sum, and may be disbursed prior to, during, or upon, completion of the project, all as deemed appropriate by the Department under the

project circumstances presented. The Department shall conduct on-site inspections to confirm completion of benchmarks described in the project plan.

(3) **Post-disbursement requests for increases in funding amount.** If after disbursement of the monies to the applicant it develops that the applicant needs more money for the project than the OERSSIRF amount disbursed by the Department, the Department may evaluate remaining funds and at its discretion may increase funding no more than 10% over the original proposed amount.

(4) **Post-disbursement action regarding unexpended funding.** If following completion of the project the applicant needed less money for the project than disbursed by the Department, the applicant shall return the unexpended amount to the Department. Unused funding shall be returned to the fund and made available during the next funding year.

(5) **Reports.** The Department may require quarterly or biannual progress reports and may at any time perform on-site inspections.

(A) Applicants shall provide all requested documents at the time of the inspection, or as required by the Department.

(B) Department staff shall report any suspected misappropriation of funds to the appropriate law enforcement authority.

Editor's Note: ¹*This emergency action expired before being superseded by a permanent action. Upon expiration of an emergency action enacting a new Section, the text of the Section is no longer effective. Therefore, on 7-15-10 (after the 7-14-10 expiration of the emergency action), the text of section 310:642-7-2 was no longer effective, and remained as such until added again by permanent action on 7-25-10.*

SUBCHAPTER 9. EVALUATION

310:642-9-1. Evaluation of Projects

The Department shall perform an evaluation of the project within six (6) months of its completion, summarizing its effectiveness using benchmark measures identified in the proposal as required by 310:642-7-1(b)(3)(relating to content of proposals).

[Source: Amended at 13 Ok Reg 2119, eff 6-13-96 ; Amended at 14 Ok Reg 3585, eff 7-18-97 (emergency)¹; Amended at 15 Ok Reg 3179, eff 7-13-98 ¹; Amended at 16 Ok Reg 2516, eff 6-25-99 ;

Revoked at 22 Ok Reg 1135, eff 5-26-05]

Editor's Note: ¹ On 5-26-98, the Legislature disapproved permanent language in subsection (d), which had been proposed by the agency to supersede emergency language that became effective 7-18-97, and extended the emergency language in subsection (d) until "July 1, 1999, or until superseded by the promulgation of a permanent rule which is consistent with legislative intent, whichever is earlier" [HJR 1104 (1998)]. The remaining amendments to this Section, which had not been disapproved by the Legislature, were promulgated by the agency and became effective 7-13-98 [see 15 Ok Reg 3179]. Permanent amendments to this Section were approved by the Legislature the following year and superseded the extended emergency language in subsection (d) on 6-25-99. For the text of subsection (d) that became effective on 7-18-97 and remained in effect until superseded by permanent action on 6-25-99, see subsection (d) of Section 310:655-17-3 published at 14 Ok Reg 3585.

CHAPTER 657. CERTIFIED WORKPLACE MEDICAL PLANS

[Authority: 85 O.S., § 14.3]
[Source: Codified 6-13-96]

SUBCHAPTER 1. GENERAL PROVISIONS

310:657-1-1. Purpose

This chapter provides for certification of the workplace medical plan under three (3) laws. Those laws are 85 O.S. Supp. 1996, Section 14.3, 63 O.S. Supp. 1996, Sections 1-101 et seq. (Oklahoma Public Health Code), and 75 O.S. Supp. 1996, Sections 250.1 through 323 (Administrative Procedures Act).

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

310:657-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Act**" means the Workers' Compensation Act, Title 85 of the Oklahoma Statutes.

"**Commissioner**" means the Commissioner of Health.

"**Department**" means the Oklahoma State Department of Health.

"**Facility**" means a licensed, certified or accredited institution or health care setting which renders prescribed medical or health care service.

"**Health professional**" means an individual who is licensed or otherwise authorized under applicable laws, rules or standards to deliver medical or health services.

"**Insurer**" means a self-insured employer, a group self-insurance association plan, or an employer's workers' compensation insurance carrier.

"**Peer**" means a health professional who holds a non-restricted license in Oklahoma or another state and practices a similar specialty as typically manages the service under review.

"**Person**" means an individual, partnership, association, corporation, or other public or private legal entity including an agency.

"**Plan**" means a workplace medical plan.

"**Provider**" means any health professional, facility or other entity licensed or otherwise authorized under applicable laws, rules or standards to furnish medical or health service.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-1-3. Severability

If any subchapter or paragraph of OAC 310:657 shall be ruled invalid, such judgment shall not affect any other subchapter or

paragraph. The remaining subchapters and paragraphs shall remain in full force.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 3. PROVIDER CREDENTIALING

310:657-3-1. General considerations

The Plan's credentialing program shall ensure that each provider is competent and qualified to offer medical or health services. A Plan may use other criteria in deciding which of the properly credentialed providers shall be selected to participate in the Plan.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-3-2. Credentialing responsibilities

(a) The Plan shall credential each provider under written policies, and shall complete credentialing before the provider's contract becomes effective. The Plan shall not list the provider in the provider directory or marketing materials until credentialed.

(b) The Plan shall establish a body of professional peers to review and approve the Plan's credentialing policies. A health professional designated by the Plan shall oversee credentialing.

(c) The Plan shall obtain proof of the applicant's current authority to practice a health profession. Proof shall be based on evidence from the source issuing the credential. The Plan shall retain all records and documents on a provider for at least five (5) years. Nothing in OAC 310:657-3 requires public disclosure of information which is confidential following applicable law.

(d) At least once every five (5) years, the Plan shall verify the professional's authority to practice.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-3-3. Provider review process

(a) A provider who is subject to credentialing shall have the right to review all credentialing information obtained by the Plan, and to review the credentialing procedures.

(b) The Plan shall advise the provider of any information that does not meet the Plan's credentialing standards.

(c) Each Plan shall have an appeal process by which a provider may submit additional information and request further review.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 5. QUALITY ASSURANCE

310:657-5-1. Purpose and intent

The Plan shall assure the quality of its services using, at least, a system of quality assessment and quality improvement. The Plan shall ensure that all providers participate in quality assurance activities.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-5-2. Quality assessment and quality improvement

(a) The Plan, either directly or through contract, shall maintain a quality assessment and improvement system. The system shall have at least these features:

- (1) Systematic collection and analysis of data, including measures of provider performance; and
- (2) Activities to foster continuous improvement of services provided to injured workers, including:
 - (A) identifying practices which result in positive health outcomes; and
 - (B) integrating information sources such as service management, claims processing, worker satisfaction and grievances.
- (3) Organizational support for the system with input from the medical director;
- (4) Methods of evaluating performance improvement activities.

(b) The quality assessment and improvement system shall include the following functions, done at least annually:

- (1) An analysis of care patterns in the following priority areas:
 - (A) Services likely to affect many injured workers;
 - (B) Procedures that could place the health of injured workers at risk;
 - (C) Variations in practice patterns; and
 - (D) Underuse and overuse of medical and health services;
- (2) An evaluation of access to medical and health services.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-5-3. Reporting and disclosure requirements

The Plan, either directly or through contract, shall document and communicate information about quality assurance.

- (1) In marketing materials the Plan shall include a summary of its quality assurance activities.
- (2) The Plan shall make available to the employee, a description of its quality assurance process and a statement of employee rights in the Plan.
- (3) The Plan shall share information with its regulatory agencies, providers and the public about its quality assurance activities and progress.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-5-4. Inspections

(a) For purposes of conducting the site visit, the Department may inspect any person, or the business of any person, insofar as such inspection is necessary or material to the investigation of the Plan.

(b) The refusal of any Plan by its officers, directors, employees or agents to submit to the inspection or to comply with any reasonable written request of the inspectors shall be grounds for suspension, revocation or nonrenewal of any certification or authority held by the Plan to engage in business subject to the Department's jurisdiction.

(c) In the case of a annual site visit, the Department may provide advance notice of not longer than 15 working days to the Plan by telephone and/or written means of communication.

(1) Such notification may include a request for the Plan to provide case, dispute and/or grievance listings to the Department to allow Department consideration and possible selection of samples prior to arriving at the Plan's office.

(2) In advance of an announced site visit or upon arrival of an unannounced site visit, the Department may request to have Plan materials and personnel available which includes, but not limited to the following:

(A) Current Organizational Chart;

(B) Listing of current personnel and those person's direct-dial telephone numbers or extensions;

(C) Assignment of a single Plan representative to serve as the Department's primary contact during the course of the on-site inspection;

(D) Current Master Client Report, or other comprehensive listing of contracts currently or previously in place, including counts of CWMP participants;

(E) Current listing of contracted Insurers and/or Insureds; and

(F) Assignment of one or more persons to:

(i) Conduct a preliminary walk-through tour of the offices;

(ii) Explain to the Department staff how physical files are arranged;

(iii) Explain to the Department staff what files are electronic only and will require a Department request to the Plan's primary contact person for printing or visual inspection;

(iv) Explain the process for entering or leaving the Plan's office;

(v) Explain how case management is assigned;

(vi) Explain how the Plan monitors caseloads;

(vii) Explain how the Plan receives cases from the payer.

(G) Provision for Departmental file reviews, of any written:

(i) Case management policies and procedures;

(ii) Utilization review policies and procedures;

(iii) Case management forms;

- (iv) Utilization review forms;
- (v) Case management form letters;
- (vi) Utilization review letters;
- (vii) Communication standards;
- (viii) Account specific instructions;
- (ix) List of all routine audits or other QA procedures; and
- (x) List of the prior periods' explicit Medical Director or Peer Reviews.

(H) Specific personnel, by title, that the Department initially anticipates interviewing during the course of the site visit to ensure that those persons will be available.

(I) Such other material that the Department requires to be assembled for inspection such as Policies and Procedures changed since the last application for certification or renewal.

(d) The Department is not required to provide advance notice of a site visit to a Plan in an instance where the Department has reason to believe that the Plan is either:

(1) Not operating in accordance with its application, the Act, or OAC 310:657; or

(2) Not adequately providing a claimant(s) with medical services or medical management.

(e) Upon the completion of the site visit and review of the findings, the Department shall prepare a report with a determination that a Plan is or is not operating in accordance with its latest application. This report may also include recommendations for follow-up and/or corrective actions.

(f) The Plan shall not issue marketing or solicitation materials that advertise, identify or judge the results of an investigation completed by the Department.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 7. UTILIZATION REVIEW

310:657-7-1. Purpose and intent

(a) The Plan's utilization review program shall assist the manager in providing services to an individual injured worker and shall assist administrators in delivering services to all employees.

(b) Nothing in OAC 310:657-7 restrains a Plan or provider from supplying information to any person required by the Act.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-7-2. Scope and content of utilization review

(a) The Plan shall implement a utilization review program that describes all delegated and nondelegated review activities for covered services.

The program shall include:

- (1) Procedures to evaluate service need, appropriateness and efficiency, with processes to detect service underuse and overuse;
 - (2) Data sources and review criteria used to determine the need for, and appropriateness of, medical and health services;
 - (3) Processes for resolving disputes on medical or health services;
 - (4) Consistent application of criteria and decisions;
 - (5) Data collection and analytical methods that may be used to assess use of health care services;
 - (6) Provisions for ensuring confidentiality of information;
 - (7) Reports to the governing body or its designee; and
 - (8) Day-to-day program management.
- (b) The Plan shall file with the Commissioner an annual report summarizing utilization review activities. The data shall preserve the confidentiality of information about individual workers. The Commissioner may request additional information based on material in the report.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-7-3. Operational requirements

- (a) The utilization review program shall have criteria that are based on evidence and regularly evaluated.
- (1) Practicing providers shall be involved in developing the review criteria.
 - (2) After refusing to authorize a service, the Plan shall provide the review criteria for that service upon request to affected providers, the injured worker, and the Commissioner.
- (b) Qualified providers shall supervise the utilization review program. A licensed, board-certified clinical provider shall evaluate the appropriateness of any decision to deny a service to an injured worker.
- (c) Decisions on whether or not to authorize services shall be issued following the requirements of OAC 310:657-7-4.
- (1) Decisions shall be made using pertinent information and consulting with the treating provider.
 - (2) The Plan shall ensure that reviewers consistently apply criteria.
- (d) The Plan shall routinely assess the effectiveness of the utilization review program.
- (e) Data systems shall be sufficient to support utilization review activities.
- (f) If the Plan delegates any activities to a utilization review organization, adequate oversight shall be maintained that includes:
- (1) A description of utilization review organization activities, including reporting requirements;
 - (2) Formal approval of the utilization review organization's program by the Plan; and
 - (3) Evaluations of the utilization review organization.
- (g) Utilization review shall be coordinated with other medical management activities.

(h) The Plan or its utilization review organization shall provide toll-free telephone access to its staff during normal business hours.

(i) When conducting utilization review, the Plan or utilization review organization shall collect only information necessary for assessing the appropriateness of, and need for, services.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-7-4. Utilization review decision

(a) The Plan shall complete any individual decision to authorize or deny a non-emergency service within two (2) working days after obtaining all necessary information. Necessary information includes any clinical evaluation of an injured worker by a provider other than the one originally recommending a proposed service.

(b) The Plan shall notify the provider by telephone within twenty-four (24) hours after the decision to authorize or deny a service. The Plan shall send confirmation of the decision within two (2) working days after deciding.

(c) If the injured worker is an inpatient or undergoing treatment, the Plan shall communicate to the provider any decision to authorize or deny the service by telephone within twenty-four (24) hours after the decision. The Plan shall send confirmation to the provider within two (2) working days after deciding. A decision on an extended stay shall identify the additional number of days or services approved.

(d) A decision to authorize or deny coverage for an emergency service shall be based on the patient's presenting symptoms.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-7-5. Denial of service

(a) A decision to deny a service shall be clearly documented, including specific bases for the action. Confirmation shall be sent to the provider within two (2) working days after the decision. If the Plan is aware that the request for service was initiated by the injured worker, the Plan shall send written notice to the injured worker within two (2) working days after the decision.

(b) A decision to deny a service after the service has been provided to an injured worker shall be issued in writing within five (5) working days after obtaining all necessary information.

(c) Written notice of a decision to deny a service shall describe the dispute resolution procedures.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

310:657-7-6. Dispute resolution procedures

(a) The Plan shall have procedures for dispute resolution on issues related to medical care under the Plan. This procedure may be different than the grievance procedure for resolving matters not directly related to

medical care under the Plan. A dispute resolution procedure shall be available to the injured worker and to the attending or ordering provider. (b) The Plan's procedure shall be designed to resolve each dispute within ten (10) days after receipt, unless information is not available in the normal course of business.

(c) Each dispute shall be evaluated by an appropriate peer or another licensed health professional as mutually agreed by the parties. The evaluating professional shall not have been involved in the initial decision to deny a service.

(d) The Plan shall notify the injured worker and affected provider of its decision.

(e) An injury requiring emergency services shall be treated immediately, without regard for the ten (10) day dispute resolution period.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-7-7. Disclosure requirements

(a) In materials provided to insurers, insureds and employees, the Plan shall include a summary of its utilization review procedures.

(b) The Plan shall clearly disclose employee rights and responsibilities relating to quality assurance and utilization review.

(c) The Plan shall provide to employees a toll-free telephone number for information about the Plan's utilization review program.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 9. GEOGRAPHIC SERVICE AREAS

310:657-9-1. Access to providers

(a) The Commissioner shall presume a proposed service area to be reasonable if the mean travel time is thirty (30) minutes or less from six (6) points on the area boundary to the nearest primary care delivery sites in that area, and sixty (60) minutes or less to specialty service providers.

(b) The Commissioner may approve a service area with travel times of greater than thirty (30) minutes to primary services, or sixty (60) minutes to specialty services, based on the following:

- (1) Providers are not available in the area;
- (2) Providers are available but do not meet the Plan's reasonable credentialing requirements;
- (3) Providers are unwilling or unable to enter a reasonable health services contract with the Plan;
- (4) Residents of the area customarily travel longer times to reach medical and health providers; or
- (5) Providers have access to air ambulance services to transport injured workers.

(c) OAC 310:657-9 shall be construed to foster Plans in all areas of Oklahoma. These provisions shall not be interpreted to threaten the

health and safety of employees or to impair the present system of service delivery in Oklahoma.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-9-2. Required filings

(a) The Plan shall provide the information required in OAC 310:657-9 in its initial application. Before any change of the service area, the Plan shall file the revised information in an application to amend or renew the certificate. All marketing materials produced by the Plan shall specify the approved geographic service area.

(b) The Plan shall describe its proposed service area using zip codes or other geographic units.

(c) The Plan shall provide a map of the service area showing the area boundaries, main traffic arteries and physical barriers. The Plan shall show the locations of primary and specialty providers. The Plan shall mark six (6) points along the boundary. The Plan shall calculate mean travel time from those points to the nearest primary care service sites. The Plan also shall calculate the mean travel time from the six (6) points to the nearest specialty care service sites.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-9-3. Access to services

(a) Medical and health services shall be provided or arranged in the service area by the Plan.

(b) Services shall be available to the Plan's employees with reasonable promptness considering:

(1) Geographic location, hours of operation, and provisions for after-hours services; and

(2) Staffing patterns and types of providers.

(c) A Plan whose service area is located in a nonmetropolitan area may provide service outside its area if:

(1) The service is not primary or emergency care; and

(2) Providers in the area are not sufficient to offer the service.

(d) The Plan shall ensure continuity of services using at least the following:

(1) A provider responsible for coordinating the employee's services; and

(2) A system to report on eligibility and services rendered to the injured worker.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 11. GRIEVANCE SYSTEM

310:657-11-1. Grievance system required

Each Plan shall maintain a system to resolve grievances.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-11-2. Grievance forms

A Plan shall provide a grievance form for any enrollee, employer, insurer, insured or provider who wishes to file a written grievance. The form shall include information about the grievance system to help the person in completing and filing the form. Nothing in OAC 310:657 prevents a Plan from using other methods, such as a toll-free telephone line, to correct problems before the employee files a written grievance.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-11-3. Time frames

The grievance system shall require an initial response within seven (7) days after a grievance is filed with the Plan. A grievance shall be resolved or finally determined by the Plan within ninety (90) days after the grievance is filed. This period may be extended if the Plan encounters a delay in obtaining the documents or records necessary to reach a decision on the grievance. The ninety (90) day time frame may be extended also by written agreement between the Plan and the person filing the grievance.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-11-4. Effect of arbitration

If a grievance may be resolved through arbitration, the person filing the grievance shall be notified of the terms of arbitration. Any Plan that makes binding arbitration a condition of a contract shall fully disclose this requirement in the contract and in any summaries.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-11-5. Request for assistance

The Commissioner shall provide a form which any person may use to register dissatisfaction with the Plan. The Commissioner shall review such filings and consider whether or not the Plan complies with the Act and OAC 310:657. If the Commissioner has no reason to believe that a Plan violated the Act or OAC 310:657, the Plan's action shall be upheld. If the Commissioner has reason to believe that a violation exists, then the Commissioner shall consider the matter under 310:657-25.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 13. OWNERSHIP AND CONTROL OF A PLAN

310:657-13-1. Ownership

The Plan's ownership, control and management shall have the knowledge, skills and experience that will make the Plan's operation beneficial to employees. The Commissioner shall not grant or renew a certificate when the Plan's ownership, control, or management is under the control of any person whose operations are or have been marked by the following:

- (1) business practice or conduct that is to the detriment of the public, stockholders, investors, or creditors; or
- (2) improper manipulation of assets or accounts.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-13-2. Removal or transfer of property

- (a) No Plan shall remove its property or business from Oklahoma without the Commissioner's written approval.
- (b) No Plan shall attempt to transfer its property or merge with any other person without first obtaining the Commissioner's written approval.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-13-3. Accounts, books and records

Each Plan shall maintain proper accounting controls including correct and complete records of accounts. Such records shall be available to the Commissioner during normal business hours.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-13-4. Governing body oversight

The Plan's governing body or its designee shall be responsible for quality assurance, quality improvement, and utilization review actions. The governing body or designee shall approve and regularly evaluate these programs. If the Plan contracts with other entities to operate these programs, then the governing body or designee may consider reports from those entities instead of conducting its own evaluations. The governing body or designee shall receive reports of quality assurance, quality improvement and utilization review actions at least once every six (6) months.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-13-5. Ownership and control safeguards

The Plan shall safeguard the fairness and equity of medical and health service delivery if an insurer or an insured:

- (1) Directly participates in the Plan's formation or certification;
- (2) Occupies a position as the Plan's director, governing member, officer, agent, or employee;
- (3) Has any ownership, financial or investment interest in the Plan;

- (4) Has any contract with the Plan that limits the Plan's ability to accept business from any other source; or
- (5) Has any relationship with a Plan, other than a contract for provision of medical and health services under the Act.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

SUBCHAPTER 15. FINANCIAL REQUIREMENTS

310:657-15-1. Net worth requirement

- (a) The Plan's net worth shall be calculated as assets minus liabilities, plus fully subordinated debt.
- (b) The Plan shall maintain a positive net worth and shall maintain working capital to meet its obligations as they become due.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-15-2. Applicability

The financial requirements in OAC 310:657-15-3 through OAC 310:657-15-10 shall apply to a Plan unless it demonstrates that a requirement does not apply. To decide if a requirement applies, the Commissioner shall consider the Plan's organizational structure, financial arrangements, fiduciary responsibilities, accounting controls and risk sharing arrangements.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-15-3. Errors and omissions policy

- (a) Each Plan shall file evidence of an errors and omissions policy to protect insurers, insureds and enrollees financially from the Plan's errors.
 - (1) The policy shall be no less than five hundred thousand dollars (\$500,000) annual aggregate for all claims made during the policy period.
 - (2) The policy shall remain in force for at least two (2) years after certification ends.
- (b) Such policy shall be issued by an entity licensed or approved by the Oklahoma Insurance Commissioner, to:
 - (1) Do business in this state; and
 - (2) Issue errors and omissions policies.
- (c) Such policy shall be continuous in form, or renewed annually. If renewed annually, evidence of renewal shall be provided to the Commissioner each year. The Plan shall ensure that the Commissioner is notified of:
 - (1) Any lapse in coverage; or
 - (2) Termination of coverage at least thirty (30) days before termination.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

310:657-15-4. Fidelity bond [REVOKED]

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Revoked at 23 Ok Reg 2404, eff 6-25-06]

310:657-15-5. Preference of claims [REVOKED]

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Revoked at 23 Ok Reg 2404, eff 6-25-06]

310:657-15-6. Liability insurance

In addition to the errors and omissions insurance policy each Plan shall have liability insurance coverage to protect the interests of injured workers. The insurance may include excess or stop loss, medical malpractice, and general liability coverage.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-15-7. Provider contracts [REVOKED]

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Revoked at 23 Ok Reg 2404, eff 6-25-06]

310:657-15-8. Projections

(a) The Commissioner may require a Plan to submit updates of projections required by OAC 310:657-21-4(1)(K). Each update shall explain any significant variance between operating results and previously forecast amounts.

(b) The Commissioner may request a revision of a financial projection that is inconsistent with the Plan's historic performance.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-15-9. Impairment

(a) A Plan with less than the minimum required net worth shall be considered an impaired Plan.

(b) The Commissioner shall determine the amount of impairment. The amount of impairment may be based on a financial statement made by a Plan or on an examination report. The Commissioner shall require the Plan to eliminate the impairment within ninety (90) days. If the Plan does not eliminate the impairment, the Commissioner may revoke the Plan's certificate.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 17. CONTRACTS AND SERVICE EXPLANATIONS

310:657-17-1. Purpose

The purpose of this subchapter is to ensure that a Plan furnishes to each insurer, insured, or provider a complete and understandable copy of their agreement. The contract shall not contain unjust, unfair, misleading or deceptive provisions.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-17-2. Contents of the insurers' or insureds' contract

Each contract shall contain a clear statement of the following:

- (1) Plan's name and address;
- (2) Eligibility requirements;
- (3) Medical and health services in the area;
- (4) Emergency care services and procedures for authorizing emergency services by non-Plan providers;
- (5) Out of area services;
- (6) Limits and excluded items;
- (7) Employee termination;
- (8) Employee reinstatement;
- (9) Claims procedures, if any;
- (10) Dispute resolution and grievance procedures;
- (11) Continuing coverage;
- (12) Extension of benefits;
- (13) Substitution of creditors;
- (14) Geographic service area;
- (15) Entire contract provision;
- (16) Term of coverage;
- (17) Renewing contract;
- (18) Canceling contract;
- (19) Reinstatement of contract;
- (20) Grace period; and
- (21) Conformity with state law.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-17-3. Provider directory

- (a) The Plan shall ensure that each insurer or insured with which it contracts receives a copy of the directory of providers.
- (b) The provider directory may be filed as part of the contract to satisfy the Plan's obligation to provide a statement of services, procedures and requirements.
- (c) The provider directory shall not contain summaries, provisions or statements which are unfair, unjust, misleading or deceptive.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

310:657-17-4. Commissioner review

- (a) No contract, provider directory or amendment shall be delivered or issued unless the Commissioner has approved its form.
- (b) Each contract form shall be filed with the Commissioner at least thirty (30) days before delivery or issue. The Commissioner may extend the period for review for an additional thirty (30) days. The form is approved if the Commissioner takes no action at the end of the review period. The Plan shall notify the Commissioner in writing before using a form approved by the Commissioner's lack of action.
- (c) After at least thirty (30) days notice, the Commissioner may withdraw approval of any form for cause shown.
- (d) When a filing is disapproved or when approval is withdrawn, the Commissioner shall give the Plan written notice of the reasons for disapproval. The notice shall inform the Plan that within thirty (30) days after receipt of the notice the Plan may request a hearing. The hearing shall be conducted under the Administrative Procedures Act.
- (e) The Commissioner may require supporting information in determining whether to approve or disapprove a filing.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-17-5. Service changes

Each Plan shall provide a notice of any service changes to each insurer or insured with which it contracts. The notice shall identify the proposed services which differ from the current services. Such notice shall be provided at least thirty (30) days before the effective date of the change.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-17-6. Provider contracts

- (a) Each contract between a Plan and a participating provider shall be in writing. The contract shall state that an injured worker shall not owe any sums otherwise due from the Plan, insurer or insured under the contract.
- (b) The contract shall set penalties against any provider who attempts to collect from an injured worker any sums owed by the Plan, insurer or insured under the contract.

(c) No participating provider, agent, trustee or assignee shall attempt to collect from an injured worker any sum owed by the Plan, insurer or insured under the contract.

[Source: Added at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 19. CONFIDENTIALITY

310:657-19-1. Responsibility of Plan

(a) Worker-specific injury information and provider-specific performance data are confidential and the Plan shall implement procedures to ensure that confidentiality. The procedures shall include:

- (1) Safeguards to protect against unauthorized disclosure; and
- (2) Provisions that any party making information available to the public is responsible for failure to comply with a standard of due care.

(b) Information about the diagnosis, treatment or health of any injured worker shall be disclosed only to authorized persons. Release of information shall be permitted only with the written consent of the injured worker, or as needed for the Commissioner to enforce the Act and OAC 310:657. Nothing in OAC 310:657 shall prevent disclosure as otherwise required by law.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97]

310:657-19-2. Responsibility of Commissioner

(a) The Commissioner shall hold in confidence any information about an injured worker and the information shall not be disclosed to any person except under these circumstances:

- (1) When necessary to administer OAC 310:657;
- (2) Upon the written consent of the worker;
- (3) Following law or court order for the production or discovery of evidence; or
- (4) When a claim or dispute between the worker and the Plan makes such information pertinent.

(b) Information considered by a medical or health services review committee and its records which are used by the Commissioner shall be confidential.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 21. APPLYING FOR A CERTIFICATE

310:657-21-1. Application required

(a) Each Plan shall apply for a certificate on forms provided by the Commissioner.

(b) The person responsible for providing or arranging all required Plan services shall be the applicant for the certificate.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-21-2. Deadlines for filing

- (a) The application shall be filed by the Plan and approved by the Department before beginning operations.
- (b) The application shall be filed at least thirty (30) days before a transfer of ownership of an existing Plan.
- (c) The Plan shall apply to renew the certificate every five (5) years. The application to renew a certificate shall be filed at least thirty (30) days before the certificate expires.
- (d) The Commissioner shall notify the applicant of incomplete items within thirty (30) days after receipt of the application. The applicant shall provide additional information within ninety (90) days after receipt of the notice. Failure to submit the requested information shall result in dismissal of the application. The Commissioner and the applicant may mutually agree to extend the deadline up to ninety (90) days.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-21-3. Where to file

The application and the filing fee shall be delivered or mailed to the Department. The effective date of filing shall be the date the application and fee are received by the Department.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-21-4. Description of application form

Each application for a certificate shall be accompanied by a non-refundable filing fee. The filing fee shall be the fee set in the Act. The fee shall be paid by check to the Oklahoma State Department of Health.

- (1) The application for a certificate requests the following:
 - (A) A general description of the Plan and its operations, including the locations, types, and hours of providers;
 - (B) A copy of the Plan's basic organizational document, such as the articles of incorporation or association, partnership or trust agreement, and all amendments;
 - (C) A copy of bylaws or similar document, regulating the Plan's conduct;
 - (D) A list of names, addresses, and official capacities of all persons responsible for the Plan, including:
 - (i) Each corporate officer and director of a corporation; each manager of Limited Liability Company; those owners of a corporation, the partners or associates of a partnership or association, or members of a Limited Liability Company that own five percent (5%) or more of the

- stock or controlling interest in the Plan, Corporation, Partnership, Association, or Limited Liability Company; and of the person who will be the day-to-day Plan administrator; and
 - (ii) Disclosure of any contracts or arrangements between them and the Plan, including any appearance of a conflict of interest;
 - (E) The medical director's name, address, phone number, Oklahoma license number, and biographical information and address;
 - (F) The name and biographical information of the person who will be the day-to-day Plan administrator and address;
 - (G) A description of the geographic areas to be served;
 - (H) A description of any facilities to be used;
 - (I) The categories and names of all participating providers and facilities;
 - (J) The policies for credentialing and selection of providers;
 - (K) Projections for five (5) years which include employee population, primary physician to employee ratios, specialty care, laboratory, x-ray and hospital services, and revenues and expenses;
 - (L) A financial statement for the Plan prepared in accordance with accounting principles generally accepted in the United States of America, and related documents showing the Plan's financial capabilities;
 - (M) Forms of all provider and service contracts;
 - (N) Forms of all contracts with insurers and insureds, showing the services to which employees are entitled;
 - (O) Proposed marketing or advertising materials;
 - (P) Descriptions of the case management, utilization review and quality assurance processes, including treatment protocols, adopted by the Plan;
 - (Q) A description of the Plan's or providers' medical record system;
 - (R) Policies for developing and reporting data;
 - (S) Policies for dispute resolution and grievance reviews;
 - (T) A plan for an employee education program;
 - (U) A description of the financial incentives to be used to reduce costs and control use;
 - (V) A description of the Plan's workplace health and safety consultative services for employers;
 - (W) The provider directory;
 - (X) Contact person's name, address and telephone number; and,
 - (Y) Such other information as may be prescribed by the Commissioner in the application for a certificate.
- (2) The application to renew a certificate requests the following:
- (A) Any changes in the information provided in OAC 310:657-21-4; and

(B) Data on the Plan's experience, including revenues and expenses, changes in financial position, employee population per month, hospital days and ambulatory encounters per injured worker, encounters by type of health professional, disputes and grievances processed, peer review, quality control, medical records and utilization review systems.

(3) The Commissioner may require such other information as necessary to decide on the application.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

SUBCHAPTER 23. APPROVAL OR DENIAL OF APPLICATION

310:657-23-1. Conditions for approval

The Commissioner shall issue or renew a certificate when the Commissioner finds that the Plan meets the requirements of the Act and OAC 310:657.

(1) Necessary medical and health services shall be provided by the Plan as guaranteed in the Plan's contracts with insurers and insureds and in the provider directory.

(A) These services shall be provided without bias for, or against, any type of provider.

(B) The Commissioner shall review services available considering employee population and characteristics, and locations and hours of providers.

(C) The Plan may offer necessary medical and health services directly, or may arrange services through contracts or arrangements with providers, or may both offer and arrange services.

(2) All providers shall practice under licensing, certification or credentialing requirements of applicable laws, rules and professional standards.

(3) Medical and health services shall be available within the Plan's service area, considering the geographic location of the Plan and its providers, hours of operation, and population density.

(4) The Plan shall appoint a medical director qualified under the licensing or credentialing requirements of Oklahoma.

(5) The Plan shall maintain or arrange quality assurance, peer review, utilization review, dispute and grievance resolution, case management, and workplace health and safety consulting services.

(A) The Commissioner may consider the Plan's compliance with the standards of a recognized voluntary reviewing entity. Before accepting findings from another entity, the Commissioner shall affirm that the standards in use by the entity meet or exceed the standards set by the

Commissioner.

(B) The Commissioner may approve a reasonable phase-in of these systems, based on the length of time the Plan has operated and the number of employees.

(C) The Commissioner shall consider a license, certificate or approval granted by an agency of the State of Oklahoma or the federal government.

(6) The persons responsible for the Plan have knowledge, skills and experience to operate the Plan.

(7) The Plan shall demonstrate financial responsibility and may reasonably be expected to meet its obligations to injured workers. The Commissioner shall consider the resources of the Plan's owner and may also consider the following:

(A) The financial soundness of any arrangements for paying providers, the accounting methods to control any funds paid to the Plan for providers, and the schedule of charges;

(B) Working capital; or

(C) Any agreement with providers for services.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-23-2. Duration of certificate

The Commissioner may issue a certificate to a Plan for five (5) years. The Commissioner may specify conditions on an initial certificate which shall be satisfied before the Plan offers medical and health services to employees.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-23-3. Certificate transfer

No certificate shall be issued to any person other than the person making application. A certificate shall not be transferred in whole or part to another person.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-23-4. Denial of Application

(a) An application for certification may be denied for one (1) or more of the following:

- (1) Failure to meet any of the standards in the Act or OAC 310:657; or
- (2) Failure to provide timely additional information required under OAC 310:657-21-2.

(b) Within ten (10) days after denial, the Department shall send written notice to the applicant. The notice of denial shall include a statement of the deficiencies on which denial was based and notice of the opportunity for hearing.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-23-5. Appeals

Any party who disagrees with the Commissioner's decision to deny the application may request a hearing, or may appeal directly to district court as provided in the Administrative Procedures Act.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 25. WITHDRAWAL OF A CERTIFICATE**310:657-25-1. Conditions to revoke or suspend**

The Commissioner may revoke or suspend a certificate issued to a Plan, or take such other steps as appropriate, if the Plan:

- (1) Is not in compliance with the Act or OAC 310:657;
- (2) Violated its health service contracts;
- (3) Is unable to fulfill its obligations under outstanding contracts for the benefit of employees;
- (4) Attempted to merchandise its services in such a manner as to misrepresent its services or capacity for service or has engaged in deceptive, misleading, or unfair practices in advertising, merchandising or promoting towards providers, employees, insurers or insureds;
- (5) Did not correct an impairment as required under OAC 310:657-15-6; or
- (6) Knowingly uses or has knowingly used a provider who does not have a license, certificate or other authority to practice or furnish medical or health services.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-25-2. Suspended certificate

(a) While a Plan's certificate is suspended, the Plan shall not, advertise or solicit additional business.

(b) The order suspending the certificate shall specify the period of suspension and conditions to be met for reinstatement.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-25-3. Revoked certificate

(a) The Plan shall conduct no business except as may be essential to the orderly conclusion of its affairs when a Plan's certificate is revoked. The Commissioner may order such operations as needed to afford employees a practical opportunity for medical and health services.

(b) The Plan shall not apply for certification for at least two (2) years after a certificate is revoked. The Plan shall follow the procedures for an initial application specified at OAC 310:657-21 and shall submit evidence that the conditions causing the revocation have been corrected.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-25-4. Person requesting action

An action to revoke or suspend a certificate may be requested by the Commissioner, the Department, or any other person.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 27. REPORTS AND FILINGS

310:657-27-1. Annual reports

(a) By May 1 of each year, the Plan shall file:

(1) Financial statements which exhibit the Plan's financial condition on December 31 of the prior year and its income and expenses that year. These statements shall be prepared in accordance with accounting principles generally accepted in the United States of America. The Plan shall supplement the statements with any information requested by the Commissioner. Such statements shall be subscribed and sworn to by the president, secretary and other officers, with original signatures. A statement of financial condition shall include:

(A) A balance sheet; and

(B) Revenues and expenses;

(2) Summaries of the grievance and dispute resolution activities in the preceding year.

(b) By May 1 of each year, the Plan shall report:

(1) Service volume for the prior year;

(2) Results of the quality assurance procedures;

(3) Providers as of December 31 of the prior year; and

(4) Number of employees by zip code of residence or work site as of December 31 of the prior year.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-27-2. Application form changes

Any material change in the information submitted in the application shall be submitted to the Department, including:

- (1) The approved geographic service area or the organizational structure, including owner or operator;
- (2) Provider agreements which may affect services available to employees, at least thirty (30) days before execution or termination of such agreements;
- (3) Any request for changes in the approved quality assurance program, at least thirty (30) days before the proposed change;
- (4) The chief executive officer or medical director, to be reported upon the termination or starting of employment, with biographical information for the new appointee;
- (5) Ten (10) percent or more in provider hours of operation;
- (6) Essential content in marketing materials, before issuance;
- and,
- (7) Approval issued by a voluntary body or agency and relied upon by the Commissioner under OAC 310:657-23.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-27-3. Commissioner review

The Commissioner shall have thirty (30) days after receipt to approve or deny proposed changes or required filings.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-27-4. Maintenance of records

A Plan shall maintain records or information used to prepare required reports for at least five (5) years.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

310:657-27-5. Documents as public record

All applications shall be available for public inspection in the Department offices during normal working hours. This applies to applications reviewed or under review by the Commissioner. All applications, filings and reports required under OAC 310:657 shall be public documents, except those containing trade secrets, privileged commercial or financial information, or confidential quality or utilization review materials. Financial information required under OAC 310:657-27 shall not be privileged information.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 29. RESTRICTED AND PROHIBITED ACTS

310:657-29-1. Restricted provision of services

A Plan which has been granted a certificate to operate shall provide services only those persons who work, reside, or work and reside in its approved geographic service area.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-29-2. Prohibited acts

(a) No person may operate a Plan in Oklahoma, nor use the phrase "workplace medical plan," nor imply that it is a workplace medical plan, unless that person first obtains a certificate.

(b) No Plan shall imply that certification qualifies the Plan to provide services except as authorized under the Act and OAC 310:657.

(c) A Plan, its employees and agents shall not:

(1) Pay claims reviewers based on reductions, unless the reductions are based on uniformly applied protocols designed to detect billing errors and duplicate charges;

(2) Compel an injured worker or a provider to:

(A) Accept less than the full settlement of a claim;

(B) File suit to obtain full settlement;

(C) Accept a lesser, interim figure as a premature final settlement; or

(3) Knowingly misrepresent reimbursement criteria and time frames to employees, a provider, an insurer, an insured, or their representatives.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-29-3. Enforcement

If a person violates OAC 310:657-29, the Commissioner shall send written notice to the person to cease and desist the violation. If any person continues the violation, the Commissioner may seek an injunction to prohibit the continued offering of service.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 31. TERMINATING AND CONTINUING SERVICES

310:657-31-1. Terminating services

(a) A Plan shall notify an insurer, an employer, providers, and open cases at least sixty (60) days before terminating services or not renewing the

insurer's, employer's or provider's contract.

(b) Before terminating services, a plan shall make all necessary arrangements to provide the employer/payer with the medical records and all open or recent cases that have not previously been provided.

(c) An agreement between a provider and a Plan shall require the provider to notify the Plan at least sixty (60) days before termination of the agreement.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-31-2. Bankruptcy strategy [REVOKED]

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Revoked at 23 Ok Reg 2404, eff 6-25-06]

310:657-31-3. Dismissal from the Plan for cause

A Plan may request dismissal from the Plan of an employee for documented abusive, disruptive or threatening behavior which impairs the Plan's ability to provide services. Dismissal shall comply with the insurer's or insured's contract.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-31-4. Notice

A Plan shall notify the Commissioner in writing at least ninety (90) days before any cessation of business. The Plan shall submit all notices and agreements before their release and effective dates.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96]

SUBCHAPTER 33. POWERS OF A PLAN

310:657-33-1. Powers

The powers of a Plan include the following:

- (1) Making transactions between affiliated entities, including loans and the transfer of responsibility under all contracts between affiliates or between the Plan and its parent;
- (2) Furnishing medical and health services through providers, associations or agents which contract with or are employed by the Plan;
- (3) Contracting with any person for the performance on its behalf of functions such as marketing and administration; and
- (4) Marketing of products with an insurer or insured, if the company offering each product is clearly identified.

[Source: Added at 12 Ok Reg 2977, eff 6-16-95 (emergency); Added at 13 Ok Reg 2127, eff 6-13-96 ; Amended at 14 Ok Reg 2264, eff 6-12-97 ; Amended at 23 Ok Reg 2404, eff 6-25-06]

310:657-33-2. Notice of exercise of powers

A Plan shall file notice and supporting information with the Department before the exercise of any power under OAC 310:657-33. The Commissioner shall disapprove an exercise of power if it will affect the Plan's financial soundness and endanger its ability to meet its obligations. The Commissioner shall have no more than thirty (30) days to act on the notice.

CHAPTER 658. INDEPENDENT REVIEW ORGANIZATION CERTIFICATION RULES [REVOKED]

Editor's Note: *Effective 8-26-11, the authority for promulgating the rules in this Chapter 658 was transferred to the Insurance Department from the Oklahoma State Department of Health [see Laws 2011, c. 278 and c. 360]. The Insurance Department promulgated emergency rules on 9-12-11 [see 29 Ok Reg 16], and subsequently superseded the emergency rules with permanent rules at OAC 365:10-29-1 through 365:10-29-10 on 7-14-12. The Department of Health later revoked the rules in this Chapter [OAC 310:658], effective 9-12-14.*

CHAPTER 661. HOSPICE

[**Authority:** 63 O.S., §§ 1-103a.1, 1-104, 1-860.1 et seq., and 1-862]

[**Source:** Codified 6-11-92]

SUBCHAPTER 1. GENERAL PROVISIONS

310:661-1-1. Purpose

This Chapter establishes the minimum criteria for the issuance and renewal of a hospice license and the procedure for enforcement of the Act.

[**Source:** Added at 9 Ok Reg 1985, eff 6-11-92]

310:661-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Act" means the Oklahoma Hospice Licensing Act, 63 O.S. 1991, §§ 1-860.1 et seq.

"Alternate Administrative Office" means an approved location from which the hospice provides the same full range of hospice care and services that is required of the hospice issued, stores supplies, and/or is used for documentation and meets the requirements of 310:661-2-1(f)(2). Each location shall meet all of the applicable requirements of Chapter 661. Hospice.

"Attending physician" means a doctor of medicine or osteopathy, identified by the patient or representative at the time the patient or representative elects to receive hospice care, as having the most significant role in the determination and delivery of the patient's medical care.

"Bereavement counseling" means emotional, psychosocial, and spiritual support and services provided before and after the death of the patient to assist with issues related to grief, loss, and adjustment.

"Clinical note" means a notation of a contact with the patient and/or the family that is written and dated by any person providing services and that describes signs and symptoms, treatments and medications administered, including the patient's reaction and/or response, and any changes in physical, emotional, psychosocial or spiritual condition during a given period of time.

"Comprehensive assessment" means an evaluation of the patient's physical, psychosocial, emotional and spiritual status related to the terminal illness and related conditions. This includes an evaluation of the caregiver's and family's willingness and capability to care for the patient.

"Continuous care" means nursing care that is provided by a skilled nurse or a qualified hospice aide for as much as 24-hours a day during periods of medical crisis as necessary to maintain a hospice patient at their place of residence.

"Department" means the Oklahoma State Department of Health.

"Dietary counseling" means education and interventions provided to the patient and family regarding nutritional intake as the patient's condition changes. Dietary counseling is provided by qualified individuals, which may include a registered nurse or dietitian, when identified in the patient's plan of care.

"Employed" means contracting with a person for services, regardless of compensation. This term also includes volunteers.

"Employee" means a person who: (1) Works for the hospice and for whom the hospice is required to issue a W-2 form on his or her behalf; (2) if the hospice is a subdivision of an agency or organization, an employee of the agency or organization who is assigned to the hospice; or (3) is a volunteer under the jurisdiction of the hospice.

"Fast-track" The process where advance approval may be secured for construction starts while design details are completed.

"First-year license" means a license issued for the initial twelve (12) month license period.

"Follow-up inspection" means the inspection by representatives of the Department that shall occur after a hospice has provided hospice services for at least six (6) months.

"Governing body" means a person, persons, or legal entity that is legally responsible for the conduct of the facility as an institution and carries out the functions, ownership, and governance in accordance with these regulations and the laws of this state.

"Initial assessment" means an evaluation of the patient's physical, psychosocial and emotional status related to the terminal illness and related conditions to determine the patient's immediate care and support needs.

"License" means a first-year or permanent hospice license issued pursuant to the Act and these rules.

"Licensed independent practitioner" means any individual permitted by law and by the licensed hospice to provide care and services, without direct supervision, within the scope of the individual's license and consistent with clinical privileges individually granted by the licensed hospice. Licensed independent practitioners may include advanced practice nurses with prescriptive authority, physician assistants, dentists, podiatrists, optometrists, chiropractors, and psychologists.

"Medical Crisis" means an event or situation in which a registered nurse, through direct assessment of the hospice patient, determines that the patient has entered into a period of crisis which requires a physician's intervention and continuous nursing care to achieve palliation or management of acute medical symptoms. Peaceful symptom controlled death is an expected patient outcome and is not considered a medical crisis. A medical crisis would include, but not be limited to the following: uncontrolled terminal agitation as demonstrated by hallucinations, confusion, and combativeness; uncontrolled pain; uncontrolled respiratory distress; uncontrolled nausea and vomiting; hemorrhaging; uncontrolled seizures; family distress as a result of ongoing symptom management for the patient requiring administration of medications to maintain the patient's comfort; and, any uncontrolled symptom that requires the administration of medications with ongoing

assessment of the effectiveness and adjustment of the medication regimen to achieve control of symptoms.

"Palliative care" means patient and family-centered care that optimizes quality of life by anticipating, preventing, and treating suffering. Palliative care throughout the continuum of illness involves addressing physical, intellectual, emotional, social, and spiritual needs and to facilitate patient autonomy, access to information, and choice.

"Permanent license" means a license first issued to a hospice program after the first-year license period has been completed and the required follow-up inspection has been conducted.

"Physician designee" means a doctor of medicine or osteopathy designated by the hospice who assumes the same responsibilities and obligations as the medical advisor when the medical advisor is not available.

"Registered nurse" means a person who is currently licensed to practice registered nursing in the State of Oklahoma.

"Representative" or **"Court appointed guardian"** means a person who is authorized in accordance with State law to execute or revoke an election for hospice care or terminate medical care on behalf of the terminally ill individual.

"Skilled nurse" means a person who is currently licensed to practice registered nursing or practical nursing in the State of Oklahoma.

"Social worker" means a person who has a degree from a school accredited or approved by the Council on Social Work Education and conforms to the requirements of the State Licensure Laws of Oklahoma for Social Workers.

310:661-1-3. Applicability

No public or private agency or person shall establish, conduct or maintain a hospice or hold itself out to the public as a hospice without first obtaining a license from the State Department of Health.

[Source: Added at 10 Ok Reg 77, eff 10-5-92 (emergency); Added at 10 Ok Reg 1705, eff 6-1-93 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97]

SUBCHAPTER 2. LICENSES

310:661-2-1. Licensure

(a) **Applicant.** Any public or private agency or person desiring to establish a hospice in Oklahoma shall apply for and obtain a license from the Department.

(b) **Application.** An application for a hospice license shall be filed on a form prescribed by the Department and shall be accompanied by the information required by the Act.

(c) **Plan of delivery.** The initial application shall be accompanied by a plan of delivery of home and inpatient hospice services to patients and their families. The plan shall include, but not be limited to, those items listed in the Act.

(d) **Expiration/renewal.**

(1) **First-year license.**

(A) The first-year license shall expire one (1) year from the date of issuance unless suspended or revoked. A hospice holding a first-year license is required to successfully complete an initial inspection by representatives of the Department prior to the provision of services and shall be subject to a follow-up inspection after providing hospice services for at least six (6) months. The Department may require any hospice to renew the first-year license for one additional year. A hospice shall not hold a first-year license for more than twenty-four (24) months.

(B) A follow-up survey that demonstrates compliance with the Act and these rules shall be required prior to a hospice program being issued a permanent license.

(2) **Permanent license.** The permanent license shall expire one (1) year from the date of issuance, unless suspended or revoked. An application for renewal shall be submitted according to the Act. Only hospice programs in compliance with the Act and these rules shall be issued a permanent license.

(e) **Base of operation.** Every hospice providing hospice services shall operate from a place of business which is accessible to the public and physically located in Oklahoma. Staff providing services from the hospice shall be supervised.

(f) **Eligibility for license.**

(1) A hospice making appropriate application that has been determined to be compliant with this Chapter and the Act is eligible for a license.

(2) A hospice may operate alternate administrative offices under one (1) license as long as the following requirements are met:

(A) The alternate administrative offices shall be operated under the same administration and governing body as an extension site for services of the main hospice. These offices shall operate under the same name(s) as the licensee.

(B) An application for license, or renewal thereof, to establish or operate each hospice alternate administrative office of an agency licensed in the State of Oklahoma shall be accompanied by a nonrefundable licensing fee of five hundred dollars (\$500.00) and application at least thirty (30) days before beginning operations.

(g) **Compliance with Federal, State and local laws and regulations.** The hospice and its staff shall operate and furnish services that comply with all applicable Federal, State, and local laws and rules. The hospice shall ensure that staff comply with applicable State practice acts and rules in the provision of hospice services.

(h) **Hospice inpatient facility.**

(1) Each licensed hospice program may operate one (1) hospice inpatient facility with twelve (12) or fewer inpatient beds as long as the facility complies with hospice inpatient facility service requirements at OAC 310:661-6 and hospice inpatient facility physical plant requirements at OAC 310:661-8.

(2) A hospice inpatient facility may not be independently licensed as a hospice unless the hospice provides a full continuum of hospice program services to patients in their homes and temporary places of residence including the inpatient hospice facility.

[Source: Amended and renumbered from 310:661-3-1 at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended and renumbered from 310:661-3-1 at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 23 Ok Reg 2412, eff 6-25-06 ; Amended at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22 ; Amended at 40 Ok Reg 1582, eff 9-11-23]

310:661-2-2. Deadlines for applications

The license application must be filed in accordance with the following deadlines:

(1) A first-year hospice license is filed at least thirty (30) days before beginning operations.

(2) License application following a transfer of ownership or operation, is filed at least thirty (30) days prior to the transfer. If the Department finds that an emergency exists which threatens the welfare of patients, the thirty (30) day advance filing notice may be waived.

(3) Renewal of an existing licensed hospice is filed at least sixty (60) days prior to the expiration date of the license.

(4) If relocation is considered, the hospice must file an amended application with the address change at least thirty (30) days prior to the intended relocation. No fee for processing the license address change will be required.

(5) Incomplete first-year license applications received by the Department will be summarily dismissed after thirty (30) days of applicant notification of an incomplete application. Thereafter, a new application and initial fee will be required.

[Source: Added at 14 Ok Reg 2106, eff 4-7-97 (emergency); Added at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 23 Ok Reg 2412, eff 6-25-06 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-2-3. Where to file

The application and the license fee must be submitted to the Department. The effective date will be the date a complete application and fee are received. All fees are non-refundable.

[Source: Added at 14 Ok Reg 2106, eff 4-7-97 (emergency); Added at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-2-4. Transfer of ownership of a licensed hospice

(a) The license of a hospice shall not be subject to sale, assignment, or other transfer, voluntary or involuntary.

(b) If an entity is considering acquiring a licensed hospice, then it must submit to the Department 30 days before the effective date of the acquisition:

- (1) an application [See OAC 310:661-2-5];
- (2) a non-refundable two thousand dollars (\$2,000) fee [See OAC 310:661-2-6];
- (3) a copy of the executed sales agreement; and
- (4) an additional five hundred dollars (\$500) for each alternate administrative office operated by the agency, if applicable.

(c) The following actions will not be considered a transfer of ownership or change in control requiring this subsection to apply:

- (1) Change of a corporate or limited liability company licensee's name through amendments of the articles of incorporation or membership agreement.
- (2) Sale of stock of a corporation.
- (3) Sale or merger of a corporation that owns the hospice operating entity.
- (4) Sale of membership interest of a limited liability company.

310:661-2-5. License application form

The applicant for a license must file the following application form: Application for License to Operate a Hospice (ODH Form 924). This form requests: amount of fee submitted; name of hospice; location and mailing address of hospice; name and title of chief executive officer; fiscal year ending date; operating entity name and address; type of operating entity; board of directors; complete disclosure of ownership including name, finding and mailing address, and percentage of ownership for every stockholder having at least five percent (5%) ownership in the hospice; name, signature, and title of position of persons making the application; and an affidavit attesting to the information provided.

[Source: Added at 14 Ok Reg 2106, eff 4-7-97 (emergency); Added at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 23 Ok Reg 2412, eff 6-25-06 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-2-6. Licensure fees

- (a) There is a non-refundable \$500 fee for an application for a first-year license to establish or operate a hospice and a non-refundable \$1,500 fee for a first-year license.
- (b) There is a non-refundable \$2,000 fee for a renewal application for an existing permanent hospice license.
- (c) A late renewal fee of \$50 will be charged for any hospice submitting an application for renewal within 30 days after the expiration date of the license.

[Source: Added at 16 Ok Reg 2518, eff 6-25-99 ; Amended at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 23 Ok Reg 2412, eff 6-25-06 ; Amended at 24 Ok Reg 2004, eff 6-25-07 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-2-7. Plan review fees

(a) Each hospice inpatient facility construction project will be charged a review fee based on the cost of the design and construction of the building project as follows:

- (1) Project cost less than \$10,000.00: \$250.00 Fee
- (2) Project cost \$10,000.00 to \$50,000.00: \$500.00 Fee
- (3) Project cost \$50,000.00 to \$250,000.00: \$1000.00 Fee
- (4) Project cost \$250,000.00 to \$1,000,000.00: \$1500.00 Fee
- (5) Project Cost greater than \$1,000,000.00: \$2000.00 Fee

(b) The review fee must be paid when stage one project plans are submitted to the Department for review. The fee will cover the cost of review for up to two (2) stage one and two (2) stage two submittals. If a stage one or stage two submittal is not approved after two (2) submissions, another review fee based on the cost of the project will be required for the third submittal. Fast-track projects will be allowed two (2) reviews for each package submitted. If a fast-track stage package is not approved after the second submittal, another review fee based on the cost of the project will be required with the third submittal of the package.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

SUBCHAPTER 3. ADMINISTRATION

310:661-3-1. Licensure [AMENDED AND RENUMBERED TO 310:661-2-1]

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended and renumbered to 310:661-2-1 at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended and renumbered to 310:661-2-1 at 14 Ok Reg 2269, eff 6-12-97]

310:661-3-2. Organization

(a) **Organization and administration of services.** The hospice must organize, manage, and administer its resources to provide the hospice care and services to patients, caregivers and families necessary for the palliation and management of the terminal illness and related conditions.

(b) **Serving the hospice patient and family.** The hospice must provide hospice care that:

- (1) Optimizes comfort and dignity; and
- (2) Is consistent with patient and family needs and goals, with patient needs and goals as priority.

(c) **Continuation of care.** A hospice cannot discontinue or reduce care provided because of the inability to pay for that care.

(d) **Professional management responsibility.** A hospice that has a written agreement with another agency, individual, or organization to furnish any services under arrangement must retain administrative and financial management, and oversight of staff and services for all arranged services, to ensure the provision of quality care. Arranged services must be supported by written agreements that require that all

services be:

- (1) Authorized by the hospice;
- (2) Furnished in a safe and effective manner by qualified personnel; and
- (3) Delivered in accordance with the patient's plan of care.

(e) **Narrative program.** Each Hospice must provide a narrative program with its application which describes the functions, staffing, services available to the patient and other basic information relating to the fulfillment of the facility's objectives.

(f) **Governing body.** A hospice must have a governing body that assumes full legal responsibility for determining, implementing and monitoring policies governing the total operations of the hospice. The governing body will designate an individual who is responsible for the day-to-day management of the hospice program. The governing body must also ensure that all services provided are consistent with accepted standards of practice.

(g) **Hospice team.** A hospice team must be developed and function according to the Act. The hospice team is responsible for all of the following:

- (1) Participation in the establishment of the plan of care.
- (2) Provision or supervision of hospice care and services.
- (3) Periodic review and updating of the plan of care for each individual receiving hospice care.
- (4) Implementation of policies governing the day-to-day provisions of hospice care and services.

(h) **Medical advisor.** The medical advisor must be a medical doctor or osteopathic physician and is responsible for the medical component of the patient care program for the hospice. The physician must also serve as medical advisor to the hospice, possess a license free of sanctions, and be a doctor of medicine or osteopathy who is an employee, or under contract with the hospice. When the medical advisor is not available, a physician designated by the hospice assumes the same responsibilities and obligations as the medical advisor.

(1) **Medical advisor contract.** When contracting for medical advisor services, the contract must specify the physician who assumes the medical advisor responsibilities and obligations. A hospice may contract with either of the following:

- (A) A self-employed physician; or
- (B) A physician employed by a professional entity or physician's group.

(2) **Initial certification of terminal illness.** The medical advisor or physician designee reviews the clinical information for each hospice patient and provides written certification that it is anticipated that the patient's life expectancy is one (1) year or less if the illness runs its normal course. The physician must consider the following when making this determination:

- (A) The primary terminal condition;
- (B) Related diagnosis(es), if any;
- (C) Current subjective and objective medical findings;
- (D) Current medication and treatment orders; and

(E) Information about the medical management of any of the patient's conditions unrelated to the terminal illness.

(3) **Medical advisor responsibility.** The medical advisor or physician designee has responsibility for the medical component of the hospice's patient care program.

(i) **Patient care coordinator.** A registered nurse must be appointed and approved by the hospice governing body and employed by the hospice as patient care coordinator to supervise and coordinate the palliative and supportive care for patients and families provided by a hospice team.

(j) **Medical social services.** Medical social services must be provided by a social worker employed by the hospice.

(k) **Support services.** Support services must be available to both the individual and the family. These services include bereavement support provided before the patient's death, spiritual support and any other support or service needed by the patient or family. These services may be provided by members of the interdisciplinary group as well as other qualified professionals as determined by the hospice.

(l) **Training.** A hospice must:

(1) provide orientation about the hospice philosophy to all employees and contracted staff who have patient and family contact;

(2) provide an initial orientation for each employee that addresses the employee's specific job duties.

(3) assess the skills and competence of all individuals furnishing care, including volunteers furnishing services, and, as necessary, provide in-service training and education programs where required. The hospice shall have written policies and procedures describing its method(s) of assessment of competency and maintain a written description of the in-service training provided during the previous twelve (12) months.

(m) **Volunteers.** Volunteers must be used in defined roles and under the supervision of a designated hospice employee. The hospice must provide appropriate orientation and training.

(1) **Training.** The hospice will maintain, document, and provide volunteer orientation and training.

(2) **Role.** Volunteers will be used in day-to-day administrative and/or direct patient care roles.

(3) **Recruiting and retaining.** The hospice will document and demonstrate viable and ongoing efforts to recruit and retain volunteers.

(4) **Utilization.** The hospice must document

(A) The identification of each position that is occupied by a volunteer.

(B) The work time spent by volunteers occupying those positions.

(n) **Criminal background checks.**

(1) The hospice must obtain a criminal background check on all hospice employees who have direct patient contact or access to patient records. Hospice contracts must require that all contracted entities obtain criminal background checks on contracted employees who have direct patient contact or access

to patient records.

(2) Each such criminal background check must meet the criteria established for certified nurse aides as provided for in Title 63 O.S. Section 1-1950.1 and be obtained in accordance with State requirements.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-3. Medical records

(a) The hospice must establish and maintain a medical record for each individual receiving care and services. The record must be complete, timely and accurately documented, and readily accessible.

(b) The medical record must contain sufficient information to justify the diagnosis and warrant the treatment and services provided. Entries are made and signed by the person providing the services. The record must include all care and services whether furnished directly or under arrangements by the hospice. Each record must contain at least the following:

- (1) Identification data;
- (2) Initial and subsequent assessments;
- (3) Plan of care;
- (4) Consent, authorization and election forms;
- (5) Medical history; and
- (6) Complete documentation of all care, services and events including evaluations, treatments, progress notes, laboratory and x-ray reports, and discharge summary.

(c) The hospice must safeguard the medical record against loss, destruction, and unauthorized use.

(d) Current records must be completed promptly. A plan of care must be completed within forty-eight (48) hours following admission. Records of discharged patients must be completed within thirty (30) days following discharge.

(e) Medical records must be retained at least five (5) years beyond the date the patient was last seen or at least three (3) years beyond the date of the patient's death.

(f) A hospice may microfilm medical records in order to conserve space. Records reconstituted from microfilm will be considered the same as the original and retention of the microfilmed record constitutes compliance with preservation laws.

(g) The hospice must advise the Department in writing at the time of cessation of operation as to where hospice records will be archived and how these records can be accessed.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-3.1. Clinical records

(a) **General.** A clinical record containing past and current findings is maintained for each hospice patient. The clinical record contains

accurate clinical information that is available to the patient's attending physician and hospice staff. The clinical record may be maintained electronically.

(b) **Content.** Each patient's record must include the following:

- (1) The initial plan of care, updated plans of care, initial assessment, comprehensive assessment, updated comprehensive assessments, and clinical notes;
- (2) Signed copies of the notice of patient rights;
- (3) Responses to medications, symptom management, treatments, and services;
- (4) Outcome measure data elements, as described in 310:661-5-3.1;
- (5) Physician certification of terminal illness;
- (6) Any advance directives; and
- (7) Physician orders.

(c) **Authentication.** All entries must be legible, clear, complete, and appropriately authenticated and dated in accordance with hospice policy.

(d) **Protection of information.** The clinical record, its contents and the information contained therein must be safeguarded against loss or unauthorized use. Additionally, the hospice is subject to all Federal and State privacy laws.

(e) **Discharge or transfer of care.**

- (1) If the care of a patient is transferred to another licensed hospice, the hospice will forward to the receiving hospice within twenty-four (24) hours, a copy of:
 - (A) The hospice discharge summary; and
 - (B) The patient's clinical record, as requested.
- (2) If a patient revokes the election of hospice care, or is discharged from hospice, the hospice will forward to the patient's attending physician within twenty-four (24) hours, a copy of:
 - (A) The hospice discharge summary; and
 - (B) The patient's clinical record, if requested.
- (3) The hospice discharge summary as required above must include:
 - (A) A summary of the patient's stay including treatments, symptoms and pain management;
 - (B) The patient's current plan of care;
 - (C) The patient's current physician orders; and
 - (D) Any other documentation that will assist in post-discharge continuity of care or that is requested by the attending physician or receiving hospice.

(f) **Retrieval of clinical records.** The clinical record, whether hard copy or in electronic form, must be made readily available on request.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-4. Confidentiality

(a) Medical records must be kept confidential. Only authorized personnel have access to the record. Written consent of the patient, patient representative, the court appointed guardian or a court order will be

accepted as authority for release of medical information.

(b) An individual who is, or has been, a patient of a physician, hospital, or other medical facility, except psychiatric, is entitled to access information contained in the individual's own medical records upon request. A request for minors may be made by parents or legal guardian. The hospice must furnish a copy of the medical record upon payment for the charge of such copy.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-5. Continuing education

The section implements the provisions of Title 63 O.S. 1-862 concerning hospice administrator continuing education.

[Source: Added at 36 Ok Reg 1728, eff 9-13-19]

310:661-3-5.1. Number of continuing education hours required

(a) All hospice administrators operating a hospice program in this state are required to complete eight (8) hours of continuing education each calendar year.

(b) Hours of continuing education may be completed in person or online.

(c) Membership in a statewide organization relating to hospice care will be considered as completion of one (1) hour of ethics credit each year.

[Source: Added at 36 Ok Reg 1728, eff 9-13-19 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-5.2. Acceptable continuing education

(a) Continuing education curriculum content is acceptable when it includes at least one of the following components:

- (1) Administrative skills, duties, and responsibilities;
- (2) Administrative procedures and strategic planning;
- (3) Community relations and public information;
- (4) Fiscal and information data management;
- (5) Human relations;
- (6) Ethics; or
- (7) State and federal statutes and rules applicable to Hospice service delivery.

(b) Continuing education hours may be offered through a graduate or undergraduate course, seminar, workshop, conference, or professional association meeting for the purpose of enhancing professional competency. This excludes independent reading and informal meetings that are informational in nature and are offered as a public service and not for the offering of continuing education.

(c) An acceptable instructor or entity offering continuing education courses must have:

- (1) Experience in hospice administration; or
- (2) Expertise in teaching and instructional methods suitable to the subject presented; or
- (3) Academic qualifications and experience for the subject.

[Source: Added at 36 Ok Reg 1728, eff 9-13-19 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-5.3. Documentation of attendance

(a) A hospice administrator must maintain in their personal records verification of course attendance, completion, or membership documents. Acceptable documents include the following:

- (1) A continuing education validation form furnished by the presenter;
- (2) A certificate or letter of attendance or completion with an agenda or content outline; or
- (3) An official college transcript showing courses completed with credit issued or audit credit.

(b) The presenting organization must be identified in the verification documents through documentation identifying the sponsoring entity, the name of the program, location, dates, subject taught, total number of hours, participant's name and presenter's name and credentials.

(c) Presentation of fraudulent continuing education documentation is a violation of this Chapter and applicable to the hospice license.

[Source: Added at 36 Ok Reg 1728, eff 9-13-19 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-3-5.4. Penalty for failure to fulfill continuing education

Failure to meet the continuing education requirements is a violation of Title 63, Section 1-862 and this Chapter and therefore, subject to a written notice of violation.

[Source: Added at 36 Ok Reg 1728, eff 9-13-19]

SUBCHAPTER 5. MINIMUM STANDARDS

310:661-5-1. Admission

- (a) Admission to a hospice will be in accord with the Act.
- (b) Hospice services will be available twenty-four (24) hours a day, seven (7) days a week.
- (c) A hospice program will not impose the dictates of any value or belief system on its patients and their families.
- (d) A hospice will coordinate its service with those of the patient's primary or attending physician, all hospice caregivers, and nursing facility staff if a patient resides in a nursing facility.
- (e) The hospice team will be responsible for coordination and continuity between inpatient and home care aspects of care.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-1.1. Admission to hospice care

- (a) The hospice admits a patient only on the recommendation of the medical advisor in consultation with, or with input from, the patient's attending physician (if any).
- (b) In reaching a decision to certify that the patient is terminally ill, the hospice medical advisor must consider at least the following information:
 - (1) Diagnosis of the terminal condition of the patient;
 - (2) Other health conditions, whether related or unrelated to the terminal condition; and
 - (3) Current clinically relevant information supporting all diagnoses.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-1.2. Discharge from hospice care

- (a) **Reasons for discharge.** A hospice may discharge a patient if:
 - (1) The patient moves out of the hospice's service area or transfers to another hospice;
 - (2) The hospice determines that the patient is no longer terminally ill; or
 - (3) The hospice determines, under a policy set by the hospice for the purpose of addressing discharge for cause that meets the requirements of paragraphs (a)(3)(A) through (a)(3)(D) of this section, that the patient's (or other persons in the patient's home)

behavior is disruptive, abusive, or uncooperative to the extent that delivery of care to the patient or the ability of the hospice to operate effectively is seriously impaired. The hospice will do the following before it seeks to discharge a patient for cause:

- (A) Advise the patient that a discharge for cause is being considered;
- (B) Document efforts to resolve the problem(s) presented by the patient's behavior or situation;
- (C) Ascertain that the patient's proposed discharge is not due to the patient's use of necessary hospice services; and
- (D) Document the problem(s) and efforts made to resolve the problem(s) and enter this documentation into its medical records.

(b) **Discharge order.** Prior to discharging a patient for any reason listed in paragraph (a) of this section, the hospice must obtain a written physician's discharge order from the hospice medical advisor. Any attending physician involved in the patient's care must be consulted before discharge and his or her review and decision included in the discharge note.

(c) **Discharge planning.**

- (1) The hospice must have a discharge planning process that takes into account the prospect that a patient's condition might stabilize or otherwise change such that the patient cannot continue to be certified as terminally ill.
- (2) The discharge planning process will include planning for any necessary family counseling, patient education, or other services before the patient is discharged because he or she is no longer terminally ill.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-1.3. Initial and comprehensive assessment of the patient

(a) **General.** The hospice must conduct and document in writing a patient-specific comprehensive assessment that identifies the patient's need for hospice care and services, and the patient's need for physical, psychosocial, emotional, and spiritual care. This assessment includes all areas of hospice care related to the palliation and management of the terminal illness and related conditions.

(b) **Initial assessment.** The hospice registered nurse must complete an initial assessment within forty-eight (48) hours after the physician's order for hospice care is received (unless the physician, patient, or representative requests that the initial assessment be completed in less than 48 hours.)

(c) **Timeframe for completion of the comprehensive assessment.** The hospice interdisciplinary group, in consultation with the individual's attending physician (if any), must complete the comprehensive assessment no later than five (5) calendar days after the election of hospice care .

(d) **Content of the comprehensive assessment.** The comprehensive assessment must identify the physical, psychosocial, emotional, and spiritual needs related to the terminal illness that will be addressed in order to promote the hospice patient's well-being, comfort, and dignity throughout the dying process. The comprehensive assessment must take into consideration the following:

- (1) The nature and condition causing admission (including the presence or lack of objective data and subjective complaints);
- (2) Complications and risk factors that affect care planning;
- (3) Functional status, including the patient's ability to understand and participate in his or her own care;
- (4) Imminence of death;
- (5) Severity of symptoms;
- (6) A review of all of the patient's prescription and over-the-counter drugs, herbal remedies and other alternative treatments that could affect drug therapy. This includes, but is not limited to, identification of the following:
 - (A) Effectiveness of drug therapy;
 - (B) Drug side effects;
 - (C) Actual or potential drug interactions;
 - (D) Duplicate drug therapy; and
 - (E) Drug therapy currently associated with laboratory monitoring.
- (7) An initial bereavement assessment of the needs of the patient's family and other individuals focusing on the social, spiritual, and cultural factors that may impact their ability to cope with the patient's death. Information gathered from the initial bereavement assessment is incorporated into the plan of care and considered in the bereavement plan of care; and
- (8) The need for referrals and further evaluation by appropriate health professionals.

(e) **Update of the comprehensive assessment.** The update of the comprehensive assessment must:

- (1) be accomplished by the hospice interdisciplinary group (in collaboration with the individual's attending physician, if any);
- (2) consider changes that have taken place since the initial assessment;
- (3) include information on the patient's progress toward desired outcomes, as well as a reassessment of the patient's response to care; and
- (4) be accomplished as frequently as the condition of the patient requires, but no less frequently than every fifteen(15) days.

(f) **Patient outcome measures.**

- (1) The comprehensive assessment must include data elements that allow for measurement of outcomes. The hospice must measure and document data in the same way for all patients. The data elements must take into consideration aspects of care related to hospice and palliation.
- (2) The data elements must be:
 - (A) an integral part of the comprehensive assessment;

- (B) documented in a systematic and retrievable way for each patient;
- (C) used in individual patient care planning and in the coordination of services; and
- (D) used in the aggregate for the hospice's quality assessment and performance improvement program.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-2. Plan of care

- (a) A written plan of care must be established and maintained for each patient admitted to a hospice program and the care provided to an individual is in accordance with the plan.
- (b) The plan must be established by the attending physician, the medical advisor, and the interdisciplinary group.
- (c) The plan of care must be reviewed and updated by the hospice team at intervals specified in the plan and documented by the team members.
- (d) The content of the plan must include an assessment of the patient's needs and identify the services provided. The plan must state in detail the scope and frequency of services needed to meet the patient's and family's needs.
- (e) Continuous care must be provided under a plan of care that is developed specifically to resolve the patient's medical crisis. These plans must include:
 - (1) Caregiver education;
 - (2) Anticipated duration of the continuous care;
 - (3) Necessity of continuous care;
 - (4) Interventions required;
 - (5) Identification of interdisciplinary team members developing the plan; and,
 - (6) Physician orders for continuous care.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 19 Ok Reg 2094, eff 6-27-02 ; Amended at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-2.1. Interdisciplinary group, care planning, and coordination of services

- (a) **General.** The hospice must designate an interdisciplinary group or groups which, in consultation with the patient's attending physician, will prepare a written plan of care for each patient. The plan of care will specify the hospice care and services necessary to meet the patient and family-specific needs identified in the comprehensive assessment as such needs relate to the terminal illness and related conditions.
- (b) **Approach to service delivery.**
 - (1) The hospice must designate in writing an interdisciplinary group or groups composed of individuals who work together to meet the physical, medical, psychosocial, emotional, and spiritual needs of the hospice patients and families facing terminal illness and bereavement. Interdisciplinary group members must provide the care and services offered by the hospice, and the group, in its entirety, must supervise the care and services. The hospice will

designate a registered nurse that is a member of the interdisciplinary group to provide coordination of care and to ensure continuous assessment of each patient's and family's needs and implementation of the interdisciplinary plan of care. The interdisciplinary group must include individuals who are qualified and competent to practice in the following professional roles:

- (A) A doctor of medicine or osteopathy (who is an employee or under contract with the hospice);
- (B) A registered nurse;
- (C) A social worker; and
- (D) A pastoral or other counselor.

(2) If the hospice has more than one interdisciplinary group, it must identify a specifically designated interdisciplinary group to establish policies governing the day-to-day provision of hospice care and services.

(c) **Plan of care.** All hospice care and services furnished to patients and their families must follow an individualized written plan of care established by the hospice interdisciplinary group in collaboration with the attending physician (if any), the patient or representative, and the primary caregiver in accordance with the patient's needs. The hospice will ensure that each patient and the primary care giver(s) receive education and training provided by the hospice as appropriate to their responsibilities for the care and services identified in the plan of care.

(d) **Content of the plan of care.** The hospice must develop an individualized written plan of care for each patient. The plan of care will reflect patient and family goals and interventions based on the problems identified in the initial, comprehensive, and updated comprehensive assessments. The plan of care must include all services necessary for the palliation and management of the terminal illness and related conditions, including at least the following:

- (1) Interventions to manage pain and symptoms;
- (2) A detailed statement of the scope and frequency of services necessary to meet the specific patient and family needs;
- (3) Measurable outcomes anticipated from implementing and coordinating the plan of care;
- (4) Drugs and treatment necessary to meet the needs of the patient;
- (5) Medical supplies and appliances necessary to meet the needs of the patient; and
- (6) The interdisciplinary group's documentation of the patient's or representative's level of understanding, involvement, and agreement with the plan of care, in accordance with the hospice's own policies, in the clinical record.

(e) **Review of the plan of care.** The hospice interdisciplinary group (in collaboration with the individual's attending physician, if any) must review, revise and document the individualized plan as frequently as the patient's condition requires, but no less frequently than every fifteen (15) calendar days. A revised plan of care must include information from the patient's updated comprehensive assessment and note the patient's progress toward outcomes and goals specified in the plan of care.

(f) **Coordination of services.** The hospice must develop and maintain a system of communication and integration, in accordance with the hospice's own policies and procedures, to:

- (1) Ensure that the interdisciplinary group maintains responsibility for directing, coordinating, and supervising the care and services provided;
- (2) Ensure that the care and services are provided in accordance with the plan of care;
- (3) Ensure that the care and services provided are based on all assessments of the patient and family needs;
- (4) Provide for and ensure the ongoing sharing of information between all disciplines providing care and services in all settings, whether the care and services are provided directly or under arrangement; and
- (5) Provide for an ongoing sharing of information with other non-hospice healthcare providers furnishing services unrelated to the terminal illness and related conditions.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-2.2. Core Services

(a) **General.** A hospice must provide substantially all core services directly by hospice trained and oriented employees. These services include nursing services, medical social services, and bereavement and spiritual counseling. The hospice may contract for physician services.

(b) **Physician services.** The hospice medical advisor, physician employees, and contracted physician(s) of the hospice, in conjunction with the patient's attending physician, are responsible for the palliation and management of the terminal illness and conditions related to the terminal illness.

- (1) All physician employees and those under contract, must function under the supervision of the hospice medical advisor.
- (2) All physician employees and those under contract must meet this requirement by either providing the services directly or through coordinating patient care with the attending physician.
- (3) If the attending physician is unavailable, the medical advisor, contracted physician, and/or hospice physician employee is responsible for meeting the medical needs of the patient.

(c) **Nursing services.**

- (1) The hospice must provide nursing care by licensed nurses under the supervision of a registered nurse. Nursing services must ensure that the nursing needs of the patient are met as identified in the patient's initial assessment, comprehensive assessment, and updated assessments.
- (2) If State law permits registered nurses to see, treat, and write orders for patients, then registered nurses may provide services to patients receiving hospice care.
- (3) Highly specialized nursing services that are provided so infrequently that the provision of such services by direct hospice employees would be impracticable and prohibitively expensive,

may be provided under contract.

(d) **Medical social services.** Medical social services must be provided by a qualified social worker, under the direction of a physician. Social work services must be based on the patient's psychosocial assessment and the patient's and family's needs and acceptance of these services.

(e) **Counseling services.** Counseling services must be available to the patient and family to assist the patient and family in minimizing the stress and problems that arise from the terminal illness, related conditions, and the dying process. Counseling services will include, but are not limited to, the following:

(1) **Bereavement counseling.** The hospice must:

(A) Have an organized program for the provision of bereavement services furnished under the supervision of a qualified professional with experience or education in grief or loss counseling;

(B) Make bereavement services available to the family and other individuals in the bereavement plan of care up to one (1) year following the death of the patient.

Bereavement counseling also extends to residents of a care facility when appropriate and identified in the bereavement plan of care;

(C) Ensure that bereavement services reflect the needs of the bereaved; and

(D) Develop a bereavement plan of care that notes the kind of bereavement services to be offered and the frequency of service delivery.

(2) **Dietary counseling.** Dietary counseling, when identified in the plan of care, must be performed by a qualified individual, which include dietitians as well as nurses and other individuals who are able to address and assure that the dietary needs of the patient are met.

(3) **Spiritual counseling.** The hospice must:

(A) Provide an assessment of the patient's and family's spiritual needs;

(B) Provide spiritual counseling to meet these needs in accordance with the patient's and family's acceptance of this service, and in a manner consistent with patient and family beliefs and desires;

(C) Make all reasonable efforts to facilitate visits by local clergy, pastoral counselors, or other individuals who can support the patient's spiritual needs to the best of its ability; and

(D) Advise the patient and family of this service.

310:661-5-2.3. Physical therapy, occupational therapy, speech-language pathology

Physical therapy services, occupational therapy services, and speech-language pathology services must be available.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-2.4. Licensed Professional Services

(a) Licensed professional services provided directly or under arrangement must be authorized, delivered, and supervised only by health care professionals who meet the appropriate qualifications specified by the State and who practice under the hospice's policies and procedures.

(b) Licensed professionals must actively participate in the coordination of all aspects of the patient's hospice care, in accordance with current professional standards and practice, including participating in ongoing interdisciplinary comprehensive assessments, developing and evaluating the plan of care, and contributing to patient and family counseling and education.

(c) Licensed professionals must participate in the hospice's quality assessment and performance improvement program and hospice sponsored in-service training.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-3. Quality assurance

(a) The hospice must develop, maintain, and conduct a comprehensive quality assurance program that includes an evaluation of services, quarterly clinical record audits, and organizational review.

(b) The hospice must ensure that appropriate and quality care is provided to include inpatient care, home care, and care provided under arrangements.

(c) The quality assurance program must be reviewed at least once a year. Policies and procedures will be revised as needed, reviewed, and approved annually. Goals will be established and problems identified with documented results.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-3.1. Quality Assessment/Performance Improvement

(a) The hospice must develop, implement, and maintain an effective, ongoing, hospice-wide data-driven quality assessment and performance improvement program. The hospice's governing body must ensure that the program: Reflects the complexity of its organization and services; involves all hospice services (including those services furnished under contract or arrangement); focuses on indicators related to improved palliative outcomes; and takes actions to demonstrate improvement in hospice performance. The hospice must maintain documentary evidence of its quality assessment and performance improvement program and be

able to demonstrate its operation to the Department of Health.

(b) Program scope.

(1) The program must at least be capable of showing measurable improvement in indicators related to improved palliative outcomes and hospice services.

(2) The hospice must measure, analyze, and track quality indicators, including adverse patient events, and other aspects of performance that enable the hospice to assess processes of care, hospice services, and operations.

(c) Program data.

(1) The program must use quality indicator data, including patient care, and other relevant data, in the design of its program.

(2) The hospice must use the data collected to do the following:

(A) Monitor the effectiveness and safety of services and quality of care; and

(B) Identify opportunities and priorities for improvement.

(3) The frequency and detail of the data collection must be approved by the hospice's governing body.

(d) Program activities.

(1) The hospice's performance improvement activities must:

(A) Focus on high risk, high volume, or problem-prone areas;

(B) Consider incidence, prevalence, and severity of problems in those areas; and

(C) Affect palliative outcomes, patient safety, and quality of care.

(2) Performance improvement activities must track adverse patient events, analyze their causes, and implement preventive actions and mechanisms that include feedback and learning throughout the hospice.

(3) The hospice must take actions aimed at performance improvement and, after implementing those actions, the hospice shall measure its success and track performance to ensure that improvements are sustained.

(e) Performance improvement projects. Hospices must develop, implement, and evaluate performance improvement projects.

(1) The number and scope of distinct performance improvement projects conducted annually, based on the needs of the hospice's population and internal organizational needs, must reflect the scope, complexity, and past performance of the hospice's services and operations.

(2) The hospice must document what performance improvement projects are being conducted, the reasons for conducting these projects, and the measurable progress achieved on these projects.

(f) Executive responsibilities. The hospice's governing body is responsible for ensuring the following:

(1) An ongoing program for quality improvement and patient safety is defined, implemented, and maintained, and is evaluated annually;

(2) The hospice-wide quality assessment and performance improvement efforts address priorities for improved quality of

care and patient safety, and that all improvement actions are evaluated for effectiveness; and

(3) One or more individual(s) who are responsible for operating the quality assessment and performance improvement program are designated.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-4. Rights and responsibilities

(a) Every hospice must provide, before or at the time of admission, a written statement of rights and responsibilities to each patient, or patient representative, or available family member. The hospice shall ensure that all staff members are familiar with and observe the rights and responsibilities enumerated in the statement.

(b) The statement must inform the patient that he/she has a right to:

(1) A listing of available services, charges, billing process, and services that may be covered by private payment, private insurance, or state or federal medical care payment programs, including Medicaid or Medicare;

(2) Advance notice of any change in fees or billing as soon as possible but no later than thirty (30) calendar days before the effective date of the change;

(3) Receive information explaining the Medicare, Medicaid and insurance benefits which are no longer available to the patient while the patient receives hospice care, any applicable benefit periods, length of time of each benefit period, and the process of revoking and transferring from one hospice to another if the patient desires;

(4) Be informed of the right to participate in the planning of care, the right to be advised in advance of any changes in the plan of care, the disciplines that shall furnish care, the proposed frequency of care, the title of the person supervising the patient's care and the manner in which that person may be contacted;

(5) Revoke the hospice benefit, without coercion from the hospice;

(6) Expect that the hospice shall enter no further into family life and affairs than is required to meet the goals of the hospice care plan;

(7) A grievance procedure that includes the right to register a grievance with the hospice regarding treatment or care received or lack of treatment or care without reprisal or discrimination from the hospice; and

(8) File a complaint with the Oklahoma State Department of Health at its current mailing address.

(c) The statement must include the following hospice responsibilities:

(1) Accepting patients for service only if they meet hospice admission criteria and have been determined to be terminally ill by a licensed medical doctor or osteopathic physician;

(2) Providing services regardless of payment;

(3) Providing services if the patient is a nursing facility resident and indicating that care will be provided according to the hospice

plan of care and that the nursing facility will be provided with the plan of care and all subsequent changes to ensure care is coordinated;

(4) Informing the patient representative or family of the patient's condition and what future changes may occur in the patient's condition and encouraging the patient or patient representative to express feelings and emotions without fear of reprisal;

(5) Providing caregivers who are non-judgmental and conduct themselves in a professional manner;

(6) Making and accepting referrals solely in the best interest of the patient;

(7) Ensuring that hospice owners, employees, and contractors do not knowingly initiate contact with a patient currently treated by another hospice for the purpose of attempting to persuade the patient to change hospice providers, and ensuring that a hospice which has knowledge of contacts initiated by its employees, owners or contractors will take reasonable and necessary steps to cease such contacts;

(8) Respecting and being sensitive to the ethnic, cultural, socioeconomic, religious and lifestyle diversity of the patients and their families;

(9) Ascertaining and honoring the wishes, concerns, priorities and values of the patient and the patient's family including refusal of routine care and treatment consistent with the organization's values as stated by hospice policy;

(10) Complying with the patient's advance directive, informing the patient of the right to revoke the advance directive at any time, and discussing the procedures required to revoke;

(11) Providing qualified personnel to meet the patient's needs;

(12) Supporting, affirming, and empowering families as caregivers while acknowledging and responding with sensitivity to the interruption of privacy that is necessitated by hospice care in the patient's residence; and

(13) Ensuring that contracted providers and volunteers are qualified and properly trained and provide care consistent with the values and philosophy of hospice.

(14) Ensuring hospice care is established to meet the patient's needs and not to supplement facility staffing if the patient resides in an inpatient facility.

[Source: Added at 14 Ok Reg 2106, eff 4-7-97 (emergency); Added at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 19 Ok Reg 2094, eff 6-27-02 ; Amended at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-4.1. Additional rights of the patient

(a) **General.** The patient has the right to be informed of his or her rights, and the hospice must protect and promote the exercise of these rights.

(b) **Notice of rights and responsibilities.**

(1) During the initial assessment visit in advance of furnishing care the hospice must provide the patient or representative with verbal and written notice of the patient's rights and

responsibilities in a language and manner that the patient understands.

(2) The hospice must inform and distribute written information to the patient concerning its policies on advance directives, including a description of applicable State law.

(3) The hospice must obtain the patient's or representative's signature confirming that he or she has received a copy of the notice of rights and responsibilities.

(c) Exercise of rights and respect for property and person.

(1) The patient has the right:

(A) To exercise his or her rights as a patient of the hospice;

(B) To have his or her property and person treated with respect;

(C) To voice grievances regarding treatment or care that is (or fails to be) furnished and the lack of respect for property by anyone who is furnishing services on behalf of the hospice; and

(D) To not be subjected to discrimination or reprisal for exercising his or her rights.

(2) If a patient has been adjudged incompetent under state law by a court of proper jurisdiction, the rights of the patient are exercised by the person appointed pursuant to state law to act on the patient's behalf.

(3) If a state court has not adjudged a patient incompetent, any legal representative designated by the patient in accordance with state law may exercise the patient's rights to the extent allowed by state law.

(4) The hospice must:

(A) Ensure that all alleged violations involving mistreatment, neglect, or verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property by anyone furnishing services on behalf of the hospice, are reported immediately by hospice employees and contracted staff to the hospice administrator;

(B) Immediately investigate all alleged violations involving anyone furnishing services on behalf of the hospice and immediately take action to prevent further potential violations while the alleged violation is being verified. Investigations and/or documentation of all alleged violations shall be conducted in accordance with established procedures;

(C) Take appropriate corrective action in accordance with state law if the alleged violation is verified by the hospice administration or an outside body having jurisdiction, such as the State survey agency or local law enforcement agency; and

(D) Ensure that verified violations are reported to State and local bodies having jurisdiction (including to the State survey and certification agency) within 5 working days of

becoming aware of the violation.

- (d) **Rights of the patient.** The patient has a right to the following:
- (1) Receive effective pain management and symptom control from the hospice for conditions related to the terminal illness;
 - (2) Be involved in developing his or her hospice plan of care;
 - (3) Refuse care or treatment;
 - (4) Choose his or her attending physician;
 - (5) Have a confidential clinical record. Access to or release of patient information and clinical records is permitted in accordance with State and Federal law.
 - (6) Be free from mistreatment, neglect, or verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property;
 - (7) Receive information about the services covered under the hospice benefit; and
 - (8) Receive information about the scope of services that the hospice will provide and specific limitations on those services.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-5. Continuous care

Every hospice must provide continuous care as necessary to meet the medical crisis needs of the hospice patient and family. The provision of continuous care must meet the following requirements:

- (1) A skilled nurse provides at least 51% of the care in a 24-hour period, and a qualified home health aide must provide the balance of care.
- (2) A registered nurse reassesses the patient at least every 24-hours to determine the effectiveness of interventions and the need for continued care.
- (3) Continuous care is ordered by a physician upon initiation of the care and every 24-hour period thereafter of the uncontrolled medical crisis.

[Source: Added at 19 Ok Reg 2094, eff 6-27-02 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-6. Infection Control

- (a) **General.** The hospice must maintain and document an effective infection control program that protects patients, families, visitors, and hospice personnel by preventing and controlling infections and communicable diseases.
- (b) **Prevention.** The hospice must follow accepted standards of practice to prevent the transmission of infections and communicable diseases, including the use of standard precautions.
- (c) **Control.** The hospice must maintain a coordinated agency-wide program for the surveillance, identification, prevention, control, and investigation of infectious and communicable diseases that:
- (1) Is an integral part of the hospice's quality assessment and performance improvement program; and
 - (2) Includes the following:

- (A) A method of identifying infectious and communicable disease problems; and
 - (B) A plan for implementing the appropriate actions that are expected to result in improvement and disease prevention.
- (d) **Education.** The hospice must provide infection control education to employees, contracted providers, patients, and family members and other caregivers.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-7. Supervision of hospice aides

- (a) A registered nurse must make an on-site visit to the patient's home:
- (1) No less frequently than every fourteen (14) calendar days to assess the quality of care and services provided by the hospice aide and to ensure that services ordered by the hospice interdisciplinary group meet the patient's needs. The hospice aide does not have to be present during this visit.
 - (2) If an area of concern is noted by the supervising nurse, then the hospice must make an on-site visit to the location where the patient is receiving care in order to observe and assess the aide while he or she is performing care.
 - (3) If an area of concern is verified by the hospice during the on-site visit, then the hospice must conduct, and the hospice aide must complete a competency evaluation.
- (b) A registered nurse must make an annual on-site visit to the location where a patient is receiving care in order to observe and assess each aide while he or she is performing care.
- (c) The supervising nurse must assess an aide's ability to demonstrate initial and continued satisfactory performance in meeting outcome criteria that include, but is not limited to:
- (1) Following the patient's plan of care for completion of tasks assigned to the hospice aide by the registered nurse;
 - (2) Creating successful interpersonal relationships with the patient and family;
 - (3) Demonstrating competency with assigned tasks;
 - (4) Complying with infection control policies and procedures; and
 - (5) Reporting changes in the patient's condition.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-8. Drugs and Biologicals, Medical Supplies, Durable Medical Equipment

- (a) **General.** Medical supplies and appliances; durable medical equipment; and drugs and biologicals related to the palliation and management of the terminal illness and related conditions, as identified in the hospice plan of care, must be provided by the hospice while the patient is under hospice care.
- (b) **Managing drugs and biologicals.**

(1) The hospice must ensure that the interdisciplinary group confers with an individual with education and training in drug management as defined in hospice policies and procedures and State law, who is an employee of or under contract with the hospice to ensure that drugs and biologicals meet each patient's needs.

(2) A hospice that provides inpatient care directly in its own facility must provide pharmacy services under the direction of a qualified licensed pharmacist who is an employee of or under contract with the hospice. The provided pharmacist services must include evaluation of a patient's response to medication therapy, identification of potential adverse drug reactions, and recommended appropriate corrective action.

(c) Ordering of drugs.

(1) Only a licensed independent practitioner with prescriptive authority, in accordance with the plan of care and State law, may order drugs for the patient.

(2) If the drug order is verbal or given by or through electronic transmission:

(A) It must be given only to a licensed health care practitioners within their scope of practice under state law and authorized by hospice policy to receive verbal orders; and

(B) The individual receiving the order must record and sign it immediately and have the prescribing person sign it in accordance with State and Federal regulations.

(d) Dispensing of drugs and biologicals. The hospice must obtain drugs and biologicals from community or institutional pharmacists or stock drugs and biologicals itself.

(e) Administration of drugs and biologicals. The interdisciplinary group, as part of the review of the plan of care, must determine the ability of the patient and/or family to safely self-administer drugs and biologicals to the patient in his or her home.

(f) Labeling, disposing, and storing of drugs and biologicals.

(1) **Labeling.** Drugs and biologicals must be labeled in accordance with currently accepted professional practice and include appropriate usage and cautionary instructions, as well as an expiration date (if applicable).

(2) **Disposing.** The hospice must have written policies and procedures for the management and disposal of controlled drugs in the patient's home. At the time when controlled drugs are first ordered the hospice must:

(A) Provide a copy of the hospice written policies and procedures on the management and disposal of controlled drugs to the patient or patient representative and family;

(B) Discuss the hospice policies and procedures for managing the safe use and disposal of controlled drugs with the patient or representative and the family in a language and manner that they understand to ensure that these parties are educated regarding the safe use and disposal of controlled drugs; and

(C) Document in the patient's clinical record that the written policies and procedures for managing controlled drugs was provided and discussed.

(g) **Use and maintenance of equipment and supplies.**

(1) The hospice must ensure that manufacturer recommendations for performing routine and preventive maintenance on durable medical equipment are followed. The equipment must be safe and work as intended for use in the patient's environment. Where a manufacturer recommendation for a piece of equipment does not exist, the hospice must ensure that repair and routine maintenance policies are developed. The hospice may use persons under contract to ensure the maintenance and repair of durable medical equipment.

(2) The hospice must ensure that the patient, where appropriate, as well as the family and/or other caregiver(s), receive instruction in the safe use of durable medical equipment and supplies. The hospice may use persons under contract to ensure patient and family instruction. The patient, family, and/or caregiver must be able to demonstrate the appropriate use of durable medical equipment to the satisfaction of the hospice staff.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-5-9. Short-term inpatient care

- (a) Inpatient care must be available for pain control, symptom management, and respite purposes.
- (b) If the hospice has an arrangement with another facility to provide for short-term inpatient care, the arrangement is described in a written agreement, coordinated by the hospice, and at a minimum specifies that:
- (1) the hospice supplies the inpatient provider a copy of the patient's plan of care and specifies the inpatient services to be furnished;
 - (2) the inpatient provider has established patient care policies consistent with those of the hospice and agrees to abide by the palliative care protocols and plan of care established by the hospice for its patients;
 - (3) the hospice patient's inpatient clinical record includes a record of all inpatient services furnished and events regarding care that occurred at the facility; that a copy of the discharge summary be provided to the hospice at the time of discharge; and that a copy of the inpatient clinical record is available to the hospice at the time of discharge;
 - (4) the inpatient facility has identified an individual within the facility who is responsible for the implementation of the provisions of the agreement; and
 - (5) the hospice retains responsibility for ensuring that the training of personnel who will be providing the patient's care in the inpatient facility has been provided and that a description of the training and the names of those giving the training are documented.

[Source: Added at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

SUBCHAPTER 6. HOSPICE INPATIENT SERVICE REQUIREMENTS

310:661-6-1. General

- (a) Each hospice program that operates a hospice inpatient facility must comply with service requirements specified in this subchapter.
- (b) Patients are allowed to receive visitors at any hour, including small children and house pets.
- (c) Smoking or possessing a lighted tobacco product is prohibited in a hospice inpatient facility and within fifteen (15) feet of each entrance to a facility and of any air intakes; provided however, the facility may provide a smoking room for use by patients and their visitors. The walkway to the main entrance must also be smoke free. Ashtrays cannot be located closer than fifteen (15) feet to an entrance, except in an indoor smoking room. An indoor smoking room may be provided if:
- (1) It is completely enclosed;
 - (2) It is exhausted directly to the outside and maintained under negative pressure sufficient to prevent any tobacco smoke from

- entering non-smoking areas of the building;
- (3) It allows for visual observation of the patients from outside of the smoking room; and
- (4) The plans are reviewed and approved by the Department.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-6-2. Compliance with health and safety requirements

- (a) Each hospice inpatient facility must comply with all Federal, State, and local laws, regulations, codes and ordinances as required.
- (b) The facility must have written policies and procedures relating to advance directives with respect to all patients receiving care. These policies and procedures will comply with existing Federal and State laws.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-6-3. Nursing services

- (a) The facility must provide twenty-four (24) hour nursing services sufficient to meet the needs of the hospice inpatients.
- (b) Each patient must receive treatments, medications, and diet as prescribed, and kept comfortable, clean, well-groomed, and protected from accident, injury, and infection.
- (c) Each shift must include at least one (1) registered nurse to supervise the facility and provide direct patient care.
- (d) There must be adequate numbers of other licensed nurses and support staff to provide services established in the patient's plan of care while the patient is in the facility.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-6-4. Dietary services

- (a) The facility must provide dietary service adequate to meet the dietary needs of the patients. Services may be provided on a contract basis as long as dietary needs of patients are met.
- (b) Each facility must serve at least three (3) meals or their equivalent each day at regular times, with not more than fourteen (14) hours between a substantial evening meal and breakfast.
- (c) Menus must be planned and followed to balance patient choice with nutritional needs of patients, in accordance with physicians' orders and to the extent medically possible, in accordance with the Dietary Reference Intakes (DRIs) of the Food and Nutrition Board of the Institute of Medicine, National Academy of Sciences.
- (d) The facility must procure, store, prepare, distribute, and serve all food under sanitary conditions in compliance with Chapter 257 of this Title.
- (e) Nourishments are available for all patients at anytime in accordance with approved diet orders.
- (f) There must be adequate trained staff available to manage and provide dietary services. A licensed/registered dietitian must be available to provide consultation on patients' dietary needs, supervise services, and

ensure medically prescribed special diets are provided as ordered.

(g) The system to be used for dishwashing must be approved by the Department and operated in accordance with approved procedures and requirements of Chapter 257 of this Title.

(h) Garbage and refuse must be kept in durable, easily cleanable, insect-proof and rodent-proof containers that do not leak and do not absorb liquids. Adequate carriers and containers will be provided for the collection and transportation, in a sanitary manner, of garbage and refuse from food service areas of the hospice to the place of disposal in accordance with the requirements of Chapter 257 of this Title.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 24 Ok Reg 2004, eff 6-25-07 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-6-5. Pharmaceutical services

(a) The hospice inpatient facility must provide appropriate methods and procedures for dispensing and administering drugs and biologicals. Whether drugs and biologicals are obtained from community or institutional pharmacies or maintained and stocked by the facility, the facility is responsible for the pharmaceutical services and ensure services are provided in accordance with accepted professional standards of practice in compliance with Federal, State, and local laws.

(b) Each facility must employ or contract with a licensed pharmacist to supervise services and ensure drugs and biologicals are obtained, stored, administered and disposed of as required by Federal and State law.

(c) A physician or licensed independent practitioner must order all medications for each patient. If the physician or practitioner's order is verbal, the physician or practitioner must give the order to a licensed nurse or other individual authorized by State law to receive the order. The individual receiving the order must record and sign the order immediately and have the prescribing physician or practitioner sign as soon as possible in a manner consistent with good medical practice. Another covering or attending physician or practitioner may sign another physician or practitioner's verbal order if the facility allows this practice and specific procedures are approved by the governing body to permit the practice. If a covering or attending physician or practitioner authenticates the ordering physician or practitioner's verbal order, such an authentication indicates that the covering or attending physician or practitioner assumes responsibility for his or her colleague's order and verifies the order is complete, accurate, appropriate, and final.

(d) Drugs and biologicals must be administered only by a physician, licensed nurse, an individual authorized by State law to administer, or the patient if his or her attending physician has approved.

(e) The pharmaceutical service must have procedures for control and accountability of all drugs and biologicals in the facility. Drugs are dispensed in compliance with Federal and State law. Records of receipt and disposition of all controlled drugs are maintained in sufficient detail to enable an accurate reconciliation. The pharmacist must ensure the drug records are in order and that an account of all controlled drugs is maintained and reconciled.

(f) The labeling of drugs and biologicals is based on currently accepted professional principles in compliance with State law, and includes the appropriate accessory and cautionary instructions, as well as the expiration date and lot number when applicable.

(g) All drugs and biologicals must be stored in locked compartments under proper temperature controls. Only authorized personnel must have access. Separately locked compartments must be provided for storage of Schedule II controlled drugs. All stores of Schedule II drugs not individually dispensed to a patient must be accounted for at regular intervals to ensure the drugs are not diverted.

(h) If the facility only maintains drugs and biologicals by individual patient prescription, an emergency medication kit approved by the Medical advisor must also be maintained.

(i) Controlled drugs no longer needed by the patient must be disposed of in compliance with Federal and State requirements. The pharmacist and a facility registered nurse or two (2) facility registered nurses must document disposal and maintain a record.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 26 Ok Reg 2042, eff 6-25-09 ; Amended at 39 Ok Reg 1375, eff 9-11-22 ¹]

Editor's Note: ¹ *When published in the Register, these permanent amendments to this Section (310:661-6-5) were incorrectly numbered as amendments to 310:661-6-7. This error was editorially corrected, and the amendments were codified as amendments to the correct number (310:661-6-5).*

310:661-6-6. Disaster preparedness

The hospice inpatient facility must have an acceptable written plan, periodically rehearsed with staff, with procedures to be followed in the event of an internal or external disaster and for the care of casualties arising from such disasters.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-6-7. Infection control

310:661-6-7.¹ Infection control

Each hospice inpatient facility must establish an infection control program to provide a sanitary environment and avoid sources and transmission of infections. The program must include written policies and procedures for identifying, reporting, evaluating and maintaining records of infections among patients and personnel, for ongoing review and evaluation of all aseptic, isolation and sanitation techniques employed in the facility, and development and coordination of training programs in infection control for all facility personnel.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

Editor's Note: ¹In 2009, permanent amendments were incorrectly promulgated as amendments to this section number (310:661-6-7) instead of 310:661-6-5, as intended [see 26 Ok Reg 2042, effective 6-25-09]. This error was editorially corrected, and the amendments were codified as amendments to the correct number (310:661-6-5).

SUBCHAPTER 7. INFRACTIONS

310:661-7-1. Inspections

Any duly authorized representative of the Department has the right to conduct such inspections as necessary in order to determine compliance with the provisions of the Act and this Chapter. The right of inspection also extends to any hospice the Department has a reason to believe is advertising or operating a hospice service without a license.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-7-2. Complaints and investigations

(a) A complaint may be registered by any person who believes a hospice is operating contrary to the Act or is posing a serious threat to the health and welfare of a patient in its care. The complaint may be registered verbally or in writing to the Department. An investigation will be conducted by the Department to determine the validity of the complaint and to instigate necessary action thereto. The Department must notify the complainant in writing of the findings, if a name and address is furnished.

(b) If the Department determines there are reasonable grounds to believe that a hospice is operating in violation of the Act or the rules, the Department must follow the notice and hearing procedure established by the Act and the Procedures of the Department, Chapter 2 of this Title.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 21 Ok Reg 1303, eff 5-27-04 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

310:661-7-3. Penalties

After notice and hearing pursuant to the Act, the Department may use any and all of the remedies provided by the Act and by the general statutory authority of the Commissioner of Health.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92]

310:661-7-4. Appeals

Final orders of the Department may be appealed to the Supreme Court. Appeals must be in accordance with 63 O.S. § 1-860.11.

[Source: Added at 9 Ok Reg 1985, eff 6-11-92 ; Amended at 14 Ok Reg 2106, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2269, eff 6-12-97 ; Amended at 39 Ok Reg 1375, eff 9-11-22]

SUBCHAPTER 8. HOSPICE INPATIENT FACILITY PHYSICAL PLANT

310:661-8-1. General

(a) These requirements are intended as minimum standards for constructing and equipping a hospice inpatient facility of twelve beds (12) beds or less. Inpatient hospice facilities containing three (3) beds or less shall only be required to comply with the physical plant requirements contained in Section 310:661-8-14 of this subchapter. Insofar as practical, these rules relate to desired performance or results or both. Details of construction and engineering are assumed to be part of good design practice and local building regulations. Design and construction shall conform to the requirements of these rules. Requirements set forth in these rules shall be considered as minimum. For aspects of design and construction not included, local governing building codes shall apply. Where there is no local governing building code, the prevailing model code used within the geographic area is hereby specified for all requirements not otherwise specified in these rules.

(b) These rules are not intended to restrict innovations and improvements in design or construction techniques. Accordingly, the Department may approve plans and specifications which contain deviations if it is determined that the respective intent or objective has been met.

(c) All facilities shall comply, insofar as practical, with applicable sections of these standards and with appropriate parts of NFPA 101, 2000 edition, covering Health Care Occupancies which is incorporated by reference. Where major structural elements make total compliance impractical or impossible, exceptions may be considered by the Department. This does not guarantee that an exception shall be granted, but does attempt to minimize restrictions on those improvements where total compliance would not substantially improve safety, but would create an unreasonable hardship. This subchapter shall not be construed as prohibiting a single phase of improvement. However, they are not intended as an encouragement to ignore deficiencies when resources are available to correct life-threatening problems.

(1) When construction is complete, the facility shall satisfy functional requirements for a hospice inpatient facility in an environment that shall provide acceptable care and safety to all occupants.

(2) In renovation projects and those making additions to existing facilities, only that portion of the total facility affected by the project shall comply with applicable sections of these standards and with appropriate parts of NFPA 101, 2000 edition, covering New Health Care Occupancies.

(3) Those existing portions of the facility which are not included in the renovation but which are essential to the functioning of the complete facility, as well as existing building areas that receive less than substantial amounts of new work shall, at a minimum, comply with that section of NFPA 101, 2000 edition, for Existing Health Care Occupancies.

(4) Conversion to other appropriate use or replacement shall be considered when cost prohibits compliance with acceptable standards.

(5) When a building is converted from one occupancy to another, it shall comply with the new occupancy requirements. For purpose of life safety, a conversion from a hospital or nursing facility to a hospice inpatient facility or vice versa is not considered a change in occupancy.

(6) When parts of an existing facility essential to continued overall facility operation cannot comply with particular standards, those standards may be waived by the Commissioner of Health if patient care and safety are not jeopardized.

(7) Renovations, including new additions, shall not diminish the safety level that existed prior to the start of the work; however, excess of that required for new facilities is not required.

(d) **Design standards for the disabled.** The Americans with Disabilities Act (ADA) extends comprehensive civil rights protection to individuals with disabilities. The "Uniform Federal Accessibility Standards" (UFAS) also provides criteria for the disabled. Also available for use in providing quality design for the disabled is the International Codes Council (ICC)/American National Standards Institute (ANSI) A117.1 "American National Standard for Accessible and Usable Buildings and Facilities." (ICC/ANSI A117.1)

(1) State and local standards for accessibility and usability may be more stringent than ADA, UFAS, or ICC/ANSI A117.1. Designers and owners, therefore, shall assume responsibility for verification of all applicable requirements and comply with the most stringent standards.

(e) **Nonconforming conditions.** It is not always financially feasible to renovate the entire existing structure in accordance with these standards. In such cases, the Department may grant approval to renovate portions of the structure if facility operation and patient safety in the renovated areas are not jeopardized by the existing features of facility sections retained without complete corrective measures. In major modernization projects and additions to existing facilities, those unrenovated areas that do not comply with NFPA 101 requirements for existing buildings shall be separated from sections to be modernized by fire barriers rated not less than two (2) hour fire resistance and by labeled fire doors of class "B" one and one half (1-1/2) hour construction.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-2. Location

- (a) **Access.** The site of any hospice inpatient facility shall be convenient to the public and to service vehicles, including fire protection apparatus, etc.
- (b) **Environment.** Quietness and sanitary features of the immediate environment shall be considered in locating a hospice inpatient facility.
- (c) The site for a hospice inpatient facility shall conform to all local zoning regulations in cities where zoning ordinances are in effect.
- (d) **Security.** A hospice inpatient facility shall have security measures for patients, personnel, and the public consistent with the conditions and risks inherent in the location of the facility. These measures shall include a program designed to protect human and capital resources.
- (e) **Availability of utilities.** The facility shall be located to provide reliable utilities (water, gas, sewer, electricity). The water supply shall have the capacity to provide normal usage plus fire-fighting requirements. The electricity shall be of stable voltage and frequency.
- (f) **Roads.** Paved or all weather surface roads shall be provided within the property for access to all entrances and to loading and unloading docks for delivery trucks. Vehicular or pedestrian traffic shall not conflict with access to the emergency transport station. In addition, access to emergency transport services shall be located to incur minimal damage from floods and other natural disasters. Paved walkways shall be provided for pedestrian traffic.
- (g) **Parking.** Each hospice inpatient facility shall provide not less than one (1) space for each day shift staff member plus one (1) space for every one (1) patient bed. At least two (2) handicap accessible parking spaces, but not less than what is required by the ICC/ANSI A117.1 Standard, shall be provided. This ratio may be increased in areas convenient to the public transportation system or to public parking facilities if proper justification is included and compliance with applicable local codes or zoning standards is achieved. Space shall be provided for emergency and delivery vehicles.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-3. Submission of plans and construction inspection.

- (a) Before construction is begun, plans and specifications covering the construction of new buildings or major alterations to existing buildings shall be submitted to the Department for review and approval.
- (b) Each construction project submission shall be accompanied by a check for the appropriate review fee based on the cost of design and construction of the project as specified at 310:661-2-7.
- (c) All construction project submittals shall be reviewed within 45 calendar days of receipt by the Department.
- (d) **Preparation of plans and specifications.**
- (1) **Stage one.** Preliminary plans and outline specifications shall be submitted and include sufficient information to establish the following: scope of project; project location; required fire-safety and exiting criteria; building-construction type, compartmentation showing fire and smoke barriers, bed count and services; the assignment of all spaces, areas, and rooms for each floor level,

including the basement.

(2) **Stage two.** A proposed construction document shall be submitted that includes final drawings and specifications adequate for proposed contract purposes. All final plans and specifications shall be appropriately sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval, and shall be submitted timely.

(e) **Special submittals.**

(1) **Fast-track projects.** Fast-track projects shall have prior approval and be submitted in no more than four (4) separate packages.

(A) Site work, foundation, structural, under slab mechanical, electrical, plumbing work, and related specifications.

(B) Complete architectural plans and specifications.

(C) All mechanical, electrical, and plumbing plans and specifications.

(D) Equipment and furnishings.

(2) **Automatic sprinkler-systems.** At least two (2) sets of sprinkler-system shop drawings, specifications, and calculations (if applicable), prepared by the installer, shall be submitted to the Office of the State Fire Marshal for review and approval prior to installation of the proposed system in the project.

(f) Construction other than minor alterations shall not be commenced until Stage Two plan-review deficiencies have been satisfactorily resolved.

(g) Prior to commencing construction, the hospice shall submit a construction schedule, which includes, as a minimum, the start date, dates that the heating-ventilation air-conditioning (HVAC), plumbing, and medical gas installation (if applicable) shall commence, and projected date of completion.

(h) The completed construction shall comply with the approved drawings and specifications, including all addenda or modifications approved for the project.

(i) A fifty percent (50%) completion inspection and a final construction inspection of the facility shall be conducted by the Department for the purpose of verifying compliance with this subchapter and the approved plans and specifications. The facility shall not allow patient occupancy until a final approval is granted by the Department.

(j) Construction phasing. Projects involving alterations and/or additions to existing buildings shall be programmed and phased to minimize disruptions of retained, existing functions and shall not disrupt or interfere with patient care. Access, exits, and fire protection shall be maintained so that the occupants' safety shall not be jeopardized during construction.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-4. Space occupied by other entities

- (a) Areas within the same building as a hospice inpatient facility that are leased to, or occupied by, a separate entity and comply with Health Care Occupancy requirements as specified by NFPA 101, 2000 edition, shall be separated from the licensed hospice by demising partitions that are rated not less than one (1) hour fire resistance. Lease areas that do not comply with Health Care Occupancy requirements as specified by NFPA 101, 2000 edition, shall be separated from the licensed hospice by demising partitions that are rated not less than two (2) hour fire resistance.
- (b) Lease areas shall have signage that clearly identifies tenant areas from the hospice inpatient facility area.
- (c) The lease between the hospice and the tenant entity shall require that the tenant area shall be:
 - (1) Maintained to comply with NFPA 101 for Health Care Occupancies;
 - (2) Included in the hospice's sprinkler systems, fire alarm systems, and fire drills; and
 - (3) Accessible to representatives of the Department to determine compliance with these standards.
- (d) A copy of the executed lease agreement for leased areas shall be submitted to the Department for review as part of the plan approval application process and a current copy shall be available for review by Department staff upon request.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-5. Nursing unit

- (a) Patient rooms. Each room shall meet the following requirements.
 - (1) Maximum room capacity shall be one (1) patient.
 - (2) Minimum room area exclusive of toilet rooms, lockers, wardrobes, alcoves, or vestibules shall be one hundred twenty (120) square feet. There shall be a minimum of three (3) feet of clearance between beds and obstructions, such as walls. This minimum dimension shall not apply to the head of the bed.
 - (3) Each room shall be located on an exterior wall and be provided with a window to the exterior. The maximum sill height for the window shall be three (3) feet above finished floor and also be located above exterior lot grade. Windows shall be provided with window coverings to ensure privacy.
 - (4) Each patient bed shall be served by a nurse's call system and provided with an individual call device immediately accessible to patient, which shall register at the nurse's station. A nurse's call emergency device shall be provided for each patient toilet room, shower, and bathing room. The nurse's call system installed shall be one of the following types.
 - (A) Conventional UL 1069 hardwired system; or,
 - (B) Wireless system with individual call pendants or bracelets. These appliances shall activate notification devices at the nurse's station and individual pagers that are carried by staff at all times.

(5) One (1) lavatory or disinfectant wash shall be provided for each patient room.

(6) Each patient shall have access to a toilet room complying with accessibility requirements as determined by the ICC/ANSI A117.1. One (1) toilet room shall contain, at a minimum, a water closet and a lavatory.

(A) Each patient room shall have access to a toilet room without entering or crossing the general corridor.

(B) Toilet rooms shall be equipped with bedpan washing apparatus with flushing attachment and vacuum breaker.

(7) There shall be a minimum of one (1) isolation rooms per hospice inpatient facility. Each room shall contain a lavatory and soap and disposable towel dispensers. Each isolation room shall have access to an accessible toilet room without entering the general corridor.

(8) Each patient shall have a wardrobe, locker, or closet with minimum clear dimensions of one foot ten inches (1'-10") by one foot eight inches (1'-8"). A clothes rod and shelf shall be provided.

(9) Patient rooms shall have general lighting and night lighting. A reading light shall be provided for each patient and at least one (1) light fixture for night lighting shall be switched at the entrance of each patient room. All electrical switches shall be of the quiet operating type.

(10) Each patient shall be provided with a bed complete with springs and a mattress (not rollaway), a chair suitable for the patient, and a bedside table. Cots, sofas, rollaway or similar type beds shall not be used for patients but may be used by family members. A bedside table and over-bed table shall be available for each bedridden patient. A recliner suitable for sleeping shall be provided for each patient in each patient room. Guest rooms used for family member(s) shall be permitted, but shall not be used as patient rooms unless they meet the requirements for patient rooms.

(11) No television surveillance system shall be used to monitor the interior of patient rooms or baths.

(b) Service areas.

(1) The size and disposition of each service area shall depend upon the number and types of beds to be served. Although identifiable spaces are required to be provided for each of the indicated functions, consideration will be given to design solutions, which would accommodate some functions without specific designation of areas or rooms. Details of such proposals shall be submitted for prior approval. Each service area may be arranged and located to serve more than one (1) nursing unit, but at least one (1) such service area shall be provided on each nursing floor. The service areas noted below shall be located in or readily available to each nursing unit:

(A) Nurse's stations with space for nurses' charting, physician charting, and storage for administrative supplies. The distance from the nursing station to the most distant resident room shall not exceed one hundred fifty

(150) feet and this distance shall not be interrupted by physical barriers, such as closed fire doors.

(B) A private physician's office shall be provided in each facility.

(C) Lounge and toilet room(s) for nursing staff.

(D) Clean workroom and clean holding room. These may be combined. The clean workroom shall contain a work counter, hand washing station, and storage facilities. The clean holding room shall be part of a system for storage and distribution of clean and sterile supply materials and shall be similar to the clean workroom except that the work counter and hand washing station may be omitted.

(E) Clean linen storage area. This may be provided by a separate closet or fully enclosed area within the clean workroom.

(F) Soiled workroom or soiled holding room. The soiled workroom shall contain a clinical sink or equivalent flushing rim fixture, sink equipped for hand washing, work counter, waste receptacle, and linen receptacle.

(G) Nourishment station. This shall contain a sink equipped for hand washing, equipment for serving nourishment between scheduled meals, refrigerator, and storage cabinets. Ice for patients' service and treatment shall be located in the nourishment station on each floor and in the kitchen/dining area.

(H) A family room shall be provided by the facility equipped with two (2) compartment sinks, cabinets, microwaves, soap and paper towel dispensers.

(I) One (1) medical equipment storage room shall be provided on each floor.

(J) Parking for stretchers and wheelchairs shall be located out of path or normal traffic.

(K) Patients' bathing facilities. Bathtubs or showers shall be provided at the rate of one for each six (6) beds, which are not otherwise served by bathing facilities within patients' rooms. At least one (1) bathtub shall be provided in each nursing unit or floor. Whirlpool units, which are suitable for bathing purposes, shall be included in satisfying the requirement. Each tub or shower shall be in an individual room or enclosure, which provides space for private use, drying and dressing, and for a wheelchair and an attendant. All fixtures shall be accessible for the handicapped.

(L) Janitor's closet containing a floor receptor or service sink and storage space for housekeeping equipment and supplies.

(c) Sterilizing Facilities. The hospice inpatient facility shall make provisions for the sterilization of equipment and supplies and shall have available for all staff and visitors, approved OSHA, NIOSH certified dust, mist and fumes (DMF) respirators or respirators affording greater protection. This is required for all entry into rooms occupied by known or

suspected infectious tuberculosis patients and others. There shall be minimum of one hundred (100) pairs of gloves and DMF respirators in the facility at all times.

(d) Personal Care Unit. A separate room may be provided for hair care and grooming needs of the patients.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-6. Dietary facilities

(a) The following facilities shall be provided in such size as required to implement the type of food service system selected:

- (1) Control station for receiving food supplies.
- (2) Storage space including cold storage.
- (3) Food preparation as required by the program. Conventional food preparation systems require space and equipment for preparing, cooking, and baking. Convenience food service systems such as frozen prepared meals, bulk packaged entrees, individual packaged portions, or systems using contractual commissary services require space and equipment for thawing, portioning, cooking, and/or baking.
- (4) Hand washing facilities in the food preparation area equipped with wrist, knee, or foot controls. Disposable towels shall be provided.
- (5) Patient meal service space including facilities for tray assembly and distribution.
- (6) Dishwashing shall be in a room or alcove separate from food preparation and serving areas. The dishwashing equipment shall be of a commercial-type with a separate air balance system.
- (7) Space for receiving, scraping, sorting, and stacking soiled tableware and for transferring clean tableware to the using areas. A lavatory shall be conveniently available with wrist, knee, or foot controls.
- (8) Pot washing facilities with a three (3) compartment sink.
- (9) Sanitizing facilities and storage areas for cans, carts, and mobile tray conveyers.
- (10) Garbage storage facilities in a separate area, which is easily accessible to the outside for direct pickup or disposal.
- (11) Toilet for dietary staff with hand washing facility immediately available.
- (12) Janitors' closet for the dietary department shall be located in or adjacent to the department. It shall contain a floor receptor or service sink and storage space for housekeeping equipment and supplies used exclusively for the dietary department.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-7. Administrative and public areas

The following areas shall be provided:

- (1) Public lobby area including:
 - (A) Reception and information counter or desk.

- (B) Waiting spaces.(C)Public toilet facilities (handicapped accessible).
 - (D) Public telephone(s).
 - (E) Drinking fountain(s).
- (2) General or individual offices shall be provided for business transactions, medical and financial records, and administrative functions.
- (3) A quiet room for counseling\reflection is required and shall have a minimum of one hundred (100) square feet.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-8. Linen service

- (a) If linen is to be processed on the site, the following shall be provided:
- (1) Laundry processing room with hand washing facilities and commercial-type equipment, which can process seven (7) days' needs within a regularly scheduled workweek.
 - (2) Soiled linen receiving, holding, and sorting room with hand washing facilities.
 - (3) Storage for laundry supplies.
 - (4) Clean linen storage, issuing, and holding room separate from the soiled linen storage, processing and holding area.
 - (5) Janitors' closet containing a floor receptor or service sink and storage space for housekeeping.
 - (6) Sanitizing facilities and storage area for carts, unless a disposable bagging system is used.
- (b) If linen is processed off the site, the following shall be provided:
- (1) Soiled linen holding room.
 - (2) Sanitizing facilities and storage area for carts.
- (c) Whether linen is processed on or off the site, the laundry shall be physically separated into clean and soiled sections with each section having separate air supplies and exhaust returns to prevent cross-contamination. The hospice shall certify that the off-site laundry satisfies this regulation.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-9. Engineering service and equipment areas

- (a) Central Stores. General storage room(s) shall have a total area of not less than five (5) square feet per bed and should be generally concentrated in one (1) area.
- (b) Room(s) or separate building(s) for boilers, mechanical equipment, and electrical equipment shall not be used for storage.
- (c) Waste Processing Services. Storage and Disposal. Space and facilities shall be provided for the sanitary storage and disposal of waste by incineration, mechanical destruction, compaction, containerization, removal or by a combination of these techniques.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-10. Details and Finishes

(a) A high degree of safety for the patients shall be provided to minimize the incidence of accidents with special consideration for patients who will be ambulatory, to assist them in self-care. (b) Hazards such as sharp corners shall be avoided. All details and finishes for modernization projects as well as for new construction shall comply with the following requirements:

- (1) All rooms containing bathtubs, sitz baths, showers, and water closets, subject to occupancy by patients, shall be equipped with doors and hardware which will permit access from the outside in any emergency. When such rooms have only one (1) opening or are small, the door shall be capable of opening outwards or be otherwise designed to be opened without need to push against a patient who may have collapsed within the room.
- (2) The minimum width of all doors to rooms needing access for beds or stretchers shall be three feet eight inches (3' 8"). Doors to patient toilet rooms and other rooms needing access for wheelchairs shall have a minimum clear width of 32 inches.
- (3) Windows and outer doors shall not be left in an open position unless provided with insect screens.
- (4) Windows and/or screening devices shall be designed to prevent accidental falls when open.
- (5) Door(s) shall not swing into corridors in a manner that might obstruct traffic flow or reduce the required corridor width. All door handles shall be approved lever type.
- (6) Grab bars shall be provided at all patients' toilets, showers, tubs, and sitz baths.
- (7) Recessed soap dishes shall be provided in showers and bathrooms, or soap dispensers may be substituted.
- (8) Lavatories and hand washing facilities shall be securely anchored to withstand an applied vertical load of not less than two hundred fifty (250) pounds on the front of the fixture.
- (9) Mirrors shall be arranged for convenient use by patients in wheelchairs as well as by patients in a standing position. All lavatories shall have mirrors except those in kitchens.
- (10) Paper towel and soap dispensers and waste receptacles shall be provided at all hand washing facilities in public, staff locations and patient areas.
- (11) Ceiling heights shall be as follows:
 - (A) Boiler rooms shall have ceiling clearances not less than two feet six inches (2' 6") above the main boiler header and connecting piping.
 - (B) Rooms containing ceiling-mounted equipment shall have height required to accommodate the equipment.
 - (C) All rooms shall not have less than eight foot (8' 0") ceilings except that corridors, storage rooms, toilet rooms, and other minor rooms may be not less than seven feet eight inches (7' 8"). Suspended tracks, rails, and pipes located in the path of normal traffic shall not be less than six feet eight inches (6' 8") above the floor.

(D) Kitchens shall have a minimum eight foot (8' 0") ceiling height and be air-conditioned.

(12) Spaces where impact noises may be generated shall not be located directly over or adjacent to patient bed areas unless special provisions are made to minimize such noise to a Noise Isolation Class (NIC) of not less than forty-five (45).

(13) Rooms containing heat producing equipment (such as boiler or heater rooms, and laundries) shall be insulated and ventilated to prevent any floor surface above from exceeding a temperature of 10°F. (60C.) above the ambient room temperature.

(14) Indicators shall be placed on all doors leading to hazardous areas, such as knurled knobs or signs.

(15) The hospice shall eliminate fire and smoke hazards. The hospice shall not use pillows, mattresses, pads, padded furniture, carpeting, or other furnishings, which contain urethane foams, which are not fire retardant.

(c) Hospice Finish Requirements

(1) Floor materials shall be easily cleanable and have wear resistance appropriate for the location involved. Floors in areas used for food preparation or food assembly shall be water resistant and grease proof. Points in tile and similar material in such areas shall be resistant to food acids. In all areas frequently subject to wet cleaning methods, floor materials shall not be physically affected by germicidal and cleaning solutions. Floors that are subject to traffic while wet (such as shower and bath areas, kitchens, and similar work areas) shall have a no slip surface.

(2) Wall bases in kitchens, soiled workrooms, and other areas which are frequently subject to wet cleaning methods shall be made integral and covered with the floor, tightly sealed with the wall, and constructed without voids that can harbor insects.

(3) Wall finishes shall be washable and, in the immediate area of plumbing fixtures, shall be smooth and moisture resistant. Finish, trim, and wall and floor constructions in dietary and food preparation areas shall be free from spaces that can harbor rodents and insects.

(4) Floor and wall penetrations by pipes, ducts, and conduits shall be tightly sealed to minimize entry of rodents and insects. Joints of structural elements shall be similarly sealed.

(5) Ceilings throughout shall be easily cleanable. Ceilings in the dietary and food preparation areas shall have a finished washable ceiling covering all overhead piping and ductwork; a smooth surface drywall or plaster type ceiling shall be required. Finished ceilings may be omitted in mechanical and equipment spaces, shops, general storage areas, and similar spaces, unless required for fire-resistive purposes.

(6) All buildings that have patients' facilities (such as bedrooms, dining rooms, or recreation areas) or critical services (such as diagnostic or therapy) located on other than the main entrance floor shall have electric or electro hydraulic elevators.

(A) At least one (1) hospital type elevator shall be installed where patients are located on any floor other than the main entrance floor.

(B) Cars and platforms. Cars of hospital type elevators shall have inside dimensions that will accommodate a patient bed and attendants, and shall be at least five feet (5' 0") wide by seven feet six inches (7' 6") deep. The car door shall have a clear opening of not less than three feet eight inches (3' 8").

(C) Leveling. Elevators shall be equipped with an automatic leveling device of the two-way automatic maintaining type with an accuracy of one-half (1/2) inch.

(D) Operation. Elevators, except freight elevators, shall be equipped with a two-way special service keyed switch to permit cars to bypass all landing button calls and be dispatched directly to any floor.

(E) Elevator controls, alarm buttons, controls, and telephones shall be accessible to wheelchair occupants.

(F) Elevator call buttons, controls, and door safety stops shall be of a type that will not be activated by heat or smoke.

(G) At least one (1) elevator should be on the emergency power system of the hospice.

(H) Elevator door closing devices should be timed to accommodate the needs of the residents served.

(I) Field Inspection and Tests. Inspections and tests shall be made and the owner shall be furnished written certification that the installation meets the requirements set forth in this Section and all applicable safety regulations and codes.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-11. Temperature and ventilating systems

(a) An indoor design temperature of 75°F. (24°C.) (winter design conditions) shall be provided for all occupied areas.

(b) All air supply and air-exhaust systems shall be mechanically operated. All fans serving exhaust systems shall be located at the discharge end of the system. The ventilating systems shall comply with the requirements of the appropriate edition of the International Mechanical Code.

(c) Outdoor air intakes shall be located not less than ten feet (10' 0") from exhaust outlets of ventilating systems, combustion equipment stacks, plumbing vent stacks, or from areas which may collect vehicular exhaust and other noxious fumes. The bottom of outdoor air intakes serving central systems shall be located as high as practical but not less than three feet (3' 0") above ground level, or if installed above the roof, one foot (1' 0") above roof level.

(d) Corridors shall not be used to supply air to or exhaust air from any room, except that air from corridors may be used to ventilate bathrooms, toilet rooms, and janitors' closets.

- (e) All central ventilating or air conditioning systems shall be equipped with filters. The filter bed shall be located upstream of the air conditioning equipment, unless a prefilter is employed. In this case, the prefilter shall be upstream of the equipment and the main filter bed may be located further downstream.
- (f) All filter efficiencies shall be average atmospheric dust spot efficiencies tested in accordance with ASHRAE Standard 52-68. A manometer shall be installed across each filter bed serving central air systems. The filter efficiencies for central ventilation and air conditioning system should follow the table shown on Appendix A.
- (g) Exhaust hoods in food preparation centers shall be in compliance with NFPA 96 and the International Mechanical Code (IMC).
- (h) Boiler rooms shall be provided with sufficient outdoor air to maintain combustion rates of equipment and to limit temperatures in working stations to 97°F. (36°C.), Effective Temperatures (ET) as defined by ASHRAE "Handbook of Fundamentals", without creating negative air pressure in any room housing fire equipment.
- (i) Where individual mechanical exhaust systems are used to exhaust patient toilets or bathrooms, the individual ventilation fan shall run continuously. All mechanical ventilating equipment including under window and exhaust systems shall operate continuously.
- (j) Wall or baseboard electrical heaters shall not be used.
- (k) Detectors in central ventilating systems shall be in accordance with NFPA 90A.
- (l) All ducts shall be in concealed spaces.
- (m) All smoke dampers on any one air conditioning system shall be controlled by unit mounted return air and supply air smoke detectors, which will act to close all of the smoke dampers on that system and stop the fan. Smoke dampers shall also close and the fan shall stop when the fire alarm system is activated and/or the sprinkler system is energized.
- (n) All isolation rooms shall have all air directly exhausted to the exterior without recirculation. There shall be a negative pressure relationship between the patient room and adjacent areas. The differential pressure shall be a minimum of 0.01" water gage (2.5 Pa). If alarms are installed, allowances shall be made to prevent nuisance alarms of monitoring devices.
- (o) Ventilation for all isolation rooms shall provide for a minimum twelve (12) air changes per hour including two (2) air changes per hour of outside air. Patient sleeping rooms shall provide a minimum of two (2) air changes per hour with at least two (2) of these air changes being outside air. Soiled holding and workroom areas shall have a minimum of ten (10) air changes per hour. All other rooms shall comply with the ventilation requirements of the International Mechanical Code as adopted by the State of Oklahoma.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-12. Plumbing and other piping systems

- (a) All plumbing systems shall be designed and installed in accordance with the requirements of the appropriate edition of the International

Plumbing Code.

(b) Plumbing Fixtures.

- (1) The material used for plumbing fixtures shall be of non-absorption and acid-resistant material.
- (2) The water supply spout for lavatories and sinks required in patient care areas shall be mounted so that its discharge point is a minimum distance of one (1) inch above the rim of the fixture. All fixtures shall be trimmed with valve, which can be operated without the use of hands. Where blade handles are used for this purpose, they shall not exceed four and one-half (4½) inches in length, except that handles on clinical sinks shall be not less than six (6) inches long.
- (3) Clinical sinks shall have an integral trap in which the upper portion of a visible trap seal provides a water surface.
- (4) Shower bases and tubs shall provide no slip surfaces for standing patients. All towel bars shall be of the handicapped type meeting the two hundred fifty pound (250 lb.) dead load requirement. Shower curtain rods shall be of rigid metal and anchored to insure a two hundred fifty pound (250 lb.) dead load is met.
- (5) Floor and wall penetrations by pipes, ducts, and conduits shall be tightly sealed to minimize entry of rodents and insects. Joints of structural elements shall be similarly sealed.

(c) Water Supply Systems.

- (1) Before the facility is used the water supply system shall be approved by the health department.
- (2) Backflow preventers (vacuum breakers) shall be installed in hose bibs, janitors' sinks, bedpan flushing attachments, and on all other fixtures on which hoses or tubing can be attached. Two (2) approved reduced pressure backflow preventers in parallel on the domestic water supply are required for sprinkler systems.
- (3) Water distribution systems shall be arranged to provide hot water at each hot water outlet at all times. Hot water at shower, bathing, and hand washing facilities shall not be less than 105°F. nor exceed 115°F. A low temperature-mixing valve shall be required with an anti-scald device (solenoid valve) down stream from mixing valve.

(d) Water Heaters and Tanks.

- (1) The water heating equipment shall have sufficient capacity to supply water at the temperatures and amounts indicated above. Water temperatures shall be tested monthly and the results monitored at hot water point of use or inlet to processing equipment.
- (2) The anti-scald device shall be arranged to shut off hot water system two degrees (2°) higher than maximum temperature allowed.
- (3) Heater and storage tanks shall be fabricated of corrosion-resistant metal or lined with no corrosive material.

(e) Drainage Systems.

- (1) Drainage piping shall not be installed within the ceiling nor installed in an exposed location in food preparation centers, food

serving facilities, and food storage areas unless special precautions are taken to protect these areas from possible leakage or condensation.

(2) Building sewers shall discharge into an approved sewerage system.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-13. Electrical requirements

(a) All electrical requirements shall comply with National Electrical Code (NEC) as adopted.

(b) Receptacles (Convenience Outlets)

(1) Patient room. Each patient room shall have duplex grounding type receptacles as follows: one (1) located near the head of each bed; one (1) for television if used; and at least one (1) on each wall.

(2) Corridors. Duplex receptacles for general use shall be installed approximately fifty feet (50' 0") apart in all corridors and within twenty-five feet (25' 0") of ends of corridors.

(c) All receptacles and switches on the emergency power shall be distinctly marked.

(d) All electrical receptacles in wet areas (such as: hair care rooms, bathrooms, kitchens, laundries, physical therapy areas, janitor closets) must be on ground fault interrupter circuits within six feet (6' 0") of any lavatory and all outside plugs.

(e) Emergency Electric Service.

(1) To provide electricity during an interruption of the normal electric supply, the hospice shall be equipped with an emergency power source as required by NFPA 99, NFPA 101, and NEC (NFPA 70) on the premises. It shall have fuel supply either propane or diesel to operate the generator for a minimum of twenty-four (24) hours at rated full load.

(2) The emergency power source shall be automatically connected to the required load within a period of ten (10) seconds after the interruption of the normal power source. This time delay shall be adjustable.

(3) The load for which emergency power shall be supplied are as follows:

(A) Illumination for means of egress as required in NFPA, Standard 101 to produce not less than one (1) foot-candle of light measured at floor level in the center of the corridors.

(B) Illumination of exit signs and exit directional signs.

(C) Duplex receptacle located at head of patient bed.

(D) Nurse call systems.

(E) Power for maintaining telephone communication.

(F) Sump pumps and other equipment required to operate for the safety of major apparatus including alarms.

(G) General illumination and convenience receptacles in the area of the emergency power source.

- (H) Paging and speaker systems used for communications during emergency.
- (I) Alarm systems including the fire alarm system, water flow alarm devices for sprinklers, fire and smoke detecting facilities, and alarm monitors for non-flammable medical gas systems, except systems which have trickle-charged battery (DC) power.
- (J) Illumination lighting in the mechanical rooms serving essential heating, ventilating, plumbing, vacuum, and other essential needs.
- (K) Security facilities such as door monitoring.
- (L) At least one (1) elevator shall be on the emergency power system of the hospice.
- (M) Night lights in patient bathrooms, toilets and patient rooms.
- (N) All receptacles and switches served by emergency power shall be color coded (red).
- (O) The operation of the emergency electric system shall be demonstrated prior to placing the facility in operation.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

310:661-8-14. Physical plant requirements for facilities with three (3) beds or less

- (a) This section shall be applicable to small homes serving three (3) or less residents. Homes qualifying under this section shall be exempt from other sections of this subchapter except as may be specifically referenced in this section.
- (b) The requirements of 310:661-8-1 are applicable except as follows:
 - (1) These requirements are intended as minimum standards for constructing and equipping a hospice inpatient facility projects containing, at a maximum, three (3) beds.
 - (2) All new and renovation projects shall comply with the applicable sections of International Residential Code as required for residential construction.
- (c) The location requirements of 310:661-8-2 are applicable except as follows:
 - (1) Parking. Off-street parking shall be provided in adequate numbers to prevent overflow to adjacent properties.
- (d) Plan submission and construction inspection requirements of 310:661-8-3 are applicable to all hospice facilities containing three (3) beds or less.
- (e) The requirements for space occupied by other entities in 310:661-8-4 are applicable to all hospice facilities containing three (3) beds or less.
- (f) All physical plant requirements relating to mechanical plumbing and electrical systems shall comply with the applicable requirements for residential construction.

[Source: Added at 21 Ok Reg 1303, eff 5-27-04]

APPENDIX A. FILTER EFFICIENCIES FOR CENTRAL VENTILATION AND AIR CONDITIONING SYSTEMS IN HOSPICES

Figure 1

Area Designation	Number Filter Beds	Filter Bed No. 1	Filter bed No.2
All areas for inpatient care, treatment, and diagnosis, and those areas providing direct service or clean supplies such as sterile and clean processing, etc.	2	25	80
Food Preparation Areas and Laundries	1	25	---
Administrative, bulk storage, soiled holding areas, food preparation areas, and laundries	1	25	---

Note: Additional roughing or pre-filters should be considered to reduce maintenance required for filters with efficiency higher than 75%.

The filtration efficiency ratings are based on average dust spot efficiency per ASHRAE 52.1-1992.

CHAPTER 662. HOME CARE AGENCIES

[Authority: 63 O.S., § 1-1964]

[Source: Codified 6-27-94]

SUBCHAPTER 1. GENERAL PROVISIONS

310:662-1-1. Purpose

The purpose of this Chapter is to establish the minimum criteria for the issuance, maintenance and renewal of a home care agency license and the procedure for enforcement thereto.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

310:662-1-2. Definitions

The words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"**Act**" means the Home Care Act, 63 O.S. Supp. 1996, §1-1960 et seq.

"**Affiliated person**" means:

- (A) *any officer, director or partner of the applicant,*
- (B) *any person employed by the applicant as a general or key 2/25/2021manager who directs the operations of the facility which is the subject of the application, and*
- (C) *any person owning or controlling more than five percent (5%) of the applicant's debt or equity.* [63 O.S. Supp. 1998, Section 1-1965]

"**Autonomy**" means capacity to be self-determining, to make choices in accord with one's own goals and values.

"**Branch office**" means a business location from which a home care agency located in Oklahoma provides service within a portion of the total geographic area served by the parent agency. Branch offices from out of state parent agencies shall be licensed as home care agencies as required by this Chapter. Branch offices from in state parent agencies may be licensed as a part of the parent agency. Each home care agency branch office shall operate under the same name(s) as the parent agency.

"**Certified/accredited agency**" means any home care agency located in Oklahoma which is certified or accredited by:

- (A) Title XVIII or XIX of the federal Social Security Act;
- (B) the Joint Commission on Accreditation of Healthcare Organizations/Home Care Accreditation Services (JCAHO);
- or
- (C) the Community Health Accreditation Program of the National League for Nursing (CHAP).

"**Client**" means the consumer/patient/individual who receives the services of a home care agency and/or a companion or sitter service.

"**Client's representative**" means the client's legal guardian or person authorized by the client or client's legal guardian to assist the client in receiving home care services.

"Coercion" means compelling, pressuring or otherwise improperly influencing the free will decisions made by a consumer(s) or a potential consumer(s) of home care services by an agency representative or affiliate. Coercive means include, but are not limited to, presentation of false and/or misleading information.

"Department" *means the Oklahoma State Department of Health.* [63 O.S. Supp. 1996, § 1-1961(3)]

"Evaluation" means documentation of a need for services based on the client self-report.

"Governing body" means the person(s) having ultimate responsibility, including fiscal and legal authority for the home care agency.

"Harassment" means repetitive, intimidating, or otherwise distressing contact directed at a specific consumer(s) or potential consumer(s) of home care by a specific home care agency seeking to recruit clients.

"Home care agency" *means any sole proprietorship, partnership, association, corporation, or other organization which administers, offers, or provides home care services, for a fee or pursuant to a contract for such services, to clients in their place of residence. The term "home care agency" shall not include individuals who contract with the Department of Human Services to provide personal care services, provided such individuals shall not be exempt from certification as home health aides.* [63 O.S. Supp. 1996, § 1-1961(4)]

"Home care agency administrator" *means a person who operates, manages, or supervises, or is in charge of a home care agency;* [63 O.S. Supp. 1996]

"Home care services" *means skilled or personal care services provided to clients in their place of residence for a fee.* [63 O.S. Supp. 1996, § 1-1961(5)]

"Home health aide" *means an individual who provides personal care to clients in their temporary or permanent place of residence for a fee.* [63 O.S. Supp. 1996, § 1-1961(6)]

"Individual Service Plan" means documentation by the individual responsible for supervision of the companion or sitter services, or a designee, of the services requested by and agreed to be provided for a client.

"Infectious wastes" means waste capable of producing an infectious disease because it contains pathogens of sufficient virulence and quantity so that exposure to the waste by a susceptible human host could result in an infectious disease.

"Licensed practical nurse" means a person currently licensed to practice practical nursing in Oklahoma.

"Non-physician practitioner" means nurse practitioner, clinical nurse specialist, or physician assistant providing primary or specialty care to a home care patient.

"Nurse registry" means any person that procures, offers, promises, or attempts contracts for registered nurses, licensed practical nurses, home health aides, or other providers of personal care who are compensated by fees as independent contractors, for the provision of home care services.

"Parent agency" means that part of a home care agency which develops and maintains administrative and professional control of subunits and/or branch offices.

"Personal care" *means assistance with dressing, bathing, ambulation, exercise or other personal needs.* [63 O.S. Supp. 1996, § 1-1961(7)]

"Personal needs" means assistance with activities of daily living such as getting out of bed, ambulation, exercise, toileting, dressing, eating, or bathing. Personal needs do not include domestic or maintenance services provided on a fee basis to maintain the home.

"Physician" means a medical doctor (MD), doctor of osteopathic medicine (DO), or doctor of podiatric medicine (DPM).

"Primary home care agency" means the agency that is responsible for the services furnished to clients and for implementation of the plan of care.

"Qualified therapist" means a trained respiratory therapist or technician, or a physical therapist, occupational therapist, or speech therapist who is currently licensed to practice their profession in Oklahoma.

"Qualified therapy assistant" means a physical therapy assistant or occupational therapy assistant who is currently licensed to assist physical therapists or occupational therapists in Oklahoma.

"Registered nurse" means a person currently licensed to practice registered nursing in Oklahoma.

"Sharps" means any discarded objects that can penetrate the skin including, but not limited to, hypodermic needles, syringes, lancet and scalpel blades. This definition includes broken glass or other sharp items that have come in contact with material defined as infectious wastes.

"Skilled care" *means home care services performed on a regular basis by a trained Respiratory Therapist/Technician or by a person currently licensed by this State, including but not limited to a Licensed Practical Nurse, Registered Nurse, Physical Therapist, Occupational Therapist, Speech Therapist, or Social Worker.* [63 O.S. Supp. 1996, § 1-1961(8)]

"Solicitation" means coercion or harassment of any person or contact with a patient knowingly being treated by another home care agency for the purpose of attempting to persuade the patient to change home care agencies.

"Standby assistance" *means supervision of client directed activities with verbal prompting and infrequent, incidental hands-on intervention only.* [63 O.S. Supp. 2009 § 1-1961]

"Subsidiary" *means any person, firm, corporation or other legal entity which:*

- (A) *controls or is controlled by the applicant,*
- (B) *is controlled by an entity that also controls the applicant, or*
- (C) *the applicant or an entity controlling the applicant has directly or indirectly the power to control.* [63 O.S. Supp. 1996]

"Subunit" means a semi-autonomous organization that serves clients in a geographic area different from that of the parent agency. A

subunit is required to independently meet requirements of this Chapter and shall be licensed separately because it is too far from the parent agency to share administration, supervision, and services on a daily basis.

"Supportive home assistant" *means an individual employed by a home care agency who provides standby assistance to ambulatory clients, in conjunction with other companionship or homemaker services, in the temporary or permanent place of residence of the client for a fee.* [63 O.S Supp. 2009 § 1-1961]

SUBCHAPTER 2. LICENSES

310:662-2-1. Licensure

(a) **Base of operation.** Any home care agency providing home care services in Oklahoma shall operate from a place of business which is accessible to the public and physically located in Oklahoma. Staff providing services from each home care agency shall be supervised by personnel at that location.

(b) **Applicant.** Any person, corporation, partnership, association or other legal entity desiring to obtain a license to establish, or to obtain a renewal license to operate, a home care agency in this State shall make application to the State Department of Health in such form and accompanied by such information as the State Commissioner of Health shall prescribe. All applications shall include disclosure statements completed by the applicant which shall include, but not be limited to, the following information:

- (1) The full name and address of the applicant, and all affiliated persons;
- (2) The full name and address of any legal entity in which the applicant holds a debt or equity interest of at least five percent (5%) or which is a parent company or subsidiary of the applicant;
- (3) A description of any ongoing organizational relationships as they may affect operations within the state;
- (4) The names, locations, and dates of ownership, operation, or management for all current and prior home care agencies owned, operated or managed in this State or in any other State by the applicant or by any affiliated persons;
- (5) The name and location of the home care agency for which a license is sought;
- (6) The full name and address of the applicant, and all affiliated persons, under whose ownership, operation, management, or supervision the home care agency will be conducted; and
- (7) An affidavit attesting to the information provided.

(c) **Initial applicant data.** Information supplied by initial applicants shall include, but not be limited to, the following information:

- (1) Projected number of visits or shifts per month for six (6) months beginning from the date of application.
- (2) Evidence of staffing availability sufficient to cover projected visits/shifts.
- (3) Evidence of financial solvency to include resources sufficient to ensure the agency's ability to provide adequate home care services. The agency shall have an annual operating budget which ensures sufficient resources to meet operating costs at all times and to maintain standards as required by this Chapter.
- (4) If required by law, proof of business registration with the Secretary of State.
- (5) Proof of liability insurance coverage of at least one hundred thousand dollars (\$100,000.00) per occurrence, three hundred thousand dollars (\$300,000.00) aggregate. Each agency shall maintain at least this level of coverage.
- (6) Evidence of the applicant's prior business and professional experience in prior health care provider operations including, but not limited to, nursing homes, residential care homes, home care agencies, and hospices. The applicant shall disclose to the Department the compliance history of any person or persons having ownership, operational, management or supervisory authority in the agency. Compliance history disclosure shall include lawful orders of suspension, receivership, administrative penalty or sanction issued by the Department or by other administrative agencies in other states with similar responsibilities.
- (7) Proof that the agency's administrator is currently certified by the Department as a home care agency administrator.

(d) **Licensure fees.**

- (1) An application for an initial license to establish or operate a new home care agency or subunit shall be accompanied by a nonrefundable application fee of one thousand dollars (\$1,000.00).
- (2) A renewal application for an existing home care agency or subunit shall be accompanied by a nonrefundable licensing fee of five hundred dollars (\$500.00).
- (3) An application for license, or renewal thereof, to establish or operate a home care agency branch office of an agency licensed in the State of Oklahoma shall be accompanied by a nonrefundable licensing fee of twenty-five dollars (\$25.00).
- (4) Fees for renewal licenses prorated to expire on July 31 shall be based on the number of quarters [i.e. three (3) months] or portions thereof for the license. The fee for each quarter or portion thereof shall be one hundred twenty-five dollars (\$125.00) for each parent agency or subunit license and six dollars and twenty-five cents (\$6.25) for each branch license.

(e) **Exemptions.** The provisions of the Act and promulgated rules shall not apply to:

- (1) *A person acting alone who provides services in the home of a relative, neighbor or friend.*

(2) *A person who provides maid services only.*

(3) *A nurse service or home aide service conducted by and for the adherents to any religious denomination, the tenets of which include reliance on spiritual means through prayer alone for healing.*

(4) *A person providing hospice services pursuant to the Oklahoma Hospice Licensing Act.*

(5) *A nurse-midwife.* [63 O.S. Supp. 1996, § 1-1962(C)]

(f) Transfer of ownership of a licensed agency.

(1) **Legal assignment.** The license for a home care agency is not transferable or assignable except a license may be transferred to any affiliated person, parent company or subsidiary of the applicant or legal entity which has an ongoing organizational relationship with the applicant. Proof of legal assignment with accompanying application for licensure shall be filed with the Department at the time of the change. There shall be no fee for legal assignment of an agency license.

(2) **Acquisition of a licensed agency.** If an entity is considering acquisition of a licensed agency, an application for license with a five hundred dollar (\$500.00) fee for the agency and twenty-five dollar (\$25.00) fee for each branch office operated by a parent agency shall be filed with the Department at least thirty (30) days prior to the effective date of the change. A copy of the executed sales agreement shall be provided to the Department.

(3) If a corporate licensee amends its articles of incorporation to revise its name, this subsection does not apply. The sale of stock of a corporate licensee does not cause this subsection to apply.

(4) No license shall be transferred from one location to another unless the Department is notified. If an agency is considering relocation, the agency shall notify the Department thirty (30) days prior to the intended relocation. The Department shall provide written notification to the agency amending the annual license to reflect the new location.

(5) Upon the effective date of a change of ownership or upon cessation of operation of an agency, the current license shall be mailed or returned to the Department. The agency shall advise the Department in writing at the time of cessation of operation where agency medical records shall be archived and how these records shall be accessed.

(g) Licensure issuance/renewal.

(1) A home care agency license shall be renewed annually. Each license shall expire on July 31 of each year.

(2) An initial license shall be issued for twelve (12) months. Initial licenses which do not expire on July 31 shall be renewed so that the renewal license shall expire on July 31. The fee for the renewal license following the issue of an initial license which does not expire on July 31 shall be prorated on a quarterly basis.

(3) Prior to license renewal the applicant shall submit proof of:

(A) Liability insurance coverage of at least one hundred thousand dollars (\$100,000.00) per occurrence, three hundred thousand dollars (\$300,000.00) aggregate.

(B) Proof that the agency's administrator is currently certified by the Department as home care agency administrators.

(4) A home care agency license shall be posted in a conspicuous place, open to the public, at the licensed premises.

(5) The license shall be issued only for the premises named in the application.

(h) **Deadlines for applications.** The license application shall be filed in accordance with the following deadlines.

(1) The application for an initial home care agency license shall be filed at least thirty (30) days before beginning operations.

(2) The application for an initial license, for a transfer of ownership or operation, shall be filed at least thirty (30) days prior to the transfer. If the Department finds that an emergency exists which threatens the welfare of clients, the thirty (30) day advance filing notice may be waived.

(3) The application for renewal of a licensed existing home care agency shall be filed at least thirty (30) days prior to the expiration date of the license.

(4) An incomplete initial or renewal application received by the Department shall be summarily dismissed after thirty (30) days of applicant notification of an incomplete application. Thereafter, the applicant shall submit a new application and the initial or renewal fee.

SUBCHAPTER 3. ADMINISTRATION

310:662-3-1. Licensure [AMENDED AND RENUMBERED TO 310:662-2-1]

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 11 Ok Reg 4641, eff 8-15-94 (emergency); Amended at 12 Ok Reg 3442, eff 5-10-95 (emergency); Amended at 12 Ok Reg 2789, eff 7-27-95 ; Amended and renumbered to 310:662-2-1 at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended and renumbered to 310:662-2-1 at 14 Ok Reg 2274, eff 6-12-97]

310:662-3-2. Client rights and responsibilities

(a) Every agency shall have a written statement of clients' rights and responsibilities governing agency services which shall be made available and explained to each client or client's representative. This information shall be provided verbally and in writing before or at admission, and documented in the client's record.

(b) The statement shall include but not be limited to:

(1) A description of available services, unit charges and billing process. Any changes in fees or billing shall be given to the client orally and in writing as soon as possible but no later than thirty (30) calendar days from the date the agency becomes aware of a

change. Unit charge information shall be disclosed to the client even if the service is provided through third party payment.

(2) Information regarding the client's or client representative's right to participate in the planning of the care to be furnished, the disciplines that shall furnish care, the frequency of visits/hours proposed, the title of the person supervising the client's care and the manner in which that person may be contacted.

(3) The right of the client or client's representative to be advised in advance of any change in the plan of care.

(4) The responsibility of the client or client's representative to treat agency personnel with respect, to disclose pertinent health related information accurately, and to inform agency personnel when instructions to the client or client's representative cannot be understood or followed.

(5) An explanation to the client or client's representative of the confidential treatment of all client information retained in the agency and the requirement for written consent for release of information to persons not otherwise authorized by law to receive it.

(6) The right of the client to have the client's property and person treated with respect.

(7) An explanation of the agency's grievance procedure; the right of the client or client's representative to register a grievance with the agency without reprisal or discrimination from the agency, regarding treatment or care received.

(8) Information to the client or client's representative that a complaint against the agency may be directed to the Department. The statement shall direct the client or representative to register complaints with the Oklahoma State Department of Health, 1000 N.E. Tenth, Oklahoma City, Oklahoma 73117-1299.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97]

310:662-3-3. Standards of practice

(a) A home care agency shall maintain the highest level of standards in its business practices. The governing body of each agency shall adopt written standards of practice, which shall be strictly adhered to by all employees, agency contractors and owners of the agency.

(b) At a minimum, every home health agency shall include the following items in the agency's standards of practice:

(1) Neither the owner nor any home health agency employee or contractor shall knowingly mislead a client, family member, client's representative or caregiver concerning services, charges, or use of equipment.

(2) Neither the owner nor any home care agency employee or contractor shall misuse or misappropriate any property belonging to any client, family member, client's representative or caregiver.

(3) Neither the owner nor any home care agency employee or contractor shall knowingly and actively recruit a client under the care of another home care agency.

(4) The home care agency shall accept client referrals in a professional manner with no remuneration provided to the referring party.

(5) Solicitation of clients by coercion or harassment shall be prohibited.

(6) No agency, employee of any agency, or agency contractor shall serve as the guardian of a client unless such home care provider is related to the client by blood or marriage and/or is otherwise eligible to serve as a guardian.

(7) All home care services shall be provided in compliance with accepted standards of practice.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 25 Ok Reg 2443, eff 7-11-08]

310:662-3-3.1. Compliance with Federal, State and local laws

The agency and its staff shall operate and furnish services in compliance with all applicable Federal, State, and local laws and regulations.

[Source: Added at 14 Ok Reg 2111, eff 4-7-97 (emergency); Added at 14 Ok Reg 2274, eff 6-12-97]

310:662-3-4. Organization

(a) **Governing body.** The home care agency shall have an organized governing body which is legally responsible for the conduct of the agency. The ownership of the agency shall be fully disclosed to the Department. Agency staff shall be currently licensed or registered in accordance with applicable laws of the State of Oklahoma. The governing body shall be responsible for periodic administrative and professional evaluations of the agency.

(b) **Financial.** Sufficient financial resources shall be maintained sufficient to ensure the agency's ability to provide adequate home care services. The agency shall have an annual operating budget which ensures sufficient resources to meet operating costs at all times and to maintain the standards required by this Chapter.

(c) **Administrator.** The governing body shall be legally responsible for the appointment of a qualified administrator and the delegation of responsibility and authority. The administrator shall organize and direct the agency's ongoing functions, employ qualified personnel, ensure adequate staff in-service, continuing education, and evaluations. The administrator shall ensure the accuracy of public information materials and activities, and that agency practices are consistent with written agency policies. The administrator shall be properly certified as required by the Department. Proof of current certification for the administrator shall be posted in a conspicuous place at each licensed agency.

(d) **Supervising physician or nurse.** Each home care agency providing skilled care shall employ a physician or a qualified supervising registered nurse. An agency providing personal care only shall employ or contract with a supervising physician or registered nurse who shall be available to the agency to advise the client care staff whenever personal care is

provided. Services of a supervising physician or registered nurse in an agency only providing personal care may be provided on an on-call basis. A physician or a qualified registered nurse alternate shall be designated in writing to serve in the supervising registered nurse's absence.

(e) **Personnel policies.** The agency shall implement and follow appropriate written policies. Personnel policies shall include at least the following:

- (1) Employment procedures.
- (2) Orientation of all personnel to the policies and objectives of the agency, and participation by all personnel in appropriate employee in-service programs.
- (3) Job descriptions (statement of those functions and responsibilities which constitute job requirements) and job qualifications (specific education and training necessary to perform the job).
- (4) Periodic evaluations of employee performance.
- (5) Provision for disciplinary action(s) and procedures.
- (6) Health screening requirements for staff with direct client contact including but not limited to tuberculosis testing/tuberculin skin tests. All tests and examinations shall be in conformance with the "Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention. Any employee with a proven history of a positive tuberculin skin test may be excluded from this requirement if the employee has had a documented negative chest x-ray and no symptoms suggestive of tuberculosis.
- (7) Each home care agency shall have an annual influenza vaccination program consistent with the recommendations of the Centers for Disease Control and Prevention Advisory Committee on Immunization Practices that shall include at least the following:
 - (A) The offer of influenza vaccination onsite, at no charge to all employees and/or workers in the home care agency or acceptance of documented evidence of current season vaccination from another vaccine source or hospital;
 - (B) Documentation of vaccination for each employee and/or worker or a signed declination statement on record from each individual who refuses the influenza vaccination for other than medical contraindications; and
 - (C) Education of all employees and/or workers about the following:
 - (i) Influenza vaccination;
 - (ii) Non-vaccine influenza control measures; and
 - (iii) The symptoms, transmission, and potential impact of influenza.
 - (D) Each home care agency influenza vaccination program shall conduct an annual evaluation of the program including the reasons for non-participation.

(F) The requirements to complete vaccinations or declination statements for each employee and/or worker may be suspended by the agency's medical director in the event of a shortage of vaccine as recognized by the Commissioner of Health.

(f) **Personnel records.** Personnel records shall include, but not be limited to qualifications, employment history, records of orientation and in-service provided, verification that health screening was performed as required, performance evaluations, as required by policy, record of disciplinary actions and verification of current licensure/certification, if appropriate.

(g) **Contracted services.**

(1) If a home care agency contracts to provide home care services(s), there shall be a written agreement defining the nature and scope of services provided. The agreement shall include but not be limited to the following:

(A) The services to be provided.

(B) The manner in which services shall be coordinated, evaluated and supervised by the primary home care agency.

(C) The process for development, review, and revision of the plan of care.

(D) The process for scheduling of visits or hours.

(E) The procedures for submitting clinical and/or progress notes or other entries to the clinical record which shall be maintained by the primary home care agency.

(2) Any home care agency providing home care service(s) on a contract basis shall require the contractor to provide verification of current licensure/certification of personnel as appropriate. Documentation of this verification shall be maintained in the home care agency.

(h) **Nurse registry.** A nurse registry which provides home care services shall function and be licensed as a home care agency.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 12 Ok Reg 3442, eff 5-10-95 (emergency); Amended at 12 Ok Reg 2789, eff 7-27-95 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 16 Ok Reg 3486, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2064, eff 6-12-00 ; Amended at 28 Ok Reg 1061, eff 6-11-11 ; Amended at 37 Ok Reg 1441, eff 9-11-20]

310:662-3-5. Clinical records

(a) The agency shall establish and maintain a clinical record for each client receiving care and services. The record shall be complete, timely, accurately documented and readily accessible. Clinical records shall be kept confidential. The agency shall ensure confidentiality of client information in accordance with written policies and procedures. Records shall be stored in a locked area and only authorized personnel shall have access to the records.

(b) Clinical records are the property of the home care agency and may be released only upon the written consent of the client, the court appointed guardian, by a court order, or as otherwise authorized by law. Any person who has been a client of a home care agency shall be entitled to obtain

copies of their clinical record as allowed by law. [76 O.S. 1991, §19]

(c) Clinical records shall be retained at least five (5) years beyond the date the client was last seen or longer as otherwise required by law.

(d) In addition to a plan of care, the clinical record shall contain:

- (1) Appropriate identifying information for the client, household members and/or client representative(s), including telephone numbers to be used in the event of an emergency.
- (2) Initial assessment including health history, and current findings.
- (3) A description of the client's functional limitations and activity restrictions, if any.
- (4) Documentation of any change in the client's condition.
- (5) Notes for each service provided including the date, service provided, and the name and title of the person providing the service and the person's signature.

(e) If skilled care is provided or if personal care is provided by an order of a physician or non-physician practitioner, the clinical record shall also contain:

- (1) The name of the client's physician or non-physician practitioner and telephone number.
- (2) Signed and dated clinical notes which accurately document services provided, treatments and/or medications administered and client response to the services provided.
- (3) Physician or non-physician practitioner orders which shall be sent by the agency within ten (10) days to the ordering physician or non-physician practitioner to be signed and returned in a timely manner.
- (4) Upon discharge, a summary of the services provided and the resulting status of the client at the time of discharge. A copy of the discharge summary shall be provided to the client's physician or non-physician practitioner.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 38 Ok Reg 2062, eff 9-11-21]

310:662-3-6. Client care policies

(a) Each agency shall adopt, implement and enforce written client care policies, specific to, and consistent with the scope and range of client care services offered. Client care policies and client care practices shall be consistent with current standards of practice and shall be reviewed and revised as necessary.

(b) Client care policies shall include but not be limited to:

- (1) Infection control in the home care setting, including the prevention and spread of infectious and communicable diseases from agency personnel to clients;
- (2) Safety assessment and teaching on injury prevention in the home environment;
- (3) Management of emergency medical situations by home care staff in the home; and
- (4) Efforts to maximize client autonomy.

(c) An agency providing home infusion therapy directly or under arrangement shall:

- (1) Ensure the availability of written policies and procedures for all home infusion therapy;
- (2) Maintain a written physician's or non-physician practitioner's order specific to home infusion therapy;
- (3) Develop and adopt minimum competency requirements for nursing staff, and maintain documentation of individual proficiency/competence;
- (4) Ensure twenty-four (24) hour per day availability of a registered nurse to provide in-home clinical assistance as needed, to clients receiving home infusion therapy;
- (5) Assess the client and/or caregiver's abilities to safely comply with the plan of care;
- (6) Provide for client and/or caregiver education as indicated; and
- (7) Provide ongoing assessment of client and/or caregiver's compliance with therapy-related procedures, completed at intervals dependent on the condition of the client and mode of therapy.

[Source: Added at 14 Ok Reg 2111, eff 4-7-97 (emergency); Added at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 38 Ok Reg 2062, eff 9-11-21]

SUBCHAPTER 5. CLIENT SERVICES

310:662-5-1. Initiation of services

(a) **In-home assessment.** The home care agency shall accept a client for services on the basis of a reasonable expectation that the client's needs can be met adequately in the client's residence. An initial assessment shall be performed in the client's residence by a physician, non-physician provider, registered nurse or qualified therapist as indicated by the service to be provided.

(b) **Initial assessment.** The initial assessment shall occur prior to, or at the time that home care services are initially provided. The assessment shall determine whether the agency has the ability to provide the necessary services in the home.

(c) **In-home assessment - skilled care.** No in-home assessment of the need for skilled care shall be conducted by any agency, agency employee, or agency contractor unless and until the agency receives a physician's or non-physician practitioner's order to provide skilled care, or to conduct an in-home assessment of the need for skilled care. Skilled care shall not be provided by any agency, agency employee, or agency contractor unless and until the agency receives a physician's or non-physician practitioner's order to provide skilled care.

(d) **Solicitation, coercion, harassment.** No agency, agency employee, or agency contractor shall solicit, coerce or harass a consumer of home care services or an individual who may need home care services in order to initiate services with the agency.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 12 Ok Reg 3442, eff 5-10-95 (emergency); Amended at 12 Ok Reg 2789, eff 7-27-95 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 38 Ok Reg 2062, eff 9-11-21]

310:662-5-2. Plan of care

(a) **Non-skilled care.** If only personal care is provided, the physician, non-physician practitioner or registered nurse shall prepare a plan of care at the time of initial assessment. The plan of care shall be developed after consultation with the client and/or the client's representative and shall include potential services to be provided; the frequency of visits and/or hours of service; as well as identified problems, method of intervention, and date of resolution. The plan of care for the client shall be communicated to the caregiver prior to or at the time of the delivery of non-skilled care. The plan of care shall be revised as necessary, but it shall be reviewed and updated by the registered nurse and all appropriate staff involved in care delivery at least every six (6) months.

(b) **Skilled care.** If skilled care is ordered, the order shall be sent by the agency within ten (10) days to the ordering physician or non-physician practitioner to be signed and returned in a timely manner. The plan of care shall be developed at the time of admission in conjunction with all appropriate disciplines and shall cover all pertinent diagnoses, including mental status, types of services and equipment required, frequency of visits/hours, prognoses, functional limitations, activities permitted, nutritional requirements, medications and treatments, any safety measures to protect against injury, and any other appropriate items. Orders for therapy services shall include the specific procedures and modalities to be used and, as appropriate, the amount, frequency and duration. Services delivered shall be consistent with the services ordered in the plan of care. There shall be a continuing review of clinical records for each sixty-two (62) day period that a client receives home care services to determine adequacy of the plan of care and appropriateness of continuation of care.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 12 Ok Reg 3442, eff 5-10-95 (emergency); Amended at 12 Ok Reg 2789, eff 7-27-95 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 38 Ok Reg 2062, eff 9-11-21]

310:662-5-3. Services provided

(a) **Available services.** Home care services provided by the agency shall be available on a visiting basis in the place of residence used as a client's home. If the client's home is a licensed facility, services provided by the licensed facility shall not be duplicated by the agency. Additional personal care services provided shall not be considered a duplicate service.

(b) **Coordination of services.** All personnel furnishing services shall maintain liaison to ensure their efforts are coordinated effectively, documented and support the objectives in the plan of care. If services are provided in a licensed facility, the agency shall advise facility staff of services provided to ensure care is coordinated. If an agency client is transferred to another health care provider or facility, a summary of the

services provided and condition of the client shall be forwarded to the receiving provider/facility if requested.

(c) **Skilled nursing.** The agency shall furnish skilled nursing services by, or under the supervision of, a registered nurse and in accordance with the physician's or non-physician practitioner's orders.

(1) The duties of the registered nurse shall include, but not be limited to the following:

- (A) Performing the initial evaluation visit.
- (B) Regularly reevaluating the client's nursing needs.
- (C) Initiating the plan of care and necessary revisions.
- (D) Furnishing those services requiring specialized nursing skills.
- (E) Coordinating services.
- (F) Informing the physician or non-physician practitioner and other personnel in a timely manner of changes in the client's condition and needs.
- (G) Supervision and teaching.

(2) Duties of the licensed practical nurse shall include, but not be limited to:

- (A) Furnishing services in accordance with agency policy.
- (B) Assisting the physician, non-physician practitioner and registered nurse in performing specialized procedures.
- (C) Assisting the client in learning appropriate self-care techniques.

(d) **Therapy services.** Any therapy services offered by the home care agency shall be given by a qualified therapist or by a qualified therapy assistant under the supervision of a qualified therapist in accordance with the plan of care. The qualified therapist shall assist the physician or non-physician practitioner in evaluating the level of function and participate in the development of the plan of care and any necessary revisions.

(e) **Medical social services.** If the agency furnishes medical social work services, those services shall be provided by a qualified social worker or by a qualified social work assistant under the supervision of a qualified social worker, in accordance with the plan of care. All providers of medical social services in Oklahoma shall be licensed if required and meet all defined education and experience criteria required by the Oklahoma State Board of Licensed Social Workers.

(f) **Home health aide.** Home health aides shall be certified by the Department and placed on the Home Health Aide Registry maintained by the Department. Home health aides shall be in compliance with all requirements of the Act and the rules promulgated thereto. No home care agency shall employ or contract with any individual as a home health aide for more than four (4) months, on a full-time, temporary, per diem or other basis, unless such individual is a licensed health professional or unless such individual has satisfied the requirements for certification and placement on the home health aide registry maintained by the Department.

(g) **Supportive home assistant.** If supportive home assistants are utilized, they shall be employed, trained, tested, and supervised as required at 63 O.S. Supp. 2009 § 1-1962(B).

(h) **Supervision of services.** All personnel providing home care services shall have periodic evaluations of performance on file in agency records. Appropriate supervision shall be available during all hours services are provided.

(1) When home health aide or personal care services are provided in conjunction with a skilled service, a registered nurse shall make a supervisory visit to the client's home at least every sixty (60) days to assess relationships, client care and determine whether goals are met. The frequency of supervisory visits shall be increased if the acuity of the client's illness requires more frequent visits.

(2) If a client is receiving only skilled therapy services and home health aide or personal care services as an extension of the therapy services, a skilled therapist may make the supervisory visit at least every sixty (60) days, in lieu of a registered nurse. The frequency of these supervisory visits shall also be increased if the acuity of the client's illness requires more frequent visits.

(3) When only home health aide or personal care services are furnished to a client, a physician or a licensed nurse shall make a supervisory visit to the client's residence at least once every six (6) months. The frequency of supervisory visits shall be increased if the acuity of the client's illness requires more frequent visits.

(4) Services furnished by a qualified physical therapy assistant or qualified occupational therapy assistant shall be provided only under the supervision of a qualified physical or occupational therapist according to agency policy and consistent with current standards of practice.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 12 Ok Reg 3442, eff 5-10-95 (emergency); Amended at 12 Ok Reg 2789, eff 7-27-95 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97 ; Amended at 28 Ok Reg 1061, eff 6-11-11 ; Amended at 38 Ok Reg 2062, eff 9-11-21 ; Amended at 40 Ok Reg 1584, eff 9-11-23]

310:662-5-3.1. Infectious waste disposal

(a) Every agency which generates infectious wastes in the course of providing home care services shall make appropriate provision for disposal of such materials.

(1) Sharps generated in a client's residence shall be packaged in rigid, leak proof, puncture resistant containers prior to disposal in regular household wastes or at an approved waste processing facility.

(2) Infectious wastes that are not sharps shall be disposed appropriately as required by agency policy, and Federal, state and local laws.

(b) At the time of admission, agency staff shall assess the client to determine if infectious wastes or sharps are generated in the home. If infectious wastes or sharps are generated, agency staff shall educate the client, the client's representative, or caregiver on proper disposal as required by agency policy, and Federal, state and local laws.

[Source: Added at 14 Ok Reg 2111, eff 4-7-97 (emergency); Added at 14 Ok Reg 2274, eff 6-12-97]

310:662-5-4. Quality assessment and improvement

(a) Each home care agency shall have an ongoing program approved by the governing body which assesses all services provided and requires quality improvements when indicated. The program shall be defined by written policies which shall stipulate methods for assessment, agency staff responsible for implementation and the mechanism of reporting assessments and any recommendations for improvement to the administrator and governing body.

(b) The program shall include but not be limited to the following:

(1) Methods used to assess and improve all home care services provided, whether the services are provided directly or by contract. Methods for skilled care assessment shall be developed with input from each appropriate discipline providing services. Assessment methodology shall at least include client satisfaction surveys and sample clinical record reviews.

(2) The frequency that program activities shall be performed and agency staff responsible for the activity. Program assessments and any recommendations for improvement shall be documented and reported in writing at least each three (3) months to the administrator and the governing body. The program shall have methods to reassess improvements implemented to ensure that the quality of care has improved.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97]

SUBCHAPTER 6. SUPPORTIVE HOME ASSISTANT COMPETENCY TESTING

310:662-6-1. Requirements for administration of the competency examination

(a) The competency examination for individuals who successfully complete agency-based supportive home assistant training taught in compliance with 63 O.S. Supp. 2009 § 1-1962(B) shall be administered and evaluated only by a Department approved testing entity which shall be periodically monitored by the Department.

(b) Each approved examination entity must provide the Department with the following:

(1) Written job analysis studies to determine the pool of test questions.

(2) Test question validation studies.

(3) Assurances that the written and skills testing process are not compromised.

(c) Each approved examination entity shall provide the examinee with the following:

(1) The notice showing pass/fail results.

(2) The notice shall specify the areas of failure to the examinee.

- (d) The Department shall withdraw approval of a testing entity when it allows one or more of the following:
- (1) Disclosure of the competency examination.
 - (2) Allowing another entity not approved by the Department to score the competency examination.
 - (3) Tampering with the competency examination.
 - (4) The competency examination was administered by a non-qualified individual.
- (e) Each trainee requesting to sit for the written or oral examination and skills examination shall present to the testing entity a Training Verification Form completed by the agency that provided the supportive home assistant training.
- (f) A record of the Training Verification Form and successful completion of the competency examination for each examinee shall be maintained by the testing entity for at least five (5) years. Competency is determined by a passing score on the written or oral examination and skills examination.

[Source: Added at 28 Ok Reg 1061, eff 6-11-11]

310:662-6-2. Content of the competency examination

- (a) The competency examination shall include a written or oral portion, in English, which shall:
- (1) Allow a supportive home assistant to choose between a written and an oral examination.
 - (2) Address each requirement specified in the minimum curriculum prescribed by the Department at 63 O.S Supp. 2009 § 1-1962(B).
 - (3) Be developed from a pool of test questions, only a portion of which is used in any one (1) examination.
 - (4) Use a system that prevents disclosure of both the pool of test questions and the individual competency examination results.
 - (5) If oral, the examination portion shall be read from a prepared text in a neutral manner.
- (b) The skills examination portion of the competency examination shall:
- (1) Consist of randomly selected items drawn from a pool of tasks generally performed by supportive home assistants.
 - (2) Be performed in a setting similar to that in which the individual will function as a supportive home assistant.
 - (3) Be administered and evaluated by a clinical skills observer designated in writing as qualified according to criteria established by the approved examination entity.
- (c) The Department may permit the skills examination to be proctored by qualified entity personnel if the Department finds that the procedure adopted by the testing entity ensures that the competency examination:
- (1) Is secure from tampering.
 - (2) Is standardized and scored by a testing, educational, or other organization approved by the Department.
 - (3) Is transmitted to the scoring entity immediately after completion of the skills examination. A record of successful

completion of the skills examination must be maintained by the testing entity for each individual who is found to be competent or has passed the skills examination.

(d) The Department shall revoke the approval of any entity to proctor the supportive home assistant competency examination if the Department finds evidence of impropriety, including evidence of tampering by facility staff.

[Source: Added at 28 Ok Reg 1061, eff 6-11-11]

310:662-6-3. Successful completion of the competency examination

(a) An individual shall pass both the written or oral portion of the competency examination, and the skills examination in order to complete the competency examination for supportive home assistant successfully.

(b) An individual shall score at least seventy (70) percent on the written or oral examination.

(c) An individual shall demonstrate at least eighty (80) percent accuracy for the skills examination.

[Source: Added at 28 Ok Reg 1061, eff 6-11-11]

310:662-6-4. Failure to complete the competency examination

If an individual does not complete the competency examination for supportive home assistant successfully, the individual shall be notified by the testing entity of, at least, the following:

(1) The areas which the individual did not pass.

(2) That the individual may retake the examination a total of three times without further training.

[Source: Added at 28 Ok Reg 1061, eff 6-11-11]

310:662-6-5. Expiration of the competency examination

(a) An individual who has obtained agency-based supportive home assistant training and successfully completed a competency examination for supportive home assistants administered by a Department approved testing entity as described in OAC 310:662-6 shall be deemed able to provide standby assistance to clients of a licensed home care agency.

(b) Designation as a supportive home assistant shall not expire provided the individual receives a documented agency-based competency assessment by a Licensed Nurse at the time of employment and at least once per calendar year in each subsequent year of employment.

(c) In order to keep the designation of supportive home assistant, individuals shall maintain documentation of their completed agency-based training issued by the agency that provided the training as well as documentation of their successful competency examination issued by a Department approved testing entity.

(d) Individuals who are unable to provide the documentation described in 310:662-6-3(c) shall be required to meet the training and competency examination requirements for designation as a supportive home assistant

before they may be employed to provide standby assistance.

[Source: Added at 28 Ok Reg 1061, eff 6-11-11]

SUBCHAPTER 7. ENFORCEMENT

310:662-7-1. Inspections

A certified/accredited agency shall not be subject to routine licensure inspections by the Department. Branch offices of certified/accredited agencies whose parent agency is not located in the State of Oklahoma shall not be considered to be certified/accredited, neither shall they be exempt from routine licensure inspections. The Department may inspect any agency at any time in order to determine compliance with the provisions of the Act or this Chapter. These inspections may be routine as in the case of a non-certified/accredited agency or based on a complaint received by the Department. The right of inspection shall also extend over any home care agency the Department has reason to believe is advertising or operating a home care service without a license.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

310:662-7-2. Complaints and investigations

A complaint may be registered by any person who believes a home care program is operating contrary to the Act, or these rules, or is posing a serious threat to the health and welfare of a client in its care. The Department shall receive complaints verbally or in writing. If a name and address is furnished, the complainant as well as the home care agency shall be notified in writing of the findings. The complaint shall not be made public unless a completed investigation by the Department substantiates the violations alleged in the complaint. Client names shall not be disclosed. Any home care agency with violations found on investigation shall be required to correct non-compliant items.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97]

310:662-7-3. Penalties

Any home care agency or home health aide covered by the Home Care Act that has been determined by the Department to have violated any provision of the Act or any rule promulgated theretofore may be liable for an administrative penalty of not more than one hundred dollars (\$100.00) per violation for each day on which a violation occurs or continues. The maximum administrative penalty shall not exceed ten thousand dollars (\$10,000.00) for any related series of violations.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

310:662-7-4. Equitable relief

The Department may bring an action in a court of competent jurisdiction for equitable relief to redress or restrain a violation by any person of a provision of the Home Care Act or any rule promulgated pursuant to the provisions of the Home Care Act. Said court shall have jurisdiction to determine said action, and to grant the necessary or appropriate relief, including but not limited to mandatory or prohibitive injunctive relief or interim equitable relief.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

310:662-7-5. Adverse actions

The Department may deny, modify, deny renewal, suspend, or revoke the license of any agency that has demonstrated a history of non-compliance with the Act or this Chapter. Any agency found to be in substantial non-compliance shall be subject to these provisions immediately if client health and safety are in jeopardy. The issuance or renewal of a license after notice of a violation shall not constitute a waiver by the Department of its power to rely on the violation as the basis for subsequent revocation of a license or other enforcement action authorized by the Act or this Chapter.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94 ; Amended at 14 Ok Reg 2111, eff 4-7-97 (emergency); Amended at 14 Ok Reg 2274, eff 6-12-97]

310:662-7-6. Hearings

Hearings shall be conducted according to the Administrative Procedures Act and Chapter 2 of this Title (310:002)

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

310:662-7-7. Appeals

A final order of the Department may be appealed to the District Court by any party directly affected or aggrieved by the order.

[Source: Added at 11 Ok Reg 3185, eff 6-27-94]

SUBCHAPTER 8. SITTER OR COMPANION SERVICES

310:662-8-1. Applicability

No public or private agency or person shall establish, conduct or maintain a sitter or companion service or hold itself out to the public as a sitter or companion service without first obtaining a license from the State Department of Health.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-2. Licensure

(a) **Application.** Any person, corporation, partnership, association or other legal entity desiring to obtain a license to establish, or to obtain a

renewal license to operate, a companion or sitter service in this State shall make application to the State Department of Health in such form and accompanied by such information as the State Commissioner of Health shall prescribe. All applications shall include disclosure statements completed by the applicant which shall include, but not be limited to, the following information:

- (1) The full name and address of the applicant, and all affiliated persons;
- (2) The name and location of the companion or sitter service for which a license is sought;
- (3) The full name of the individual responsible for supervision of the companion or sitter services that meets the requirements of the Act and evidence of current licensure and/or training as appropriate;
- (4) Proof of participation in a workers' compensation insurance program for employees who are subject to pertinent labor laws. This insurance requirement shall remain in effect at all times while the service is licensed;
- (5) Proof of liability insurance coverage of at least one hundred thousand dollars (\$100,000.00) per occurrence, three hundred thousand dollars (\$300,000.00) aggregate. Each service shall maintain at least this level of coverage.
- (6) An affidavit attesting to the information provided.

(b) **Plan of delivery.** Each initial application shall be accompanied by a plan of delivery that describes the scope and range of companion or sitter service available to clients and their families as well as a description of the system of record keeping that meets the requirements specified in the Act. Each renewal application shall include written notification as to the changes in the plan of delivery.

(c) **License fees.**

- (1) An application for an initial license to establish or operate a new companion or sitter service shall be accompanied by a nonrefundable application fee of one thousand dollars (\$1000.00)
- (2) A renewal application for an existing companion or sitter service shall be accompanied by a nonrefundable licensing fee of five hundred dollars (\$500.00).
- (3) An application is not considered to be filed unless it is accompanied by the appropriate form and fee.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-3. Licensure issuance/renewal

(a) **Expiration.** Each license for a companion or sitter service shall expire one (1) year after issuance on the last day of the month of issuance unless suspended or revoked.

(b) **Deadlines for applications.** The license application shall be filed in accordance with the following deadlines.

- (1) The application for a companion or sitter service license shall be filed at least thirty (30) days before beginning operations.

(2) The application for an initial license, for a transfer of ownership or operation, shall be filed at least thirty (30) days prior to the transfer. If the Department finds that an emergency exists which threatens the welfare of clients, the thirty (30) day advance filing notice may be waived.

(3) The application for renewal of a licensed existing sitter or companion service shall be filed at least thirty (30) days prior to the expiration date of the license.

(4) An incomplete initial or renewal application received by the Department shall be summarily dismissed after thirty (30) days of applicant notification of an incomplete application. Thereafter, the applicant shall submit a new application and the initial or renewal fee.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-4. Base of operation

Each companion or sitter service shall operate from a place of business which is accessible to the public and physically located in Oklahoma. Staff providing services shall be supervised by personnel at that location. The license shall be issued only for the premises named in the application.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-5. Criminal background checks

Each companion or sitter service shall maintain a copy of each background check that is conducted on an agency employee to meet the requirements of the Act.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-6. Transfer of ownership of a licensed agency

(a) The license for a companion or sitter service is not transferable or assignable except a license may be transferred to any affiliated person, parent company or subsidiary of the applicant or legal entity which has an ongoing organizational relationship with the applicant. Proof of legal assignment with accompanying application for licensure shall be filed with the Department at the time of the change. There shall be no fee for legal assignment of a service license.

(b) If an entity is considering acquisition of a licensed agency, an application for license with a five hundred dollar (\$500.00) fee for the service shall be filed with the Department at least thirty (30) days prior to the effective date of the change. A copy of the executed sales agreement shall be provided to the Department.

(c) If a corporate licensee amends its articles of incorporation to revise its name, this subsection does not apply. The sale of stock of a corporate licensee does not cause this subsection to apply.

(d) No license shall be transferred from one location to another unless the Department is notified. If a service is considering relocation, the

service shall notify the Department thirty (30) days prior to the intended relocation. The Department shall provide written notification to the service amending the annual license to reflect the new location.

(e) Upon the effective date of a change of ownership or upon cessation of operation of a service, the current license shall be mailed or returned to the Department. The service shall advise the Department in writing at the time of cessation of operation where service records shall be archived and how these records shall be accessed.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-7. Individual Service Plan

The individual responsible for supervision of the companion or sitter services shall prepare an Individual Service Plan at the time of the initial evaluation. The Individual Service Plan shall be developed after consultation with the client and/or the client's representative and shall include potential services to be provided and the requested hours of service. The Individual Service Plan for the client shall be communicated to the caregiver prior to or at the time of the delivery of care. The Individual Service Plan shall be revised as necessary, but it shall be reviewed and updated by the individual responsible for supervision of the companion or sitter services at least every six (6) months.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-8. Complaint investigations

The Department shall investigate allegations of noncompliance with the requirements as specified in the Act.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

310:662-8-9. Mediation

(a) If a complaint investigation results in a finding of noncompliance against a licensed companion or sitter service, the licensed service may request review of the findings by a mediator in an effort to come to consensus on the facts of the investigation and to resolve any conflicts between the licensed service and the Department.

(b) Requests for mediation shall be made in writing and shall be received by the Department within ten days after the service has received the notice of noncompliance from the Department.

(c) Mediators shall be certified by the Alternative Dispute Resolution System through the Supreme Court of Oklahoma.

[Source: Added at 25 Ok Reg 2455, eff 7-11-08]

CHAPTER 663. CONTINUUM OF CARE AND ASSISTED LIVING

Editor's Note: *Numerous rules in this Chapter were added or revised by the Oklahoma State Department of Health in 2007. However, after these rules, as identified below, had been promulgated in the Oklahoma Register and published in the 2007 OAC Supplement, the Department discovered that an earlier draft of the rules, which had NOT been adopted by the State Board of Health, had been inadvertently submitted to the Legislature, Governor, and Secretary of State for review, final adoption, and promulgation [see 24 Ok Reg 2007, effective 6-25-07]: 310:663-1-2 and 310:663-1-4 310:663-3-5 and 310:663-3-8 310:663-7-2 310:663-9-6 310:663-13-1 310:663-15-1 through 310:663-15-3 310:663-19-1 through 310:663-19-3 310:663-25-3 and 310:663-25-4 310:663-29-2 Appendix B Upon discovery of this error, the agency initiated another rulemaking action, and the rules were readopted in 2008. After review and final adoption, those rules were promulgated at 25 Ok Reg 2460, effective 7-11-08. [See also Editor's Note published at 25 Ok Reg 2460]*

[**Authority:** 63 O.S., §§ 1-104, and 1-890.1 et seq.]
[**Source:** Codified 6-25-98]

SUBCHAPTER 1. GENERAL PROVISIONS

310:663-1-1. Purpose

This Chapter provides for the licensure of continuum of care facilities and assisted living centers under authority of the following laws: 63 O.S. Supp. 1997, Sections 1-890.1 et seq. (Continuum of Care and Assisted Living Act); and 75 O.S. Supp. 1997, Sections 250.1 through 323, (Administrative Procedures Act).

[**Source:** Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-1-2. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"Abuse" means the willful infliction of injury, unreasonable confinement, intimidation or punishment, with resulting physical harm, impairment or mental anguish.

"Act" means the Continuum of Care and Assisted Living Act, Title 63 O.S. Sections 1-890.1 et seq. of the Oklahoma Statutes.

"Antipsychotic drug" means a drug, sometimes called a major tranquilizer, used to treat symptoms of severe psychiatric disorders, including but not limited to schizophrenia and bipolar disorder.

"Assisted living center" *means any home or establishment offering, coordinating or providing services to two (2) or more persons who:*

(A) *are domiciled therein;*

- (B) *are unrelated to the operator;*
 - (C) *by choice or functional impairments, need assistance with personal care or nursing supervision;*
 - (D) *may need intermittent or unscheduled nursing care;*
 - (E) *may need medication assistance; and*
 - (F) *may need assistance with transfer and/or ambulation;*
- [63:1-890.2(1)].

"Chemical restraint" means the use of a medication for the purpose of discipline, convenience, or in an emergency situation to control mood or behavior and not required to treat the resident's symptoms. Chemical restraint does not mean medication prescribed to maintain emotional stability.

"Commissioner" means the Commissioner of Health.

"Continuum of care facility" *means a home, establishment or institution providing nursing facility services as defined in Section 1-1902 of Title 63 of the Oklahoma Statutes and one or both of the following:*

- (A) *assisted living center services as defined in the Continuum of Care and Assisted Living Act; and*
- (B) *adult day care center services as defined in Section 1-872 of Title 63 of the Oklahoma Statutes [63:1-890.2.4].*

"Department" means the Oklahoma State Department of Health.

"Direct care staff" in an assisted living center means qualified nursing, activity, social and therapy staff employed by or under the direct supervisory control of the assisted living center.

"Intermittent or unscheduled nursing care" means skilled nursing care given by a licensed practical nurse or registered nurse that is not required twenty-four (24) hours a day.

"Long-term care facility" means:

- (A) a nursing facility as defined by Section 1-1902 of Title 63 of the Oklahoma Statutes;
- (B) a continuum of care facility as defined under the Continuum of Care and Assisted Living Act; or
- (C) the nursing care component of a life care community as defined by the Long-term Care Insurance Act.

"Misappropriation of resident's property" means the taking, sequestration, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any property, real or personal, or anything of value belonging to or under the legal authority, or the taking of any action contrary to any duty imposed by federal or state law prescribing conduct relating to the custody or disposition of resident's property.

"Neglect" means a failure to provide goods and services necessary to avoid physical harm, mental anguish or mental illness.

"Personal care" *means assistance with meals, dressing, movement, bathing or other personal needs or maintenance, or general supervision of the physical and mental well-being of a person [63:1-1902.17] and includes assistance with toileting.*

"Prescribing clinician" means:

- (A) an allopathic or osteopathic physician licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision or the Oklahoma State

Board of Osteopathic Examiners, as appropriate;
(B) a physician assistant licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision; or
(C) an Advanced Practice Registered Nurse licensed by and in good standing with the Oklahoma Board of Nursing.

"Qualified nutritionist" is a Department approved person who holds a baccalaureate with major studies in food and nutrition, dietetics, or food service management; has one year experience in the dietetic service of a health care institution; and participates in continuing education annually.

"Representative" means an agent under a durable power of attorney for health care, or a court-appointed guardian or, if there is no court-appointed guardian, the parent of a minor, a relative, or other person, designated in writing by the resident.

"Resident" means anyone accepted for care through contractual agreement and who meets the admission criteria established pursuant to OAC 310:663-3-2.

"Physical restraint" means any manual method or physical or mechanical device, material or equipment attached or adjacent to the resident's body that the resident cannot remove easily, that is not used for the purpose of therapeutic intervention or body alignment as determined by resident assessment and care planning, and which restricts the resident's desired freedom of movement and access to his or her body.

"Significant change" is defined as a major change in the resident's status that is not self limiting; affects more than one area of the resident's health status; and requires interdisciplinary review and/or revision of the care plan.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08 ; Amended at 37 Ok Reg 1443, eff 9-11-20]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

310:663-1-3. Purpose, authority and indoor tobacco smoke

(a) The purpose of this section is to establish a prevention program for several non-communicable diseases, which will improve the health of Oklahomans by eliminating exposure to secondhand tobacco smoke and its deadly effects. This section abates the public health nuisance of secondhand smoke under the authority of the Commissioner of Health as specified under Section 1-106(b)(1) of Title 63 of the Oklahoma Statutes. This section also further specifies how compliance with the Smoking in Public Places Act will be accomplished. [63 O.S. §§ 1-1521 *et seq.*]

(b) The Commissioner of Health has conducted a study and is recommending these measures to the Board of Health under his authority as stated in section 1-106 of the Public Health Code. [63 O.S. § 1-106] The Board has the authority to establish prevention programs for non-communicable disease and to promulgate rules for the control of causative or toxic substances, which can cause disease under section 1-

502b of the Public Health Code. [63 O.S. § 1-502b] The Board is adopting this rule under its authority in sections 1-104 and 1-1526 of Title 63 of the Oklahoma Statutes. [63 O.S. §§ 1-104 & 1-1526]

(c) Smoking or possessing a lighted tobacco product is prohibited in a continuum of care or assisted living facility and within fifteen (15) feet of each entrance to a facility and of any air intakes; provided however, the facility may provide a smoking room not available to the public for use by residents

(d) An indoor smoking room may be provided if:

(1) It is completely enclosed;

(2) It is exhausted directly to the outside and maintained under negative pressure sufficient to prevent any tobacco smoke from entering non-smoking areas of the building;

(3) It allows for visual observation of the residents from outside of the smoking room; and

(4) The plans are reviewed and approved by the Department.

(e) To enable better observation and supervision of residents who wish to smoke outside, a facility may designate a smoking area outside an entrance other than the main entrance which may be closer than fifteen (15) feet to the entrance providing consideration is given to minimizing the possibility of smoke entering the building.

(f) The walkway to the main entrance shall also be smoke free.

(g) No ashtray shall be located closer than fifteen (15) feet to an entrance, except in an indoor smoking room or a designated outdoor smoking area under paragraph "c" above.

(h) Should construction requirements not be in agreement with this rule, the stricter rule shall apply.

(i) The facility's tobacco use policy shall be clearly posted near the main entrance, and prospective residents or their legal representatives shall be notified of the policy prior to the residents' acceptance for admission.

[Source: Added at 19 Ok Reg 2096, eff 7-1-02]

310:663-1-4. Other provisions applicable to assisted living centers

Assisted living centers subject to the provisions of this chapter shall comply with the following Oklahoma statutes as applicable:

(1) 63 O.S. Sections 1-879.2a et seq., Alzheimer's Disease Special Care Disclosure Act;

(2) 59 O.S. Sections 367 et seq., Utilization of Unused Prescription Medications Act;

(3) 63 O.S. Section 1-1909. (relating to documents and papers required to be displayed);

(4) 63 O.S. Section 1-1945. (relating to Long Term Care Security Act definitions);

(5) 63 O.S. Section 1-1946. (relating to registered sex offender or violent crime offender seeking placement in a long-term care facility - notification - facility's duty to determine registration status of applicants for care, residents, and employees);

(6) 63 O.S. Section 1-1950.1. (relating to definitions - criminal arrest check on certain persons offered employment -

exemptions);

(7) 63 O.S. Section 1-1950.3. (relating to nurses aides - employment of persons not licensed);

(8) 63 O.S. Section 1-1950.4. (relating to nurse aides - uniform employment application);

(9) 63 O.S. Section 1-1950.4a. (relating to uniform employment application - penalty for false information);

(10) 63 O.S. Section 1-1950.5. (relating to caregiver - compensation - definition); and

(11) 63 O.S. Section 1-1951. (relating to certified nurse aides).

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter*.

SUBCHAPTER 3. SERVICES AND CARE

310:663-3-1. Service in an assisted living center

(a) An assisted living center shall not care for any resident needing care in excess of the level that the assisted living center is licensed to provide or capable of providing.

(b) An assisted living center shall ensure that routines of care provision and service delivery are directed by the resident to the maximum extent possible.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-2. Admission criteria for assisted living center

(a) The assisted living center shall describe the population admitted or to be admitted based on the services provided to meet the following resident needs:

(1) assistance with personal care;

(2) nursing supervision;

(3) intermittent or unscheduled nursing care;

(4) medication administration;

(5) assistance with cognitive orientation and care or service for Alzheimer's disease and related dementias; and

(6) assistance with transfer or ambulation.

(b) The assisted living center's admission criteria shall be included in the assisted living center's application for license and the resident service contract.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-3. Description of service in assisted living center

(a) The assisted living center shall describe the service to be provided or arranged in the assisted living center with respect to the following services:

- (1) assistance with personal care meals, housekeeping and laundry;
 - (2) nursing supervision during nursing intervention;
 - (3) intermittent or unscheduled nursing care as defined in this chapter;
 - (4) medication administration;
 - (5) assistance with cognitive orientation;
 - (6) any specialized service or unit for residents with Alzheimer's disease and related dementias, physical disabilities or other special needs that the facility intends to market;
 - (7) assistance with transfer or ambulation;
 - (8) planned programs for socialization, activities and exercise; and
 - (9) provisions for evacuation of the building structure and staff to meet the evacuation needs of residents.
- (b) The assisted living center's description of its services shall be included in the assisted living center's application for license and the resident service contract.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-4. Appropriateness of placement in assisted living center

- (a) The assisted living center shall use the screening instrument specified in 310:663-5 to determine the appropriateness of the resident's placement in the assisted living center.
- (b) The resident shall not be eligible for placement in the assisted living center under one (1) or more of the following circumstances:
- (1) The resident needs care or services that exceed the care or services available in the assisted living center;
 - (2) The resident's physician determines that the resident requires physical or chemical restraints in situations other than emergencies;
 - (3) The resident poses a threat to self or others; or
 - (4) The assisted living center is unable to meet the resident's needs for privacy or dignity.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-5. Involuntary termination of residency

- (a) **Termination of residency when inappropriately placed.** If an assisted living center finds pursuant to 310:663-3-4 (relating to appropriate placement) that a resident is inappropriately placed, the assisted living center shall inform the resident and/or the resident's representative if any. If voluntary termination of residency is not arranged, the assisted living center shall provide written notice to the resident and to the resident's representative, giving the resident thirty (30) days notice of the assisted living center's intent to terminate the residency agreement and move the resident to an appropriate care provider. The thirty (30) day requirement shall not apply:

- (1) when emergency termination of the residency agreement is mandated by the resident's immediate health needs; or
- (2) when termination of the residency agreement is necessary for the physical safety of the resident or other residents.

(b) Written notice of involuntary termination of residency for reasons of inappropriate placement. The written notice of involuntary termination of residency for reasons of inappropriate placement shall include:

- (1) A full explanation of the reasons for the termination of residency;
- (2) The date of the notice;
- (3) The date notice was given to the resident and the resident's representative; and,
- (4) The date by which the resident must leave the assisted living center.

(c) Involuntary termination of residency for reasons other than inappropriate placement. Procedures for involuntary termination of residency for reasons other than inappropriate placement, by an assisted living center, are as follows:

- (1) Written notice shall be provided to the resident, the resident's representative, the person responsible for payment of charges for the resident's care, if different from any of the foregoing, and the Department, at least thirty (30) days in advance of the termination of residency date.
- (2) The written notice shall include:
 - (A) A full explanation of the reasons for the termination of residency;
 - (B) The date of the notice;
 - (C) The date notice was given to the resident and the resident's representative;
 - (D) The date by which the resident must leave the assisted living center;
 - (E) Notice that the resident, the resident's representative or person responsible for payment of the resident's care may request a hearing with the Department;
 - (F) Notice that the request for hearing with the Department must be filed within ten (10) Department business days of receipt of the facility notice; and
 - (G) Notice that a written or verbal request for a hearing with the Department should be directed to the Hearing Clerk, Oklahoma State Department of Health, 123 Robert S. Kerr Ave., Oklahoma City, OK 73102, telephone (405) 271-1269.
- (3) An assisted living center shall not involuntarily terminate a residency agreement for reasons other than inappropriate placement without following the procedures in this section.
- (4) If a written or verbal request for a hearing is timely filed by an eligible aggrieved party, the Department shall convene a hearing within ten (10) Department business days of receipt of the request. The request may be in the form of a written or verbal request for hearing from the resident or the resident's

representative. In the event that the resident is unable to write, a verbal request made to the hearing clerk shall be sufficient. The Department shall reduce the verbal request to writing and send a copy to the resident. The request shall state the reason for the termination of residency and attach a copy of the letter from the assisted living center.

(5) While waiting for the hearing, the assisted living center shall not terminate the residency agreement unless the termination is an emergency situation. If the resident relocates from the assisted living center but wants to be readmitted, the Department may proceed with the hearing and the assisted living center shall be required to readmit the resident if the discharge is found not to meet the requirements of OAC 310:663.

(6) The Department shall provide the Administrative Law Judge and the space for the hearing. The parties, including the resident and the assisted living center, may be represented by counsel or may represent themselves. Assisted living centers operating as a corporation or limited liability company shall be represented by counsel.

(7) The hearing shall be conducted at the Oklahoma State Department of Health building unless there is a request for the hearing to be held at the assisted living center or at another place. If the hearing is conducted at another location the parties are responsible for providing the hearing room. The Department shall maintain a record on the case in accordance with the Administrative Procedures Act.

(8) The hearing shall be conducted in accordance with the Administrative Procedures Act. The Administrative Law Judge's order shall include findings of fact, conclusions of law and an order as to whether or not the termination of the residency was according to law.

(9) If the Administrative Law Judge finds that the termination of residency was not according to law, the Department shall review, investigate and issue deficiencies as appropriate.

(10) If the termination of residency is according to law, the order shall give the assisted living center the right to terminate the residency agreement.

(11) The scope of the hearing may include:

- (A) Inadequate notice;
- (B) Discharge based on reason not stated in the law;
- (C) Sufficiency of the evidence to support the termination of residency; or
- (D) The finding of emergency.

(12) The Administrative Law Judge shall render a written decision within ten (10) Department business days of the close of the record.

(13) If the Administrative Law Judge sustains the decision of the assisted living center, the assisted living center may proceed with the termination of residency. If the Administrative Law Judge finds in favor of the resident, the assisted living center shall withdraw its notice of intent to terminate the residency

agreement. The decision of the Administrative Law Judge shall be final and binding on all parties unless appealed in accordance with the provisions of the Administrative Procedures Act.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08 ; Amended at 39 Ok Reg 1390, eff 9-11-22]

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-3-6. Management of risk in assisted living center

(a) If a resident's preference or decision places the resident or others at risk or is likely to lead to an adverse consequence, the assisted living center shall advise the resident and the resident's representative of such risk or consequences.

(b) The assisted living center shall specify the cause for concern, discuss the concern with the resident and representative, if any, and attempt to negotiate a written agreement that minimizes risk and adverse consequences and offers alternatives while respecting resident preferences.

(c) The assisted living center shall document any lack of agreement and shall provide a copy to the resident and the resident's representative.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-7. Services and care specific to continuum of care facility

(a) Each continuum of care facility shall provide, coordinate or arrange care appropriate to the needs and capabilities of its residents.

(b) A continuum of care facility shall not care for any resident needing care in excess of the level that the continuum of care facility is licensed to provide.

(c) A continuum of care facility shall ensure the availability of care appropriate to a nursing facility or specialized facility and shall comply with the requirements of Title 63 O.S. Supp. 1997, Section 1-1901 et seq. and OAC 310:675.

(d) In addition to the care required in (c) of this Section, a continuum of care facility shall ensure the availability of at least one (1) of the following:

(1) service appropriate to an assisted living center operating in full compliance with the Act and OAC 310:663; or

(2) care appropriate to an adult day care center operating in compliance with the Title 63 O.S. Supp. 1997, Section 1-870 et seq. and OAC 310:605.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-3-8. Food storage, preparation and service

(a) **Use of Food Service Establishment rule.** Food shall be stored, prepared and served in accordance with Chapter 257 of this Title (relating to food service establishments) with the following additional

requirements:

(b) **Ice.** Ice machines available to the residents, or the public, shall be a dispenser type, or have a locking enclosure.

(c) **Food.** A whole, intact, fruit or vegetable is an approved food source. The food supply shall be sufficient in quantity and variety to prepare menus for three (3) days. Leftovers that are potentially hazardous foods shall be used, or disposed of, within twenty-four (24) hours. Non-potentially hazardous leftovers that have been heated or cooked may be refrigerated for up to forty-eight (48) hours.

(d) **Milk, milk products and eggs.**

(1) **Milk grade.** Only grade A pasteurized fluid milk, as defined by the Oklahoma Milk and Milk Products Act, Title 2, Section 7-401 through 7-421, shall be used for beverage and shall be served directly into a glass from a milk dispenser or container.

(2) **Powdered or evaporated milk.** Powdered or evaporated milk products approved under the U.S. Department of Health and Human Services' Grade "A" Pasteurized Milk Ordinance (2003 Revision), may be used only as additives in cooked foods. This does not include the addition of powdered or evaporated milk products to milk or water as a milk for drinking purposes. Powdered or evaporated milk products may be used in instant desserts and whipped products or for cooking. When foods, in which powdered or evaporated milk has been added, are not cooked the foods shall be consumed within twenty-four (24) hours.

(3) **Milk Temperature.** Milk for drinking shall be stored at a temperature of 41° F. or below and shall not be stored in a frozen state.

(4) **Eggs.** Only clean, whole eggs with shell intact, pasteurized liquid, frozen, dry eggs, egg products and commercially prepared and packaged hard boiled eggs may be used. All eggs shall be thoroughly cooked except pasteurized egg products or pasteurized in-shell eggs may be used in place of pooled eggs or raw or undercooked eggs.

(e) **Food service training.** All staff assisting in, or responsible for food preparation shall have attended a food service training program offered or approved by the Department.

(f) **Applicability.** This section shall only apply to food prepared or served by the assisted living center within the licensed assisted living center.

[Source: Added at 24 Ok Reg 2007, eff 6-25-07 ¹; Added at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

SUBCHAPTER 5. RESIDENT ASSESSMENTS

310:663-5-1. Assessments required

Each assisted living center shall use the admission and comprehensive assessment designated by the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-5-2. Timeframes for completing assessment

- (a) The assisted living center shall complete the admission assessment within thirty (30) days before, or at the time of, admission.
- (b) The assisted living center shall complete the comprehensive assessment in accordance with the following:
 - (1) within fourteen (14) days after admission of the resident;
 - (2) once every twelve (12) months thereafter; and
 - (3) promptly after a significant change in the resident's condition.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-5-3. Description of resident assessment form

- (a) The admission assessment form shall include but not be limited to the following:
 - (1) resident's identification;
 - (2) disease diagnosis/infections;
 - (3) mental health history, and intellectual disability or developmental disability;
 - (4) physical functioning which includes the numbers of persons needed to assist with activities of daily living;
 - (5) incontinence;
 - (6) medications;
 - (7) special treatment and procedures;
 - (8) cognitive function; and
 - (9) signatures and dates.
- (b) The comprehensive assessment includes the following information:
 - (1) physical functional status;
 - (2) mental functional status;
 - (3) customary routine;
 - (4) disease diagnosis;
 - (5) oral/nutritional status;
 - (6) medications;
 - (7) devices and restraints;
 - (8) special treatments;
 - (9) skin condition;
 - (10) psychosocial status;
 - (11) sensory and physical impairments; and
 - (12) medically defined conditions and prior medical history.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 36 Ok Reg 1729, eff 9-13-19]

310:663-5-4. Conduct of assessment

- (a) The assessments shall be completed by appropriate participation of health professionals trained in the assessment process.

(b) All assessments must be coordinated and signed by a registered nurse or the resident's personal physician.

(c) The assisted living center shall ensure that each comprehensive assessment includes a personal interview between the resident and the person completing the form. If the resident is mentally impaired, the assisted living center shall include in the interview at least one (1) of the persons listed in (d) (2) and (d) (3) of this section.

(d) The assisted living center shall maintain all assessments for five (5) years from the date of each assessment. The completed form shall be available upon request to the following:

- (1) the resident;
- (2) the resident's personal physician;
- (3) the resident's representative; and
- (4) the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

310:663-5-5. Use of assessment

The assisted living center shall use the results of the resident's assessment for the following:

- (1) to assist in determining the appropriateness of the resident's placement in the assisted living center in compliance with 310:663-3; and
- (2) to develop a care plan for the resident, in consultation with the resident.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

SUBCHAPTER 7. PHYSICAL PLANT DESIGN

310:663-7-1. General requirements

(a) Each assisted living center shall comply with applicable construction and safety standards pursuant to Title 74 O.S. Sections 317 through 324.21.

(b) The design of the assisted living center shall be appropriate to the mental or physical disabilities of the residents to be served in the assisted living center.

(c) The design of the continuum of care facility or assisted living center shall include physical separation of residents receiving assisted living services from those receiving nursing facility services, including separate dining and common areas. The continuum of care facility or assisted living center shall provide separate wings or buildings with separate exterior entrances for residents receiving assisted living services and those receiving nursing facility services.

(d) Each assisted living center shall comply with the hot water standards set forth in Appendix A.

(e) On and after the effective date of this subsection, each assisted living center that undergoes design changes or construction and each newly

licensed assisted living center shall be designed and constructed in conformity with requirements for accessibility to physically disabled persons as specified in Chapter 11 of the International Building Code, 2003 Edition, published by the International Code Council.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00 ; Amended at 21 Ok Reg 2784, eff 7-12-04]

310:663-7-2. Privacy and independence

Each assisted living center shall ensure privacy and independence for its residents, to include the following:

- (1) no more than two (2) residents shall occupy each sleeping room;
- (2) shower and bathing facilities shall not be occupied by more than one (1) resident at a time;
- (3) lockable doors on resident sleeping rooms or residences except in the case of documented contraindication;
- (4) no more than four (4) residents sharing toilet facilities;
- (5) no more than four (4) residents sharing bathing facilities, provided that the Department may approve more than four (4) residents per bathing facility based on documentation that the design of the bathing facility is appropriate to the special needs of each resident who uses the bathing facility;
- (6) provisions shall be made for each resident to control the temperature in the individual living unit through the use of a damper, register, thermostat, or other reasonable means that is under the control of the resident and that preserves resident privacy, independence and safety, provided that the Department may approve an alternate means based on documentation that the design of the temperature control is appropriate to the special needs of each resident who has an alternate temperature control; and
- (7) the resident shall have the right to use personal furnishings in the individual living unit.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-7-3. Submission of plans and specifications and related requests for services

(a) **Submission of plans.** Before construction is begun, plans and specifications covering the construction of new buildings or major alterations to existing buildings shall be submitted to the Department for review as provided in OAC 310:663-7-4 or OAC 310:663-7-5.

- (1) Plans and specifications are required for the following alterations:

- (A) Changes that affect path of egress;

- (B) Change of use or occupancy;
- (C) Repurposing of spaces;
- (D) Structural modifications;
- (E) Heating, ventilation and air conditioning (HVAC) modifications;
- (F) Electrical modifications that affect the essential electrical system;
- (G) Changes that require modification or relocation of fire alarm initiation or notification devices;
- (H) Changes that require modification or relocation of any portion of the automatic fire sprinkler system;
- (I) Replacement of fixed medical equipment if the alteration requires any work noted in (A) through (H) of this paragraph;
- (J) Replacement of or modifications to any required magnetic or radiation shielding;
- (K) Changes to or addition of any egress control devices or systems.

(2) Plans and specifications are not required for the following alterations:

- (A) Painting, papering tiling, carpeting, cabinets, counter tops and similar finish work provided that the new finishes shall meet the requirements of this Chapter;
- (B) Ordinary repairs and maintenance;
- (C) Modifications to nurse call or other signaling/communication/information technology systems provided the modifications meet the requirements of this Chapter; or
- (D) Replacement of fixed or moveable medical equipment that does not affect electrical, HVAC, or shielding requirements noted above.

(b) **Fees.** Each construction project submission shall be accompanied by the appropriate review fee based on the cost of design and construction of the project. Fees for plan and specification reviews and related Department services are as follows:

- (1) Design and construction plans and specifications fee: two one-hundredths percent (0.02%) of the cost of design and construction of the project, with a minimum fee of Fifty Dollars (\$50.00) and a maximum fee of One Thousand Dollars (\$1,000.00);
- (2) Request for exception or temporary waiver fee: Five Hundred Dollars (\$500.00);
- (3) Application for self-certification fee: Five Hundred Dollars (\$500.00);
- (4) Courtesy construction inspection fee: Five Hundred Dollars (\$500.00);
- (5) Professional consultation or technical assistance fee: Five Hundred Dollars (\$500.00) for each eight hours or major fraction thereof of staff time. For technical assistance requiring travel, the fee may be increased to include the Department's costs for travel.

(c) **Fees when greater than two (2) submittals required.** The fee for review of design and construction plans and specifications shall cover the

cost of review for up to two (2) stage one and two (2) stage two submittals and one final inspection. If a stage one or stage two submittal is not approved after two (2) submissions, another review fee shall be required with the third submittal. Fast-track projects shall be allowed two reviews for each package submitted. If a fast-track stage package is not approved after the second submittal, another review fee based on the cost of the project shall be required with the third submittal of the package.

(d) **Review process.** Design and construction plans and specifications shall be reviewed in accordance with the following process.

(1) Unless otherwise provided in this Subchapter, the Department shall have ten (10) calendar days in which to initially determine if the filed application is administratively complete

(A) Upon determining that the application is not administratively complete, the Department shall immediately notify the applicant in writing and shall indicate with reasonable specificity the inadequacies and measures necessary to complete the application. Such notification shall not require nor preclude further review of the application and further requests for specific information. If the Department fails to notify the applicant as specified in this Paragraph, the period for technical review shall begin at the close of the administrative completeness review period. Upon submission of correction of inadequacies, the Department shall have an additional ten (10) calendar days to review the application for completeness.

(B) Upon determination that the application is administratively complete, the Department shall immediately notify the applicant in writing. The period for technical review begins.

(2) The Department shall have forty-five (45) calendar days from the date a completed application is filed to review each application for technical compliance with the relevant regulations and reach a final determination.

(A) The time period for technical review is tolled (the clock stops) when the Department has asked for supplemental information and advised the applicant that the time period is tolled pending receipt.

(B) To make up for time lost in reviewing inadequate materials, a request for supplemental information may specify that up to 30 additional calendar days may be added to the deadline for technical review, unless the request for supplemental information is a second or later request that identifies new deficiencies not previously identified

(C) An application shall be deemed withdrawn if the applicant fails to supplement an application within 90 calendar after the Department's request, unless the time is extended by agreement for good cause.

(D) Extensions may be made as provided by law.

310:663-7-4. Preparation of plans and specifications

(a) **Stage one.** Preliminary plans and outline specifications shall be submitted and include sufficient information for approval by the Department of the following: scope of project; project location; required fire-safety and exiting criteria; building-construction type, compartmentation showing fire and smoke barriers, bed count and services; the assignment of all spaces, areas, and rooms for each floor level, including the basement. An assisted living center has the option, at its own risk, to bypass the stage one submittal and proceed directly to submittal of stage two documents.

(b) **Stage two.** A proposed construction document shall be submitted that includes final drawings and specifications adequate for approval by the Department. All final plans and specifications shall be appropriately sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval, and shall be submitted timely.

(c) **Special submittals.**

(1) **Fast-track projects.** The fast track process applies only to stage two submittals. A stage one submittal and functional program must be approved before entering the fast track process.

(A) Equipment and built-in furnishings are to be identified in the stage one submittal.

(B) The assisted living center has the option to submit two packages: civil, landscaping and structural in stage one, and the balance of the components in stage two.

(C) Fast-track projects shall have prior approval and be submitted in no more than four (4) separate packages.

(i) Site work, foundation, structural, underslab mechanical, electrical, plumbing work, and related specifications.

(ii) Complete architectural plans and specifications.

(iii) All mechanical, electrical, and plumbing plans and specifications.

(iv) Equipment and furnishings.

(2) **Radiation protection.** Any project that includes radiology or special imaging equipment used in medical diagnosis, treatment, and therapy of patients, shall include plans, specifications, and shielding criteria, prepared by a qualified medical physicist.

These plans shall be submitted and approved by the Department prior to installation of the equipment.

(d) **Floor plan scale.** Floor plans are to be submitted at a scale of one-eighth (1/8) inch equals one (1) foot, with additional clarifying documents as required.

(e) **Application form.** The submittal shall be made using a Department application form which requests information required by this Chapter and specifies the number of copies and format for document submittal.

310:663-7-5. Self-certification of plans

(a) The Department shall make available consultation and technical assistance services covering the requirements of this section to an assisted living center considering self-certification of plans. The consultation and technical assistance is subject to the fees specified in OAC 310:663-7-3. The consultation is optional and not a prerequisite for filing a request through the self-certification review process.

(b) The assisted living center and the project architect or engineer may elect to request approval of design and construction plans through a self-certification review process. The assisted living center and the project architect or engineer submit a self-certification request on a form provided by the Department, along with the review fee specified in OAC 310:663-7-3. The form shall be signed by the assisted living center and the project architect or engineer attesting that the plans and specifications are based upon and comply with the requirements of this Chapter. The form shall require information necessary to demonstrate compliance with OAC 310:665-7-5(c).

(c) To be eligible for self-certification, projects must comply with the following requirements:

- (1) The project involves any portion of the assisted living center where residents are intended to be examined or treated and the total cost of design and construction is two million five hundred thousand dollars (\$2,500,000) or less; or
- (2) The project involves only portions of the assisted living center where residents are not intended to be examined or treated; and
- (3) The project architect or engineer attesting the application has held a license to practice architecture or engineering for at least five (5) years prior to the submittal of the application, is licensed to practice in Oklahoma; and
- (4) The assisted living center owner/operator acknowledges that the Department retains the authority to:
 - (A) Perform audits of the self-certification review program and select projects at random for review;
 - (B) Review final construction documents;
 - (C) Conduct on-site inspections of the project;
 - (D) Withdraw approval based on the failure of the assisted living center or project architect or engineer to comply with the requirements of this Chapter; and
- (5) The assisted living center agrees to make changes required by the Department to bring the construction project into compliance with this Chapter.

(d) Within twenty-one (21) calendar after receipt of a complete application, the Department shall approve or deny the application for self-certification and send notification to the assisted living center. If the application is denied, the assisted living center shall have thirty (30) calendar to submit additional or supplemental information demonstrating that the application complies with the requirements for self-certification

of plans and specifications. The Department shall have fourteen (14) calendar after receipt of supplemental information to reconsider the initial denial and issue a final approval or denial of the self-certification request.

(e) After denial of the application for self-certification and prior to the start of construction, the assisted living center shall pay the applicable fee for plan review specified in OAC 310:663-7-3. Upon receipt of the plan review fee, the Department shall review the assisted living center's plans in accordance with the process in OAC 310:663-7-3.

[Source: Added at 34 Ok Reg 1297, eff 10-1-17]

310:663-7-6. Exceptions and temporary waivers

(a) These standards are not intended to restrict innovations and improvements in design or construction techniques. Accordingly, the Department may approve plans and specifications that contain deviations if it is determined that the respective intent or objective of this Chapter has been met.

(b) An assisted living center may submit a request for exception or temporary waiver if the rules in this Chapter create an unreasonable hardship, or if the design and construction for the assisted living center property offers improved or compensating features with equivalent outcomes to this Chapter.

(c) The Department may permit exceptions and temporary waivers of this Chapter if the Department determines that such exceptions or temporary waivers comply with the requirements of 63 O.S. Section 1-1901 et seq., and the following:

(1) Any assisted living center requesting an exception or temporary waiver shall apply in writing on a form provided by the Department. The form shall include:

(A) The section(s) of this Chapter for which the exception or temporary waiver is requested;

(B) Reason(s) for requesting an exception or temporary waiver;

(C) The specific relief requested; and

(D) Any documentation which supports the application for exception.

(2) In consideration of a request for exception or temporary waiver, the Department shall consider the following:

(A) Compliance with 63 O.S. Section 1-1901 et seq.;

(B) The level of care provided;

(C) The impact of an exception on care provided;

(D) Alternative policies or procedures proposed; and

(E) Compliance history with provisions of this Chapter.

(3) The Department shall permit or disallow the exception or waiver in writing within forty-five (45) calendar days after receipt of the request.

(4) If the Department finds that a request is incomplete, the Department shall advise the assisted living center in writing and offer an opportunity to submit additional or clarifying information.

The applicant shall have thirty (30) calendar days after receipt of notification to submit additional or clarifying information in writing to the Department of Health, or the request shall be considered withdrawn.

(5) An assisted living center which disagrees with the Department's decision regarding the exception or temporary waiver may file a written petition requesting relief through an individual proceeding pursuant to OAC 310:2 (relating to Procedures of the State Department of Health).

(6) The Department may revoke an exception or temporary waiver through an administrative proceeding in accordance with OAC 310:2 and the Oklahoma Administrative Procedures Act upon finding the assisted living center is operating in violation of the exception or temporary waiver, or the exception or temporary waiver jeopardizes patient care and safety or constitutes a distinct hazard to life.

(7) The Department shall publish decisions on requests for exceptions and waivers and make them available to facilities and centers and the public.

[Source: Added at 34 Ok Reg 1297, eff 10-1-17]

SUBCHAPTER 9. STAFFING REQUIREMENTS

310:663-9-1. Nurse

Each assisted living center shall provide adequate staffing as necessary to meet the services described in the assisted living center's contract with each resident and in compliance with the provisions of the Oklahoma Nursing Practice Act, 59 O.S. Supp. 1997 Section 567.1 et seq. Nurse staffing shall be provided or arranged:

- (1) registered nurse supervision of skilled nursing interventions;
- (2) documenting the resident's physician of choice;
- (3) documenting the resident's living will or "Do Not Resuscitate Order".

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-9-2. Medication staffing

(a) Each assisted living center shall provide or arrange qualified staff to administer medications based on the needs of residents. Medications shall be reviewed monthly by a registered nurse or pharmacist and quarterly by a consultant pharmacist.

(b) Unlicensed personnel administering medications shall have completed a training program that has been reviewed and approved by the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-9-3. Administrator

Each assisted living center shall designate an administrator responsible for the operation of the assisted living center. The administrator shall hold at least one (1) of the following credentials:

- (1) a license issued by the State Board of Examiners for Nursing Home Administrators; or
- (2) a residential care home administrator's certificate of training from an institution of higher learning whose program has been reviewed by the Department; or
- (3) a nationally recognized assisted living certificate of training and competency for assisted living administrators that has been reviewed and approved by the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-9-4. Dietary consultant

Each assisted living center shall use a licensed dietician or qualified nutritionist to develop the assisted living center's diet plan and address the needs of individuals with special diets.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-9-5. Staff qualifications

- (a) All of the assisted living center's employees shall be subject to the requirements for criminal arrest checks applicable to nurses aides under 63 O.S. Supp. 1997, Section 1-1950.1.
- (b) Each assisted living center shall ensure that staff members providing socialization, activity, and exercise services are qualified by training.
- (c) Each assisted living center offering specialized units shall ensure that staff members are trained to meet the specialized needs of residents.
- (d) Assisted living center direct care staff shall be trained in first aid and cardiopulmonary resuscitation.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-9-6. Minimum staff for services

- (a) **Staffing.** Adequate trained staff shall be on duty, awake, and present at all times, 24 hours a day, 7 days a week, to meet the needs of residents and to carry out all the processes listed in the assisted living center's, written emergency and disaster preparedness plan for fires and other natural disasters.
- (b) **Limitations on one-person staffing.** An assisted living center that has only one direct care staff member on duty shall:
 - (1) Disclose the one-person staffing and the plan for dealing with urgent and emergent situations to residents and their representatives before admission or prior to one-person staffing if such staffing was not previously practiced by the assisted living center; and,
 - (2) Have in place a plan, approved by the Department, for dealing with urgent or emergent situations, including resident falls, during periods when the assisted living center has only one

direct-care staff member on duty.

(c) **Units designed to prevent or limit resident access to areas outside the designated unit or program.** An assisted living center shall have a minimum of two (2) staff members on duty and awake on all shifts if an assisted living center has a unit or program designed to prevent or limit resident access to areas outside the designated unit or program. A minimum of one (1) direct care staff is required to be on duty and awake at all times within the unit or program designed to prevent or limit resident access to areas outside the designated unit or program.

[Source: Added at 18 Ok Reg 2533, eff 6-25-01 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

SUBCHAPTER 11. QUALITY OF CARE

310:663-11-1. Quality assurance committee

Each assisted living center shall establish and maintain an internal quality assurance committee that meets at least quarterly. The committee shall:

- (1) monitor trends and incidents;
- (2) monitor customer satisfaction measures; and
- (3) document quality assurance efforts and outcomes.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-11-2. Quality assurance representatives

The quality assurance committee shall include at least the following:

- (1) registered nurse or physician if a medical problem is to be monitored or investigated;
- (2) assisted living center administrator;
- (3) direct care staff person or a staff person who has responsibility for administration of medications; and
- (4) pharmacist consultant if a medication problem is to be monitored or investigated.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

SUBCHAPTER 13. RESIDENT CONTRACT

310:663-13-1. Resident service contract

(a) Each assisted living center shall furnish to each resident a complete and understandable copy of the resident service contract.

(b) All rights, privileges and assurances guaranteed to residents under these rules or marketing materials are deemed incorporated in any

contract between an assisted living center and a resident.

(c) The assisted living center shall ensure that the resident or the resident's representative, if any, is informed of all provisions of the resident service contract.

(d) The assisted living center shall provide all services that are specified in the resident's current service contract.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-13-2. Contents of contract

Each resident service contract shall contain a clear statement of the following:

- (1) assisted living center's name and address;
- (2) admission criteria;
- (3) services provided by the assisted living center;
- (4) discharge criteria;
- (5) dispute resolution and grievance procedures;
- (6) charges for services;
- (7) a provision that the written contract constitutes the entire agreement between the resident and the assisted living center not excluding the marketing materials and the requirements of this Chapter;
- (8) term, renewal and cancellation of contract;
- (9) conformity with state law;
- (10) a provision in the event that a resident's condition merits transfer, the transfer shall be initiated within five (5) working days and progress on the transfer shall be noted in the resident's record.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

SUBCHAPTER 15. RESIDENT RIGHTS AND RESPONSIBILITIES

310:663-15-1. Resident rights

Each assisted living center and its staff shall be familiar with and shall observe all resident rights and responsibilities enumerated under Title 63 O.S. Section 1-1918(B).

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-15-2. Guardians and power of attorney

No owner, operator, administrator or employee of a continuum of care facility or assisted living center subject to the provisions of the Continuum of Care and Assisted Living Act, Nursing Home Care Act, or the Residential Care Act, shall be appointed power of attorney, durable power of attorney, guardian or limited guardian of a resident unless the owner, operator, administrator or employee is the spouse of the resident, or a relative of the resident within the second degree of consanguinity and is otherwise eligible for appointment.

[**Source:** Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹*See Editor's Note at beginning of this Chapter.*

310:663-15-3. Complaints

(a) **Procedures.** The assisted living center shall make available to each resident or the resident's representative a copy of the assisted living center's complaint procedure. The assisted living center's complaint procedures shall be followed. The assisted living center's complaint procedure shall include at least the following requirements.

(1) The assisted living center shall list in its procedures:

(A) The names, addresses and telephone numbers of assisted living center staff persons designated to receive complaints for the assisted living center;

(B) Notice that a good faith complaint made against the assisted living center shall not result in reprisal against the person making the complaint; and

(C) Notice that any person with a complaint is encouraged to attempt to resolve the complaint with the continuum of care facility's or assisted living center's designated complaint staff, that the person may submit a complaint to the Department or other entities without prior notice to the continuum of care facility or assisted living center.

(2) If a resident, resident's representative or assisted living center employee submits to the administrator or designated complaint staff a complaint concerning resident abuse, neglect or misappropriation of resident's property, the assisted living center shall comply with the Protective Services for Vulnerable Adults Act, Title 43A O.S. Sections 10-101 through 10-110 and OAC 310:663-19-1.

(b) **Posted complaint procedures.** Every assisted living center shall conspicuously post for display in an area accessible to residents, employees and visitors, the continuum of care facility's or assisted living center's complaint procedure specified in paragraph (a) and a description, provided by the Department, of complaint procedures established under this rule and the name, address and telephone number of a person authorized by the Department to receive complaints. A copy of the complaint procedure shall also be given to each resident, the resident's representative, or where appropriate, the court appointed guardian.

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-15-4. Prohibited restrictions and fees

Residents shall have *the freedom of choice regarding any personal attending physicians and all other providers of medical services and supplies without a financial penalty or fee charged by the assisted living center* [Title 63 O.S. Section 1-890.3 (A)(8)].

[Source: Added at 34 Ok Reg 1297, eff 10-1-17]

SUBCHAPTER 17. SURETY BONDS OR DEPOSITS

310:663-17-1. Purpose of surety bonds or deposits

This Subchapter applies to any continuum of care facility or assisted living center with contractual obligations to provide an unlimited term of services based on a fixed, prepaid fee. This Subchapter is not applicable to continuum of care facilities or assisted living centers that do not have contractual obligations to provide an unlimited term of services based on a fixed, prepaid fee. This Subchapter establishes the amounts of assets needed to qualify for waivers and reductions of deposits and bonds for such continuum of care facilities or assisted living centers.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-2. Net worth requirement

(a) The continuum of care facility's or assisted living center's net worth shall be calculated as assets minus liabilities, plus fully subordinated debt.

(b) The continuum of care facility or assisted living center shall maintain cash or cash equivalents sufficient to meet its obligations as they become due.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-3. Consideration of arrangements

The financial requirements in OAC 310:663-17-4 through OAC 310:663-17-9 shall apply to a continuum of care facility or assisted living center that provides an unlimited term of services for a fixed prepaid fee, unless it demonstrates that a requirement does not apply. To decide if a requirement applies, the Department shall consider the continuum of care facility or assisted living center's organizational structure, financial arrangements, fiduciary responsibilities, accounting controls and risk sharing arrangements.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-4. Errors and omissions policy

(a) Each continuum of care facility or assisted living center shall file evidence of an errors and omissions policy to protect residents financially from the continuum of care facility's or assisted living center's errors.

(b) The policy shall be no less than five hundred thousand dollars (\$500,000) annual aggregate for all claims made during the policy period.

(c) The policy shall remain in force for at least one (1) year after licensure ends.

(d) Such policy shall be issued by an entity licensed or approved by the Oklahoma Insurance Commissioner to issue errors and omissions policies

in Oklahoma.

(e) Such policy shall be continuous in form, or renewed annually. If renewed annually, evidence of renewal shall be provided to the Department each year. The continuum of care facility or assisted living center shall ensure that the Department is notified of:

- (1) any lapse in coverage; or
- (2) termination of coverage at least thirty (30) days before termination.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-5. Fidelity bond

(a) The continuum of care facility or assisted living center shall provide evidence of fidelity coverage in addition to an errors and omissions insurance policy and other liability coverage. The named insured on the bond shall be the continuum of care facility or assisted living center. Insurance Services Office or Surety Association of America bond forms shall be acceptable. The fidelity bond shall be filed with the application.

(1) The bond shall be maintained through the term of licensure, and shall provide for discovery of losses at least one (1) year after termination or cancellation.

(2) The bond shall be executed by a surety company licensed by the Oklahoma Insurance Commissioner.

(3) The bond shall be continuous in form or may be renewed annually. If renewed annually, the continuum of care facility or assisted living center shall file evidence of renewal each year.

(4) Reimbursement to a continuum of care facility or assisted living center shall be from the first dollar of loss up to the full amount for which the person causing the loss is bonded.

(b) The amount of the bond shall be maintained at the greater of fifty thousand dollars (\$50,000) or ten (10) percent of the value of services the continuum of care facility or assisted living center provided in the prior calendar year, rounded to the nearest ten thousand dollars (\$10,000).

(c) The bond shall cover thefts, acts of dishonesty and embezzlement committed by the continuum of care facility's or assisted living center's employees, officers, directors or agents. (d) The continuum of care facility or assisted living center shall ensure that the Department is notified of:

- (1) any lapse in coverage; or
- (2) termination of coverage at least thirty (30) days before termination.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-6. Preference of claims

(a) If either the errors and omissions insurance policy or the fidelity bond is insufficient to pay all claims against the continuum of care facility or assisted living center, then claims shall be satisfied proportionately.

(b) A health provider's claim has the same priority as a resident's claim, if the provider agrees not to assert claims against residents.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-7. Liability insurance

In addition to the errors and omissions insurance policy and the fidelity bond, each continuum of care facility or assisted living center shall have liability insurance coverage to protect the interests of residents.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-8. Projections

(a) The Department may require a continuum of care facility or assisted living center to submit updates of projections required by OAC 310:663-21-5(a)(9). Each update shall explain any significant variance between operating results and previously forecast amounts.

(b) The Department may request a revision of a financial projection that is inconsistent with the continuum of care facility's or assisted living center's historic performance.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-17-9. Impairment

(a) A continuum of care facility or assisted living center with less than the minimum required net worth shall be considered an impaired continuum of care facility or assisted living center.

(b) The Department shall determine the amount of impairment. The amount of impairment may be based on a financial statement made by a continuum of care facility or assisted living center or on an examination report. The Department shall require the continuum of care facility or assisted living center to eliminate the impairment within ninety (90) days. If the continuum of care facility or assisted living center does not eliminate the impairment, the Department may revoke the continuum of care facility's or assisted living center's license.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

SUBCHAPTER 19. ADMINISTRATION, RECORDS AND POLICIES

310:663-19-1. Incident reports

(a) **Timeline for reporting.** All reports to the Department shall be made within one (1) Department business day of the reportable incident's discovery. A follow-up report of the incident shall be submitted to the Department within five (5) Department business days after the incident. The final report shall be filed with the Department when the full

investigation is complete, not to exceed ten (10) Department business days after the incident. Notifications to the Nurse Aide Registry using the ODH Form 718 must be made within one (1) Department business day of the reportable incident's discovery.

(b) **Incidents requiring report.** Each continuum of care facility and assisted living center shall prepare a written incident report for the following incidents:

- (1) allegations and incidents of resident abuse;
- (2) allegations and incidents of resident neglect;
- (3) allegations and incidents of misappropriation of resident's property;
- (4) accidental fires and fires not planned or supervised by facility staff, occurring on the licensed real estate;
- (5) storm damage resulting in relocation of a resident from a currently assigned room;
- (6) deaths by unusual occurrence, including accidental deaths or deaths other than by natural causes;
- (7) residents missing from the assisted living center upon determination by the assisted living
- (8) utility failure for more than eight (8) hours;
- (9) incidents occurring at the assisted living center, on the assisted living center grounds or during assisted living center sponsored events, that result in fractures, injury requiring treatment at a hospital, a physician's diagnosis of closed head injury or concussion, or head injuries that require more than first aid;
- (10) reportable diseases and injuries as specified by the Department in OAC 310:515 (relating to communicable disease and injury reporting); and,
- (11) situations arising where a criminal act is suspected. Such situations shall also be reported to local law enforcement.

(c) **Incidents involving another provider.** Each continuum of care facility and assisted living center shall promptly refer incidents involving another provider, including a hospice or home health agency, to the certification or licensure agency having jurisdiction over the provider.

(d) **Reports to the Department.** Each assisted living center shall report to the Department those incidents specified in 310:663-19-1(b). An assisted living center may use the Department's Long Term Care Incident Report Form.

(e) **Licensing boards.** Each assisted living center shall report allegations and incidents of resident abuse, neglect, or misappropriation of resident's property by licensed personnel to the appropriate licensing board within five (5) business days.

(f) **Notification of nurse aide registry.** Each continuum of care facility and assisted living center shall report allegations and occurrences of resident abuse, neglect, or misappropriation of resident's property by a nurse aide to the Nurse Aide Registry by submitting a completed "Notification of Nurse Aide Abuse, Neglect, Mistreatment or Misappropriation of Property" form (ODH Form 718), which requires the following:

- (1) facility/center name, address and telephone;

- (2) facility type;
- (3) date;
- (4) reporting party name or administrator name;
- (5) employee name and address;
- (6) employee certification number;
- (7) employee social security number;
- (8) employee telephone number;
- (9) termination action and date (if applicable);
- (10) other contact person name and address; and
- (11) the details of the allegation or occurrence of abuse, neglect, or misappropriation of resident property.

(g) Content of incident report.

- (1) The preliminary report shall at the minimum include:
 - (A) who, what, when, and where; and
 - (B) measures taken to protect the resident(s) during the investigation.
- (2) The follow-up report shall at the minimum include:
 - (A) preliminary information;
 - (B) the extent of the injury or damage if any; and
 - (C) preliminary findings of the investigation.
- (3) The final report shall, at the minimum, include preliminary and follow-up information and:
 - (A) a summary of investigative actions;
 - (B) investigative findings and conclusions based on findings;
 - (C) corrective measures to prevent future occurrences; and
 - (D) if items are omitted, why the items are omitted and when they will be provided.

(h) Emergency Response. In lieu of making incident reports during an emergency response to a natural or man-made disaster, the facility may coordinate its communications, status reports and assistance requests through the local emergency response coordinator, and file a final report with the Department within ten (10) days after conclusion of the emergency response.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08 ; Amended at 34 Ok Reg 1297, eff 10-1-17]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

310:663-19-2. Medication administration

- (a) Each assisted living center shall adopt written procedures to ensure safe administration of medications.
 - (1) Medications shall be administered only on a physician's order.
 - (2) The person responsible for administering medications shall personally prepare the dose, observe the swallowing of oral medication, and record the medication. Medications shall be prepared within one hour prior to administration.

(3) An accurate written record of medications administered shall be maintained. The medication record shall include:

(A) The identity and signature of the person administering the medication.

(B) The medication administered within one hour of the scheduled time.

(C) Medications administered as the resident's condition may require (p.r.n.) are recorded immediately, including the date, time, dose, medication, and administration method.

(D) Adverse reactions or results.

(E) Injection sites.

(F) An individual inventory record shall be maintained for each Schedule II medication prescribed for a resident.

(G) Medication error incident reports.

(4) A resident's adverse reactions shall be reported at once to the attending physician.

(b) An assisted living center may maintain nonprescription drugs for dispensing from a common or bulk supply if all of the following are accomplished.

(1) The assisted living center shall have and follow a written policy and procedure to assure safety in dispensing and documenting medications given to each resident.

(2) The assisted living center shall maintain records which document the name of the medication acquired, the acquisition date, the amount and the strength received for each medication maintained in bulk.

(3) Only a licensed nurse, physician, pharmacist, certified medication aide or medication aide technician may dispense for administration these medications and only upon a physician's written order for as needed or nonscheduled dosage regimens. The physician's written order shall be maintained in the resident's clinical record.

(4) Bulk medications shall be stored in the medication area and not in resident rooms.

(5) The assisted living center shall maintain records of all bulk medications that are dispensed on an individual signed medication administration record.

(6) The assisted living center shall maintain the original label on the container as it comes from the manufacturer or on the unit-of-use or blister package.

(7) The assisted living center shall establish in its policy and procedure the maximum size of packaging and shall ensure that each resident receives the correct dosage. The assisted living center shall not acquire nor maintain a liquid medication in a package size that exceeds 16 fluid ounces.

(8) An assisted living center shall have only oral analgesics, antacids, and laxatives for bulk dispensing. No other category of medication shall be maintained as bulk medication.

(c) Antipsychotic drug administration shall be consistent with 63 O.S. § 1-881.

[**Source:** Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 2069, eff 6-12-00 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08 ; Amended at 37 Ok Reg 1443, eff 9-11-20]

Editor's Note: ¹*See Editor's Note at beginning of this Chapter.*

310:663-19-3. Maintenance of records

- (a) There shall be an organized, accurate, clinical record, typewritten, electronic, or legibly written with pen and ink, for each resident admitted. The resident's record shall document all services provided under the direction of a licensed health care professional consistent with professional standards of practice.
- (b) Each resident's records shall be retained for at least five (5) years after the resident's transfer, discharge or death. Destruction of records shall be done in a manner to preserve resident confidentiality.
- (c) Records for the previous twelve (12) months of operation, whether original, electronic, or microfilm copies, shall be maintained in such form as to be legible and readily available upon request of the attending physician, the assisted living center and any person authorized by law to make such a request. Records more than twelve (12) months old, whether original, electronic, or microfilm copies, shall be maintained in such form as to be legible and available within seventy-two (72) hours upon request of the attending physician, the continuum of care facility or assisted living center, and any person authorized by law to make such a request.
- (d) Information contained in each resident's record shall be confidential and disclosed only to the resident, persons authorized by the resident, and persons authorized by law or rule.
- (e) Resident records shall be filed and stored to protect against loss, destruction, or unauthorized use.
- (f) The Department shall be informed in writing within five (5) business days of discovery whenever any resident's records are defaced, or destroyed, before the end of the required retention period.
- (g) If an assisted living center ceases operation, the Department shall be notified within five (5) business days of the arrangements for preserving the resident's record. The record shall be preserved for the required time and the information in the records shall be available to the health professionals or facilities assuming care of the resident so that continuity of care is available.
- (h) If the ownership of the assisted living center changes, the new licensee shall have custody of original or true and correct copies of all records required by this section for all current residents and the records shall be available to the former licensee and other authorized persons.
- (i) Incident reports required in 310:663-19-1. shall be retained, filed and stored to protect against loss, destruction, or unauthorized use for a period of two (2) years. Destruction of incident reports shall be done in a manner to preserve resident confidentiality.

[Source: Added at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See *Editor's Note at beginning of this Chapter.*

310:663-19-4. Policies

- (a) Each assisted living center shall have a written policy statement that expressly prohibits the abuse or neglect of residents or misappropriation

of resident property it serves. The policy shall include the facility's investigative procedures and actions to be taken when incidents of abuse or neglect of residents or misappropriation of resident's property occur.

(b) The administrator of the assisted living center who becomes aware of abuse or neglect of a resident or misappropriation of a resident's property shall immediately act to rectify the problem and shall make a report of the incident and its correction to the Department.

(c) The assisted living center shall provide staff, within ninety (90) days of employment, training in the identification of abuse and neglect of residents and misappropriation of resident property and the facility's policies and procedures concerning the same. Verification of the provision of training shall be written, signed by staff attending and retained in the personnel files.

[Source: Added at 27 Ok Reg 2541, eff 7-25-10]

SUBCHAPTER 21. APPLYING FOR A LICENSE

310:663-21-1. Application required

(a) Each continuum of care facility or assisted living center shall apply for a license on forms provided by the Department.

(b) The person or entity responsible for providing or arranging all required services and care shall be the applicant for establishment of the continuum of care facility or assisted living center and for the license.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

310:663-21-2. Deadlines for filing and period of license validity

(a) The application for establishment of a continuum of care facility or assisted living center shall be filed at or before the time when the application for an initial license is filed. Provided, however, that an application for establishment is not required in conjunction with the transfer of ownership or operation of a facility or center that is currently licensed under the Act and OAC 310:663.

(b) The license application shall be filed in accordance with the following deadlines.

(1) The application for an initial license of a new continuum of care facility or assisted living center shall be filed at least thirty (30) days before beginning operations.

(2) The application for an initial license, following a transfer of ownership or operation, shall be filed at least thirty (30) days before the final transfer. In the case of the appointment of a receiver as operator, this thirty (30) day advance filing requirement may be waived if the Department finds that an emergency exists which threatens the welfare of the residents. If an emergency is found to exist, the receiver shall file the license application before beginning operation of the assisted living center or continuum of care facility.

(3) The application for renewal of the license of an existing continuum of care facility or assisted living center, with no transfer of ownership or operation, shall be filed by the renewal date specified on the existing license.

(c) The renewal license shall expire three (3) years from the date of issuance. An initial license shall expire one hundred eighty (180) days after the date of issuance. Renewal licenses may be issued for a period of more than twelve (12) months, but not more than thirty-six (36) months, for the license period immediately following November 1, 2021, in order to permit an equitable distribution of license expiration dates. [63 O.S. § 1-890.4 (D)].

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00 ; Amended at 21 Ok Reg 2436, eff 7-11-05 ; Amended at 39 Ok Reg 1390, eff 9-11-22]

310:663-21-3. Where to file

The application and the filing fees required under the Act and OAC 310:663-21-4 shall be delivered or mailed to the Department. The effective date of filing shall be the date the application and required fees are received by the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 16 Ok Reg 137, eff 10-14-98 (emergency); Amended at 16 Ok Reg 2519, eff 6-25-99]

310:663-21-4. Filing fees

(a) Each application to establish a continuum of care facility or assisted living center shall be accompanied by a non-refundable application fee of Ten Dollars (\$10.00) for each bed included in the maximum bed capacity at such facility or center. The maximum application fee for each facility or center shall be One Thousand Dollars (\$1000.00).

(b) Each application for an initial license, or renewal of the license, to operate a continuum of care facility or assisted living center shall be accompanied by a license fee. The initial license fee shall be Ten Dollars (\$10.00) for each bed included in the maximum bed capacity at such facility or center and the renewal license fee shall be Ten Dollars (\$10.00) for each bed included in the maximum bed capacity at such facility or center, per year of licensure, except that any facility operated by the Oklahoma Department of Veterans Affairs shall be exempt from these fees. [63 O.S. § 1-890.4 (B)].

(c) If an application for an initial or renewal license includes an adult day care component, then an application for an adult day care license (OAC 310:605), must also be filed.

(d) The fee for a license renewal following an initial license, or for a license amendment to reflect a change in bed capacity, shall be prorated based on the number of days remaining until the current license expires, and, in the case of a change in bed capacity, the number of beds being added.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 16 Ok Reg 137, eff 10-14-98 (emergency); Amended at 16 Ok Reg 2519, eff 6-25-99 ; Amended at 21 Ok Reg 2436, eff 7-11-05 ; Amended at 39 Ok Reg 1390, eff 9-11-22]

310:663-21-5. Description of application forms

(a) The application for establishment of a continuum of care facility or assisted living center requests the following:

- (1) a description of the assisted living center or continuum of care facility and its operations, including the types and hours of staff, and maximum occupancy;
- (2) a description of the types of residents to be served;
- (3) a description of service to be offered, including any specialized services or units;
- (4) scaled and dimensioned architectural floor plans, life safety plans, and building code analysis, for an existing structure;
- (5) scaled and dimensioned architectural floor plans and specifications for new construction; and
- (6) contact person's name, address and telephone number.

(b) The application for an initial license of a continuum of care facility or assisted living center requests the following:

- (1) a description of the assisted living center or continuum of care facility and its operations, including the types and hours of staff, and maximum occupancy;
- (2) a description of the types of residents to be served;
- (3) a description of service to be offered, including any specialized services or units;
- (4) forms of all resident service contracts;
- (5) contact person's name, address and telephone number;
- (6) evidence of the applicant's financial resources;
- (7) evidence that the State Fire Marshal or authorized representative has inspected and approved the assisted living center or continuum of care facility;
- (8) a description of the procedure for receiving and resolving resident grievances and disputes; and
- (9) financial projections if the applicant is subject to the requirements of 310:663-17.

(c) The application to renew a license requests:

- (1) any changes in the information provided in OAC 310:663-21-5(b).
- (2) a summary of the resident grievance and dispute resolution activities for the preceding twelve (12) months.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 16 Ok Reg 137, eff 10-14-98 (emergency); Amended at 16 Ok Reg 2519, eff 6-25-99 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

SUBCHAPTER 23. APPROVING OR DISAPPROVING ESTABLISHMENT, AND ISSUING OR DENYING A LICENSE

310:663-23-1. Timeframes for review

The Department shall approve or disapprove the application for establishment, or issue or deny a license within thirty (30) days after receipt of application. This timeframe may be extended by ninety (90) days upon the mutual agreement of the applicant and the Department.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

310:663-23-2. Transfer of license or approval to establish

No establishment shall be approved and no license shall be issued to any person other than the person making application. An approval to establish a continuum of care facility or assisted living center or a license shall not be transferred in whole or part to another person.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

310:663-23-3. Denial or disapproval of application

(a) An application for establishment or licensure may be disapproved or denied for failure to meet any of the standards in the Act or OAC 310:663.

(b) Within ten (10) days after disapproval or denial, the Department shall send written notice to the applicant. The notice of disapproval or denial shall include a statement of the deficiencies on which disapproval or denial was based and a notice of the opportunity for hearing if applicable.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 17 Ok Reg 422, eff 11-1-99 (emergency); Amended at 17 Ok Reg 1605, eff 5-25-00]

SUBCHAPTER 25. INSPECTIONS AND INVESTIGATIONS

310:663-25-1. Periodic inspections

(a) The Department shall inspect each continuum of care facility or assisted living center through an unannounced inspection at least once each fifteen (15) months, with a statewide average of twelve (12) months for all continuum of care facilities and assisted living centers.

(b) Prior to the termination of an initial license, the Department shall fully and completely inspect the assisted living center or continuum of care facility and, if it meets the applicable requirements for licensure, shall issue a license. If the Department finds that the continuum of care facility or assisted living center does not meet the requirements, the initial license may be extended once for a period not to exceed one hundred twenty (120) days from the expiration date of the initial license.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-25-2. Investigations

The Department whenever it deems necessary shall inspect, survey and evaluate each continuum of care facility or assisted living center to determine compliance with applicable licensure requirements.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-25-3. Outcome standards

To the extent allowed in this Chapter, if an assisted living center provides or arranges skilled nursing care, the Department shall assess the quality of that care against applicable standards of practice specified in Appendix B.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

310:663-25-4. Notice of violation, plans of correction, and right to hearing

(a) **Notice of Violation.** If upon survey or investigation the Department finds that the continuum of care facility or assisted living center is in violation of the Act or this Chapter, the Department shall provide written notice of the violation to the continuum of care facility or assisted living center.

(b) **Plan of Correction.**

(1) A continuum of care facility or assisted living center shall submit a plan of correction within ten (10) Department business days after receipt of notice of violation. Failure to timely submit a plan of correction shall be subject to the penalties provided in Title 63 O.S. Section 1-890.6.

(2) An acceptable plan of correction shall:

(A) Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice.

(B) Address how the continuum of care facility or assisted living center will identify other residents having the potential to be affected by the same deficient practice.

Plans of correction specific to residents identified on the deficiency statement are acceptable only where the deficiency is determined to be unique to that resident and not indicative of a possible systemic problem.

(C) Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur.

(D) Indicate how the continuum of care facility or assisted living center plans to monitor its performance to make sure that corrections are sustained. The continuum of care facility or assisted living center shall develop a plan for ensuring that correction is achieved and sustained. The actions taken to correct the deficient practice must be

evaluated for its effectiveness. The plan of correction shall be incorporated into the quality assurance system. At the revisit, the monitoring records may be reviewed to determine the earliest date of compliance. If there is no evidence of evaluation of the correction, the earliest correction date will be the date of the revisit. The continuum of care facility or assisted living center is not required to provide quality assurance minutes for the purposes of this section.

(E) Include dates when corrective action will be completed for each violation. The corrective action completion dates shall not exceed sixty (60) calendar days from receipt of notice of violation.

(F) Be signed by the administrator.

(3) Upon written request from the continuum of care facility or assisted living center, the Department may extend the time period within which the violations are to be corrected where correction involves substantial structural improvement. Such request shall be provided to the Department within the timeline specified at 310:663-25-4(b)(1) (relating to submission within ten (10) Department business days) or prior to expiration of the correction time originally approved. The burden of proof shall be on the licensee to show good cause for not being able to comply with the timeline in 310:663-25-4(b)(2)(E) (relating to correction within sixty (60) days).

(4) The Department shall provide written notice of the acceptance or rejection of a plan of correction within ten (10) Department business days. If the Department fails to provide notice of acceptance or rejection within the required time frame, notice will be provided as soon as time permits and any delay on the Department's part will result in a day for day off-set in any per diem penalty. If the Department finds that the plan of correction does not meet the requirements for an acceptable plan of correction as specified in this section the Department shall provide notice of the rejection and the reason for the rejection to the continuum of care facility or assisted living center. The continuum of care facility or assisted living center shall have ten (10) Department business days after receipt of the notice of rejection in which to submit an amended plan. If the amended plan is not timely submitted, or if the amended plan is rejected, the Department shall give notice of intent to pursue penalties, as provided in Title 63 O.S. Section 1-890.6., or notice of intent to conduct a revisit to determine if violations continue.

(5) Acceptance of the plan of correction by the Department does not absolve the continuum of care facility or assisted living center of the responsibility for compliance should the implementation not result in correction and compliance. Acceptance indicates the Department's acknowledgment that the continuum of care facility or assisted living center indicated a willingness to make timely corrections.

(6) If the violation has been corrected prior to submission and approval of a plan of correction, the continuum of care facility or assisted living center may submit a report of correction in place of a plan of correction. The report of correction shall address those requirements specified in this section.

(7) If a continuum of care facility or assisted living center desires to contest any Department action under this section, it shall send a written request for a hearing to the Hearing Clerk, Oklahoma State Department of Health, 1000 NE Tenth Street, Oklahoma City, OK 73117. The request for hearing shall be submitted within ten (10) Department business days of receipt of notice of the contested action.

(c) **Right to Hearing.** The Department shall notify the assisted living center in writing of the Department's intent to take remedial action, to impose an administrative penalty, or to take action against the license issued under the act, and of the rights of the assisted living center under this section, including without limitation the right to a hearing.

SUBCHAPTER 27. REPORTS AND FILINGS

310:663-27-1. Application form changes

Any substantial change in the information originally reported in the license application shall be submitted to the Department for review.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-27-2. Department review

Within thirty (30) days after receipt, the Department shall approve or deny proposed changes or required filings.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

SUBCHAPTER 29. TERMINATING AND CONTINUING SERVICES

310:663-29-1. Terminating contracts

A continuum of care facility or assisted living center shall notify a resident, the resident's representative, and a member of the resident's family at least thirty (30) days before terminating or not renewing the resident's contract. Notification to family members of the termination of resident's contract shall only occur with the written permission of the resident or the resident's representative.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-29-2. Notice of voluntary closure

(a) **Timeline for notice of intent to close.** A continuum of care facility or assisted living center shall notify all residents, their representatives, and the Department in writing at least ninety (90) days before any of the following:

- (1) voluntary cessation of business; or
- (2) closure of all or part of a continuum of care facility or assisted living center.

(b) **Contents of notice.** The notice of closure shall state:

- (1) the proposed date of closing;
- (2) the reason for closing;
- (3) an offer to assist the resident in securing an alternative placement;
- (4) advise the resident or resident's representative on available housing alternatives and that where the resident is unable to choose an alternative placement and is not under guardianship, the Department shall be notified of the need for relocation assistance;
- (5) the facility shall comply with all applicable laws and regulations until the date of closing, including those related to transfer or discharge of residents.

(c) **Final notice of closure.** Following the move-out of the last resident, the continuum of care facility or assisted living center shall provide the Department, in writing, the following:

- (1) the effective date of closure based on the discharge date of the last resident;
- (2) a list of residents transferred or discharged and the location to where they relocated, whether another continuum of care facility or assisted living center or alternative placement; and
- (3) the plan for storage of resident records pursuant to 310:663-19-3(g)(relating to preservation of resident records) and the name, address and phone number of the person responsible for the records.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98 ; Amended at 24 Ok Reg 2007, eff 6-25-07 ¹; Amended at 25 Ok Reg 2460, eff 7-11-08]

Editor's Note: ¹ See Editor's Note at beginning of this Chapter.

SUBCHAPTER 31. SUSPENDING OR WITHDRAWING A LICENSE

310:663-31-1. Conditions to revoke or suspend

The Department may revoke or suspend a license issued to a continuum of care facility or assisted living center, or take such other steps as appropriate, if the continuum of care facility or assisted living center is not in compliance with the Act or OAC 310:663.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-31-2. Suspended license

(a) While a continuum of care facility's or assisted living center's license is suspended, the continuum of care facility or assisted living center shall not enroll, advertise or solicit additional business.

(b) The order suspending the license shall specify the period of suspension and conditions to be met for reinstatement.

(c) A continuum of care facility or assisted living center's license shall not be suspended without cause. Within ten (10) days of suspension, the Department shall send written notice to the applicant. The notice of suspension shall include a statement of the deficiencies on which the suspension was based and notice of the opportunity for hearing.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

310:663-31-3. Revoked license

(a) The continuum of care facility or assisted living center shall conduct no business except as may be essential to the orderly conclusion of its affairs when a continuum of care facility's or assisted living center's license is revoked. The Department may order such operations as needed to afford residents a practical opportunity for care and services.

(b) To reinstate a license after revocation, the continuum of care facility or assisted living center shall follow the procedures for an initial application specified at OAC 310:663-21.

[Source: Added at 15 Ok Reg 2605, eff 6-25-98]

APPENDIX A. HOT WATER USE

Figure 1

	Resident Use		
	Bathing	Dietary	Laundry
Gallons (per hr. & bed)	6 1/2	4	4 1/2
Temperature	115° F. (46° C.)	*120° F. (49° C.)	**160° F. (70° C.)

* Rinse water temperature at automatic warewashing equipment shall be 180° (82.1° C.).

** Required temperature of 160°F (70° C.) in the laundry area is that measured in the washing machine and shall be supplied so that temperature may be maintained over the entire wash and rinse period. Attention is called to the fact that control of bacteria in laundry processing is dependent upon a number of inter-related factors such as detergent, bleach, number of rinses and temperature. In most instances, maximum overall economies with acceptable results can be achieved with the use of 160° F. (70° C.) water. Lesser temperature may require excessive bleaching or other chemical treatment that would be damaging to fabrics.

CHAPTER 664. HOME CARE ADMINISTRATOR CERTIFICATION

[**Authority:** 63 O.S., §§ 1-104 and 1-1964]
[**Source:** Codified 6-11-98]

SUBCHAPTER 1. GENERAL PROVISIONS

310:664-1-1. Purpose

The rules of this Chapter implement *Title 63 O.S. Supp. 1996, § 1-1962*, establishing the minimum criteria for the issuance, maintenance, and renewal of a home care administrator certificate and the procedure for enforcement. This Chapter specifies qualifications which shall be met in order to be eligible to apply for, receive, maintain, and renew a home care administrator certificate. The minimum criteria for educational preparation, eligibility for the qualifying examination, and continuing education are established. Academic credentials, qualifications, and experience of instructors of approved curricula are also established.

[**Source:** Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Accredited" means current credentials from a national accrediting agency or a nationally recognized regional accrediting agency or state approval agency appropriate to the missions and goals of the institution.

"Act" means the Home Care Act, [63 O.S. Supp. 1996, § 1-1960 et seq.].

"Board" means the State Board of Health.

"Certification" means verification of appropriate training and competency for a home care administrator as required by this Chapter.

"Competency" means experiential and educational preparation as specified by this Chapter and successful performance on the Oklahoma Home Care Administrator Preparedness Assessment.

"Continuing education" means education and training required for renewal of a home care administrator certificate.

"Deeming" means to grant a person who met one (1) criterion pursuant to 310:664-3-4 permission to challenge the Oklahoma Home Care Administrator Preparedness Assessment (OHCAPA) without completion of the Preparedness Program.

"Denial" means the Department's decision to preclude issuance of a home care administrator certificate to an individual.

"Department" means *the State Department of Health*[63 O.S. Supp. 1996, § 1-1961(3)].

"Disapproval" means the Department's decision to withhold approval of an application for a home care administrator certificate.

"Enforcement" means the Department's actions and processes to ensure compliance with promulgated rules.

"Governing body" means the entity having ultimate responsibility for a home care agency, including fiscal and legal authority.

"Home care agency" means *any sole proprietorship, partnership, association, corporation, or other organization which administers, offers or provides home care services, for a fee or pursuant to a contract for such services, to clients in their place of residence. The term "home care agency" shall not include individuals who contract with the Department of Human Services to provide personal care services, provided such individuals are not exempt from certification as home health aides [63 O.S. Supp. 1996, § 1-1961(4)].*

"Home care administrator" means *a person who operates, manages, or supervises, or is in charge of a home care agency [63 O.S. Supp. 1996, § 1-1961(7)].*

"Home study" means education that takes place in a physical setting other than an educational classroom, teleconferencing site, seminar, conference or professional association at which the student and instructor have interaction that is face-to-face or mediated by real-time two-way teleconferencing.

"Inactive status" means a certificate designated as a non-participant credential in the Department's records.

"Misappropriation of property" means the taking, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any property, real or personal or anything of value belonging to or under the legal control of a client or other legal authority, or the taking of any action contrary to any duty imposed by federal or state law prescribing conduct relating to the custody or disposition of a client's property.

"Non-renewal" means the Department's decision to deny the renewal of a home care administrator certificate.

"Oklahoma Home Care Administrator Preparedness Assessment" or **"OHCAPA"** means a Department-approved examination for a home care administrator candidate.

"OSBI" means the Oklahoma State Bureau of Investigation.

"Preparedness program" means the Department-approved activities and course designed to prepare a person to challenge the OHCAPA.

"Proctor" means a person approved by the Department to monitor the curriculum, testing, and hours required for continuing education and report non-compliance and substandard compliance by programs and enrolled persons to the Department.

"Provisional certificate" means a temporary credential that permits temporary employment as an administrator or alternate home care administrator.

"Qualified instructor" means a person with academic credentials commensurate with instruction at accredited state post secondary or higher education institutions or with other credentials that meet the Department approval pursuant to 310:664-5-5.

"Revocation" means the Department's decision to nullify a previously issued home care administrator certificate.

"Subunit" means a semi-autonomous organization that serves clients in a geographic area different from that of the parent agency.

"Suspension" means the Department's decision to render a home care administrator certificate void for a specified period of time.

"Waiver" means the Department's decision to allow a person who meets qualifications pursuant to 310:664-3-2 to receive a home care administrator certificate without challenging the OHCAPA.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 16 Ok Reg 3491, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2070, eff 6-12-00 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02]

310:664-1-3. Applicability

(a) An individual who functions as a home care administrator shall meet the Department standards for certification and hold a home care administrator certificate.

(b) A home care administrator shall post the certificate or a Department-certified duplicate at the parent home care agency or subunit office and a copy at each branch. The certificate shall be displayed at a place noticeable to the public.

(c) A home care administrator shall not function concurrently at more than two (2) agencies or subunits.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 16 Ok Reg 3491, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2070, eff 6-12-00]

SUBCHAPTER 3. INITIAL CERTIFICATE PROCESS

310:664-3-1. Eligibility

An individual shall be eligible to apply for a home care administrator certificate by meeting one (1) of the following criteria:

- (1) Successfully completing a Department-approved preparedness program and the OHCAPA; or
- (2) Being deemed to have met the Department-approved preparedness program standards and successful completion of the OHCAPA.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02]

310:664-3-2. Certificate by waiver [REVOKED]

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 16 Ok Reg 3491, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2070, eff 6-12-00 ; Revoked at 18 Ok Reg 3595, eff 8-22-01 (emergency); Revoked at 19 Ok Reg 1061, eff 5-13-02]

310:664-3-3. Certificate by completion of the OHCAPA

An individual who has successfully completed the Department-approved preparedness program and the OHCAPA or who is otherwise deemed to meet the preparedness program standards and passed the

OHCAPA may apply for a home care administrator certificate. An individual shall apply for an initial home care administrator certificate within six (6) months after passing the OHCAPA. Failure to submit an application during the required time frame will result in the individual having to meet the deeming criteria and repeating the OHCAPA. The individual shall apply on the Department form. The application shall include, but not be limited to, the following information:

- (1) Name, complete home mailing address, and telephone number, of the applicant;
- (2) A copy of the results of a criminal arrest check conducted by the OSBI completed within sixty (60) days prior to the date of the application;
- (3) Evidence of successful completion of the OHCAPA; and
- (4) A non-refundable fee of one hundred forty dollars (\$140).

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03 ; Amended at 26 Ok Reg 1516, eff 6-11-09]

310:664-3-4. Deeming criteria

The Department may grant exceptions from the preparedness program requirement stated in this Chapter, for the purpose of allowing an individual to take the OHCAPA. An individual with one (1) of the following qualifications shall be eligible to take the OHCAPA without completion of the preparedness program:

- (1) Baccalaureate or higher degree from an accredited institution with at least one (1) year full time experience in home care within the immediate past two (2) years;
- (2) Associate or higher degree in a health field from an accredited institution and with at least one (1) year of full time employment in home care within the immediate past two (2) years;
- (3) Certificate of Achievement in Health Care Administration by completion of a minimum of thirty (30) college credit hours at an accredited institution in the State and with at least one (1) year of full time employment in home care within the immediate past two (2) years;
- (4) Registered nurse in the State and with at least one (1) year of full time experience in home care within the immediate past two (2) years; or
- (5) Evidence of achieving the passing score on the National Association for Home Care Executive Certification Program examination.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02]

310:664-3-5. Deeming application process

(a) An individual who desires to apply for deemed status shall apply on the Department form which shall include, but not be limited to, the following:

- (1) Name, complete home mailing address, and telephone number of the applicant;
 - (2) Copies of credentials which provide evidence of meeting any of the criteria specified in 310:664-3-4; and
 - (3) A non-refundable fee of eighty dollars (\$80.00).
- (b) The Department shall notify the individual of the decision to approve or disapprove the application within ninety (90) days.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 26 Ok Reg 1516, eff 6-11-09]

310:664-3-6. Provisional certificate

- (a) An individual may function as an administrator no longer than six (6) months with a provisional certificate, provided that one (1) of the deeming criteria as specified in OAC 310:664-3-4 has been acknowledged by the Department.
- (b) An individual shall apply on the Department form which shall include, but not be limited to, the following:
- (1) Name, complete home mailing address, and telephone number;
 - (2) The name and address of the agency where employed;
 - (3) A copy of written authorization by the administrator or member of the governing board allowing the individual to temporarily function as the administrator;
 - (4) Evidence of meeting the deeming criteria specified in OAC 310:664-3-4;
 - (5) A one (1) time, non-refundable fee of eighty dollars (\$80.00); and
 - (6) A copy of the results of a criminal arrest check conducted by the OSBI within sixty (60) days prior to submission of the application.
- (c) The Department shall notify the applicant of its decision within thirty (30) days from receipt of the application.
- (d) Any individual that alters any administrator certificate or allows alteration of any administrator certificate shall be denied a home care administrator certificate upon application.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 16 Ok Reg 3491, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2070, eff 6-12-00 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03 ; Amended at 26 Ok Reg 1516, eff 6-11-09]

SUBCHAPTER 5. PREPAREDNESS PROGRAM

310:664-5-1. Qualifications of applicant

Applicants shall be a graduate of a high school accredited at the time of graduation by the State Department of Education or its equivalent in that high school's state, or shall have achieved a passing score on the General Education and Development (GED) examination, or shall have met the criteria for an adult high school diploma.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-2. Approved programs

- (a) The Department shall approve a preparedness program that meets the requirements specified in this Chapter.
- (b) An institution seeking approval shall apply on the Department form and submit the application fee of one hundred twenty five dollars (\$125.00) to the Department.
- (c) The Department shall review, approve, or disapprove a preparedness program and notify the applicant of its action within ninety (90) days.
- (d) An approved preparedness program shall allow a Department proctor or representative to make unannounced visits to review the program.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 23 Ok Reg 3166, eff 7-26-06 (emergency); Amended at 24 Ok Reg 2018, eff 6-25-07 ; Amended at 26 Ok Reg 1516, eff 6-11-09]

310:664-5-3. Quality assurance

- (a) An approved preparedness program shall develop a method to assure quality of the course. The preparedness program shall assess the adequacy of course instruction for each quarter based on the method developed to assure quality in an annual report.
- (b) The annual report shall include, but not be limited to, a quantified expression of the following:
 - (1) Participant enrollment in the program each quarter; and
 - (2) Participants successfully completing the course each quarter.
- (c) The annual report shall be sent to the Department not later than fourteen (14) days following completion of the fourth quarter course.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-4. Curriculum

The preparedness program shall include at least one hundred sixty (160) hours which shall include, but is not limited to, the following course components:

- (1) Administrative skills, duties, and responsibilities;
- (2) Administrative procedures and strategic planning;
- (3) Community relations and public information;
- (4) Fiscal and information data management;
- (5) Human relations; and
- (6) Ethics.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-5. Instructor qualifications

The course shall be instructed by an interdisciplinary team composed of individuals with credentials commensurate with the standards of accredited state educational institutions and/or professionals with qualifications that meet Department approval.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-6. Program records

(a) The approved program shall maintain participant records for at least three (3) years which shall include, but not be limited to, the following:

- (1) Attendance records; and
- (2) Results of examination of course curriculum components.

(b) The approved program shall submit a report to the Department within fourteen (14) days of completion of each program which shall include, but is not limited to, the following:

- (1) The name of the institution providing the program;
- (2) The month and year of program completion; and
- (3) An alphabetical list of participants who successfully completed the course and who are eligible to take the OHCAPA.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-7. Program application

- (a) An institution which desires to sponsor a preparedness program shall apply on the Department form.
- (b) No preparedness program shall be operated, and no participant shall be solicited or enrolled, until the Department has approved the program.
- (c) The application shall include, but is not limited to, the following:
 - (1) A course syllabus that outlines course content including total hours for implementation, time per session, number of sessions, and the calendar dates for each session;
 - (2) Instructor qualification information;
 - (3) A copy of the certificate to be issued to participants at completion of program;
 - (4) Location of the classroom;
 - (5) Program objectives;
 - (6) A description of the learning environment including, but not limited to, the following:
 - (A) Location of and accessibility to the site;
 - (B) Adequacy of lighting;
 - (C) Accommodations for handicapped;
 - (D) Accessibility, safety, and sanitation of personal conveniences;
 - (E) Controlled system to heat and cool air; and
 - (F) Number of participants the classroom can accommodate.
 - (7) Letter(s) of agreement for instructional use of the facility signed by the facility administrator and the coordinating representative of the applicant.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-8. Notification of changes

- (a) An approved preparedness program shall notify the Department for approval when substantial changes to the program are proposed or impending. The Department shall have ninety (90) days after receipt of complete notice of substantial change to approve or deny the proposed change.
- (b) Substantial changes shall include, but not be limited to, the following:
 - (1) The curriculum;
 - (2) Methods of curriculum delivery;
 - (3) The primary instructors; or
 - (4) Location of the preparedness program.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-9. Program review and actions

- (a) The Department shall withhold approval of a preparedness program when one (1) of the following has occurred:
 - (1) Submission of incomplete or fraudulent application documents;
 - (2) Program failure to meet Department requirements;

- (3) Non-compliance of data transfer to the Department;
 - (4) Non-compliance with unannounced review visitation; or
 - (5) Failure rate of at least fifteen percent (15%) of persons challenging the OHCAPA who completed the program.
- (b) Withholding of approval shall mean that a preparedness program is discontinued until the Department is assured that the program has made the necessary corrections and is in compliance with the rules.
- (c) If the Department withholds approval of a preparedness program, the Department shall:
- (1) Notify the institution in writing of the reason for the withdrawal of approval; and
 - (2) Allow participants enrolled in the preparedness program an option to complete the curriculum at the institution or transfer to another Department-approved preparedness program.
- (d) An institution's coordinating representative of the preparedness program may request reconsideration of the Department's decision in accordance with Chapter 2 of this Title and appealed according to the Administrative Procedures Act.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-5-10. Voluntary termination of a preparedness program

- (a) When an institution terminates a Department-approved preparedness program, the program shall:
- (1) Notify the Department at least sixty (60) days in advance, in writing, stating the reason, plan, and date of intention to terminate; and
 - (2) Continue the preparedness program until currently enrolled participants have completed the curriculum and received a certificate of completion.
- (b) The institution shall notify the Department of its plan to safeguard the preparedness program records.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

SUBCHAPTER 7. REQUIREMENTS FOR EXAMINATION

310:664-7-1. Oklahoma Home Care Administrator Preparedness Assessment

- (a) The Oklahoma Home Care Administrator Preparedness Assessment (OHCAPA) shall be Department approved and offered at least quarterly.
- (b) The OHCAPA may be administered at a state vocational technical institution, state institution of higher education, or a professional testing and evaluation center in the State.
- (c) An individual shall sit for the OHCAPA within three (3) months after completing a preparedness program or being deemed. Failure to take the OHCAPA during the three (3) month time frame will require the individual to resubmit another application for the deeming process and a non-refundable fee of fifty dollars (\$50). The Department may grant an

applicant an exception or extension if such requirement causes an undue hardship for the applicant due to unusual circumstances or illness.

(d) Each approved OHCAPA exam developer shall provide the Department with the following:

- (1) Written job analysis studies to determine the pool of test questions;
- (2) Test question validation studies;
- (3) Test administration and scoring procedures;
- (4) Capabilities of providing examination results in the proper format to the Department within thirty (30) days of examination;
- (5) Assurances of test security;
- (6) A report following each test administration which specifies:
 - (A) Date of administration of the OHCAPA;
 - (B) Name and examination score for each examinee; and
 - (C) Name of the preparedness program which each examinee completed and the pass percentages for each preparedness program course.

(e) Each approved OHCAPA exam developer shall provide the examinee with the following:

- (1) A notice showing pass or fail results;
- (2) A notice specifying the areas of failure; and
- (3) A notice stating that three (3) OHCAPA challenges were not successful and completion of the preparedness program shall be required prior to another attempt to pass the OHCAPA.

(f) The Department may withhold approval of an OHCAPA examiner when one (1) or more of the following has been determined to occur:

- (1) Insufficient security measures in administration of testing;
- (2) Impropriety or tampering by OHCAPA examiners or by non-authorized persons;
- (3) Failure to provide the Department with examination results or reports pursuant to OAC 310:664-7-1(A)(B)(C); and
- (4) Allowing another entity not approved by the Department to score the examination.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-7-2. Successful completion of the OHCAPA

(a) An individual shall score at least seventy percent (70%) to pass the OHCAPA.

(b) An individual may retake the examination a total of three (3) times without completing or repeating a preparedness program.

(c) Upon written notice from the OHCAPA examiner of passing the OHCAPA, the individual may apply for a home care administrator certificate by following the procedure pursuant to OAC 310:664-3-3.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

SUBCHAPTER 9. CONTINUING EDUCATION REQUIREMENTS

310:664-9-1. Purpose

The purpose of this subchapter is to establish the continuing education requirements necessary for certificate renewal.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-9-2. Number of hours required

(a) A home care administrator shall complete and furnish documentation to the Department of at least twelve (12) hours of continuing education each year by July 31. The continuing education must be acceptable and verifiable per the requirements addressed at OAC 310:664-9-3 and OAC 310:664-9-4.

(b) No more than six (6) hours of continuing education accrued through home study shall be acceptable.

(c) No continuing education is required for the first renewal.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-9-3. Acceptable continuing education

(a) Continuing education curricular content is acceptable to the Department when it:

(1) Approximates any of the academic areas pursuant to OAC 310:664-5-4;

(2) Includes content which assists administrators in improving of professional competencies; or

(3) Occurs in a graduate or undergraduate course, seminar, workshop, conference, or professional association for the purpose of enhancing professional competency. Excludes independent reading and informal meetings that are informational in nature and are offered as a public service and not for the offering of continuing education.

(b) An acceptable instructor is an individual who has:

(1) Experience in home care administration; or

(2) Expertise in teaching and instructional methods suitable to the subject presented; or

(3) Academic qualifications and experience for the subject.

(c) If a home care administrator requires continuing education to renew additional credentials specific to clinical practice, no more than six (6) of the required twelve (12) hours for renewing a home care administrator certification may have a clinical emphasis.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-9-4. Documentation of attendance

(a) A home care administrator shall submit with the application verification of attendance documents for at least twelve (12) hours of continuing education. Acceptable documents include at least one (1) of the following:

- (1) A continuing education validation form furnished by the presenter or a certificate of attendance and an agenda;
 - (2) A letter on the sponsoring presenter's letterhead giving the name of the program, location, dates, subject taught, total number of hours attended, participant's name and presenter's name and credentials; or
 - (3) An official college transcript showing courses completed with credit issued or audit credit.
- (b) Only continuing education accrued in the preceding certificate renewal period is acceptable.
- (c) Submission of fraudulent continuing education hours shall be the cause for disciplinary action and may result in suspension or revocation of the certificate.
- (d) Documentation of home study shall include proof of registration for and completion of continuing education hours or units supplied by the provider of the home study education materials.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 19 Ok Reg 2097, eff 6-27-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-9-5. Penalty for failure to fulfill continuing education

Failure to fulfill the continuing education requirements by the renewal date shall be cause for suspension and may result in revocation of the certificate.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

SUBCHAPTER 11. RENEWAL OF CERTIFICATION

310:664-11-1. Certification renewal process

- (a) A home care administrator is responsible for filing for certificate renewal before the expiration date.
- (b) Each certificate shall expire on each July 31 following its issuance.
- (c) Failure to renew by October 31st shall result in presumed nonrenewal of certificate and the individual shall not provide services as a home care administrator until and unless the individual files an application and meets requirements for renewal as follows.
- (1) If the individual applies within one year after expiration of the certificate, the individual shall provide proof of successful completion of twelve (12) hours of continuing education completed prior to the expired year;
 - (2) If the individual applies within two years after expiration of the certificate, the individual shall provide proof of successful completion of 12 hours of continuing education for the previous expired year and an additional twelve (12) hours of continuing education for the current year in which renewal is requested;
 - (3) If the individual applies more than two years but not more than five years after expiration of the certificate, the individual shall be required to pass the OHCAPA; and

- (4) If the individual applies more than five years after expiration of the certificate, the individual must successfully complete a preparedness program and the OHCAPA to be reinstated.
- (d) The renewal application shall include, but not be limited to, the following:
- (1) Documentation of the continuing education as specified in OAC 310:664-9-4;
 - (2) Renewal fee of fifty-five dollars (\$55.00) payable to the Department;
 - (3) Disclosure of any felony conviction since the previous application for certification or renewal;
 - (4) If the renewal is filed on or after August 31 and on or before September 30, a penalty of twenty-five dollars (\$25.00) payable to the Department; and
 - (5) If the renewal is filed on or after October 1 and before October 31, a penalty of fifty dollars (\$50.00) payable to the Department.
- An applicant shall submit \$50.00 each year up to \$100.00 for failing to renew within a two (2) year time frame as addressed at OAC 310:664-11-1(1) and (2).

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 16 Ok Reg 3491, eff 7-30-99 (emergency); Amended at 17 Ok Reg 2070, eff 6-12-00 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02 ; Amended at 20 Ok Reg 2384, eff 7-11-03 ; Amended at 26 Ok Reg 1516, eff 6-11-09]

310:664-11-2. Inactive status

- (a) A certificate may be placed on inactive status by written request by July 31, while the certificate is active and not expired. After five (5) years, such individual must meet the requirements addressed at OAC 310:664-3-1 and successfully pass the OHCAPA to become a certified home care administrator.
- (b) When a certificate is placed on inactive status, the certificate shall be returned to the Department.
- (c) Active status may be re-established upon submitting a completed renewal application, payment of a renewal fee prorated for one (1) year, and the submission of twelve (12) hours continuing education acquired since August 1st.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-11-3. Re-issuance of certificate

An individual may request a duplicate or amended certificate by submitting a written request with applicable supporting documentation and a nonrefundable fifteen dollar (\$15.00) fee.

[Source: Added at 26 Ok Reg 1516, eff 6-11-09]

SUBCHAPTER 13. ENFORCEMENT

310:664-13-1. Purpose

The purpose of the subchapter is to specify procedures for complaints against home care administrators, certificate denial, revocation, suspension and administrative penalties which are applicable to home care administrators.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-13-2. Violations and investigations

(a) Any person wishing to report an alleged violation by a home care administrator shall notify the Department in writing and shall include the following:

- (1) Nature of the alleged violation;
- (2) Name of the administrator;
- (3) Name, address, city of the agency, and location in which the alleged violation occurred.

(b) Upon receipt of a report, the Department shall acknowledge the report.

(c) The Department shall investigate the report to determine if there is enough evidence to support the alleged violation.

(d) Based on the results of the investigation the Department may:

- (1) Report to the person making the report that the alleged violation could not be substantiated;
- (2) Conduct an informal dispute resolution;
- (3) File an individual proceeding against an administrator seeking administrative penalties;
- (4) Suspend or revoke the certification of an administrator; or
- (5) Take other remedial actions.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 18 Ok Reg 3595, eff 8-22-01 (emergency); Amended at 19 Ok Reg 1061, eff 5-13-02]

310:664-13-3. Administrative penalties

(a) The Department may assess an administrative penalty against an administrator who fails to comply with any of the following:

- (1) A provision of the Act;
- (2) A requirement within this Chapter; or
- (3) A order issued by the Commissioner of Health.

(b) The Department may assess a penalty for permitting an agency to remain non-compliant with Department licensure regulations.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-13-4. Denial, revocation, non-renewal and suspension

The Department may deny an initial certificate application, renewal application or may deny, suspend, or revoke a home care administrator certificate upon proof of any of the following:

- (1) Obtaining or attempting to obtain a home care administrator certificate by fraud or deceit;
- (2) Conviction of a felony or a conviction of a crime involving violation of any narcotic or drug control law. The record of a

conviction or a copy certified by the Clerk of the Court or by the Judge in whose court the conviction is entered, is conclusive evidence of the conviction or the OSBI criminal arrest checks indicating a felony conviction;

- (3) Judicial determination of incompetence;
- (4) Submission of fraudulent credential documents or records of employment;
- (5) Submission of fraudulent continuing education records;
- (6) Failure to comply with any provision of this Chapter or continual non-compliance with the provision of the Home Care Act;
- (7) Abuse or neglect of a client or misappropriation of a client's property;
- (8) Representation as a certified home care administrator when not currently certified as a home care administrator; or
- (9) Altering any administrator certificate or allowing alteration of any administrator certificate.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98 ; Amended at 20 Ok Reg 2384, eff 7-11-03]

310:664-13-5. Hearings

(a) Hearings shall be conducted by the Commissioner of Health or his designee as specified in Chapter 2 of this Title. The Department shall order the most appropriate penalty at the conclusion of the evidence.

(b) The Department, either by order of the Commissioner or designee, shall issue a final order. A final order may be appealed in accordance with the Administrative Procedures Act.

[Source: Added at 15 Ok Reg 2385, eff 6-11-98]

310:664-13-6. Reinstatement of a revoked or suspended certificate

(a) An individual seeking reinstatement of a certificate that has been revoked or suspended shall:

- (1) Apply on the Department form; and
- (2) Appear in person to the Department for presentation of facts relating to such request which shall include, but not be limited to:
 - (A) Complete documentation or evidence attested under oath and by witnesses of facts which demonstrate that the conditions or circumstances upon which the revocation or suspension was based no longer exist; or
 - (B) Letters of recommendation from employees, officers of courts, or respected members of the community which indicate that the conditions responsible for the revocation or suspension no longer exist.

(b) A suspended certificate shall not be reinstated until the period specified by the Department has elapsed.

(c) A revoked certificate shall not be reinstated for the period of two (2) years.

CHAPTER 667. HOSPITAL STANDARDS

[**Authority:** 63 O.S., §§ 1-103a.1, 1-104 and 1-701 et seq.]

[**Source:** Codified 6-26-95 ; Amended at 41 Ok Reg, Number 22, effective 8-11-24]

SUBCHAPTER 1. GENERAL PROVISIONS

310:667-1-1. Purpose

The purpose of this Chapter is to provide rules for hospitals as required by 63 O.S. § 1-705.

[**Source:** Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 39 Ok Reg 1392, eff 9-11-22]

310:667-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise.

"Addition" means an extension or increase in floor area or height of a building structure.

"Administrator" means the chief executive officer for the hospital.

"Advanced practice nurse" means a licensed registered nurse recognized by the Oklahoma Board of Nursing as an advanced practice nurse. Advanced practice nurses shall include advanced registered nurse practitioners, clinical nurse specialists, certified nurse midwives, and certified registered nurse anesthetists.

"Automatic" means providing a function without the necessity of human intervention.

"Building" means a structure used or intended for supporting or sheltering any use or occupancy. The term "building" shall be construed as if followed by the words "or portions thereof."

"Chemical restraint" means the use of a medication for the purpose of discipline, convenience, or in an emergency situation to control mood or behavior and not required to treat a patient's condition.

"Combustible" means capable of undergoing combustion.

"Critical Access Hospital" means *a hospital determined by the State Department of Health to be a necessary provider of health care services to residents of a rural community* [63 O.S. § 1-701].

"Department" means the Oklahoma State Department of Health.

"Emergency hospital" means *a hospital that provides emergency treatment and stabilization services on a twenty-four-hour basis that has the ability to admit and treat patients for short periods of time* [63 O.S., § 1-701].

"Existing facility" means licensed hospitals that are in existence or have had final drawings for construction approved by the Department at the date this Chapter became effective. A general medical surgical hospital that converts to a critical access hospital is considered an existing facility.

"General medical surgical hospital" means *a hospital maintained for the purpose of providing hospital care in a broad category of illness and injury* [63 O.S. § 1-701]

"Governing body" means the person(s) having ultimate responsibility, including fiscal and legal authority for the hospital.

"Hospital" means *any institution, place, building, or agency, public or private, whether organized for profit or not, primarily engaged in the maintenance and operation of facilities for the diagnosis, treatment, or care of patients admitted for overnight stay or longer in order to obtain medical care, surgical care, obstetrical care, or nursing care for illness, disease, injury, infirmity, or deformity. Places where pregnant females are admitted and receive care incident to pregnancy, abortion or delivery shall be considered to be a "hospital" within the meaning of this article regardless of the number of patients received or the duration of their stay. The term "hospital" includes general medical surgical hospitals, specialized hospitals, critical access and emergency hospitals, and birthing centers* [63 O.S. § 1-701].

"Hospital campus" means inpatient and/or outpatient facilities located at different addresses operated under a common hospital license issued by the Department.

"Include" or **"Includes"** means include(s) but is not limited to.

"Licensed independent practitioner" means any individual permitted by law and by the licensed hospital to provide care and services, without direct supervision, within the scope of the individual's license and consistent with clinical privileges individually granted by the licensed hospital. Licensed independent practitioners may include advanced practice nurses with prescriptive authority, physician assistants, dentists, podiatrists, optometrists, chiropractors, and psychologists.

"Licensed practical nurse" means a person currently licensed to practice practical nursing in Oklahoma.

"Licensed/registered dietitian" means a person who is registered as a dietitian by the American Dietetic Association and is currently licensed as a dietitian in Oklahoma.

"Licensure" means the process by which the Department grants to persons or entities the right to establish, operate, or maintain any facility.

"Occupancy" means the purpose for which a building or portion thereof is used or intended to be used.

"Pharmacist" means a person who is currently registered by the Oklahoma State Board of Pharmacy to engage in the practice of pharmacy.

"Physical restraint" means any manual method or physical or mechanical device, material or equipment attached or adjacent to a patient's body that the patient cannot remove easily, that is not used for the purpose of therapeutic intervention or body alignment as determined by the patient's physician or licensed independent practitioner, and which restricts the patient's desired freedom of movement and access to his or her body.

"Physician" means a doctor of medicine (M.D.) or osteopathy (D.O.) currently licensed to practice medicine and surgery in Oklahoma.

"Physician assistant" means an individual licensed as a physician assistant in Oklahoma.

"Practitioner" means a dentist, podiatrist, chiropractor, optometrist, physician assistant, psychologist, certified nurse mid-wife,

advanced registered nurse practitioner, clinical nurse specialist, certified registered nurse anesthetist, physical therapist, occupational therapist, pharmacist, social worker or other individual currently licensed or authorized to practice as a medical professional in Oklahoma.

"Psychiatric hospital" means a specialized hospital maintained for the purpose of providing psychiatric care.

"Registered nurse" means a person currently licensed to practice registered nursing in Oklahoma.

"Rehabilitation hospital" means a specialized hospital maintained for the purpose of providing rehabilitation.

"Respiratory care practitioner" means *a person licensed by this state and employed in the practice of respiratory care* [59 O.S. § 2027]

"Specialized hospital" means *a hospital maintained for the purpose of providing hospital care in a certain category, or categories, of illness and injury* [63 O.S. § 1-701].

310:667-1-3. Licensure

(a) Application for licensure.

(1) No person or entity shall operate a hospital without first obtaining a license from the Department. The license is not transferable or assignable.

(2) The applicant shall file a licensure application in a timely manner. The application shall be on forms provided by the Department, with a check of \$10.00 for each census bed, crib and bassinet, payable to the Oklahoma State Department of Health.

(3) The entity responsible for operation of the hospital and appointment of the medical staff shall be considered the applicant for the license. This entity may be a lessee if the hospital is leased and the lessee is the operating entity. For the purposes of licensure, a company providing administrative management of a hospital, which functions by contract with the governing body of the hospital, shall not be considered the entity responsible for operation.

(4) An application is not considered to be filed unless it is accompanied by the application fee.

(b) Application filing. An initial license application or renewal application shall be filed as follows:

(1) The application for an initial license for a new hospital shall be filed prior to or at the time final drawings for construction are submitted to the Department for review which shall be at least thirty (30) days before a hospital begins operation.

(2) The application for an initial license for a change of ownership or operation, shall be filed at least thirty (30) days before the transfer. The sale of stock of a corporate licensee, where a majority of the governing body does not change, is not considered a change of ownership or operation. The sale or merger of a

corporation that owns an operating corporation that is the licensed entity shall not be considered a change of ownership unless a majority of the governing body is replaced.

(3) The Department will mail a notice of renewal at least 60 days before the license expires.

(4) The application for renewal of a license of an existing hospital should be filed at least thirty (30) days before the expiration date of the current license to ensure that it is approved before the license expires.

(5) If the license expires without the Department receiving a renewal application, then the Department will mail a notice of non-renewal to the facility. A notice of non-renewal provides the licensee 30 days to:

(A) file the renewal application; or

(B) file a notice with intent to renew the license.

(6) If a licensee submits a notice with intent to renew the license, then the licensee receives an extra 30 additional days to file the renewal application. The 30 additional days begins from the date the Department receives the notice to renew the license.

(7) When a licensee fails to file the renewal application before the deadlines stated in this subsection the Department will mail a notice of non-licensure. The notice of non-licensure will inform the licensee:

(A) that the license is now considered surrendered; and

(B) identifies opportunities to show compliance.

(8) If the applicant files a renewal application before the deadlines provided in this subsection, then the license is considered renewed with no additional requirements.

(c) **Where to file.** The application and the license fee shall be delivered or sent to the Department. The effective date shall be the date the application and fee are received.

(d) **Forms.** The applicant for a license shall file application forms as follows:

(1) For an initial license of a new hospital, or for an existing hospital following a change in ownership or operation, the applicant shall file these forms: Application for License to Operate a Hospital or Related Institution; Board of Directors Information Sheet; and Designation of Licensed Beds Form.

(2) For renewal of a current license, the applicant shall file the Application for License to Operate a Hospital or Related Institution; Board of Directors Information Sheet; Designation of Licensed Beds Form; and a Fire Inspection Report For Hospitals.

(e) **Description of forms.** The forms used to apply for a hospital license are the following:

(1) The Application For License to Operate Hospital or Related Institution (Form 920) requests: identification of the type of license requested; the name and address of the hospital; the name and address of the operating entity; the number of beds and bassinets; the ownership of the building and grounds; the applicant's name; the chief executive officer/administrator's name; attachment for credentialed staff; and an affidavit attesting

the signature of the applicant.

(2) The Board of Directors Information Form (Form 929) requests: The names and addresses of the Board of Directors for the hospital.

(3) The Designation of Licensed Beds Form (Form 929) requests: A listing of the types of beds operated by the hospital and a total of the beds.

(4) The Fire Inspection Report for Hospitals (Form 928) requests: a check list of the annual inspection conducted by the local fire marshal.

(f) Eligibility for license.

(1) Hospitals making appropriate application that have been determined to be compliant with these standards are eligible for a license.

(2) A hospital may operate inpatient and outpatient facilities under one (1) license as a hospital campus as long as the following requirements are met:

(A) The facilities shall be separated by no more than fifty (50) miles. This requirement may be waived if the services of the facilities are totally integrated through telecommunication or by other means.

(B) The facilities are operated by the same governing body with one administrator.

(C) The medical staff for all facilities is totally integrated so that any practitioner's privileges extend to all facilities operated under the common license.

(3) An outpatient facility located at a different address from a hospital is eligible to be licensed as part of the hospital but is not required to be licensed.

(4) Each hospital shall participate in a functioning regional system of providing twenty-four (24) hour emergency hospital care approved by the Commissioner of Health in consultation with the Oklahoma Trauma Systems Improvement and Development Advisory Council. Participation in a regional system may include active participation of the hospital in the provision of emergency services based upon the system plan, participation of the hospital's medical staff in the provision of emergency services at other hospitals in the system based on the system plan, or payment into a fund to reimburse hospitals providing emergency services in the system.

(5) If an area of the state fails to develop a functioning regional system of providing twenty-four (24) hour emergency hospital care necessary to meet the state's needs for trauma and emergency care as established by the state-wide trauma and emergency services plan, the Commissioner of Health, in consultation with the Oklahoma Emergency Response Systems Development Advisory Council, shall develop a system for the area. Each hospital located in the area shall participate as specified by the system plan for that region.

(g) Regional system of emergency hospital care.

(1) In counties and their contiguous communities with populations of 300,000 or more, a functioning regional system of providing twenty-four (24) hour emergency hospital care shall include definitive emergency care for all clinical categories specified in OAC 310:667-59-7. In these regions, a functioning system shall only transfer emergent patients out of the system when treatment or diagnostic services are at capacity unless the patient has a special treatment need not normally provided by the system. Transfers out of the system may occur based upon the patient or the patient's legal representative's request or based upon a special circumstance for the transfer.

(2) In counties and communities with populations of less than 300,000, a functioning regional system of providing twenty-four (24) hour emergency hospital care shall include definitive care based upon the classification of hospital's emergency services in the region as specified in OAC 310:667-59-7. Transfers out of the regional system may be based upon lack of diagnostic or treatment capability or capacity. A functioning system shall not permit emergent patient transfers out of the system if the system has the capability and capacity to provide care unless the patient or patient's legal representative requests the transfer.

(3) A functioning regional system of providing twenty-four (24) hour emergency hospital care shall demonstrate compliance with OAC 310:667-1-3(g)(1) or (2) through system continuous quality improvement activities. Activities shall include monitoring of patient transfers and corrective actions when inappropriate transfers are identified. Special circumstance patient transfers shall be identified and reviewed through continuous quality improvement activities.

(h) **Quality indicators.** The Department, with the recommendation and approval of the Hospital Advisory Council, shall establish quality indicators to monitor and evaluate the quality of care provided by licensed hospitals in the state.

(1) The quality indicators shall focus on the following measurement areas:

- (A) Acute myocardial infarction (including coronary artery disease);
- (B) Heart failure;
- (C) Community acquired pneumonia;
- (D) Pregnancy and related conditions (including newborn and maternal care);
- (E) Surgical procedures and complications;
- (F) Patient perception measures such as satisfaction surveys; and
- (G) Ventilator-associated pneumonia and device-related blood stream infections for certain intensive care unit patients in acute care hospital settings.

(2) The quality indicators in use shall be periodically evaluated and revised as health care quality issues are identified and others are resolved.

(i) **Data submission requirements.**

- (1) The Department shall define the parameters and scope of each quality indicator, the beginning and ending dates of the period when each indicator will be in effect, how the indicator will be measured, any inclusionary or exclusionary criteria, and the frequency and format of how the data shall be reported.
- (2) Each hospital shall report applicable data related to these indicators to the Department in the specified format and within required time frames.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 21 Ok Reg 573, eff 1-12-04 (emergency); Amended at 21 Ok Reg 2785, eff 7-12-04 ; Amended at 21 Ok Reg 2437, eff 7-11-05 ; Amended at 24 Ok Reg 2018, eff 6-25-07 ; Amended at 36 Ok Reg 1730, eff 9-13-19 ; Amended at 38 Ok Reg 2066, eff 9-11-21]

310:667-1-4. Enforcement

- (a) **Inspections.** All hospitals required to have a license are subject to inspection by Department staff. This includes hospitals under construction that have submitted final drawings and made application for a license. These inspections may be routine or conducted as a result of a complaint investigation.
- (b) **Adverse actions.** The State Commissioner of Health may suspend or revoke any hospital license based on any of the following:
 - (1) Violation of any provisions of 63 O.S. 1991, § 1-701 et seq. or this Chapter.
 - (2) Permitting, aiding or abetting the commission of any illegal act in the licensed hospital.
 - (3) Conduct of practices deemed by the Commissioner to be detrimental to the welfare of patients of the hospital.
- (c) **Hearings.** Hearings shall be conducted according to the Administrative Procedures Act and Chapter 2 of this Title 310:002.
- (d) **Appeals.** A final order of the Commissioner of Health may be appealed to the District Court by any party affected or aggrieved by the order.
- (e) **Revocation.** If a license is revoked, 63 O.S. Section 1-706(E) states what must occur to obtain a new license.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 38 Ok Reg 2066, eff 9-11-21]

310:667-1-5. Purpose, authority and indoor tobacco smoke

- (a) The purpose of this section is to establish a prevention program for several non-communicable diseases, which will improve the health of Oklahomans by eliminating exposure to secondhand tobacco smoke and its deadly effects. This section abates the public health nuisance of secondhand smoke under the authority of the Commissioner of Health as specified under Section 1-106(b)(1) of Title 63 of the Oklahoma Statutes. This section also further specifies how compliance with the Smoking in Public Places Act will be accomplished. [63 O.S. §§ 1-1521 *et seq.*]
- (b) The Commissioner of Health has conducted a study and is recommending these measures to the Board of Health under his authority as stated in section 1-106 of the Public Health Code. [63 O.S. §

1-106] The Board has the authority to establish prevention programs for non-communicable disease and to promulgate rules for the control of causative or toxic substances, which can cause disease under section 1-502b of the Public Health Code. [63 O.S. § 1-502b] The Board is adopting this rule under its authority in sections 1-104 and 1-1526 of Title 63 of the Oklahoma Statutes. [63 O.S. §§ 1-104 & 1-1526]

(c) Smoking or possessing a lighted tobacco product is prohibited in a hospital and within fifteen (15) feet of each entrance to a facility and of any air intakes; provided however, the hospital may provide a smoking room not available to the public for use by addicted patients with a physician's or licensed independent practitioner's order.

(d) An indoor smoking room may be provided if:

(1) It is completely enclosed;

(2) It is exhausted directly to the outside and maintained under negative pressure sufficient to prevent any tobacco smoke from entering non-smoking areas of the building;

(3) It allows for visual observation of the patients from outside of the smoking room; and

(4) The plans are reviewed and approved by the Department.

(e) The walkway to the main entrance shall also be smoke free.

(f) No ashtray shall be located closer than fifteen (15) feet to an entrance, except in an indoor smoking room.

(g) Should construction requirements not be in agreement with this rule, the stricter rule shall apply.

[Source: Added at 19 Ok Reg 2097, eff 7-1-02]

SUBCHAPTER 3. PATIENT RIGHTS

310:667-3-1. General

(a) Policies describing mechanisms by which patient rights are protected shall be formulated by the medical staff, with input from administration, and approved by the governing body.

(b) Patients have a right to considerate and respectful care from all personnel involved.

(c) Policies regarding care of the patients shall consider differences in culture and religion which may result in differences in how illness is perceived.

(d) Patients have the right, upon request, regardless of reimbursement mechanisms, to be informed of customary charges, in advance, for the type of hospital stay anticipated.

(e) The hospital shall inform each patient, or when appropriate the patient's representative, of the patient's rights, in advance of furnishing or discontinuing patient care whenever possible.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-3-2. Advance directives

Written policies and procedures relating to advance directives with respect to all adult individuals receiving care shall be maintained by the facility. These policies and procedures shall comply with existing state and federal laws.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-3-3. Medical therapies

The policies and procedures concerning medical therapies shall include:

- (1) Consideration of a patient's right to be involved in health care decisions, in collaboration with a physician or licensed independent practitioner.
- (2) Consideration of a patient's right to accept or reject medical care to the extent permitted by law.
- (3) A patient's right to information necessary to enable the patient to make informed treatment decisions. This information shall be presented in plain language and in a format which the patient can understand; e.g., in their language if they do not speak English, sign language for the deaf, or other appropriate methods.
- (4) Policies for patients who are diagnosed as terminal and the therapies which are aimed at optimizing comfort and alleviating pain.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-3-4. Itemized patient bill

After receiving a written request from a patient, survivor, or legal representative as may be appropriate, facilities shall provide an itemized statement of the specific nature of charges or expenses incurred by the patient. The facility shall have a written policy, such as chart audits, to resolve differences of opinion concerning hospital charges.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-3-5. Patient restraint

Patients have the right to be free from physical or chemical restraint unless such restraint is required to prevent injury to the patient or others or prevent serious disruption in the therapeutic environment. The responsibility for restraining any patient shall be limited to the patient's attending physician or licensed independent practitioner although physical restraint may be temporarily applied in emergency situations in accordance with established written policies at the direction of a registered nurse. Each facility shall have policies regarding the use of physical and chemical restraints and these policies shall comply with all requirements specified in these rules and other appropriate state and federal requirements. Each patient or their legal representative shall have access to these policies upon request.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-3-6. Seclusion

Patients have the right to be free from seclusion unless seclusion is required to prevent injury to the patient or others or prevent serious disruption to the therapeutic environment. The responsibility for ordering seclusion of any patient shall be limited to the patient's attending physician or licensed independent practitioner although seclusion may be temporarily employed in emergency situations in accordance with established written policies at the direction of a registered nurse who immediately obtains verbal consent from a physician or licensed independent practitioner. Each facility shall have policies regarding the use of seclusion and these policies shall comply with all requirements specified in these rules and other appropriate state and federal requirements. Each patient or their legal representative shall have access to these policies upon request.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 5. COMPLIANCE WITH FEDERAL, STATE, AND LOCAL LAWS

310:667-5-1. Licensure or registration of personnel

(a) Staff of the hospital shall be licensed or registered in accordance with applicable state laws and shall provide care according to the requirements of their respective practice Acts.

(b) Each student who is participating in a recognized training program to become a physician or a non-physician practitioner may be allowed to carry out patient care responsibilities under the supervision of their instructor as a part of their training. Physicians and other practitioners serving as instructors shall be appropriately licensed or registered and shall have been granted appropriate clinical privileges if required by the medical staff bylaws. Each hospital that allows student training shall authorize and limit student patient care activities through approved policies and procedures.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-5-2. Non-physician practitioners

Those hospitals using non-physician practitioners, such as physician assistants, advanced registered nurse practitioners, certified nurse midwives, certified registered nurse anesthetists, psychologists, or other practitioners, shall clearly define the role, limitation and mechanism of supervision in their job description, contract, or bylaws, as appropriate, to insure compliance with state law and good-practice

standards for each practitioner.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-5-3. Conformity with other laws

The hospital shall be in conformity with federal, state, and local laws relating to fire and safety, to communicable and reportable diseases, to occupational safety and health, and to other relevant matters.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-5-4. Employee and/or worker health examinations

(a) **Pre-employment.** Each employee and/or worker (with or without patient care responsibilities, paid or volunteer, full-time or part-time: physicians, nurses, emergency medical personnel, dental professionals and students, medical and nursing students, laboratory and pharmacy workers, hospital volunteers, and administrative staff, including food service workers) in the hospital shall have a pre-employment health examination, which shall include (but not be limited to):

(1) An immunization history shall be part of each pre-employment examination or application for hospital privileges. The immunization history shall include documentation of immunity to measles, mumps, rubella and varicella.

(A) Birth before 1957 is considered acceptable evidence of immunity to measles, mumps, and rubella, with the exception that birth before 1957 is not acceptable evidence of immunity to rubella for female employees and/or workers born before 1957 who can become pregnant.

(B) Persons born in 1957 or later can be considered immune to measles, mumps or rubella only if they have documentation of one of the following:

(i) measles or mumps disease diagnosed by a physician or licensed independent practitioner;

(ii) laboratory evidence of measles, mumps, or rubella immunity; or

(iii) vaccination on or after the first birthday with two doses of live measles vaccine separated by at least 28 days, at least one dose of live mumps vaccine, and at least one dose of live rubella vaccine.

(C) Persons can be considered immune to varicella if they have a reliable history of having had varicella or if they have received one dose of varicella vaccine on or after the first birthday prior to the 13th birthday, or two doses of varicella vaccine separated by at least 28 days on or after the 13th birthday.

(D) Serologic screening need not be done before vaccinating against measles, mumps, rubella and varicella unless the facility considers it cost-effective.

(E) Serologic screening is not necessary for persons who have documentation of appropriate vaccination or other acceptable evidence of immunity to measles, mumps, rubella, and varicella.

(F) Contraindications to MMR or varicella vaccines should be followed.

(2) Hepatitis B vaccine shall be offered consistent with 29 CFR Section 1910.1030 (Occupational Exposure to Bloodborne Pathogens).

(3) Each hospital shall meet Occupational Safety and Health Act standards applicable to the facility.

(b) **Periodic health examinations.** A test for tuberculosis shall be performed. All tests and examinations shall be in conformance with the "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.

(1) Follow-up examinations for employees and/or workers who react significantly to a tuberculin skin test shall be conducted.

(2) Employees and/or workers with an initial negative chest x-ray, whether they take appropriate preventive therapy (treatment of latent tuberculosis infection) or not, shall be exempt from yearly, routine chest x-rays unless signs or symptoms suggestive of tuberculosis develop.

(3) Employees and/or workers with a documented reactive skin test and a proven negative chest x-ray, whether they have taken appropriate preventive therapy (treatment of latent tuberculosis infection) or not, shall be exempt from yearly, routine chest x-rays unless signs or symptoms suggestive of tuberculosis develop.

(4) Employees and/or workers with documented prior reactive tuberculin skin tests shall be seen yearly by medical personnel to determine if signs or symptoms are present. The results of such examinations shall be recorded on the individual employee's and/or worker's health record.

(c) **Interim health examinations.** Employees and/or workers, when found to be likely to transmit a communicable disease as determined by a physician or licensed independent practitioner, shall be removed from patient contact duties, consistent with state and federal laws, until such time as a physician or licensed independent practitioner certifies that the risk of transmission of communicable disease is within acceptable limits as defined by the infection control program in its written policies and procedures.

(d) **Follow-up examinations.** Follow-up of an employee and/or workers, who, while employed at the facility, is a contact to active tuberculosis:

(1) An employee and/or worker who is a known tuberculosis contact shall have a tuberculin skin test. If this test is reactive for the first time, the individual shall have a chest x-ray. If the individual with a reactive skin test does not take preventive medication (treatment of latent tuberculosis infection), the employee and/or worker shall be monitored.

(2) If an employee and/or worker is a known, recent tuberculosis contact, he or she shall have a tuberculin skin test and, if non-reactive, and if the individual is asymptomatic for tuberculosis, then a repeat tuberculin skin test shall be done in three (3) months. If the employee and/or worker is symptomatic, an x-ray shall be done immediately.

(3) If an employee and/or worker is a contact to active tuberculosis and has a documented previous reactive skin test, he or she shall be exempt from yearly, routine x-rays unless signs or symptoms develop suggestive of tuberculosis.

(e) **Annual influenza vaccination program.** Each hospital shall have an annual influenza vaccination program consistent with the recommendations of the Centers for Disease Control and Prevention Advisory Committee on Immunization Practices that shall include at least the following:

(1) The offer of influenza vaccination onsite, at no charge to all employees and/or workers in the hospital or acceptance of documented evidence of current season vaccination from another vaccine source or hospital;

(2) Documentation of vaccination for each employee and/or worker or a signed declination statement on record from each individual who refuses the influenza vaccination for other than medical contraindications; and

(3) Education of all employees and/or workers about the following:

(A) Influenza vaccination;

(B) Non-vaccine influenza control measures; and

(C) The symptoms, transmission, and potential impact of influenza.

(4) Each hospital influenza vaccination program shall conduct an annual evaluation of the program including the reasons for non-participation.

(5) The requirements to complete vaccinations or declination statements for each employee and/or worker may be suspended by the hospital's medical staff executive in the event of a shortage of vaccine as recognized by the Commissioner of Health.

(f) **Health examination records.** A file shall be maintained for each employee and/or worker, containing the results of the evaluations and examinations specified at OAC 310:667-5-4 (a) through (d) and the dates of illnesses as relate to employment.

(g) **Credentialing records.** For credentialed non-employee workers, including physicians, hospitals may meet these requirements if as part of the credentialing process such workers provide evidence of an immunization history and tuberculin skin test, consistent with the tuberculosis control program required at 310:667-5-4(b), in the form of a signed attestation statement from the non-employee worker that documents the worker's immunization history and the date and results of the latest tuberculin skin test.

Reg 2054, eff 6-25-09 ; Amended at 37 Ok Reg 1445, eff 9-11-20]

310:667-5-5. Health care information system

Each hospital shall be in compliance with the Oklahoma Health Care Information System Act [63 O.S., Section 1-115 et seq.] and the rules promulgated thereto.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 7. GOVERNING BODY

310:667-7-1. General

The hospital shall have an effective governing body legally responsible for the hospital and the quality of patient care provided.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-7-2. Bylaws

The governing body shall have adopted bylaws in accordance with legal requirements.

- (1) The bylaws shall be in writing and available to all members of the governing body.
- (2) The bylaws shall:
 - (A) Stipulate the basis upon which members shall be selected, their term of office, and their duties and requirements.
 - (B) Specify to whom responsibilities for operation and maintenance of the hospital, including evaluation of hospital practices, may be delegated; and the methods established by the governing body for such individuals responsible.
 - (C) Provide for the designation of necessary officers, their terms of office and their duties, and for the organization of the governing body into essential committees.
 - (D) Specify the frequency with which meetings shall be held.
 - (E) Provide for the appointment of members of the medical staff.
 - (F) Provide mechanisms for the formal approval of the organization, bylaws, rules and regulations of the medical staff and its departments in the hospital.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-7-3. Meetings

- (a) The governing body shall meet at regular, stated intervals.
- (b) Meetings shall be held frequently enough for the governing body to carry on necessary planning for growth and development and to evaluate

the conduct of the hospital, including the care and treatment of patients, the control, conservation, and utilization of physical and financial assets, and the procurement and direction of personnel.

(c) Minutes of meetings shall be maintained and approved by the governing body.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-7-4. Medical staff

(a) The governing body shall appoint members of the medical staff.

(b) A formal procedure shall be established, governed by written rules and regulations, covering the application for medical staff membership and the method of processing applications.

(c) The procedure related to the submission and processing of applications shall involve the administrator, credentials committee of the medical staff or its counterpart, and the governing body, all functioning on a regular basis.

(d) Selection of physicians and licensed independent practitioners and definition of their medical privileges, both for new appointments and reappointments, shall be based on written, defined criteria.

(e) Actions taken on applications for medical staff appointments by the governing body shall be put in writing and retained.

(f) Written notification of applicants shall be made by either the governing body or its designated representative

(g) Applicants, approved for medical staff appointment, shall sign an agreement to abide by the medical staff bylaws, rules and regulations. In instances where physician or licensed independent practitioner services are provided by a corporation, the corporation and/or individual physicians and licensed independent practitioners shall agree to comply with medical staff bylaws.

(h) There shall be a procedure for appeal and hearing by the governing body or other designated committee if the applicant or medical staff feels the appointment or privileging decision is unfair or wrong.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-7-5. Administrator duties

- (a) The administrator, as appointed by the governing body, shall act as the executive officer of the hospital, be responsible for the management of the hospital, and provide liaison for the governing body to the medical staff, nursing staff, and other departments of the hospital.
- (b) In discharging his or her duties, the administrator shall keep the governing body fully informed of the conduct of the hospital through written reports and by attendance at meetings of the governing body and meetings of the medical staff.
- (c) The administrator shall organize the day-to-day functions of the hospital through appropriate departmentalization and delegation of duties.
- (d) The administrator shall establish formal means of accountability on the part of the subordinates to whom he or she has assigned duties.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-7-6. All patients under physician's or licensed independent practitioner's care

- (a) The governing body shall be responsible for establishing a policy which requires that every patient shall be under the care of a physician or licensed independent practitioner.
- (b) Patients shall be admitted to the hospital only upon the recommendation of a physician or licensed independent practitioner.
- (c) A physician or licensed independent practitioner shall be on duty or on call at all times, and physically available if needed within twenty (20) minutes at the most.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-7-7. Physical plant

- (a) The governing body shall assure that the hospital is constructed, arranged, and maintained to ensure the safety of the patient and to provide facilities for diagnosis and treatment and for special hospital services appropriate to the needs of the community.
- (b) The governing body shall receive periodic reports from appropriate sources about the adequacy of the physical plant, equipment, and personnel, as well as any deficiencies.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-7-8. Institutional planning

The administrator, under the direction of the governing body, shall be responsible for an over-all plan and budget which provides for an annual operating budget and a capital-expenditure plan.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-7-9. Risk management

The facility shall have a risk-management program. A risk management program includes, but is not limited to, a system for identifying, evaluating, and minimizing risk exposures and a qualified person, defined in governing body bylaws, assigned to coordinate and/or perform indicated functions. The program shall include both clinical and non-clinical, including safety, functions. The governing body shall provide support for the program and receive periodic reports.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 9. MEDICAL STAFF

310:667-9-1. General

The hospital shall have a medical staff, organized under bylaws approved by the governing body and responsible to the governing body of the hospital for the quality of all medical care provided patients in the hospital and for the ethical and professional practices of its members. The medical staff includes fully licensed physicians and may include other licensed individuals permitted by law and by the hospital to provide patient care services in the hospital.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-2. Responsibilities toward policies

- (a) The medical staff shall be responsible for support of medical staff and hospital policies.
- (b) Medical staff members shall participate on various staff committees. Attendance requirements for committee members shall be established in the medical staff bylaws. Committee records shall verify that committee meetings are attended by members as required by approved bylaws.
- (c) There shall be prescribed, enforced disciplinary procedures for infraction of hospital and medical policies.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-3. Consultations

- (a) The medical staff shall have established policies concerning the holding of consultations.
- (b) The status of consultants shall be determined by the medical staff on the basis of an individual's training, experience, and competence. A consultant shall be qualified to give an opinion in the field in which his or her opinion is sought.
- (c) A consultation shall include a written opinion, signed by the consultant; the written opinion shall be included in the medical record. When operative procedures are involved, the consultation note, except in an emergency, shall be recorded prior to operation.
- (d) The patient's physician or licensed independent practitioner is responsible for requesting consultations when indicated. It is the duty of

the medical staff, through its chief of service and executive committee, to make certain that members of the staff do not fail in the matter of contacting consultants as needed and in a timely manner. The medical staff shall establish and enforce policies on appropriate methods to be used when contacting consultants.

(e) Routine procedures, such as diagnostic imaging and electrocardiogram determination, are not normally considered to be consultations.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-4. Staff appointments

(a) Staff appointments shall be made by the governing body, taking into account recommendations made by the active staff.

(b) The governing body has the legal right to appoint the medical staff and the obligation to appoint only those physicians and practitioners who are judged by their peers to be qualified and competent in their respective fields.

(c) Reappointments shall be made periodically, and recorded in the minutes of the governing body. Reappointment policies provide for a periodic appraisal of each member of the staff, including consideration of his or her physical and mental capabilities. Recommendations for reappointments shall be noted either in the credential committee or medical staff meetings minutes.

(d) Temporary staff privileges, for example locum tenens, shall be granted as specified in the medical staff bylaws for a limited time if the person is otherwise properly qualified for such.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-5. Staff qualifications

(a) Members of the staff shall be qualified legally, professionally, and ethically for the positions to which they are appointed.

(b) To select its members and delineate privileges, the hospital medical staff shall have a system, based upon definite workable standards, to evaluate each applicant and make recommendations to the medical staff and to the governing body regarding appointments.

(c) Privileges may be extended to duly licensed qualified persons to practice in their appropriate specialty fields only if appropriate to the services provided by the facility.

(d) Criteria for selection shall be individual character, competence, training, experience, judgement, and comity.

(e) Under no circumstances shall the accordance of staff membership or professional privileges in the hospital be based solely upon certification, fellowship, or membership in a specialty body or society. All qualified candidates shall be considered by the credentials committee.

(f) The scope of privileges for each member shall be specifically delineated or the medical staff shall define a classification system. If a system involving classification is used, the scope of the divisions shall be

well defined, and the standards which shall be met by the applicant are clearly stated for each category.

(g) Patient admission quotas or revenue generation minimums shall not be a condition for medical staff appointments or reappointments.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-6. Active staff

Regardless of any other categories having privileges in the hospital, there shall be an active staff, properly organized, which performs all of the organizational duties pertaining to the medical staff. These include:

- (1) Maintenance of the proper quality of all medical care and treatment in the hospital.
- (2) Organization of the medical staff, including adoption of rules and regulations for its government (which require the approval of the governing body), election of its officers, and recommendations to the governing body for appointments to the staff and delineation of hospital privileges.
- (3) Making other recommendations to the governing body for matters within the purview of the medical staff.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-7. Other staff

(a) In larger hospitals, and in some smaller hospitals, the medical staff may include one (1) or more of the categories in addition to the active staff. This in no way modifies the duties and responsibilities of the active staff.

(b) The categories of staff other than active may include the following:

- (1) **Honorary staff.** The honorary staff shall be composed of former active staff, retired or emeritus, and other physicians and practitioners of reputation whom the hospital desires to honor.
- (2) **Consulting staff.** The consulting staff shall be composed of recognized specialists willing to serve in such capacity. A member of the consulting staff may become a member of the active staff, but only if another appointment is made.
- (3) **Associate staff.** The associate staff shall be composed of those members who use the hospital infrequently or those less-experienced members undergoing a period of probation before being considered for appointment to the active staff.
- (4) **Courtesy staff.** The courtesy staff shall be composed of those who desire to attend patients in the hospital but who, for some reason not disqualifying, are ineligible for appointment in another category of the staff.
- (5) **Non-physician practitioners.** The medical staff may designate a category of staff membership for non-physician practitioners who are approved to provide services in an allied health profession. The roles of those persons approved by the

medical staff for this category of membership shall be clearly defined in accordance with OAC 310:667-5-2.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-8. Medical staff officers

- (a) There shall be such officers as may be necessary for the governance of the staff. These officers shall be members of the active staff and shall be elected by the active staff, unless this is precluded by medical staff policy.
- (b) The officers shall be elected from and by the active staff or appointed in accordance with medical staff policy on the basis of ability and willingness to assume responsibility and devote time to the office.
- (c) Where officers are elected, the process for election shall be delineated in the bylaws.
- (d) The chief of staff shall:
 - (1) Have direct responsibility for the organization and administration of the medical staff, in accordance with the terms of the medical staff constitution, bylaws, rules and regulations.
 - (2) In all medico-administrative matters, act in coordination and cooperation with the hospital administrator in implementing the policies adopted by the governing body.
 - (3) Be responsible for the function of the clinical organization of the medical staff and keeps or causes to be kept careful supervision over the clinical work in all departments.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-9. Medical staff bylaws

- (a) Bylaws shall be adopted to govern and enable the medical staff to carry out its responsibilities.
- (b) The bylaws of the medical staff shall be a precise and clear statement of the policies under which the medical staff regulates itself.
- (c) Medical staff bylaws, rules and regulations shall include the following:
 - (1) A descriptive outline of medical staff organization.
 - (2) A statement of the necessary qualifications which physicians and licensed independent practitioners shall possess to be eligible for medical staff privileges to work in the hospital, and/or the duties and privileges of each category of medical staff.
 - (3) A procedure for granting and withdrawing privileges to physicians and licensed independent practitioners.
 - (4) A mechanism for appeal of decisions regarding medical staff membership and privileges.
 - (5) A definite and specific statement forbidding the practice of the division of fees under any guise whatsoever.
 - (6) Provision for regular meetings of the medical staff.
 - (7) Provision for keeping accurate and complete medical records.
 - (8) A provision that all patient tissue removed in the hospital, except tissue specifically excluded by medical staff policy, shall be

examined by a pathologist and a report made of this examination.

(9) Provision for performing and documenting a routine examination of all patients upon admission and recording of pre-operative diagnosis prior to surgery.

(10) A rule permitting a surgical operation only on consent of the patient or his or her legal representative, except in emergencies.

(11) A rule providing that, except in emergency, consultation is required as outlined above.

(12) A regulation requiring physicians' and licensed independent practitioners' orders be recorded and signed.

(13) If dentists and oral surgeons, podiatrists, psychologists, or other allied health professionals are to be admitted to staff membership, the necessary qualifications, status, privileges, and rights of this group shall be stated in the bylaws.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-10. Committees-general

The structure of committee organization is a decision to be made by the medical staff as long as the required committee functions are carried out. A small staff may function as a committee-of-the-whole.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-11. Executive committee

(a) The executive committee (or its equivalent) shall coordinate the activities and general policies of the various departments, act for the staff as a whole under such limitations as may be imposed by the staff, and receive and act upon the reports of the medical records, tissue, and such other committees as the medical staff may designate.

(b) The committee shall meet at least nine (9) months out of each calendar year and maintain a permanent record of its proceedings and actions.

(c) Committee membership shall be made up of the officers of the medical staff, chiefs of major departments or services, and one (1) or more members elected at large from the active medical staff.

(d) The committee's functions and responsibilities shall include but not be limited to the following:

(1) Consider and recommend action to the administrator on all matters which are of a medico-administrative nature.

(2) Investigate any reports of breach of ethics by members of the medical staff, as referred to this committee by the credentials committee.

(3) Act as the program committee for staff meetings, unless this responsibility is delegated to a specific committee.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-12. Credentials committee

- (a) The credentials committee (or its equivalent) shall review applications for appointment and reappointment to all categories of the staff as often as needed and at least biennially. It shall delineate the privileges to be extended to the applicant and make appropriate recommendations to the governing body according to the procedure outlined in the hospital's medical staff bylaws.
- (b) The committee shall recommend individuals for initial appointment, hospital privileges, promotions, demotions, and reappointments.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-13. Medical records committee

- (a) The medical records committee (or its equivalent) shall supervise the maintenance of medical records at the required standard of completeness. Routine review and monitoring of records may be performed by hospital medical records staff or through the quality improvement program. On the basis of documented evidence, the committee shall review and evaluate the completeness of the record.
- (b) The committee shall be available to meet as often as necessary and shall submit a written report of meetings to the executive committee.
- (c) The committee's members shall represent a cross section of the clinical services. In large hospitals, each major clinical department may have its own committee.
- (d) Membership shall be staggered so that experienced committee physicians shall always be included. Senior residents may serve on this committee.
- (e) Review of the record for completeness may be performed for the most part by medical record staff. In addition, on-the-spot scanning of current inpatient records for completeness shall be performed.
- (f) The committee shall:
 - (1) Recommend to the medical staff the approval of, use of, and any changes in form or format of the medical record.
 - (2) Advise and recommend policies for medical record maintenance and supervise the medical records to insure that details shall be recorded in the proper manner and that sufficient data shall be present to evaluate the care of the patient.
 - (3) Insure proper filing, indexing, storage, and availability of all patient records.
 - (4) Advise and develop policies to guide the medical record administrators or medical record staff, medical staff, and administration so far as matters of privileged communication and legal release of information are concerned.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-14. Tissue committee

- (a) The tissue committee (or its equivalent) shall review and evaluate all surgery performed in the hospital on the basis of agreement or disagreement among the pre-operative, post-operative, and pathological diagnoses, and on the acceptability of the procedure undertaken.

Reviews may be conducted by hospital staff or conducted as a part of the quality improvement program. All reviews shall be conducted based on criteria established by the committee.

(b) The committee shall be available to meet as often as necessary and shall submit a written report to the executive committee.

(c) This committee's work shall include continuing education through such mechanisms as utilization of its findings in the form of hypothetical cases or review of cases by category at staff meetings or publishing in coded form physicians' standings in the hospital regarding percentage of cases in which normal tissue is removed.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-9-15. Pharmacy and therapeutics committee

(a) A pharmacy and therapeutics committee (or its equivalent), composed of physicians, licensed independent practitioners, pharmacists, and registered nurses, shall assist in the formulation of broad procurement, storage, distribution, use, and safety procedures, and all other matters relating to drugs in hospitals and shall advise the medical staff and the pharmacist.

(b) The committee shall meet at least quarterly and shall:

(1) Serve as an advisory group on matters pertaining to the choice of drugs.

(2) Monitor and enforce stop-order policies.

(3) Monitor and control the use of preventive antibiotics and the use of antibiotics in the presence of infection.

(4) Develop and review periodically a formulary or drug list for use in the hospital.

(5) Establish standards concerning the use and control of investigational drugs in research and the use of recognized drugs.

(6) Evaluate clinical data concerning new drugs or preparations requested for use in the hospital.

(7) Make recommendations concerning drugs to be stocked on the nursing-unit floors and by other services.

(8) Provide information to the medical staff on the relative cost of equivalent or generic medicines.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-16. Meetings of the medical staff

(a) Meetings that include the medical staff shall be held at least monthly to review, analyze, and evaluate the clinical work of its members.

(1) The number and frequency of these meetings shall be determined by the active staff and clearly stated in the bylaws of the staff.

(2) Attendance requirements for each individual member of the staff and for the total attendance at each meeting shall be clearly stated in the bylaws of the staff, and attendance records shall be kept.

(3) Adequate minutes of all meetings shall be kept.

- (4) The method adopted to insure adequate evaluation of clinical practice in the hospital shall be determined by the medical staff, e.g. quality improvement meetings, meetings of medical records and tissue committees in which clinical practice is discussed and evaluated and reports made to the active staff, active staff meetings, etc., and shall be clearly stated in the bylaws.
- (b) Minutes of such meetings shall provide evidence of the following:
 - (1) A review of the clinical work done by the staff on at least a monthly basis according to policies established by the medical staff to monitor clinical activities.
 - (2) Discussion of agenda items, such as committee reports received.
 - (3) Names of members and staff present.
 - (4) Duration of meeting.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-17. Departments

- (a) Division of staff into services or departments to fulfill medical staff responsibilities promotes efficiency and is recommended in general hospitals with seventy-five (75) or more beds. Each autonomous service or department shall be organized and function as a unit.
- (b) Medical staff members of each service or department shall be qualified by training and demonstrated competence and be granted privileges based on their individual training and competence.
- (c) In those hospitals where the review and evaluation of clinical practice are done by committees of the medical staff or by monthly meetings of the entire staff, departmental meetings shall be optional. In those hospitals where the clinical review is done by the departments, each service or department shall meet at least once a month. Records of these meetings shall be kept and shall become part of the records of the medical staff.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-9-18. Chief of service or departments

- (a) The chief of service or department shall be a member of the service or department, qualified by training and by definition in the medical staff bylaws. The chief of service or department shall be responsible to the medical staff as to the qualifications of service or department members. He or she shall make recommendations to the department for the professional care of patients and make recommendations to the medical staff as to the planning of hospital facilities, equipment, routine procedures, and any other matters concerning patient care.
- (b) Each chief of service shall be selected as required by medical staff bylaws or hospital policies based on recommendations of the medical staff.
- (c) Duties and responsibilities of the chief shall include, in addition to those cited above:

(1) Responsibility for arranging and expediting inpatient and outpatient departmental programs embracing organization, educational activities, supervision, and evaluation of the clinical work.

(2) Responsibility for enforcement of the hospital medical staff bylaws, rules and regulations, with special attention to those pertaining to the chief's department.

(3) Maintaining the integrity of the medical records in the department.

(4) Representing the department, in a medical advisory capacity, to the administration and governing body.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 11. QUALITY IMPROVEMENT

310:667-11-1. General

There shall be an ongoing, comprehensive quality improvement program, approved by the governing body, which shall identify problems in the facility, suggest solutions, and monitor results.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-11-2. Quality improvement plan

(a) A written quality improvement plan shall be developed, approved, and implemented by the governing body with advice from the medical staff.

The plan shall include but not be limited to the following:

(1) Methods of evaluating all patient services to assure quality of care, including those provided under contract.

(2) Methods of evaluating off-site health care organizations for appropriateness of use and the degree to which the services aid in the provision of quality patient care.

(3) Evaluation of all surgeries, inpatient and outpatient.

(b) The evaluation of nosocomial infections and accompanying medication therapy shall be linked to the hospital-wide quality improvement program through regular reporting by appropriate hospital committees and functions such as pharmacy and therapeutics, infection control, pharmaceutical services, etc.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-11-3. Quality improvement committee

A quality improvement committee (or its equivalent) shall meet at least quarterly to evaluate the quality of patient care and address problems identified by the various services. All organized hospital services shall report findings to the committee on at least a quarterly basis or more frequently if findings require immediate action by the committee.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-11-4. Quality improvement implementation

There shall be documentation that the hospital has taken action to address problems identified by hospital services. There shall be documentation that the hospital is monitoring the effectiveness of the proposed solutions.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-11-5. Communication

The facility shall establish mechanisms to communicate quarterly quality improvement summaries to the governing body and to the medical staff.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 13. INFECTION CONTROL

310:667-13-1. Infection control program

Each hospital shall establish an infection control program to provide a sanitary environment and avoid sources and transmission of infections. The program shall include written policies and procedures for identifying, reporting, evaluating and maintaining records of infections among patients and personnel, for ongoing review and evaluation of all aseptic, isolation and sanitation techniques employed in the hospital, and development and coordination of training programs in infection control for all hospital personnel.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-13-2. Infection control committee

The infection control committee (or its equivalent) shall meet at least quarterly. If central services are discussed such as the dietary service, employee health, engineering or maintenance, housekeeping, laundry, material management, surgical services, pharmacy, or laboratory, at least one individual with appropriate background who can speak for the relevant department(s) attends the meeting or is consulted.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-13-3. Policies and procedures review

(a) The infection control committee shall evaluate, revise as necessary, and approve the type and scope of surveillance activities utilized at least annually.

(b) Infection control policies and procedures shall be reviewed periodically and revised as necessary, based on current scientific knowledge, accepted practice guidelines, and applicable laws and regulations.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-13-4. Policies and procedures content

The policies and procedures outlined by the infection control program shall be approved by the infection control committee and contain at least the following:

- (1) A requirement that a record of all reported infections generated by surveillance activities include the identification and location of the patient, the date of admission, onset of infection, the type of infection, the cultures taken, the results when known, any antibiotics administered and the physicians and practitioners responsible for care of the patient.
- (2) Specific policies related to the handling and disposal of biomedical waste.
- (3) Specific policies and procedures related to admixture and drug reconstitution, and to the manufacture of intravenous and irrigating fluids.
- (4) Specific policies regarding the indications for and types of isolation to be used for each infectious disease. These policies shall incorporate the concepts of Standard Precautions and utilize the recommended transmission-based categories of Contact, Airborne, and Droplet isolation procedures where deemed appropriate by the medical staff.
- (5) A definition of nosocomial infection.
- (6) Designation of an infection control officer, who coordinates the infection control program.
- (7) A program of orientation of new employees and other workers, including physicians, and a program of continuing education for previously employed personnel concerning infection control. Written documentation shall be maintained indicating new employees have completed the program and that previously employed have attended continuing education.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-13-5. Universal birth dose hepatitis B vaccination

All Oklahoma birthing hospitals shall implement a procedure to ensure that the hepatitis B vaccination is administered to all live infants within twelve hours of birth and recorded in the Oklahoma State Immunization Information System. A parent or guardian may refuse hepatitis B vaccination of their newborn on the grounds of medical reasons or that such vaccination conflicts with their religious tenets or personal beliefs. A refusal based on medical reasons shall include a statement in the medical record by a physician stating that the physical condition of the newborn is such that the vaccination would endanger the life or health of the child and that the child should be exempt from the vaccination requirement. A refusal based on the parent's or guardian's religious tenets or personal beliefs shall be documented in the newborn's medical record.

[Source: Added at 29 Ok Reg 1603, eff 7-12-12]

SUBCHAPTER 15. NURSING SERVICE

310:667-15-1. General

The hospital shall have an organized nursing department. A registered nurse shall be on duty at all times, and registered nursing services shall be available for all patients at all times.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-2. Organization

There shall be an organized departmental plan of administrative authority with the delineation of responsibilities and duties of each category of nursing personnel.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-3. Registered nurse

(a) There shall be an adequate number of registered nurses to meet the following minimum staff requirements: director of the department; assistants to the director for evening and night services; supervisory and staff personnel for each department or nursing unit to insure the immediate availability of a registered nurse for bedside care of any patient when needed; and registered nurse on duty at all times and available on-site for all patients on a twenty-four (24) hour basis.

(b) The staffing pattern shall insure the availability of registered nursing care for all patients on a twenty-four (24) hour basis every day.

(c) If a licensed practical nurse or nurse aide is assigned care of patients who do not generally need skilled nursing care, there shall be a registered nurse supervisor who makes frequent rounds and is immediately available to give skilled nursing care when needed. This registered nurse shall be free to render bedside care and not be occupied in the operating room, delivery room, or emergency room for long periods of time.

(d) The ratio of registered nurses to patients and the ratio of registered nurses to other nursing personnel shall be adequate to provide proper supervision of patient care and staff performance, based on patient acuity.

(e) A registered nurse shall assign the nursing care of each patient to other nursing personnel in accordance with the patient's acuity and the nursing staff available.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-4. Other nursing personnel

There shall be other ancillary nursing personnel in sufficient numbers to provide nursing support as needed under the supervision of a registered nurse. The training and supervision of these personnel shall be appropriate for the duties assigned.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-5. Qualifications

(a) Individuals selected for the nursing staff shall be qualified by education and experience for the positions they are assigned.

(b) The director of nursing shall make recommendations regarding the selection and promotion of nursing personnel based on their qualifications and capabilities and recommend the termination of employment when necessary.

(c) The qualifications required for each category of nursing staff shall be in written policy and job descriptions and shall be available for review.

(d) The functions of nursing personnel shall be clearly defined in written policies and procedures.

(e) Verification of current licensure and credentials shall be maintained in the personnel files or department of nursing.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-6. Evaluation and review of nursing care

(a) There shall be a continuous review and evaluation of the nursing care provided for patients. There shall be written nursing care procedures and nursing care plans for patients.

(b) Nursing care policies and procedures shall be written and be consistent with current standards of practice and be reviewed and revised as necessary.

(c) A registered nurse shall assess, plan, supervise, and evaluate the nursing care for each patient.

(d) Nursing care plans shall include assessment, planning, intervention, and evaluation. Nursing care plans shall be established for each inpatient and be revised as necessary.

(e) Nursing notes shall be informative and descriptive of the nursing care given and include assessment, interventions, and evaluation.

(f) Only the following shall be permitted to administer medications, and in all instances, in accordance with state and federal law:

- (1) A licensed physician or licensed independent practitioner;
- (2) A registered nurse;
- (3) A licensed practical nurse; or
- (4) Other practitioners, if designated by the medical staff and authorized by law.
- (5) Facilities participating in a program for training nursing students may permit nursing students to administer medications to patients provided the facility has on file an agreement between the nursing school and the facility, outlining protocols for participation, scope of involvement, education levels of students, level of supervision, and a current roster of nursing students in the program. Specific details relating to the operation of the program shall be included in the facility's policies and procedures manual.

(g) All medical orders shall be signed by the prescribing physician or practitioner. Telephone or verbal orders for medications, treatments and tests shall be given only to the practitioner authorized by administration to receive these orders and be signed by the prescribing physician or practitioner. Other orders may be accepted by staff as designated by medical staff policy, consistent with state and federal laws. The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician.

(h) Telephone or verbal orders may be authenticated as described at OAC 310:667-19-2(c)(4).

(i) Blood product transfusions and intravenous medications shall be administered as required by written hospital policy in accordance with state and federal law. Hospital staff administering blood products or intravenous medications shall be trained regarding hospital policies before they are allowed to carry out these responsibilities.

(j) An effective hospital procedure shall be established for reporting transfusion reactions and adverse drug reactions.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 18 Ok Reg 2032, eff 6-11-01 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08 ; Amended at 30 Ok Reg 1966, eff 7-25-13]

310:667-15-7. Special-care units

(a) Areas providing specialized nursing care shall be well defined by policies and procedures specific to the nursing services such as intensive care, coronary care, obstetrics, nursery, emergency services, and renal units.

(b) Specific policies and procedures shall supplement basic hospital nursing policies and procedures for special-care units. Nursing policies and procedures of special-care units shall be in accordance with current standards of practice and shall include but not be limited to:

- (1) Protocol for resuscitation and disaster situations.

- (2) Immediate availability of emergency equipment and drugs.
 - (3) Appropriate and safe storage of pharmaceuticals and biologicals.
 - (4) Programs for maintenance and safe operation of all equipment.
 - (5) Appropriate infection-control measures.
 - (6) Control of visitors and nonessential personnel.
 - (7) Documentation of quality improvement.
- (c) Special-care unit nursing services shall be integrated with other hospital departments and services.
- (d) Supervision of nursing care in the unit shall be provided by a registered nurse with relevant education, training, experience, and demonstrated current competence.
- (e) All nursing personnel shall be prepared for their responsibilities in the special-care unit through orientation, ongoing inservice training, and continuing education programs. A planned, formal training program shall be required for registered nurses and licensed practical nurses and shall be of sufficient duration and substance to cover applicable patient care responsibilities in the specialcare unit.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-15-8. Patient physical restraint

- (a) Patients may be physically restrained only by order of a physician or licensed independent practitioner who has determined such restraint is required to prevent injury to the patient or others or prevent serious disruption in the therapeutic environment. Orders for physical restraint shall include a statement of reason for the restraint and specify which approved facility methods and devices shall be used. Alternative measures to the use of physical restraints shall be evaluated prior to their use. Physical restraints shall not be imposed for discipline or convenience purposes.
- (b) Emergency physical restraint to ensure the physical safety of the patient, staff, or other patients may be initiated by a registered nurse who obtains written or verbal consent from a physician or licensed independent practitioner within a time-frame specified by written facility policy. Verbal physical restraint orders shall be signed by the physician or licensed independent practitioner as soon as possible within twenty-four (24) hours. Physical restraint orders shall automatically terminate as specified by facility policy, or sooner as warranted by the patient's condition. If physical restraint is to continue past the time-frame specified by facility policy, a new order shall be obtained from a physician or licensed independent practitioner.
- (c) Patients may be restrained only in accordance with documented specific policies established by the medical staff and the governing body. These policies shall include circumstances in which restraint is appropriate and specific techniques and devices that shall be used for restraint.
- (d) Physically restrained patients shall be monitored as required by facility policy and justification for continued restraint shall be

documented. A physically restrained patient shall have restraint devices released at time-frames specified by facility policy; and the patient shall be repositioned, exercised, or provided range of motion and toileted as necessary.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-15-9. Patient chemical restraint

(a) Patients may be chemically restrained only by order of a physician or licensed independent practitioner who has determined that the chemical restraint is required to prevent injury to the patient or others or prevent serious disruption in the therapeutic environment. Alternative measures to the use of the chemical restraint shall be evaluated prior to their use. Chemical restraint shall not be imposed for discipline or convenience purposes.

(b) Orders for medications used in chemical restraint shall specify the duration and frequency of administration and shall comply with specific stop order policies established by the medical staff for medications used for these purposes.

(c) Patients who are chemically restrained shall be continuously monitored to ensure that side effects are observed and reported to the attending physician or licensed independent practitioner. Monitoring observations and reports to physicians and licensed independent practitioners shall be documented.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 17. FOOD AND NUTRITIONAL SERVICES

310:667-17-1. Organization

(a) The clinical nutritional services shall be under the supervision and direction of a licensed/registered dietitian on a full-time or consultant basis. The number of dietitians shall be adequate to supervise or direct the nutritional aspects of patient care and services, considering the size, scope, and complexity of the needs of the patient.

(1) The licensed/registered dietitian shall be responsible for approval of menus, including modified diets, review of clinical policies and procedures, evaluation of the nutritional services and staff education in continuing education programs.

(2) The licensed/registered dietitian shall provide for patient/family counseling on modified diets as needed, any required nutritional assessments, and development of clinical policies and procedures.

(3) If the licensed/registered dietitian is employed on a part-time or consultant basis, a designee for clinical aspects of patient care shall be a certified dietary manager or a registered dietary

technician.

(4) The licensed/registered dietitian or designee shall enter nutritional status information into the medical record.

(5) Part-time and consultant licensed/registered dietitians shall prepare written reports concerning all services rendered.

(b) The food and nutrition services manager may or may not be a licensed/registered dietitian. If the manager is not a licensed/registered dietitian, the manager is only responsible for administrative management and does not direct clinical nutritional activities.

(c) Personnel shall be adequate in number and training to carry out the preparation and serving of foods and other related functions with the proper and necessary sanitary procedures. The food service staff shall complete a basic orientation program before working in the food service area. This orientation shall include, but not be limited to, basic dietary guidelines, infection control including food safety, and fire and safety precautions.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-17-2. Services and facilities

(a) **Equipment.** Equipment used in the preparation and handling of food in hospitals shall bear the seal of the National Sanitation Foundation (NSF) or comply with the requirements of the NSF (Rules and Regulations Pertaining to Food Establishments).

(b) **Nourishment room.** A room accessible to nursing staff shall be provided for the preparation and serving of light refreshments, equipped with equipment for warming food, refrigerator, and lavatory. This room may serve as the location for an ice machine.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-17-3. Diets and menus

(a) At least three (3) palatable meals or their equivalent shall be served daily, at regular times with not more than fifteen (15) hours between a substantial evening meal and breakfast. Menus shall be planned and followed to meet nutritional needs of patients, in accordance with physicians' or licensed independent practitioners' orders and to the extent medically possible, in accordance with the Dietary Reference Intakes (DRIs) of the Food and Nutrition Board of the Institute of Medicine, National Academy of Sciences.

(b) Diets shall be prescribed by the physician or licensed independent practitioner responsible for the care of the patient. All modified diets shall be prescribed by the patient's physician or licensed independent practitioner according to the latest edition of the Oklahoma Diet Manual or other equivalent approved diet manual. The Oklahoma Diet Manual or other equivalent manual shall be approved by the licensed/registered dietitian and medical staff and shall be available to all medical, nursing, and food service personnel.

(c) Nourishments shall be available and may be offered at anytime in accordance with approved diet orders.

- (d) Menus covering all prescribed diets shall be approved, dated, and periodically reviewed by a licensed/registered dietitian.
- (1) Modified diet orders not covered with an approved menu shall be planned in writing, reviewed, and approved by the licensed/registered dietitian or designee with consultation by the licensed/registered dietitian.
- (2) All modified diets shall be efficiently served under the general supervision of a licensed/registered dietitian, a certified dietary manager, or a registered dietary technician.
- (e) The portioning of menu servings shall be accomplished with the use of portion-control serving utensils.
- (f) All modified diets shall be prepared separately, as necessary, from regular diets.
- (g) An identification system shall be established to assure that each patient receives their prescribed diet as ordered.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-17-4. Food preparation and storage

- (a) Potentially hazardous food, as defined in Chapter 257 of this Title, shall be maintained at one hundred-forty (140) °F (approximately 60 °C) or above or at an internal temperature of forty-one ° F (approximately 5 °C) or below. A product thermometer shall be available (metal stem-type numerically scaled indicating temperature, accurate to plus or minus two (2) °F and used to check internal food temperatures).
- (b) Milk and milk products shall be served, handled and stored in accordance with the requirements of Chapter 257 of this Title.
- (c) All ice which is in contact with food or drink shall come from a source approved by the Department, including storage, transportation, handling, and dispensing, which shall be in a sanitary manner, approved by the Department in accordance with Chapter 257 of this Title.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 24 Ok Reg 2018, eff 6-25-07]

310:667-17-5. Sanitation

- (a) The food and nutritional services shall be inspected and approved by state or local health agencies and licensed as a Food Service Establishment. Written reports of the inspection; e.g., Food Establishments Inspection Report Forms, shall be on file at the hospital with notations made by the hospital of action taken to correct violations.
- (b) Storage, preparation, and serving of food shall be in compliance with the requirements of Chapter 257 of this Title, including adequate and proper space for each activity.
- (c) The system to be used for dishwashing shall be approved by the Department and operated in accordance with approved procedures and requirements of Chapter 257 of this Title.
- (d) Garbage and refuse shall be kept in durable, easily cleanable, insect-proof and rodent-proof containers that do not leak and do not absorb liquids. Adequate carriers and containers shall be provided for the

collection and transportation, in a sanitary manner, of garbage and refuse from food service areas of the hospital to the place of disposal in accordance with the requirements of Chapter 257 of this Title.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 24 Ok Reg 2018, eff 6-25-07]

SUBCHAPTER 19. MEDICAL RECORDS DEPARTMENT

310:667-19-1. General

The hospital shall have a medical records department with administrative responsibility for medical records. A medical record shall be maintained, in accordance with accepted professional principles, for every patient receiving care in the facility.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-2. Reports and records

(a) Reports shall be made by each hospital to the appropriate agency, including but not limited to the following:

- (1) Communicable disease.
- (2) Births and deaths.
- (3) Periodic reports to the Department on forms supplied for this purpose.
- (4) Newborn hearing screening. The hospital shall proceed pursuant to 310:540-1-3 (relating to newborn hearing screening).
- (5) Newborn metabolic disorder screening.
 - (A) **Testing of newborns.** The hospital shall proceed pursuant to 310:550-3-1 (relating to newborn metabolic disorder screening).
 - (B) **Blood specimen collection for hospital births.** The hospital shall proceed pursuant to 310:550-5-1 (relating to newborn metabolic disorder screening).
 - (C) **Pulse oximetry screening for birthing hospitals.** The hospital shall proceed pursuant to 310:550-5-2 (relating to pulse oximetry screening).
 - (D) **Screening for premature/sick infants.** The hospital shall proceed to 310:550-5-1 (relating to newborn metabolic disorder screening).
 - (E) **Newborn screening hospital recording.** The hospital shall proceed pursuant to 310:550-7-1 (relating to newborn metabolic disorder screening).
 - (F) **Pulse oximetry screening hospital recording.** The hospital shall proceed pursuant to 310:550-7-1 (relating to newborn pulse oximetry screening).
 - (G) **Parent, guardian and health care provider education.** The hospital shall proceed pursuant to 310:550-13-1 (relating to newborn disorder screening).

(H) **Training.** The hospital shall proceed pursuant to 310:550-13-1 (relating to newborn disorder screening).

(6) **Birth defects.** Each hospital shall have the capability of producing a list of patients up to six (6) years of age who have been diagnosed with a birth defect(s), and all women discharged with a diagnosis of stillbirth, miscarriage, or poor reproductive outcome. On request, each hospital shall make the medical records of these individuals available to the State Department of Health.

(7) **Abortions.** Attending physicians shall complete and submit to the Department a report form for each abortion performed or induced as required by 63 O.S. 1999, Section 1-738.

(b) **Record of patient admission.**

(1) All persons admitted to any institution covered by these standards shall be under the care of a doctor of medicine (M.D.) or osteopathy (D.O.) duly licensed to practice medicine and surgery in the State of Oklahoma or a licensed independent practitioner, whose name shall be shown on the admitting record.

(2) The hospital admitting record also shall show the following for each patient.

(A) Full name of patient with age, sex, address, marital status, birth date, home phone number, date of admission, and admitting diagnosis.

(B) Next of kin, with address, phone number, and relationship.

(C) Date and time of admission, the admission and final diagnoses, and the name of physician or licensed independent practitioner.

(D) Any advanced directive for health care as defined in the Oklahoma Rights of the Terminally Ill or Persistently Unconscious Act.

(3) Special clinical reports shall be kept, including the following:

(A) Obstetrical patients throughout labor, delivery, and post-partum.

(B) Newborn, giving the infant's weight, length, and other notes relative to physical examination.

(C) Surgical and operative procedures, including pathological reports.

(D) Record of anesthesia administration.

(c) **Orders for medications, treatments, and tests.**

(1) All medication orders shall be written in ink and signed by the ordering physician or practitioner authorized by law to order the medication, with the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physician- approved hospital policy after an assessment for contraindications. The order shall be preserved on the patient's chart.

(2) All orders shall be written in ink and signed by the ordering physician or practitioner. Orders received by resident physicians shall be co-signed if required by medical staff bylaws. The order shall be preserved on the patient's chart.

(3) All orders taken from the physician or practitioner, for entry by persons other than the physician or practitioner, shall be countersigned.

(4) Telephone or verbal orders may be authenticated by an authorized physician or practitioner other than the ordering physician or practitioner when this practice is defined and approved in the medical staff bylaws. If allowed, medical staff bylaws must identify the physicians or practitioners who may authenticate another physician's or practitioner's telephone or verbal order, e.g. physician partners or attending physicians or practitioners, and define the circumstances under which this practice is allowed. The bylaws must also specify that when a covering or attending physician or practitioner authenticates the ordering physician's or practitioner's telephone or verbal order, such an authentication indicates that the covering or attending physician or practitioner assumes responsibility for his or her colleague's order and verifies the order is complete, accurate, appropriate, and final. The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 18 Ok Reg 2032, eff 6-11-01 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08 ; Amended at 30 Ok Reg 1966, eff 7-25-13 ; Amended at 31 Ok Reg 1619, eff 9-12-14 ; Amended at 36 Ok Reg 1730, eff 9-13-19 ; Amended at 38 Ok Reg 2066, eff 9-11-21]

310:667-19-3. Maintenance

(a) A medical record shall be maintained for every patient admitted for care in the hospital. Such records shall be kept confidential.

(b) Only authorized personnel shall have access to the record.

(c) Written consent of the patient shall be presented as authority for release for medical information unless this release is otherwise authorized by law.

(d) Medical records generally shall not be removed from the control of the hospital except upon court order or as authorized by law. Department staff shall be authorized to obtain copies or review any medical record to assure compliance with these rules or other parts of this Title. Information from medical records used by the Department for regulatory purposes shall not disclose individual patient names.

(e) Any person who is or has been a patient of a physician or licensed independent practitioner, hospital, or other medical facility shall be entitled to obtain access to the information contained in all his or her medical records upon request. This request for medical information shall include minors when such request is made by the parent or legal guardian. Copies of all medical records shall be furnished pertaining to his or her case upon the tender of the expense of such copy or copies. There is an exception to the general rule that a patient has an absolute

right to the information in or a copy of his or her medical record. Oklahoma law provides *...that this entitlement to medical records shall not apply to psychiatric records* {76 O.S. 1991, §19}.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-4. Personnel

Qualified personnel adequate to supervise and conduct the activities of the medical records department shall be provided.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-19-5. Identification and filing

(a) A system of identification and filing to insure the prompt location of a patient's medical record shall be maintained.

(b) A system of retrieval bearing at least the full name of the patient, the address, the birth date, and the medical record number shall be available.

(c) Filing equipment and space shall be adequate to house the records and facilitate retrieval and ensure an environment secure from unauthorized individuals.

(d) A unit record shall be maintained so that both inpatient and outpatient treatments are in one folder. Records maintained in an electronic format will be considered a unit record if they are retrievable by a single patient identifier and immediately available for review by physicians, practitioners and patient care staff.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-6. Centralization of reports

(a) All clinical information pertaining to a patient's stay shall be centralized in the patient's record.

(b) The original of all reports shall be filed in the medical record.

(c) All reports or records shall be completed and filed within a period consistent with good medical practice and not longer than thirty (30) days following discharge.

(d) A report or record requiring a physician or licensed independent practitioner signature is not considered complete until signed by the physician or licensed independent practitioner.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-7. Indices

(a) Records shall be indexed according to disease, operation, and physician or licensed independent practitioner and kept up-to-date. For indexing, any recognized system may be used. The factors explaining the standard are as follows:

- (1) As additional indices become appropriate due to advances in medicine, their use shall be adopted.
 - (2) The index list for a specific disease or operation, according to a recognized nomenclature, shall include all essential data on each patient having that particular condition. "Essential data" shall include at least the medical record number of the patient so that the record may be located. All conditions for which the patient is treated during the hospitalization shall be so indexed.
 - (3) Diagnoses and operations shall be expressed in terminology which describes the morbid condition as to site and etiological factors or the method of procedure.
- (b) Indexing shall be current within sixty (60) days following discharge of the patient.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-8. Content

- (a) The medical record shall contain sufficient information to justify the diagnosis and warrant the treatment provided. The medical record shall contain the following information:
- (1) Identification data. Identification data shall include at least the patient's name, address, age and date of birth, sex, and marital status.
 - (2) Date of admission.
 - (3) Date of discharge.
 - (4) Chief complaint. The chief complaint shall consist of a concise statement describing the reason the patient is seeking medical attention.
 - (5) History of present illness. The history of the present illness shall include a detailed description of the patient's symptoms including:
 - (A) Location of pain;
 - (B) Quality of pain and symptoms;
 - (C) Severity;
 - (D) Timing;
 - (E) Duration;
 - (F) Modifying factors, i.e., things that worsen or alleviate symptoms; and
 - (G) Associated signs and symptoms.
 - (6) Past history. The past history shall include all previous illnesses and previous surgical procedures.
 - (7) Medication history. The medication history shall list all current medications and all known drug reactions/allergies.
 - (8) Social history. The social history shall include a description of the patient's social setting and use of tobacco and/or alcohol, illicit drugs, and work history.
 - (9) Family history. The family history shall include a description of the state of health of living first-degree relatives, and causes of death of first-degree relatives.

(10) Review of systems. Elements of the review of systems shall include:

- (A) General overall condition (fever, weight loss, stamina, etc.);
- (B) Head, eyes, ears, nose, throat;
- (C) Cardiovascular;
- (D) Respiratory;
- (E) Breasts;
- (F) Gastrointestinal;
- (G) Genitourinary;
- (H) Musculoskeletal;
- (I) Skin and lymphatics;
- (J) Neurological;
- (K) Psychiatric;
- (L) Hematologic;
- (M) Allergic; and
- (N) Immunologic.

(11) Physical examination. The physical examination shall include a record of the patient's vital signs at the time of the examination including height, weight, blood pressure, temperature, pulse rate, and respiratory rate. Negative findings for a system may be indicated in the record of the physical examination by the lack of an entry for that system. If the hospital allows negative findings for a system on physical examination to be documented by omission of an entry for that system, medical records policies and procedures shall specify whether the omission of an entry signifies the system was examined and no significant findings were noted or that no examination of that system was performed. Specific abnormal or pertinent negative findings of the examination of the affected or symptomatic body area(s) must be documented in regards to the following areas:

- (A) Head, eyes, ears, nose, and throat;
- (B) Neck;
- (C) Chest, including lungs, breasts, and axilla;
- (D) Cardiovascular, including peripheral pulses, and examination of abdominal aorta;
- (E) Abdomen;
- (F) Genitourinary;
- (G) Hematologic and Immunologic;
- (H) Musculoskeletal;
- (I) Neurological;
- (J) Psychiatric; and
- (K) Skin and lymphatics.

(12) Provisional diagnosis which shall be an impression (diagnosis) reflecting the examining physician's or licensed independent practitioner's evaluation of the patient's condition and shall be based mainly upon physical findings and history.

(13) Special examinations, if any, such as clinical laboratory reports, diagnostic imaging studies, consultation reports, etc. Consultation reports shall be a written opinion and shall be signed by the consultant, including his or her findings from the

history and physical examination of the patient.

(14) Treatment and medication orders.

(15) Diagnostic and medical procedure reports.

(16) Surgical records including anesthesia record, preoperative diagnosis, operative procedure and findings, postoperative diagnosis, and tissue diagnosis on all specimens examined. Tissue reports shall include a report of microscopic findings if hospital regulations require that microscopic examination be done. If only gross examination is warranted, a statement that the tissue has been received and a gross description shall be made by the laboratory and filed in the medical record.

(17) Progress and nursing notes shall give a chronological picture of the patient's progress and shall be sufficient to delineate the course and results of treatment. The condition of the patient shall determine the frequency with which they are made.

(18) Record of temperature, pulse, respiration, and blood pressure.

(19) Definitive final diagnosis expressed in terminology of a recognized system of disease nomenclature.

(20) Discharge Summary that shall be a recapitulation of the significant findings and events of the patient's hospitalization and condition upon discharge, including prescribed medications at time of discharge.

(21) Autopsy findings in a complete protocol shall be filed in the record when an autopsy is performed.

(b) Facsimile copies shall be acceptable as any portion of the medical record. If the facsimile is transmitted on thermal paper, that paper shall be photocopied to preserve its integrity in the record. Facsimile copies shall be considered the same as original copies.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-9. Authorship

Documentation of services shall be in accordance with The Centers of Medicare and Medicaid Services, Medicare Claims Processing Manual, Revision 4173, published November 30, 2018, incorporated herein by reference.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 36 Ok Reg 1730, eff 9-13-19]

310:667-19-10. Signature

(a) Records shall be authenticated and signed by a physician or licensed independent practitioner.

(b) Every physician or practitioner shall authenticate the entries which he or she makes except as allowed at OAC 310:667-19-2(c)(4) and OAC 310:667-19-10(e).

(c) A single signature on the face sheet of the record shall not suffice to authenticate the entire record.

(d) Rubber stamp signatures may be used in any place in the medical record that requires a signature, provided signature identification can be verified. Authentication of reports by physicians or practitioners shall not take place prior to review of the final report by the physician or practitioner. Facilities allowing physicians and practitioners to use signature stamps to authenticate entries in the medical record shall have on file a signed statement from each such physician or practitioner that they have jurisdiction over the stamp. The use of signature stamps shall be approved in writing by the hospital administrator and medical records committee (or equivalent).

(e) Reports of history and physical examinations and discharge summaries may be authenticated by an authorized physician or practitioner other than the physician or practitioner who performed the examination or produced the summary when this practice is defined and approved in the medical staff bylaws or rules and regulations. If allowed, medical staff bylaws or rules and regulations must identify the physicians or practitioners who may authenticate another physician's or practitioner's report of history and physical examination or discharge summary, e.g. physician partners or attending physicians or practitioners, and define the circumstances under which this practice is allowed. The bylaws or rules and regulations must also specify that when a covering or attending physician or practitioner authenticates another physician's or practitioner's report of history and physical examination or discharge summary, such an authentication indicates that the covering or attending physician or practitioner assumes responsibility for his or her colleague's report or summary and verifies the document is complete, accurate, and final.

(f) Electronic or computerized signatures may be used any place in the medical record that requires a signature, provided signature identification can be verified. Computerized authorization shall be limited to a unique identifier (confidential code) used only by the individual making the entry. Authentication of reports by physicians or practitioners shall not take place prior to review of the final report by the physician or practitioner. Electronic or computerized signature shall be the full, legal name of physician or practitioner and include the professional title. The use of computerized or electronic signatures shall be approved in writing by the hospital administrator and medical records committee (or equivalent). Each physician or practitioner using an electronic or computerized signature shall sign and file a statement in the hospital administrator's office which states that:

- (1) The physician or practitioner shall use an electronic or computer generated signature to authenticate his entries in the medical record;
- (2) The signature shall be generated by a confidential code which only the physician or practitioner possesses;
- (3) No person other than the physician or practitioner shall be permitted to use the signature.

310:667-19-11. Emergency medical records

(a) Complete medical records shall be kept on every patient seen and/or treated in the emergency room and shall contain as a minimum the following:

- (1) Patient identification.
- (2) Time and means of arrival.
- (3) History of disease or injury.
- (4) Physical findings.
- (5) Laboratory and x-ray reports, if any.
- (6) Diagnosis and therapeutic orders.
- (7) Record of treatment, including vital signs.
- (8) Disposition of the case.
- (9) Signature of the registered nurse.
- (10) Signature of the licensed independent practitioner, if applicable.
- (11) Signature of the physician, if applicable.
- (12) Documentation if patient left against medical advice.

(b) Medical records for patients seen and/or treated in the emergency room shall be organized and filed by the medical records department.

(c) Where appropriate, medical records of emergency services shall be integrated with those of the inpatient and outpatient services.

(d) Emergency medical records shall be kept, as a minimum, as required by state and federal statutes.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-12. Outpatient medical records

(a) Outpatient medical records shall be maintained and correlated with other hospital medical records.

(b) The outpatient medical record shall be filed in a location which ensures accessibility to the physicians and licensed independent practitioners, nurses, and other personnel of the department.

(c) The outpatient medical record shall be integrated with the patient's overall hospital record.

(d) Information contained in the medical record shall be complete and sufficiently detailed relative to the patient's history, physical examination, laboratory and other diagnostic tests, diagnosis, and treatment to facilitate continuity of care.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-19-13. Promptness of record completion

(a) Current records and those on discharged patients shall be completed promptly.

(b) All dictated reports shall include the date of dictation and the date of transcription.

(c) Medical record transcription shall be timely. Current records; e.g. progress notes, consultation reports, operative notes, radiology reports,

shall be transcribed and available for review in the medical record within forty-eight (48) hours of dictation.

(d) History and physical examinations shall be completed, signed, and placed in the medical record within forty-eight (48) hours following admission or not more than thirty (30) days prior to admission.

(e) When the medical history and physical examination are completed within thirty (30) days before admission, the hospital must ensure that an updated medical record entry documenting an examination for any changes in the patient's condition is completed. A timely review of the prior history and physical examination or an updated examination must be completed and documented in the patient's medical record within forty-eight (48) hours.

(f) Records of patients discharged shall be completed within thirty (30) days following discharge.

(g) If a patient is readmitted within thirty (30) days for the same condition, reference to the previous history and physical examination with an interval note shall suffice.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08]

310:667-19-14. Retention and preservation of records

(a) **State retention requirements.** Medical records shall be retained a minimum of five (5) years beyond the date the patient was last seen or a minimum of three (3) years beyond the date of the patient's death. Records of newborns or minors shall be retained three (3) years past the age of majority.

(b) **Preservation of records.**

(1) Hospitals may microfilm, put on optical disk, or adopt similar recording technology to record the medical records and destroy the original record in order to conserve space.

(2) Records reconstituted from the technology employed to conserve space shall be considered the same as the original and the retention of the technically retained record constitutes compliance with preservation laws.

(3) The minimum contents of a medical record to be recorded shall be as required by OAC 310:667-19-8.

(4) In the event of closure of a hospital, the hospital shall inform the Department of the disposition of the records. Disposition shall be in a manner to protect the integrity of the information contained in the medical record. These records shall be retained and disposed of in a manner consistent with the statute of limitations.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 21. DRUG DISTRIBUTION

310:667-21-1. General

(a) **Distribution of Drugs.** Every hospital shall provide routine and emergency drugs and biologicals in a safe and accurate manner to meet the needs of its patients, through an organized pharmacy directed by a pharmacist or a drug room under the supervision of a consultant pharmacist. Hospitals not having a licensed pharmacy shall have a drug room supervisor under the direction of a consultant pharmacist.

(b) **Scope of services.** Each hospital shall have drug and medication services commensurate with the size of the hospital and scope of services offered.

(c) **Organization.** An organizational chart shall be provided to display the distinct function of the pharmacy department in the hospital.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-21-2. Personnel

(a) **Pharmacist director or consultant.** The pharmacist director or consultant shall be responsible for all drugs that come into the hospital. The pharmacist shall be trained in the specialized functions of hospital pharmacy and be responsible to the administrator for developing, supervising, and coordinating all activities of the pharmacy or drug room, whether on a full-time or consultant basis. The consultant pharmacist shall visit the hospital a minimum of fifty-two (52) times per year, with no more than five (5) visits in any one month counted toward this total, and shall submit a report outlining issues encountered and decisions made during the visit. The responsibility and authority of the pharmacist shall be clearly defined in a written job description. The responsibilities include but are not limited to:

- (1) Establishes and implements intradepartmental and interdepartmental written policies and procedures regarding methods of reconciliation and control of drugs, including audit trails governing all areas of pharmaceutical services. These policies and procedures shall be in compliance with local, state, and federal laws and current professional principles and practices.
- (2) Establishes liaison with the administrator and the chief of the medical staff regarding written policies and procedures and their interaction and interdependency with the requirements of the medical staff bylaws and rules and regulations, the governing body rules and regulations, and administrative interdepartmental policies.
- (3) Employs an adequate number of pharmacists and other personnel, as required by department activities and services to implement pharmaceutical services.
- (4) Provides drug information services to physicians and licensed independent practitioners, dentists, nurses, and other health care staff.
- (5) Provides poison information services to physicians and licensed independent practitioners, dentists, nurses, and other health care staff.

(6) Provides inservice training to physicians and licensed independent practitioners, nurses, pharmacy staff, and other personnel as applicable.

(7) Provides documentation that orientation and staff-development training are provided to pharmacy personnel.

Documentation shall include but not be limited to:

(A) Formal orientation of new personnel to written policies of the department.

(B) Inservice education and staff development.

(C) Specialized training in admixture service.

(D) Outline of program content.

(E) Signatures of staff attending with title.

(8) Provides records of tax-free alcohol, investigational drugs, and controlled dangerous drug substances, as required by local, state, and federal laws, rules and regulations.

(9) Provides reviews of patient drug orders and requisitions to avoid possible errors in medication administration.

(10) Maintains a stock of drugs, as agreed in the formulary or drug list, for daily and emergency use.

(11) Develops quality assurance methods to determine that the activities of the department are within the interdepartmental and intradepartmental policies and procedures.

(12) Reports all deficiencies identified through quality assurance methods and the methods of correction of deficiencies to the chief executive officer, the departmental chief, and/or the pharmacy and therapeutics committee.

(13) Provides reports of all visits by the consulting pharmacist. The reports include documentation of consultation with the administrator or the administrator's designee. A copy of the consultant's visit reports shall be retained in the drug room.

(14) Make copies of current policies and procedures available to all appropriate personnel.

(15) Provides an agreement with other licensed pharmacists for provision of outside pharmacy services in case of emergency.

(b) **Pharmacist.** The pharmacist shall provide drugs in conformance with ordering physicians' or practitioners' orders, departmental policy, medical staff bylaws, and local, state, and federal rules and regulations and in accordance with current professional principles and practices. Proof of current licensure shall be available for all pharmacists. Pharmacists who serve as preceptors shall provide the approved preceptorship permit.

(c) **Drug room supervisor.** The drug room supervisor shall be a registered pharmacist, registered nurse, or a licensed practical nurse, who shall assist the pharmacist in procuring, receiving, storage, distribution, record keeping, and disposition of drug products and medications. The drug room supervisor shall be designated in writing by the consultant pharmacist and the administrator. All dispensing, compounding, labeling, and repackaging of drugs products shall be under the direct supervision of the pharmacist. The qualifications and duties of the drug room supervisor shall be provided in a written job description.

(d) **Other pharmacy staff.** Written job descriptions shall be available and a staff orientation, development, and inservice training program shall be provided to acquaint the staff of the requirements and limitation of their functions in the pharmacy.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-21-3. Supervision of pharmacy services

(a) At least one (1) pharmacist or drug room supervisor shall be assigned to the pharmacy or drug room during standard operating hours.

(b) Consultant pharmacist services shall be used when a staff pharmacist is not available.

(c) Consultant pharmacist services shall be provided in accordance with a written job description and a written agreement, which shall discuss the duties and responsibilities of the pharmacist, the terms of the agreement, be signed by both parties, and be dated.

(d) If the hospital maintains a drug room, only the functions of storage and distribution of properly packaged and labeled drugs may be performed by the drug room supervisor within the hospital. Drug products requiring repackaging and labeling shall be dispensed by a qualified pharmacist.

(e) The prescriber's original order or a copy shall be made available to the pharmacy or drug room prior to distributing or dispensing drugs and medications.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-21-4. Delivery of service

(a) Records shall be maintained of the transactions of the pharmacy (or drug room) to account for the receipt, distribution, disposition, and destruction of drugs and biologicals.

(b) A record of the stock of controlled dangerous drug substances on hand shall be maintained and the record shall be maintained in such a manner that the disposition of any particular item may be readily traced.

(c) Methods shall be provided of reconciliation of drugs distributed to the nurses station for administration to a patient.

(d) Floor stock shall be controlled. Distribution shall be in accordance with the floor stock drug list. A method shall be provided of reconciliation of floor stock drugs distributed for use in a procedure or for a particular patient.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-21-5. Physical facilities of pharmacy

(a) Facilities shall be provided for the storage, safeguarding, preparation and dispensing of drugs.

(b) The drug preparation area shall be clean, well lighted, and of sufficient size to ensure the safe preparation of drugs for administration.

- (c) The drug preparation areas shall be located so that the person preparing the drugs shall not be disturbed.
- (d) All drug storage areas shall be properly ventilated with appropriate humidity and temperature to eliminate drug deterioration.
- (e) Suitable sinks with hot and cold water, toileting, and handwashing facilities shall be available to the pharmacy/drug room.
- (f) Equipment and supplies shall be provided to adequately protect the personnel from toxic substances, including antineoplastic medications, and disposal of waste products in conjunction with local, federal and state laws.
- (g) Equipment, facilities, and floor space shall be provided for the preparation, storage, safeguarding, compounding, record keeping, packaging, distribution, dispensing, and methods of administration of drugs and biologicals.
- (h) Space, equipment, and facilities shall be available for the operation, record keeping, planning, training, administrative management, and facilitation of pharmacy services.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-21-6. Drug-information services

- (a) The hospital shall assure that current information on drugs and drug interactions is available to physicians, practitioners, nurses, and other health-care staff. The system for communicating drug information shall be appropriate for the size, scope, and complexity of the hospital.
- (b) Suitable, current, library of drug reference materials, books, journals, and teaching aids in hard copy or electronic format shall be available for drug information reference by pharmacy services and physicians and practitioners.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-21-7. Access to pharmacy or drug room

- (a) All drugs and biologicals shall be kept in a secure area. Drugs listed in Schedules II, III, IV, and V of the Comprehensive Drug Abuse and Control Act of 1970 must be kept locked within a secure area.
- (b) Provisions shall be made for obtaining drugs after the pharmacy or drug room is closed. The procedure shall specify the personnel permitted access to the drug storage area, method of maintaining drug control, and inventory and methods of record keeping of drugs and biologicals removed. Access to the drug room/pharmacy shall be restricted to authorized individuals.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08]

310:667-21-8. Drug handling

- (a) Drugs shall be given to hospital patients only upon written order of a physician or practitioner legally authorized to write a prescription, with the exception of influenza and pneumococcal polysaccharide vaccines,

which may be administered per physician-approved hospital policy after an assessment for contraindications. No change in an order shall be made without the approval of the prescriber. Telephone or verbal orders are discouraged but, when necessary, shall be written by an authorized employee and signed by the person legally authorized to write a prescription or meet the requirements at OAC 310:667-19-2(c)(4). The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician.

(b) Single use units of controlled substances shall be used in the hospital except in the pharmacy where multiple dose vials may be used for IV admixtures.

(c) All Schedule drugs in the hospital, except those in the pharmacy, shall be verified by actual count at the change of shift by two (2) licensed nurses and documented. Schedule drugs outside the pharmacy which are contained in, and controlled by, an automated dispensing device may be verified by actual count at the time of each access and documented. Adequate day-to-day accountability-of-use records shall be maintained and shall include the date and time of each check of a schedule drug substance supply, the balance on hand, the names of patients receiving drugs, the physician's or prescribing practitioner's name, quantity of medication used and wasted, and the signatures of the two persons making the check. Wastage of schedule drugs shall be witnessed by at least two (2) persons, one (1) of which shall be a licensed health professional. Witnesses shall document wastage by signature.

(d) The medical staff shall establish a written policy that all toxic or dangerous drugs not specifically prescribed as to time or number of doses shall be automatically stopped after a reasonable time limit set by the staff. Examples of drugs ordinarily thought of as toxic or dangerous drugs include: controlled substances, sedatives, anticoagulants, antibiotics, oxytocics, and steroids.

(e) The administrator, or his or her authorized representative, shall inventory pharmacy controlled substances and alcohol at least annually.

(f) Drugs past the date of expiration shall be removed from stock and shall not be available for patient use.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 18 Ok Reg 2032, eff 6-11-01 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08 ; Amended at 30 Ok Reg 1966, eff 7-25-13]

SUBCHAPTER 23. DIAGNOSTIC AND TREATMENT SERVICES

310:667-23-1. General

The hospital shall have diagnostic and treatment services available to patients, either on site or by arrangement. Each service shall have

written policies and procedures including, but not limited to, the following:

- (1) A job description for every type of employee in the service.
- (2) A written list of procedures performed by the service that is available to the active staff physicians and practitioners.
- (3) Procedure for orientation of each new employee into the service.
- (4) Infection control procedures specific to the service.
- (5) Hospital safety plan.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-23-2. Radiological, computerized tomography, magnetic resonance imaging services

(a) **Radiology.** The hospital shall maintain or have available radiological services according to needs of the hospital.

(1) **Hazards for patients and personnel.**

(A) The radiological department shall be free of health and safety hazards for patients and personnel.

(B) Proper safety precautions shall be maintained against fire and explosion hazards, electrical hazards, and radiation hazards.

(C) Inspection of x-ray equipment shall be made once every two (2) years by a certified health physicist or members of the Diagnostic x-ray section of the Department, and hazards so identified shall be promptly corrected.

(D) The hospital shall identify those employees who are subject to significant occupational exposure to radiation while performing their job duties. All such workers shall be checked periodically for amounts of radiation exposure by the use of exposure meters or badge tests.

(E) With fluoroscopes, attention shall be paid to modern safety design and good operating procedures; records shall be maintained for the output of all fluoroscopes.

(F) Regulations based upon medical staff recommendations shall be established as to the administration of the application and removal of radium element, its disintegration products, and other radioactive isotopes.

(G) If mammography is performed at the facility, the facility shall have a current certificate from the Food and Drug Administration as required by the Mammography Quality Standards Act.

(2) **Personnel.**

(A) Personnel adequate to supervise and conduct the services shall be provided, and the interpretation of radiological examinations shall be made by physicians or licensed independent practitioners competent in the field according to individually granted clinical privileges.

(B) The hospital shall have a qualified radiologist, either full-time, part-time or on a consulting basis, both to supervise the department and to interpret films and studies that require specialized knowledge for accurate reading.

(C) If the activities of the radiology department extend to radiotherapy, the physician in charge shall be appropriately qualified.

(D) The amount of qualified radiologist and technologist time shall be sufficient to meet the hospital's requirements. A technologist shall be on duty or on call at all times.

(E) The use of all x-ray apparatus shall be limited to personnel designated as qualified by the radiologist or by an appropriately constituted committee of the medical staff. The same limitation shall apply to personnel applying and removing radium element, its disintegration products, and radioactive isotopes. Radiology technologists shall not independently perform fluoroscopic procedures.

Fluoroscopic procedures may be performed by radiology technologists only upon the written authorization of a qualified radiologist, and in the presence of a physician or licensed independent practitioner or by real time visualization through electronic means.

(3) Signed reports.

(A) Signed reports shall be filed with the patient's medical record and exact duplicates of the signed reports shall be kept in the department.

(B) Requests by the attending physician or licensed independent practitioner for x-ray examination shall contain a concise statement of reason for the examination.

(C) Reports of interpretations shall be written or dictated and signed by the radiologist, physician, or licensed independent practitioner making the interpretation.

(D) X-ray reports shall be preserved or microfilmed in accordance with the statute of limitations and OAC 310:667-19.

(E) X-rays and other images shall be maintained at least five (5) years. These images may be maintained in a digital or electronic format as long as a duplicate can be reproduced.

(b) Ultrasound imaging.

(1) Ultrasound imaging shall be performed only upon order of a physician or licensed independent practitioner.

(2) Ultrasound imaging shall be performed by a physician or licensed independent practitioner or by a technologist that has specific training in ultrasound imaging and designated as qualified by the radiologist.

(3) Reports of findings of ultrasound imaging shall be included in the patient's medical record.

(c) Computerized tomography and magnetic resonance imaging.

- (1) Computerized tomography and magnetic resonance imaging may be provided.
- (2) If used by the facility, all computerized tomography (CT) and magnetic resonance imaging (MRI) examinations shall be authorized by a written and signed order from a physician or licensed independent practitioner.
- (3) CT and MRI examinations shall be performed under the direction of and interpreted by a qualified radiologist who is a member of the hospital active or consulting medical staff.
- (4) CT and MRI examinations shall be performed by a radiology technologist with documented CT or MRI training and experience and designated as qualified by the radiologist.
- (5) A qualified physician or licensed independent practitioner shall be available during the administration of intravenous contrast media.
- (6) Oxygen and emergency medical supplies shall be maintained within the CT/MRI suite or be readily available. If the CT/MRI suite is a mobile unit, the mobile unit shall contain oxygen and emergency medical supplies.
- (7) CT/MRI films and reports shall be maintained at the hospital in the same manner as x-ray films and reports.
- (8) If the CT/MRI is a mobile unit, written infection control policy and procedures and safety plans shall be maintained as part of the overall hospital plans.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 21 Ok Reg 2785, eff 7-12-04]

310:667-23-3. Nuclear medicine

Nuclear medicine services may be provided. If provided, the entity providing nuclear medicine services shall be licensed by the Nuclear Regulatory Commission.

- (1) Nuclear medicine procedures shall be under the supervision of a physician who is a member of the medical staff.
- (2) Nuclear medicine services shall be supervised by a qualified and trained nuclear medicine technologist.
- (3) There shall be a sufficient number of qualified technical and supportive staff to perform the procedures provided by nuclear medicine.
- (4) Personnel that provide nuclear medicine services shall have written authorization by the physician director to provide these services.
- (5) All radioactive materials shall be purchased, stored, and administered in accordance with the standards approved by the medical staff and shall be in compliance with local, state, and federal laws. A record of the receipt and disposition of all radiopharmaceuticals shall be maintained for a minimum of five (5) years. The dose of radiopharmaceuticals shall be reverified prior to patient administration.
- (6) Equipment shall be appropriate for the types of services offered and shall be maintained, tested, and calibrated as

required by the manufacturer.

(7) There shall be written policies and procedures for all services offered which shall additionally include the following:

(A) Safety rules.

(B) Steps to take in the event of an adverse reaction.

(C) Clean up of spills.

(8) The policy and procedure manual shall be reviewed annually and revised as necessary.

(9) If diagnostic in-vitro laboratory testing is performed in this department, such testing shall conform to all conditions in 42 CFR part 493 (CLIA '88).

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-23-4. Laboratory

(a) The hospital shall have a well-organized, adequately supervised clinical laboratory with the necessary staff, space, facilities, and equipment to perform those services commensurate with the hospital's needs for its patients. All or part of these services may be provided by arrangements with certified reference laboratories.

(b) If a hospital directly provides laboratory services, it shall meet all conditions as set forth in 42 CFR part 493 and be certified to perform testing on human specimens under the Clinical Laboratory Improvement Amendments of 1988 (CLIA '88). The hospital shall possess a current, unrevoked or unsuspended certificate appropriate for the extent of testing performed issued by the Department of Health and Human Services applicable to the category of examinations or procedures performed by the facility.

(c) If a hospital provides laboratory services under arrangement, the referral laboratory shall also meet the requirements of this section.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-23-5. Rehabilitation, physical therapy, and occupational therapy departments

(a) The rehabilitation, physical therapy, and occupational therapy departments, if offered, shall have effective policies and procedures relating to the organization and functions of the service(s) and shall be staffed by qualified therapists.

(b) Policies and procedures shall include, in addition to the above named items, the following:

(1) Standards of care.

(2) Criteria for assuring communication of the patient's therapy and progress to the physician or licensed independent practitioner.

(3) Assembly and operation of the equipment.

(4) Each procedure performed by each employee shall be designated in writing by the department head and shall include the amount of supervision required when performing the procedure.

- (5) Cleaning, disinfecting, and sterilizing procedures.
- (c) There may be a rehabilitation department, including both physical and occupational therapy and which may also include other rehabilitation services, such as speech therapy, vocational counseling, and other appropriate services, or there may be separate physical and/or occupational therapy departments.
- (d) The department head shall have the necessary knowledge, experience, and capabilities to properly supervise and administer the department. A rehabilitation department head shall be a physiatrist or other physician or practitioner with pertinent experience. If separate physical or occupational therapy departments are maintained, the department head shall be a qualified and licensed physical or occupational therapist (as appropriate) or a physician or practitioner with pertinent experience.
- (e) Facilities and equipment for physical and occupational therapy shall be adequate to meet the needs of the services and maintained in good condition.
- (f) Physical therapy or occupational therapy shall be given in accordance with the physician's or licensed independent practitioner's orders, and such orders shall be incorporated in the patient's record. These orders shall include:
- (1) Identification of the patient.
 - (2) Date.
 - (3) Physician's or licensed independent practitioner's name.
 - (4) Type, frequency, and duration of treatment.
 - (5) Physician or licensed independent practitioner signature.
- (g) Complete records shall be maintained for each patient provided such services and shall be part of the patient's record. Physical therapy records shall include:
- (1) Current written plan of care.
 - (2) Statement of treatment objectives.
 - (3) Statement of patient's long-term and short-term rehabilitation potential.
 - (4) Functional limitations.
 - (5) Individual treatments shall be documented.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-23-6. Respiratory therapy

- (a) The respiratory therapy service shall be under the supervision of a qualified physician or physicians. Respiratory therapy services, including equipment, shall be supervised by a licensed respiratory therapist.
- (b) Services may be performed by other respiratory care practitioners as long as a licensed respiratory therapist is readily available for consultation.
- (c) Respiratory care practitioners shall be on the premises whenever continuous ventilatory support is provided to patients.
- (d) All respiratory therapy personnel shall be trained in the following:
- (1) CPR techniques.
 - (2) Patient isolation techniques.

- (3) Safety rules and regulations for oxygen and oxygen equipment.
- (e) There shall be written policies and procedures, approved by the physician director and/or medical staff, which shall include, in addition to the above named items, the following:
- (1) Each procedure performed by each employee shall be designated in writing by the department head and shall include the amount of supervision required when performing the procedure.
 - (2) Fire safety and other safety procedures for the use of oxygen in a facility.
 - (3) Handling, storage and dispensing of therapeutic gasses.
 - (4) Infection control measures that address frequency of changing disposable equipment and frequency of cleaning reusable equipment.
 - (5) Assembly, operation, and maintenance of equipment.
 - (6) Steps to take in the event of an adverse reaction.
 - (7) Cleaning, disinfecting, and sterilizing procedures.
- (f) If arterial blood gasses are performed, the respiratory therapy department shall meet the provisions of 42 CFR part 493 (CLIA '88).
- (g) All respiratory therapy orders shall:
- (1) Originate from a physician or licensed independent practitioner.
 - (2) Specify the type, frequency, duration of treatment, and, if needed, the dose of medication.
- (h) Respiratory therapy reports of pulmonary function studies shall be prepared in duplicate and signed by the respiratory care practitioner responsible for the test or procedure. The original shall be placed in the patient's medical record and the duplicate shall be retained in the department.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-23-7. Pet therapy

If pet therapy is to be incorporated into therapeutic regimens, procedures shall require the animals to be utilized in this modality to be restricted to dogs (*canis familiaris*), cats (*felis domesticatus*), birds, and fish. Mammals shall be vaccinated annually for rabies and leptospirosis by a licensed veterinarian. Animals shall be evaluated for the presence of internal parasites semi-annually by a licensed veterinarian and shall be evaluated for the presence of external parasites as needed. Birds obtained for use in pet therapy shall be from breeding establishments free from avian chlamydiosis (*psittacosis*). Animals shall be humanely housed in designated areas under staff control. The infection control committee and the medical staff shall approve any program prior to initiation. The facility shall evaluate the temperament of animals before they are considered appropriate for pet therapy.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 25. SURGICAL SERVICES

310:667-25-1. Department of surgery

The department of surgery shall have effective policies and procedures regarding surgical privileges, maintenance of the operating rooms, and evaluation of the surgical patient.

(1) Surgical privileges shall be delineated for all physicians and practitioners doing surgery in accordance with the competencies of each physician or practitioner. A roster of physicians and practitioners, specifying the surgical privileges of each, shall be kept in the confidential files of the operating room supervisor and in medical staff credential records.

(2) In any procedure with unusual hazard to life, as defined by the medical staff, there shall be present and scrubbed as first assistant a physician designated by the credentials committee as being qualified to assist in major surgery.

(3) Second and third assistants at major operations, and first assistants at lesser operations, may be nurses, technicians, or other practitioners if designated by the medical staff as having sufficient training to properly and adequately assist at such procedures.

(4) The operating room log shall be complete and up to date and include the following information:

- (A) Patient's name.
- (B) Medical record number.
- (C) Name of surgeon.
- (D) Name of assistant(s).
- (E) Type of anesthetic and person administering.
- (F) Circulating nurse.
- (G) Scrub nurse.
- (H) Procedures performed.
- (I) Time surgery began and ended.
- (J) Other people present.

(5) There shall be an appropriate history and physical examination in the chart of every patient prior to surgery (whether the surgery is major or minor). If such has been transcribed, but not yet recorded in the patient's chart, there shall be a statement to that effect and an admission note by the physician or licensed independent practitioner in the chart.

(6) A properly executed consent form for the operation shall be in the patient's chart prior to surgery.

(7) There shall be adequate provisions for immediate post-operative care.

(8) An operative report describing techniques and findings shall be written or dictated immediately following surgery and signed by the surgeon.

(9) The surgical service shall cooperate with the infection control program in the investigation and correction of problems identified through infection control surveillance activities.

(10) The operating rooms shall be supervised by an experienced registered nurse.

(11) Surgical technicians and licensed practical nurses may be permitted to serve as "scrub nurses" under the direct supervision of a registered nurse; they shall not be permitted to function as circulating nurses in the operating room.

(12) The following equipment shall be available to the operating suites: call-in system, cardiac monitor, resuscitator, defibrillator, aspirator, thoracotomy set, and tracheotomy set. Thoracotomy set and tracheotomy set shall be defined by the medical staff and include instruments and supplies deemed necessary.

(13) The operating room suite and accessory services shall be so located that traffic in and out can be and is controlled, and there shall be no through traffic.

(14) Rules and regulations and/or policies related to the operating rooms shall be available and posted.

(15) The service shall be responsible for central sterile supply and shall adhere to the following:

(A) Sterilization equipment shall be provided which is adequate to properly sterilize the instruments and other supplies.

(B) Chemical, biological, and mechanical process indicators appropriate to the type of sterilizer shall be used to indicate items have been subjected to sterilization conditions. A sterilization process indicator shall be placed within each package to be sterilized. If the internal process indicator is not visible from the outside of the package, a separate indicator should be used on the outside of the package.

(C) Equipment for all sterilization methods shall be used, maintained, and monitored according to the manufacturer's written instructions. Sterilized items and packages shall be cooled, aerated, rinsed, dried, or otherwise handled according to the method of sterilization and manufacturer's instructions after sterilization.

(D) Each facility shall establish policies and procedures which describe the interval(s) during which sterile items are considered to remain sterile. Such policies may be event-related or time-related. Policies for event-related shelf life labeling shall take into consideration environmental sources of contamination, barrier properties of packaging materials, storage and distribution practices, inventory control, and frequency of handling between distributor and the user. Inventory control practices shall include a requirement that stock be rotated on a first in, first out basis and a lot control system shall be established to allow for traceability of the contents of each sterilized load in the event of a sterilizer failure or malfunction.

(E) Written or graphic records shall be maintained for each operation of the sterilizer, showing mechanical

monitoring of temperature, exposure time, pressure, humidity, chemical concentrations, and/or air removal as appropriate. Records shall also include the date and time for each operation, with other pertinent data, and the signature of the operator of the sterilizer.

(F) Periodic bacteriological testing of sterilizer performance shall be conducted at least weekly using a biologic indicator appropriate to the type of sterilizer and as recommended by the manufacturer. The results of all biological indicator tests shall be interpreted by qualified individuals in accordance with the manufacturer's instructions. Records of biological indicator testing shall include at least the date and time of the test, the identity of the sterilizer used, the test result, the identity of the individual interpreting the test, and a description of any corrective actions taken as a result of the test.

(G) Written policies and procedures shall be established and followed for the recall of reprocessed items in the event of a sterilization failure.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-25-2. Anesthesia services

(a) Anesthesia services may be provided through a separately organized department or as a service of the department of surgery. The service shall have effective policies and procedures regarding staff privileges, the administration of anesthetics, and the maintenance of strict safety controls.

(b) Each anesthesia service shall have written policies and procedures. These policies and procedures shall include, but not be limited to:

- (1) Pre-anesthesia evaluation.
- (2) Intraoperative anesthesia report.
- (3) Post-anesthesia follow-up report.
- (4) Approved anesthesia agents.
- (5) Drug accountability procedures in accordance with hospital policies.
- (6) Infection control in anesthesia procedures.
- (7) Safety procedures for oxygen and gas anesthetics.

(c) There shall be required for every patient:

- (1) Pre-anesthetic evaluation by a physician or other practitioner authorized to perform pre-anesthesia evaluations with findings recorded not more than forty-eight (48) hours before surgery.
- (2) Anesthetic record on a special form.
- (3) Post-anesthetic follow-up conducted during the post anesthesia recovery period by a person authorized to administer anesthesia to the patient, with findings recorded not more than forty-eight (48) hours after surgery.

(d) The anesthesia service shall be responsible for all anesthetics administered in the hospital.

- (e) In hospitals where there is no department of anesthesia, the department of surgery shall be responsible for establishing general policies and supervision for the administration of anesthetics.
- (f) If anesthetics are not administered by a qualified anesthesiologist, they shall be administered by a physician anesthetist, dentist, oral surgeon, podiatrist, or a certified registered nurse anesthetist under the supervision of the operating surgeon. The hospital medical staff shall designate in writing those persons qualified to administer anesthetics and delineate what the person is qualified to do.
- (g) During all general anesthetics, regional anesthetics, and monitored anesthesia care, the patient's oxygenation, ventilation, circulation and temperature shall be continually evaluated.
- (h) Safety precautions shall include where appropriate:
- (1) Shockproof and spark-proof equipment.
 - (2) Humidity control.
 - (3) Proper grounding.
 - (4) Safety regulations posted.
 - (5) Storage of oxidizing gases shall meet the standards of the National Fire Protection Association Code. The use of flammable anesthetics as anesthetic agents is forbidden.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08]

SUBCHAPTER 27. OUTPATIENT DEPARTMENT

310:667-27-1. Outpatient department

(a) **Organization.** The outpatient department, if utilized, shall be organized into sections (clinics), the number of which depends upon the size and the degree of departmentalization of the medical staff, available facilities, and the needs of the patients for whom it accepts responsibility.

(1) The outpatient department shall have appropriate cooperative arrangements and communications with community agencies, such as other outpatient departments, public health nursing agencies, the department of health, and welfare agencies.

(2) Clinics shall be integrated with corresponding inpatient services.

(3) Clinics shall be maintained for the following purposes:

(A) Care of ambulatory patients unrelated to admission or discharge.

(B) Study of pre-admission patients.

(C) Follow-up of discharged hospital patients.

(4) Patients, on their initial visit to the department, shall receive a general medical evaluation, and patients under continuous care shall receive an adequate periodic reevaluation.

(5) Established medical screening procedures shall be employed routinely.

(b) **Personnel.** There shall be such professional and nonprofessional personnel as are required for efficient operation.

- (1) A physician shall be responsible for the professional services of the department. Either this physician or a qualified administrator shall be responsible for administrative services.
 - (2) A registered nurse shall be responsible for the nursing services of the department.
 - (3) The number and type of other personnel employed shall be determined by the volume and type of work carried out and the type of patient served in the outpatient department.
- (c) **Facilities.** Facilities shall be provided to assure the efficient operation of the department.
- (1) The number of examination and treatment rooms shall be adequate in relation to the volume and nature of work performed.
 - (2) Suitable facilities for necessary laboratory tests shall be available, either through the hospital or some other facility approved to provide these services under 42 CFR part 493 (CLIA '88).
- (d) **Medical records.** Medical records shall be maintained and correlated with other hospital medical records.
- (1) The outpatient medical record shall be filed in a location which insures ready accessibility to the physicians, licensed independent practitioners, nurses, and other personnel of the department.
 - (2) The outpatient medical record shall be integrated with the patient's over-all hospital record.
 - (3) Information contained in the medical record shall be complete and sufficiently detailed relative to the patient's history, physical examination, laboratory and other diagnostic tests, diagnosis, and treatment to facilitate continuity of care.
- (e) **Liaison conferences.** Conferences, both departmental and interdepartmental, shall be conducted to maintain close liaison between the various sections with the department and with other hospital services.
- (1) Minutes of staff and/or departmental meetings shall indicate that a review of selected outpatient cases takes place and that there is integration of hospital inpatient and outpatient services.
 - (2) The outpatient department shall have close working relationships with the social work services.
- (f) **Location.** The outpatient department shall be located in the hospital facility or at a campus licensed as part of the hospital.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 29. EMERGENCY SERVICES

310:667-29-1. Emergency service or department

- (a) **General.** The hospital shall have procedures for the treatment of emergency cases. The hospital may meet this requirement through an organized emergency service department or by establishing emergency

protocols. Appropriate emergency signage shall be displayed when the hospital has an organized service or department.

(b) **Organization and direction.** The department or service shall be directed by qualified personnel and integrated with other departments of the hospital.

(1) There shall be written policies which shall be enforced to control emergency room procedures. Hospitals that do not offer maternity service shall have policies and procedures for treatment of this type of patient.

(2) The policies and procedures governing medical care provided in the emergency service or department shall be established. This shall be a continuing responsibility of the medical staff.

(3) The emergency service shall be supervised by a qualified member of the medical staff. Nursing functions shall be the responsibility of a registered nurse.

(4) The administrative functions shall be a responsibility of a member of the hospital administration.

(c) **Facilities.** Facilities shall be provided to assure prompt diagnosis and emergency treatment.

(1) Facilities shall be separate and independent of the operating rooms.

(2) The location of the emergency service shall be in close proximity of an exterior entrance of the hospital.

(3) Diagnostic and treatment equipment, drugs, supplies, and space, including a sufficient number of treatment rooms, shall be adequate in terms of the size and scope of services provided. An obstetrics pack and supplies shall be available at all times in the emergency room. A cardiac defibrillator and monitoring equipment shall be available to the emergency services.

(4) The emergency room shall be equipped with a base station radio using medical frequencies VHF 155.340 or UHF Medical Channels 1 through 10 and/or compatible frequencies with ambulance services operating in the area. The emergency room staff shall use this equipment to communicate with all emergency medical vehicles and relay the information from emergency medical personnel to the emergency room physician and/or nurse.

(d) **Medical and nursing personnel.** There shall be adequate medical and nursing personnel available at all times.

(1) The hospital shall be responsible for insuring adequate medical coverage for emergency services.

(2) Qualified physicians or licensed independent practitioners shall be regularly available at all times for the emergency service, either on duty or on call. If a physician or licensed independent practitioner is on call, he or she shall be able to present at the emergency room within twenty (20) minutes.

(3) A physician or licensed independent practitioner shall be responsible for all patients who arrive for treatment in the emergency service.

(4) Registered nurses shall be available on site at all times and in sufficient number to deal with the number and extent of emergency services.

(e) **Medical records.** Adequate medical records on every patient shall be kept.

(1) The emergency room record contains:

- (A) Patient identification.
- (B) Time and means of injury.
- (C) History of disease or injury.
- (D) Medication history and drug allergies.
- (E) Physical findings.
- (F) Laboratory and x-ray reports, if any.
- (G) Diagnosis and therapeutic orders.
- (H) Record of treatment including vital signs.
- (I) Disposition of the case.
- (J) Signature of the registered nurse.
- (K) Signature of the non-physician practitioner, if applicable.
- (L) Signature of the physician.
- (M) Documentation if the patient left against medical advice.

(2) Medical records for patients treated in the emergency service shall be organized by personnel from medical records department in accordance with facility policy.

(3) Where appropriate, medical records of emergency services shall be integrated with those of the inpatient and outpatient services.

(4) A proper method of filing records shall be maintained.

(f) **Drug and medication distribution and control.** Drugs in the emergency department shall be securely maintained and controlled by staff at all times. If the department does not have staff present at all times, all drugs shall be secured in sealed storage with devices placed to denote tampering. All Schedule II drugs shall be stored as specified in OAC 310:667-21-8(c). All drugs shall be administered and dispensed as required by state law.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-29-2. Patient transfers

Patient transfers shall be conducted in accordance with 42 U.S.C. (1395dd) and 42 U.S.C. (1395cc) and with the regulations at 42 CFR part 489.20 and 489.24.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Added at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 31. SOCIAL WORK SERVICES

310:667-31-1. Social work services

(a) **Availability of service.** Social work services shall be available to the patient, the patient's family, and other persons significant to the patient,

in order to facilitate adjustment of the individuals to the impact of illness and to promote maximum benefits from the health-care services provided. Services may be provided as follows:

- (1) An organized social work department or service within the hospital that has a fulltime, qualified social work director.
- (2) A qualified social worker employed on a part-time basis.
- (3) An outside social work service that is obtained through a written agreement, defining the role and responsibility of the outside services (consultant social workers).

(b) **Policies and procedures.** The method for providing social services shall be clearly defined and shall provide for supervision of the delivery of such services by a qualified social worker. Social work services shall be guided by written policies and procedures.

(c) **Adequate records.** Adequate documentation of social work services provided shall be part of the patient's medical record and shall include:

- (1) Observation and social assessment of the patient.
- (2) Plan of treatment and social work services provided.
- (3) Social work summary, including any recommendation for follow-up.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-31-2. Review and evaluation

The quality and appropriateness of social work services provided to patients shall be regularly reviewed, evaluated, and assured through the establishment of quality improvement mechanisms regardless of the mechanisms used to provide social services. This shall be accomplished and coordinated through the hospital quality improvement program.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 33. SPECIALIZED REQUIREMENTS - PSYCHIATRIC

310:667-33-1. General

(a) In addition to meeting requirements listed for general medical surgical hospitals in Subchapters 1 through 31 of this Chapter, psychiatric hospitals and psychiatric units of general medical surgical hospitals shall meet the additional requirements listed in this Subchapter.

(b) The psychiatric facility may be a distinct unit of a general medical surgical hospital or a freestanding psychiatric hospital which shall be licensed as a specialized hospital. If the facility is a unit of a general medical surgical hospital, this unit shall be distinctly identified. Beds shall not be commingled with acute care beds.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-33-2. Specialized requirements - personnel and policy

(a) Personnel.

(1) A physician with training and experience in psychiatry shall be appointed as medical director of the hospital or unit by the governing body based upon a recommendation from the medical staff. The medical director shall coordinate with other services provided by the hospital, and shall be responsible for developing policies concerning treatment and staffing.

(2) The diagnosis and treatment rendered to each patient in psychiatric hospitals or units shall be under the direction of a physician or licensed independent practitioner with training and experience in psychiatry.

(3) A registered nurse with experience in psychiatric nursing shall be responsible for nursing administration. At least one (1) registered nurse shall be assigned to care and provide active treatment for every fifteen (15) patients on each shift, except that if the unit census exceeds fifteen (15) patients but does not exceed twenty (20) patients during the shift, a licensed practical nurse may be substituted for the second required registered nurse. Licensed practical nurses and/or psychiatric nurse support staff shall be assigned by the registered nurse to support the care provided by the registered nurse and provide necessary active treatment.

(4) All personnel working within an area of psychiatric patients shall be trained in psychiatric patient care.

(b) Policies and procedures shall be developed and implemented that include at least the following:

(1) **Seclusion.** Patients shall be placed in seclusion only on the written order of the attending physician or licensed independent practitioner. Secluded patients shall be constantly monitored by facility staff while in seclusion. Patient seclusion shall terminate after four (4) hours unless the patient is reevaluated by the attending physician or licensed independent practitioner and a renewal order is received for the seclusion. Patients shall not be continuously secluded for longer than twenty-four (24) hours unless the attending physician or licensed independent practitioner attests in the patient's medical record that seclusion is necessary for the continued treatment of the patient.

(2) **Restraint.** Physical and chemical restraints shall be used in accordance with guidance outlined at OAC 310:667-3-5 and OAC 310:667-15-8 & 9. All staff providing active treatment or monitoring patients shall be trained in facility methods approved to physically hold or restrain patients before patient care responsibilities are assigned. These staff members shall be reoriented regarding these policies annually or when policies are revised.

(3) **Accommodations.**

(A) Patients shall be grouped for accommodations by gender, age, and treatment needs except as provided for at 310:667-33-2(b)(3)(B). As a minimum, children,

adolescent, and adult treatment programs shall be separate with distinct units for each. Nursing staff and support staff shall be assigned to each program and unit to appropriately monitor patients and provide active treatment. Children, adolescents, and adult patient groups shall not be allowed to commingle at anytime.

(B) Patients being primarily treated with diagnosis of anorexia nervosa, bulimia nervosa or other unspecified eating disorder diagnosis, who are separated by gender, and from other non-eating disorder patients, may be grouped for accommodations and treatment with adolescent and adult patients. Such programs shall ensure appropriate monitoring of commingled populations at all times, and shall provide sleeping arrangements with all private rooms, or separate semi-private rooms for adolescent patient(s) and adult patient(s).

(4) **Procedures.** General procedures for the unit shall include at least the following:

(A) A description of the scope of each therapeutic service provided and the qualifications of staff providing these services.

(B) A description of the process for the appointment of a medical director, who shall be a physician with qualifications as specified in section (a). The medical director shall be appointed by the governing body based upon recommendations made by the medical staff.

(C) A description of how staffing for monitoring and active treatment is provided on a twenty-four (24) hour basis.

(D) A description of how comprehensive treatment plans for each patient are developed and time-frames allowed for the development of an initial plan. Procedures shall also state how often comprehensive treatment plans are reviewed for possible revisions.

(E) If the patient is school age, the policies shall include arrangements to initiate appropriate educational exposure if the patient is to be hospitalized over five (5) days.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 2018, eff 6-25-07]

SUBCHAPTER 35. SPECIALIZED REQUIREMENTS REHABILITATION

310:667-35-1. General

(a) In addition to meeting requirements listed for general medical surgical hospitals in Subchapters 1 through 31 of this Chapter, rehabilitation hospitals and rehabilitation units of general medical surgical hospitals shall meet the following additional requirements listed in this Subchapter.

(b) The rehabilitation facility may be a distinct unit of a general medical surgical hospital or a free-standing rehabilitation hospital which shall be licensed as a specialized hospital. If the facility is a distinct unit, the unit shall be at least ten (10) beds. The unit shall be distinctly identified. Beds shall not be commingled with acute care beds.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-35-2. Services

(a) Each rehabilitation facility shall have written admission criteria that relate to the facility's program capabilities which are applied uniformly to all potential patients.

(b) Services shall be provided by qualified professionals in accordance with a written plan of treatment. All services except rehabilitative medicine and nursing may be provided on a contractual basis as long as patients' needs are met. All rehabilitation facilities shall provide at a minimum, the following clinical services.

- (1) Rehabilitative medicine.
- (2) Rehabilitative nursing.
- (3) Physical therapy.
- (4) Occupational therapy.
- (5) Speech therapy.
- (6) Social services.
- (7) Psychological services.
- (8) Orthotic and prosthetic services.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-35-3. Specialized requirements - policy and personnel

(a) Personnel.

(1) A physician with training and experience in rehabilitative medicine shall be appointed as medical director of the hospital or unit by the governing body based upon a recommendation from the medical staff. The medical director shall coordinate with other services provided by the hospital, and shall be responsible for developing policies concerning treatment and staffing.

(2) The diagnosis and treatment rendered to each patient in rehabilitation hospitals or units shall be under the direction of a physician or licensed independent practitioner with training and experience in rehabilitative medicine. Every patient, upon admission, shall have written orders from a physician or licensed independent practitioner for the immediate care of the patient.

(3) A registered nurse with experience in rehabilitation medicine shall be responsible for nursing administration. The number of registered nurses, licensed practical nurses and nursing support staff required on each shift to formulate and carry out the nursing components of the individual treatment plan for each patient shall be determined based upon acuity and the rehabilitative nursing needs of the patients.

(4) All other required services shall be supported by adequate qualified staff who may be employed or under contract to provide services. All professional staff whether employed or under contract shall be licensed or certified as required by state law.

(b) **Policies and procedures.** Policies and procedures shall be developed implemented that include at least the following:

- (1) The scope of each clinical service.
- (2) The appointment of a medical director, who shall be a physician qualified by training, experience, and knowledge of rehabilitative medicine.
- (3) A description of how staffing is arranged for twenty-four (24) hour services.
- (4) Admission procedures and criteria.
- (5) Patient evaluation procedures, including a policy which requires a treatment plan for each patient based on a functional assessment and evaluation. This policy shall require the initial treatment plan to be developed within seventy-two (72) hours of admission, and a comprehensive individualized plan developed no later than one (1) week after admission. The plan shall state the rehabilitative problems, goals, required therapeutic services, prognosis, anticipated length of stay, and planned discharge disposition. This comprehensive plan shall be developed by a multidisciplinary team of professionals treating the patient and shall be approved by the attending physician or licensed independent practitioner.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-35-4. Special requirements - medical records

In addition to the basic medical record requirements for general medical surgical records, medical records for rehabilitative patients shall include the following:

- (1) The reason for referral or admission to the rehabilitation facility.
- (2) A summary of the patient's clinical condition, functional strengths and limitations, indications and contraindications for specific physical rehabilitation services, and prognosis.
- (3) Initial and comprehensive treatment plans as specified in 310:667-35-3(a)(5). The goals of treatment, any problems that may affect the outcome of rehabilitation, and criteria leading to the discontinuation of services shall be documented.
- (4) Treatment and progress records, with appropriate ongoing assessments as required by the patient's condition. A description of the perception of the patient and family toward, and their involvement in, physical rehabilitation services.
- (5) Assessment of physical rehabilitation achievement and estimates of further rehabilitation potential, entered on a timely basis, which shall be made at least monthly and included in the individualized comprehensive treatment plan.

(6) A discharge summary that includes the physical rehabilitation achieved, the medications and therapy prescribed at discharge, and recommendations for further rehabilitation.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 37. SKILLED NURSING UNITS

310:667-37-1. General

(a) Skilled nursing units may be established as distinct units of general medical surgical hospitals. These units shall be licensed as part of the hospital and be included in the licensed bed capacity. If a hospital provides a skilled nursing unit, this unit shall be separate and distinctly identified. Beds shall not be commingled.

(b) In addition to requirements listed for general medical surgical hospitals in Subchapters 1 through 31 of this Chapter, skilled nursing units shall comply with the requirements listed in this Subchapter.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-37-2. Administration

The skilled nursing unit shall be considered a department of the hospital and therefore shall be administered by the governing body and the administrator. The unit shall also have a full-time manager who may be the nursing director of the unit. This manager shall have the administrative authority and responsibility for the day to day operation of the unit.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-37-3. Skilled Nursing

All requirements of nursing service, Subchapter 15 of this Chapter, shall apply. In addition to these requirements, each skilled nursing unit shall have a full-time nursing director for the unit who is a registered nurse. If the director has responsibilities outside the unit, a qualified registered nurse shall serve as the assistant so that there is the equivalent of a full-time nursing director employed. The nursing director of the unit shall be responsible for development of nursing policies and procedures that are specific for long term care patients requiring services of the unit. The nursing director shall also assure appropriate nurse staffing is maintained in the unit.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-37-4. Rehabilitation provisions

Physical and occupational therapy shall be provided for patients in the skilled nursing unit. These services shall conform to requirements specified at 310:667-23-5.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-37-5. Patient restraint

Patient restraint shall be in accordance with requirements outlined at 310:667-3-5 and 310:667-15-8 & 9.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

SUBCHAPTER 39. CRITICAL ACCESS HOSPITAL**310:667-39-1. General**

A critical access hospital (CAH) is a hospital determined by the Department to be a necessary provider of health care services to residents of a rural community. The CAH shall be the sole provider of hospital services in the community and is to allow the provision of primary hospital care in a rural community that is unable to support a general medical surgical hospital.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00]

310:667-39-2. Affiliations, communications and agreements

(a) **Affiliations.** The CAH shall be affiliated with at least one (1) general medical surgical hospital to facilitate appropriate referrals and adequate support services. The affiliation shall be through a written agreement, contract for services, network affiliation, lease or through direct ownership by the supporting general medical surgical hospital.

(b) **Communications.** Direct communications shall be established between the CAH and any facility providing support services. These communications shall include the electronic sharing of patient data which may include telemetry and diagnostic imaging if local telecommunications have this capability. As a minimum, the CAH shall be able to send and receive patient information by facsimile and/or computer modem.

(c) **Agreements.** The CAH shall have a written agreement with an emergency medical service to accept and receive emergency transfers. This agreement shall provide arrangements for emergency and non-emergency transfers to and from the CAH and stipulate the stabilizing and treatment services available at the CAH. Direct communications shall be established between the emergency medical service and the CAH which allow the emergency medical service to directly contact the on-call physician or licensed independent practitioner and the on-call or on-site registered nurse providing emergency services.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-39-3. Admission criteria

The CAH shall establish inpatient admission criteria appropriate for the treatment and diagnostic services provided. The criteria may be based on diagnosis and patient acuity established by the medical and professional staff or the CAH may use diagnosis related groups (DRGs). The criteria shall be established and revised as necessary by the medical and professional staff and approved by the governing body. Stabilizing emergency treatment services provided shall not be restricted by inpatient admission criteria.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00]

310:667-39-4. Basic requirements and services

The CAH shall provide basic services as described in Sections 5 through 14 of this Subchapter and comply with Subchapters 1, 3, and 5 of this Chapter. The CAH may provide additional services beyond the basic core of required services if applicable sections of this Chapter are met.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-39-5. Governing body

(a) **General.** The CAH shall have an effective governing body legally responsible for all services and the quality of patient care provided. The majority of members of this body shall be residents of the incorporated community or service area of the CAH.

(b) **Organization.** The governing body may be an organized board or owner designated individual(s). The method for appointment, terms, officers required, meeting requirements, duties, and responsibilities shall be established in written bylaws which shall be available at the CAH. The governing body shall meet at established intervals and maintain minutes of meetings. Meetings may be conducted by teleconference if not otherwise prohibited by law.

(c) **Responsibilities.** The governing body's responsibilities shall include at least the following:

(1) Appointment and reappointment of members of the medical and professional staff by methods established in approved bylaws. These appointments shall be made based on recommendations received from the medical and professional staff and be consistent with state law.

(2) Approval of medical and professional staff bylaws, rules and regulations.

(3) Approval or denial of physician or practitioner privilege delineations recommended by the medical and professional staff.

(4) Consideration of reports received from the CAH concerning the quality of care provided. The governing body shall require corrective actions as necessary when inadequate patient care is identified.

(5) Ensure patients are admitted and discharged by a physician or licensed independent practitioner.

(6) Ensure a physician or licensed independent practitioner is available to communicate with CAH staff at all times. A physician or licensed independent practitioner shall be physically available as specified by CAH policy. If a physician or licensed independent practitioner functions as the physician or practitioner on-call for the CAH, the physician or licensed independent practitioner shall be physically available if necessary within twenty (20) minutes.

(7) Ensure the licensed independent practitioners and registered nurses on-call to the CAH are physically available if necessary within twenty (20) minutes.

(8) Designation of an administrator who shall be responsible for managing the facility. This person may have duties in addition to management responsibilities.

(9) Ensure the CAH is constructed, arranged, and maintained to ensure the safety of the patient, and to provide facilities for diagnosis and treatment appropriate to the needs of the community.

(10) Ensure the CAH is operated under an approved budget.

310:667-39-6. Medical and professional staff

(a) **General.** The CAH shall have an organized medical and professional staff responsible for the quality of care provided to all patients. The staff shall operate under bylaws approved by the governing body.

(b) **Composition.** The CAH shall have a medical and professional staff composed of one (1) or more physicians and which may also include one (1) or more licensed independent practitioners with privileges at the CAH. Privileges may also be extended to other health care professionals who are authorized by state law to provide treatment services.

(1) The staff shall periodically reexamine credentials and conduct appraisals of its members and make recommendations regarding reappointments and privilege delineations to the governing body. The staff shall also examine credentials of candidates for staff membership and make recommendations regarding appointments and privileges extended.

(2) Temporary staff privileges may be extended to qualified physicians, licensed independent practitioners and other professional staff as specified in the medical and professional staff bylaws.

(3) Patient admission quotas or revenue generation minimums shall not be a condition for appointment or reappointment.

(c) **Organization and accountability.** The medical and professional staff shall be well organized and accountable to the governing body for the quality of medical care provided to patients.

(1) The staff shall be organized and elect officers as required by approved medical staff bylaws. Officers of the staff shall hold active privileges and may include elected licensed independent practitioners. The chief of staff (or equivalent) shall be a physician who shall be responsible for organization and enforcement of the bylaws.

(2) The staff shall meet at least monthly as a committee of the whole to review the quality of medical care provided, fulfill committee functions specified in the staff bylaws, and to consider and recommend actions to the governing body. Meetings may include staff from the affiliated general medical surgical hospital or other off-site physicians or practitioners who have privileges at the CAH and may be conducted by teleconference. Minutes of meetings shall be maintained and available for review at the CAH.

(d) **Medical and professional staff bylaws.** The medical and professional staff shall adopt and enforce bylaws to carry out their responsibilities. The medical staff bylaws shall:

(1) Be approved by the governing body.

(2) Include a statement of the duties and privileges of each category of the medical and professional staff. These categories shall include a category of licensed independent practitioner, and may include a category of supervised practitioner in addition to other categories; e.g, active, courtesy, consulting, etc.

(3) Describe the organization of the medical and professional staff.

- (4) Describe the qualifications for each category of the medical and professional staff.
- (5) Require each inpatient to have a history and physical examination performed no more than thirty (30) days before, or forty-eight (48) hours after, admission by a physician or licensed independent practitioner. The examination shall be approved and signed by the physician or licensed independent practitioner. The approval and signature may be performed electronically or by facsimile.
- (6) When the medical history and physical examination are completed within thirty (30) days before admission, the hospital must ensure that an updated medical record entry documenting an examination for any changes in the patient's condition is completed. A timely review of the prior history and physical examination or an updated examination must be completed and documented in the patient's medical record within forty-eight (48) hours.
- (7) Specify the procedure for determining the privileges to be granted to individual physicians and practitioners initially and on reappointment and the process for physicians and practitioners to request these privileges.
- (8) Specify the mechanism to withdraw privileges of staff members and the circumstances when privileges shall be withdrawn.
- (9) Specify the mechanism for appeal of decisions regarding staff membership and privilege delineations.
- (10) Specify the mechanism for monitoring and controlling the use of preventive antibiotics and the use of antibiotics in the presence of infection.

310:667-39-7. Quality improvement

- (a) **General.** There shall be an ongoing quality improvement program, approved by the governing body, which shall identify problems in the facility, suggest solutions, and monitor results.
- (b) **Quality improvement plan.** A written quality improvement plan shall be developed, approved, and implemented by the governing body with advice from the medical and professional staff. The plan shall include but not be limited to the following:
 - (1) Methods of evaluating all patient services to ensure quality of care, including those provided under contract.
 - (2) Methods of evaluating off-site health care services for appropriateness of use and the degree to which the services aid in the provision of quality patient care.
 - (3) The evaluation of nosocomial infections and accompanying medication therapy shall be linked to the hospital-wide quality improvement program through regular reporting by appropriate

hospital committees and functions such as pharmacy and therapeutics, infection control, pharmaceutical services, etc.

(4) Evaluation of all surgical procedures if surgery is performed at the facility.

(5) Methods of evaluating licensed independent practitioner services to ensure these services are provided in conformance with facility policy and state law.

(6) Methods of evaluating on-call services to ensure staff are available as required.

(c) **Quality improvement committee.** The CAH may establish a quality improvement committee or this function may be fulfilled by the medical and professional staff committee of the whole. Quality improvement activities shall be reported by facility staff to the committee at least every three (3) months or more frequently if findings require immediate action by the committee.

(d) **Quality improvement implementation.** There shall be documentation that the CAH has taken appropriate action to address problems identified. The CAH shall document the monitoring of the effectiveness of the proposed solutions.

(e) **Communication.** Quality improvement committee reports shall be communicated at least every three (3) months to the governing body. If the quality improvement committee meets separately from the medical and professional staff committee of the whole, these reports shall also be communicated at least every three (3) months to the medical and professional staff.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-39-8. Infection control program

(a) **General.** The CAH shall establish an infection control program to provide a sanitary environment and avoid sources and transmission of infections. The program shall include written policies and procedures for identifying, reporting, evaluating and maintaining records of infections among patients and personnel. The program shall provide an ongoing review and evaluation of all aseptic, isolation and sanitation techniques employed in the hospital and coordinate training programs in infection control for all personnel.

(b) **Infection control committee.** The CAH may establish an infection control committee (or equivalent) or this function may be fulfilled by the medical and professional committee of the whole. The committee shall meet at least quarterly.

(c) **Policies and procedures review.**

(1) The infection control committee shall evaluate, revise as necessary, and approve the type and scope of surveillance activities utilized at least annually.

(2) Infection control policies and procedures shall be reviewed periodically and revised as necessary, based on current scientific knowledge, accepted practice guidelines, and applicable laws and regulations.

(d) **Policies and procedures content.** The policies and procedures outlined for the infection control program shall be approved by the infection control committee and contain at least the following:

- (1) A requirement that a record of all reported infections generated by surveillance activities include the identification and location of the patient, the date of admission, onset of the infection, the type of infection, the cultures taken, the results of cultures when known, any antibiotics administered and the physicians or practitioners responsible for care of the patient.
- (2) Specific policies related to the handling and disposal of biomedical waste.
- (3) Specific policies and procedures related to admixture and drug reconstitution, and the manufacture of intravenous and irrigating fluids.
- (4) Specific policies regarding the indications for and types of isolation to be used for each infectious disease. These policies shall incorporate the concepts of Standard Precautions and the recommended transmission-based categories of Contact, Airborne, and Droplet isolation procedures as deemed appropriate by the medical and professional staff.
- (5) A definition of nosocomial infection.
- (6) Designation of an infection control officer, who coordinates the infection control program.
- (7) Policies for orienting new employees and an ongoing continuing education program for currently employed personnel concerning infection control. Written documentation shall be maintained indicating new employees have completed orientation and that all current personnel have attended continuing education.

310:667-39-9. Nursing service

(a) **General.** Each CAH shall have an organized nursing service which provides twenty-four (24) hour nursing services for patients. The nursing service shall be supervised by a registered nurse.

(b) **Organization.** The nursing service shall be well-organized with written policies delineating administrative and patient care responsibilities. The director of nursing shall be a registered nurse who shall be responsible for the operation of the service, including determining the staff necessary to provide nursing care for all areas of the CAH. Nursing care shall be provided as specified by written procedures approved by the director of nursing and the governing body. All nursing procedures shall be consistent with state and federal law and current standards of practice. Procedures shall be reviewed and revised as necessary.

(c) **Staffing.** The nursing service shall have adequate numbers of licensed nurses and other nursing personnel available to provide nursing care to all patients as needed based on patient census and acuity. At least

one (1) registered nurse shall be on duty on-site to furnish or supervise all nursing services whenever patient care is provided. If the CAH has no inpatients, the registered nurse may be available on an on-call basis provided he or she is available to return to the CAH in a period of time not to exceed twenty (20) minutes.

(d) Qualifications.

(1) Individuals selected for the nursing staff shall be qualified by education and experience for the positions they are assigned. The CAH shall verify current licensure of licensed nurses and maintain documentation of verification.

(2) The selection and promotion of nursing service personnel shall be based on their qualifications and capabilities. The director of nursing shall have input regarding the employment, promotion, evaluation and termination of all nursing service personnel.

(3) The qualifications required for each category of nursing staff shall be in written policy and job descriptions, and shall be available in the CAH for reference. The functions of all nursing service personnel shall be clearly defined by written policy.

(e) Delivery of care.

(1) A registered nurse shall assess, plan, supervise, and evaluate the nursing care for each patient.

(2) Each inpatient shall have a nursing care plan that includes assessment, planning, intervention, and evaluation. Nursing care plans shall be revised as necessary.

(3) Nursing notes shall be informative and descriptive of the nursing care given and include assessment, interventions, and evaluation.

(4) All drugs and biologicals shall be administered in accordance with state and federal laws by authorized individuals. Orders for drugs, biologicals, treatments and tests shall be in writing and signed by the prescribing physician or practitioner who shall be authorized by law to write a prescription, with the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physician-approved hospital policy after an assessment for contraindications. When telephone or verbal orders for drugs, biologicals, treatments and tests are used, they shall be given only to a practitioner authorized by administration to receive these orders and signed by the prescribing practitioner or meet the requirements at OAC 310:667-19-2(c)(4). The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician.

(5) Blood products and intravenous medications shall be administered as required by CAH written policy in accordance with state and federal law. CAH staff administering blood products or intravenous medications shall be trained regarding hospital policies before they are allowed to carry out these responsibilities.

(6) There shall be an effective procedure for reporting transfusion and adverse drug reactions to the attending physician or licensed independent practitioner and the prescribing physician or practitioner. Errors in drug administration and adverse reactions shall be compiled and reported through the quality assurance committee to the medical and professional staff.

(7) All nursing service personnel shall be trained and currently certified to perform cardio-pulmonary resuscitation (CPR) and shall be knowledgeable of all CAH emergency protocols.

(f) **Patient restraint.** If patients are physically restrained, the CAH shall comply with all requirements specified in OAC 310:667-15-8. If patients are chemically restrained, the CAH shall comply with all requirements specified in OAC 310:667-15-9.

310:667-39-10. Food and nutritional services

(a) **General.** The CAH shall directly provide or contract for organized food and nutritional services that are directed and staffed by qualified personnel. If the CAH has a contract with an outside food management company to provide services on-site or cater food to the CAH, the company shall comply with all requirements specified in this section.

(b) **Organization.**

(1) Clinical nutritional services shall be under the supervision and direction of a licensed/registered dietitian on a full-time, part-time, or consultant basis. The dietitian shall be responsible for approval of menus and modified diets, review of clinical policies and procedures, evaluation of nutritional services and staff continuing education. If dietitian services are provided on a part-time or consultant basis, the responsibilities of the dietitian shall be clearly defined in a written job description and summary reports of consultant visits shall be written and on file. The dietitian shall be responsible for, or shall designate a person in writing, to carry out clinical nutritional activities. The clinical nutritional activities shall include but not be limited to patient and family counseling on modified diets as needed, any required nutritional assessments, and development of clinical nutritional policies and procedures. If dietitian services are provided on a part-time or consultant basis, a dietitian shall be available for telephone consultation daily and shall be able to approve menus and modified diets electronically.

(2) The food and nutritional services manager may or may not be a licensed/registered dietitian. If the manager is not a licensed/registered dietitian or certified dietary manager, the manager shall be responsible only for administrative management and shall not direct clinical nutritional activities.

(3) Personnel shall be adequate in number and training to carry out the preparation and serving of foods and other related

functions with the proper and necessary sanitary procedures. The food service personnel shall complete a basic orientation program before working in the food service area. This orientation shall include, but not be limited to: basic dietary guidelines, infection control including food safety, and fire and safety precautions.

(c) Services and facilities.

(1) Equipment used in the preparation and handling of food shall bear the seal of the National Sanitation Foundation (NSF) or comply with the requirements of the NSF (Rules and Regulations Pertaining to Food Establishments).

(2) A nourishment room accessible to the nursing staff shall be provided for the preparation and serving of light refreshments. This room shall be equipped with equipment for warming food, a refrigerator, and a lavatory. This room may serve as the location for an ice machine.

(d) Diets and menus.

(1) At least three (3) palatable meals or their equivalent shall be served daily, at regular times with not more than fifteen (15) hours between a substantial evening meal and breakfast. Menus shall be planned and followed to meet nutritional needs of patients, in accordance with the prescribing physician or practitioner diet orders and to the extent medically possible, in accordance with the Dietary Reference Intakes (DRIs) of the Food and Nutrition Board of the Institute of Medicine, National Academy of Sciences.

(2) All diets shall be prescribed by the physician or practitioner responsible for the care of the patient. Modified diets shall be prescribed according to the latest edition of the Oklahoma Diet Manual or other equivalent approved manual. The Oklahoma Diet Manual or other equivalent approved diet manual shall be approved by the licensed/registered dietitian, the medical and professional staff and the governing body. The manual shall be available to all medical, nursing, and food service personnel.

(3) Nourishments shall be available and may be offered at anytime in accordance with approved diet orders.

(4) Menus covering all prescribed diets shall be approved, dated, and periodically reviewed by a licensed/registered dietitian. Modified diet orders not covered with an approved menu shall be planned in writing, reviewed, and approved by a licensed/registered dietitian. The licensed/registered dietitian approval of the modified diet may be performed electronically.

(5) The portioning of menu servings shall be accomplished with the use of portion-control serving utensils.

(6) All modified diets shall be prepared separately, as necessary, from regular diets.

(7) An identification system shall be established to ensure that each patient receives the prescribed diet as ordered.

(e) Food preparation and storage.

(1) Potentially hazardous food, as defined in chapter 256 of this Title, shall be maintained at one hundred-forty (140)°F

(approximately 60°C) or above or at an internal temperature of forty-one (41)°F (approximately 5°C) or below. A product thermometer shall be available, metal stem-type numerically scaled indicating temperature, accurate to plus or minus two (2) degrees F and used to check internal food temperatures.

(2) Milk and milk products shall be served, handled and stored in accordance with the requirements of Chapter 256 of this Title.

(3) All ice which is in contact with food or drink shall come from a source approved by the Department. Storage, transportation, handling, and dispensing shall be in a sanitary manner, approved by the Department in accordance with Chapter 256 of this Title.

(f) Sanitation.

(1) The food and nutritional services shall be inspected and approved by state or local health agencies and licensed as a Food Service Establishment. Written reports of the inspections; e.g., Food Establishment Inspection Report Forms, shall be maintained with notations made of the action taken to correct violations.

(2) Storage, preparation, and serving of food shall be in compliance with the requirements of Chapter 256 of this Title, including adequate and proper space for each activity.

(3) The system used for dishwashing shall be approved by the Department and operated in accordance with approved procedures and requirements of Chapter 256 of this Title.

(4) Garbage and refuse shall be kept in durable, easily cleanable, insect-proof and rodent-proof containers that do not leak and do not absorb liquids. Adequate carriers and containers shall be provided for the sanitary collection and transportation of garbage and refuse from food service areas to the place of disposal in accordance with the requirements of Chapter 256 of this Title.

310:667-39-11. Medical record services

(a) **General.** The CAH shall have medical record services that ensure a medical record is maintained for every patient evaluated or treated in the facility. Medical record services shall be appropriate to the scope and complexity of the services performed and shall ensure prompt completion, filing, and retrieval of records. In general, services such as transcription, computer indexing and coding, and electronic storage may be performed off-site as a contracted service as long as the medical record remains under the control of the CAH. The CAH shall ensure that medical records maintained by a contracted service remain confidential and can be immediately accessed by CAH staff.

(b) **Reports to agencies and the Department.** The CAH shall comply with all requirements specified in OAC 310:667-19-2(a) regarding the reports made to agencies and the Department.

(c) **Content.** The medical record shall contain information to justify patient admission and treatment, support the diagnosis, and describe the patient's progress and response to treatment and services received. All

entries shall be legible and complete, and shall be authenticated and dated promptly by the person, identified by name and discipline, who is responsible for ordering, providing or evaluating the service furnished.

(1) The author of each entry shall be identified and shall authenticate their entry. Authentication may include written signatures or computerized or electronic entries. If computerized or electronic authentications are used, the CAH shall comply with all requirements specified at OAC 310:667-19-10(e). Telephone and verbal orders shall be authenticated by the physician or practitioner giving the order as soon as possible within forty-eight (48) hours or meet the requirements at OAC 310:667-19-2(c)(4). Reports of history and physical examinations and discharge summaries shall be authenticated by the authorized physician or practitioner who performed the examination or produced the summary or meet the requirements at OAC 310:667-19-10(e) if authenticated by another physician or practitioner. Signature stamps may be used to authenticate entries in the medical record provided the requirements at OAC 310:667-19-10(d) are met.

(2) All inpatient records shall document the following as appropriate:

(A) Patient identifying information including individuals to be contacted in case of an emergency.

(B) Evidence of a physical examination, including a health history, performed not more than thirty (30) days prior to admission or within forty-eight (48) hours after admission. The history and physical examination shall be completed, signed and placed in the record within 48 hours of admission.

(C) Admitting diagnosis.

(D) Results of all consultative evaluations of the patient and appropriate findings by clinical and other staff involved in the care of the patient.

(E) Documentation of complications, hospital acquired infections, and unfavorable reactions to any drug or biological.

(F) Properly executed informed consent forms for procedures and treatments performed. The medical and professional staff shall establish which procedures or treatments require informed consent consistent with Federal and State law.

(G) All physicians' or practitioners' orders, nursing notes, reports of treatment, medication records, diagnostic reports, vital signs and other information necessary to monitor the patient's condition.

(H) Discharge summary with outcome of hospitalization, disposition of case, medications at the time of discharge, and provisions for follow-up care.

(I) Reports. All reports and records shall be completed and filed within a period consistent with good medical practice and not longer than thirty (30) days following discharge.

(J) Final diagnosis.

(d) **Maintenance of records.** The CAH shall maintain a medical record for each inpatient and outpatient. Medical records shall be accurately written, promptly completed, properly filed and retained, and accessible. The CAH shall use a system of author identification and record maintenance that ensures the integrity of the authentication and protects the security of all record entries.

(1) Medical records shall be retained at least five (5) years after the date the patient was last seen or at least of three (3) years after the date of the patient's death. Records of newborns or minors shall be retained three (3) years past the age of majority. Medical records may be maintained in their original form or may be preserved by other means as specified by OAC 310:667-19-14(b).

(2) The CAH shall have, or provide, a system of coding and indexing medical records. The system shall allow for timely retrieval by diagnosis and procedure, in order to support medical care evaluation studies.

(3) Medical records shall be confidentially maintained. Information from, or copies of, records shall be released only to authorized individuals in accordance with state law, and the CAH shall ensure that unauthorized individuals cannot gain access to, or alter medical records. Original medical records shall be released only in accordance with federal or state laws or by court order.

(4) Facsimile copies shall be acceptable as any portion of the medical record. If the facsimile is transmitted on thermal paper, that paper shall be photocopied to preserve its integrity in the record. Facsimile copies shall be considered the same as original copies.

(5) In the event of closure of the CAH, the CAH shall inform the Department of the disposition of the patient medical records. Disposition shall be in a manner to protect the integrity of the information contained in the medical record. These records shall be retained and disposed of as specified by OAC 310:667-19-14(b)(4).

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 18 Ok Reg 2032, eff 6-11-01 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 21 Ok Reg 2785, eff 7-12-04 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08]

310:667-39-12. Drug distribution

(a) **General.** The CAH shall provide routine and emergency drugs and biologicals in a safe and accurate manner to meet the needs of the patients. The CAH may provide all drug distribution services directly with a complete licensed hospital pharmacy or a drug room. The drug room may be provided directly by the CAH or by contract with a licensed pharmacy. The medical and professional staff and the CAH pharmacist shall be responsible for oversight of drug distribution services and shall approve policies and procedures that ensure compliance with state and federal laws and minimize drug errors. If required, the CAH shall

annually register with the Oklahoma State Board of Pharmacy.

(b) Personnel.

(1) The drug distribution service shall be directed by a pharmacist on a full-time, part-time, or consultant basis. The pharmacist shall be responsible for developing, supervising, and coordinating all activities of drug distribution in the CAH. The responsibility and authority of the pharmacist shall be clearly defined in a written job description. All compounding, packaging, labeling and dispensing of drugs and biologicals shall be performed or directly supervised by the pharmacist.

(2) If the CAH only maintains a drug room, drugs and biologicals shall be distributed and administered only to inpatients of the CAH. The pharmacist director shall be available at least as a consultant and a registered or licensed practical nurse shall be designated in writing as the drug room supervisor to ensure drugs and biologicals are properly distributed and stored. The drug room supervisor may have other job responsibilities in the CAH as long as drug distribution services are adequately maintained.

(c) Delivery of services.

(1) Drugs and biologicals shall be kept in a locked storage area and distributed in accordance with applicable standards of practice, consistent with state and federal laws. Outdated, mislabeled, or otherwise unusable drugs and biologicals shall not be maintained available for patient use. Storage of drugs and biologicals shall be in accordance with the manufacturer's instructions.

(2) Records shall be maintained of the transactions of the pharmacy or drug room to account for the receipt, distribution, disposition and destruction of all drugs and biologicals.

(3) A record of the stock of controlled dangerous drug substances on hand shall be maintained in a manner so that the disposition of any particular item may be readily traced. All Schedule II drugs shall be maintained as specified in OAC 310:667-21-8(c).

(4) All drugs and biologicals shall be provided to patients only upon written order of a physician or practitioner authorized by law to write a prescription, with the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physician-approved hospital policy after an assessment for contraindications. The prescriber's original order or a copy shall be available to the pharmacy or drug room prior to distributing or dispensing the drug or biological. The order may be electronically transmitted. Methods shall be provided to ensure the reconciliation of all drugs distributed for patient administration.

(5) Access to the pharmacy or drug room shall be restricted to authorized individuals when the pharmacist or drug room supervisor is unavailable. The CAH shall establish written procedures which permit authorized individuals access, establish methods of maintaining drug inventory and control, and require record keeping of drugs removed.

(6) Floor stock medications shall be controlled and maintained to limit after hours access to the pharmacy or drug room.

Distribution shall be in accordance with a floor stock drug list which shall be established for each floor stock area. A method shall be provided for reconciliation of floor stock drugs distributed for use in a procedure or for a particular patient. The pharmacist shall check all floor stock medication areas at least monthly to ensure records are accurate and stock continues to be suitable for use.

(7) Drugs and biologicals not specifically prescribed as to length of time or number of doses shall be automatically stopped after a reasonable time established by the medical and professional staff.

(8) Drug administration errors, adverse drug reactions, and incompatibilities shall be immediately reported to the attending physician or licensed independent practitioner. As appropriate, reports of errors and adverse reactions shall be made to the CAH quality assurance committee.

(9) Abuse and loss of controlled substances shall be immediately reported to the pharmacist director and to the administrator who shall make required reports to local, State and Federal authorities. If the CAH maintains a pharmacy or drug room, the administrator, or the administrator's authorized representative, shall inventory pharmacy controlled substances and alcohol at least annually.

(10) Information relating to drug interactions, drug therapy, side effects, toxicology, dosage, indications for use, routes of administration and poison control shall be made available by the pharmacist director to nursing service and the medical and professional staff.

(11) Drugs and biologicals maintained by the CAH shall be based on a formulary established by the medical and professional staff.

(d) **Physical facilities.** The CAH shall maintain, as appropriate, adequate facilities to ensure drugs and biologicals are safely compounded, packaged, dispensed and stored as required. Equipment and supplies shall be provided to adequately protect personnel from toxic substances and to ensure the integrity of any medication or parenteral solution.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-39-13. Diagnostic services

(a) **Radiological services.** The CAH shall maintain or have available diagnostic radiological services according to the needs of the patients.

(1) Radiological services shall be free from hazards for patients and personnel. Proper safety precautions shall be maintained against fire and explosion hazards, electrical hazards, and radiation hazards.

(2) Diagnostic x-ray equipment shall have a current permit issued by the Department and shall be inspected at least every two (2)

years by a certified health physicist or by Department staff. Any identified hazards shall be promptly corrected.

(3) The hospital shall identify those employees who are subject to significant occupational exposure to radiation while performing their job duties. All such workers shall be checked periodically for amounts of radiation exposure by the use of exposure meters or badge tests.

(4) The CAH shall have a qualified radiologist available on a full-time, part-time or consulting basis both to supervise services and interpret diagnostic images that require specialized knowledge for accurate reading. Diagnostic images may be electronically transmitted or delivered off-site for interpretation by the radiologist. The interpretation of radiological examinations shall be made by physicians or licensed independent practitioners competent in the field according to individually granted clinical privileges. Reports of interpretations shall be written or dictated and signed by the radiologist, physician, or licensed independent practitioner making the interpretation. All diagnostic image interpretations shall be incorporated into the patient's medical record with a duplicate copy kept with the image.

(5) The use of diagnostic x-ray equipment shall be limited to personnel designated as qualified by the radiologist or the medical and professional staff. Fluoroscopic procedures may be performed by radiology technologists only upon the written authorization of a qualified radiologist, and in the presence of a physician or licensed independent practitioner or by real time visualization through electronic means.

(6) The CAH shall maintain copies of reports and diagnostic images for at least five (5) years.

(7) If the CAH provides imaging services other than routine diagnostic x-ray, the CAH shall comply with appropriate sections of OAC 310:667-23-2.

(b) Laboratory services.

(1) The CAH shall have a well-organized, adequately supervised clinical laboratory with necessary staff, space, facilities, and equipment to perform those services commensurate with the needs of its patients. All or part of these services may be provided by arrangements with certified reference laboratories as long as services are available on an emergency basis twenty-four (24) hours a day.

(2) If a CAH directly provides laboratory services, it shall meet all conditions as set forth in 42 CFR part 493 and be certified to perform testing on human specimens under the Clinical Laboratory Improvement Amendments of 1988 (CLIA '88). The CAH shall possess a current, unrevoked or unsuspended certificate appropriate for the extent of testing performed issued by the Department of Health and Human Services applicable to the category of examinations or procedures performed by the facility.

(3) If a CAH provides laboratory services under arrangement, the referral laboratory shall also meet the requirements of this

section. Referral laboratories used by the CAH shall have the ability to electronically transmit emergency test results.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 692, eff 12-16-99 (emergency); Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-39-14. Emergency services

(a) **General.** The CAH shall provide emergency stabilization and treatment services commensurate with emergency medical needs of the community and CAH service area. All services shall be provided in accordance with acceptable standards of practice, compliant with applicable state and federal laws.

(b) **Organization and direction.** The service shall be directed by personnel deemed qualified by the governing body and integrated with other services of the CAH. Although the service may function as a separate department, the CAH may also provide this service with staff from other areas who are trained in emergency services and who are available if needed in the emergency area.

(1) Services shall be organized under the direction of a qualified member of the medical and professional staff. Nursing functions shall be the responsibility of a registered nurse and shall be supervised by the director of nursing.

(2) There shall be written policies and procedures that establish protocols for emergency services provided. Policies shall also include written procedures for stabilization and transfer of patients whose treatment needs cannot be met at the CAH. If the CAH does not offer maternity services, emergency service policies shall include protocols for emergency deliveries.

(c) **Facilities, medications, equipment and supplies.** Facilities, medications, equipment and supplies shall be provided to ensure prompt diagnosis and emergency medical treatment.

(1) Facilities shall be separate and independent from operating, delivery, or inpatient rooms. The emergency services area shall be in close proximity to an exterior entrance of the CAH.

(2) Medications commonly used in life-saving procedures shall be provided. These shall include but not be limited to the following drugs and biologicals: analgesics, local anesthetics, antibiotics, serums and toxoids, antiarrhythmics, cardiac glycosides, antihypertensives, diuretics, electrolytes, plasma expanders and replacement solutions.

(3) Equipment and supplies commonly used in life-saving procedures shall be provided. These shall include but not be limited to: airways, endotracheal tubes, laryngoscope, ambu bag/valve/mask, obstetrics pack, tracheostomy set, oxygen, tourniquets, immobilization devices, nasogastric tubes, splints, IV therapy supplies, suction machine, defibrillator, cardiac monitor, chest tubes, and indwelling urinary catheters.

(4) The emergency service shall be equipped with a base station radio using medical frequencies VHF 155.340 or UHF Medical Channels 1 through 10 and/or compatible frequencies with

emergency medical services operating in the area. Direct communications between the emergency service and the on-call physician or licensed independent practitioner and the on-call or on-site registered nurse shall be established as specified at OAC 310:667-39-2(b).

(d) **Medical and nursing personnel.** There shall be adequate medical and nursing personnel qualified in emergency care available at all times to meet the emergency service needs of the CAH.

(1) A physician or licensed independent practitioner shall be available at all times to directly communicate with CAH staff providing emergency care. The physician or licensed independent practitioner shall be able to be physically present at the CAH as specified by written facility policy.

(2) A physician or licensed independent practitioner shall be on duty or on call at all times. This physician or practitioner shall be able to present at the CAH in a period of time not to exceed twenty (20) minutes.

(3) A registered nurse shall be available at all times to assess, evaluate, and supervise the nursing care provided. If the CAH has no inpatients, the registered nurse may be available on an on-call basis if he or she can return to the CAH in a period of time not to exceed twenty (20) minutes when a patient presents to the emergency service. All emergency medical patients shall be evaluated on-site by a registered nurse unless the patient is evaluated on-site by a physician or licensed independent practitioner.

(4) Adequate support staff shall be available on-site to meet the emergency service needs of the CAH. If the CAH has no inpatients and registered nursing services are provided on an on-call basis, the emergency service shall be staffed with at least an intermediate or paramedic level emergency medical technician. All CAH staff providing emergency services shall have current CPR certification.

(e) **Emergency medical records.**

(1) Adequate medical records on every patient shall be kept. Each record shall contain the following as applicable:

(A) Patient identification.

(B) Time and means of injury.

(C) History of disease or injury.

(D) Physical findings.

(E) Laboratory and x-ray reports, if any.

(F) Diagnosis and therapeutic orders.

(G) Record of treatment including vital signs.

(H) Disposition of the case.

(I) Signature of the registered nurse.

(J) Signature of the licensed independent practitioner, if applicable.

(K) Signature of the physician, if applicable.

(L) Documentation if the patient left against medical advice.

(2) Medical records for patients treated by the emergency service shall be organized and where appropriate integrated with inpatient records. A method of filing (hard copy or electronic) shall be maintained which assures prompt retrieval.

(f) **Drug and biologicals distribution and control.** Drugs and biologicals in the emergency service shall be securely maintained and controlled by staff at all times. If the service does not have staff present at all times, all drugs and biologicals shall be secured in sealed or locked storage with devices placed to denote tampering. All Schedule II drugs shall be stored as specified by OAC 310:667-21-8(c). All drugs and biologicals shall be administered and dispensed as required by state law.

(g) **Patient examinations, treatments and transfers.** Patient examinations, treatments and transfers shall be conducted in accordance with 42 U.S.C. (1395dd) and 42 U.S.C. (1395cc) and with the regulations at 42 CFR part 489.20 and 489.24.

SUBCHAPTER 40. EMERGENCY HOSPITAL

310:667-40-1. General

An emergency hospital (EH) is a hospital that provides emergency treatment and stabilization services on a twenty four (24) hour basis that has the ability to admit and treat patients for short periods of time. The EH shall be the sole provider of hospital services in the community and is to allow the provision of emergency and stabilizing care in a community that is unable to support a general medical surgical or critical access hospital. The EH shall only provide emergency medical services and limited inpatient stabilization or observational care. Non-emergent surgical, scheduled obstetrical deliveries, and invasive diagnostic services requiring anesthesia or sedation shall not be provided. The EH shall be limited to no more than ten (10) inpatient stabilization and observational beds.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-2. Affiliations, communications and agreements

(a) **Affiliations.** The EH shall be affiliated with at least one (1) general medical surgical hospital to facilitate appropriate referrals and adequate support services. The affiliation shall be through a written agreement, contract for services, network affiliation, lease or through direct ownership by the supporting general medical surgical hospital.

(b) **Communications.** Direct communications shall be established between the EH and any facility providing support services. These communications shall include the electronic sharing of patient data which may include telemetry and diagnostic imaging if local telecommunications have this capability. As a minimum, the EH shall be

able to send and receive patient information by facsimile and/or computer modem.

(c) **Agreements.** The EH shall have a written agreement with an emergency medical service to accept and receive emergency transfers. This agreement shall provide arrangements for emergency and non-emergency transfers to and from the EH and stipulate the emergency and stabilizing treatment services available at the EH. Direct communications shall be established between the emergency medical service and the EH which allow the emergency medical service to directly contact the on-call physician or licensed independent practitioner and the on-call or on-site registered nurse providing emergency services.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-3. Stabilization or observational admissions

The EH shall establish inpatient stabilization and observational admission criteria appropriate to treat patients that require short periods of extended care that cannot be provided in an emergency room setting. The criteria may be based on diagnosis and patient acuity established by the medical and professional staff or the EH may use diagnosis related groups (DRGs). Such admission criteria shall not in any way be based on payer source. The criteria shall be established and revised as necessary by the medical and professional staff and approved by the governing body. Stabilizing emergency treatment services provided shall not be restricted by inpatient admission criteria.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-4. Basic requirements and services

The EH shall provide basic services as described in Sections 5 through 16 of this Subchapter and comply with Subchapters 1, 3 and 5 of this Chapter. The EH shall not provide additional services.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-5. Governing body

(a) **General.** The EH shall have an effective governing body legally responsible for all services and the quality of patient care provided.

(b) **Organization.** The governing body may be an organized board or owner designated individual(s). The method for appointment, terms, officers required, meeting requirements, duties, and responsibilities shall be established in written bylaws which shall be available at the EH. The governing body shall meet at established intervals and maintain minutes of meetings. Meetings may be conducted by teleconference if not otherwise prohibited by law.

(c) **Responsibilities.** The governing body's responsibilities shall include at least the following:

- (1) Appointment and reappointment of members of the medical and professional staff by methods established in approved bylaws.

These appointments shall be made based on recommendations received from the medical and professional staff and be consistent with state law.

(2) Approval of medical and professional staff bylaws, rules and regulations.

(3) Approval or denial of physician and practitioner privilege delineations recommended by the medical and professional staff.

(4) Consideration of reports received from the EH concerning the quality of care provided. The governing body shall require corrective actions as necessary when inadequate patient care is identified.

(5) Ensure patients are admitted and discharged for inpatient stabilization or observational care by a physician or licensed independent practitioner.

(6) Ensure a physician or licensed independent practitioner is available to communicate with EH staff at all times. A physician or licensed independent practitioner shall be physically available if necessary as specified by EH policy.

(7) Ensure adequate EH staff are physically available on-site to provide required emergency, stabilization, and observational services.

(8) Designation of an administrator who shall be responsible for managing the facility. This person may have duties in addition to management responsibilities.

(9) Ensure the EH is constructed, arranged, and maintained to ensure the safety of the patient, and to provide facilities for emergency, stabilization, and observational care provided.

(10) Ensure the EH is operated under an approved budget.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-6. Medical and professional staff

(a) **General.** The EH shall have an organized medical and professional staff responsible for the quality of care provided to all patients. The staff shall operate under bylaws approved by the governing body. The medical and professional staff may function as a part of an affiliated hospital's organized staff as long as individual physician and practitioner privileges are independently recommended and approved by the EH governing body. If staff functions are combined with an affiliated hospital, EH functions required by the medical and professional staff bylaws shall be independently identified and reviewed during combined staff meetings.

(b) **Composition.** The EH shall have a medical and professional staff composed of one (1) or more physicians or licensed independent practitioners. Privileges may also be extended to other health care professionals who are authorized by state law to provide treatment services.

(1) The staff shall periodically reexamine credentials and conduct appraisals of its members and make recommendations regarding reappointments and privilege delineations to the governing body. The staff shall also examine credentials of candidates for staff

membership and make recommendations regarding appointments and privileges extended.

(2) Temporary staff privileges may be extended to physicians and licensed independent practitioners and other professional staff as specified in the medical and professional staff bylaws.

(3) Patient admission quotas or revenue generation minimums shall not be a condition for appointment or reappointment.

(c) **Organization and accountability.** The medical and professional staff shall be well organized and accountable to the governing body for the quality of medical care provided to patients.

(1) The staff shall be organized and elect officers as required by approved medical staff bylaws.

(2) The staff shall meet at least quarterly as a committee of the whole to review the quality of medical care provided, fulfill committee functions specified in the staff bylaws, and to consider and recommend actions to the governing body. Meetings may include staff from the affiliated hospitals or other off-site physicians or practitioners who have privileges at the EH and may be conducted by teleconference. Minutes of meetings shall be maintained and available for review at the EH.

(d) **Medical and professional staff bylaws.** The medical and professional staff shall adopt and enforce bylaws to carry out their responsibilities. The medical staff bylaws shall:

(1) Be approved by the governing body.

(2) Include a statement of the duties and privileges of each category of the medical and professional staff. These categories shall include a category of licensed independent practitioner, and may include a category of supervised practitioner. All physicians and licensed independent practitioners with privileges may admit patients for stabilization or observational care.

(3) Describe the organization of the medical and professional staff.

(4) Describe the qualifications for each category of the medical and professional staff.

(5) Require each inpatient to have a history and physical examination performed no more than thirty (30) days before, or forty-eight (48) hours after, admission by a physician or licensed independent practitioner. The examination shall be approved and signed by the physician or licensed independent practitioner. The approval and signature may be performed electronically or by facsimile.

(6) When the medical history and physical examination are completed within thirty (30) days before admission, the hospital must ensure that an updated medical record entry documenting an examination for any changes in the patient's condition is completed. A review of the prior history and physical examination or an updated examination must be completed immediately upon admission and documented in the patient's medical record within forty-eight (48) hours.

(7) Specify the procedure for determining the privileges to be granted to individual physicians and practitioners initially and on

reappointment and the process for physicians and practitioners to request these privileges.

(8) Specify the mechanism to withdraw privileges of staff members and the circumstances when privileges shall be withdrawn.

(9) Specify the mechanism for appeal of decisions regarding staff membership and privilege delineations.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08]

310:667-40-7. Quality improvement

(a) **General.** There shall be an ongoing quality improvement program, approved by the governing body, which shall identify problems in the facility, suggest solutions, and monitor resolutions.

(b) **Quality improvement plan.** A written quality improvement plan shall be developed, approved, and implemented by the governing body with advice from the medical and professional staff. The plan shall include but not be limited to the following:

(1) Methods of evaluating all patient services to ensure quality of care, including those provided under contract.

(2) Methods of evaluating off-site health care services for appropriateness of use and the degree to which the services aid in the provision of quality patient care.

(3) The evaluation of nosocomial infections and accompanying medication therapy shall be linked to the hospital-wide quality improvement program through regular reporting to the medical and professional staff committee of the whole.

(4) Methods of evaluating physician and practitioner services to ensure these services are provided in conformance with facility policy and state law.

(5) Methods of evaluating on-call services to ensure staff are available as required.

(c) **Quality improvement committee.** The EH may establish a quality improvement committee or this function may be fulfilled by the medical and professional staff committee of the whole. Quality improvement activities shall be reported by facility staff to the committee at least every three (3) months or more frequently if findings require immediate action by the committee.

(d) **Quality improvement implementation.** There shall be documentation that the EH has taken appropriate action to address problems identified. The EH shall document the monitoring of the effectiveness of the proposed solutions.

(e) **Communication.** Quality improvement committee reports shall be communicated at least every three (3) months to the governing body. If the quality improvement committee meets separately from the medical and professional staff committee of the whole, these reports shall also be communicated at least every three (3) months to the medical and professional staff.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-8. Infection control program

(a) **General.** The EH shall establish an infection control program to provide a sanitary environment and avoid sources and transmission of infections. The program shall include written policies and procedures for identifying, reporting, evaluating and maintaining records of infections among patients and personnel. The program shall provide an ongoing review and evaluation of all aseptic, isolation and sanitation techniques employed in the hospital and coordinate training programs in infection control for all personnel.

(b) **Infection control committee.** The EH may establish an infection control committee (or equivalent) or this function may be fulfilled by the medical and professional committee of the whole. The committee shall meet at least quarterly.

(c) **Policies and procedures review.**

(1) The infection control committee shall evaluate, revise as necessary, and approve the type and scope of surveillance activities utilized at least annually.

(2) Infection control policies and procedures shall be reviewed periodically and revised as necessary, based on current scientific knowledge, accepted practice guidelines, and applicable laws and regulations.

(d) **Policies and procedures content.** The policies and procedures outlined for the infection control program shall be approved by the infection control committee and contain at least the following:

(1) A requirement that a record of all reported infections generated by surveillance activities include the identification and location of the patient, the date of admission, onset of the infection, the type of infection, the cultures taken, the results of cultures when known, any antibiotics administered and the physicians or practitioners responsible for care of the patient.

(2) Specific policies related to the handling and disposal of biomedical waste.

(3) Specific policies and procedures related to admixture and drug reconstitution, and the manufacture of intravenous and irrigating fluids.

(4) Specific policies regarding the indications for and types of isolation to be used for each infectious disease. These policies shall incorporate the concepts of standard precautions and the recommended transmission-based categories of contact, airborne, and droplet isolation procedures as deemed appropriate by the medical and professional staff.

(5) A definition of nosocomial infection.

(6) Designation of an infection control officer, who coordinates the infection control program.

(7) Policies for orienting new employees and an ongoing continuing education program for currently employed personnel concerning infection control. Written documentation shall be maintained indicating new employees have completed orientation and that all current personnel have attended continuing education.

310:667-40-9. Nursing service

(a) **General.** Each EH shall have an organized nursing service which provides twenty-four (24) hour nursing services for patients. The nursing service shall be supervised by a registered nurse.

(b) **Organization.** The nursing service shall be well-organized with written policies delineating administrative and patient care responsibilities. The director of nursing shall be a registered nurse who shall be responsible for the operation of the service, including determining the staff necessary to provide nursing care for the EH. Nursing care shall be provided as specified by written procedures approved by the director of nursing and the governing body. All nursing procedures shall be consistent with state and federal law and current standards of practice. Procedures shall be reviewed and revised as necessary.

(c) **Staffing.** The nursing service shall have adequate numbers of licensed nurses and other nursing personnel available to provide nursing care to all patients as needed based on patient census and acuity. At least one (1) registered nurse shall be on duty on-site to furnish or supervise all nursing services whenever patient care is provided. If the EH has no inpatients, the registered nurse may be available on an on-call basis provided he or she is available to return to the EH in a period of time not to exceed twenty (20) minutes.

(d) **Qualifications.**

(1) Individuals selected for the nursing staff shall be qualified by education and experience for the positions they are assigned. The EH shall verify current licensure of licensed nurses and maintain documentation of verification.

(2) The selection and promotion of nursing service personnel shall be based on their qualifications and capabilities. The director of nursing shall have input regarding the employment, promotion, evaluation and termination of all nursing service personnel.

(3) The qualifications required for each category of nursing staff shall be in written policy and job descriptions, and shall be available in the EH for reference. The functions of all nursing service personnel shall be clearly defined by written policy.

(e) **Delivery of care.**

(1) A registered nurse shall assess, plan, supervise, and evaluate the nursing care for each patient.

(2) Each inpatient shall have a nursing care plan that includes assessment, planning, intervention, and evaluation. Nursing care plans shall be revised as necessary.

(3) Nursing notes shall be informative and descriptive of the nursing care given and include assessment, interventions, and evaluation.

(4) All drugs and biologicals shall be administered in accordance with state and federal laws by authorized individuals. Orders for drugs and biologicals shall be in writing and signed by the

prescribing physician or practitioner who shall be authorized by law to write a prescription, with the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physician-approved hospital policy after an assessment for contraindications. When telephone or verbal orders for drugs, biologicals, treatments, and tests are used, they shall be given only to a practitioner authorized by administration to receive these orders and signed by the prescribing physician or practitioner or meet the requirements at OAC 310:667-19-2(c)(4). The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician.

(5) Blood products and intravenous medications shall be administered as required by EH written policy in accordance with state and federal law. EH staff administering blood products or intravenous medications shall be trained regarding hospital policies before they are allowed to carry out these responsibilities.

(6) There shall be an effective procedure for reporting transfusion and adverse drug reactions to the attending physician or licensed independent practitioner and the prescribing physician or practitioner. Errors in drug administration and adverse reactions shall be compiled and reported through the quality assurance committee to the medical and professional staff.

(7) All nursing service personnel shall be trained and currently certified to perform cardio-pulmonary resuscitation (CPR) and shall be knowledgeable of all EH emergency protocols.

(f) **Patient restraint.** If patients are physically restrained, the EH shall comply with all requirements specified in OAC 310:667-15-8. If patients are chemically restrained, the EH shall comply with all requirements specified in OAC 310:667-15-9.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08 ; Amended at 30 Ok Reg 1966, eff 7-25-13]

310:667-40-10. Food and nutritional services

(a) **General.** The EH shall directly provide or contract for organized food and nutritional services that are directed and staffed by qualified personnel. If the EH has a contract with an outside food management company to provide services on-site or cater food to the EH, the company shall comply with all requirements specified in this section.

(b) **Organization.**

(1) Clinical nutritional services shall be under the supervision and direction of a licensed/registered dietitian on a full-time, part-time, or consultant basis. The dietitian shall be responsible for approval of menus and modified diets, review of clinical policies and procedures, evaluation of nutritional services and staff

continuing education. If dietitian services are provided on a part-time or consultant basis, the responsibilities of the dietitian shall be clearly defined in a written job description and summary reports of consultant visits shall be written and on file. The dietitian shall be responsible for, or shall designate a person in writing, to carry out clinical nutritional activities. The clinical nutritional activities shall include but not be limited to patient and family counseling on modified diets as needed, any required nutritional assessments, and development of clinical nutritional policies and procedures. If dietitian services are provided on a part-time or consultant basis, a dietitian shall be available for telephone consultation daily and shall be able to approve menus and modified diets electronically.

(2) The food and nutritional services manager may or may not be a licensed/registered dietitian. If the manager is not a licensed/registered dietitian or certified dietary manager, the manager shall be responsible only for administrative management and shall not direct clinical nutritional activities.

(3) Personnel shall be adequate in number and training to carry out the preparation and serving of foods and other related functions with the proper and necessary sanitary procedures. The food service personnel shall complete a basic orientation program before working in the food service area. This orientation shall include, but not be limited to: basic dietary guidelines, infection control including food safety, and fire and safety precautions.

(c) Services and facilities.

(1) Equipment used in the preparation and handling of food shall bear the seal of the National Sanitation Foundation (NSF) or comply with the requirements of the NSF (Rules and Regulations Pertaining to Food Establishments).

(2) A nourishment room accessible to the nursing staff shall be provided for the preparation and serving of light refreshments. This room shall be equipped with equipment for warming food, a refrigerator, and a lavatory. This room may serve as the location for an ice machine.

(d) Diets and menus.

(1) At least three (3) palatable meals or their equivalent shall be served daily, at regular times with not more than fifteen (15) hours between a substantial evening meal and breakfast. Menus shall be planned and followed to meet nutritional needs of patients, in accordance with the prescribing physician or practitioner diet orders and to the extent medically possible, in accordance with the Dietary Reference Intakes (DRIs) of the Food and Nutrition Board of the Institute of Medicine, National Academy of Sciences.

(2) All diets shall be prescribed by the physician or practitioner responsible for the care of the patient. Modified diets shall be prescribed according to the latest edition of the Oklahoma Diet Manual or other equivalent approved manual. The Oklahoma Diet Manual or other equivalent approved diet manual shall be approved by the licensed/registered dietitian, the medical and

professional staff and the governing body. The manual shall be available to all medical, nursing, and food service personnel.

(3) Nourishments shall be available and may be offered at anytime in accordance with approved diet orders.

(4) Menus covering all prescribed diets shall be approved, dated, and periodically reviewed by a licensed/registered dietitian. Modified diet orders not covered with an approved menu shall be planned in writing, reviewed, and approved by a licensed/registered dietitian. The licensed/registered dietitian approval of the modified diet may be performed electronically.

(5) The portioning of menu servings shall be accomplished with the use of portion-control serving utensils.

(6) All modified diets shall be prepared separately, as necessary, from regular diets.

(7) An identification system shall be established to ensure that each patient receives the prescribed diet as ordered.

(e) Food preparation and storage.

(1) Potentially hazardous food, as defined in chapter 256 of this Title, shall be maintained at one hundred-forty (140)°F (approximately 60°C) or above or at an internal temperature of forty-one (41)°F (approximately 5°) or below. A product thermometer shall be available, metal stem-type numerically scaled indicating temperature, accurate to plus or minus two (2) degrees F and used to check internal food temperatures.

(2) Milk and milk products shall be served, handled and stored in accordance with the requirements of Chapter 256 of this Title.

(3) All ice which is in contact with food or drink shall come from a source approved by the Department. Storage, transportation, handling, and dispensing shall be in a sanitary manner, approved by the Department in accordance with Chapter 256 of this Title.

(f) Sanitation.

(1) The food and nutritional services shall be inspected and approved by state or local health agencies and licensed as a Food Service Establishment. Written reports of the inspections; e.g., Food Establishment Inspection Report Forms, shall be maintained with notations made of the action taken to correct violations.

(2) Storage, preparation, and serving of food shall be in compliance with the requirements of Chapter 256 of this Title, including adequate and proper space for each activity.

(3) The system used for dishwashing shall be approved by the Department and operated in accordance with approved procedures and requirements of Chapter 256 of this Title.

(4) Garbage and refuse shall be kept in durable, easily cleanable, insect-proof and rodent-proof containers that do not leak and do not absorb liquids. Adequate carriers and containers shall be provided for the sanitary collection and transportation of garbage and refuse from food service areas to the place of disposal in accordance with the requirements of Chapter 256 of this Title.

310:667-40-11. Medical record services

(a) **General.** The EH shall have medical record services that ensure a medical record is maintained for every patient evaluated or treated in the facility. Medical record services shall be appropriate to the scope and complexity of the services performed and shall ensure prompt completion, filing, and retrieval of records. In general, services such as transcription, computer indexing and coding, and electronic storage may be performed off-site as a contracted service as long as the medical record remains under the control of the EH. The EH shall ensure that medical records maintained by a contracted service remain confidential and can be immediately accessed by EH staff.

(b) **Reports to agencies and the Department.** The EH shall comply with all requirements specified in OAC 310:667-19-2(a) regarding the reports made to agencies and the Department.

(c) **Content.** The medical record shall contain information to justify patient admission and treatment, support the diagnosis, and describe the patient's progress and response to treatment and services received. All entries shall be legible and complete, and shall be authenticated and dated promptly by the person, identified by name and discipline, who is responsible for ordering, providing or evaluating the service furnished.

(1) The author of each entry shall be identified and shall authenticate their entry. Authentication may include written signatures or computerized or electronic entries. If computerized or electronic authentications are used, the EH shall comply with all requirements specified at OAC 310:667-19-10(e). Telephone or verbal orders shall be authenticated by the physician or practitioner giving the order or meet the requirements at OAC 310:667-19-2(c)(4). The person taking the telephone or verbal order shall read the order back to the physician or practitioner to ensure it was correctly understood and verify on the order the fact that the order was read back. Each facility, within its own procedures and protocols, shall establish a verification process to be placed on orders to demonstrate that the order was read back to the physician. Reports of history and physical examinations and discharge summaries shall be authenticated by the authorized physician or practitioner who performed the examination or produced the summary or meet the requirements at OAC 310:667-19-10(e) if authenticated by another physician or practitioner. Signature stamps may be used to authenticate entries in the medical record provided the requirements at OAC 310:667-19-10(d) are met.

(2) All inpatient records shall document the following as appropriate:

(A) Patient identifying information including individuals to be contacted in case of an emergency.

(B) Evidence of a physical examination, including a health history, performed not more than thirty (30) days prior to admission or within forty-eight (48) hours after admission. The history and physical examination shall be completed, signed and placed in the record within 48 hours of

admission.

(C) Admitting diagnosis.

(D) Results of all consultative evaluations of the patient and appropriate findings by clinical and other staff involved in the care of the patient.

(E) Documentation of complications, hospital acquired infections, and unfavorable reactions to any drug or biological.

(F) Properly executed informed consent forms for procedures and treatments performed. The medical and professional staff shall establish which procedures or treatments require informed consent consistent with Federal and State law.

(G) All physicians' and practitioners' orders, nursing notes, reports of treatment, medication records, diagnostic reports, vital signs and other information necessary to monitor the patient's condition.

(H) Discharge summary with outcome of hospitalization, disposition of case, medications at the time of discharge, and provisions for follow-up care.

(I) Reports. All reports and records shall be completed and filed within a period consistent with good medical practice and not longer than thirty (30) days following discharge.

(J) Final diagnosis.

(d) **Maintenance of records.** The EH shall maintain a medical record for each emergency, stabilization, or observational patient. Medical records shall be accurately written, promptly completed, properly filed and retained, and accessible. The EH shall use a system of author identification and record maintenance that ensures the integrity of the authentication and protects the security of all record entries.

(1) Medical records shall be retained at least five (5) years after the date the patient was last seen or at least of three (3) years after the date of the patient's death. Records of minors shall be retained three (3) years past the age of majority. Medical records may be maintained in their original form or may be preserved by other means as specified by OAC 310:667-19-14(b).

(2) The EH shall have, or provide, a system of coding and indexing medical records. The system shall allow for timely retrieval by diagnosis and procedure, in order to support medical care evaluation studies.

(3) Medical records shall be confidentially maintained.

Information from, or copies of, records shall be released only to authorized individuals in accordance with state law, and the EH shall ensure that unauthorized individuals cannot gain access to, or alter medical records. Original medical records shall be released only in accordance with federal or state laws or by court order.

(4) Facsimile copies shall be acceptable as any portion of the medical record. If the facsimile is transmitted on thermal paper, that paper shall be photocopied to preserve its integrity in the record. Facsimile copies shall be considered the same as original

copies.

(5) In the event of closure of the EH, the EH shall inform the Department of the disposition of the patient medical records. Disposition shall be in a manner to protect the integrity of the information contained in the medical record. These records shall be retained and disposed of as specified by OAC 310:667-19-14(b)(4).

[Source: Added at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 21 Ok Reg 2785, eff 7-12-04 ; Amended at 24 Ok Reg 1189, eff 4-2-07 (emergency); Amended at 25 Ok Reg 2472, eff 7-11-08 ; Amended at 30 Ok Reg 1966, eff 7-25-13]

310:667-40-12. Drug distribution

(a) **General.** The EH shall provide routine and emergency drugs and biologicals in a safe and accurate manner to meet the needs of the patients. The EH may provide all drug distribution services directly with a complete licensed hospital pharmacy or drug room, or services may be provided by contract with a licensed pharmacy. The medical and professional staff and the EH pharmacist shall be responsible for oversight of drug distribution services and shall approve policies and procedures that ensure compliance with state and federal laws and minimize drug errors. If required, the EH shall annually register with the Oklahoma State Board of Pharmacy.

(b) **Personnel.**

(1) The drug distribution service shall be directed by a pharmacist on a full-time, part-time, or consultant basis. The pharmacist shall be responsible for developing, supervising, and coordinating all activities of drug distribution in the EH. The responsibility and authority of the pharmacist shall be clearly defined in a written job description. All compounding, packaging, labeling and dispensing of drugs and biologicals shall be performed or directly supervised by the pharmacist.

(2) If the EH only maintains a drug room, drugs and biologicals shall be distributed and administered only to patients of the EH. The pharmacist director shall be available at least as a consultant and a registered or licensed practical nurse shall be designated in writing as the drug room supervisor to ensure drugs and biologicals are properly distributed and stored. The drug room supervisor may have other job responsibilities in the EH as long as drug distribution services are adequately maintained.

(c) **Delivery of services.**

(1) Drugs and biologicals shall be kept in a locked storage area and distributed in accordance with applicable standards of practice, consistent with state and federal laws. Outdated, mislabeled, or otherwise unusable drugs and biologicals shall not be maintained available for patient use. Storage of drugs and biologicals shall be in accordance with the manufacturer's instructions.

(2) Records shall be maintained of the transactions of the pharmacy or drug room to account for the receipt, distribution, disposition and destruction of all drugs and biologicals.

(3) A record of the stock of controlled dangerous drug substances on hand shall be maintained in a manner so that the disposition of any particular item may be readily traced. All Schedule II drugs shall be maintained as specified in OAC 310:667-21-8(c).

(4) All drugs and biologicals shall be provided to patients only upon written order of a physician or practitioner authorized by law to write a prescription, with the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physician-approved hospital policy after an assessment for contraindications. The prescriber's original order or a copy shall be available to the pharmacy or drug room prior to distributing or dispensing the drug or biological. The order may be electronically transmitted. Methods shall be provided to ensure the reconciliation of all drugs distributed for patient administration.

(5) Access to the pharmacy or drug room shall be restricted to authorized individuals when the pharmacist or drug room supervisor is unavailable. The EH shall establish written procedures which permit authorized individuals access, establish methods of maintaining drug inventory and control, and require record keeping of drugs removed.

(6) Floor stock medications shall be controlled and maintained to limit after hours access to the pharmacy or drug room. Distribution shall be in accordance with a floor stock drug list which shall be established for each floor stock area. A method shall be provided for reconciliation of floor stock drugs distributed for use in a procedure or for a particular patient. The pharmacist shall check all floor stock medication areas at least monthly to ensure records are accurate and stock continues to be suitable for use.

(7) Drugs and biologicals not specifically prescribed as to length of time or number of doses shall be automatically stopped after a reasonable time established by the medical and professional staff.

(8) Drug administration errors, adverse drug reactions, and incompatibilities shall be immediately reported to the attending physician or licensed independent practitioner. As appropriate, reports of errors and adverse reactions shall be made to the EH quality assurance committee.

(9) Abuse and loss of controlled substances shall be immediately reported to the pharmacist director and to the administrator who shall make required reports to local, state and federal authorities. If the EH maintains a pharmacy or drug room, the administrator, or the administrator's authorized representative, shall inventory pharmacy controlled substances and alcohol at least annually.

(10) Information relating to drug interactions, drug therapy, side effects, toxicology, dosage, indications for use, routes of administration and poison control shall be made available by the pharmacist director to nursing service and the medical and professional staff.

(11) Drugs and biologicals maintained by the EH shall be based on a formulary established by the medical and professional staff.

(d) **Physical facilities.** The EH shall maintain, as appropriate, adequate facilities to ensure drugs and biologicals are safely compounded, packaged, dispensed and stored as required. Equipment and supplies shall be provided to adequately protect personnel from toxic substances and to ensure the integrity of any medication or parenteral solution.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-13. Diagnostic services

(a) **Radiological services.** The EH shall maintain or have available diagnostic radiological services according to the needs of the patients.

(1) Radiological services shall be free from hazards for patients and personnel. Proper safety precautions shall be maintained against fire and explosion hazards, electrical hazards, and radiation hazards.

(2) Diagnostic x-ray equipment shall have a current permit issued by the Department and shall be inspected at least every two (2) years by a certified health physicist or by Department staff. Any identified hazards shall be promptly corrected.

(3) The hospital shall identify those employees who are subject to significant occupational exposure to radiation while performing their job duties. All such workers shall be checked periodically for amounts of radiation exposure by the use of exposure meters or badge tests.

(4) The EH shall have a qualified radiologist available on a full-time, part-time or consulting basis both to supervise services and interpret diagnostic images that require specialized knowledge for accurate reading. Diagnostic images may be electronically transmitted or delivered off-site for interpretation by the radiologist. The interpretation of radiological examinations shall be made by physicians or licensed independent practitioners competent in the field according to individually granted clinical privileges. Reports of interpretations shall be written or dictated and signed by the radiologist, physician, or licensed independent practitioner making the interpretation. All diagnostic image interpretations shall be incorporated into the patient's medical record with a duplicate copy kept with the image.

(5) The use of diagnostic x-ray equipment shall be limited to personnel designated as qualified by the radiologist and the medical and professional staff. Fluoroscopic procedures may be performed by radiology technologists only upon the written authorization of a qualified radiologist, and in the presence of a physician or licensed independent practitioner or by real time visualization through electronic means.

(6) The EH shall maintain copies of reports and diagnostic images for at least five (5) years.

(7) If the EH provides imaging services other than routine diagnostic x-ray, the EH shall comply with appropriate sections of OAC 310:667-23-2.

(b) **Laboratory services.**

(1) The EH shall have a well-organized, adequately supervised clinical laboratory with necessary staff, space, facilities, and equipment to perform those services commensurate with the needs of its patients. All or part of these services may be provided by arrangements with certified reference laboratories as long as services are available on an emergency basis twenty-four (24) hours a day.

(2) If a EH directly provides laboratory services, it shall meet all conditions as set forth in 42 CFR part 493 and be certified to perform testing on human specimens under the Clinical Laboratory Improvement Amendments of 1988 (CLIA '88). The EH shall possess a current, unrevoked or unsuspended certificate appropriate for the extent of testing performed issued by the Department of Health and Human Services applicable to the category of examinations or procedures performed by the facility.

(3) If an EH provides laboratory services under arrangement, the referral laboratory shall also meet the requirements of this section. Referral laboratories used by the EH shall have the ability to electronically transmit emergency test results.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-14. Emergency services

(a) **General.** The EH shall provide emergency stabilization and treatment services commensurate with emergency medical needs of the community and EH service area. All services shall be provided in accordance with acceptable standards of practice, compliant with applicable state and federal laws.

(b) **Organization and direction.** The service shall be directed by personnel deemed qualified by the governing body and integrated with the nursing stabilization and observation unit of the EH.

(1) Services shall be organized under the direction of a qualified member of the medical and professional staff. Nursing functions shall be the responsibility of a registered nurse and shall be supervised by the director of nursing.

(2) There shall be written policies and procedures that establish protocols for emergency services provided. Policies shall also include written procedures for stabilization and transfer of patients whose treatment needs cannot be met at the EH. EH emergency service policies shall include protocols for emergency deliveries if the patient cannot be safely transferred.

(c) **Facilities, medications, equipment and supplies.** Facilities, medications, equipment and supplies shall be provided to ensure prompt initial diagnosis and emergency medical treatment.

(1) The emergency services area shall be in close proximity to an exterior entrance of the EH.

(2) Medications commonly used in life-saving procedures shall be provided. These shall include but not be limited to the following drugs and biologicals: analgesics, local anesthetics, antibiotics, serums and toxoids, antiarrhythmics, cardiac glycosides,

antihypertensives, diuretics, electrolytes, plasma expanders and replacement solutions.

(3) Equipment and supplies commonly used in life-saving procedures shall be provided. These shall include but not be limited to: airways, endotracheal tubes, laryngoscope, ambu bag/valve/mask, obstetrics pack, tracheostomy set, oxygen, tourniquets, immobilization devices, nasogastric tubes, splints, IV therapy supplies, suction machine, defibrillator, cardiac monitor, chest tubes, and indwelling urinary catheters.

(4) The emergency service shall be equipped with a base station radio using medical frequencies VHF 155.340 or UHF Medical Channels 1 through 10 and/or compatible frequencies with emergency medical services operating in the area. Direct communications between the emergency service and the on-call physician or licensed independent practitioner and the on-call or on-site registered nurse shall be established as specified at OAC 310:667-40-2(b).

(d) **Medical and nursing personnel.** There shall be adequate medical and nursing personnel qualified in emergency care available at all times to meet the emergency service needs of the EH.

(1) A physician or licensed independent practitioner shall be available at all times to directly communicate with EH staff providing emergency care. The physician or licensed independent practitioner shall be able to be physically present at the EH as specified by written facility policy.

(2) A physician or licensed independent practitioner shall be on duty or on call at all times. This physician or practitioner shall be able to present at the EH in a period of time not to exceed twenty (20) minutes.

(3) A registered nurse shall be available at all times to assess, evaluate, and supervise the nursing care provided. If the EH has no inpatients, the registered nurse may be available on an on-call basis if he or she can return to the EH in a period of time not to exceed twenty (20) minutes when a patient presents to the emergency service. All emergency medical patients shall be evaluated on-site by a registered nurse unless the patient is evaluated on-site by a physician or licensed independent practitioner.

(4) Adequate support staff shall be available on-site to meet the emergency service needs of the EH. If the EH has no inpatients and registered nursing services are provided on an on-call basis, the emergency service shall be staffed with at least an intermediate or paramedic level emergency medical technician. All EH staff providing emergency services shall have current CPR certification.

(e) **Emergency medical records.**

(1) Adequate medical records on every patient shall be kept. Each record shall contain the following as applicable:

(A) Patient identification.

(B) Time and means of injury.

(C) History of disease or injury.

- (D) Physical findings.
- (E) Laboratory and x-ray reports, if any.
- (F) Diagnosis and therapeutic orders.
- (G) Record of treatment including vital signs.
- (H) Disposition of the case.
- (I) Signature of the registered nurse.
- (J) Signature of the physician or licensed independent practitioner, if applicable.
- (K) Documentation if the patient left against medical advice.

(2) Medical records for patients treated by the emergency service shall be organized and where appropriate integrated with inpatient records. A method of filing (hard copy or electronic) shall be maintained which assures prompt retrieval.

(f) **Drug and biologicals distribution and control.** Drugs and biologicals in the emergency service shall be securely maintained and controlled by staff at all times. If the service does not have staff present at all times, all drugs and biologicals shall be secured in sealed or locked storage with devices placed to denote tampering. All Schedule II drugs shall be stored as specified by OAC 310:667-21-8(c). All drugs and biologicals shall be administered and dispensed as required by state law.

(g) **Patient examinations, treatments and transfers.** Patient examinations, treatments and transfers shall be conducted in accordance with 42 U.S.C. (1395dd) and 42 U.S.C. (1395cc) and with the regulations at 42 CFR part 489.20 and 489.24.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-15. Outpatient services

(a) **General.** The EH may provide limited outpatient services consistent with the diagnostic and treatment capabilities of the facility. These services may be provided in the emergency services area or in a separate examination or treatment room.

(b) **Personnel.** The EH may provide limited outpatient services consistent with the diagnostic and treatment capabilities of the facility. These services may be provided in the emergency services area or in a separate examination or treatment room.

(1) A physician or licensed independent practitioner shall be responsible for the services provided to each patient.

(2) The director of nursing shall be responsible for all nursing services provided.

(3) Additional EH staff shall be available as necessary to provide required diagnostic and treatment services.

(c) **Medical records.** Medical records shall be maintained and integrated with the EH medical record system. Information contained in the medical record shall be complete and sufficiently detailed relative to the patient's history, physical examination, diagnosis, diagnostic procedures, medication administration, and treatment to facilitate continuity of care.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

310:667-40-16. Therapy services

(a) **Respiratory therapy.** If the EH provides respiratory therapy either directly or by contract, the services shall meet the requirements specified at OAC 310:667-23-5.

(b) **Physical and occupational therapy.** If the EH provides physical and/or occupational therapy either directly or by contract, the services shall meet the requirements specified at OAC 310:667-23-6.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03]

SUBCHAPTER 41. GENERAL CONSTRUCTION PROVISIONS

310:667-41-1. General

(a) The following national standards are incorporated by reference:

- (1) Facility Guidelines Institute (FGI): Guidelines for Design and Construction of Hospitals 2018 Edition; and
- (2) National Fire Protection Association (NFPA)101: Life Safety Code (LSC), 2012 Edition and 2012 LSC Tentative Interim Amendments (TIA) 12-1, 12-2, 12-3, and 12-4; and NFPA99 Health Care Facilities Code (HCFC), 2012 Edition, excluding Chapters 7,8, 12 and 13, and 2012 HCFC TIA 12-2, 12-3, 12-4, 12-5 and 12-6 adopted in 81 Federal Register 26871 by the Centers for Medicare& Medicaid Services on July 5, 2016.

(b) Oklahoma statutes prevail if there is conflict between the FGI Guidelines and Oklahoma statutes. For Medicare-certified hospitals, the Life Safety Code adopted by the Centers for Medicare & Medicaid Services prevails if there is a conflict between the Life Safety Code and this Chapter.

(c) A hospital may submit a request for exception or temporary waiver if the FGI Guidelines create an unreasonable hardship, or if the design and construction for the hospital property offers improved or compensating features with equivalent outcomes to the FGI Guidelines.

(d) The Department may permit exceptions and temporary waivers of the FGI Guidelines if the Department determines that such exceptions or temporary waivers comply with the requirements of 63 O.S. Section 1-701 et seq., this Chapter, and the following:

- (1) Any hospital requesting an exception or temporary waiver shall apply in writing on a form provided by the Department and pay the exception to, or temporary waiver of, FGI Guidelines fee set in OAC 310:667-47-1. The form shall include:
 - (A) The FGI Guidelines section(s) for which the exception or temporary waiver is requested;
 - (B) Reason(s) for requesting an exception or temporary waiver;
 - (C) The specific relief requested; and

- (D) Any documentation which supports the application for exception.
- (2) In consideration of a request for exception or temporary waiver, the Department shall consider the following:
 - (A) Compliance with 63 O.S. Section 1-701 et seq.;
 - (B) The level of care provided;
 - (C) The impact of an exception on care provided;
 - (D) Alternative policies or procedures proposed; and
 - (E) Compliance history with provisions of the FGI Guidelines, Life Safety Code and this Chapter.
- (3) The Department shall permit or disallow the exception or waiver in writing within forty-five (45) calendar days after receipt of the request.
- (4) If the Department finds that a request is incomplete, the Department shall advise the hospital in writing and offer an opportunity to submit additional or clarifying information. The applicant shall have thirty (30) calendar days after receipt of notification to submit additional or clarifying information in writing to the Department of Health, or the request shall be considered withdrawn.
- (5) A hospital which disagrees with the Department's decision regarding the exception or temporary waiver may file a written petition requesting relief through an individual proceeding pursuant to OAC 310:2 (relating to Procedures of the State Department of Health).
- (6) The Department may revoke an exception or temporary waiver through an administrative proceeding in accordance with OAC 310:2 and the Oklahoma Administrative Procedures Act upon finding the hospital is operating in violation of the exception or temporary waiver, or the exception or temporary waiver jeopardizes patient care and safety or constitutes a distinct hazard to life.
- (7) The Department shall publish decisions on requests for exceptions and waivers, subject to the confidentiality provisions of 63 O.S. Section 1-709.
- (e) Documentation of the hospital governing body's approval of the functional program shall be sufficient to meet the requirements in this Chapter relating to Department approval of the functional program.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 34 Ok Reg 1301, eff 10-1-17 ; Amended at 36 Ok Reg 1730, eff 9-13-19]

310:667-41-2. Renovation

(a) Where renovation or replacement work is done within an existing facility, all new work or additions, or both, shall comply, insofar as practical, with applicable sections of these standards and with appropriate parts of NFPA 101, 2000 edition, covering New Health Care Occupancies. Where major structural elements make total compliance impractical or impossible, exceptions may be considered by the Department. This does not guarantee that an exception shall be granted,

but does attempt to minimize restrictions on those improvements where total compliance would not substantially improve safety, but would create an unreasonable hardship. These standards shall not be construed as prohibiting a single phase of improvement. For example, a facility may plan to replace a flammable ceiling with noncombustible material but lacks funds to do other corrective work. However, they are not intended as an encouragement to ignore deficiencies when resources are available to correct life-threatening problems.

(b) When construction is complete, the facility shall satisfy functional requirements for the appropriate classification (general medical surgical hospital, psychiatric hospital, etc.) in an environment that shall provide acceptable care and safety to all occupants.

(c) In renovation projects and those making additions to existing facilities, only that portion of the total facility affected by the project shall comply with applicable sections of these standards and with appropriate parts of NFPA 101, 2000 edition, covering New Health Care Occupancies.

(d) Those existing portions of the facility which are not included in the renovation but which are essential to the functioning of the complete facility, as well as existing building areas that receive less than substantial amounts of new work shall, at a minimum, comply with that section of NFPA 101, 2000 edition, for Existing Health Care Occupancies.

(e) Conversion to other appropriate use or replacement shall be considered when cost prohibits compliance with acceptable standards.

(f) When a building is converted from one occupancy to another, it shall comply with the new occupancy requirements. For purpose of life safety, a conversion from a hospital to a nursing home or vice versa is not considered a change in occupancy.

(g) When parts of an existing facility essential to continued overall facility operation cannot comply with particular standards, those standards may be waived by the Commissioner of Health if patient care and safety are not jeopardized.

(h) Renovations, including new additions, shall not diminish the safety level that existed prior to the start of the work; however, safety in excess of that required for new facilities is not required.

(i) Nothing in this Chapter shall be construed as restrictive to a facility that chooses to do work or alterations as part of a phased long-range safety improvement plan. It is emphasized that all hazards to life and safety and all areas of noncompliance with applicable codes and regulations, shall be corrected as soon as possible in accordance with a plan of correction.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-41-3. Design standards for the disabled

(a) The Americans with Disabilities Act (ADA) extends comprehensive civil rights protection to individuals with disabilities. Under Titles II and III of the ADA, public, private, public service hospitals and other health care facilities shall comply with the "Accessibility Guidelines for Buildings and Facilities" (ADAAG) for alterations and new construction.

The "Uniform Federal Accessibility Standards" (UFAS) also provides criteria for the disabled. United States government facilities shall comply with a combination of UFAS and ADAAG using the most stringent criteria. Also available for use in providing quality design for the disabled is the American National Standards Institute (ANSI) A117.1 "American National Standard for Accessible and Usable Buildings and Facilities." (b) State and local standards for accessibility and usability may be more stringent than ADA, UFAS, or ANSI A 117.1. Designers and owners, therefore, shall assume responsibility for verification of all applicable requirements and comply with the most stringent standards.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-41-4. Provisions for disasters

(a) **General.** In locations where there is a history of tornadoes, flooding, earthquakes, or other regional disasters, planning and design shall consider the need to protect the life safety of all health care facility occupants and the potential need for continuing services following such a disaster. When consistent with their functional program and disaster planning, acute care facilities with emergency services can serve as receiving, triage and initial treatment centers in the event of nuclear, biological, or chemical (NBC) exposure. These facilities shall designate specific area(s) for these functions.

(b) **Wind and earthquake resistant design for new buildings.**

Facilities shall be designed to meet the requirements of the building codes specified in OAC 310:667-41-1, provided these requirements are substantially equivalent to American Society of Civil Engineers ASCE 7-93. Design shall meet the requirements of ASCE 7-93.

(1) For those facilities that must remain operational in the aftermath of a disaster, special design shall be required to protect systems and essential building services such as power, water, medical gas systems, and, in certain areas, air conditioning. In addition, consideration shall be given to the likelihood of temporary loss of externally supplied power, gas, water, and communications.

(2) The owner shall provide special inspection during construction of seismic systems described in Section A.9.1.6.2 and testing in Section A.9.1.6.3 of ASCE 7-93.

(3) Roof coverings and mechanical equipment shall be securely fastened or ballasted to the supporting roof construction and shall provide weather protection for the building at the roof. Roof covering shall be applied on clean and dry decks in accordance with the manufacturer's instructions, these standards, and related references. In addition to the wind force design and construction requirements specified, particular attention shall be given to roofing, entryways, glazing, and flashing design to minimize uplift, impact damage, and other damage that could seriously impair functioning of the building. If ballast is used it shall be designed so as not to become a projectile.

(c) **Flood protection.** Possible flood effects shall be considered when selecting and developing the site. Insofar as possible, new facilities shall not be located on designated flood plains. Where this is unavoidable, the United States Corps of Engineers regional office shall be consulted for the latest applicable regulations pertaining to flood insurance and protection measures that may be required.

(d) **Supplies.** Should normal operations be disrupted, the facility shall provide adequate storage capacity for, or a functional program contingency plan to obtain, the following supplies: food, sterile supplies, pharmacy supplies, linen, and water for sanitation. Such storage capacity or plans shall be sufficient for at least four (4) continuous days of operation.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-41-5. Codes and standards

(a) **Environment.** Every hospital shall provide and maintain a safe environment for patients, personnel, and the public.

(b) **References.** References made in these standards to appropriate model codes and standards do not, generally, duplicate wording of the referenced codes.

(1) NFPA's standards, especially the NFPA 101, are the basic codes of reference; but other codes and/or standards may be included as part of these standards. In the absence of state or local requirements, the project shall also comply with approved nationally recognized building codes except as modified in the 2000 edition of the NFPA 101, and/or herein.

(2) Referenced code material is contained in the issue current at the time of this publication. The latest revision of code material is usually a clarification of intent and/or general improvement in safety concepts and may be used as an explanatory document for earlier code editions. Questions of applicability shall be addressed as the need occurs. The actual version of a code adopted by a jurisdiction may be different. Confirm the version in a specific area with the authority having jurisdiction.

(c) **Equivalency.** Insofar as practical, these model standards have been established to obtain a desired performance result. Prescriptive limitations, when given, such as exact minimum dimensions or quantities, describe a condition that is commonly recognized as a practical standard for normal operation. For example, reference to a room area is for patient, equipment, and staff activities; this avoids the need for complex descriptions of procedures for appropriate functional planning.

(1) In all cases where specific limits are described, equivalent solutions shall be acceptable if the authority having jurisdiction approves them as meeting the intent of these standards. Nothing in this document shall be construed as restricting innovations that provide an equivalent level of performance with these standards in a manner other than that which is prescribed by this document, provided that no other safety element or system is compromised in order to establish equivalency.

(2) National Fire Protection Association (NFPA) document 101A is a technical standard for evaluating equivalency to certain Life Safety Code 101 requirements. The Fire Safety Evaluation System (FSES) has become widely recognized as a method for establishing a safety level equivalent to the Life Safety Code. It may be useful for evaluating existing facilities that will be affected by renovation. However, for purposes of these standards, the FSES shall not be used as a design code for new construction or major renovation in existing facilities.

(d) **English/Metric measurements.** Where measurements are a part of this document, English units are given as the basic standards with metric units in parenthesis. Either method shall be consistently used throughout a given design.

(e) **List of referenced codes and standards.** Codes and standards which have been referenced in whole or in part in the various sections of this document are listed below. Names and Internet addresses of originators are also included for information. The issues available at the time of publication are used. Later issues shall normally be acceptable where requirements for function and safety are not reduced; however, editions of different dates may have portions renumbered or retitled. Care shall be taken to ensure that appropriate sections are used.

SUBCHAPTER 47. SUBMITTAL REQUIREMENTS

310:667-47-1. Submission of plans and specifications and related requests for services

(a) **Submission of plans.** Before construction is begun, plans and specifications covering the construction of new buildings or major

alterations to existing buildings shall be submitted to the Department as provided in OAC 310:667-47-2 or OAC 310:667-47-10.

(1) Plans and specifications are required for the following alterations:

- (A) Changes that affect path of egress;
- (B) Change of use or occupancy;
- (C) Repurposing of spaces;
- (D) Structural modifications;
- (E) Heating, ventilation and air conditioning (HVAC) modifications;
- (F) Electrical modifications that affect the essential electrical system;
- (G) Changes that require modification or relocation of fire alarm initiation or notification devices;
- (H) Changes that require modification or relocation of any portion of the automatic fire sprinkler system;
- (I) Replacement of fixed medical equipment if the alteration requires any work noted in (A) through (H) of this paragraph;
- (J) Replacement of or modifications to any required magnetic or radiation shielding;
- (K) Changes to or addition of any egress control devices or systems.

(2) Plans and specifications are not required for the following alterations:

- (A) Painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work provided that the new finishes shall meet the requirements of this Chapter;
- (B) Ordinary repairs and maintenance;
- (C) Modifications to nurse call or other hospital signaling/communication/information technology systems provided the modifications meet the requirements of this Chapter; or
- (D) Replacement of fixed or moveable medical equipment that does not affect electrical, HVAC, or shielding requirements noted above.

(b) **Fees.** Each construction project submitted for approval under OAC 310:667-47-2 shall be accompanied by the appropriate review fee based on the cost of design and construction of the project. Review fees are as follows:

- (1) Project cost less than \$10,000.00: \$250.00 Fee
- (2) Project cost \$10,000.00 to \$50,000.00: \$500.00 Fee
- (3) Project cost \$50,000.00 to \$250,000.00: \$1000.00 Fee
- (4) Project cost \$250,000.00 to \$1,000,000.00: \$1500.00 Fee
- (5) Project cost greater than \$1,000,000.00: \$2000.00 Fee

(c) **Fees when greater than two (2) submittals required.** The review fee shall cover the cost of review for up to two (2) stage one and two (2) stage two submittals and one final inspection. If a stage one or stage two submittal is not approved after two (2) submissions, another review fee based on the cost of the project shall be required with the third submittal. Fast-track projects shall be allowed two reviews for each

package submitted. If a fast-track stage package is not approved after the second submittal, another review fee based on the cost of the project shall be required with the third submittal of the package.

(d) **Review process.** Design and construction plans and specifications shall be reviewed in accordance with the following process.

(1) Unless otherwise provided in this Subchapter, the Department shall have ten (10) calendar days in which to determine if the filed application is administratively complete

(A) Upon determining that the application is not administratively complete, the Department shall immediately notify the applicant in writing and shall indicate with reasonable specificity the inadequacies and measures necessary to complete the application. Such notification shall not require nor preclude further review of the application and further requests for specific information. If the Department fails to notify the applicant as specified in this Paragraph, the period for technical review shall begin at the close of the administrative completeness review period. Upon submission of correction of inadequacies, the Department shall have an additional ten (10) calendar days to review the application for completeness.

(B) Upon determination that the application is administratively complete, the Department shall immediately notify the applicant in writing. The period for technical review begins.

(2) The Department shall have forty-five (45) calendar days from the date a completed application is filed to review each application for technical compliance with the relevant regulations and reach a final determination.

(A) The time period for technical review is tolled (the clock stops) when the Department has asked for supplemental information and advised the applicant that the time period is tolled pending receipt.

(B) To make up for time lost in reviewing inadequate materials, a request for supplemental information may specify that up to 30 additional calendar days may be added to the deadline for technical review, unless the request for supplemental information is a second or later request that identifies new deficiencies not previously identified

(C) An application shall be deemed withdrawn if the applicant fails to supplement an application within 90 calendar days after the Department's request, unless the time is extended by agreement for good cause.

(D) Extensions may be made as provided by law.

(e) **Fees for other services.** Fees for other services related to construction projects are as follows:

(1) Request for exception to or temporary waiver of FGI Guidelines fee: Five Hundred Dollars (\$500.00);

- (2) Application for self-certification fee: One Thousand Dollars (\$1,000.00);
- (3) Courtesy inspection, prior to final inspection for approval of occupancy, fee: Five Hundred Dollars (\$500.00);
- (4) Professional consultation or technical assistance fee: Five Hundred Dollars (\$500.00) for each eight staff hours or major fraction thereof. For technical assistance requiring travel, the fee may be increased to include the Department's costs for travel.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 34 Ok Reg 1301, eff 10-1-17 ; Revoked at 36 Ok Reg 1730, eff 9-13-19]

310:667-47-2. Preparation of plans and specifications

(a) **Stage one.** Preliminary plans and outline specifications shall be submitted and include sufficient information for approval by the Department of the following: scope of project; project location; required fire-safety and exiting criteria; building-construction type, compartmentation showing fire and smoke barriers, bed count and services; the assignment of all spaces, areas, and rooms for each floor level, including the basement. A hospital has the option, at its own risk, to bypass the stage one submittal and proceed directly to submittal of stage two documents. The option to bypass the stage one submittal does not apply if the project is being submitted for the stage two fast-track project review.

(b) **Stage two.** A proposed construction document shall be submitted that includes final drawings and specifications adequate for approval by the Department. All final plans and specifications shall be appropriately sealed and signed by an architect registered by the State of Oklahoma. All construction modifications of approved documents are subject to review and approval, and shall be submitted timely.

(c) **Special submittals.**

(1) **Stage two fast-track projects.** The fast track process is a method for phased approval of a project as specified in this paragraph.

(A) Equipment and built-in furnishings are to be identified in the stage one submittal.

(B) The hospital has the option to submit two packages: civil, landscaping and structural in stage one, and the balance of the components in stage two.

(C) Fast-track projects shall have prior approval and be submitted in no more than four (4) separate packages.

(i) Site work, foundation, structural, underslab mechanical, electrical, plumbing work, and related specifications.

(ii) Complete architectural plans and specifications.

(iii) All mechanical, electrical, and plumbing plans and specifications.

(iv) Equipment and furnishings.

(D) The hospital may begin site work on packages after approval by the Department.

(2) **Radiation protection.** Any project that includes radiology or special imaging equipment used in medical diagnosis, treatment, and therapy of patients, shall include plans, specifications, and shielding criteria, prepared by a qualified medical physicist.

These plans shall be submitted and approved by the Department prior to installation of the equipment.

(d) **Floor plan scale.** Floor plans are to be submitted at a scale of one-eighth (1/8) inch equals one (1) foot, with additional clarifying documents as required.

(e) **Application form.** The submittal shall be made using a Department application form which requests information required by this Chapter and specifies the number of copies and format for document submittal.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 34 Ok Reg 1301, eff 10-1-17]

310:667-47-3. Construction and inspection

(a) Construction other than minor alterations, shall not be commenced until Stage Two planreview deficiencies have been satisfactorily resolved.

(b) Prior to commencing construction, the contractor shall submit a construction schedule which includes, as a minimum, the start date, dates that the heating-ventilation air-conditioning (HVAC), plumbing, and medical gas installation shall commence, and projected date of completion.

(c) The completed construction shall comply with the approved drawings and specifications, including all addenda or modifications approved for the project.

(d) A final construction inspection of the facility shall be conducted by the Department for the purpose of verifying compliance with these requirements and the approved plans and specifications. The facility shall not allow patient occupancy until a final approval is granted by the Department.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-47-4. Construction phasing

Projects involving alterations and/or additions to existing buildings shall be programmed and phased to minimize disruptions of retained, existing functions and shall not disrupt or interfere with patient care. Access, exits, and fire protection shall be maintained so that the occupants' safety shall not be jeopardized during construction.

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95]

310:667-47-5. Nonconforming conditions [REVOKED]

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Revoked at 36 Ok Reg 1730, eff 9-13-19]

310:667-47-6. Drawings. [REVOKED]

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Revoked at 36 Ok Reg 1730, eff 9-13-19]

310:667-47-7. Equipment manuals [REVOKED]

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Revoked at 36 Ok Reg 1730, eff 9-13-19]

310:667-47-8. Design data [REVOKED]

[Source: Added at 12 Ok Reg 1555, eff 4-12-95 (emergency); Added at 12 Ok Reg 2429, eff 6-26-95 ; Revoked at 36 Ok Reg 1730, eff 9-13-19]

310:667-47-9. Space occupied by other entities

(a) Areas within a licensed hospital facility that are leased to, or occupied by, a separate entity and comply with Health Care Occupancy requirements as specified by NFPA 101, 2000 edition, shall be separated from the licensed hospital by demising partitions that are rated not less than one (1) hour fire resistance. Lease areas that do not comply with Health care Occupancy requirements as specified by NFPA 101, 2000 edition, shall be separated from the licensed hospital by demising partitions that are rated not less than two (2) hour fire resistance.

(b) Lease areas shall have signage that clearly identifies tenant areas from hospital areas.

(c) The lease between the hospital and the tenant entity shall require that the tenant area shall be:

(1) Maintained to comply with NFPA 101 for Health care Occupancies;

(2) Included in the hospital's sprinkler systems, fire alarm systems, and fire drills; and

(3) Accessible to representatives of the Department to determine compliance with these standards.

(d) A copy of the executed lease agreement shall be submitted to the Department for review as part of the plan approval application process and a current copy shall be available for review by Department staff upon request.

[Source: Amended at 20 Ok Reg 1664, eff 6-12-03]

310:667-47-10. Self-certification of plans

(a) The Department shall make available professional consultation and technical assistance services covering the requirements of this section to a hospital considering self-certification of plans. The consultation and technical assistance is subject to the fee for professional consultation and technical assistance services set in OAC 310:667-47-1. The consultation is optional and not a prerequisite for filing a request through the self-certification review process.

(b) The hospital and the project architect or engineer may elect to request approval of design and construction plans through a self-certification review process. The hospital and the project architect or engineer shall submit a self-certification request on a form provided by the Department, along with a self-certification application fee set in OAC 310:667-47-1. The form shall be signed by the hospital and the project architect or engineer attesting that the plans and specifications are based upon and comply with the requirements of this Chapter. The form shall require information necessary to demonstrate compliance with OAC 310:667-47-10(c).

(c) To be eligible for self-certification, projects must comply with the following requirements:

(1) The project involves any portion of the hospital where patients are intended to be examined or treated and the total cost of design and construction is fifteen million dollars (\$15,000,000.00) or less; or

(2) The project involves only portions of the hospital where patients are not intended to be examined or treated; and

(3) The project architect or engineer attesting the application has held a license to practice architecture or engineering for at least five (5) years prior to the submittal of the application, is licensed to practice in Oklahoma; and

(4) The hospital owner/operator acknowledges that the Department retains the authority to:

(A) Perform audits of the self-certification review program and select projects at random for review;

(B) Review final construction documents;

(C) Conduct on-site inspections of the project;

(D) Withdraw approval based on the failure of the hospital or project architect or engineer to comply with the requirements of this Chapter; and

(5) The hospital agrees to make changes required by the Department to bring the construction project into compliance with this Chapter.

(d) Within twenty-one (21) calendar days after receipt of a complete application, the Department shall approve or deny the application for self-certification and send notification to the hospital. If the application is denied, the hospital shall have thirty (30) calendar days to submit additional or supplemental information demonstrating that the application complies with the requirements for self-certification of plans and specifications. The Department shall have fourteen (14) calendar days after receipt of supplemental information to reconsider the initial denial and issue a final approval or denial of the self-certification request.

(e) After denial of the application for self-certification and prior to the start of construction, the hospital shall pay the applicable fee for plan review specified in OAC 310:667-47-1(b)(1) through (5). Upon receipt of the plan review fee, the Department shall review the hospital's plans in accordance with the process in OAC 310:667-47-1(d).

SUBCHAPTER 49. GENERAL MEDICAL SURGICAL HOSPITAL CONSTRUCTION REQUIREMENTS [REVOKED]

310:667-49-1. General considerations [REVOKED]

SUBCHAPTER 56. CONSTRUCTION REQUIREMENTS FOR EMERGENCY HOSPITALS

310:667-56-1. General requirements

An emergency hospital shall generally comply with construction requirements specified for general medical surgical hospitals as specified at OAC 310:667-41. The emergency hospital shall not be required to meet construction standards for services not required, allowed, or provided.

[Source: Added at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 36 Ok Reg 1730, eff 9-13-19]

310:667-56-2. Existing facilities

A general medical surgical hospital or critical access hospital that converts to an emergency hospital shall be considered an existing facility and shall comply with the construction standards and codes that existed at the time of their construction. If the emergency hospital renovates, all new work shall comply, insofar as practical, as specified at OAC 310:667-41.

SUBCHAPTER 57. DAY TREATMENT PROGRAM STANDARDS

310:667-57-1. Definitions

When used in this Subchapter, the following words and terms shall have the following meaning, unless the context clearly indicates otherwise:

"Day treatment program" means *nonresidential, partial hospitalization programs, day treatment programs, and day hospital programs in which children and adolescents are placed for psychiatric or psychological treatment* {10 O.S. Supp. 1998, Section 175.20.A}.

[Source: Added at 16 Ok Reg 684, eff 1-5-99 (emergency); Added at 16 Ok Reg 1411, eff 5-27-99]

310:667-57-2. General

(a) In addition to meeting requirements listed for general medical surgical hospitals in OAC 310:667-1 through OAC 310:667-31, any general hospital or psychiatric hospital offering a day treatment program shall comply with the requirements of OAC 310:667-57.

(b) The day treatment program may be operated as a distinct unit within the hospital or as part of the hospital campus. Whether located within or apart from the hospital, the site for the day treatment program shall comply with the construction requirements in OAC 310:667-41 through OAC 310:667-47 as applicable based on the facility's functional program.

[Source: Added at 16 Ok Reg 684, eff 1-5-99 (emergency); Added at 16 Ok Reg 1411, eff 5-27-99 ; Amended at 36 Ok Reg 1730, eff 9-13-19]

310:667-57-3. Services

- (a) Each day treatment program shall have the capability to provide or arrange services as required under 10 O.S. Supp. 1998, Section 175.20.
- (b) Each day treatment program serving school-age patients shall have policies to ensure appropriate educational exposure for such patients.
- (c) Each day treatment program providing outpatient hospital day treatment services under OAC 317:30-5-42 shall demonstrate compliance with the requirements of OAC 317:30-5-42.

[Source: Added at 16 Ok Reg 684, eff 1-5-99 (emergency); Added at 16 Ok Reg 1411, eff 5-27-99]

SUBCHAPTER 59. CLASSIFICATION OF HOSPITAL EMERGENCY SERVICES

310:667-59-1. General

- (a) All hospitals that treat emergency patients must identify the extent of the stabilizing and definitive emergency services they provide. A hospital must also identify the classification level of the service it provides for the clinical areas listed in OAC 310:667-59-7.
- (b) All hospitals must participate in the state-wide trauma, stroke, and ST-Elevated Myocardial Infarction (STEMI) registries and submit the related data as required by the Department. Hospitals must submit data on the other emergency medical services they provide as required by the Department as the data collection tools to capture this information become available.

[Source: Added at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 25 Ok Reg 2785, eff 7-17-08 (emergency); Amended at 26 Ok Reg 2054, eff 6-25-09 ; Amended at 37 Ok Reg 1445, eff 9-11-20 ; Amended at 39 Ok Reg 1392, eff 9-11-22]

310:667-59-2. [RESERVED]

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-3. Inspections and deemed status

- (a) **Inspections by Department.** All hospitals required to have a license are subject to inspection by Department staff in accordance with OAC 310:667-1-4.
- (b) **Verifying Classification Level.** The Commissioner will designate survey teams to verify a hospital's emergency services are accurately classified for trauma and emergency operative services Levels II, III and IV, and all other classified emergency services. A survey team will include a physician, if the team inspects a hospital that provides trauma and emergency operative services at Level II or III. A hospital must report its level of emergency services through the Emergency Medical Services Classification Report (ODH Form 911). If it is determined a hospital does not comply with all the requirements for the Level stated on ODH Form 911, the Department will classify that service at the next lowest Level where all requirements are met.

(c) Verifying Level I and II Trauma and Emergency Operative Services Through ACS COT. A hospital verified as a Level I or Level II trauma center through an on-site review of their trauma services by a verification team from the American College of Surgeons Committee on Trauma (ACS COT) will be considered to have met the classification requirements for Trauma and Emergency Operative Services listed in OAC 310:667-59-9(c) or OAC 310:667-59-9(d). Such hospitals will be classified by the Department as providing definitive trauma and emergency operative services at either classification Level I or Level II as reported by the ACS based on the provisions of this Subchapter.

(d) Verifying Level II Trauma and Emergency Operative Services. The services provided by hospitals classified at Level II for Trauma and Emergency Operative Services may be verified by either ACS COT surveyors or other representatives considered qualified by the Commissioner.

(e) Verifying Level I Trauma and Emergency Operative Services. A hospital is classified at Level I for trauma and emergency operative services, if it is verified through an ACS COT on-site review that is based on the standards at OAC 310:667-59-9(d).

(f) Verifying Level I and II Stroke Services. The Department must grant Level I or Level II Stroke Center classification to hospitals holding current verification as a Primary Stroke Center issued through an on-site review of their emergency stroke services by a verification team from The Joint Commission. Such classification will be granted to hospitals that meet the requirements of a Level I or Level II Stroke Center as specified at OAC 310:667-59-20 (relating to the classification of emergency stroke services) and verified by the accrediting organization.

[Source: Added at 17 Ok Reg 2992, eff 7-13-00 ; Amended at 20 Ok Reg 1664, eff 6-12-03 ; Amended at 21 Ok Reg 573, eff 1-12-04 (emergency); Amended at 21 Ok Reg 2785, eff 7-12-04 ; Amended at 25 Ok Reg 2785, eff 7-17-08 (emergency); Amended at 26 Ok Reg 2054, eff 6-25-09 ; Amended at 36 Ok Reg 1730, eff 9-13-19 ; Amended at 39 Ok Reg 1392, eff 9-11-22]

310:667-59-4. [RESERVED]

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-5. Notification

(a) Each hospital must notify the regional emergency medical services system control when treatment services are at maximum capacity and emergency patients should be diverted to another hospital (divert status).

(1) If the hospital is located in an area where no regional emergency medical services system control is active, the hospital must notify each entity providing emergency medical services, such as ambulance services, in their catchment area.

(2) Each hospital must maintain written records that include the date and time of the start and end of each divert status interval.

(b) Each hospital must maintain written criteria that describe the conditions under which any one or all of the hospital's emergency services are at maximum capacity.

(c) A hospital classified at Level I or Level II for Trauma and Emergency Operative Services or as a Primary Stroke Center must notify the Department in writing or by facsimile or other electronic means 24 hours of the complete loss of verified status as a Level I or Level II trauma center by ACS COT, or as a Primary Stroke Center by the Joint Commission.

(d) A hospital must notify the Department in writing or by facsimile or other electronic means within 24 hours if it is unable to provide any classified emergency medical service at the current classified level. If the interruption of service is expected to be brief and the hospital notifies the Department promptly, at the discretion of the Commissioner, it may not be necessary to permanently reclassify the service to a lower Level.

(e) To request a permanent change in classification for any classified emergency medical service a hospital must notify the Department in writing and submit a new Emergency Medical Services Classification Report (ODH Form 911) at least 30 days before the effective date of the change.

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-7. Clinical categories of emergency medical services

The level of stabilizing and definitive emergency medical services provided by each hospital will be identified for each of the following clinical categories according to the classification criteria in OAC 310:667-59-9 through OAC 310:667-59-25.

- (1) Trauma and emergency operative services;
- (2) Cardiology;
- (3) Pediatric medicine and trauma;
- (4) Dental;
- (5) Obstetrics/Gynecology;
- (6) Ophthalmology;
- (7) Stroke services;
- (8) Neurology;
- (9) Psychiatry; and
- (10) General Medicine.

310:667-59-8. [RESERVED]

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-9. Classification of trauma and emergency operative services

(a) **Level IV.** A Level IV hospital will provide emergency medical services with at least a licensed independent practitioner, registered nurse, licensed practical nurse, or intermediate or paramedic level emergency medical technician on site 24 hours a day. A hospital must be classified at Level IV for trauma and emergency operative services if it complies with all of this subsection (a):

(1) **Clinical services and resources.** No diagnostic, surgical, or medical specialty services are required.

(2) **Personnel.** A physician, licensed independent practitioner, registered nurse, licensed practical nurse, or an Intermediate, Advanced Emergency Medical Technician (AEMT), or paramedic, as defined in OAC 310:641-7, is required on site 24 hours a day. In the absence of a physician, licensed independent practitioner, registered nurse, or paramedic, at least one of the practitioners on duty must have received training in advanced life support techniques and must be competent to initiate treatment of the emergency patient.

(3) **Supplies and equipment.** The hospital must have equipment for use in the resuscitation of patients of all ages on site, functional, and immediately available, including the following:

(A) Airway control and ventilation equipment, including laryngoscopes and endotracheal tubes of all sizes, bag-mask resuscitator, pocket masks, and oxygen;

(B) Suction devices;

(C) Electrocardiograph-oscilloscope-defibrillator-pacer;

(D) Standard intravenous fluids and administration devices, including large-bore intravenous catheters;

(E) Sterile surgical sets for:

(i) Airway control/cricothyrotomy;

(ii) Vascular access; and

(iii) Chest decompression.

(F) Equipment for gastric decompression;

(G) Drugs necessary for emergency care;

(H) Two-way communication with vehicles of emergency transport system as required at OAC 310:667-29-1(c)(4); and

(I) Thermal control equipment for patients.

(4) **Agreements and policies on transfers.**

(A) The hospital must have written policies defining the medical conditions and circumstances for those emergency patients that may be retained for treatment in-house, and for those who require stabilizing treatment and transfer to another hospital.

(B) The hospital must have a transfer agreement with a hospital capable of providing trauma care for severely injured patients. This agreement must include reciprocal provisions requiring the hospital to accept return transfers of patients at such time as the hospital has the capability and capacity to provide needed care and cannot incorporate financial provisions for transfers.

- (C) The hospital must have transfer agreements with a hospital capable of providing burn care in a physician-directed, organized burn care center with a staff of nursing personnel trained in burn care and equipped properly for care of the extensively burned patient.
- (D) The hospital must have transfer agreements with a hospital capable of providing acute spinal cord and head injury management and rehabilitation.
- (E) The hospital must have transfer agreements with a hospital capable of providing rehabilitation services in a rehabilitation center with a staff of personnel trained in rehabilitation care and equipped properly for acute care of the critically injured patient.

(5) **Quality Improvement.** In addition to any other quality improvement requirements governing the hospital to, the quality improvement program must also include the following subjects:

- (A) Trauma registry;
- (B) Audit for all trauma deaths to include prehospital care and care received at a transferring hospital;
- (C) Morbidity and mortality review;
- (D) Medical nursing audit, utilization review, tissue review; and
- (E) The availability and response times of on call staff specialists is defined in writing, documented, and continuously monitored.

(b) **Level III.** A Level III hospital will provide emergency medical services with an organized trauma service and emergency department. A physician and nursing staff with special capability in trauma care are required on site 24 hours a day. General surgery and anesthesiology services will be available either on duty or on call. A hospital must be classified at Level III for trauma and emergency operative services if it complies with all of this subsection (b):

(1) **Clinical services and resources.**

(A) **Trauma service.** A trauma service will be established by the medical staff and will be responsible for coordinating the care of injured patients, the training of personnel, and trauma quality improvement.

- (i) Privileges for physicians participating in the trauma service will be determined by the medical staff credentialing process.
- (ii) All patients with multiple-system or major injury will be evaluated by the trauma service.
- (iii) The surgeon responsible for the overall care of the admitted patient must be identified.

(B) **Emergency services.** A physician competent in the care of the critically injured and credentialed by the hospital to provide emergency medical services and nursing personnel with special capability in trauma care must be on site 24 hours a day. The emergency service may also serve as the trauma service.

(C) **General surgery.** A board certified, board eligible, or residency trained general surgeon must be on call 24 hours a day and promptly available in the emergency department.

(D) **Anesthesia.** Anesthesia services must be on call 24 hours a day, promptly available, and administered in accordance with OAC 310:667-25-2.

(E) **Internal medicine.** A physician board certified, board eligible, or residency trained in internal medicine must be on call 24 hours a day and promptly available in the emergency department.

(F) **Orthopedic Surgery.** A physician board certified, board eligible, or residency trained in orthopedics and competent in the care of orthopedic emergencies must be on site or on call 24 hours a day and promptly available in the emergency department. In the absence of the orthopedic surgeon, a physician designated by the trauma director and credentialed to provide stabilizing emergency orthopedic treatment may provide care prior to transfer.

(G) **Operating suite.** An operating suite with thermal control equipment for patients and infusion of blood and fluids must be available 24 hours a day.

(H) **Post-anesthesia recovery unit.** The hospital is required to have a post-anesthesia recovery room or intensive care unit that is in compliance with OAC 310:667-15-7 with the nursing personnel and anesthesia services remaining in the unit until the patient is discharged from post-anesthesia care.

(I) **Intensive care unit.** The hospital's intensive care unit must include:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the intensive care unit, when it has a patient;
- (iii) A registered nurse on call and immediately available when it does not have a patient; and
- (iv) Written policies defining the minimum staffing requirements for the intensive care unit that are monitored for compliance through the quality improvement program.

(J) **Diagnostic imaging.** The hospital must have diagnostic x-ray services available 24 hours a day. A radiology technologist must be on duty or on call and immediately available 24 hours a day.

(K) **Clinical laboratory service.** The hospital must have clinical laboratory services available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories provided these services are available on an emergency basis 24 hours a day. These services include:

- (i) Comprehensive immunohematology services including blood typing and compatibility testing;

- (ii) A supply of blood and blood products on hand that is properly stored and adequate to meet expected patient needs;
- (iii) Access to services provided by a community central blood bank;
- (iv) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (v) Coagulation studies;
- (vi) Blood gas/pH analysis;
- (vii) Comprehensive microbiology services or appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures; and
- (viii) Drug and alcohol screening.

(L) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(M) **Burn Care.**

- (i) The hospital must provide burn care in a physician-directed, organized burn care center with nursing staff personnel trained in burn care and equipped properly for care of the extensively burned patient; or
- (ii) If the hospital is unable to satisfy (i) of this subparagraph (M), it must have a written transfer agreement with a hospital that meets the requirement of (i) of this subparagraph (M).

(N) **Spinal cord and head injury management.**

- (i) The hospital must provide acute spinal cord and head injury management; or
- (ii) If the hospital is unable to satisfy (i) of this subparagraph (N), it must have a written transfer agreement with a hospital that provides acute spinal cord and head injury management and comprehensive rehabilitation services.

(O) **Rehabilitation services.**

- (i) The hospital must provide rehabilitation services in a rehabilitation center with a staff of personnel trained in rehabilitation care and equipped properly for acute care of the critically injured patient; or
- (ii) If the hospital is unable to satisfy (i) of this subparagraph (O), it must have a written transfer agreement with a hospital that satisfies (i) of this subparagraph (O) and the requirements of Subchapter 35 of this Chapter.

(2) **Personnel.**

(A) **Trauma service director.** The medical staff will designate surgeon as trauma service director. The trauma

service director's responsibilities include:

- (i) all trauma patients and administrative authority for the hospital's trauma program, through the quality improvement process; and
- (ii) recommending appointments and removals from the trauma service.

(B) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director. The emergency services director may serve as the trauma service director.

(C) **Surgical director.** The medical staff will designate a surgeon credentialed by the hospital to be the director of care for surgical and critical care for trauma patients.

(3) **Supplies and equipment.**

(A) **Emergency department.** The emergency department must have equipment for use in the resuscitation of patients of all ages on site, functional, and available in the emergency department, including the following:

- (i) Airway control and ventilation equipment, including laryngoscopes and endotracheal tubes of all sizes, bag-mask resuscitator, pocket masks, and oxygen;
- (ii) Pulse oximetry;
- (iii) Suction devices;
- (iv) Electrocardiograph-oscilloscope-defibrillator-pacer;
- (v) Apparatus to establish central venous pressure monitoring;
- (vi) Standard intravenous fluids and administration devices, including large-bore intravenous catheters;
- (vii) Sterile surgical sets for:
 - (I) Airway control/cricothyrotomy;
 - (II) Thoracotomy;
 - (III) Vascular access; and
 - (IV) Chest decompression.
- (viii) Equipment for gastric decompression;
- (ix) Drugs necessary for emergency care;
- (x) Two-way communication with vehicles of emergency transport system as required at OAC 310:667-29-1(c)(4);
- (xi) Skeletal traction devices including cervical immobilization device; and
- (xii) Thermal control equipment for patients and infusion of blood, blood products, and other fluids.

(B) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit must have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;

- (ii) Pulse oximetry;
- (iii) End-tidal CO₂ determination; and
- (iv) Thermal control equipment for patients and infusion of blood, blood products, and other fluids.

(C) **Intensive care unit.** The intensive care unit must have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;
- (ii) Cardiopulmonary resuscitation cart;
- (iii) Electrocardiograph-oscilloscope-defibrillator-pacer;
- (iv) Sterile surgical sets for:
 - (I) Airway control/cricothyrotomy;
 - (II) Thoracotomy;
 - (III) Vascular access; and
 - (IV) Chest decompression.

(4) **Policies on transfers.** The applicable policies on transfers for a Level III hospital are as set forth in (a)(4)(A) and (a)(4)(B) of this Section (relating to agreement and policies on transfers).

(5) **Quality Improvement.** In addition to any other quality improvement requirements governing the hospital, the quality improvement program must also include the following subjects:

- (A) all the quality improvement subjects listed for Level IV classification set forth in (a)(5) of this Section;
- (B) Published on call schedules for surgeons, neurosurgeons, and orthopedic surgeons; and
- (C) Review of the times and reasons for trauma-related bypass.

(6) **Continuing education.** The hospital will provide and document formal continuing education programs for physicians, nurses, and allied health personnel.

(7) **Organ Procurement.** The hospital, in association with an organ procurement organization certified by the CMS, will create and maintain policies and procedures to identify and refer potential organ donors.

(c) **Level II.** A Level II hospital will provide emergency medical services with an organized trauma service and emergency department. A physician and nursing staff with special capability in trauma care will be on site 24 hours a day. General surgery, anesthesiology, and neurosurgery services will be available on site or on call 24 hours a day. Services from an extensive group of clinical specialties including cardiology, internal medicine, orthopedics, and obstetrics/gynecology must be promptly available on call. A hospital must be classified at Level II for trauma and emergency operative services if it complies with all of this subsection (c):

(1) **Clinical services and resources.**

(A) **Trauma service.** A Level II hospital is subject to the same trauma service requirements as a Level III hospital as set forth in (b)(1)(A) of this Section.

(B) **Emergency services.** A physician competent in the care of the critically injured and credentialed by the

hospital to provide emergency medical services; and nursing personnel with special capability in trauma care must be on site 24 hours a day.

(C) **General surgery.** A general surgeon or senior surgical resident competent and appropriately credentialed by the hospital must be on site or on call 24 hours a day and promptly available in the emergency department.

(D) **Anesthesia.** A board certified, board eligible, or residency trained anesthesiologist must be on site or on call 24 hours a day and promptly available in the emergency department. If the anesthesiologist is not present in the hospital, before the physician's arrival, anesthesia services may be provided by a certified registered nurse anesthetist (CRNA). The CRNA must be competent in the assessment of emergent situations in trauma patients and of initiating and providing any indicated treatment. All anesthesia must be administered in accordance with OAC 310:667-25-2.

(E) **Neurologic surgery.** A board certified, board eligible, or residency trained neurosurgeon or other physician competent in the care of patients with neurotrauma and appropriately credentialed must be on site or on call 24 hours a day and promptly available in the emergency department. If care is initiated by a physician other than a neurosurgeon, the neurosurgeon on call will respond as required by the hospital's policy.

(F) **Other specialties.** The hospital must also have services from the following specialties on call and promptly available:

- (i) Cardiac surgery;
- (ii) Cardiology;
- (iii) Internal medicine;
- (iv) Obstetric/gynecologic surgery;
- (v) Ophthalmic surgery;
- (vi) Oral/maxillofacial surgery;
- (vii) Orthopedic surgery;
- (viii) Otolaryngology;
- (ix) Pediatrics;
- (x) Plastic surgery;
- (xi) Clinical licensed psychologist or psychiatrist;
- (xii) Pulmonary medicine;
- (xiii) Radiology;
- (xiv) Thoracic surgery; and
- (xv) Urology and urologic surgery.

(G) **Operating suite.** An operating suite with adequate staff and equipment must be immediately available 24 hours a day. The hospital must have written policies defining the minimum staffing requirements for the operating suite. An on call schedule for emergency replacement staff will be maintained.

(H) **Post-anesthesia recovery unit.** A level II hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(1)(H) of this Section.

(I) **Intensive care unit.** The hospital's intensive care unit must include:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the intensive care unit when it has a patient;
- (iii) A registered nurse on call and immediately available when the unit does not have a patient;
- (iv) A physician with privileges in critical care on duty in the unit or immediately available 24 hours a day; and
- (v) Written policies defining the minimum staffing requirements for the intensive care unit that are continuously monitored for compliance through the quality improvement program.

(J) **Diagnostic Imaging.** The hospital's diagnostic x-ray services must be available 24 hours a day. A radiologic technologist and computerized tomography technologist will be on duty or on call and immediately available 24 hours a day. A single technologist designated as qualified by the radiologist in both diagnostic x-ray and computerized tomography procedures may be used to meet this requirement if an on call schedule of additional diagnostic imaging personnel is maintained. The diagnostic imaging service provides the following services:

- (i) Angiography;
- (ii) Ultrasonography;
- (iii) Computed tomography;
- (iv) Magnetic resonance imaging;
- (v) Neuroradiology; and
- (vi) Nuclear medicine imaging.

(K) **Clinical laboratory service.** A Level II hospital is subject to the same clinical laboratory service requirements as a Level III hospital as set forth in (b)(1)(K) in this Section.

(L) **Respiratory therapy.** Routine respiratory therapy procedures and mechanical ventilators will be available 24 hours a day. Respiratory therapy services will comply with OAC 310:667-23-6.

(M) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(N) **Burn Care.** A Level II hospital is subject to the same burn care requirements as a Level III hospital as set forth in (b)(1)(M) of this Section.

(O) **Spinal cord and head injury management.** The hospital must provide acute spinal cord and head injury management including at least the ability to initiate

rehabilitative care prior to transfer and must have a written transfer agreement with a hospital that provides comprehensive rehabilitation services.

(P) **Rehabilitation services.** A Level II hospital is subject to the same rehabilitation services requirements as a Level III hospital as set forth in (b)(1)(O) of this Section.

(2) **Personnel.**

(A) **Trauma service director.** A Level II hospital is subject to the same trauma service director requirements as a Level III hospital as set forth in (b)(2)(A) of this Section.

(B) **Trauma coordinator.** The hospital must have a designated trauma coordinator who may also serve as the prevention coordinator. Under the supervision of the trauma service director, the trauma coordinator is responsible for organizing the services and systems of the trauma service to ensure there is a multidisciplinary approach throughout the continuum of trauma care. The trauma coordinator's responsibilities include:

- (i) Clinical activities such as design of clinical protocols, monitoring care, and assisting the staff in problem solving;
- (ii) Educational activities such as professional staff development, case reviews, continuing education, and community trauma education and prevention programs;
- (iii) Quality improvement activities such as development of quality monitors, audits, and case reviews in all phases of trauma care;
- (iv) Administrative tasks for the trauma service such as those related to services' organization, personnel, budget preparation, and accountability;
- (v) Trauma registry data collection, coding, scoring, and validation; and
- (vi) Consultation and liaison to the medical staff, prehospital emergency medical service agencies, patient families, and the community at large.

(C) **Prevention coordinator.** The hospital must have a designated prevention coordinator who may also serve as the trauma coordinator. Under the supervision of the trauma director, the prevention coordinator is responsible for the organization and management of the hospital's outreach, prevention, and public education activities.

(D) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(E) **Surgical director.** A Level II hospital is subject to the same surgical director requirements as a Level III hospital as set forth in (b)(2)(C) of this Section.

(3) **Supplies and equipment.**

(A) **Emergency department.** The emergency department must have equipment for use in the resuscitation of patients of all ages on site, functional, and available in the emergency department, including at least the following:

- (i) All the emergency department equipment listed for Level III classification as set forth in (b)(3)(A) of this Section;
- (ii) End-tidal CO₂ determination; and
- (iii) Arterial catheters.

(B) **Operating suite.** The operating suite must have the following supplies and equipment on site, functional and available for use:

- (i) Thermal control equipment for patients and infusion of blood, blood products, and other fluids;
- (ii) X-ray capability including c-arm intensifier;
- (iii) Endoscopes;
- (iv) Craniotomy instruments; and
- (v) Equipment appropriate for fixation of long-bone and pelvic fractures.

(C) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit must have the following supplies and equipment on site, functional, and available for use:

- (i) All the post-anesthesia recovery unit supplies and equipment listed for a Level III classification as set forth in (b)(3)(B) of this Section; and
- (ii) Equipment for the continuous monitoring of intracranial pressure.

(D) **Intensive care unit.** A Level II hospital is subject to the same intensive care unit requirements as a Level III hospital as set forth in (b)(3)(C) of this Section.

(4) **Policies on transfers.** The hospital must have written policies defining the medical conditions and circumstances for those emergency patients which may be retained for treatment in-house, and for those who require stabilizing treatment and transfer to another hospital.

(5) **Quality Improvement.** The hospital will establish a multidisciplinary trauma committee composed of the trauma service director, emergency services director, trauma coordinator, and other members of the medical and nursing staff that treat trauma and emergency operative patients. The trauma committee will meet regularly to review and evaluate patient outcomes and the quality of care provided by the trauma service. In addition to any other requirements of this Chapter, the hospital quality improvement program must include:

- (A) Trauma registry;
- (B) Audit for all trauma deaths to include prehospital care and care received at a transferring hospital;
- (C) Morbidity and mortality review;
- (D) Medical nursing audit, utilization review, tissue review;
- (E) Regularly scheduled multidisciplinary trauma and emergency operative services review conferences;

- (F) Published on call schedules for surgeons, neurosurgeons, and orthopedic surgeons;
- (G) Review of the times and reasons for trauma-related bypass;
- (H) The availability and response times of on call staff specialists will be defined in writing, documented, and continuously monitored; and
- (I) Quality improvement staff with time dedicated to and specific for trauma and emergency operative services.

(6) **Continuing education.** The hospital will provide and document formal continuing education programs for physicians, nurses, and allied health personnel. Continuing education programs will be available to all state physicians, nurses, allied health personnel, and emergency medical service providers.

(7) **Organ Procurement.** The hospital, in association with an organ procurement organization certified by CMS, will create and maintain policies and procedures to identify and refer potential organ donors.

(8) **Outreach programs.** The hospital will have organized outreach programs under the direction of a designated prevention coordinator.

(A) **Consultation.** The hospital will provide on-site and/or electronic consultations with community health care providers and those in outlying areas as requested and appropriate.

(B) **Prevention and public education programs.** The hospital will serve as a public information resource and collaborate with other institutions and national, regional, and state programs in research and data collection projects in epidemiology, surveillance, and injury prevention, and other areas.

(d) **Level I.** A Level I hospital will provide emergency medical services with an organized trauma service and emergency department. A physician and nursing staff with special capability in trauma care will be on site 24 hours a day. General surgery, anesthesiology, and neurosurgery services will be available on site or on call 24 hours a day. Additional clinical services and specialties such as nuclear diagnostic imaging, cardiac surgery, hand surgery, and infectious disease specialists must be promptly available. A Level I hospital must have an organized trauma research program with a designated director. A hospital must be classified as Level I for trauma and emergency operative services if it complies with all of this subsection (d):

(1) **Clinical services and resources.**

(A) **Trauma service.** A level I hospital is subject to the same trauma service requirements as a Level III hospital as set forth in (b)(1)(A) of this Section.

(B) **Emergency services.** A Level I hospital is subject to the same emergency services requirement as a Level II hospital as set forth in (c)(1)(B) of this Section.

(C) **General surgery.** A Level I hospital is subject to the same general surgery requirements as a Level II hospital

set forth in (c)(1)(C) of this Section.

(D) **Anesthesia.** A board certified, board eligible, or residency trained anesthesiologist will be on site or on call 24 hours a day and promptly available. All anesthesia will be administered as required in accordance with OAC 310:667-25-2.

(E) **Neurologic surgery.** A Level I hospital is subject to the same neurologic surgery requirement as a Level II hospital as set forth in (c)(1)(E) of this Section.

(F) **Other specialties.** The hospital must also have the following specialty services on call and promptly available:

- (i) All the specialty services listed for a Level II classification as set forth in (c)(1)(F) of this Section;
- (ii) Hand surgery;
- (iii) Infectious disease;
- (iv) Microvascular surgery; and
- (v) Pediatric surgery.

(G) **Operating suite.** A Level I hospital is subject to the same operating suite requirements as a Level II hospital as set forth in (c)(1)(G) of this Section.

(H) **Post-anesthesia recovery unit.** A Level I hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(1)(H) of this Section.

(I) **Intensive care unit.** A Level I hospital is subject to the same intensive care unit requirements as a Level II hospital as set forth in (c)(1)(I) of this Section.

(J) **Diagnostic Imaging.** A Level I hospital is subject to the same diagnostic imaging requirements as a Level II hospital as set forth in (c)(1)(J) of this Section.

(K) **Clinical laboratory service.** A Level I hospital is subject to the same clinical laboratory service requirements as a Level III hospital as set forth in (b)(1)(K) of this Section.

(L) **Respiratory therapy.** Routine respiratory therapy procedures and mechanical ventilators will be available 24 hours a day. Respiratory therapy services will comply with OAC 310:667-23-6.

(M) **Acute hemodialysis.** The hospital must have the capability to provide acute hemodialysis services 24 hours a day. All staff providing hemodialysis patient care will have documented hemodialysis training and experience.

(N) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(O) **Burn Care.** A Level I hospital is subject to the same burn care requirements as a Level III hospital as set forth in (b)(1)(M) of this Section.

(P) **Spinal cord and head injury management.** A Level I hospital is subject to the same spinal cord and head

injury management requirements as a Level II hospital as set forth (c)(1)(O) of this Section.

(Q) **Rehabilitation services.** A Level I hospital is subject to the same rehabilitation services requirements as a Level III hospital as set forth in (b)(1)(O) of this Section.

(2) **Personnel.**

(A) **Trauma service director.** A Level I hospital is subject to the same trauma service director requirements as a Level III hospital as set forth in (b)(2)(A) of this Section.

(B) **Trauma coordinator.** A Level I hospital is subject to the same trauma coordinator requirements as a Level II hospital as set forth in (c)(2)(B) of this Section.

(C) **Prevention coordinator.** A Level I hospital is subject to the same prevention coordinator requirements as a Level II hospital as set forth in (c)(2)(C) of this Section.

(D) **Emergency services director.** A Level I hospital is subject to the same prevention emergency services director requirements as a Level II hospital as set forth in (c)(2)(D) of this Section.

(E) **Surgical director.** A Level I hospital is subject to the same surgical director requirements as a Level III hospital as set forth in (b)(2)(C) of this Section].

(F) **Research director.** The medical staff will designate a physician as research director who may also serve as the trauma service director. The research director is responsible for the organization and management of the hospital's trauma and emergency operative research activities.

(3) **Supplies and equipment.**

(A) **Emergency department.** The emergency department must have equipment for use in the resuscitation of patients of all ages on site, functional, and available in the emergency department, including the following:

- (i) Airway control and ventilation equipment, including laryngoscopes and endotracheal tubes of all sizes, bag-mask resuscitator, pocket masks, and oxygen and all the emergency department equipment listed for Level III classification set forth in (b)(3)(A) of this Section;
- (ii) End-tidal CO₂ determination; and
- (iii) Arterial catheters.

(B) **Operating suite.** The operating suite must have the following supplies and equipment on site, functional and available for use:

- (i) All the operating suite supplies and equipment listed for Level II classification as set forth in (c)(3)(B) of this Section;
- (ii) Cardiopulmonary bypass capability; and
- (iii) Operating microscope.

(C) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit must have the following supplies and

equipment on site, functional, and available for use:

- (i) All post-anesthesia recovery unit supplies and equipment listed for a Level III classification as set forth in (b)(3)(B) of this Section; and
- (ii) Equipment for the continuous monitoring of intracranial pressure.

(D) **Intensive care unit.** A Level I hospital is subject to the same intensive care unit requirement as a Level III hospital as set forth in (b)(3)(C) of this Section.

(4) **Policies on transfers.** A Level I hospital is subject to the same policies on transfers requirement as a Level II hospital as set forth in (c)(4) of this Section.

(5) **Quality Improvement.** A Level I hospital is subject to the same quality improvement requirements as a Level II hospital as set forth in (c)(5) of this Section.

(6) **Continuing education.** A Level I hospital is subject to the same continuing education requirement as a Level II hospital as set forth in (c)(6) of this Section.

(7) **Organ Procurement.** A Level I hospital is subject to the same organ procurement requirements as a Level II hospital as set forth (c)(7) of this Section.

(8) **Outreach programs.** A Level I hospital is subject to the same outreach programs requirements as a Level II hospital as set forth in (c)(8) of this Section.

(9) **Research programs.** The hospital will have an organized trauma and emergency operative services research program under the direction of a designated research director. Research groups will meet regularly and all research proposals will be approved by an Institutional Review Board (IRB) before the program is launched. The research director will maintain evidence of the productivity of the research program through documentation of presentations and copies of published articles.

310:667-59-11. Classification of emergency cardiology services

(a) **Level III.** A Level III hospital will provide Advanced Cardiac Life Support (ACLS) services with at least a licensed independent practitioner, registered nurse, licensed practical nurse, or intermediate or paramedic level emergency medical technician on site 24 hours a day. A hospital must be classified at Level III for emergency cardiology services if it provides ACLS and complies with all of this subsection:

- (1) **Clinical services and resources.**

(A) **Electrocardiogram.** The hospital will have the immediate availability of a 12-lead electrocardiogram.

(B) **Thrombolytic therapy.** Thrombolytic medications will be immediately available in the emergency room to provide reperfusion therapy when appropriate. No other diagnostic, surgical, or medical specialty services are required.

(2) **Personnel.** A physician, licensed independent practitioner, registered nurse, licensed practical nurse, or Intermediate, Advanced Medical Technician (AEMT), or paramedic, as defined in OAC 310:641-1-7, will be on site 24 hours a day. In the absence of a physician, licensed independent practitioner, registered nurse, or paramedic, at least one of the practitioners on duty will have received training in advanced life support techniques and must be competent to initiate treatment of the emergency patient.

(3) **Supplies and equipment.** In addition to OAC 310:667-59-9(a)(3), the hospital must have the following equipment and supplies on site, functional, and immediately available:

(A) Oxygen and oxygen delivery equipment;

(B) Equipment to perform a 12-lead electrocardiogram (ECG) with ECG monitor and printout;

(C) Equipment for the electronic or facsimile transmission of ECG readings to an expert for interpretation;

(D) Transcutaneous pacing capability; and

(E) ACLS medications including at least:

(i) Aspirin;

(ii) Antianginal agents such as sublingual nitroglycerin;

(iii) Medications to provide adequate analgesia such as morphine and meperidine;

(iv) Sympathomimetics such as epinephrine, norepinephrine, dopamine, etc;

(v) Sympatholytics such as β -adrenoceptor blocking agents;

(vi) Angiotensin converting enzyme (ACE) inhibitors;

(vii) Antidysrhythmics including:

(I) Rhythm control agents such as lidocaine, procainamide, bretylium tosylate and magnesium sulfate; and

(II) Rate control agents such as atropine, adenosine, verapamil, and digitalis.

(viii) Diuretics such as furosemide; and

(ix) Antihypertensives such as sodium nitroprusside.

(4) **Agreements and policies on transfers.**

(A) The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those who require stabilizing treatment and transfer to another hospital.

(B) The hospital must have a written agreement with a hospital, or board certified, board eligible, or residency trained cardiologist, or group of cardiologists to provide immediate consultative services for cardiac patients 24 hours a day. These services will include the immediate interpretation of ECG results and providing instructions for the initiation of appropriate therapy and/or patient transfer.

(b) **Level II.** A Level II hospital will provide emergency medical services with an organized emergency department. A physician and nursing staff with special capability in cardiac care must be on site 24 hours a day. A hospital must be classified at Level II for emergency cardiology services if it complies with all of this subsection (b):

(1) **Clinical services and resources.**

(A) **Emergency services.** A physician competent in the care of the emergent cardiac patient and credentialed by the hospital to provide emergency medical services and nursing personnel with special capability in cardiac care must be on site 24 hours a day. Nursing personnel must also have completed the Advanced Cardiac Life Support Program offered through the American Heart Association or have equivalent training.

(B) **Thrombolytic therapy.** Thrombolytic medications will be immediately available in the emergency room to provide reperfusion therapy when appropriate.

(C) **Intensive care unit.** The hospital will have an intensive care unit and/or cardiac care unit that includes:

- (i) Compliance with OAC 310:667-15-7 ;
- (ii) A registered nurse on duty in the unit when it has a patient;
- (iii) A registered nurse on call and immediately available when it does not have any patients; and
- (iv) Nursing personnel who have completed the Advanced Cardiac Life Support Program offered through the American Heart Association or have equivalent training.

(D) **Continuous electrocardiographic monitoring.** The emergency room and intensive/cardiac care unit will have the capability to continuously monitor patients electrocardiographically when necessary. While a patient is continuously monitored, there will be adequate human surveillance of the monitors 24 hours a day by medical, nursing, or paramedical personnel trained and qualified in the ECG recognition of clinically significant cardiac rhythm disturbances.

(E) **Diagnostic imaging.** The hospital must have diagnostic x-ray services available 24 hours a day. A radiology technologist will be on duty or on call and immediately available 24 hours a day.

(F) **Clinical laboratory service.** The hospital's clinical laboratory services will be available 24 hours a day. All or

part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (ii) Coagulation studies;
- (iii) Blood gas/pH analysis; and
- (iv) Rapid determination of cardiac serum markers such as creatine kinase (CK), CK-MB isoform(s), and/or cardiac specific troponins T and I.

(G) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(2) **Personnel.**

(A) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(B) **Cardiologist.** A physician board certified, board eligible, or residency trained in cardiovascular diseases will be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(C) **Training.** Emergency room and intensive care/cardiac care unit nursing personnel must have completed the Advanced Cardiac Life Support Program offered through the American Heart Association or have equivalent training.

(3) **Supplies and equipment.** In addition to the requirements at OAC 310:667-59-9(a)(3), the hospital must have the following equipment and supplies on site, functional, and immediately available:

(A) Oxygen and oxygen delivery equipment including:

- (i) Continuous positive-pressure breathing; and
- (ii) Mechanical ventilation.

(B) Equipment to perform a 12-lead electrocardiogram (ECG) with ECG monitor and printout;

(C) Equipment for the electronic or facsimile transmission of ECG readings to an expert for interpretation;

(D) Pacing equipment including at least:

- (i) Transcutaneous pacing capability; and
- (ii) Transvenous pacing electrodes.

(E) the identical ACLS medications that are listed for Level III classification in (a)(3)(E) of this Section.

(4) **Agreements and policies on transfers.** A Level II hospital is subject to the same agreement and policies on transfers requirements as a Level III hospital as set forth in (a)(4) of this Section.

(c) **Level I.** A Level I hospital will provide emergency medical services with organized emergency and cardiology departments. A physician and

nursing staff with special capability in cardiac care must be on site 24 hours a day. The hospital must have the capability to provide immediate diagnostic angiography and emergency reperfusion therapy by thrombolysis, primary percutaneous transluminal coronary angioplasty (PTCA), and coronary artery bypass graft (CABG) 24 hours a day. A hospital must be classified at Level I for emergency cardiology services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Emergency services.** A Level I hospital is subject to the same emergency services requirements as a Level II hospital as set forth in (b)(1)(A) of this Section.

(B) **Thrombolytic therapy.** Thrombolytic medications will be immediately available in the emergency room to provide reperfusion therapy when appropriate.

(C) **Cardiology and cardiovascular surgery.** The hospital must have an organized cardiology and cardiovascular surgery service with appropriately credentialed physicians experienced in percutaneous and surgical revascularization immediately available 24 hours a day. Physician members of the cardiology service must be board certified, board eligible, or residency trained in cardiovascular diseases or in cardiovascular and/or vascular surgery. On call physicians will respond as required by the hospital's policy.

(D) **Cardiac catheterization laboratory.** The hospital must include a full-service cardiac catheterization laboratory or laboratories capable of providing both diagnostic and therapeutic procedures on the heart and great vessels for a wide variety of cardiovascular diseases. Diagnostic, therapeutic, and electrophysiology laboratories are supervised by physicians with appropriate training and expertise in the procedures performed and who are properly credentialed by the medical staff. When primary percutaneous transluminal coronary angioplasty (PTCA) is performed, prompt access to emergency coronary artery bypass graft (CABG) surgery must be available.

(E) **Anesthesia.** A board certified, board eligible, or residency trained anesthesiologist must be on site or on call 24 hours a day and promptly available. All anesthesia must be administered in accordance with OAC 310:667-25-2.

(F) **Operating suite.** An operating suite with adequate staff, equipment, and cardiopulmonary bypass capability must be immediately available 24 hours a day. The hospital will define and document in writing the minimum staffing requirements for the operating suite. An on call schedule for emergency replacement staff must be maintained.

(G) **Post-anesthesia recovery unit.** The hospital will have a post-anesthesia recovery room or intensive care unit in compliance with OAC 310:667-15-7 with nursing

personnel and anesthesia services remaining in the unit until the patient is discharged from post-anesthesia care.

(H) **Cardiac care unit.** The hospital's cardiac care unit must include:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the unit when it has a patient;
- (iii) A registered nurse on call and immediately available when the unit does not have a patient;
- (iv) The hospital will define and document in writing the minimum staffing requirements for the cardiac care unit; and
- (v) A physician with privileges in cardiac care or cardiovascular surgery will be on duty in the unit or immediately available in the hospital 24 hours a day.

(I) **Continuous electrocardiographic monitoring.** The emergency room, cardiac catheterization laboratory(s), and cardiac care unit will have the capability to continuously monitor patients electrocardiographically. While a patient is continuously monitored, there will be adequate human surveillance of the monitors 24 hours a day by medical, nursing, or paramedical personnel trained and qualified in the ECG recognition of clinically significant cardiac rhythm disturbances.

(J) **Diagnostic Imaging.** The hospital will have diagnostic x-ray, computed tomography, and ultrasonography services available 24 hours a day. A radiologic technologist, computerized tomography technologist, and staff designated as qualified to perform ultrasonography will be on duty or on call and immediately available 24 hours a day. A single technologist considered qualified by the radiologist in both diagnostic x-ray and computerized tomography procedures may be used to meet this requirement if an on call schedule of additional diagnostic imaging personnel is maintained. The diagnostic imaging service will provide the following services:

- (i) Angiography;
- (ii) Ultrasonography including echocardiography;
- (iii) Computed tomography;
- (iv) Magnetic resonance imaging; and
- (v) Nuclear medicine imaging.

(K) **Clinical laboratory service.** The hospital's clinical laboratory services will be available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) All the clinical laboratory services listed for Level II classification as set forth in (b)(1)(F) of this Section;

- (ii) Comprehensive immunohematology services including blood typing and compatibility testing;
- (iii) A supply of blood and blood products on hand that is properly stored and adequate to meet expected patient needs;
- (iv) Access to services provided by a community central blood bank; and
- (v) Comprehensive microbiology services or at least appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures.

(L) **Respiratory therapy service.** Routine respiratory therapy procedures and mechanical ventilators will be available 24 hours a day. Respiratory therapy services must be provided in compliance with OAC 310:667-23-6.

(M) **Social services.** Social services must be available and provided in compliance with Subchapter 31 of this Chapter.

(N) **Cardiac rehabilitation service.**

- (i) The hospital must have available a formal program for rehabilitation of the cardiac patient.
- (ii) An individualized rehabilitation program will be designed for each patient, and when appropriate, the program will combine prescriptive exercise training with education about coronary risk factor modification techniques.
- (iii) Rehabilitation services must be provided in compliance with Subchapter 35 of this Chapter.

(O) **Post-cardiac event evaluation.**

- (i) The hospital must have the capability of evaluating patients after a cardiac event to:
 - (I) Assess functional capacity and the patient's ability to perform tasks at home and at work;
 - (II) Evaluate the efficacy of the patient's current medical regimen; and
 - (III) Risk-stratify the post-MI patient according to the likelihood of a subsequent cardiac event.
- (ii) Evaluation techniques include:
 - (I) Exercise or pharmacologic ECG stress testing;
 - (II) Exercise stress echocardiography;
 - (III) Exercise or stress nuclear perfusion scintigraphy; and
 - (IV) Other procedures as appropriate.

(2) **Personnel.**

(A) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(B) **Cardiology services director.** The medical staff will designate a physician credentialed to provide medical and/or surgical cardiac care as cardiology services director.

(C) **Physician qualifications.** Physician members of the cardiology service will be board certified, board eligible, or residency trained in cardiovascular diseases or be board certified, board eligible, or residency trained in cardiothoracic and/or vascular surgery.

(D) **Training.** Emergency room, intensive care/cardiac care unit, and cardiac catheterization laboratory nursing personnel must have completed the Advanced Cardiac Life Support Program (ACLS) offered through the American Heart Association or have equivalent training.

(3) **Supplies and equipment.** In addition to subsection (b)(3) in this Section, the hospital must have the following equipment, personnel, and supplies on site, functional, and immediately available to:

(A) monitor the hemodynamic stability of cardiac patients with balloon flotation catheters when appropriate;

(B) monitor intra-arterial pressure when appropriate; and

(C) provide intra-aortic balloon counterpulsation therapy when appropriate.

(4) **Policies on transfers.** The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those requiring stabilizing treatment and transfer to another hospital.

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-13. Classification of emergency pediatric medicine and trauma services

(a) **Level IV.** A Level IV hospital will provide emergency pediatric medicine and trauma services with at least a licensed independent practitioner, registered nurse, licensed practical nurse, or an Intermediate, Advanced Emergency Medical Technician (AEMT) or paramedic, as defined in OAC 310:641-1-7, on site 24 hours a day. The hospital will be capable of identifying critically ill or injured pediatric patients and providing stabilizing treatment to manage airway, breathing, and circulation prior to patient transfer. A hospital must be classified at Level IV for emergency pediatric medicine and trauma services if it complies with all of this subsection (a):

(1) **Clinical services and resources.** Diagnostic, surgical, or medical specialty services are not required. The hospital must

have access by telephone or other electronic means to a regional poison control center.

(2) **Personnel.** A physician, licensed independent practitioner, registered nurse, licensed practical nurse, or an AEMT or paramedic, as defined in OAC 310:641-1-7, is required on site 24 hours a day. In the absence of a physician, licensed independent practitioner, registered nurse, or paramedic at least one of the practitioners on duty must have received training in advanced life support techniques and must be competent to initiate treatment of the emergency patient.

(3) **Supplies and equipment.** The hospital must have equipment for use in the resuscitation of pediatric patients on site, functional, and immediately available, including the following:

- (A) Spine board (child/adult) for cardiopulmonary resuscitation and papoose board for immobilization of infants and toddlers;
- (B) Airway control and ventilation equipment, including laryngoscopes and endotracheal tubes of all sizes, bag-mask resuscitator, pocket masks, oxygen, and oxygen delivery equipment. Masks and cannula shall be available in infant, child, and adult sizes;
- (C) Pulse oximeter with adult and pediatric probes;
- (D) Infant, child, adult, and thigh blood pressure cuffs;
- (E) Rectal thermometer probe;
- (F) Suction devices suitable for infants, children, and adults;
- (G) Electrocardiograph-oscilloscope-defibrillator-pacer with pediatric capability;
- (H) Equipment for gastric decompression;
- (I) Magill forceps (pediatric and adult);
- (J) Equipment for gastric decompression;
- (K) Fracture management devices including:
 - (i) Skeletal traction devices including cervical immobilization device suitable for pediatric patients;
 - (ii) Extremity splints; and
 - (iii) Child and adult femur splints.
- (L) Drugs necessary for pediatric emergency care with printed pediatric doses and pediatric reference materials such as precalculated drug sheets or length-based tape;
- (M) Infant scale;
- (N) Thermal control equipment for patients including a heat source or procedure for infant warming;
- (O) Two-way communication with vehicles of emergency transport system as required at OAC 310:667-29-1(c)(4);
- (P) Standard intravenous fluids and administration devices suitable for infants, children, and adults including large-bore intravenous catheters; and
- (Q) Specialized pediatric procedure trays for:
 - (i) Lumbar puncture;

- (ii) Urinary catheterization;
- (iii) Umbilical vessel cannulation; and
- (iv) Airway control/cricothyrotomy;
- (v) Vascular access; and
- (vi) Chest decompression.

(4) Agreements and policies on transfers.

(A) The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those requiring stabilizing treatment and transfer to another hospital.

(B) The hospital must have transfer agreements with a hospital capable of providing burn care in a physician-directed, organized burn care center with a staff of nursing personnel trained in burn care and equipped properly for care of the extensively burned patient.

(C) The hospital must have transfer agreements with a hospital capable of providing acute spinal cord and head injury management and rehabilitation.

(D) The hospital must have transfer agreements with a hospital capable of providing rehabilitation services in a rehabilitation center with a staff of personnel trained in rehabilitation care and equipped properly for acute care of the critically injured patient.

(5) Quality Improvement. In addition to any other quality improvement requirements governing the hospital, the quality improvement program must also include the following subjects:

- (A) Trauma registry;
- (B) Audit for all pediatric deaths to include prehospital care and care received at a transferring facility;
- (C) Incident reports related to pediatric patients;
- (D) Pediatric transfers;
- (E) Child abuse cases;
- (F) Pediatric cardiopulmonary or respiratory arrests;
- (G) Pediatric admissions within 48 hours of an emergency department visit;
- (H) Pediatric surgery within 48 hours of discharge from an emergency department;
- (I) Morbidity and mortality review;
- (J) Medical nursing audit, utilization review, tissue review; and
- (K) The availability and response times of on call staff specialists must be defined in writing, documented, and continuously monitored.

(b) Level III. A Level III hospital will provide emergency pediatric medicine and trauma services with an organized trauma service and emergency department. A physician and nursing staff with special capability in trauma care are required on site 24 hours a day. General surgery and anesthesiology services will be available either on duty or on call. The hospital will have basic facilities for the management of minor pediatric inpatient problems. A hospital must be classified at Level III for

emergency pediatric medicine and trauma services if it complies with all of this subsection (b):

(1) **Clinical services and resources.**

(A) **Trauma service.** A trauma service will be established by the medical staff and it will be responsible for coordinating the care of injured patients, the training of personnel, and trauma quality improvement.

(i) Privileges for physicians participating in the trauma service will be determined by the medical staff credentialing process.

(ii) All patients with multiple-system or major injury will be evaluated by the trauma service.

(iii) The surgeon responsible for the overall care of the admitted patient will be identified.

(B) **Emergency services.** A physician competent in the care of the seriously ill or injured patient and credentialed by the hospital to provide emergency medical services and nursing personnel with special capability in trauma care must be on site 24 hours a day. The emergency service may also serve as the trauma service.

(C) **Poison control center.** The hospital must have access by telephone or other electronic means to a regional poison control center.

(D) **General surgery.** A board certified, board eligible, or residency trained general surgeon must be on call 24 hours a day and promptly available in the emergency department.

(E) **Anesthesia.** Anesthesia services must be on call 24 hours a day, promptly available, and administered in accordance with OAC 310:667-25-2.

(F) **Internal medicine.** A physician board certified, board eligible, or residency trained in internal medicine must be on call 24 hours a day and promptly available in the emergency department.

(G) **Operating suite.** An operating suite with thermal control equipment for patients and infusion of blood and fluids must be available 24 hours a day.

(H) **Post-anesthesia recovery unit.** The hospital must have a post-anesthesia recovery room or intensive care unit that is in compliance with OAC 310:667-15-7 with nursing personnel and anesthesia services remaining in the unit until the patient is discharged from post-anesthesia care.

(I) **Intensive care unit.** The hospital's intensive care unit must include:

(i) Compliance with OAC 310:667-15-7;

(ii) A registered nurse on duty in the intensive care unit when it has a patient;

(iii) A registered nurse on call and immediately available when the unit does not have a patient; and

(iv) Written policies defining the minimum staffing requirements for the intensive care unit that must be monitored through the quality improvement program.

(J) **Diagnostic imaging.** The hospital will have diagnostic x-ray services available 24 hours a day. A radiology technologist will be on duty or on call and immediately available 24 hours a day.

(K) **Clinical laboratory service.** The hospital must have clinical laboratory services available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) Comprehensive immunohematology services including blood typing and compatibility testing;
- (ii) A supply of blood and blood products on hand that is properly stored and adequate to meet expected patient needs;
- (iii) Access to services provided by a community central blood bank;
- (iv) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (v) Therapeutic drug monitoring;
- (vi) Coagulation studies;
- (vii) Blood gas/pH analysis;
- (viii) Comprehensive microbiology services or at least appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures; and
- (ix) Drug and alcohol screening.

(L) **Social services.** Social services must be available and provided as required in Subchapter 31 of this Chapter.

(M) **Burn Care.**

- (i) The hospital must provide burn care in a physician-directed, organized burn care center with a staff of nursing personnel trained in burn care and equipped properly for care of the extensively burned patient; or
- (ii) If it is unable to satisfy (i) of this subparagraph, then it must have a written transfer agreement with a hospital that satisfies (i) of this subparagraph.

(N) **Spinal cord and head injury management.** The hospital must provide acute spinal cord and head injury management and must have a written transfer agreement with a hospital that provides comprehensive rehabilitation services. If it is unable to satisfy this requirement it must have a transfer agreement with a hospital capable of

providing acute spinal cord and head injury management and rehabilitation.

(O) **Rehabilitation services.**

(i) The hospital must provide rehabilitation services in a rehabilitation center with a staff of personnel trained in rehabilitation care and equipped properly for acute care of the critically injured patient; or

(ii) If it is unable to satisfy (i) of this subparagraph, then it must have a written transfer agreement with a hospital that satisfies (i) of this subparagraph and the requirements of Subchapter 35 of this Chapter.

(P) **Respiratory therapy.** Routine respiratory therapy procedures and mechanical ventilators must be available 24 hours a day, and the respiratory therapy services must be in compliance with OAC 310:667-23-6.

(2) **Personnel.**

(A) **Trauma service director.** The medical staff will designate a surgeon as trauma service director. The trauma service director's responsibilities include:

(i) All trauma patients and administrative authority for the hospital's trauma program, through the quality improvement process; and

(ii) Appointments and removals from the trauma service.

(B) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(C) **Surgical director.** The medical staff will designate a surgeon credentialed by the hospital to be the director of care for surgical and critical care for trauma patients.

(D) **Pediatrics.** A physician board certified, board eligible, or residency trained in pediatrics and competent in the care of pediatric emergencies must be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(E) **Orthopedics.** A physician board certified, board eligible, or residency trained in orthopedics and competent in the care of pediatric orthopedic emergencies must be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(3) **Supplies and equipment.**

(A) **Emergency department.** The hospital must have equipment for use in the resuscitation of pediatric patients on site, functional, and immediately available, including:

(i) The supplies and equipment listed in (a)(3)(A) through (O) of this Section for Level IV classification;

(ii) Standard intravenous fluids and administration devices suitable for infants, children, and adults including infusion pumps with microinfusion capability and large-bore intravenous catheters;

(iii) Specialized pediatric procedure trays:

(I) Lumbar puncture;

(II) Urinary catheterization;

(III) Umbilical vessel cannulation;

(IV) Airway control/cricothyrotomy;

(V) Thoracotomy;

(VI) Chest decompression.

(VII) Intraosseous infusion;

(VIII) Vascular access; and

(IX) Needle cricothyroidotomy set; and

(iv) Slit lamp.

(4) **Policies on transfers.** The hospital must have written policies for transfer to another hospital. [See (a)(4)(A) in this Section (relating to agreement and policies on transfers)].

(5) **Quality Improvement.** In addition to any other quality improvement requirements governing the hospital, quality improvement programs must include the following subjects:

(A) All of the quality improvement subjects listed for Level III classification as set forth in (a)(5) of this Section;

(B)

Published on call schedules for surgeons, neurosurgeons, and orthopedic surgeons; and

(C) Review of the times and reasons for trauma-related bypass.

(c) **Level II.** A Level II hospital will provide emergency pediatric medicine and trauma services with organized emergency and pediatrics departments and an organized pediatric trauma service with a designated general or pediatric surgeon as director. A physician and nursing staff with special capability in pediatric emergency and trauma care will be on site 24 hours a day. General surgery and anesthesiology services will be available on site or on call 24 hours a day. Services from additional clinical specialties including pediatrics, neurosurgery, orthopedics, and critical care must be promptly available on call. A hospital must be classified at Level II for emergency pediatric medicine and trauma services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Pediatric trauma service.** A pediatric trauma service will be established by the medical staff and will be responsible for coordinating the care of injured pediatric patients, the training of personnel, and trauma quality improvement.

(i) Privileges for physicians participating in the pediatric trauma service will be determined by the medical staff credentialing process.

(ii) All pediatric patients with multiple-system or major injury shall be evaluated by the trauma service.

(iii) The surgeon responsible for the overall care of the admitted patient must be identified.

(B) **Emergency services.** A physician competent in the care of the seriously ill or injured pediatric patient and credentialed by the hospital to provide pediatric emergency medical services and nursing personnel with special capability in pediatric emergency and trauma care must be on site 24 hours a day.

(C) **Poison control center.** The hospital must have access by telephone or other electronic means to a regional poison control center.

(D) **Pediatric services.** The hospital must have an organized pediatric service with appropriately credentialed physicians experienced in the care of seriously ill or injured pediatric patients immediately available 24 hours a day. Physicians must be board certified, board eligible, or residency trained in pediatrics. On call physicians will respond as required by the hospital's policy.

(E) **General surgery.** A general surgeon or senior surgical resident competent and appropriately credentialed by the hospital must be on site or on call 24 hours a day and promptly available in the emergency department.

(F) **Anesthesia.** A board certified, board eligible, or residency trained anesthesiologist must be on site or on call 24 hours a day and promptly available in the emergency department. If the anesthesiologist is not present in the hospital before the physician's arrival, anesthesia services may be provided by a certified registered nurse anesthetist (CRNA). The CRNA will be considered competent in the assessment of emergent situations in trauma patients and of initiating and providing any indicated treatment. All anesthesia must be administered in accordance with OAC 310:667-25-2.

(G) **Neurologic surgery.** A board certified, board eligible, or residency trained neurosurgeon or other physician competent in the care of pediatric patients with neurotrauma and appropriately credentialed must be on site or on call 24 hours a day and promptly available in the emergency department. If care is initiated by a physician other than a neurosurgeon, the neurosurgeon on call will respond as required by the hospital's policy.

(H) **Orthopedics.** A physician board certified, board eligible, or residency trained in orthopedics and competent in the care of pediatric orthopedic emergencies will be on site or on call twenty-four (24) hours a day and promptly available in the emergency department.

(I) **Other specialties.** The hospital must also have the following specialty services on call and promptly available:

- (i) Cardiac surgery;
- (ii) Cardiology;

- (iii) Neurology;
- (iv) Obstetric/gynecologic surgery;
- (v) Ophthalmic surgery;
- (vi) Oral/maxillofacial surgery;
- (vii) Orthopedic surgery;
- (viii) Otolaryngology;
- (ix) Plastic surgery;
- (x) Pulmonary medicine;
- (xi) Radiology;
- (xii) Thoracic surgery; and
- (xiii) Urology and urologic surgery.

(J) **Operating suite.** An operating suite with adequate staff and equipment must be immediately available 24 hours a day. The hospital will define and document in writing the minimum staffing requirements for the operating suite. An on call schedule for emergency replacement staff will be maintained.

(K) **Post-anesthesia recovery unit.** The hospital will have a post-anesthesia recovery room or intensive care unit that is in compliance with OAC 310:667-15-7 and nursing personnel and anesthesia services will remain in the unit until the patient is discharged from post-anesthesia care.

(L) **Intensive care unit.** The hospital must have an intensive care unit and/or pediatric intensive care unit that includes:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the unit when it has a patient;
- (iii) A registered nurse on call when the unit does not have a patient;
- (iv) Written policies defining the minimum staffing requirements for the intensive care unit that are monitored through the quality improvement program;
- (v) Nursing personnel have completed the Pediatric Advanced Life Support Program (PALS) offered through the American Heart Association or have equivalent training; and
- (vi) A physician with privileges in critical care must be on duty in the unit or immediately available in the hospital 24 hours a day.

(M) **Diagnostic imaging.** The hospital must have diagnostic x-ray services available 24 hours a day. A radiology technologist and computerized tomography technologist will be on duty or on call and immediately available 24 hours a day. A single technologist designated as qualified by the radiologist in both diagnostic x-ray and computerized tomography procedures may be used to meet this requirement if an on call schedule of additional diagnostic imaging personnel is maintained. The

diagnostic imaging services include:

- (i) Angiography;
- (ii) Ultrasonography;
- (iii) Computed tomography;
- (iv) Magnetic resonance imaging;
- (v) Neuroradiology; and
- (vi) Nuclear medicine imaging.

(N) **Clinical laboratory service.** The hospital's clinical laboratory services must be available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) all the clinical laboratory services listed for Level III classification as set forth in (b)(1)(K) of this Section; and
- (ii) Cerebrospinal fluid and other body fluid cell counts.

(O) **Respiratory therapy.** Routine respiratory therapy procedures and mechanical ventilators will be available 24 hours a day. Respiratory therapy services will comply with OAC 310:667-23-6.

(P) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(Q) **Burn Care.** A Level II hospital is subject to the same burn care requirements as a Level III hospital as set forth in (b)(1)(M) of this Section.

(R) **Spinal cord and head injury management.** The hospital must provide acute spinal cord and head injury management including at least the ability to initiate rehabilitative care prior to transfer and must have a written transfer agreement with a hospital that provides comprehensive rehabilitation services if comprehensive rehabilitation services are not available within the hospital.

(S) **Rehabilitation services.** A Level II hospital is subject to the same rehabilitation services requirements as a Level III hospital as set forth in (b)(1)(O) of this Section.

(T) **Acute hemodialysis.** The hospital will have the capability to provide acute hemodialysis services 24 hours a day. All nursing staff providing hemodialysis patient care must have documented hemodialysis training and experience.

(2) **Personnel.**

(A) **Pediatric trauma service director.** The medical staff will designate a general or pediatric surgeon as trauma service director. The trauma service director's responsibilities include:

- (i) all trauma patients and administrative authority for the hospital's trauma program, through the

quality improvement process; and

(ii) appointments and removals from the trauma service.

(B) **Pediatric trauma coordinator.** The hospital must have a designated trauma coordinator who may also serve as the prevention coordinator. Under the supervision of the trauma service director, the trauma coordinator is responsible for organizing the services and systems of the trauma service to ensure there is a multidisciplinary approach throughout the continuum of trauma care. The trauma coordinator will have an active role in the following:

(i) Clinical activities such as design of clinical protocols, monitoring care, and assisting the staff in problem solving;

(ii) Educational activities such as professional staff development, case reviews, continuing education, and community trauma education and prevention programs;

(iii) Quality improvement activities such as development of quality monitors, audits, and case reviews in all phases of trauma care;

(iv) Administrative tasks for the trauma service such as those related to services' organization, personnel, budget preparation, and accountability;

(v) Trauma registry data collection, coding, scoring, and validation; and

(vi) Consultation and liaison to the medical staff, prehospital emergency medical service agencies, patient families, and the community at large.

(C) **Prevention coordinator.** The hospital will have a designated prevention coordinator who may also serve as the trauma coordinator. Under the supervision of the trauma director, the prevention coordinator is responsible for the organization and management of the hospital's outreach, prevention, and public education activities.

(D) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(E) **Surgical director.** The medical staff will designate a surgeon credentialed by the hospital to be the director of care for surgical and critical care for trauma patients.

(F) **Pediatric services director.** The medical staff will designate a physician credentialed to provide pediatric care as pediatric services director.

(G) **Physician qualifications.** A physician board certified, board eligible, or residency trained in pediatric critical care medicine will be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(H) **Training.** Emergency room and intensive care personnel must have completed the Pediatric Advanced Life Support (PALS) program through the American Heart Association or have equivalent training.

(3) **Supplies and equipment.**

(A) **Emergency department.** The hospital must have equipment for use in the resuscitation of pediatric patients on site, functional, and immediately available, including at least the following:

- (i) the supplies and equipment listed for Level III classification in (a)(3)(A) through (O) in this Section;
- (ii) End-tidal CO₂ determination;
- (iii) Apparatus to establish central venous pressure monitoring;
- (iv) Standard intravenous fluids and administration devices suitable for infants, children, and adults including infusion pumps with microinfusion capability and large-bore intravenous catheters;
- (v) Specialized pediatric procedure trays:
 - (I) Lumbar puncture;
 - (II) Urinary catheterization;
 - (III) Umbilical vessel cannulation;
 - (IV) Airway control/cricothyrotomy;
 - (V) Thoracotomy;
 - (VI) Chest decompression.
 - (VII) Intraosseous infusion;
 - (VIII) Vascular access;
 - (IX) Needle cricothyroidotomy set; and
 - (X) Peritoneal lavage.
- (vi) Slit lamp.

(B) **Operating suite.** The operating suite must have the following supplies and equipment on site, functional and available for use:

- (i) Thermal control equipment for patients and infusion of blood, blood products, and other fluids;
- (ii) X-ray capability including c-arm intensifier;
- (iii) Equipment appropriate for fixation of long-bone and pelvic fractures;
- (iv) Craniotomy instruments; and
- (v) Endoscopes.

(C) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit will have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;
- (ii) Equipment for the continuous monitoring of intracranial pressure;
- (iii) Thermal control equipment for patients and infusion of blood, blood products, and other fluids;
- (iv) End-tidal CO₂ determination; and

(v) Pulse oximetry.

(D) **Intensive care unit.** The intensive care unit must have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;
- (ii) Cardiopulmonary resuscitation cart;
- (iii) Electrocardiograph-oscilloscope-defibrillator-pacer;
- (iv) Sterile surgical sets for:
 - (I) Airway control/cricothyrotomy;
 - (II) Thoracotomy;
 - (III) Vascular access; and
 - (IV) Chest decompression.

(4) **Policies on transfers.** The policies on transfers are as set forth in (a)(4)(A) of this Section (relating to agreements and policies on transfers).

(5) **Quality Improvement.** A Level II hospital is subject to the same quality improvement requirements as a Level III hospital as set forth in (b)(5) of this Section.

(6) **Continuing education.** The hospital will provide and document formal continuing education programs for physicians, nurses, allied health personnel, and community physicians. Continuing education programs will be available to all state physicians, nurses, allied health personnel, and emergency medical service providers.

(7) **Organ Procurement.** The hospital, in association with an organ procurement organization certified by CMS, must create and maintain policies and procedures to identify and refer potential organ donors.

(8) **Outreach programs.** The hospital will have organized outreach programs under the direction of a designated prevention coordinator.

(A) **Consultation.** The hospital will provide on-site and/or electronic consultations with community health care providers and those in outlying areas as requested and appropriate.

(B) **Prevention and public education programs.** The hospital will serve as a public information resource and collaborate with other institutions and national, regional, and state programs in research and data collection projects in epidemiology, surveillance, and injury prevention, and other areas.

(d) **Level I.** A Level I hospital will provide emergency pediatric medicine and trauma services with organized emergency and pediatrics departments and an organized pediatric trauma service with a designated pediatric surgeon as director. Pediatric surgery, pediatric anesthesiology, pediatric neurosurgery, and pediatric critical care services including a dedicated pediatric intensive care unit (PICU) must be available on site 24 hours a day. The hospital must have the prompt availability of additional clinical services and specialties such as pediatric

cardiology, pediatric nephrology, and pediatric infectious disease specialists. A level I hospital also must have an organized trauma research program with a designated director. A hospital must be classified at Level I for emergency pediatric medicine and trauma services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Pediatric trauma service.** A Level I hospital is subject to the same pediatric trauma service requirements as a Level II hospital as set forth in (c)(1)(A) of this Section.

(B) **Emergency services.** A physician competent in the care of the critically injured pediatric patient and credentialed by the hospital to provide pediatric emergency medical services and nursing personnel with special capability in pediatric emergency and trauma care must be on site 24 hours a day. The emergency department has geographically separate and distinct pediatric medical/trauma areas that have all the staff, equipment, and skills necessary for comprehensive pediatric emergency care. Separate fully equipped pediatric resuscitation rooms must be available and capable of supporting at least two simultaneous resuscitations.

(C) **Poison control center.** The hospital must have access by telephone or other electronic means to a regional poison control center.

(D) **Pediatric services.** A Level I hospital is subject to the same pediatric services requirements as a Level II hospital as set forth in (c)(1)(D) of this Section.

(E) **Cardiac catheterization laboratory.** The hospital must have a full-service cardiac catheterization laboratory or laboratories capable of providing both diagnostic and therapeutic procedures on the heart and great vessels for a wide variety of cardiovascular diseases. Diagnostic, therapeutic, and electrophysiology laboratories will be supervised by physicians with appropriate training and expertise in the procedures performed and who are properly credentialed by the medical staff. When primary percutaneous transluminal coronary angioplasty (PTCA) is performed, prompt access to emergency coronary arterial bypass graft (CABG) surgery must be available.

(F) **Pediatric surgery.** A board certified, board eligible, or residency trained pediatric surgeon or senior surgical resident competent and appropriately credentialed by the hospital must be on site 24 hours a day and promptly available in the emergency department.

(G) **Pediatric anesthesia.** A board certified, board eligible, or residency trained pediatric anesthesiologist must be on site 24 hours a day and promptly available in the emergency department. If the anesthesiologist is not present in the hospital before the physician's arrival,

anesthesia services may be provided by a certified registered nurse anesthetist (CRNA). The CRNA must be considered competent in the assessment of emergent situations in pediatric patients and of initiating and providing any indicated treatment.

(H) **Neurologic surgery.** A board certified, board eligible, or residency trained neurosurgeon or other physician competent in the care of pediatric patients with neurotrauma and appropriately credentialed must be on site 24 hours a day and promptly available in the emergency department. If care is initiated by a physician other than a neurosurgeon, the neurosurgeon on call will respond as required by the hospital's policy.

(I) **Orthopedics.** A Level I hospital is subject to the same orthopedics requirements as a Level II hospital as set forth in (c)(1)(H) of this Section.

(J) **Other specialties.** The hospital must also have the following specialty services on call and promptly available:

- (i) Cardiovascular surgery;
- (ii) Hand surgery;
- (iii) Microvascular surgery;
- (iv) Ophthalmology;
- (v) Oral/maxillofacial surgery;
- (vi) Otolaryngology;
- (vii) Pediatric allergy/immunology;
- (viii) Pediatric cardiology;
- (ix) Pediatric endocrinology;
- (x) Pediatric gastroenterology;
- (xi) Pediatric hematology/oncology;
- (xii) Pediatric infectious disease;
- (xiii) Pediatric intensivist;
- (xiv) Pediatric nephrology;
- (xv) Pediatric neurology;
- (xvi) Pediatric pulmonology;
- (xvii) Plastic surgery;
- (xviii) Psychiatry/psychology;
- (xix) Radiology; and
- (xx) Urology and urologic surgery.

(K) **Operating suite.** A Level I hospital is subject to the same operating suite requirements as a Level II hospital as set forth in (c)(1)(J) of this Section.

(L) **Post-anesthesia recovery unit.** A Level I hospital is subject to the same post-anesthesia recovery unit requirements as a Level II hospital as set forth in (c)(1)(K) of this Section.

(M) **Pediatric intensive care unit (PICU).**

- (i) The hospital must have a pediatric intensive care unit that includes:

- (I) Compliance with OAC 310:667-15-7;
- (II) A registered nurse on duty in the intensive care unit when it has a patient;

- (III) A registered nurse on call and immediately available when the unit does not have a patient;
- (IV) Written policies defining the minimum staffing requirements for the pediatric intensive care unit;
- (V) A physician with privileges in pediatric critical care must be on duty in the unit or immediately available in the hospital 24 hours a day.

(ii) The pediatric intensive care unit will be a distinct, separate unit within the hospital, with privileges of physicians and allied health personnel delineated in writing.

(iii) The medical director and medical staff will establish and approve written policies for at least the following:

- (I) Admission/discharge;
- (II) Minimum staffing;
- (III) Patient monitoring;
- (IV) Safety;
- (V) Nosocomial infection;
- (VI) Patient isolation;
- (VII) Visitation;
- (VIII) Traffic control;
- (IX) Equipment operation and maintenance;
- (X) Coping with and recovering from the breakdown of essential equipment; and
- (XI) Patient record-keeping.

(N) **Diagnostic Imaging.** A Level I hospital is subject to the same diagnostic imaging requirements as a Level II hospital as set forth in (c)(1)(M) of this Section.

(O) **Clinical laboratory service.** The hospital's clinical laboratory services must be available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. The clinical laboratory must have the capability to analyze microspecimen volumes when appropriate. These services include:

- (i) Comprehensive immunohematology services including blood typing and compatibility testing;
- (ii) A supply of blood and blood products on hand that is properly stored and adequate to meet expected patient needs;
- (iii) Access to services provided by a community central blood bank;
- (iv) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (v) Therapeutic drug monitoring;

- (vi) Cerebrospinal fluid and other body fluid cell counts;
- (vii) Coagulation studies;
- (viii) Blood gas/pH analysis;
- (ix) Comprehensive microbiology services with immediate availability of Gram stain preparations and at least appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures; and
- (x) Drug and alcohol screening.

(P) **Respiratory therapy.** A Level I hospital is subject to the same respiratory therapy requirements as a Level II hospital as set forth in (c)(1)(O) of this Section.

(Q) **Acute hemodialysis.** The hospital must have the capability to provide acute hemodialysis services 24 hours a day. All nursing staff providing hemodialysis patient care must have documented hemodialysis training and experience with pediatric patients.

(R) **Social services.** Social services must be available and provided in accordance with Subchapter 31 of this Chapter.

(S) **Physical and occupational therapy services.**

Physical and occupational therapy will be available and provided in accordance with Subchapter 23 of this Chapter.

(T) **Dietetic and nutrition services.** Dietetic and nutrition services will be available and in accordance with Subchapter 17 of this Chapter.

(U) **Burn Care.** A Level I hospital is subject to the same burn care requirements as a Level III hospital as set forth in (b)(1)(M) of this Section.

(V) **Spinal cord and head injury management.** A Level I hospital is subject to the same spinal cord and head injury management requirements as a Level II hospital as set forth in (c)(1)(R) of this Section.

(W) **Rehabilitation services.** A Level I hospital is subject to the same rehabilitation services requirements as a Level III hospital as set forth in (b)(1)(O) of this Section. A Level I hospital is subject to the same rehabilitation services requirements as a Level III hospital as set forth in (b)(1)(O) of this Section.

(2) **Personnel.**

(A) **Pediatric trauma service director.** The medical staff will designate a board certified, board eligible, or residency trained pediatric surgeon as pediatric trauma service director. Through the quality improvement process, the director's responsibilities include all pediatric trauma patients and administrative authority for the hospital's pediatric trauma program. The pediatric trauma service director will be responsible for recommending

appointment to and removal from the pediatric trauma service.

(B) **Pediatric trauma coordinator.** The hospital will have a designated pediatric trauma coordinator who may also serve as the prevention coordinator. Under the supervision of the pediatric trauma service director, the pediatric trauma coordinator is responsible for organizing the services and systems of the pediatric trauma service to ensure there is a multidisciplinary approach throughout the continuum of pediatric trauma care. The pediatric trauma coordinator will have an active role in the following:

- (i) Clinical activities such as design of clinical protocols, monitoring care, and assisting the staff in problem solving;
- (ii) Educational activities such as professional staff development, case reviews, continuing education, and community trauma education and prevention programs;
- (iii) Quality improvement activities such as development of quality monitors, audits, and case reviews in all phases of pediatric trauma care;
- (iv) Administrative tasks for the pediatric trauma service such as those related to services' organization, personnel, budget preparation, and accountability;
- (v) Trauma registry data collection, coding, scoring, and validation; and
- (vi) Consultation and liaison to the medical staff, prehospital emergency medical service agencies, patient families, and the community at large.

(C) **Prevention coordinator.** The hospital will have a designated prevention coordinator who may also serve as the pediatric trauma coordinator. Under the supervision of the pediatric trauma director, the prevention coordinator is responsible for the organization and management of the hospital's outreach, prevention, and public education activities.

(D) **Emergency services director.** The medical staff will designate a physician credentialed to provide pediatric emergency medical care as emergency services director.

(E) **Surgical director.** The medical staff will designate a board certified, board eligible, or residency trained pediatric surgeon credentialed by the hospital to provide pediatric critical care as the surgical director for trauma patients.

(F) **Research director.** The medical staff will designate a physician as research director who may also serve as the pediatric trauma service director. The research director is responsible for the organization and management of the hospital's trauma and emergency operative research

activities.

(G) **PICU medical director.** The medical staff will designate a physician board certified, board eligible, or residency trained in critical care medicine as PICU medical director. The PICU medical director will participate in developing and reviewing PICU policies, promote policy implementation, participate in budget preparation, help coordinate staff education, supervise resuscitation techniques, lead quality improvement activities, and coordinate research.

(H) **PICU nurse manager.** The hospital will have a PICU nurse manager with training and experience in pediatric critical care dedicated to the PICU. The PICU nurse manager will participate in the development of written policies and procedures for the PICU, coordinate staff education, budget preparation, and coordination of research.

(3) **Supplies and equipment.**

(A) **Emergency department.** The hospital must have equipment for use in the resuscitation of pediatric patients on site, functional, and immediately available, including at least the following:

- (i) All the equipment listed for Level II classification as set forth in (c)(3)(A) of this Section;
- (ii) Portable electroencephalographic equipment; and
- (iii) Subdural access that is included as part of the specialized pediatric procedure tray.

(B) **Operating suite.** The operating suite must have the following supplies and equipment on site, functional and available for use:

- (i) The operating suite equipment listed for Level II classification in (c)(3)(B)(i) through (iv) of this Section;
- (ii) Operating microscope;
- (iii) Cardiopulmonary bypass capability; and
- (iv) Pediatric endoscopes and bronchoscopes.

(C) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit will have the following supplies and equipment on site, functional, and available for use:

- (i) The post-anesthesia recovery unit equipment listed for Level II classification in (c)(3)(C)(i) through (iv); and
- (ii)
- (iii) Pulse oximeter with adult and pediatric probes.

(D) **Pediatric intensive care unit.** The pediatric intensive care unit must have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange.

Bedside monitors in the pediatric intensive care unit will have audible and visible high and low alarms for each statistic, provide a hard copy of the heart rhythm strip, and have the capability of simultaneously monitoring:

- (I) Systemic arterial pressure;
 - (II) Central venous pressure;
 - (III) Pulmonary arterial pressure;
 - (IV) Intracranial pressures;
 - (V) Heart rate and rhythm;
 - (VI) Respiratory rate; and
 - (VII) Temperature.
- (ii) Cardiopulmonary resuscitation cart;
 - (iii) Electrocardiograph-oscilloscope-defibrillator-pacer;
 - (iv) Sterile surgical sets for:
 - (I) Airway control/cricothyrotomy;
 - (II) Thoracotomy;
 - (III) Vascular access; and
 - (IV) Chest decompression.

(4) **Policies on transfers.** The policies on transfers are as set forth in (a)(4)(A) of this Section (relating to agreements and policies on transfers).

(5) **Quality Improvement.** In addition to any other quality improvement requirements governing the hospital, the quality improvement program must include:

(A) **Trauma committee.** The hospital will establish a multidisciplinary committee composed of the trauma service director, emergency services director, trauma coordinator, and other members of the medical and nursing staff that treat trauma and emergency operative patients. The trauma committee will meet regularly to review and evaluate patient outcomes and the quality of care provided by the trauma service. The quality improvement program includes:

- (i) Trauma registry;
- (ii) Audit for all pediatric deaths to include prehospital care and care received at a transferring hospital;
- (iii) Incident reports related to pediatric patients;
- (iv) Pediatric transfers;
- (v) Child abuse cases;
- (vi) Pediatric cardiopulmonary or respiratory arrests;
- (vii) Pediatric admissions within 48 hours of an emergency department visit;
- (viii) Pediatric surgery within 48 hours of discharge from an emergency department;
- (ix) Morbidity and mortality review;
- (x) Regularly scheduled multidisciplinary trauma and emergency operative services review

conference;

(xi) Medical nursing audit, utilization review, tissue review;

(xii) Published on call schedules for surgeons, neurosurgeons, and orthopedic surgeons;

(xiii) Review of the times and reasons for trauma-related bypass;

(xiv) The availability and response times of on call staff specialists will be defined in writing, documented, and continuously monitored; and

(xv) Quality improvement staff with the time dedicated to and specific for trauma and emergency operative services.

(B) **PICU committee.** The hospital will establish a PICU committee composed of physicians, nurses, and other allied health personnel directly involved with activities in the PICU. The PICU committee will meet regularly to review and evaluate patient outcomes and the quality of care provided by the PICU. The PICU quality improvement program may be conducted in conjunction with the trauma and emergency operative services program and includes:

(i) Special audit for all PICU deaths;

(ii) Morbidity and mortality review;

(iii) Medical nursing audit, utilization review, tissue review;

(iv) Regularly scheduled multidisciplinary PICU review conference;

(v) Review of prehospital care;

(vi) Published on call schedules for surgeons, neurosurgeons, and orthopedic surgeons; and

(vii) The availability and response times of on call staff specialists must be defined in writing, documented, and continuously monitored.

(6) **Continuing education.** A Level I hospital is subject to the same continuing education requirements as a Level II hospital as set forth in (c)(6) of this Section.

(7) **Organ Procurement.** A Level I hospital is subject to the same organ procurement requirements as a Level II hospital as set forth in (c)(7) of this Section.

(8) **Outreach programs.** A Level I hospital is subject to the same outreach program requirements as a Level II hospital as set forth in (c)(8) in this Section.

(9) **Research programs.** The hospital will have an organized pediatric services research program under the direction of a designated research director. Research groups will meet regularly and all research proposals will be approved by an Institutional Review Board (IRB) prior to launch. The research director will maintain evidence of the productivity of the research program through documentation of presentations and copies of published articles.

310:667-59-15. Classification of emergency dental services

(a) **Level III.** A Level III hospital will provide basic emergency dental services with at least a licensed independent practitioner, registered nurse, licensed practical nurse, or intermediate or paramedic level emergency medical technician on site 24 hours a day. A hospital must be classified at Level III for emergency dental services if it complies with all of this subsection:

- (1) **Clinical services and resources.** Diagnostic, surgical, or medical specialty services are not required.
- (2) **Personnel.** A physician, licensed independent practitioner, registered nurse, licensed practical nurse, or Intermediate, Advanced Emergency Medical Technician (AEMT) or paramedic, as defined in OAC 310:641-1-7, will be on site 24 hours a day.
- (3) **Supplies and equipment.** Drugs necessary for the treatment of dental emergencies such as analgesics and antibiotics will be on site and immediately available:
- (4) **Agreements and policies on transfers.**

(A) The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those requiring stabilizing treatment and transfer to another hospital.

(B) The hospital must have a written agreement with a dentist or oral and maxillofacial surgeon to provide immediate consultative services for dental patients 24 hours a day. These consultative services must include providing instructions for the initiation of appropriate therapy and/or patient referral to an alternate facility or immediate transfer to a facility capable of providing definitive dental care when appropriate.

(b) **Level II.** A Level II hospital will provide emergency dental services with an organized emergency department. A physician and nursing staff must be on site 24 hours a day. The hospital will have basic facilities for the management of minor dental emergencies. A hospital must be classified at Level II for emergency dental services if it complies with all of this subsection:

- (1) **Clinical services and resources.**

(A) **Emergency services.** A physician competent in the care of the seriously ill or injured patient and credentialed by the hospital to provide emergency medical services and nursing personnel must be on site 24 hours a day.

(B) **Dental services.** An appropriately credentialed dental practitioner must be on call 24 hours a day and promptly available in the emergency department.

(C) **Oral and maxillofacial surgery.** An appropriately credentialed oral and maxillofacial surgeon will be on call 24 hours a day and promptly available in the emergency department.

(D) **Operatory.** An operatory or operating room equipped to provide treatment for dental emergencies such as odontalgia, oral hemorrhage, dental abscesses, and subluxated, avulsed, and fractured teeth must be available 24 hours a day.

(E) **Diagnostic imaging.** The hospital's diagnostic x-ray services, including intraoral radiography capability, must be available 24 hours a day. A radiology technologist will be on duty or on call and immediately available 24 hours a day.

(F) **Clinical laboratory service.** The hospital's clinical laboratory services must be available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (ii) Coagulation studies; and
- (iii) Comprehensive microbiology services or at least appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures.

(2) **Personnel.**

(A) **Dental practitioner.** An appropriately credentialed dental practitioner will be available for consultation on site or on call and promptly available in the emergency room 24 hours a day.

(B) **Dental assistant.** A dental assistant or other appropriately trained staff will be on site or on call and promptly available to assist the dental practitioner in the operatory or operating room.

(3) **Supplies and equipment.** In addition to the requirements at OAC 310:667-59-9(a)(3), the the hospital's operatory or operating room will have the following stationary or portable equipment for use in the management of minor dental emergencies on site, functional, and available:

- (A) Contour treatment chair or operating table appropriate for use in dental procedures;
- (B) Dental operative light;
- (C) Dental delivery unit with:
 - (i) High and low-speed handpieces;

- (ii) Three way air/water syringe;
- (iii) High volume suction; and
- (iv) Saliva ejector.

(D) Amalgamator;

(E) Spot welder;

(F) Rubber dams, punch, and clamps;

(G) Sterile procedure sets for:

- (i) Tooth avulsions;
- (ii) Minor alveolar fractures;
- (iii) Endodontic kit; and
- (iv) Soft tissue tray for lacerations.

(H) Appropriate dental tools such as mirrors, explorers, probes, curettes, excavators, burs and stones, rongeurs, elevators, files, reamers, mallet and chisels, mouth props, and amalgam tools as appropriate;

(I) Rotary drill; and

(J) Drugs and consumable supplies necessary for the treatment of dental emergencies such as analgesics, antibiotics, adhesives and cements.

(4) **Policies on transfers.** The policies on transfers are as set forth in (a)(4)(A) of this Section (relating to agreements and policies on transfers).

(c) **Level I.** A Level I hospital will provide comprehensive emergency dental services with an organized dental service and emergency department. A physician and nursing staff must be on site 24 hours a day. An oral and maxillofacial surgeon and anesthesiology services will be available either on duty or on call. The hospital must be able to provide definitive care for complex dental emergencies. A hospital must be classified at Level I for emergency dental services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Emergency services.** A Level I hospital is subject to the same emergency services requirements as a Level II hospital as set forth in (b)(1)(A) of this Section.

(B) **Dental services.** Dental services will be established by the medical staff. Privileges for physicians and dental practitioners participating in the dental service will be determined by the medical staff credentialing process. The dental service will be consulted on all patients with oral-facial pain, infection, swelling, and/or trauma.

(C) **Oral and maxillofacial surgery.** A board certified or board prepared oral and maxillofacial surgeon will be on call 24 hours a day and promptly available in the emergency department.

(D) **Anesthesia.** Anesthesia services must be on call 24 hours a day, promptly available, and administered in accordance with OAC 310:667-25-2.

(E) **Other specialties.** The hospital will also have the following specialty services available as needed either on site or as part of a dental referral network:

- (i) Endodontics;

- (ii) Orthodontics;
- (iii) Pedodontics;
- (iv) Periodontics; and
- (v) Prosthodontics.

(F) **Operatory.** An operatory equipped to provide treatment for dental emergencies such as odontalgia, oral hemorrhage, dental abscesses, and subluxated, avulsed, and fractured teeth must be available 24 hours a day.

(G) **Operating suite.** An operating suite with thermal control equipment for patients and infusion of blood and fluids will be available 24 hours a day.

(H) **Post-anesthesia recovery unit.** The hospital will have a post-anesthesia recovery room or surgical intensive care unit that is in compliance with OAC 310:667-15-7 and nursing personnel and anesthesia services remaining in the unit until the patient is discharged from post-anesthesia care.

(I) **Intensive care unit.** The hospital's intensive care unit must include:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the intensive care unit when it has a patient; and
- (iii) A registered nurse on call and immediately available when the unit does not have a patient.

(J) **Diagnostic imaging.** The hospital's diagnostic x-ray services must be available 24 hours a day. A radiology technologist will be on duty or on call and immediately available 24 hours a day. The diagnostic imaging services provided by the hospital will include:

- (i) Panoramic radiography;
- (ii) Cephalometric radiography; and
- (iii) intraoral radiography.

(K) **Clinical laboratory service.** The hospital's clinical laboratory services must be available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) Comprehensive immunohematology services including blood typing and compatibility testing.
- (ii) A supply of blood and blood products on hand that is properly stored and adequate to meet expected patient needs.
- (iii) The hospital will have access to services provided by a community central blood bank;
- (iv) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing;
- (v) Coagulation studies;
- (vi) Blood gas/pH analysis; and

(vii) Comprehensive microbiology services or at least appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures.

(2) **Personnel.**

(A) **Dental practitioner.** Practitioners board certified or board prepared in endodontics, orthodontics, periodontics, and prosthodontics will be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(B) **Dental assistant.** A dental assistant or other appropriately trained staff will be available to assist the dental practitioner in the operator 24 hours a day.

(3) **Supplies and equipment.** In addition to the requirements at OAC 310:667-59-9(a)(3), the hospital's operator will have the following stationary or portable equipment for use in the management of minor dental emergencies on site, functional, and available:

(A) The supplies and equipment listed for Level II classification in (b)(3)(B) through (J) in this Section; and

(B) Contour treatment chair;

(4) **Policies on transfers.** The policies on transfers are as set forth in (a)(4)(A) of this Section (relating to agreements and policies on transfers).

310:667-59-16. [RESERVED]

[Source: Reserved at 17 Ok Reg 2992, eff 7-13-00]

310:667-59-17. Classification of emergency obstetric and gynecologic services

(a) **Level IV.** A Level IV hospital will provide basic obstetric and gynecologic services, including emergency delivery, with at least a licensed independent practitioner, registered nurse, licensed practical nurse, or Intermediate, Advanced Emergency Medical Technician (AEMT), or paramedic, as defined in OAC 310:641-1-7, on site 24 hours a day. A hospital must be classified at Level IV for emergency obstetric and gynecologic services if it complies with all of this subsection:

(1) **Clinical services and resources.** Diagnostic, surgical, or medical specialty services are not required.

(2) **Personnel.** A physician, licensed independent practitioner, registered nurse, licensed practical nurse, or an AEMT, or paramedic, as defined in OAC 641-1-7, is required on site 24 hours a day. In the absence of a physician, licensed independent practitioner, registered nurse, or paramedic, at least one of the practitioners on duty must have received training in evaluating

obstetric risk factors and protocols for immediate transfer of high risk obstetric cases.

(3) **Supplies and equipment.** In addition to OAC 310:667-59-9(a)(3), the hospital must have the following equipment and supplies on site, functional, and immediately available:

- (A) Obstetrics pack;
- (B) Nitrazine (pH) paper for detecting amniotic fluid when membranes are ruptured;
- (C) Equipment to monitor fetal heart rate and pattern electronically or by auscultation;
- (D) Heat source or procedure for infant warming; and
- (E) Ophthalmic antiseptics for neonates.

(4) **Agreements and policies on transfers.**

(A) The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those who require stabilizing treatment and transfer to another hospital. Written policies and procedures shall include where and how neonates shall be cared for until transfer to an appropriate facility can be completed.

(B) The hospital must have a written agreement with a hospital, or obstetrician-gynecologist, or group of obstetrician-gynecologists to provide immediate consultative services for obstetric and gynecologic patients 24 hours a day. Such services shall include the immediate interpretation of obstetric and neonatal risk factors and providing instructions for the initiation of appropriate therapy and/or patient transfer.

(b) **Level III.** A Level III hospital will provide emergency medical services with an organized emergency department. A physician and nursing staff with special capability in obstetric and gynecologic care are required on site 24 hours a day. A hospital must be classified at Level III for emergency obstetric and gynecologic services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Emergency services.** A physician competent in the care of the emergent obstetric or gynecologic patient and credentialed by the hospital to provide emergency medical services and nursing personnel with special capability in obstetric and gynecologic care must be on site 24 hours a day.

(B) **General surgery.** A board certified, board eligible, or residency trained general surgeon must be on call 24 hours a day and promptly available in the emergency department.

(C) **Anesthesia.** Anesthesia services must be on call 24 hours a day, promptly available, and administered in accordance with OAC 310:667-25-2.

(D) **Operating suite.** An operating suite with thermal control equipment for patients and infusion of blood and fluids must be available 24 hours a day.

(E) **Post-anesthesia recovery unit.** The hospital must have a post-anesthesia recovery room or intensive care unit that is in compliance with OAC 310:667-15-7 with nursing personnel and anesthesia services remaining in the unit until the patient is discharged from post-anesthesia care.

(F) **Intensive care unit.** The hospital's intensive care unit must include:

- (i) Compliance with OAC 310:667-15-7;
- (ii) A registered nurse on duty in the intensive care unit when it has a patient;
- (iii) A registered nurse on call and immediately available when the unit does not have a patient;
- (iv) Written policies defining the minimum staffing requirements for the intensive care unit that must be monitored through the quality improvement program.

(G) **Diagnostic imaging.** The hospital will have diagnostic x-ray and ultrasonography services, including ultrasonography, available 24 hours a day. A radiology technologist and staff designated as qualified to perform ultrasonography will be on duty or on call and immediately available 24 hours a day.

(H) **Clinical laboratory service.** The hospital must have clinical laboratory services available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) Comprehensive immunohematology services including blood typing and compatibility testing;
- (ii) A supply of blood and blood products, including Rho (D) immune globulin on hand that is properly stored and adequate to meet expected patient needs;
- (iii) Access to services provided by a community central blood bank;
- (iv) Standard analysis of blood, urine, and other body fluids to include routine chemistry and hematology testing including urine and serum assays for the beta subunit of human chorionic gonadotropin (β -hCG) and quantitative or semiquantitative urine protein;
- (v) Blood gas/pH;
- (vi) Comprehensive microbiology services or appropriate supplies for the collection, preservation, and transport of clinical specimens for aerobic and anaerobic bacterial, mycobacterial, and fungus cultures;
- (vii) Drug and alcohol screening; and
- (viii) Coagulation studies, including:

- (I) Prothrombin time (PT) and activated partial thromboplastin time (aPTT);
- (II) Fibrinogen; and
- (III) Assay for fibrin degradation products or an equivalent test;

(I) **Social services.** Social services must be available and provided as required in Subchapter 31 of this Chapter.

(2) **Personnel.**

(A) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(B) **Obstetrician-gynecologist.** A physician board certified, board eligible, or residency trained in obstetrics and gynecology must be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(3) **Supplies and equipment.**

(A) **Emergency department.** In addition to the requirements at OAC 310:667-59-9(a)(3), the hospital must have the following equipment and supplies for use in the management of emergent obstetric, gynecologic, and neonatal patients on site, functional, and available in the emergency department, including at least the following:

- (i) The emergency department supplies and equipment listed in (a)(3)(A) through (E) of this Section for Level IV classification;
- (ii) Pulse oximetry with adult and pediatric probes;
- (iii) Drugs necessary for care of the emergent obstetric or gynecologic patient including:

- (I) Oxytocic agents;
- (II) Tocolytic agents;
- (III) Prostaglandins;
- (IV) Ergotic agents;
- (V) Antihypertensives; and
- (VI) Magnesium sulfate.

(iv) Drugs necessary for care of the depressed neonatal patient including:

- (I) Epinephrine;
- (II) Volume expanders
- (III) Sodium bicarbonate;
- (IV) Dextrose solutions; and
- (V) Naloxone hydrochloride.

(v) Sterile procedure trays for episiotomy; and

(vi) Supplies, equipment, and written protocols for the examination of sexual assault victims and for the collection of specimens and the preservation of the chain of evidence including:

- (I) Preassembled sexual assault examination kits;
- (II) Consent, chain of evidence, and sexual assault examination forms; and

(III) Long-wave ultraviolet lamp;

(B) **Post-anesthesia recovery unit.** The post-anesthesia recovery unit will have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;
- (ii) Pulse oximetry;
- (iii) End-tidal CO₂ determination; and
- (iv) Thermal control equipment for patients and infusion of blood, blood products, and other fluids.

(C) **Intensive care unit.** The intensive care unit must have the following supplies and equipment on site, functional, and available for use:

- (i) Equipment for the continuous monitoring of temperature, hemodynamics, and gas exchange;
- (ii) Cardiopulmonary resuscitation cart;
- (iii) Electrocardiograph-oscilloscope-defibrillator-pacer;
- (iv) Sterile surgical sets for:
 - (I) Airway control/cricothyrotomy;
 - (II) Thoracotomy;
 - (III) Vascular access; and
 - (IV) Chest decompression.

(4) **Agreements and policies on transfers.** A Level III hospital is subject to the same agreements and policies on transfers requirement as a Level IV hospital as set forth in (a)(4) of this Section.

(c) **Level II.** A Level II hospital will provide emergency medical services with organized emergency and obstetrics-gynecology and departments. A physician and nursing staff with special capability in obstetric and gynecologic care are required on site 24 hours a day. The hospital will have a dedicated obstetrics unit as well as a newborn nursery and will have the capability to provide immediate delivery by emergency cesarean section. Laparoscopy and laparotomy procedures will be immediately available when required for obstetric and gynecologic emergencies. A hospital must be classified at Level II for emergency obstetric and gynecologic services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Emergency services.** A Level II hospital is subject to the same emergency services requirements as a Level III hospital as set forth in (b)(1)(A) of this Section.

(B) **Obstetrics and gynecology.** The hospital will have an organized obstetrics-gynecology service with appropriately credentialed physicians experienced in obstetric and gynecologic procedures must be on call and immediately available 24 hours a day. Physician members of the obstetric-gynecology service must be board certified, board eligible, or residency trained in obstetrics and gynecology. On call physicians will respond as required by the hospital's policy.

(C) **Obstetrics unit.** The hospital will have a dedicated obstetrics unit available 24 hours a day. Labor, delivery, and recovery areas will be:

- (i) appropriately equipped to manage high-risk pregnancies and deliveries including equipment and medications necessary for maternal and neonatal resuscitation procedures; and
- (ii) staffed with nursing personnel with special capability in obstetric and neonatal care.

(D) **Newborn nursery.** The hospital will have a dedicated newborn nursery appropriately equipped and staffed with nursing personnel with special capability in neonatal care.

(E) **Pediatrics.** A physician board certified, board eligible, or residency trained in pediatrics and competent in the care of pediatric emergencies must be available for consultation on site or immediately available by telephone or other electronic means 24 hours a day.

(F) **General surgery.** A board certified, board eligible, or residency trained general surgeon must be on call 24 hours a day and promptly available.

(G) **Anesthesia.** Anesthesia services must be on call 24 hours a day, promptly available, and administered in accordance with OAC 310:667-25-2.

(H) **Operating suite.** An operating suite with adequate staff and equipment must be immediately available 24 hours a day. The hospital will define and document in writing the minimum staffing requirements for the operating suite. An on call schedule for emergency replacement staff must be maintained.

(I) **Post-anesthesia recovery unit.** A Level II hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(1)(E) of this Section.

(J) **Intensive care unit.** A Level II hospital is subject to the same intensive care unit requirements as a Level III hospital as set forth in (b)(1)(F) of this Section.

(K) **Diagnostic imaging.** The hospital will have diagnostic x-ray, computerized tomography, and ultrasonography services available 24 hours a day. A radiologic technologist, computerized tomography technologist, and staff designated as qualified to perform ultrasonography will be on duty or on call and immediately available 24 hours a day. A single technologist designated as qualified by the radiologist in both diagnostic x-ray and computerized tomography procedures may be used to meet this requirement if an on call schedule of additional diagnostic imaging personnel is maintained. The diagnostic imaging services include:

- (i) Ultrasonography;
 - (I) Transabdominal; and
 - (II) Endovaginal.

- (ii) Computed tomography; and
- (iii) Magnetic resonance imaging.

(L) **Clinical laboratory service.** The hospital must have clinical laboratory services available 24 hours a day. All or part of these services may be provided by arrangements with certified reference laboratories that are available on an emergency basis 24 hours a day. These services include:

- (i) The services listed in (b)(1)(H)(i) through (vii) in this Section for Level III classification;
- (ii) Tests for fetal lung maturity;
- (iii) Serum hormone tests including:
 - (I) Progesterone;
 - (II) Follicle stimulating hormone;
 - (III) Leutinizing hormone; and
 - (IV) Prolactin.
- (iv) Coagulation studies including:
 - (I) Prothrombin time (PT) and activated partial thromboplastin time (aPTT);
 - (II) Plasminogen;
 - (III) Factor assays;
 - (IV) Fibrinogen; and
 - (V) Assay for fibrin degradation products or an equivalent test.

(M) **Respiratory therapy.** Routine respiratory therapy procedures and mechanical ventilators will be available 24 hours a day. Respiratory therapy services will comply with OAC 310:667-23-6.

(N) **Social services.** Social services will be available and provided in accordance with Subchapter 31 of this Chapter.

(2) **Personnel.**

(A) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(B) **Obstetrics-gynecology services director.** The medical staff will designate a physician board certified, board eligible, or residency trained in obstetrics and gynecology and credentialed to provide obstetric and gynecologic care as obstetric-gynecology services director.

(C) **Pediatric services director.** The medical staff will designate a physician board certified, board eligible, or residency trained in pediatrics and credentialed to provide care as pediatric services director.

(D) **Newborn nursery services director.** The medical staff will designate a physician board certified, board eligible, or residency trained in pediatrics and credentialed to provide pediatric care as the newborn nursery services director. The pediatric services director may also serve as the newborn nursery services director.

(E) **Physician qualifications.** Physician members of the obstetrics-gynecology service must be board certified, board eligible, or residency trained in obstetrics and gynecology.

(F) **Training.** Emergency room, obstetrics unit, and newborn nursery nursing personnel must have completed the Pediatric Advanced Life Support Program (PALS) offered through the American Heart Association or have equivalent training.

(3) **Supplies and equipment.**

(A) **Emergency department.** In addition to the requirements at OAC 310:667-59-9(a)(3), the hospital must have the following equipment and supplies for use in the management of emergent obstetric, gynecologic, and neonatal patients on site, functional, and available in the emergency department:

- (i) Obstetrics pack;
- (ii) Nitrazine (pH) paper for detecting amniotic fluid when membranes are ruptured;
- (iii) Equipment to monitor fetal heart rate and pattern electronically;
- (iv) Ophthalmic antiseptics for neonates;
- (v) Pulse oximetry with adult and pediatric probes;
 - (I) Oxytocic agents;
 - (II) Tocolytic agents;
 - (III) Prostaglandins;
 - (IV) Ergotic agents;
 - (V) Antihypertensives; and
 - (VI) Magnesium sulfate.
- (vii) Drugs necessary for care of the depressed neonatal patient including:
 - (I) Epinephrine;
 - (II) Volume expanders
 - (III) Sodium bicarbonate;
 - (IV) Dextrose solutions; and
 - (V) Naloxone hydrochloride.
- (viii) Radiant warmer;
- (ix) Sterile procedure trays for episiotomy; and
- (x) Supplies, equipment, and written protocols for the examination of sexual assault victims and for the collection of specimens and the preservation of the chain of evidence including:
 - (I) Preassembled sexual assault examination kits;
 - (II) Consent, chain of evidence, and sexual assault examination forms; and
 - (II) Long-wave ultraviolet lamp;

(B) **Obstetrics unit.** The obstetrics unit will have the following supplies and equipment on site, functional, and available for use:

- (i) Cardiopulmonary resuscitation cart;

- (ii) Electrocardiograph-oscilloscope-defibrillator-pacer;
- (iii) Equipment for continuous electronic fetal monitoring;
- (iv) Equipment for external tocography
- (v) An open, stable area under a radiant warmer with available oxygen and suction and the following equipment for use in neonatal resuscitation:

- (I) Bulb syringe;
- (II) Assorted suction catheters;
- (III) Neonatal oral airways of various sizes;
- (IV) Neonatal endotracheal tubes of various sizes and stylets;
- (V) Neonatal ventilation masks and bag-mask resuscitator;
- (VI) Neonatal laryngoscope with #0 and #1 blades; and
- (VII) Neonatal orogastric tube.

- (vi) Drugs necessary for care of the depressed neonatal patient including:

- (I) Epinephrine;
- (II) Volume expanders
- (III) Sodium bicarbonate;
- (IV) Dextrose solutions; and
- (V) Naloxone hydrochloride.

(C) **Operating suite.** The operating suite must have the following supplies and equipment on site, functional and available for use:

- (i) Thermal control equipment for patients and infusion of blood, blood products, and other fluids;
- (ii) X-ray capability including c-arm intensifier; and
- (iii) Endoscopes.

(D) **Post-anesthesia recovery unit.** A Level II hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(3)(B) of this Section.

(E) **Intensive care unit.** A Level II hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(3)(B) of this Section.

(4) **Policies on transfers.** The hospital must have written policies defining the medical conditions and circumstances for emergency patients that may be retained for treatment in-house, and for those requiring stabilizing treatment and transfer to another hospital.

(d) **Level I.** A Level I hospital will provide emergency medical services with organized emergency, obstetrics-gynecology and neonatology departments. A physician and nursing staff with special capability in obstetric and gynecologic care are required on site 24 hours a day. The hospital must have a dedicated obstetrics unit as well as a newborn nursery and neonatal intensive care unit. The hospital will have the

capability to provide immediate delivery by emergency cesarean section. Laparoscopy and laparotomy procedures will be immediately available when required for obstetric and gynecologic emergencies. A hospital must be classified at Level I for emergency obstetric and gynecologic services if it complies with all of this subsection:

(1) **Clinical services and resources.**

(A) **Emergency services.** A Level I hospital is subject to the same emergency services requirements as a Level II hospital as set forth in (c)(1)(A) of this Section.

(B) **Obstetrics and gynecology.** A Level I hospital is subject to the same obstetrics and gynecology requirements as a Level II hospital as set forth in (c)(1)(B) of this Section.

(C) **Neonatology.** The hospital will have organized neonatology service with appropriately credentialed physicians experienced in the care of the seriously ill neonatal patient on call and immediately available 24 hours a day. Physician members of the neonatology service must be board certified, board eligible, or residency trained in neonatology. On call physicians will respond as required by the hospital's policy.

(D) **Obstetrics unit.** A Level I hospital is subject to the same obstetrics unit requirements as a Level II hospital as set forth in (c)(1)(C) of this Section.

(E) **Pediatrics.** A Level I hospital is subject to the same pediatrics requirements as a Level II hospital as set forth in (c)(1)(E) of this Section.

(F) **Newborn nursery.** A Level I hospital is subject to the same newborn nursery requirements as a Level II hospital as set forth in (c)(1)(D) of this Section.

(G) **Neonatal intensive care unit.** The hospital will have a dedicated neonatal intensive care unit appropriately equipped and staffed with nursing personnel with special capability in neonatal care.

(i) A board certified, board eligible, or residency trained neonatologist or senior resident competent and appropriately credentialed by the hospital must be on site 24 hours a day at all times when patients are in the unit.

(ii) If a senior neonatology resident is staffing the unit, then an attending neonatologist must be on call and promptly available 24 hours a day.

(H) **General surgery.** A Level I hospital is subject to the same general surgery requirements as a Level II hospital as set forth in (c)(1)(F) of this Section.

(I) **Anesthesia.** A Level I hospital is subject to the same anesthesia requirements as a Level III hospital as set forth in (b)(1)(C) of this Section.

(J) **Operating suite.** A Level I hospital is subject to the same operating suite requirements as a Level II hospital as set forth in (c)(1)(H) of this Section.

(K) **Post-anesthesia recovery unit.** A Level I hospital is subject to the same post-anesthesia recovery unit requirements as a Level III hospital as set forth in (b)(1)(E) of this Section.

(L) **Intensive care unit.** A Level I hospital is subject to the same intensive care unit requirements as a Level III hospital as set forth in (b)(1)(F) of this Section.

(M) **Diagnostic imaging.** The hospital will have diagnostic x-ray, computerized tomography, and ultrasonography services available 24 hours a day. A radiologic technologist, computerized tomography technologist, and staff designated as qualified to perform ultrasonography will be on duty or on call and immediately available 24 hours a day. A single technologist considered qualified by the radiologist in both diagnostic x-ray and computerized tomography procedures may be used to meet this requirement if an on call schedule of additional diagnostic imaging personnel is maintained. The diagnostic imaging services include:

- (i) All diagnostic imaging services listed for Level II classification as set forth in (c)(1)(K) of this Section;
- (ii) Angiography;
- (iii) Neuroradiology; and
- (iv) Nuclear medicine imaging.

(N) **Clinical laboratory service.** A Level I hospital is subject to the same clinical laboratory service requirements as a Level II hospital as set forth in (c)(1)(L) of this Section.

(O) **Respiratory therapy.** A Level I hospital is subject to the same respiratory therapy requirements as a Level II hospital as set forth in (c)(1)(M) of this Section.

(P) **Acute hemodialysis.** The hospital will provide acute hemodialysis services 24 hours a day. All staff providing hemodialysis patient care will have documented hemodialysis training and experience.

(Q) **Social services.** Social services will be available and provided in accordance with Subchapter 31 of this Chapter.

(2) Personnel.

(A) **Emergency services director.** The medical staff will designate a physician credentialed to provide emergency medical care as emergency services director.

(B) **Obstetrics-gynecology services director.** A Level I hospital is subject to the same obstetrics-gynecology services director requirements as a Level II hospital as set forth in (c)(2)(B) of this Section.

(C) **Pediatric services director.** A Level I hospital is subject to the same pediatric services director requirements as a Level II hospital as set forth in (c)(2)(C) of this Section.

(D) **Newborn nursery services director.** A Level I hospital is subject to the same newborn nursery services director requirements as a Level II hospital as set forth in (c)(2)(D) of this Section.

(E) **Neonatology services director.** The medical staff will designate a physician board certified, board eligible, or residency trained in neonatology and credentialed to provide neonatal care as neonatology services director.

(F) **Physician qualifications.**

(i) Physician members of the obstetrics-gynecology service must be board certified, board eligible, or residency trained in obstetrics and gynecology.

(ii) Physician members of the neonatology service must be board certified, board eligible, or residency trained in neonatology.
